**UNITED STATES SHIP Constitution**
**Syracuse Harbour 31st Jan. 1804**

Dear Sir, I write you in great haste. Your favor by the Syren came safe, for which, accept my thanks. I believe the Bashaw has a disposition to make Peace with the United States. For particulars I refer you to Col: Lear. Capt# Bainbridge thinks with me, that if you would afford your services to your Country, by coming up here, and remaining a few weeks with me, to assist at any negotiation that may be entered into with Tripoly: Your knowledge of the Language and people with whom we have to negotiate, would give us advantages which we cannot otherwise have. I wish you to converse with Col: Lear on this subject. You may rely on my endeavors to make your situation on board this ship as pleasant as possible.

Make my respects to Mr# OBrien, and accept my best wishes for your health & happiness.

To Captain Edward Preble, U. S. Navy, from Richard Farquhar, Malta

**MALTA Feb’r 1st 1804**

May it please your Excellency

The Bearer is the Master of a Vessel whom you spoke to in Malta for a Pilot, he is not only well acquainted with the Coast of Tripoli Bengaza & Meauserate &c, but a very active steady man and should you want any more men than he has taken with him now, he would be a very proper person to send over hear for more, as this is the time to get them, for when the Spring of the year comes in the Vessels begins to fit out for their respective Voyages.

As he has got 25 men he hopes your Excellency will permit him to have Uniforms, he has advanced Cash for the men he takes with him.

There is a Vessel arrived hear from Tripoli, the News by hir is much the same as formerly viz that Provisions is still high and by the different Accounts which I have had the People is murmuring much against the Bashaw they seem all to agree that when your Vessels appear off Tripoli with his Brother on Board they will Murder the present Bashaw

there is also a Vessel arrived a few days ago from Alexandria with news from the Bashaw of Derna saying that he is prepairing to retake Derna again, his Consul hear has wrote to him by a ship which sails to morrow for Alexandria he is in hopes you have determined to send him to Alexandria, in one of your Vessels either to bring the Bashaw to Derna or Bengaza as His Excellency is in daylee Expectation of some American Vessel arriving in Alexandria, I understand your Consul hear has got also a Letter from the Bashaw of Derna —

the Bearer has taken his Brother with him & hopes your Excellency will permit him to be in the same Vessel with his Brother
the Argos. English Frigate arrived here yesterday from England & brought one of the Beys of the Momalucks in Egypt and takes him up to Alexandria.

**SYRACUSE HARBOUR 1st Feb 1804 —**

Sir, As I have heard it suggested that the Prize [Intrepid], is going on a secret expedition against the Tripoleens, I should wish you to consider me as a volunteer —

As it is my determination to let no opportunity escape wherein I can render my Country any service on so important an occasion, I should esteem it as a particular favour, to meet your consideration on this Subject —

**NAVY DEPAR 24 Feb 1804**

Your favor of the 16th ulto has been received it contains the first information which has reached me of the suit instituted against you by Mr W. E. Sheffield —

The Department is ready and has always been ready to settle the accounts of Jackson and Sheffield & they ought to call on the Department for a Settlement — If in your official capacity as navy agent you consented under the authority of the Department, to pay them for the draft and model of the ship Adams you are not personally responsible for the fulfilment of the engagement an action cannot be sustained against you and I presume your counsel will so advise you —

The accounts of Jackson & Sheffield for building the ship Adams is yet unsettled and from the documents in our possession it appears that they are considerably in debt to the Department — it would therefore be highly improper in me to authorize any payment of money to them at present —

The enclosed letter to Mr Wm W E. Sheffield and left open for your perusal I will thank you to seal and deliver

**SYRACUSE 2nd Feb 1804 [1804]**

This evening, my Dear Mother, I sail for Tripoli on board of a prize (we took on the 23rd Dec) in company with the Brig Syren Capt. Stewart, for the purpose of burning the Frigate Philadelphia which is now in the possession of the Tripolitans. Lieut. Decatur commands the prize. — We are certain of success, not only in accomplishing that project, but are in hopes to be able to cut out of Tripoli several of their cruisers. Our prize when we took her was bound to Constantinople with presents for the great folks in those parts from the Bashaw of Tripoli, consisting of 50 black Slaves & money appropriated for the purpose of purchasing merchandize — I was then in
the *Constitution*. The Tripolitans we have in close custody, I believe their number amounts to 12. Besides these we have the Grand Segniors ambassador for Tripoli, who was on his return home. After a short cruize off Tripoli we returned here, & the Commodore wishing to make some regulations for the better accommodation of Capt Bainbridge & his officers thought proper to go to Malta. I had the honor of accompanying him thither — We remained ten days during which time we lived on shore: I wrote you a very short letter from thence for which I must beg leave to excuse myself not knowing of any opportunity until the moment the Commodores dispatches were to be sent on board of an English Frigate bound to Gibraltar. My friend Christopher by this time must have arrived in America — I shall expect him out here next summer a Lieutenant on board of one of the Frigates I understand are coming out here —

Before this day week I am in hopes we shall have the happiness of seeing the *Philadelphia* in flames — We shall astonish the Bashaws weak mind with the noise of shot falling about his ears Perhaps some shot "more lucky than the rest may reach his heart" & free our countrymen from Slavery. It is this idea which keeps us all alive here for upon my word nothing can be more detestable than this Syracuse — I have not put my foot on shore here for six weeks & have been a greater part of the time within a stones throw of the place. Malta is a charming place comparatively speaking — There one has some mode of enjoyment — Masquerades Balls Governors Gardens, Parades, fine Ships, & folks to whom you may converse, all which one loses at Syracuse — Is there no hope of a Spanish War? Who would not be a Soldier in these times in Louisiana? At all events there, there is some chance for distinguishing one's self — here we have to go in their very houses before we can make them fight. And the thought of who it is we fight. A parcel of poor wretches without a single spark of honor & in conquering them no honor is to be derived. Does not my Brother the Capt regret having hauled himself up in ordinary? I see his arrival in New York announced in one of the Papers — I presume from that he has been paying you a visit with his *cara sposa*.

What a mountain they have made of a mouse I allude to what I see in the Newspapers concerning our "terrible" affair with the Emperor of Morocco. Capt Rodgers acquired vast applause for burning a Tripolitan ship of 22 Guns — Our Commodores name I am glad to see is mentioned with some éclat. Remember me most affectionately to my Dear Father. Tomorrow is his birthday. Oh! May he see many happy returns of it! Tell him my Dear Mother that I still am

his very affec*te* Son

RA: IZARD jun*

Tell Tom Caroline & Georgy I have not quite forgot them as they shall see some 18 or 20 months hence when I shall again see them

To Stephen Cathalan, Jr., U. S. Commercial Agent, Marseilles, France, from James Leander Cathcart, Leghorn

(Copy) Leghorn 3d Febry 1804

Sir, Since I wrote you last, I have received orders to ascertain where can be procured on the most advantageous terms four Gunboats each mounting a 24 pounder & four Bombards with each a Mortar from ten to Eighteen inches, compleatly equipped & calculated to keep the sea in any weather & two Bombardiers perfect masters of their profession, who are Capable to instruct our young officers in gunnery & Marine Fortification in all its different Branches; If any Such can be engaged a liberal Salary will be given. — I therefore request you to inform me whether Such boats as above described can be procured at Marseilles or Toulon ready built; if not, can they be built there, if they Can, on what terms, & in what time can they be got ready for Sea; if the boats can not be procured, can four brass Cannon 24 pounders & four brass Mortars of the above Calibre with the necessary bombs, balls & ammunition & one or two Bombardiers of the above description, if procurable please to inform me the probable prices of the first & the expectations of the latter.

To quiet any unfavorable apprehensions of the french government, it is only necessary to observe that those boats are to form a part of the United States Squadron Stationed in the Mediterranean & will navigate under the American Flag & be Commanded by national Officers —

By giving me a speedy answer you will render the United States a service & Confer an obligation upon, D't S't

[NA. SDA. Disp., France, Vol. 9, 1803-1805.]

To Secretary of the Navy from Captain Edward Preble, U. S. Navy

U: S. SHIP Constitution
Syracuse Harbour Febt 3rd 1804

Sir, I have the honor to inform you that, since my last letter from Malta, I have discovered that the Vessel [Mastico, renamed Intrepid] which I captured off Tripoly the 23rd December last, was at Anchor in the Harbour when the Philadelphia ran on the rocks. That as soon as the Frigate took the ground, the Captain took on board upwards of one hundred Tripolines, hauled down the Turkish, and hoisted Tripoline Colours; Slipped his cables, and went out to the attack; and as soon as the Frigate surrendered, the Captain and Men proceeded on board the Philadelphia; plundered the Officers; made prisoners of, and conducted them on shore to the Bashaw of Tripoly. As I have clear proof of their having acted thus hostilely towards our Flag the moment they have an opportunity, I have a right to believe, they would not hesitate to do it again, if I should release the Vessel and crew, and they should fall in with an American Vessel of inferior force. I have, therefore, detained her for adjudication; and as she is not a proper Vessel to cross the Atlantic at this season of the year, I shall forward all the papers necessary for her condemnation. She has been valued at 1800 dollars, and as there cannot be the smallest doubt of her being a lawful prize, I have fitted her out as a cruiser, with 4 Guns & 70 Volunteers from the Squadron, among whom, are 10 Officers under the Command of Lieut Decatur. She sailed last evening for Tripoly; the object is, to destroy the Philadelphia. She sailed in company with the Syren Brig Lieut Stewart, who has orders to assist her with Boats in effecting the main object, and cover a retreat. I enclose you copies of their orders. I am confident of their success if the weather proves favourable. The prize being Ketch or Bombard rigged, and neither of our Brigs ever having been off Tripoly, they will not probably create suspicion; particularly as the Brig will be disguised before she approaches the coast, to give her the appearance of a Mercht Vessel. Our Frigates and Schooners are so well known, that they create alarm the moment they are seen.
The *Nautilus* and *Vixen* sail tomorrow morning on a cruise; they are to proceed to Tunis Bay, and communicate with Mr. Davis. The *Vixen* then goes to Algiers, and the *Nautilus* off Tripoly.

I have given this ship's rigging a thorough overhaul, painted the Hull, and shall immediately proceed to Sea.

I wrote to Naples some time since, to hire or purchase, three or four Gun & Mortar Boats, prepared with Guns and Mortars. If I succeed in procuring them, I can attach them to the different Vessels as their Boats, and I think work with effect on Tripoly, as soon as the Spring opens. I mentioned in my last letter that the Bashaw's Agent at Malta had consented to make peace with us, on the following terms Viz. No pecuniary consideration for Peace or Tribute. No consular present, except a small one with the Consul that may be first appointed. A schooner in exchange for the Frigate; and 500 dollars for the ransom of each of her Officers and Crew, after exchanging as many Americans for Tripolines, as we have Tripolines to give them —

Say 300 American Captives
Deduct _60_ Tripoline prisoners to be exchanged
leaves _240_ Americans to ransom at $500 p't. $120,000

He afterwards concluded, that the Bashaw would take One hundred thousand dollars for ransom, we giving up the Tripoline Prisoners, and make peace as above. I have written to Col Lear on the subject for his advice what to do, if the Bashaw lessens his demand as I suspect he will, should the *Philadelphia* be destroyed. If it was not for the situation of our unfortunate Country Men, I should be sorry to have peace with the Bashaw, until we could oblige him to beg for it as a favour, and sign any treaty that might be dictated to him. I am anxiously wishing for the favourable season to arrive, when we can keep constantly near Tripoly; closely blockade their ports, and annoy their Coast, to prevent the possibility of their Vessels cruising, destroy their commerce, and distress their City — We ought to have a Brig & Schooner to cruise between Cape Bon and the West end of Sicily; A Brig or Schooner off Cape Mazuratt to the south of Tripoly a Brig on the coast of Calabria; two Frigates with one Schooner and some Gun and Mortar Boats before Tripoly; and a Brig or Schooner to cruise from Derne to Bengaza. With such a force so disposed, or with Troops, Tripoly would soon be brought to any terms we might please to dictate. Gun and Mortar Boats are for the Summer service most essential.

I shall write you by every opportunity; and I now enclose you sundry papers for your information.

I sent to Captain Bainbridge One thousand dollars from Malta last Week, and a quantity of clothing for his Officers &c. I conceive it my duty to attend to their Wants, and shall most certainly do so. Captain B — complains of not having rec'd letters from me, I have written a number, and it has been altogether the fault of M't Pulis, that they have not been forwarded, together with a supply of necessaries left with him for that purpose — Whilst I was at Malta I detected M't Pulis in a transaction of a very unpleasant Nature: he had received a large number of letters from America for the Officers of the Squadron; and some from the Officers of the Squadron for their friends in the Mediterranean, America and London he kept these
letters on hand a long time; by accident I discovered that he had a large number in his possession and requested a sight of them; he at first hesitated, but as I persisted in my right of seeing them, he produced four large packages directed to the care of Mr Gavino at Gibraltar to be forwarded to the U S, which he said were letters from himself and others to their friends in America. I knew that several of them were for the Navy dep' and an English Man of War to sail immediately for Gibraltar, I insisted on his opening the packages and giving me all the letters from the Officers of the Squadron. He did not choose to do it, which increased my suspicions that all was not right, and I opened one of the Packages in presence of him and four of my Officers in which I discovered the letters that had come out for the Officers of the Squadron for some time past and all the letters that had been for the Officers at Tripoly kept by Mr Pulis and that he was actually sending them back to America. All the other packages were in the same situation, and neither of them contained a single letter from him — Mr Pulis was formerly Consul to the Bashaw of Tripoly, has no respectability attached to his character — cannot speak a word of English, and is by no means a proper representative for the U S to have in the Island of Malta — I wrote you from Malta that I had employed Mr William Higgins as an Agent for the Squadron; he has every qualification to make a respectable Consul, and I wish for the good of the Service, that the change may take place; be assured I have no other Motive

UNITED STATES SHIP Constitution
Syracuse Harbour Feb. 3rd 1804.

Sir, The Vixen and Nautilus Captains Smith & Somers are ordered to touch at Tunis for information, and to receive any communications you may have to make. The Vixen proceeds to Algiers, and shall take your dispatches for the West, and call at Tunis on her return. The Nautilus is ordered to cruise Eastward, and it is probable will fall in with me soon. I shall be glad to hear from you by her. It will not be long before I shall call at Tunis and hope then to establish some mode of frequent communication. I am making preparations for annoying the Tripolines in a way they have not been accustomed to as soon as the Spring opens. I enclose you extracts from C — Bainbridge’s letter of the 18th Ulto — I have made a prize of the Vessel I captured off Tripoly, as she was under Tripoline Colours at the Capture of the Philadelphia with more than 100 Tripolines on board, and one of the first Vessels that sent her Boats to Board that unfortunate Ship; and the Captain of her one of the most active men in taking the prisoners, plundering them, & conducting them on shore to the Bashaw of Tripoly —

I refer you to Captain Smith for further information, and am with esteem & respect

[LC. EPP, LB, Dec. 1803-April 1804.]

U. S. FRIGATE Constitution
Syracuse Harbor Feb 3d 1804.

SIR You will Sail tomorrow morning in Company with the Vixen for Tunis Bay, after having had communication with the shore, if you recieve information that can be depended on of any Tripoline Cruisers having gone to the West you may take that rout most likely to fall in with them according to the Information you may recieve but if you do not hear of any such cruisers having passed to the westward you will proceed to the Coast of Tripoly and off Cape Massurat, Cruize there ten or twelve days and return to this Port — take on board as much provisions and water as you conveniently can and proceed to the Blockade of Tripoly.

[LC. EPP, Order Book, May 1803-June 1805.]

To Lieutenant John Smith, U. S. Navy, commanding U. S. Schooner Vixen, from Captain Edward Preble, U. S. Navy

U. S. FRIGATE Constitution
Syracuse Harbor Feb 3d 1804

SIR, You will sail tomorrow morning for Tunis, deliver the letters with which you are charged for Geo: Davis Esquire and proceed by the shortest rout to Algiers and deliver the dispatches for Col' Lear; If you should while at Tunis or Algiers, receive information to be depended on, of any Tripolitan Cruisers having passed to the Westward, You will take that route which will, in your opinion, be most likely to fall in with them according to the Information you have recieved, Cruize ten or twelve days and return to Algiers, take on board Col' Lear and R' O'Brien Esquire or either of them or their dispatches and return to this place; Take in as much provisions and water as you can conveniently stow and proceed to the Blockade of Tripoly. You will however while at Algiers comply with Col' Lear's request in any thing essential for the Good of the Service — You are to capture all Tripoline or other Vessels on which Tripoline property is laden which you may happen to fall in with. You are not to suffer the vessels of any nation to enter or to have commerce with Tripoly, but have a right to treat as an Enemy whoever may endeavor to enter that place or carry any thing to it whilst blockaded by us. You are to respect the rights of Nations with whom we are at Peace and not to capture Vessels within the Jurisdictional limits or under the protection of such nations — You are at all times (as far as may be in your power) to Succour Aid, Relieve, and Free any American Vessel which you may happen to see attacked by the Enemy or in their possession

The Officers of the Vixen may recieve payments of money from time to time, but no advance beyond what may be due them — Should you want money for the necessary contingent expences of the Vixen, you are to draw on the Secretary of the Navy when it can be done and when it cannot you may draw on me, expressing in either case the purpose for which you draw your Bills.

You will keep me regularly informed from time to time of all your proceedings —

P. S. There are two Maltese Vessels who have my passports untill the first of March Next: They are to Proceed to Tripoly in ballast
and from thence to Malta with *Bullocks only* for the British Garrison there —

To Captain Edward Preble, U. S. Navy, from Secretary of the Navy

*NAVY DEP*

*Feb 4, 1804.*

Your favor of the 12th Nov enclosing your circular notification of the blockade of the Port of Tripoli, I have received. —

Sensible, as you must be, that it is the interest as well as the disposition of the United States to maintain the rights of neutral nations, you will, I trust, cautiously avoid whatever may appear to you to be incompatible with those rights. It is, however, deemed necessary and I am charged by the President to state to you what, in his opinion, characterizes a blockade. I have therefore to inform you that the trade of a neutral nation in articles, not contraband, cannot be rightfully obstructed to any port not actually blockaded by a force so disposed before it as to create an evident danger of entering it. Whenever therefore you shall have thus formed a blockade of the port of Tripoli, you will have a right to prevent any vessel from entering it and to capture for adjudication any vessel that shall attempt to enter the same with a knowledge of the existence of the blockade. You will, however, not take as prize any vessel attempting to enter the Port of Tripoli without such knowledge; but in every case of an attempt to enter without a previous knowledge of the existence of the blockade, you will give the commanding Officer of such vessel notice of such blockade and forewarn him from entering. And if after such a notification such vessel should again attempt to enter the same Port, you will be justifiable in sending her into port for adjudication.

You will, Sir, hence perceive that you are to consider your circular communication to the Neutral Powers, not as an evidence that every person attempting to enter had previous knowledge of the blockade, but merely as a friendly notification to them of the blockade in order that they might make the necessary arrangements for the discontinuance of all commerce with such blockaded Port. —

MAY IT PLEASE YOUR EXCELLENCY

In consequence of the different Acc's rec'd from Tripoli, and the Promises your Excellency made to assist the Bashaw of Derna to recover his Kingdom of Tripoli, I have advanced money on Acc. of the Bashaw and so confident I am of his recovering Tripoli, with the assistance of the Americans that I will advance him more and share in the Danger also

when your Excellency left this you told me that you would Either come hear in two or three weeks or send an Officer to arrange every thing with regard to assisting the now Bashaw, by sending his Consul & freinds to Alexandria. then he would soon take Derna & Bengazi, this would not only astonish his Brother the Bashaw of Tripoli but would be of great advantage to Your Excellency in fresh Provisions & this would not only astonish his Brother the Bashaw of Tripoli but would be of great advantage to Your Excellency in fresh Provisions & every thing would be ready for attack on Tripoli when you rec'd a little more Assistance but many People is of oppinion that with the Vessels you have now & the Bashaw to land at same time that they would give up the Place Emeadely

if your Excellency should think the Bombard I send with this will be of any service in going for the Bashaw with one of your Vessels I will send it at my expence

To Hon. Joseph H. Nicholson, United States Congress, from Secretary of the Navy
8th Congress 1st Session

COMMUNICATED TO THE HOUSE OF REPRESENTATIVES, FEBRUARY 17, 1804.

Navy Department, February 7, 1804.

Sr: I have received your letter of the 4th instant. The arrangements contemplated at the navy yard at this place are —
1st. To discontinue the services of certain officers and men who have been found to be superfluous.

2d. Instead of entering a certain portion of men for each ship, and as the peace establishment law directs, attaching them permanently to such ship, to enter the men for the general service of the yard, and to assign to them one ship, as a place of eating, sleeping, &c.

The officers proposed to be discontinued may retire on half pay, like other officers of the navy not in actual service.

The accompanying copy of a letter from Captain Cassin to me, exhibits a detailed view of the grounds upon which the proposed arrangements are founded.

Statement B exhibits a view of the officers and men at present employed at the yard and on board of the ships in ordinary; also a view of the officers and men proposed to be discontinued, and of those proposed to be retained.

Statement C is an estimate of the saving which the adoption of the contemplated arrangements would produce.

I have the honor to be, sir, respectfully,
Your most obedient servant,

ROBERT SMITH.

Honorable JOSEPH NICHOLSON.

A.

To Secretary of the Navy from Lieutenant John Cassin, U. S. Navy

JANUARY 23, 1804.

Sir: Since I have had the honor of being entrusted with the charge of the ships in ordinary, many objections to the system prescribed by the act of Congress, providing for a naval peace establishment, in relation to the officering and manning the vessels in ordinary, have occurred to me. To provide a remedy, and suggest it for your consideration, I have reflected much on the subject, and have advised with gentlemen of the first practical information. The result I now beg leave, respectfully, to submit:

By the act of March 3, 1801, it is provided that there shall be permanently attached to each frigate laid up in ordinary, one sailing-master, one boatswain, one gunner, one carpenter, one cook, one sergeant, or corporal of marines, and eight marines; and to the large frigates, twelve, and to the small frigates, ten seamen. The sailing-master of each ship to have the general care and superintendence of the ship, and generally to execute such duties of a purser as may be necessary.

Agreeably to the provisions of this law, and the instructions which you have, from time to time, honored me with, the ships placed under my care have heretofore been officered and manned. My objections to the present system, are, 1st. The officers and men being dispersed in small squadrons on board of a number of ships, cannot be collected with that facility or despatch which is desirable.

2d. There being a squadron of men on board of each ship, there must necessarily be a fire kept on board each ship to cook at, and in proportion to the number of fires is our danger of suffering from them.

3d. The officers cannot be sufficiently employed, and our experience has demonstrated that even good officers will degenerate if not actively employed. It will be perceived, in the sequel, that there are other
objections to the present system. They are, however, subordinate to
the three principal objections above recited, and proceed from them.

With respect to the first objection, it is obviously desirable that
our force should be concentrated as much as possible. If all were
drawn from one point, it could be applied at a moment's warning. For
many days together the services of the men are required for one
common object; every day, therefore, when their services are so
required, we unavoidably lose time in collecting them.

2dly. It is manifestly true that, under the present system, we are
exposed to great and constant danger from fire, and a considerable
proportion of the time of the men is unavoidably employed in cleaning
up dirt made by themselves on board of their respective vessels, and
dirt is a powerful auxiliary in rotting a ship.

3dly. As our officers are not sufficiently employed, they will not avoid
setting an evil example of idleness and inactivity. While at sea,
sailing-masters, boatswains, gunners, and carpenters, have all impor-
tant duties to discharge, and they would have important duties in a
vessel in ordinary, if all the rigging, sails, cables, guns, spars, &c.
were kept on board.

But, under the present system, every article belonging to these
departments is taken from on board the vessels, and deposited on
shore, and neither of these officers have a single article under their
charge, excepting the master, who, under my superintending control,
has the general charge of the ship; our experience having evinced
the inexpediency of requiring masters to perform the duties of pursers,
the provision which has been substituted will, I have no doubt, be
found a very salutary one.

Having suggested these defects in the present system, it becomes
me also to suggest a remedy, which I do, with great deference, by
proposing—

1st. That the establishment of officers and men at the navy yard
shall consist of only the following:

1 Master of the yard,
1 Head carpenter and constructor, with his crew,
1 Purser,
1 Clerk, to keep the account of the stores,
1 Clerk of the yard,
2 Boatswains,
2 Gunners, one sail-maker,
1 Ship-keeper to each ship, and
100 Seamen, and three guards of marines,
Plumber, blacksmith, and crew,
Block-maker and crew,
Cooper and crew.

We have at present:

10 Sailingmasters,
1 Carpenter, head and crew,
11 Boatswains,
11 Gunners,
11 Carpenters, one sail-maker,
1 Clerk, to keep the account of the stores,
1 Purser.

We have at present:

1 Clerk of the yard,
Plumber, blacksmith, and crew,
Block-maker and crew,
Cooper and crew.

2d. That all the men have their cooking done, diet and sleep, on
board of one ship, or in a house to be built for the purpose. This
arrangement would not only diminish the expense, as appears by
paper A, and increase the security of the public property, but would
enable me to discharge the duties assigned to me with increased
facility and despatch.
Under the proposed arrangement, it would be the duty of the master of the yard to attend to laying down the buoys, marking out the channel, to be in readiness with the proper pilots to go on board of ships of the United States, at the mouth of the branch, and to bring them up to their moorings, and take them from thence to sea; to be vigilant in despatching boats necessarily provided for the relief of such vessels coming into port, and for the discharge of stores, &c. having them carefully conveyed to the warehouses appropriated to the same. To visit the ships in ordinary at least once a day, in order that they should be kept clean and sweet, and properly ventilated to prevent decay, and in case of delinquency to report thereof. When any ship of ships should be ordered for sea, to attend particularly to the distribution of officers and men, as may be found necessary to facilitate the execution of such order. To state from under his hand a proportion of rigging, ground tackle, and stores, for the boatswains, that the superintendent may warrant the store-keeper in the issue thereof. He is to specify the size, length, and quantity, of each required, in order to frame indentures for the boatswains of each ship to sign previous to leaving port. When it becomes necessary for the crews in ordinary to perform duty in the yard, to regulate the distribution of officers and men for the better performance thereof; to attend to the moorings of the ships in proper season; to see the cables well secured from ice or other injury; their boats carefully collected and placed under cover, when no longer necessary to be exposed to the weather; to attend in person on board of ships removing from their moorings to dock, &c. It is also necessary that he should pay great care and attention to the ships' spars received at the navy yard, and suggest such measures as will prevent their decay. It is further necessary that he should visit the warehouses frequently, and examine the stores of each ship, placing them in a state of forwardness, as far as the state of ordinary will admit.

The boatswains and gunners would be placed under the immediate eye of the master of the yard, and should have the particular charge and direction of crews employed in their respective departments.

The three guards of marines would be placed, one on board the headmost and one on board the sternmost ships, to prevent boats coming inside of the moorings at night, &c. and one guard in the yard to prevent desertion and to guard the public property there.

The duties of the other officers have already been prescribed to them by you, and are well known to themselves.

Thus, sir, I have taken the liberty of suggesting to you the aforementioned arrangement, which, in my opinion, would effectually remove all the obstacles at present opposed to the security of the public property committed to my care, and to the due and prompt execution of any orders with which you may honor me, as superintendent of the yard.

All which is most respectfully submitted.

I have the honor to be, sir, your obedient humble servant,

John Cassin,
Superintendent Navy Yard.

Honorable Robert Smith,
Secretary of the Navy.
At present we consume annually about one hundred and thirty cords of wood, and one thousand bushels of coal. Under the proposed arrangement forty cords of wood and two hundred and fifty bushels of coal would be sufficient, and the proposed arrangement contemplates our dispensing with the service of
9 Sailing masters,
9 Boatswains,
9 Gunners,
11 Carpenters,
30 Seamen,
8 Guards of marines;
All of which, it will be found, diminish the expenses of the yard from twenty to thirty thousand dollars per annum. If the sailing masters, boatswains, gunners, and carpenters, proposed to be dispensed with, were furloughed and put on half pay, in that case the saving to the public would be upwards of twenty thousand dollars a year.

To Captain Edward Preble, U. S. Navy, from Levett Harris, U. S. Consul General, St. Petersburg, Russia

CONSULATE OF THE UNITED STATES OF AMERICA
St. Petersburg 26 Jan. — 7 February 1804

Sir, The unfortunate news of the loss of the Frigate Philadelphia reached this about two weeks since, being however without information from any of my Colleagues on the subject, I was induced for some time to encourage doubts of its truth; but it is with deep regret I have to add, that the intelligence received by the two last mails is such, as to leave my error too manifest.

As soon as this fatal information was intitled to credence, I delayed not a moment to address an official note to the Grand Chancellor of this Empire, soliciting the influence of His Imperial Majesty with the Turkish Government in behalf of the Officers and Crew, who by this disaster fell a prey to the merciless barbarians of Tripolie — You must be convinced of the importance of an intercession so ascendant as that of a Monarch of Russia, Who, from the eminent position He has taken the present War, has added weight to the power and Consequence which He maintains throughout Europe. I have the most cordial satisfaction Sir, in felicitating you and my Country on the magnanimous part which His Imperial Majesty has deigned on this occasion so promptly to take, and I delay not a moment to transmit the inclosed Copy of the Chancellors letter that you, and all attached to the Squadron under your Command, may share in the general gratification it is calculated to produce.

If no effective measures have been employed, on your receipt of this, in behalf of our Suffering fellow Citizens, you will be too sensible of the powerful influence of the Court of St Petersburg at Constantinople, to delay improving the value of its interposition: It will in that case perhaps, conduct you to a Correspondence with M. d'Italinsky Russian Ambassador there, the result whereof, I cannot doubt, will be as satisfactory as the event to which it may lead, must be fortunate and consolatory.

LEVETT HARRIS.

SIR, Mr. Dyson has mentioned to me that on application you would afford me your assistance in procuring a few Gun and Mortar Boats. I am in want of four of the former, and two or three of the latter, all of the largest size. The Gun Boats to carry a long 24 or 32 Pounder, and the Mortar Boats a ten inch Mortar each — I wish the Boats to be in compleat order with Guns and Mortars and shall want shot and shells, suitable for the same. You will lay me under a great obligation by writing to some of your friends at Naples who have influence with the Court to endeavour to obtain an order that my wants may be supplied — It is said that there are some good Mortar Boats at
Palermo, and I believe you have some at Messina. I beg your early attention to this business and hope soon to have the pleasure of personally acknowledging the favour.

MALTA 10th Feb'ry 1804

DEAR SIR. I moreover add you these few lines, in order to have the honour of informing you, that two days past, has arrived at this place, a Vessel from Alexandria in Egypt, with whom I have had the pleasure of receiving a letter from the Basha of Tripoly's Brother, who at present resides at that place.

And who writes to me in the following Manner. — That he would be eternally kept at the disposal of the United States of America, if they would protect and help him (as Commodore Morris had promised him, he would write to our Government about it) And that having such protection, he is sure would enjoy of the Command of the Regence of Tripoly. —

I beg you to honour me with an Answer concerning this affair, that I may Answer to the Dey of Alexandria respecting the same. — * * *

SYRACUSE HARBOUR Feb'ry 10th 1804 —

SIR You will proceed to Messina with the Enterprise, deliver the Letters with which you are charg'd, Examine the Gun and Mortar boats there, and endeavour to know if any of the largest size are for Sale, Enquire what Guns or Mortars can be procured, what Vessels suitable for Gun Boats or light Cruizers are for Sale or Charter, and
at what rate. You will stay only two days at Messina and return directly to this place. You may take under Convoy any American Vessels bound to the Westward and from hence I will give them protection as far as Algiers. —

GIBRALTER BAY 10th Feb. 1804

Sir, As the Ship that brings this is under way, I have but a moment to inform you, that I arrived here two days since from Cadiz, and Tangier, and have the pleasure to acquaint you, that all is peacible on this Station, The Emperors Ships are all dismantled, and no attempt has been made to equip any of them for Sea since you left this.

I am now taking on board Provisions & Water, and shall in a few days run up as far as Cape de Gatt, and call at Malaga, as soon as the Communication is open with that part of Spain — The Schooner with Gun Carriages, is hourly expected here, should she arrive, before I leave this, I shall run over to Tangier with her, and attend to their delivery.

It is unfortunate, that I happened to be absent from this, when the Store Ship arrived, as so good an opportunity seldom offers for sending Letters to Malta.

I have no news to send you, but have collected a few Papers at Cadiz, and this place, and hope you will receive them.

To Richard Harrison, Auditor of the Treasury, from Secretary of State

DEPARTMENT OF STATE,
Feb 11th 1804.

Sir, I return the documents enclosed in your letter of the 10th Ult. in relation to Mr Eaton's accounts. On a view of the contingent expenses as now specified and explained it seems proper that they
be admitted as far as the items of which they consist are comprised within the rules established by my letter of the 11th July last; and the following may also be admitted, viz: Customary presents at public feasts, expenses of horses & carriages, repairs of the house & appurtenances, hire of boats, porterage, postage, sums paid to Couriers, and small presents to Messengers coming on public business.

On the reference of the demand on account of the Gloria to the Navy Department it was rejected under the idea that no such addition could be made to the Naval establishment without an express legal sanction, but from the nature of the service for which she was destined she may be looked upon as retained for giving and receiving intelligence. Under this impression her hire may be settled at a reasonable rate for the period she may have been actually employed in such service. The last charge of 10,131-781100 Dollars under date of August 1802, is under all circumstances of the case not admissible under any proper exercise of the discretion vested in the Executive.

As the Bey of Tunis has admitted the receipt of the Military and Naval Stores due to him in consideration of the peace, it may be omitted to charge M't Eaton with them.

To Captain William Bainbridge, U. S. Navy, from Tobias Lear, U. S. Consul General, Algiers

ALGIERS Febt 12th 1804

DEAR SIR I had the pleasure of writing to you on the 16th of December, under cover to D't Davis, our Charge d’Affairs at Tunis, and forwarded a copy on the 2d ins1 through the same channel. I also wrote to Citizen Beaussier, the Commissary Gen1 of the French Republic, at the same time, and enclosed a letter for you from M't Thainville the French Agent here. Immediately on hearing of your misfortune I authorized D't Davis to give every necessary supply to yourself & our unfortunate fellow Citizens, with you, and to enable him to do so, I placed a credit of ten thousand dollars in his hands. Since that I have rec'd a letter from D't Davis of the 27th of Decr acknowledging the receipt of my letter &c. and enclosing a copy of his to you on the 20th of Decr —

I sent to our Gov't the account of your misfortune, as soon as it came to my knowledge, and of the steps which I had taken in consequence, and have the pleasure to know that my letters have gone from Alicant to the U. S. by good & safe oppertunities. —

I yesterday rec'd a letter from the Hon: Charles Pinkney, our Minister at Madrid, in which he informs me, that upon hearing of your misfortune, he had applied to the French & British Ministers at Madrid to write to the Agents of their respective nations, at Tripoli, to use their best endeavours that the unfortunate situation of yourself & fellow Citizens might be rendered as comfortable as possible in Captivity, and authorized them to use 3 or 4000 dollars, if necessary, to supply your immediate wants, and look to him for reimbursement; adding that he did this without any special authority from our Gov't knowing that our affairs with Barbary were committed to the care of Commodore Preble & myself; but he was led to do it from motives of humanity, lest I might not have had timely notice of your misfortune, or any accident sh't retard supplies from this quarter. — He requests
me to assure you & the others of our fellow Citizens in Captivity of his sincere commisseration, & earnest desire to render you every service in his power. —

At the same time I received a letter from M' Cathcart, dated at Leghorn Decr 13th informing me that he had authorized M' Nyssen, the Danish Consul at Tripoli, to furnish 3 or 4000 dollars for your use, and that he sh'D purchase two suits for each man from his private funds. The style of M' Cathcarts letter to me was arrogant & dictatorial, and carrying with it an idea that he was the person empower'd to do these things. He tells M' Nyssen that as he has no more cash, he shall write to our Agents at Algiers to furnish him further, & expects that I shall do it. — Had M'C any reason to believe me ignorant of my powers & duties, or neglegent in attending to them, he might well have written in this manner. — M'C should consider that he is now but a private Citizen; & further, he should remember, that his conduct has given disgust (whether right or wrong) to the Barbary powers; and therefore it could do no good to our affairs for him to assume an agency in them. — Had humanity alone dictated this measure I am sure no one would have given him more credit than myself; but I see in it more of a wish to appear consequential & arrogate to himself a power which he possesses not, than anything else. I am however, sincerely happy that there are so many sources of supplies for our unfortunate Countrymen. —

I hope, my dear Bainbridge, you will not think hardly of me for speaking thus of a man, who has taken measures for the relief of those of our Countrymen who are in misfortune. God forbid I should do any thing but thank him for the act; but I confess, the manner in which he has done it, as it relates to me, has wound my feelings; for I trust that yourself & those with you will have no cause to accuse me of inattention to your wants.

Affairs between the British & this Regency have assumed a very serious aspect. — In April last the Dey sent M' Falcon, the British Consul out of this Regency, with marks of high indignity; and soon after his Cruizers to a number of Vessels having the passports of General Ball & others, condemned & sold vessels & cargoes, and kept the crew in slavery. — This business was dormant here 'till the 16th ultimo, when 8 British Ships of the line, with Lord Nelson, in the Victory, appeared off[f] the Harbour. Cap't Keets came to anchor in the Superb of 74 Guns, with M' Falcon on board. The letters of Lord Nelson to the Dey, insisting upon his receiving M' F. again as Consul, making an apology for sending him out of the Country, in the manner he did, and giving up the Crews of those Vessels bearing British passports, & making indemification for the Vessels & Cargoes, were received by him with great indignity. Cap't Keets had an interview with the Dey on the 16th in which he urged those points with high Language, such as the Dey never heard before. The Dey retorted and much altercation ensued. The Dey absolutely refused to receive M' Falcon again, or to yield any one point. — The next day the Ships stood into the Bay. Cap't Keets came on shore again; but the Dey refused to see him, saying he had given him his answer yesterday. Every preperation was made for defence. An immediate attack was expected; but the Ships tacked & stood out of the Bay again. The next day they were 5 or 6 Leagues to the N.E. (excepting the Superb, which stood on & off in the Bay; but had no communication with
the shore) calm or light airs all day. On the 19th the Ship disappeared, and have not been seen since. The heroic character of Lord Nelson forbids the idea of fear, on the part of the British, with such a force; and there can be no doubt but he was called off on other business which could not be delayed; particularly as another Ship joined him on the morning of his departure. — Thus stands the business & we are in anxious expectation of the issue. —

This appearance of the British fleet has caused some commotion here, and much irritation against the Jews, who are supposed to have been the cause of the dispute with the British. Busnah, the Jew, was attacked by a Turk in the Street & slightly wounded. The whole paternity are in fear & trembling, and frequent robberies which happen in the neighbourhood of the City, causes no small degree of alarm: — Indeed there seems to be a discontent prevailing which threatens serious consequences. —

I have not received any letters from the U. States since my arrival here; nor heard a word from Commodore Preble since he left this Bay on the 21st of Novr. By a letter which I received yesterday from Mr Gavino, he informs me that a Vessel arrived from Baltimore which brings accounts of Capt Sterretts recruiting men for the Essex, which may be daily expected in this Sea. —

I feel anxious to hear from you & know the situation of yourself, your Officers & men, and many other important points in which you will be able to give me information. —

Mr O'Brien is still here, his wife has lately presented him with a fine Boy, and I presume they will hardly depart untill the season is more favourable. — They send their best regards to you. —

Mrs Lear desires me to tell you how much she thinks of yourself & our other fellow citizens in captivity, and how anxiously she wishes your deliverance.

Remember me to those about you. I need not say you must bear your misfortune like men; for I know you will do it; and with my best wishes you may be assured that everything will be done for you in the power of,

TOBIAS LEAR

Marseilles 13th Feb? 1804

Sir I have the honor to beg your reference to the inclosed Copy of a Letter I have received yesterday from J. Lea't Cathcart who was our Consul at Tripoly, now in Leghorn.

His demands Could not be executed here or at Toulon unless this Government should grant us the permission to purchase, build or fit out such vessels & export the ammunition desired, which is forbidden by the existing laws of France — It is also doubtfull, whether this Government would consent Such an armament be made in the Ports of France by a power in war against tripoly.

I Should have wrote already to the Prefect Maritim at Toulon on that Subject, but he could do nothing — without orders from the Minister of Marine — This being an object of dyplomacy, which, if obtained, must be kept Secret, I cannot apply to any to treat this matter with this Minister or that of foreign Relations than to you, Sir, to do it properly & Efficaciously; — If they Should have Such Vessells not to be employed in this war against England, they might wish to Sell them and give orders at Toulon in Conformity or let us build them at Toulon, La Seyne or Marseilles after their own Models; & I hope they could be built & Ready two months after such permission granted Should have reached me.

Unfortunately we have too many Americans in Captivity at Tripoly, when the Sweeds threatened the Bey of Tripoly of a Bombardment, his Repply was that the first attempt to execute it, would be the signal to put to death the Sweedish Captives in his power! Is it not to be apprehended such a threatening for the american Captives by the U. S. Fregate Philadelphia —

On your answer which I will transmit to M't Cathcart I will be ready to execute your orders and any I may Receive for the United States Service — You may write direct to M't Cathcart at Leghorn on that subject Begging you to advise the Sec? of State at Washington of what occurs —

P. S. I have Strongly Recommended the American Officers & Crew of the Philadelphia to my friend M't Beaussier the french Commissary at Tripoli —

Dear Sir, I have received your esteemed favour of the 9th Inst and have sent Captain Smith to regulate the business respecting the Store-Ship. I hope he will be able to prevail on the Master to come here with the Cargo. If that cannot be done I have directed him to apply to you to engage a Vessel, and Ship it to this place — The removal from Vessel to Vessel will injure the provisions; of course it is best to give him a reasonable consideration for bringing it over. The Vixen will convoy her — I send you a thousand dollars to replace the money sent to C — Bainbridge. It will not be long before I shall call at Malta when I will make a deposit of money with you.

Presumably to Captain Edward Preble, U.S. Navy, from Captain William Bainbridge, U.S. Navy

DEAR SIR Your much esteemed favors have this day come to hand, to which I have replied fully by this conveyance. In my former letters I have suggested the idea of destroying the Frigate; since then having had the liberty of walking out, and having seen the situation she is anchored in, I do conceive that it could be easily effected. She lays about three quarters of a mile from the shore. By not showing the vessels off here before the attempt is made, there is not the least doubt of success. Let the boats be well prepared with combustibles to set her on fire, the only thing to be attempted. At present all the gun boats are hauled up.

The most important part to guard against the Tripolitan Cruisers is in my opinion between Cape Bon and Sicily. Should the Tripoli-tans demand be too great I would recommend an attack by land about night. A thousand troops would do. Frigates will not answer. I presume that the Frigate Philadelphie will be offered to Tunis or Algiers. This if possible should be prevented.

My grateful wishes attend you in your undertakings.

To Captain Edward Preble, U.S. Navy, from Captain William Bainbridge, U.S. Navy

DEAR SIR, I am this day honored with your much esteemed letters of the 19 & 20th December 4th 16th & 24th January last, be assured they afford me unfeigned happiness; as three months and a half had expired without the pleasure of hearing from you, and was at a loss
to account for so long a silence, for I would not permit myself to entertain the opinion that you could forget me in my unfortunate situation. Your warm commiseration, and strong assurance of your exertions to relieve our distresses, and effect our release from bondage, are entitled to warmer thanks than I can express. Suffice it to say, that they are deeply registered in my heart, and the remembrance of them, will only end with my life. I shall endeavour to follow your friendly advice in keeping up my spirits, and bear my misfortune with fortitude but being obliged to surrender without the least chance of resistance, will ever be a painful reflection to me. I feel conscious of having done my duty in the unhappy dilemma Situated as we were, had the Enemy attempted to have boarded us, we should have had a chance of convincing our Country that opportunity and not courage was wanting, but alas! for us, they made no such an attempt, but pursued a Plan in which they risked nothing, and was certain must prove effectual, the Ship Careening in such a manner as made every Gun become useless. Our situation was like a man tied to a stake attacked by another with arms. Believe me my Commodore, it cannot even be justly conceived but by the unfortunate who experienced it. God forbid that any of my Brother Officers should be placed in a similar situation.

Your letter to Siddi Mahomet D'ghies Minister of Foreign Affairs, I have delivered. The one addressed for the Warrant Officers & Crew I have judged proper (by the latitude you gave me) not immediately to deliver it, and upon further reflection may withhold it altogether; if I should, I shall give my reasons for so doing.

Your letter for the Swedish Consul I shall retain as John Willson (the greatest Villain I ever knew) has turned Renegado. Accept of my thanks for the attention you paid to my situation, and for the stile in which you addressed him.

In answer to your questions respecting the manner we are treated, and if they robbed us of our Watches &c. I shall briefly reply. That myself and all others lost everything except what was on our backs, and part of that tore off Our Pockets picked, Watches and Money taken, even to Pocket handkerchiefs & Gloves. To answer our immediate necessity, we have purchased some of our own cloths—As for the treatment we have received, there is no change since my report to you, except about eight days ago, myself and Officers received permission to walk out, Six or Eight at a time, with the Drogoman who attends on us. this indulgence gave us an opportunity of breathing fresh air, which we had not done for three Months and nine days. We are supported entirely at our own expense, and live in the House that Mr. Cathcart occupied. Our situation now is rendered tolerably comfortable. The Crew are confined in a separate Prison a part of which are daily employed at various work; they are allowed Bread and Oil, but no meat. I have given them Beef once a week, being as often as our finances would admit of and have been able to buy clothing to the amount of about five hundred dollars which has afforded them a change. Enclosed you will receive a list of Cloths that they will stand in need of the next autumn & Winter, if it should be our hard fate to continue here. Since our captivity two have died, and seven turned Renegadoes so that our complement now stands 298.

From the very great attention of Mr. Davis Charge des affaires at Tunis, our situation has been much ameliorated, he has twice sent us
Bills to the amount of Nine hundred Dollars, and I have drawn on him for One thousand Dollars; but my Bills on Tunis are attended with a loss upwards of 27 pence, which cannot be avoided but by having money sent to us —

I have received a very friendly letter from Col: Lear, dated Algiers 16th December. Respecting the Vessel you captured off Tripoly, I can only say it was reported here, that she was a Vessel belonging to the Captain Pacha. The Turkish Officer I believe to be the Man who was passenger in the Frigate [George] Washington under my command from Constantinople to Malta. As to the Cargo I should suppose it to be a Bon Prize. Had you fortunately been off here two days after you made that capture you would have had a chance of a valuable prize from Derne. It appears in this climate that fortune attends the upright.

Our letters from America are all received with the Articles that you ordered Mr Higgins to send us. also One thousand dollars in Cash. The necessary receipts I shall send to Mr Higgins. I gratefully thank you for sending me the suit of Clothes. When you appear off here, there is no doubt but you may safely communicate with the shore. Words are too light to express my feelings, if ever opportunity offers actions shall convince you how much I estimate all your attention. May success attend the Squadron under your command and Glory and honor be the reward You meet from your Country! is my sincere wish —

Mr Higgins omitted sending us an invoice of the articles which will be necessary to make the proper charges. Your letter to Mr Nissen, does honor to your command, he is one of the best of Men.

I thank you in behalf of the Officers and Crew, in sending to our Government the valuation of the Mirboka. I hope it will be allowed to compensate in some measure our loss. Mine has exceeded two thousand Dolls? [LC. EPP, LB, Dec. 1803–April 1804.]

Sir: The Brig Nominato Crucifisso, Fortunata Barbara Master that I captured off Tripoly, was steering S. W. two points free from the Wind, and direct for the Harbour of Tripoly, which was at the time of Capture about four or five leagues distant; and the land a little to the Eastward of it in sight. with a cargo consisting of Hemp, Wine, Scantling, and several bales of Merchandize. six Tripolines, and two Women. A number of letters were secured under the Transom all with directions for Tripoly. Amongst her papers was an agreement between the Owner and the Captain for him to sail for Jerba, Tripoly, or Bengaza, to be guarantied by your passport which I found on board for to sail in Ballast for Tripoly, and return with Bullocks, she having on board the within mentioned Cargo, & steering for Tripoly was a violation of your passport. I sent her in for your examination.

Concerning the captured Brig St. Crucifisso

I do hereby Certify, that the Brig St. Crucifisso Fortunata Barbara late master was met with the 16th Day of Feb last under English Colors by the U. S. Schooner of War the Nautilus under command of L^r Somers as the said Brig was endeavoring to enter Tripoly in Barbary with a cargo of various kinds of supplies for the inhabitants, the said Fortuna[ta] Barbara knowing the aforesaid Port of Tripoly was then under a State of Blockade by the U. S. Squadron under my command, in consequence of which she has been detained; and is now ordered to the U. S for adjudication. I therefore require the commanders of all the ships & Vessels & all the other Powers in Amity with the U. S. of America to let the said Brig pass free & unmolested and to give her all the assistance that may be required by
Mr. Edward N. Cox, an officer in the Navy of the U.S. who is ordered to navigate her to Philadelphia

[16 February 1804]

Concerning the captured Brig St. Crucifisso

Sir: John Baptiste Russo, and Vincent Barbara, natives of Malta as proprietors of the Brigantino Vessel called the Santissimo Crocefisso, take the liberty to lay before you the titles of their aforesaid property and other valuable documents in order that their conduct may be justified, as far as regard their late departure from Malta, till the moment that the said Brigantino was stopped by the Ships of the United States, flattering themselves that Your Justice and Equity, (after knowing the true destination entirely different, and by no mean intended to violate the Law of the Blockade of Tripoli) you will be pleased to order the restitution of the said Brigantino Vessel to the above mentioned proprietors.

The title of property is uncontroversially proved by the contract of sale made on the 29th of January 1804 by the Public Notary Baldassare Mamo contracted by Vincenzo Aquilina to the said Russo and Barbara on paying the price of 2330 Maltese Sardis, and with the Licence of the President of the Court and the payment of that price — that therefore no doubt will remain of not being the said Vessel or Maltese Property.

To this title the affrayment made by the same Public Notary the 31st of the said month of January for going to Gerba as her immediate destination is to be observed; for, the Freighter Mr. Gaetano Schembri was bound in it to fournsich the said Vessel with an American Pass, which precaution shows clearly in what decree the said Proprietors intended to respect the American Power, and absolutely intended to navigate in those seas with the approbation of the said Power.

This circumstance demonstrated by authentic papers shows Likewise that the said Proprietors did not intend to violate the Blockade of Tripoli.

All the papers regarding the expetition or clearances received from the Public offices at Malta do perfectly answer to prove the immediate destination for Gerba; for, the licence received from the Customs for shipping from the Larravetto [?] Seven Bales [?] of Linen, and 12 of hemp do specify that these goods were to be carried to Gerba; the paper received from the Health office for taching on Board the said Vessel seven [word illegible] including two Women, to be landed also at Gerba, And finnally the paper from the Gran Visconte’s Office shows that the Goverment of Malta sent on Board the said Vessel a Sicilian to be landed also at Gerba for his bannishment; After such uncontradictory documents, it will evidently appear that the immediate destination of the said Vessel, was for Gerba, and if the said Vessel was found cruising thowards Tripoli it was in consequence of the contrary wind which was then blowing from the West and forced them to keep by that part to avail themselves of the first breese to go to Gerba, which disposition must be known and approved by every Pilot.
Being every reason wanted to suppose a false intention in the navigation of the said Vessel, and her destination authenticated with so many Public and Pow[er]full documents and having not the said proprietors and Master any particular interest to go into Tripoli with such a great danger, The said proprietors hope therefore that after having shown their manifeste innocence and founded upon Your Justice Equity and goodness, that the said Vessel will be restored to them as they Beg and protest themselves your most Humble and Obedî Servants.

UNITED STATES SHIP Constitution
Syraeuce Harbour 19th Feb. 1804

Sir, I have the honor to inform you, that the U S. Brig Syren L¹ Comm¹ Stewart, and Ketch Intrepid of 4 Guns L¹ Comm¹ Decatur arrived here last evening from a cruise. They left this port the 3rd Inst with my orders to proceed to Tripoly, and burn the Frigate, late the U S. frigate Philadelphia at anchor in that Harbour.

I was well informed that her situation was such as to render it impossible to bring her out, and her destruction being absolutely necessary to favor my intended operations against that city I determined the attempt should be made —

I enclose you copies of my orders [31 January 1804] on this occasion, which have been executed in the most gallant and Officer like manner by Lieu¹ Comm¹ Decatur, assisted by the brave Officers & crew of the little Ketch Intrepid under his command. Their conduct in the performance of the dangerous service assigned them, cannot be sufficiently estimated — It is beyond all praise — Had Lieu¹ Decatur delayed one half hour for the Boats of the Syren to have joined him, he would have failed in the main object, as a gale commenced immediately after the Frigate was on fire, and it was with difficulty the Ketch was got out of the Harbour. The Syren owing to the lightness of the Breeze in the evening was obliged to Anchor at a considerable distance from the City which prevented her Boats from rendering such assistance as they might have done had they entered the Harbour earlier. Lt Stewart took the best position without the Harbour to cover the retreat of the Intrepid that the lightness of the wind would admit of. His conduct thro' the expedition has been judicious and highly meritorious. But few of the Officers of the Squadron could be gratified by sharing in the danger & honor of the Enterprize. In justice to them I beg leave to observe that they all offered to volunteer their services on the occasion and I am confident whenever an opportunity offers to distinguish themselves, that they will do honor to the Service.

I enclose you Lieu¹ Comm¹ Stewart & Decatur's official communication, with the names of the Officers on board the Ketch

ON BOARD THE KETCH Intrepid
at Sea February 17th, 1804

SIR, I have the honor to inform you, that in pursuance of your orders of the 1st Ins¹ to proceed with this Ketch off the Harbour of Tripoly there to endeavour to effect the destruction of the United States late Frigate Philadelphia. I arrived there in company with the U S Brig Syren L¹ Comm¹ Stewart on the 7th, but owing to the Badness of the weather was unable to effect any thing untill last evening when we had a light breeze from N. E. At 7 O'clock I entered the harbour with the Intrepid the Syren having gained her station without the Harbour, in a situation to support us in our retreat at ½ past 9 laid her a long side the Philadelphia, boarded, and after a short contest carried her. I immediately fired her in the Store Rooms, Gun Room Cockpit & Birth Deck and remained on board until the flames had communicated to the rigging and tops. Previous to our boarding, they had got their Tompions out, and aided several times but not a Gun fired —

The noise occasioned by boarding and contending for possession (altho' no fire arms were used) gave a general alarm on shore, and on board their cruisers which lay about a cable and a half's length from us, and many boats filled with men lay round, but from whom we rec⁹ no annoyance. They commenced a fire on us from all their Batteries on shore, but with no other effect than one shot passing thro' our Top Gall¹ Sail.

The Frigate was moored within half Gun shot of the Bashaw's Castle, and of their principal Battery; two of their Cruisers lay within two cables length on the starboard quarter and their Gun Boats within half Gun shot on the starboard bow she had all her Guns mounted and loaded which as they became hot went off as she lay with her Broadside to the town, I have no doubt but some damage has been done by them. Before I got out of the harbour, her cables had burnt off, and she drifted in under the Castle where she was consumed. I can form no judgment as to the number of Men that were on board of her; there were about 20 killed — A large boat full got off, and many leapt into the Sea. We have made one prisoner, and I fear from the number of bad wounds he has rec⁹ will not recover, altho' every assistance & comfort has been given him —

I boarded with sixty men & Officers, leaving a guard on board the Ketch for her defence; and it is with the greatest pleasure I inform you, I had not a man killed in this affair, and but one slightly wounded — Every support that could be given I rec⁹ from my Officers, and as each of their conduct was highly meritorious, I beg leave to enclose you a list of their names. — permit me also, Sir, to speak of the brave fellows I have the honor to command, whose coolness and intrepidity was such, as I trust will ever characterise the American Tars.

It would be injustice in me, were I to pass over the important services rendered by Mr. Salvador the Pilot, on whose good conduct
the success of the Enterprize in the greatest degree depended. he
gave me entire satisfaction.

I have the honor to be, Sir,

With great respect

BRIG SYREN, SYRACUSE HARBOR

February 19th 1804.

Sir, I have the honor to enclose for your information the principal occurrences and observations during our late expedition in company with the Ketch Intrepid Lt Comm’ Decatur to effect the destruction of the Frigate Philadelphia in the harbour of Tripoly; and on the happy termination of that enterprize I heartily congratulate you. I only have to lament that a junction had not been formed with the Intrepid by the Boats of the Syren, under the command of Lt Caldwell, as I make no doubt they would have been able to carry and destroy one or both of the cruisers laying near the Frigate — You will observe by my notes, that the Boats were dispatched in due season to meet the Intrepid agreeable to our Arrangements, but circumstances rendering it advisable for Lieut Comm’ Decatur to enter upon the enterprize much earlier than was intended, the junction with the Boats was consequently defeated until after the ship was on fire, and the ketch retreating out of the harbour.

U S BRIG SYREN

Syracuse Harbour 19th Feb 1804

Sir, Pursuant to your orders of the 31st January 1804 we sailed on the 3rd of February in company with the Intrepid Lt Commandant Decatur, and arrived off Tripoly the 8th Ins’ having employed ourselves in the intermediate time, in preparing every thing for executing the intended object — at 9 P M we Anchored in 6 fms. Water near the Rocks, got out the boats and prepared them for co-operating with the Intrepid at 11 we observed the Intrepid by her light standing off shore a very heavy sea from the North, and a strong wind hauling to that quarter obliged us to get our Boats in immediately, and get under weigh, at 4 A M finding it impossible to weigh our Anchor having had the Men several times knocked down by the Capstan Bars and several much injured. daylight approaching to expose our designs to the Enemy we cut and got an offing of 10 Miles,
when the gale and sea having encreased so much that we could scarcely show any sail, which continued until the 11th. It then abated, and I sent for Lieu't Commandant Decatur, and we fixed on the following plan for the next attempt Viz. he to proceed in the Intrepid about 5 miles ahead of the Brig, and anchor at night abreast of the Eastern Rocks that form the Harbour until the Syren got into that station or her Boats had joined him — After Midnight he to proceed in the Intrepid to the Ship, the Boats to keep at a considerable distance astern of him, until he effected a lodgment in the Frigate, they were then to board the Intrepid, and reinforce him, or proceed on such other service, as he might direct.

We were driven so far to the Eastward by the gale that we did not regain our Station off Tripoly until the 15th when considering the possibility there was of the Tripolitans having some suspicions of our intentions, I reinforced L' Decatur with an Officer and Nine Volunteers from the Syren. The necessary arrangement of his Men not leaving more than 50 to support him in boarding We stood into 8 fathoms Water that night, but could not determine our position not having seen the town, We were therefore obliged to stand off again, on the 16th at 11 AM the Intrepid stood in for the Harbour, and when she had got her distance we tacked and stood after her, with a light breeze from the N° & Westward, at dark we hoisted out the Boats and prepared them. at 8:30 P. M the wind left us, and a light air from the land succeeded, we anchored with our stream in 20 fms, water the town of Tripoly bearing S W about 3 Miles distant We immediately dispatched the Boats with 30 Men and Officers under the command of Lieu't Caldwell who was ordered to proceed to the Eastern Rocks where he found the Intrepid, and to place himself under the command of L' Comm't Decatur. At ½ past 10 the Frigate Philadelphia was in a blaze fore and Aft, when the Batteries commenced a fire on the Intrepid as she retreated. at 11 the Frigate's tops fell, and several of her Guns going off, the shot made a considerable rattling in the town; shortly after her cables parted and she drifted under the Castle at 1 AM the Intrepid & Boats joined us, at 6 the light could still be seen from the Deck, we being about 40 Miles distant from her.

20th Feb’ 1804 Syracuse Harbour

U. S. Constitution

My Dear Mother Yesterday morning I arrived from Tripoli whither we had been in the Ketch we took in December last & to which the Comm’r gave the name of Intrepid. We are astonishing the folks in these parts & we do as we please with the Syracusans. On the 2d we left this place for Tripoli & arrived off there in a few days but the weather obliged us to keep off untill the 7th at night when we anchored close under the Batteries & sent a boat ahead to find if it was possible to enter the Harbour. The pilot who was in the boat declar’d that if we attempted to go in we would never come out again for the breakers were tremendously high owing to the late gale. On the 15th we again anchored a little to the Eastward of Tripoli, but it being very dark when we made the land we by that
means missed the Port. On the 16th we hoisted English colors & at sunset stood in to the Harbour & the English Consul on shore there hoisted his colors supposing us to be English. At 10 o'clock P M we came in hail of the Philadelphia, & the Pilot told the men on board of her that we were from Malta & had been in a gale of wind & had lost our anchors. They gave us a hawser to make fast to her by & we then hauled up along side of her & 50 of our men & officers boarded her instantly. They Tripolitans on board of her were dreadfully alarmed when they found who we were. Poor fellows! About 20 of them were cut to pieces & the rest jumped overboard. We set fire to her & in less than 15 minutes from the time we first boarded her the flames were bursting out of her ports. It is astonishing that not one of our men was the least hurt. But it is a miracle that our little vessel escaped the flames, lying within two feet of them & to leeward also! Our men were in high spirits & I never saw a ([finer?]) Ms mutilated set of fellows. We have taken one poor creature who I am afraid will not recover. I think the Bashaw will soon be humbled. The Commodore has new schemes in his head. The Nautilus yesterday sent in a prize. She is a Brig. The Commodore when he was at Malta gave six passports to Gov. Ball for six vessels to go to Tripoli for bullocks for the garrison. The Vessels were to go in ballast, & return with bullocks. This Brig had one of these passports & has also a valuable cargo on board, besides several Turks. I expect to go to Naples shortly & afterwards we shall have hot work off Tripoli. I received your letters yesterday of the 20th Sep & 15th Oct; They are very old. I also received a letter from each of my Sisters of the same date. Mount Etna looks very cold this morn. The wind is N. & when that is the case it is very cold here owing to the snows on the Mountains.

The Brig Syren (I forgot it before) accompanied us to Tripoli but when we fired the ship she was at least 5 miles off.

Adieu my dear Mother, your fears concerning the plague at Malta are unfounded. The place is perfectly healthy —

and four, in his official capacity as surgeon in the late ketch [Mastico],
taken a prize by the said Decatur, of the enemy,) and yclep'd the
Intrepid, for this especial occasion, by the late Commodore Edward
Preble, then commanding the Mediterranean squadron; also, that the
United States' brig Syren, Lieutenant Commandant Charles Stewart,
sailed in company, for purposes connected with the expedition. Depo-

nent further declareth, that, in the pursuit of the above object, great
uncertainty and continued hardships were experienced by the officers
and crew of the Intrepid, as arising from an accidental supply of pu-
tried provisions, the frail construction and small size of the vessel,
with the occurrence of a severe gale, which, in disappointing early
success, laid the foundation of apprehensions for eventual failure; the
discovery by the enemy of an armed force having been anchored near
the port, being rendered more than probable. That, at or before mid-
day, on the sixteenth of February, the town of Tripoli hove in
sight; that, on the evening of the same day, under an unpromising aspect of
the weather, a council of officers, held on board the ketch, came to the

conclusion of anticipating the hour previously appointed (by Cap-
tains Stewart and Decatur, conjointly,) for entering the harbor.
With a full understanding on their part, that the aid of the Syren's
boats was necessarily forfeited by this new arrangement, and the
safety of retreat out of the harbor placed exclusively at the risk of
the officers and men who formed the complement of the Intrepid —
a bold measure — the responsibility of which they justly appreciated,
but, under existing circumstances, was considered a lesser evil than
that which would have arisen from procrastination. That, by strata-
gem, and not without difficulty, the ketch was laid along side of the
frigate, at or about ten o'clock. That, under an irresistible impetus,
the assailants boarded and carried her; while Midshipman Thomas O.
Anderson, with a crew detached from the brig Syren on the day before,
took his assigned station in a boat, for the purpose of despatching
those of the enemy who might flee from the carnage of the boarders,
as also to give notice of and attack any of the enemy's force that might
approach the ship. That deponent, according to prior arrangement,
was placed simultaneously in command of the Intrepid, with orders
suitable to the occasion; that "look-outs" were stationed by him, to
observe any movement in the harbor, and guard against surprise.
That the same precautionary vigilance adopted on board the frigate,
formed one of the fundamental measures of security, as was proved
in the instance of one of the "look-outs," (believed to have been sta-
tioned on the starboard bow of the Philadelphia,) reporting in quick
succession the approach of enemy's boats, and their retreat, with an
interval of time just sufficient to execute the order which grew out of
it — "of killing all prisoners," and draw from the ketch part of a sup-
ply of ammunition, small arms, and pikes, for the defence of the ship.
That, after the hasty retreat of the boats, attributable to the sudden
illumination of the gun-deck at this juncture, by the lighted candles of
the boarders, combustibles were handed on board, a part of which had
been received on board the ketch at Syracuse, (where some had been
prepared, and others purchased,) and a part from the brig Syren, after
leaving port. That the systematic arrangement of the plan, embrac-
ing every contingency incident to the boarding, capturing, and firing
the ship having been formed with consumate skill and foresight, the
execution of these objects, with the greatest regularity, consumed
a smaller space of time than could possibly be imagined. That the boarding officers and crew, literally chased from below deck, were pursued by the flames to the ketch, and herself, from the unavoidable difficulty of getting from along side, was well nigh enveloped. That, to obviate this calamity, various and well directed efforts were made without effect; until at last, her boats being got ahead, and her rigging, &c., cleared, she was successfully towed out of the influence of the current of air, that, with great violence, rushed from every side towards the flames, which, issuing from the hatchways, and seizing the rigging from below to two of the mast heads, then standing, played also most furiously from every gun-port and scupper hole, athwart the ketch. That, in the momentary confusion that preceded this escape, the frigate's boat, which had been captured along side, and the crew killed, by Mr. T. O. Anderson's party, at the commencement of the action, got adrift, and the enemy's flag of the frigate being also lost, left no trophy in possession save one Tripolitan, who, towards the close of operations, was made prisoner by deponent. That the whooping and screaming of the enemy, on being boarded and defeated, drew an almost instantaneous and continued fire of small arms from two xebecs lying near; and that, after throwing a rocket by Captain Decatur, which was done immediately upon possession being had of the ship, a brisk cannonade commenced, and was kept up from the castle and other batteries.

That, by means of towing, (exclusively by one or both of her boats,) sweeps inboard, and sails set, the ketch made good her retreat, and had arrived at the rocks forming the outermost boundary of the harbor, when she was met by the Syren's boats, who, in being so much nearer at hand than had been calculated on, surprised the nautical officers of the Intrepid quite as much as had the inquiry of the Captain of the Philadelphia before boarding her, "respecting the vessel astern," meaning the brig Syren; and proving that, notwithstanding her great distance in the offing, during daylight, she had been noticed. That, ere this time, the frigate's gun's had commenced discharging, and those of the enemy now slackened their fire; that now also the breeze freshened, and shortly after increased considerably; but being fair, made good weather of it. That, sometime after midnight, the ketch joined company with the Syren, then under way, and at a distance in the offing; and that the two vessels reached Syracuse on or about the nineteenth of the same month. Deponent also states, that, after the perusal of documents accompanying a report bearing the number 201, of the Naval Committee of the House of Representatives made at the present session, being the first of the twentieth Congress, he feels himself bound likewise to declare, under oath, that in frequent converse and common parlance with the officers of the brig Syren, on the incidents of the expedition, he never heard any pretensions advanced by them, or either of them, to any agency or cooperation whatever in the consummation of the enterprise within the harbor; and, moreover, that nothing did ever transpire, in his intercourse with the officers of that vessel, or those of any other vessel in the squadron, which could have led to an anticipation of the painful necessity to defend, at this date, the entire and undivided credit, acquired nearly one-fourth of a century ago, by the officers and crew of the late ketch Intrepid, and consecrated no less by official records.
than the concurrent testimony of a multitude of gallant officers, now no more.

Affidavit of Midshipman Edmund P. Kennedy, U. S. Navy.

VIRGINIA, BOROUGH OF NORFOLK, to wit:

On this tenth day of March, in the year 1828, before me, Walter F. Jones, a Notary Public in and for the borough of Norfolk, duly commissioned and sworn, personally appeared Edmund P. Kennedy, a Master Commandant in the Navy of the United States, who made oath that, during the years 1803-'4, he served, in the capacity of gunner's mate, on board the United States' brig of war Syren, then under command of Lieutenant Charles Stewart, and one of the squadron in the Mediterranean sea, sailing under the orders of Commodore Preble. That, some considerable time after the capture of the frigate Philadelphia, by the Tripolitan gun boats, an expedition was planned and fitted out to destroy that vessel, then lying nearly equipped in the harbor of Tripoli. That the brig Syren, and the Ketch Intrepid, sailed for that purpose from the harbor of Syracuse; the day after the departure of these vessels, the crew of the Syren were called aft, and a letter was read, addressed to them by Commodore Preble; as well as affiant remembers, this letter states the importance of the destruction of the Philadelphia, and set forth, as an inducement to the crew, the large amount of prize money which would be awarded to the vessels composing the expedition. Volunteers were called to fill up the complement of the Intrepid, and for the general purposes of the expedition. The whole crew volunteered, and it became necessary to make a selection among the officers and men. The two vessels proceeded to Tripoli, and it was concerted, that, upon a certain signal, to be given from the Syren, the Intrepid, accompanied by two boats, manned and armed from the Syren, should proceed into the harbor, for the accomplishment of their object. The night of the destruction of the Philadelphia, the Syren anchored off the mouth of the harbor, her two boats manned and armed alongside. The Intrepid was in shore, and the signal being made, the two boats left the Syren, and proceeded to join the Intrepid. The signal, however, was not answered; and affiant understood Lieut. Decatur to have said, that he was, at the time, so near the batteries, that any exhibition of lights might have caused the discovery of his vessel; and a light and favorable breeze springing up at the moment, he preferred running in without the aid of the boats, to encountering a delay and exposure which might have defeated the object of the expedition. Affiant was in one of the boats which put off from the Syren; the night was very dark, and the Intrepid having exhibited no light to indicate her position, the boats lost their way among the rocks, and were falling in uncertainty, until the Intrepid was seen standing
out of the harbor, when they joined her. The crew of the Syren were at quarters nearly the whole night. Affiant further states, that all the combustibles and materials to be used in burning the Philadelphia were prepared on board the Syren.

NAVY YARD, WASHINGTON, Dec. 19, 1825.

The subscriber certifies, that he was attached to the American squadron in the Mediterranean, as pilot on board of the frigate Constitution, commanded by Commodore Preble; that he was sent in the ketch Intrepid, to pilot her into the harbor of Tripoli, for the purpose of destroying the frigate Philadelphia, then in possession of the Tripolitans; that owing to his perfect acquaintance with the harbor of Tripoli, and his personal knowledge of the people and their language, the ketch was permitted to come alongside of the Philadelphia; that he is, and always was, of opinion, that in the state of the wind at the time, and his knowledge of the current and the soundings of the harbor, that the ship might have been brought out with safety, had not orders been preemptorily given to destroy her; that he gave this opinion to Commodore Decatur, on board the Philadelphia, at the moment of her capture, who was only prevented by his orders from making the attempt; that all the nautical men with whom he has conversed on the subject, and to whom he has explained the grounds of his opinion, have acknowledged the correctness of his statements.

To John Gavino, U. S. Consul, Gibraltar, from Captain Edward Preble, U. S. Navy

U. S. FRIGATE Constitution
Syracuse Harbour Feb 1804

DEAR SIR I have the pleasure to announce to you the pleasing intelligence of the Capture and destruction of the Tripolitan Frigate of 40 Guns, late the United States Frigate Philadelphia by the U. S. Ketch Intrepid of 4 Guns and 70 Men commanded by Captain Decatur of the Enterprize who volunteered his services on the occasion. It is to be regretted that she was so situated that it was impossible to have brought her out.

On the 3rd Inst the Brig Syren Capt Stewart and Ketch Intrepid of 4 Guns, fitted for the purpose, and Commanded by Capt. Decatur with 70 Volunteers from the Squadron sailed for Tripoly with orders to burn the Frigate in that Harbour. They this day returned having executed my orders much to my satisfaction. On the night of the 16th Capt Decatur entered the Harbour of Tripoly with the Ketch, laid her alongside the Frigate and in a Gallant and Officer like manner, boarded and carried her against all opposition: After gaining complete possession he proceeded to fire her with success, and left her in a blaze, in which she continued until she was totally consumed: He had none killed & only one wounded. The Tripolitans lost between 20 & 30 Men killed on the Decks: One large Boatload made their escape: some Men ran below & perished in the flames, but the greatest part jumped overboard: She was moored close to the Batteries with all her Guns loaded, and two of their Corsairs full of Men lay within half Musquet shot of her.

A fire was kept up on the Ketch by the Batteries, Bashaws' Castle. and Corsairs: Not a musquet or Pistol was fired by our Men: Every thing was settled by the sword.

The Syren anchored without the Harbour to cover the retreat of the Ketch, and sent her Boats to assist but unfortunately they did not arrive in Season, as the Business was accomplished and the Ketch on her way out before the Boats met her: Had they got in sooner it is probable some of the Tripolitan Corsairs would have shared the fate of the Frigate —

Concerning the destruction of the Frigate Philadelphia

Statement of the Circumstances attending the destruction of the Frigate Philadelphia with the names of the Officers and the number of Men employed on the occasion as laid before the President by the Secretary of the Navy, November 13 — 1804. —
On the 31st January 1804 Commodore Preble lying with his Squadron in the Harbour of Syracuse, gave orders to Lieut. Charles Stewart, commanding the Brig Siren of 16 Guns, and to Lieutenant Stephen Decatur jr. commanding the Ketch Intrepid of 4 Guns & 75 Men, to proceed to Tripoli and to destroy the Frigate Philadelphia of 44 Guns, then lying in the harbour of Tripoli. Lieut. Decatur had orders to enter the Harbour in the night, board and set fire to the Philadelphia and Lieut. Stewart was ordered to take the best possible position without the Harbour to cover the retreat.

Under these orders they proceeded immediately to the Coast of Tripoli but owing to the very heavy gales of wind that usually prevail there in the winter Season, the Enterprize could not be undertaken until the 16th February when Lieut. Stewart having taken the best possible position to effect the object of his Instructions, Lieut. Decatur at 7 O’clock in the night, entered the Harbour of Tripoli, boarded and took possession of the Philadelphia. This Frigate at the time she was boarded had all her Guns mounted and charged, and was lying within half Gun shot of the Bashaw’s Castle and of his principal Battery — Two Tripolitan Cruisers were lying within two Cable’s length on the starboard quarter and several Gun Boats within half Gun Shot on the Starboard bow — and all the Batteries on shore were opened upon the Assaultants. About 20 Men of the Philadelphia were killed, a large Boat full got off, many leapt into the water, and one Man was made prisoner. After having gained possession of the Frigate, Lieut. Decatur set fire to the Store-rooms, gun-room, Cock-pit & birth deck, and with a firmness highly honorable to him, his Officers and Men, they remained on Board until the flames had issued from the Ports of the gun Deck and the Hatchways of the Spar Deck, and they continued in the ketch along side the Frigate until the fire had communicated to her Rigging and Tops. Lieut. Decatur did not lose a Man and had but one slightly wounded. —

The following is a list of the Officers, & the number of Men employed in the destruction of the Philadelphia.

Lieut. Stephen Decatur jr.
  Ja. Lawrence
  Joseph Bainbridge
  Jonathan Thorn (Lieutenants.)
  Louis Heerman Surgeon. —
  Ralph Izard
  John Rowe
  Charles Morris
  Alex. Laws
  John Davis

Extract from letter to Susan Decatur, widow of Captain Stephen Decatur, Jr.,
from Hon. Littleton W. Tazewell

NORFOLK, Sept. 7th, 1826.

MY DEAR MRS. DECATUR: In reply to your letter of the 22d ult.
(which, owing, I presume, to some accident, has just been received,) I
will state to you, that during the lifetime of your late husband, I
had many conversations with him, upon the subject of his claim upon
the Government of the U. S. for the capture and destruction of the frigate Philadelphia. The first of these conversations took place, I
think, in 1806, soon after he established himself in this place. In
this, his object was to consult me professionally as to the validity of
his claim, and as to the proper course to be adopted to obtain the pay-
ment of the amount, should I think the claim just. I then investigated
the subject very maturely, and gave him a long written opinion upon
it, in which I stated the reasons that induced me to consider it, not
only a fair claim upon this Government, but one which it was his duty
to prefer, as the guardian and protector of the officers and people
who were associated with him in this daring and honorable enterprise.

Of one thing I am very certain, that during the whole course of his
life, Commodore Decatur was firmly and fully persuaded, that he,
his officers and crew, had a just claim upon the U. S. for the value of
the frigate Philadelphia, which they had captured and burnt by the
express order of their commanding officer.

I am, very respectfully and sincerely yours

LITT'N W. TAZEWELL.

[NR&L. Wa 4 D 451, 14347.]
MADAM: Your letter of the 2d inst. has just been received, and I hasten to reply to it. I have a distinct — an indelible recollection of the leading events of our imprisonment. The Pacha and his court did not attempt to conceal their exultation on the capture of the frigate Philadelphia. It was a jubilee in Tripoli. So extravagant were his calculations, that he would not listen to any proposal of peace and ransom, for a less sum than one million of dollars. In this condition of affairs, it would have been impolitic to have opened a negotiation. It would have been regarded as an evidence of fear and imbecility. This tone of confidence and triumph continued until the daring enterprise, led on by your gallant and lamented husband, illumined his castle with the blaze of his trophy. The sensation produced by the achievement was indescribable — consternation and dismay were depicted on every face. But the best evidence of its impression, was the frequent conferences of the Pacha with the Consuls, his undisguised desire to make peace, and his proposition to that effect, on terms much more moderate — I think $200,000. The terror inspired by the recapture and conflagration, (increased by the attack of the gun-boats, on the 3rd of August, 1804,) was felt during the war, and its influence was acknowledged when the treaty of peace was signed.

It may not be known to you, Madam, that I was appointed to the Consulship of Tripoli after the war, and obtained this and other information from one of the European Consuls, with whom the Pacha often conferred during our captivity, and to whom he confided his difficulties and danger.

Description can convey but an inadequate idea of the horrors of our imprisonment. We were confined in a dungeon in the centre of the castle, into which no air or light could find access, but through a small iron grate in the terrace or ceiling. To privation of pure air, wholesome food, &c. was added the annoyance of noxious reptiles. The desperation of the officers may be inferred from two attempts to escape — one by undermining, and the other by passing over the walls of the castle. An account of these enterprises and their failure, may be found in the biography of Com. Porter, published some years since, (1815, I think,) in the Analectic Magazine and Naval Chronicle.

When any communication, between the squadron and the castle was announced, joy and gladness were diffused through our gloomy cells, and reiterated disappointment could not dispel the cherished hope that the happy hour of emancipation had arrived. Even at this distant period, the heart sickens at the recollection of “hope long deferred.”

That a generous legislature may grant this just claim, is the confident belief of one who knew and appreciated the high-minded and chivalric officer on whose services it is founded.

I am, Madam, with sentiments of the highest respect and consideration, your obedient servant,

John Ridgley.

To Susan Decatur, widow of Captain Stephen Decatur, Jr., from Captain John Rodgers, U. S. Navy
Washington, November 15, 1827.

Dear Madam: I have received your letter of the 8th instant; and in reply, have to state, that I had always supposed the plan by which the frigate Philadelphia was destroyed, was projected by your husband, and that I never heard the slightest intimation to the contrary.

With great respect and regard, I am, dear Madam, your obedient servant,

John Rodgers.

To Susan Decatur, widow of Captain Stephen Decatur, Jr., from Lieutenant Jacob Jones, U. S. Navy
Washington, Dec. 8, 1825.

Dear Madam: In reply to your note of yesterday, I have the pleasure to say, that I know nothing which could have rendered it impracticable to the captors to have taken the Philadelphia out of the harbor of Tripoli. The water was sufficient, and I believe the wind was favorable; consequently, nothing but the want of skill in the pilot who was with them, was likely to have prevented such a result, if it had been attempted. The brig Syren, which lay off the harbor, would have been sufficient to have protected her the moment that she had cleared the port.

Mrs. Decatur.

[NR&L. Wa D 451, 14347.]

[16 February 1804]
To Susan Decatur, widow of Captain Stephen Decatur, Jr., from Lieutenant Charles Stewart, U. S. Navy

My dear Mrs. Decatur: The re-assembling of the honorable Congress of the United States, renders it necessary to delay no longer answering your esteemed favor of June last, in which you request me to state such information, relative to the burning of the Philadelphia, in the harbor of Tripoli, as I may possess, in aid of your claim on our country, for the success of that gallant enterprise, so ably and honorably performed by your late husband. I regret that my limited abilities disqualify me from portraying, in those glowing colors of which that act is susceptible, the gallantry and perseverance with which it was performed by my late friend.

You state that your late husband had given you to understand that the project of burning that frigate at her moorings, thereby to remove a serious impediment to the future operations of the squadron against Tripoli, originated with him. This understanding was perfectly correct; it did originate with your late husband, and he first volunteered himself to carry it into effect, and asked the permission of Commodore Preble, off Tripoli, (on first discovering the frigate was lost to the squadron,) to effect it with the schooner Enterprise, then
under his command. The commander-in-chief thought it too hazardous to be effected in that way, but promised your late husband that the object should be carried into effect on a proper occasion, and that he should be the executive officer when it was done. It was accordingly effected in the ketch Intrepid, by your husband and 70 volunteers from the schooner he commanded, at great hazard, not only of life or liberty, but that of reputation, and in the season most perilous in approaching that coast. The recollection of the difficulties and dangers he had to encounter in that expedition, of which I was an eyewitness, excites more and more my admiration of his gallantry and enterprise — and although the result shed a lustre throughout Europe, over the American character, and excited an unparalleled emulation in the squadron, in our country alone is where it has never been duly estimated, or properly understood.

Courage, and great force alone, could not have effected it. It was necessary not only to put the smallest possible force to the hazard, but its success depended upon a very small force being used. The genius and mental resources of the executive officer, could alone compensate for the want of force and numbers. To these demands your late husband was found fully adequate — and hence the brilliant result. The frigate was completely destroyed, in the midst of the enemy, and his retreat effected without the loss of a man.

Accept, my dear Madam, the assurance of my highest respect and esteem.

Chas. Stewart.

By Dispatches from Commodore Preble it has been announced to us that the destruction of the late frigate Philadelphia has been effected while lying in the Harbour of Tripoli under circumstances of extra-
ordinary peril to the parties that achieved it. I find, Sir, that you had the Command of this Expedition. The achievement of this brilliant Enterprize reflects the highest honor on all the Officers and men concerned. You have acquitted yourself in a manner which justifies the high Confidence we have reposed in your valour and your Skill. The President has desired me to convey to you his Thanks for your gallant Conduct on this occasion, and he likewise requests that you will in his name thank each Individual of your gallant Band for their honorable and valorous Support rendered the more honorable from its having been volunteered. —

As a Testimonial of the President's high opinion of your gallant Conduct in this Instance, he sends to you the enclosed Commission. —

Concerning the burning of former U. S. Frigate Philadelphia

Resolved expressive of the sense of Congress of the gallant conduct of Captain Stephen Decatur, the officers and crew, of the United States ketch Intrepid, in attacking, in the harbor of Tripoli, and destroying, a Tripolitan frigate of forty-four guns.

Resolved, &c., That the President of the United States be requested to present, in the name of Congress, to Captain Stephen Decatur, a sword, and to each of the officers and crew of the United States ketch Intrepid, two months' pay, as a testimony of the high sense entertained by Congress of the gallantry, good conduct and services of Captain Decatur, the officers and crew, of the said ketch, in attacking, in the harbor of Tripoli, and destroying, a Tripolitan frigate of forty-four guns.

Malta the 16 Feb'O 1804

DEAR SIR: I have been honored with your Letter under the 13th Inst which I assure you I received with a good deal of satisfaction, it eased me of considerable uneasiness, as I hardly knew how to act respecting the Cargo, of Provisions on board the William & Mary. — The Consul to whom it came addressed and who was as fully informed of your wishes as I was, had given Capt' Tipling instructions to unload and had directed him to draw along side the Wharf for that purpose — I conceived it my Duty to put him in mind that I thought such a measure precipitate — and ill-advised, and wrote him as p' enclosed Copy, he chose to reply in terms not altogether civil which you will perceive by the translation of his Letter also herewith, — I shall make no Comment on his Conduct in this business, you will see it in its proper light, it certainly does not tell much in his commendation, a public officer who talks so much about his "indispensable duty" — I have agreed with Capt' Tipling to carry the Provisions to you for 480 Dollars which I think a fair bargain and full as little as I could have sent it over to you by Vessels belonging to this Place, independant of the expense of transhipment and the injury of removal from one Ship to another; — The freight is made payable here as the Captain wishes to return home with a ballast of Salt, which he has directed me to provide:

I have received the 1,000 Dollars you have been good enough to remit me to replace a similar Sum I sent Capt' Bainbridge, — As yet I have received no intelligence whatever from Tripoly, but am looking daily for the return of the Vessel that went over; — There is a Vessel in the harbour with 47 Hogsheads of Gin on board which the Proprietor offers at 5 Shò/10⁵ p' Gallon. I send you a Sample of it, and if you choose will make the purchase for the use of the Squadron. — The holder has promised to wait a week for your answer; if I receive none, I shall of course conclude that you do not want it, you will find the quality I believe pretty good, and I think the bargain not a bad one —
I have sent over by the William & Mary, 7 Kegs of White Paint, (prepared) by Mr Dyson’s order also 3 butts of Rum, by order of Mr Robinson, Purser of the Schooner Enterprize and expecting that you will not lose sight of your promise of paying us a Visit Soon, I remain

The Proprietor of the Gin has sent to let me know that he cannot wait your answer, I send you the sample however for as much as it may be remaining if you should choose to purchase

We are desirous of building a number of Gun-boats, but we cannot progress in the business for want of an approved Model. As has been already intimted to you, the two Gun-boats building under your and Captain Rodgers’s superintendence, are intended as models. — We are now waiting to see them finished before we order any. —

This will suggest to you the propriety of employing as many laborers as can be employed usefully in building the one under your direction. — It will be agreeable to me to have her finished as early as may be practicable, tho’ I do not wish you to hurry the business to the injury of the Vessel. —

With respect to her armament you may either have it fixed where you are, or have the Gun-boat brought to this place first and fix her armament here. — We have 32 pound Cannon both at Norfolk and at this place.
The Gun-boat must be brought here as soon as she is finished. —
The Gig which you have lately been attending to must be brought to
this place at the same time. —
Can you furnish me with an estimate of the probable cost of the
Gun-boat? If you can, I will thank you to attend to it as early as
may be convenient. —

should you call on him for it. —

To whom not indicated, presumably from Captain William Bainbridge, U. S. Navy

TRIPOLI February 18th 1804

"You have doubtless long ere this heard of the loss of the Frigate Philadelphia — The particulars of that most unfortunate event which has terminated in our becoming Prisoners of War, or rather Slaves to the Bashaw of this Regency, are briefly these — On the morning of the 31st October last cruizing a few leagues to the Eastward of this town, We discovered a Tripolitan Armed Ship, standing to the Westward, to which We gave chase. She kept close in with the land, and continued running for the town, while we kept up firing upon her as our guns could be brought to bear. Finding, however, all our efforts, either to compel her to run on shore, or to cut her off from the
town ineffectual, we gave up the pursuit and was standing off from
the land, when we suddenly run upon a reef of Rocks, with only twelve
feet of water — All the guns, except, a few to defend us against the
attacks of the Enemy’s gun Boats were thrown overboard, the Anchors
cast away from the Bows, and the fore mast cut away, in order to
lighten the Ship; but every thing was unavailing — Finding all our
exertions ineffectual, convinced that no expedient had been left
unattempted that could have a possible tendency to save the Ship —
After having sustained the fire of the Enemy’s Gun Boats for upwards
of four hours, and Our Ship so much careened over as to render the
firing of our guns impracticable, cruel necessity left no alternative but
the melancholy one, of hauling down our Colours; and the Flag of the
United States was struck to the Tripolines —

The treatment we received from these Savages was such as raised
our utmost indignation — Nothing was sacred or escaped their prying
search, all our chests, trunks, with every article of clothing, and all
our books were carried off — Our swords were snatched from us, our
pockets searched and emptied; some of us had our boots pulled off,
to examine if something was not concealed there, and some had their
very coats pulled off their backs, which the barbarians exultingly put
upon themselves, and as if the rewards of some signal Exploit; seemed
to triumph in acquiring what fortune alone had obtained them —

Immediately on being landed, we were all conducted, amidst the
shouts and acclamations of the rabble Multitude to the Palace and
there ushered into the presence of the mighty Bashaw who seated in
state with his Council about him, and surrounded with Guards, awaited
our coming — He asked a variety of questions principally concerning
our Ship and Squadron; and after having us all paraded before him,
and taken a full survey of each of us, at which a gracious smile appeared
upon his countenance, expressive of his inward satisfaction at his good
fortune which by rendering us miserable had so kindly befriended
him, we were led by a Guard to the house assigned for our Prison.

Here we were left to our own reflections till the 15th November — On
that day, the Bashaw, for reasons best known to himself, thought
proper to remove us, and ordered that We should be conducted to the
Castle — The change indeed was rather an unpleasant one — From a
large commodious house to what they call a Castle, which in fact, was
a most loathsome prison — We were there crammed into the same
place with all our Ship’s Company — How well capable of containing
such a number you may judge when I inform you that the room was
about 80 feet by 25 — How comfortably when you learn that the only
place to admit the fresh air was by a small aperture in the ceiling
grated over, without any floor or a single Article of furniture, so that
when fatigued standing up, we were obliged to lay down on the filthy
ground — In the Evening the Bashaw’s natural goodness reappeared
and, banishing all passion from his mind, we were by his orders recon-
ducted to our former abode —

Two nights since the Boats of one of Our Frigates came within the
harbour, and burnt our ship — It was a most sublime sight, and very
gratifying to us; we have not as yet heard the particulars — In conse-
quence of this however, the Bashaw has redoubled his vigilance of us,
and ’tis said that we are again to be carried to the Castle

ALGIERS Feb 19th 1804

Dear Sir, I have the pleasure to acknowledge the receipt of your acceptable favor of the 19th ultimo, with its enclosures, and to thank you for the communications which it contained.

I take the liberty of enclosing two letters for the Secretary of State of the U. States, which may go by the same conveyance (one being a copy of a preceding letter) a letter for the Hon⁵ Ch⁴ Pinkney, one for M⁵ Kirkpatrick, & one for M⁵ Gavino. The Courier passing from this to Alicant, will, I am afraid, give you much trouble in conveying letters to the U.S. and other places; but I know you will readily take that trouble, knowing it the only certain channel of communication that we have.

I presume that the appearance of the British fleet off here on the 17th, 18th & 19th ultimo, has been announced in your quarter, and that after much altercation with the Dey, in which neither yielded, it went off without affecting anything — The Heroic Character of Lord Nelson, who commanded the fleet, forbids the idea of fear on the part of the British, and it is presumed that he was called from hence by indispensable circumstances. We wait the issue of this business with some anxiety.

I have heard nothing from Tripoli further than the general account of the loss of the Philad. & Captivity of the Crew — I have made provision for the comfortable support of our unfortunate Countrymen, and await the orders of Government for further proceedings.

The departure of the Courier a day sooner than I had expected, prevents me from adding more than the assurances of the most perfect respect & esteem

P. S. I enclose the two letters for the Secy of State under one cover.

Algiers Feb? 19th 1804

Dear Sir, It was not until the 11th inst, that I had the pleasure of receiving your acceptable favour of the 15th Dece? with its enclosure; for which I am much obliged to you; my a/c as sketched in your letter, is just, Mr Mountford forgot to pay for making the money bags, which you will be so kind as to do. Commodore Preble did not pay me the 20 dollars you mention, it was forgotten undoubtedly; but as I shall have some accounts with him I will mention it. My good little wife & myself often talk of your kind & hospitable attentions. Your excellent Sister will be remembered by us with gratitude as long as we live — Fanny wrote to her some time ago, but had no opp? of sending the letter, it is now enclosed, — when a direct opportunity offers for Gibraltar she will write more fully.

We arrived here after a pleasant passage of five days. I have been received by the Dey with much cordiality, and our Affairs appear to be well here; but we are in an unsteady latitude. We find the Country exceedingly pleasant, and as yet have no cause to complain. I found Captain Cornick here to whom I gave a proper lecture — As he determined not to touch at Gibraltar, I did not write by him. — The loss of the annuity Ship near Cadiz is unfortunate but we must do without her. —

The unfortunate loss of the Philad? & the Captivity of poor Bainbridge & his Crew at Tripoli, you are undoubtedly informed of before this, it happened on the 31st of October, and it was not until the 15th December that I knew it here. I then took measures for supplying all the wants and making the situation of my unfortunate Countrymen as comfortable as could be in that state. It is an unlucky affair; but in the end, it will, I think be attended with good effects. — It will disconcert the plans of the Commodore, from whom I have not heard since he left this Bay on the 22nd Nov? but he will receive further aid. (See British Affairs in letter to Capt. Bainbridge Feb? 12th 1804)

I pray you to present my affectionate regards to your good Sister & Brother Thomas, in which my wife joins me, & sends her best love to you. Our best respects await Sir Tho? Trigg & his amiable Lady — I respect the Veteran, and his attentions are not forgotten. To Col? Fyers his Lady & family & our other acquaintances in Gibraltar we wish to be remembered with respects & regards.

To Captain Edward Preble, U. S. Navy, from James Leander Cathcart, Leghorn

Leghorn 19th Febru? 1804.

Sir, I had the honor to answer yours of the 4th on the 30th Ult? & enclosed you a plan of a gunboat, the price thereof, & the time it would take to build four on that construction, I now send you a plan of a boat calculated to carry a 10 inch mortar a brass long 24 pounder & a short forty two, with which I am certain you will find many faults & join with me in giving the preference to the former, both for its utility & price, the latter is better calculated for inland navigation where a current or regular tide might facilitate its operations, but I
can’t think it is a proper vessel to be on a barbarous coast which
inevitably at some periods becomes a lee shore.

In my opinion the best rig for a vessel carrying a mortar is a Ketch,
such as those now used in the British Navy which are vessels of
burthen & resistance & calculated to keep the sea in any weather,
to build such vessels here, would cost as much as it would in the United
States, & the timber would not be so good, nor the work so well done,
& for a boat to carry a mortar & a gun aft, I prefer the rig of the boat
the plan of which I have already sent you.

For the enclosed plan I could devise no other rig but what is delin-
eated as the vessel must inevitably carry two masts, & when the
mortar is play’d the foremast must be taken out & two stay sails
fitted from the mainmast head to enable the boat to hold her wind
until taken in tow by the vessel that would have her foremast on
board: for that reason I prefer a sliding gunter sail forward, to a
schooners, the mast being shorter & lighter, less incumber’d with
riging, & consequently easier taken in & out, but upon the whole
this plan is very inconvenient; however it can do no harm to submit it
to your inspection & probably your superior judgement & experience
will enable you to point out some improvement which will remove
the difficulty: it ought likewise to be consider’d that in action, should
any of the larger boats be sunk we would lose a Gun & a mortar,
exclusive of the difference in the price of the boat; the former being
valued at dollars 3776 32/100 & the latter 5978 94/100 so that you may
have built nine of the smaller boats for a very little more than what
five of the larger would cost.

I found here four mortars the smallest was eleven inch french
measurement & weigh’d 1455 Lbs of Leghorn the other three were
12 inch & weigh’d 2720 lbs each, I should have purchased the small-
est at a risk but the[y] being in possession of a Jew, immediately
on his being informed that I wanted them he broke them all up,
& sold them for old brass, altho the person whom I employ’d to buy
them offer’d to give him a better price than he possibly could get
else where; I presume he was afraid that if the Bashaw of Tripoli
should be inform’d that we had purchased arms from Jews that he
would make it a pretext for levying contributions on his fraternity
at Tripoli; I have heard of none others for sale in Leghorn, if I do
I will inform you as soon as possible, I wrote to the Pounder at Florence
on the subject, who answer’d me, that first permission must be obtain’d
from the Tuscan government & that it would take him a year to make
four ten inch mortars; & that he would settle the price when I for-
warded him the design, as for balls bomb shells & ammunition, I
presume the[y] can be procured by applying to this government, as
the governor of Leghorn when I applied to him to know whether
any impediment would be placed in the way of our building & fiting
out gunboats answer’d none whatever; but on the contrary that
every facility would be given us for giving the preference to the
Port of Leghorn & that I might begin the work when ever I thought
proper.

I have wrote to France & Genoa for information on the above
subjects as well as to be inform’d whether two capable men can be
procured, here I have found none that I would recommend, when I
am answer’d you shall be inform’d of the result.

Should you determine to Commission me to have those boats
built & fited out here; it will be necessary for you to inform me where
I am to procure cash, for I have none in my possession belonging to the United States, if the Navy Agents here have any in theirs, your bills upon them would be the best way to re-imburse me, if not, upon London, bills upon the United States are not all ways negotiable & never without considerable loss.

Should you think proper to make any alterations, or additions to the plans please to specify them, that a proper contract may be enter'd into — with the builder, in order to prevent future altercation & to enable me to have them built exactly as you would wish them.

If you think proper that I should apply to this government for shells ammunition & please to send me your orders & specify the quantity & quality you would wish to procure.

I have not heard from Colonel Lear since we parted pray how was he receiv'd at Algiers, & how did the presents which I forwarded by the Siren please the Dey & Regency. — Requesting your answer as speedily as you determine on the measures which are to be pursued, I continue very respectfully.

UNITED STATES SHIP Constitution
Syracuse Harbour. feb 19th 1804.

Dear Sir, I am hon'd with your highly esteem'd favour of the 30th Ult together with a Copy of your letter to Capt Bainbridge, Invoice of clothing, plan, & estimate of the cost of a gun boat; for all which, please to accept my thanks.

I have applied to the Neapolitan Government for gun & mortar boats, & wait an answer before I can determine on building any, they have a great number of very fine boats at Palermo & Messina. It is not in my power to send a vessel to Leghorn at present.

The Vixen I have sent to Algiers, the Enterprize is at Messina undergoing a thorough repair. The Argus is ordered to cruise between Cape de gat, and Cape Martin on the coast of Spain, so that I have only the Nautilus Schooner, & Syren brig on the Tripoline station; of course no vessel to send for the clothing. I have as much provided, as will be wanted for the prisoners at present, & will send a vessel to you as soon as possible. If you could Obtain permission to send it to Naples, I intend to go there with this Ship, for the purpose of making some arrangements with the King, & wish you could meet me. It is my intention to be at Naples by the 30th of next month, but shall not remain more than five or six days. What think you of a cruise for a few weeks? I am in want of a volunteer who possesses your knowledge of the Nation we are at war with. My Cabin & table is at your Service, if you incline to favour me with your company; & I will engage to show you sport before the summer is out.

The Philadelphia Frigate was got off the rocks without damage; all her guns were taken out to float her close into the Bashaw's castle, where she was moored, her guns were then put on board, & the ship & her batteries got in fine order; her guns were kept loaded, tompions out, & a strong guard constantly on board. I determined from the moment I heard of her capture, to destroy her, to prevent the consequences of her remaining in their possession: this has been effected. On the 3rd ins I sent Capt Decatur in a small ketch or bombard of about 60 tons & 4 guns, with 70 volunteers from the squadron to
Tripoli, with orders to burn the Frigate, as she was so situated, that she could not be brought out. Captn Stewart in the Syren brig, was order'd to support him with boats, & cover a retreat with the brig, by anchoring off the harbour. On the night of the 16th Captn Decatur entered the harbour of Tripoli, was hailed from the Frigate; he answered from Malta, & the rigg of the vessel, deceived the Tripolitans, however they were soon undeceived. Captain D — laid the ketch a long side & in a gallant & officer like manner with his brave handful of men, boarded against all opposition; & after a conflict of a few minutes; carried her by the sword, without firing a musket or pistol: then set her on fire in every part, & she was totally consumed with all her materials: we did not lose a man, & only one was wounded: between 20 & 30 Tripolines were killed; one large boat load made their escape; many leapt into the sea & it is supposed a number hid themselves below, & perished in the flames, we made but one prisoner. The conduct of Captn Decatur, & the Officers & crew under his command, deserve the highest commendation: two of their largest Corsairs, lay within half musket shot of the Frigate, the crews of which, for some time, stood appalled at the intrepidity & daring of our men, but after a while, they commenced firing on the ketch, & the batteries & the Bashaw's castle did the same. —

This day the Nautilus sent a Maltese brig taken near Tripoly, in violation of the blockade, with 8 Tripoline merch & a considerable cargo of goods; hemp, plank, & obn on board, she is a good prize. —

Your attention to Captn Bainbridge, & the officers, & crew who are captives with him, does you infinite honor. —

P. S. I approve your plan for a gun boat, & wait in expectation, of receiving the letter you intended to write by the post, following your last. —

Sir, I regret that the 100 Gun Carriages have been sent to the Emperor of Morocco. We ought not to give those Barbarians the means of Defence or Annoyance.
I am taking measures for bringing the Bashaw of Tripoly to terms which I dare not mention for fear my letters should miscarry. The destruction of the Frigate will be a great disappointment to him, and deprive him of resources from the sale of her which he is much in want of. My heart is fixed on obliging him to sue for Peace and I hope yet to make him consent to sign a treaty as favorable as ours with Morocco without a cent for Peace or Tribute. I had rather spend my life in the Mediterranean than we should ever consent to either. I hope before the end of next summer to make him give me the Officers & Crew of the late frigate Philadelphia without a ransom.

I made Lieuⁿ Dent a Lieuⁿ Commandant to command the Enterprise, and since Decatur's return have ordered him to join this ship again, but shall employ him in a light Vessel soon. I wish you would confirm him in the appointment.

I never have heard of the arrival of my dispatches by the New York and John Adams. I forwarded a large packet by each.

Sir, I had the honor to write you the 3rd Inst at which time all the Vessels of the Squadron were at sea, excepting the Enterprise, whose Officers and Crew were gone in the prize which I captured the 23d Ult. on an expedition to endeavour to destroy the Philadelphia in the Harbour of Tripoly. The Syren went to protect and assist.

7th — The Vixen and Nautilus returned, and reported the Wind West, and weather so boisterous in the channel between Sicily and Malta, that they could not with safety keep at sea. The 8th it moderated, and the Nautilus sailed on a cruise off Cape Mazarrat to the Eastward of Tripoly. The Wind continues Westerly — 10th Rec'd letters from Messina requesting me to send a Vessel to convoy the American trade from thence to the Westward. The Vixen is destined for Tunis & Algiers, and only waits a favorable Wind. I appointed Li'd Dent to the command of the Enterprise — Supplied him with Officers & Men from this ship to make his complement 60, and ordered him to Messina to protect the trade to this port. From hence the Vixen will convoy it, as far to the Westward as Algiers. It can then proceed with safety.

12th — I rec'd about 20 Maltese Sailors & Pilots from the Island of Malta, which by permission of the Governor, I ordered to be shipped there. Those Men I shall want to distribute among our Sailors in Latteen Boats as they are accustomed to them & shall want a number in the Spring. By the Vessel that brought over the Men, I rec'd intelligence of the arrival of a Store Ship at Malta. I immediately sent the Vixen to convoy her to this place, where I have Magazines provided for the reception of her Cargo.

18th. The Vixen arrived with the Store Ship William & Mary. Captain Tipling from Norfolk. she has a cargo we shall soon be in want of, as the Beef and Pork rec'd by the Traveller has proved so bad, that a very great proportion of it we have been obliged to throw into the Sea. It is not necessary to send out Vinegar or Rice in future, as they can be purchased here much lower than in America. I am not yet acquainted with the quality of the present Cargo, as she has not commenced discharging — In the evening the Enterprise arrived with a convoy from Messina.

19th — At 10 AM the Syren and Ketch Intrepid arrived from the coast of Tripoly, after having executed my orders highly to my satis-
faction, by effecting the complete destruction of the Frigate late the
*Philadelphia* in the Harbour of Tripoly on the night of the 16th Inst
by burning her with all her Materials. The Frigate was moored in a
situation from whence she could not be brought out. Of course it
became an object of the first importance to destroy her. It has been
effected by Lieu† Decatur and the Officers and Crew under his com-
mand in the most gallant manner. His conduct and that of his brave
Officers and Crew is above all praise. I regret that the Boats of the
*Syren* did not arrive in the Harbour of Tripoly before Lieu† Decatur
had effected the burning of the Frigate, as it is probable the corsairs
near her would have shared the fate of the Frigate, if they had.

I enclose you Lieuts Stewart & Decatur's official communications
respecting this affair [16 February 1804].

P.S. A prize to the *Nautilus* has this moment arrived captured to
the Eastward of Tripoly. She is a Brig from Malta under English
Colours bound to Tripoly, loaded with Hemp, Spars, ready made
Sails, Bale Goods, & Building Stone and has Nine Tripolines on

Sir, Lieutenant Decatur is an Officer of too much Value to be
neglected. The important service he has rendered in destroying an
Enemy's frigate of 40 Guns, and the gallant manner in which he
performed it, in a small vessel of only 60 Tons and 4 Guns, under the
Enemy's Batteries, surrounded by their corsairs and armed Boats,
the crews of which, stood appalled at his intrepidity and daring,
would in any Navy in Europe insure him instantaneous promotion

beg most earnestly to recommend him to the President, that he may
be rewarded according to his merit.

DEAR SIR I wrote you the 3rd Inst that I had sent Lt Commt Stewart in the Brig Syren, and Lt Commt Decatur in the Ketch Intrepid to Tripoly to burn the Philadelphia as I understood it was not possible, from her situation, to bring her out.

I now have the Pleasure to Inform you that both those vessels returned here this day, after having executed my orders highly to my satisfaction; Lt Decatur entered the Harbor of Tripoly in the evening of the 16th Inst with the Ketch, and in the most gallant manner, laid the frigate along side, boarded and carried her, notwithstanding the resistance of a large number of armed Tripolines prepared to receive him: after having gained compleat possession, he proceeded to fire her with success; She was soon in a Blaze from her Birth Deck to her Tops, and is totally destroyed with all her materials: during the Operation the Batteries and Bashaw's Castle kept up a constant fire: The Frigate had all her guns, 40, mounted and loaded, and was in good Order.

Captn Decatur did not lose a man and had but one wounded: The Tripolines had between twenty and thirty killed: Not a musket or Pistol was fired on our side, every thing by the sword and tomahawk. We made one prisoner: It is presumed some Tripolines perished in the flames, and many drowned: I am preparing for another Expedition to their Coast; this is not the season for Action, but you know I do not like to be idle.

I enclose you a letter from Mr Davis: As you will have all the Papers alluded to in it, you can best judge of the Answer proper to send the Bey of Tunis. I conceive it will be well to write him:

I beg you to make my best respects to Mr Lear.

P. S. I expect soon to bring the Bashaw of Tripoly to reason, and shall feel anxious for your arrival or advice in case of negotiation: If you cannot leave the Regency at present, and can prevail on Mr Obrien to come here, his knowledge of the Barbarians and their language, will enable him to render me essential service. A Prize brig sent in by the Nautilus has this moment arrived, she was taken to the Eastward of Tripoly last Thursday under English Colors from Malta bound to Tripoly with Hemp Spars ready made, Sails and Bale Goods, has Eight Tripoline men, and two women on board as Passengers.

To Minister of Foreign Affairs, Tripoli, from Captain William Bainbridge, U. S. Navy

Tripoli in Barbary 20th Feb? 1804

Sir I have the honor to address you on the change of our treatment which we have experienced since the burning of the Frigate, and presuming that it is owing to that circumstance, I take the liberty of mentioning, that it was an occurrence which His Excellency ought naturally to have expected from the fate of War. To have made the attempt required no information further than what the Commodore must have got, by seeing her when he was off here in December last: the probability of such a thing, must have been obvious to every one, from the distance she laid from the shore. Having stated to you that it required no information to the Commodore and the natural expectation of such an event, I trust His Excellency, will see that it was not owing to any information from myself and Officers, who were confined until eight days before it happened; in which period not a letter was wrote, or could have reached the Commodore and had we every liberty of the Town, it would be impossible for us to give any information respecting its strength &c. more than what the Commodore must already be in possession of from Consul Cathcart, and various channels. The numerous Guard we are surrounded with, is entirely unnecessary. The Walls of the City are sufficient barriers to our making the attempt of getting away, and you Sir, have a much stronger bind on us, than all the Guards that can be placed. Our Parole of Honor, that no Officer dare to break if kept on the part of the Government to whom it is given. Preventing our sending letters to our friends, is a restraint to us, without the least benefit to his Excellency, as it is entirely out of our Power to give any information; and could we, prudence would forbid it. And you may be assured that the Commodore or his Officers will never write to us any thing which requires secrecy for fear of the letters being detected: as a proof of this, the Commodore mentioned to me in his last letter that he would not be off here before May or June, therefore from correspondence no injury can arise to Tripoly. The letters to and from our Families & friends will be the only consolation we can receive in our captivity. Having had proofs of the humanity of your heart, I feel confident that through your Interest of this indulgence, we shall not be deprived — Myself and Officers are fully sensible of your friendly disposition towards us.

Permit me to remark that no change of treatment to us, can prevent the Commodore's acting in every Warlike manner, so long as our respective Countries are at War, His Excellency will find the Americans true friends in time of Peace but active Enemies in War.
I pray the same God that Guards and protects us both to give you health —

Wm. Bainbridge

To Captain Stephen Decatur, Jr., U. S. Navy, commanding U. S. Schooner Enterprise, from Captain Edward Preble, U. S. Navy

U. S. FRIGATE Constitution
Syracuse Harbor Feb'ry 20th 1804.

Sir You will proceed immediately to Messina with the Enterprise under your command, and give her such repairs as are absolutely necessary to make her a safe Vessel. Mr. Broadbent will be the proper person for you to apply to for assistance; You will hire a vessel sufficient to receive the Stores, Officers and Crew of the Enterprise while repairing: Apply to Mr. B. to employ proper persons and pay the Bills. It is expected that not a moment of time will be lost, as in the latter part of March I shall sail with the Squadron on an Important expedition, where I shall want your services. You are not to expend any money in Ornamenting the Schooner Enterprise — I expect One thousand dollars will pay the expences necessary

Signed, Edward Preble

To Captain Edward Preble, U. S. Navy, from Nicholas C. Nissen, Danish Consul, Tripoli

TRIPOLI IN BARBARY February 20th 1804.

Sir Give me leave Sir to present You my thanks for the very polite letter of the 19th December, wherewith You have been pleased to honour me

If I have been so happy, to have been able to render Captain Bainbridge and his Officers some few services, since their captivity, I am fully persuaded not to have done more than was my duty, and my feeble exertion to alleviate their situation certainly does not merit the distinguished praise You give it.

Be assured Sir that whatever can be in my power for ameliorating the situation of the American Prisonners of War, shall never be
wanted, unfortunately however i am afraid that Captain Bainbridge and his Officers will for the future be deprived of my assistance, and i of the pleasure of shewing them politeness.

Since the attack of the 16th inst: in the evening, when the late Frigate of the U: S: Philadelphia was set on fire and totally consumed; the American Officers Prisoners of war here, have been closely confined in their house, having a strong guarde, who does not permit any body to see them nor to send them any letters, neither are they permitted to send any letters. In the house they live however in their usual way, and my Cook is permitted as hitherto to purchase and bring them their Provisions, but severely prohibited from receiving any paper.

It is said that the Bashaw has ordered a lodging at his Castle to be prepared for the American Prisoners of War.

It depends upon the Bashaw, if i am to have the honour of seeing You Sir, when You come off with the Squadron; in consequence of his express and positif demand by making it an Article of our Treaty of Peace, i have been obliged to renounce to be charged with the affairs of any Nation but my own. It was not difficult to see the reasons of this demand of the Bashaw, but they are too many to be detailed here.

I beg You however Sir to be assured, that whatever consistent with my Character, may depend upon me for doing any service to the United States or their Prisoners of War here, shall willingly and with the greatest pleasure be executed, i shall thereby find an opportunity to shew You my profound Respect wherewith i have the honour to remain

BARBARIE TRIPOLI 22d February 1804

DEAR SIR By this conveyance you will receive letters from me of the 16th and 18th Ins that of the 18th informed you that we were surrounded with Gaurds since the burning of the Frigate. — On the 20th I addressed the Minister of foreign Affairs for this Regency on the change of treatment to us; enclosed you will receive a copy of my letter to him on the subject; last evening he very politely called on me and strongly assured me that nothing unpleasant would take place and renewed his friendly offers of serving us with the humanity due to Prisoners of War; indeed his conduct has been towards us in the most liberal way that we could have expected.

I yesterday received a letter from Mr. Cathcart at Leghorn which was handed to me by this Government after they had read it Mr. C — has in my opinion been very officious in making purchases of Clothing to the Amount of 5200 dollars amongst which is 1000 doll$ for the Officers who are supplied for the present with every necessary that it is prudent to have in our Situation: In my letter of the 16th I have enclosed you a list of Articles which will be wanted the next Autumn and Winter for the Seamen & Marines. I do myself the honor of enclosing you my answer to Mr. Cathcart's letter from which you will perceive that it may not be improper to give him a caution. In confidence I hope that you will not sail together for the Port of liberty for I really believe him to be a bad Pilot altho he possesses the most consumate assurance which you no doubt will find out on acquaintance.

The Minister I presume will reply to your letter by this conveyance.

[LC. EPP, Vol. 10, Feb.-April 1804.]
To Captain Edward Preble, U. S. Navy, from James Simpson, U. S. Consul, Tangier, Morocco

Tangier 22d Feb' 1804.

Dear Sir: The want of interesting matter to impart has been the cause of my not addressing you before now, — better that than the reverse in this part of the World. — All the Emperours Vessels remain in Winter Quarters, and the Meshouda in same state at Larach. — I had flattered myself my troubles with that Vessel were over — but the Tripoline Captain and two of his Countrymen who embarked as Passengers at Tunis have represented to His Majesty that they lost in money and Merchandize on board of that Ship to the amount of $1440. —

A special Messenger was sent by the Minister with an Official Representation to me on the subject, and by Command requiring me to obtain satisfaction to those people. — I answered the Letter fully stating the reasons for my believing the claim unfounded, and I have not hitherto heard any more on the matter. — Agreeably to your wish I solicited the release of Arraez Omar of Tetuan from his dismal confinement and obtained it. — The old man has repeatedly expressed his great thankfulness, both to you and me; — he pretends to regret the mentioned Tripolines should have informed the Emperour that he had a tooth beat out on board the Meshouda, for he declares from gratitude he never would have mentioned the circumstance himself. —

As I was also called upon to satisfy Omar for this injury, it became my duty to make some enquiry into the matter and I find he accuses a M' Bellet as the person who gave him the blow, which I have mentioned to the Secretary of State. —

Omar goes farther and says that in the presence of Captain Smith and Lieu. Cox, he gave up what money he had on board the Meshouda, which has not been returned to him. —

This charge against an Officer appears of too serious a nature to be mentioned to Government, until those Gentlemen who have been named as Witnesses to the fact can be heard on the subject. — As the satisfaction Justice requires should be made to Omar, if his representation be true, is not pressed upon me; I had thought of deferring any enquiry until I should have met Captain Smith; but as its uncertain when that may happen, I have to request you will hear from that Gentleman what he knows on subject of Omw having delivered a certain sum of money as he has represented: — should that be found to be the case, then it will remain with him who received it to shew when it was returned to Omar. — It has proved matter of regret the New York did not remain here a sufficient time to admit of a more formal delivery of that ill fated Ship, than took place. — I have not heard from Government since the arrival of that Ship and the John Adams Frigate at Washington, but I have the highest satisfaction in congratulating you and myself on the proofs we have already seen of The President's approbation of the conditions on which the reconciliation with this Country was effected. — You will have heard the Gun Carriages for the Emperor have been sent out and that they have met another stoppage at L'Orient, however that I hope will be but momentary. —

It is still my intention to visit the Ports of this Country as far as Mogadore in April next, as I conceive at all but particularly at the
latter I shall find necessary to make additions or alterations in the Instructions to my Agents; the propriety of which can best be determined when on the spot. — I trust you may find it consistent with other Services to allow either a Frigate or one of the Brigs to visit Mogadore beginning of May, for the reasons were explained between us; and I will solicit a passage back to this Port in her from the Captain, as the heats will then have become too much to render a land Journey pleasant. —

The Emperour is at Morocco and most probably will remain there some Months. —

I am now at the 25th Feb the Schooner Citizen has at last reached this Port with one hundred Gun Carriages for His Imperial Majesty, which are this day begun to be put on shore, with Captain Hull’s assistance. —

M*r Simpson desires me to convey you her best regards and I beg you will be assured I am with sentiments of great Respect

UNITED STATES SHIP Constitution
Syracuse Harbour 23rd Feb 1804

DEAR SIR The Store Ship arrived safe, and brought me your letter she sails for your place the moment the wind is favourable under convoy of the Syren Captain Stewart
I wrote you the 19th, that we succeeded in burning the Philadelphia in the Harbour of Tripoli on the night of the 16th inst.
The Nautilus has met with a Maltese Brig off Tripoly [16 February] with my passport to proceed to that place in Ballast She has on board in direct violation of that passport and of the Blockade a cargo of Tripoline property, and eight Tripoline Passengers, of course she is a good prize. I shall however bring her over to Malta, investigate the business, and deposit the cargo with you; and endeavour that the Master shall be punished for the abuse of the passport I left with Gov't Ball You will consider yourself as prize Agent in all cases
I expect to be at Malta in a day or two.

To Secretary of State from John Gavino, U. S. Consul, Gibraltar

N° 145 GIBRALTAR 23rd Feb 1804

SIR I had the honor of addressing you the 10th Inst N° 144, advising my receiving a Letter from the Commander of the Schooner Citizen informing me of his being detaind at L'Orient, also of the report of a Tripolin Cruiser being at Sea, which Occasiond the Argus Capv Hull to go to examine Cape de Gatt & Cape Pallas. —
I have now the pleasure to acquaint you of the arrival here of the Schooner Citizen on the 21st Instant with the Gun Carriages, when Mr Thorn deliverd me the Original of your favour of 2d Nov last Continued to 4th d, when Agreeable to Consul Simpsons desire I directed their proceeding for Tangier the Winds being fair, which they accordingly did yesterday, taking with them your Dispatchcs for said Gentleman, those for Consul Lear, Comodor Prible &c will forward by first opportunity —
Mr Thorn told me two french 74 Gun Ships & frigate had gone from L'Orient to Rochford, & a Division of Gun Briggs for Brest, That the Genl taulk there was that the Army Collecting at Brest would make an attempt for Ireland —
Three days ago arrived the British first rate ship R° Sovereign of 120 Guns Commanded by Capv Malcome in Eight days from off Ushant to reinforce Lord Nelsons fleet, the Capv told us when he left Lord Cornwallis fleet it consisted of 25 Sail the Line of which 11 three Deckers cruising off Brest
Captn Hull in the Argus just returned in 36 hours from Alicante, could get no accounts of the Tripolin in question, but brings information of Comodor Prible having captured one with about 60 Men, which he carried to Syracuse, where he was preparing to return off Tripoly, he further adds that he learnt of the Commander of the American Schooner Equality, who arrived from Leghorn that the French had Embargoed all vessels there, amongst which was the American Ships Piomino, & Alexander Hodgson, and ordered 200,000 Rations to be got ready in 24 hours, and Impressd 2000 Genoese Sailors for the ships of Warr, it was supposed they intended to Visit the Iseland of Sicily or Sardina.

Captn Hull with the Argus intends going in the Morning for Tanger, as they have no Boats there for Landing Goods, to assist with his and Men, if necessary, to unload the Carriages,

Two Imperial Briggs of warr of 8 Guns each have arrived from the Adriatic to Cruise in those seas for the protection of their Trade with the Emperor of Morrocco &c.

To Sir Alexander John Ball, British Civil Commissioner, Malta and Gozo, from Captain Edward Preble, U. S. Navy

United States Ship Constitution
Syracuse Harbour Feb 24th 1804.

Sir, As it is probable you may hear various accounts of the capture and destruction of the Tripolitan Frigate late the United States Frigate Philadelphia in the Harbour of Tripoly, I beg leave to mention the transactions relative to that affair. On the 3rd inst I sent the Ketch Intrepid of 4 Guns, with 11 Officers, and 59 Seamen and Marines, under the command of Lieut Decatur, to Tripoly with orders to burn the Frigate. The Syren Brig accompanied her to anchor off the Harbour, send in her Boats to assist, and cover the retreat of the Ketch. The weather was unfavourable until the night of the 16th Ins. when they arrived, the Brig took her position, and the Ketch entered the Harbour — Was hailed from the Batteries and Frigate — Answered from Malta and the rig of the Vessel deceived the enemy until she was alongside the Frigate; they were then fatally undeceived. Lieut Decatur boarded with his Men, and carried her after a short conflict in which upwards of 20 Tripolines were killed on the Decks — One large Boat load made their escape, some ran below & probably perished in the flames; and many jumped overboard. As soon as complete possession was gained, she was set on fire, and totally destroyed. All her Guns were mounted and loaded; and two of their Corsairs lay within half Musket shot of her. As soon as she was in flames, the Batteries, Bashaw’s Castle and Corsairs commenced firing on the Ketch. One Cannon shot passed through her Top Gall* sail was all the damage she received. We did not lose a man, and had only one wounded.

The same Night to the Eastward of Tripoly, in sight of the burning of the Frigate, the United States Schooner Nautilus fell in with a Merchant Brig from Malta, named the Crocifisso, Fortunata Barbara Master, bearing one of the passports which I left with you; but the Master in direct violation of that passport, and of the Blockade, had taken on board Hemp, Linens, Plank, Building Stone &c* and 8 Tripoline Passengers in consequence of which, she was detained and sent to this port. The captain says he was bound to Gerbi, but his being met with in sight of Tripoly to the Eastward of the Town, and standing for that Harbour, with Tripoline passengers on board,
and having a passport from Malta to Tripoly, forbids a belief of his assertion — I suppose he thought to smuggle in our Enemies & their property with impunity. I am confidant this transaction is without your sanction, and without your knowledge. The Captain deserves to suffer, and I certainly shall make prize of his Vessel and Cargo. I have however sent her to Malta that the business may be investigated more thoroughly, in order to convince you of the propriety of my conduct. Captain Stewart of the Syren conveys her over, and will have the honor to deliver you this letter.

Dear Sir We are surrounded with Guards, and I am only able to smuggle this small note to advise you that the Bashaw intends shortly
to send his cruisers out. He has a Brig and schooner amongst them and is making cloths in the European mode for the Crews, and I presume that they will disguise under English Colours expecting by such means to evade the examination of our Cruisers

I am afraid the Italian sent will not be of service. If O'Brien could be persuaded to come, I have no doubt but he would Negotiate to the best advantage. Success attend you Prays —

Sir, I arrived here last evening. My reason for making this port was, the wind blowing hard from the Westward I could not carry a sufficiency of Sail to hold my own. I have seen a letter from M' Gavino to M' Pulis informing him that a Danish Vessel was boarded by a Tripolitan Cruiser between the Islands of Sicily & Sardinia on the 12th of last Month. the Wind is still West and blows heavy but let the wind be as it may I will sail this evening

Sir, Favoured with an opportunity by the Reynard, I am sorry to inform you, that on the Night of the 24th off Goza I was run on Board by the Port Mary, the ship under my charge, & received some damage in the loss of my Main Boom, Boat Davids & some damage to the Stern, the Boat was compleatly lost & the Main Boom broke short about one third, which makes it impossible to fish it, & conceiving it a sacrafice to cut the Philadelphia's Main Yard for the purpose, I have obtained a Spar suitable from the Publick Stores. I arrived at this place with the Ship at 4 Oclock in the morning after the accident, which was effected by his running on board me while laying too, he being under full sail & in the act, of veering. The Boom will be compleat this evening at 4 the other dammages, I shall repair at sea; without any expence. The day after leaving Syracuse, the Winds were very light & round the Compass, since which it has blown heavy from W. N. W. & continues so to do still which detains both Cap Decatur & myself — He arrived yesterday afternoon. The Ship has sustained no other loss than her Jibb Boom & Cat Head.

To Hon. John C. Smith, United States Congress, from Secretary of State

DEPARTMENT OF STATE

February 27th 1804.

Sir. I have had the honor to receive your letter of the 23° inclosing Mr Eaton's petition with sundry documents respecting the subject of it. The inclosed copies of two letters from this Department to the Auditor of the Treasury, and of those to which they are answers will manifest the course which the three items of his claim now in question have heretofore taken in the Executive Offices. It will also appear from them that the two first items (viz, the demurrage of the Anna Maria, and the charge made for the Ship Gloria) have been
referred to the Auditor for his decision, and that the last item, viz, a sum of money alleged to have been extorted from M't Eaton by the Minister of the Bey of Tunis, was rejected as, under all the circumstances of the case, not admissible under any proper exercise of the discretion vested in the Executive. This determination was guided by the consideration that the claim was rather for an indemnity for a loss sustained in his private & mercantile concerns, represented as brought upon him by the course of his public Agency, than for compensation for services rendered or reimbursement of money paid in the exercise of his office; and on this account as well as the absence, from the nature of the case, of full and formal proof of the fact of extortion, it was thought to be better adapted for the interposition of the Legislature, whose power of dispensing relief in peculiar cases, like the present, is less circumscribed than that of the Executive.

With respect to the claim for the Anna Maria, it will be sufficient to observe, that it has been unreservedly referred to the Auditor for his decision upon the merits, with a communication of the documents deemed necessary for its elucidation, and that on this account it might be considered premature or irregular for me to anticipate his decision. Permit me therefore to suggest that on a communication with him the Committee may obtain such information as may enable them to form a just opinion respecting it, should it be requisite to bring it into their deliberation, circumstanced as it is at present. It will be observed that the Auditor has been instructed to consider the Gloria as a Vessel retained for giving and receiving intelligence; and accordingly to settle her hire at a reasonable rate for the period she may have been actually employed in such service. Should however the footing on which this part of his claim has been placed be deemed by M't Eaton narrower than he conceives substantial justice to demand, it will remain with Congress to provide such more extensive relief as they may judge equitable; it being my opinion for reasons analogous to some of those stated above in relation to the indemnity claimed for the extortion by the Beys Minister, that Congress are alone competent for such a mode of relief, and this opinion is more strongly confirmed by the negative decision made upon the claim at the Navy Department, where it was presented for settlement in the shape of an incident to the Naval establishment.

To Captain Edward Preble, U. S. Navy, from James Leander Cathcart, Leghorn

LEGHORN Feb't 27th 1804.

SIR, I had the honor to forward to you at Syracuse via Naples a plan of a gunboat on the 30th Ult° & on the 19th inst° a plan of a gun & mortar boat by the same conveyance, which I hope you will receive in due season, as likewise lists of two suits of cloathing which I have prepared for three hundred men which will be ready to ship whenever you can make it convenient to send one of the small vessels for them & you may depend she shall not be detain'd more than twenty four hours at most.

Enclosed is a copy of my correspondence with our Consul at Marsseilles, it seems that so many obstacles are to be removed before any thing can be done in France, that Leghorn is by far the most eligible place for building those boats unless you can purchase them at Naples
ready built; it is to be lamented that we have no treaties with the Italian States bordering on the Mediterranean they being all at war with the Barbary States, as stipulations might be made of vast advantage to us in the event of a war with any of them. It is reported here that Sterrett has got the command of the Essex & is to carry the ratification of the Treaty & Convention relative to Louisiana to France & then to join you; remember I dont vouch for the truth of this report, but I hope it may be true for he is such a man as you want. —

On the 26th December the date of the departure of the last arrival from America, the loss of the Philadelphia was not known at Baltimore, the three Frigates which sail'd from Gibraltar in October were safe at Washington, Abraham Venable is appointed Governor of Louisiana & that is all the news I have in my power to inform you at this moment, let me hear from you when opportunity serves & believe me to be very respectfully

P: S: I dont know how true Mr Cathalan's observation may be relative to the Bashaw's menacing the Swedish Captives, neither do I know how he would treat our prisoners in case you should Bombard the town, these are points to be determined by government, but I will never cease to lament that energetic measures had not been pursued before they had any of our Citizens in their power. —

To Secretary of State from James Simpson, U. S. Consul, Tangier, Morocco

N°73 Triplicate

TANGIER 28th February 1804.—

Sir I have had the honour to receive original and duplicate of the Letter you wrote me the 31st October last year with postscripts of 4th & 10th Novem. — The former was delivered me 22nd this Month by M't William Thom, together with Charter party of the Schooner Citizen and Bill of lading for One hundred Gun Carriages by that Vessel, destined as a Present from the United States to His Imperial Majesty Muley Soliman. — The several Letters I trust you will have received from me subsequent to that of the 5th Septem, will have advised the accommodation of the differences had arisen with this Country on such a footing as left me no room to hesitate at the immediate delivery of these Gun Carriages.

In consequence I lost no time in dispatching an Express for Morocco with advice to the Emperour of their arrival, which will no doubt be highly satisfactory to him: at receipt of the answer I will have the honour of transmitting to you translation thereof, together with copy of the Letter I wrote His Majesty on the occasion. — Captain Hull in the Argus is here to give assistance in landing the Cargo of the
Citizen and if Weather permits it will be all on shore tomorrow. — I must beg leave to express my regret at those Carriages not having been sent all of the natures the Emperour expressed a wish to have; — The twelve pounders can be but of little use to him, as the Batteries thro’out his Empire are almost all mounted with Guns of 24 & 18. I must also mention the whole yet landed being for Sea Service and the circumstance of but one handspike sent for each Carriage. — To remedy the latter mistake in the person who was encharged with Shipment of the Stores, I have written M: Gavino to endeavour to procure a hundred more of the suitable sizes, which I shall deliver into the Kings Stores so soon as I get them, to prevent any unpleasant remarks on a matter of so trifling a value. — Carriages for Sea Service having been sent in place of those suitable for land Batteries I fear may not be so easily got over; however as happily they have none other of same make for Land Service in the Country, I may be able to keep them satisfied with what they have got. —

By No 71 you will have seen the unpleasant busyness agitated respecting losses pretended to have been sustained by Passengers on board the Meshouda. — I sent back the Messenger came to me, on the fourth of January and urged every argument I thought would have weight against the claims set up, since when I have not heard any farther on the subject. —

Arraez Omar of Tetuan has referred me to Capt Smith & Lieu Cox as evidences to part of his loss. — As it appears highly necessary to come at the truth of the facts alleged by these people, I have requested of Commodore Preble to hear what the former of these Gentlemen knows respecting Omars story, on receiving his answer I shall conceive it my duty to lay the whole of the information I shall then be possessed of, before you. — If it be found the people have lost their property, it will remain for the Wisdom of Government to find a means of redress and if on the contrary (as I much wish) the allegations prove to be false, I am satisfied the Emperour will punish those within his power. — A very small present for His Majesty has at last arrived from Holland by the way of Lisbon — as it consists only in twelve Cases, two Casks and a Bale there can be but little hopes of its proving equal to expectation. — The Consul is encharged with the Negotiation and waits His Majestys Commands for going to Morocco immediately or not; — in the mean time he has desired permission of our [the Emperors] Governour (at present at Tetuan) to send his Family to Europe, to which no answer has been returned, and I have reason to beleive it will not be granted. —

When the Emperour went to Morocco he appointed Sidy Muhammad Selawy Bashaw of the Province of Beni Hassan with residence at Sulle, encharged also with the Government of that Town. —

To M. Wallen, from Charles G. de König, Swedish Chargé d’Affaires, Constantinople

Copy

Mr Monroe Envoy Extraord and Minister Plenip from the United States of America to the Court of England, on being informed of the misfortune by which the American frigate called the Phila-
$delph\text{ia}$, commanded by Captain Bembridge and employed in the Mediterranean against the Bey of Tripoli, fell into the hands of the enemy of the aforesaid Commonwealth, addressed himself to me as representative of His Majesty at the Ottoman Porte, requesting that His Majestys Legation at Constantinople might employ its good offices with the Turkish Ministry and engage the same to use the influence of the Porte with the Bey of Tripoli in favor of the unfortunate prisoners, so as to procure them their liberty or if this was out of its reach, at least recommend them to be treated with humanity, until they by a thorough settlement of affairs between the two respective governments, may be set at liberty.

Thoroughly persuaded of the sentiments which His Majesty the King of Sweden bears to the United States as well as of his sincere wishes for their prosperity and for an uninterrupted friendly intercourse between the two Nations, I think it my duty to authorize you, Sir, to seize the earliest opportunity to take such steps with the Porte as you shall think the most efficacious in order to procure a result favorable for the prisoners.

Besides this step it will likewise be necessary, to send an order to His Majesty's Consul at Tripoli, to give every aid and assistance, in his power (without committing himself or the interest of his Principals) to the unfortunate prisoners; and likewise not to omit any means by which he might obtain their liberty, or a humane treatment during their captivity.

N° 74. Tangier 2d March 1804.—

Sir I have now to advise that all the Stores shipt on the Schooner *Citizen* for His Imperial Majesty have been landed in safety, but one Truck, which thro’ the negligence of the Moor Boatmen was lost overboard. — As this was no fault of the Master of the Schooner, I gave him Certificates of the entire Delivery. — The Rice was found of so very bad a quality it could not be offered His Majesty, for this reason I left it on board & desired Mr Gavino to receive it for Issue to the Squadron. —

I am sorry for this disappointment, but happily I did not mention in my Letter to His Majesty that the Rice was come. —

With this I enclose duplicate of N° 73 forwarded by way of Gibraltar, to which I beg your referrence for farther particulars respecting the Cargo of the Schooner *Citizen*. —

M’t Thom has paid every attention at unloading that Vessel and as he tells me he will take the earliest opportunity for returning to the United States, he will be the bearer of this Letter. — As I have lost all hopes of being able to recover any more of the Men belonged to the Oswego or Schooner Betsey stranded on the South Coast, I take
this opportunity of handing you the Accounts of disbursements for Redemtion and other incidental Charges paid for those whom we have fortunately got out of the hands of the Arabs. —

The Amount of disbursements for those of the Oswego is $1783 7/12 and for those of the Schooner Betsey 149 6/12 making in all One thousand nine hundred thirty three dollars and eight Cents; which sum has been provided for out of the Bill drawn under date 8th October 1800 for Two thousand dollars or Account of this Service. —

I have also the honour of handing herewith a Report on arrivals and departures of American Vessels at the Ports of this Empire during last year, which I am sorry to say you will observe is not so Interesting as the former year was. —

The interuption our Trade to this Country met with in September, has no doubt been some cause of the very great differences, but at all times (I still think) we shall only see occasional Speculations take place, as for the reasons mentioned a regular Commercial inter-course between the Countries cannot be hoped for on a grand scale. —

As the Port of Mogadore will undoubtedly continue to enjoy the chief part of whatever Trade may be carried on by the Citizens of the United States in this Country, I have considered that it may be well to visit that Port myself, when I can be best able to judge of the Regulations most proper to be established for the Masters & Merchants arriving there. —

However I shall not take any decisive resolution on the matter, until I be honoured with the sentiments of Government on subject of the late accommodation with this Country, which must be the rule of my future actions. —

The Portuguese are now about taking off the Quantity of Wheat granted them from Darel Beyda, but the Spaniards are still denied the supplies of Grain they have so long and so earnestly sollicited. —

UNITED STATES BRIG ARGUS
Algeciras Bay, 3d March 1804

SIR, After I had put my Letter to you of the 10th Feb on board the Convoy for Malta, a Vessel arrived here from the Eastward, which brought information, of his having been boarded of[f] Sardenia, by a Tripolitan Cruizer, carrying 8 Guns, and Sixty or Seventy Men, I made all the dispatch I could, and sailed on the 13th to the Eastward, with a Ship belonging to New York, under Convoy, bound to Allicant. —

We had a fair wind as far as Cape de Gatt, where we took the wind from the Eastward, and beat from there to the Bay of Allicant, passing near Cape Pallos —

On my arrival at Allicant, I found there American Vessels bound down, and as I could not gain the least information there, of any Cruizers having been seen on that station, and fearing that something might arrive at Gibralter, which would make it necessary for me to be there, I thought it best to return, with the Ships bound down, taking a good look off Cape Pallos, & Cape de Gatt in my way. —

I arrived at Gibralter on the 24th in the morn§ and found that the Schooner [Citizen] with the Gun Carriages had been there, and sailed for Tangier in distress for want of men, his Mate having been pressed, and one or two of his Seamen Sick — on gaining this information from M' Gavino, and finding that there were not any Vessels in the Bay bound to the Eastward, I sailed the same Evening for Tangier, to assist the Captain of the Schooner, in delivering his Cargo. —

After remaining in Tangier four days, and finding that I could be of no further use to the Schooner, I sailed for this Bay, leaving a Midshipman and two men to assist the Captain in Ballast§ his Vessel, and to come over with him. —

The Moors are very much pleased with the Gun Carriages, and are remarkably attentive to our flag at present, the Governor made us a present of two Bullocks, a few Fowls, Bread &$ and suffered us to take away, what Stock we pleased. —

You will not be at a loss, to know the reason of my anchoring on this side, as you will know the inconvenience of being much at Gibralter, tho' I have escaped so far, without any thing happening worth notice. —

I have the disagreeable task to inform you, that I have been obliged to arrest Lieutenant Livingston for the enclosed charges, brought against him by Lieutenant Blake, and wish you to give me Orders concerning him, he wishes very much to go to America, but I shall detain him until I hear from you — I have likewise four or five men
that have been sick ever since they left America, and likely to remain so — Should you think proper to send them home, or discharge them I shall be thankfull. — I have not as yet been able to learn, whether any of the Frigates, have began to fit out for this Station, and fear, that I shall not leave this Station, so soon as you expected. — I am now watering and shall in a few days run to the Eastward, as far as Cape de Gatt and Cruize there for a short time. —

TRIPOLY IN BARBARY 3rd  March 1804

DEAR SIR, When I was at Gibraltar, Mr Gavino the American Consul sent on board the Frigate Philadelphia four seamen without my permission on the authority of having heard me express that I was short of complement. Those people willingly came on board in a Merchant Vessel's boat. The following day as the ship was tripping her Anchors and all boats in, they came and requested to be put on Shore. I did not think proper to detain my ship to gratify their whim, which was in contradiction to their conduct of the day before, and kept them on board the Frigate until I received your orders, or their will to enter. Our haste in meeting in the Bay of Gibraltar made me omit mentioning it to you. One of them entered before the loss of the Frigate; — the other three did not but were made to do duty, and our being short of complement of which they[ly] supplied a part I presume entitles them to Wages notwithstanding they had not signed Articles. I request you to inform me whether I am to consider them as part of the Philadelphia's Crew, in order for [word illegible] my Government for the advances of clothes.

Enclosed you will receive a list of Clothing wanted immediately for the crew of the late United States Frigate Philadelphia — I am not able to point out in what manner for you to send them I presume when you appear off here, and have communication with the shore, that permission will be granted to land them —

UNITED STATES FRIGATE Constitution
HARBOUR OF SYRACUSE

4th March 1804

CITIZEN GENERAL I have the honor of enclosing a letter addressed to you, which I found on board the prize Martingana called the Mastico, as likewise a declaration of the Blockade of Tripoly, which I beg you to present to the Captain Pacha.

I wish him to understand that our object in Blockading that port, is to distress an Enemy who has made War on the commerce of the United States of America without any cause except those founded on avarice and injustice, and that this measure, is of the first importance in compelling them to a peace that may be consistent with the honor and dignity of our Country.

The Bearer of this, is an Officer of the Captain Pacha who was passenger in the said prize called the Mastico as it is possible that his Government may attach blame to him from the circumstance of his being in the Vessel I feel it a duty incumbent on me to declare that from enquiry and observation his conduct as an Officer, and Gentleman, reflects great honor on his Nation

Submitting the most proper method of making these communications to your better judgment

To General Brune, French Ambassador to Constantinople, from Captain Edward Preble, U. S. Navy

UNITED STATES SHIP Constitution
Harbour of Syracuse 4th March 1804

CITIZEN GENERAL Presuming on the good faith & friendship existing between the French Republic and the United States of America, and owing to our having no Ambassador or Consul at the Porte, I venture to ask your mediation in an affair which, if misrepresented, might bring us into collision with a power whom we are, and still wish to continue in Peace and friendship with. — reposing the fullest confidence in your well wishes for us, I beg leave to submit to you, the following statement of facts, earnestly hoping, that you will avail yourself of the earliest opportunity to make them known to the Captain Pacha, or the proper Department at Constantinople and to impress on their minds the truth of this our complaint and the attendant consequences of such a flagrant violation of the laws of Nations and Humanity.

On the 29th of October last the United States Frigate Philadelphia, then cruising alone off the Harbour of Tripoly ran on the rocks near that place. the consequences of this misfortune were, that she was attacked by Gun Boats, and other Vessels, then laying in the Harbour, and the Frigate careening so much, as to render her Guns useless she was obliged to surrender. Among the Vessels which acted in a hostile manner towards our Flag on this occasion, was the Martingana called Mastico commanded by Mustapha Rais of Candia who was in the Harbour of Tripoly under Turkish Colours which on this occasion he does not scruple to haul down, and hoist the Tripoline flag. He then proceeded to the attack, and was actually the person who first boarded the Philadelphia plundered and abused the Officers, and afterwards conducted them as prisoners to the Bashaw's Castle. Thus was the Crew of one of our Frigates made prisoners by the assistance of a Vessel belonging (as is said) to the Captain Pacha, in which case she certainly ought to have been sailing under a friendly flag. Surely such an infringement when truly represented to the Government at Constantinople, will meet their prompt consideration, and that they will readily subscribe to a punishment tantamount to the aggression I can have no doubt.

On the 23rd December last as I was cruising off Tripoly I fell in with the aforesaid Martingana commanded by the said Mustapha Rais. The crew consisted of 7 Greeks, and 3 Cretans (Turkish subjects.) There was also on board as passenger a Chouix of the Captain Pacha (who is now on his way home to Constantinople) and between 50 and 60 Tripolines and Slaves belonging to the Bashaw of Tripoly and his subjects. She was from Tripoly bound to Bengaza, and from thence to Constantinople. I sent her into port for further examination and just at the moment I was about discharging the Vessel Captain and Crew, I was informed of these important circumstances, which left me no alternative, but to make prize of her, as the Captain and the three Cretans, stand convicted of Piracy in the fullest extent of the word, and as such I am constrained to treat them, until I am advised by the Captain Pacha, whether or not this Captain Mustapha was sailing under Turkish Colours, and with his orders. If this is really the case, the Captain Pacha will doubtless decree that Mustapha Rais, and his associates have merited death. But I have a strong suspicion,
that this Vessel and Captain was commissioned by the Bashaw of Tripoly, and shall wait the Captain Pacha's advice on this subject with impatience.

I enclose you the deposition of the Chouix of the Captain Pacha, who was passenger in the Vessel; as also the depositions of several of the Crew, which prove the facts beyond doubt. After this brief statement Citizen General I beg leave to assure you, that the interest you may take in this affair, will not only insure my gratitude but that of my Country —

Accept my cordial wishes for your health and happiness, and believe me to be,

They report themselves four days from Tunis bound to Zante. The person who came on board as Captain of her could not tell how many persons there were on board neither could he shew me any papers or passports for them from our Consul at Tunis. He reported (but in a very prevaricating manner) that there was a Tripoline Corsair sailed the same day he left Tunis.

To James Monroe, U. S. Minister to London, England, from Secretary of State

DEPARTMENT OF STATE
March 5th 1804

Sir,

It appears by letters from Commodore Preble to the Navy Department that he had proclaimed the port of Tripoli to be in a state of blockade, on the grounds and in the form of British proclamations, used in cases where no effective blockade had taken place. That this measure may not be cited against the principle of blockades maintained by the United States, it is proper you should know that no instruction was given to the American Commander to that effect, and that the instructions since transmitted him will set and keep him right on that subject.

From a letter lately received by this Department from Mr Jarvis our Consul at Lisbon, it appears that he has fallen into an error on another subject which might tend to mislead the British Government in their estimate of our principles and policy with respect to their claim of seamen serving in vessels of the United States. In a spirit of liberality he signified to a British Naval Commander at Lisbon that in order to prevent a resort to impressment by British Commanders, he was willing, on proper application to deliver seamen from american vessels, who should appear to be British subjects. You too well
know the principles maintained by the United States on this subject to be at a loss in repelling any inference that may be drawn from this circumstance, or from any others, in favor of a claim which can be reconciled neither with our national rights, nor the honor of our flag.

UNITED STATES BRIG ARGUS

Algeciras Bay 5th March 1804

Sir, I have the honour to inform you, that I arrived at Gibraltar, from Cadiz and Tangier, on the 8th Feb, and on the 10th a Swedish Vessel arrived from the Eastward, the Cap† of which brought information of his having been boarded off Sardenia, by a Tripolitan Cruizer, carrying 8 Guns, and Sixty or Seventy men. — I lost no time in getting a description of the Vessel, and preparing the Argus for Sea, and sailed on the 14th in pursuit of her, with the ship Actress of New York, under my Convoy, bound to Allicant — We had a fair wind as far as Cape de Gatt, where we took the Wind from the East, and beat from there to the Bay of Allicant, passing near Cape Pallos,

On my arrival at Allicant, I found three American Vessels bound to the Westward, and as I could not gain, the least information, of any Cruizers having been seen on that station, and fearing that something might arrive at Gibraltar, that would make it necessary for me to be there, I thought it adviseable to return, with the Ships bound down, taking a good look off Cape Pallos and Cape de Gatt in my way,

I arrived at Gibraltar, on the 24th in the Morning, and found that the Schooner Citizen, had been there, with the Gun Carriages, and sailed for Tangier, in distress for want of men, his mate having been pressed, and one or two of his Seamen Sick, on gaining this information from Mr Gavino and finding that there was not any Vessels in the Bay, bound to the Eastward, I sailed the same Evening for Tangier, to assist the Captain of the Schooner in delivering his Cargo. — After remaining in Tangier four days, and finding that I could be of no further use there, the Gun Carriages being nearly delivered, I sailed for this Bay, leaving a Midshipman and two men, to assist in Ballasting the Schooner, and to come over with her to Gibraltar. — The morning I left Tangier, came on a most violent Gale of wind, which obliged me to run through the Strait, and lay by until the following morning, when the wind became more moderate — I beat up, and Anchored here in the Afternoon. — I have been this moment informed, by the health Boat, that his Britannic Majestys Brig Weaze, was lost in the Gale, on Caberitta Point, and that several Vessels had drove from their Anchors at Gibraltar, and was obliged to go to sea — Amongst the Number two Americans, but I have not as yet been able to learn their names. — It is my intention to fill up my water at this place, and then run over to Gibraltar, and take on board a supply of Provisions, and if no application is made for Convoy, I shall again take a look off Cape de Gatt, and Cape Pallos, and hope, should any of the Enemy's Cruizers venture on this station, to be fortunate enough to fall in with them. —

TRIPOLY IN BARBARY 5th March 1804

DEAR SIR, With this you will receive three letters from me of the following dates 16th and 20th of February and the 3rd of March. I do myself the honor of enclosing you a note I wrote on the 3rd inst to Sidi Muhammed Dghies, Minister of foreign Affairs to His Excellency the Bashaw of Tripoly and his answer. In the latter you will perceive his question on Massacre of Prisoners. I have noticed it in my Note to him of this day, but you will be able to reply to it.

On the first of March we were taken from the Quarters which we had occupied, and placed in an Apartment where we are shut up, from all communication with any person. Of course our situation is not as comfortable as it has been.

Myself and Officers send many letters for America by this conveyance to Malta. Trusting to hear from you as Often as you deem proper.

TRIPOLY IN BARBARY

5 March 1804

SIR, I replied to the letter which Commodore Preble did me the honor to write on the 4th January last and which reached me the 15th of February. The Commodore speaks much of humanity in his letter, he is however far from the practice of it, since three of the Guards of the Frigate have been found dead on the shore between Tripoly and Mesurat covered with wounds How long has it been since Nations massacred their Prisoners?

All that I have done to soften your situation requires no thanks. It was with much pain that I prevailed at last on the Prince to permit you to go and walk in the Town & Country I might certainly have continued to procure you other privileges

In the actual state of things, and above all on account of the Anger of His Excellency the Bashaw who has rendered himself inaccessible. You must know Captain that I cannot undertake to charge myself with another Negotiation.

You may communicate this information to Commodore Preble if you think proper, and send me the letter which I will have conveyed to him. You can do the same with those letters which Yourself and Officers wish to send to your families as you have requested by the Letter of the 3rd inst which you wrote me.

(Signed) SIDI MUHAMMED DGHIES
Minister of Foreign Affairs to His Excellency the Bashaw of Tripoly in Barbary

PS. I forgot to tell you in reply to your billet of the 27th Feb that M'r Schambri Ambassador sent by the Commodore is closely engaged with His Excellency the Bashaw in the Negotiation with which he is charged —

TRIPOLY IN BARBARY 5th March 1804

Sir, I had the honor last evening to receive your letter of that instant in consequence of the permission contained in it, I now send you letters for the Families and Friends of myself & Officers which we shall be much obliged to you to forward to Malta.

With your consent I have enclosed to the Commodore a translation of your letter to me, who no doubt will be able to explain clearly to you that the death of the men you allude to, does not merit the appellation of Massacre, but was occasioned by a necessary consequence in making their escape. You may be assured, Sir, that it is an incontrovertible fact, that the Americans always treat their Prisoners with the greatest humanity and give quarters the moment opposition ceases.

I take this opportunity of again assuring you that myself and Officers are sensible of your interposition in procuring the Privileges which were granted us.

TRIPOLY PRISON March 5th 1804

"DEAR WADSWORTH, Since the burning of the Frigate we have been removed & close confined in an apartment of the castle, but the Minister granted us permission to write our Friends and he has promised to forward our letters after he has perused them. With respect to the capture of the Frigate I shall only observe that we were in pursuit of one of their cruisers, after giving over chase & in the act of hauling off shore going about 8 knots we grounded on a reef of rocks lying about 3 miles from shore. Her bows were in 12 feet water & her lee gun deck ports on a level with water's edge: every exertion was made to get her off & every seamanlike expedient tried to but without effect — at first all was hove aback & all the guns run aft: then Most of the guns hove overboard, all the water started in the hold & pumped out: the Anchors cut from the bows, & as a last effort the Foremast was cut away to lighten her forward but without effect. — The enemies gun boats in the mean time took their station on our starboard Quarter & commenced a well directed fire at our masts and rigging, they lay in such a situation that not one of our guns could be brought to bear on them not withstanding we cut away part of our stern.

Finding all endeavors to defend the ship useless Capt Bainbridge very coolly & prudently call'd a council of his officers who were unanimously of opinion that to save the lives of the Brave crew there was no alternative but to haul the colors down & with tears in his eyes did that truly brave man submit to the painful necessity: — previous to hauling the colors down we did everything in our power to disable the ship.

"Rest satisfied that no exertions were wanting to get her off nor could courage avail anything — their getting her off was more the effects of fortune than any exertions on their part — 48 hours after the unfortunate event a fresh N W gale arose which rais'd the waters on this coast with a heavy swell which hove her off the reef. After we struck our colors finding they did not come to take possession of the ship Capt B sent me in the Barge to tell the enemy they might
take possession as we should make no further resistance, this prob-
abley has given rise to the story you mention. When an investigation
takes place I feel confident the American character will suffer nothing
from this accident. Present my best respects to my old shipmates &
your Brother Officers and accept assurances of high respect & esteem
from your unfortunate but affectionate Friend, D. PORTER.

To Sir John Acton, Prime Minister of State, The Two Sicilies, from James Leander
Cathcart, Leghorn

LEHORN March 5th[*] 1804

His Excellency
Sir JOHN ACTON &c &c &c
Naples

Sir The commander in chief of the United States Squadron
stationed in the Mediterranean, having established his head quarters
at Syracuse in Sicily, finding it absolutely necessary to join to his
squadron four Gun & four Mortar Boats, and being informed that at
Palermo and Messina there are some belonging to His Sicilian Majesty
exactly calculated for the service on which he intends to employ
them, has requested me under date of the 31st January to proceed to
Naples to request permission from the Government to purchase the
said Boats which are not at present in actual service; or if more
agreeable, he promises either to have others built in their place, or to
return them in at least as good condition as he receives them, should
the Government of Naples not think proper to alienate them entirely.

Deeming it inexpedient to make so long a journey before I was
informed of the probability of success, I have taken the liberty to
address Your Excellency on the subject being encouraged thereto by
the very polite reception the Officers of the American Squadron have
always received from you at Naples, and the consideration that His
Sicilian Majesty being engaged in a War with all the Barbary States
by our Squadron frequenting his Coasts & Harbours, and destroying
the Cruisers of any one of those states, is in reality promoting the
Welfare of his subjects, by giving security to their persons and prop-
erty, and lessening the risk of navigating under the Neapolitan flag.

I have requested John Matthiew Esqr our Consul at Naples to
present this to Your Excellency, and to await your answer, which by
your influence I have reason to believe will be in the affirmative.
Mr Matthiew will be directed to procure the necessary order for their
delivery to Edward Preble Esq Commander in chief of the U S
Squadron stationed in the Mediterranean when he finds it convenient
to call or send for them, and to forward it to him at Syracuse.

If we should be so happy as to succeed in this our request the
Government of the United States will take a singular pleasure in
acknowledging the favor, and Commodore Preble or myself will
proceed to Naples in order to enter into any contract with that
Government on the part of the United States of America that the
circumstance may require.

Consul General and Agent for the U S
of America near the Regency of Tunis

CONSULAR HOUSE TUNIS
March 5th 1804.

SIR,

On or about the 17th Ulto. anchored in the road of Gouletta a corsair of Barbary, said to be an Algerine, it was but a few days since, that she was discovered to be a Tripolitan, who came here for supplies. On its being made known, she was immediately ordered away by the Veckil — contrary winds, and want of Provisions have detained her. I have advized the Enterprize getting under weigh in order to avoid her detention on the part of the Government (agreeable to Treaty) as I have this moment received an order to appear at the Palace, and suspect this to be one of the objects. His Excellency has been pointedly peevish of late, and apprehend that my morning visit, will renew the history of his complaints.

To Captain Edward Preble, U. S. Navy, from John Broadbent, U. S. Navy Agent, Messina

MESSINA 6th March 1804.

DEAR SIR, I am infinitely obliged to thee for the pleasing intelligence of the gallant action of Captain Decatur at Tripoli and as I am convinced that it will give great pleasure to the Inhabitants of this Island, I shall take the liberty of giving a translation of it in the Gazette of this City. I shall also send a copy of it to General Acton, confident that it will meet with thy approbation. Achievements of this nature cannot be too well known; it will have a good effect on the Court of Naples, and may give courage to this Government. A Neapolitan Squadron of 2 Frigates and 2 Cutters arrived yesterday from Naples, and it is said they are to be joined by another Frigate refitting in this port, but what the object of this expedition is, I know not.

Numerous reports have been spread about the sailing of the French Fleet from Toulon, but I have reason to believe that none of them are true.

Lord Neilson with his squadron was seen off Minorco eleven days ago.

By the hands ofLt. Com: J: H: Dent, I had the honor of receiving thy letter of the 8th Ulto: and waited immediately upon His Excellency the Governor Guillechini to see if I could procure the Gun Boats &c: but he had no authority to dispose of them without previous orders from the Court of Naples either by sale or otherwise.

He the Governor as well as the Marquis Ospley [?] Minister of the Marine to whom I also spoke on the subject, promised to do everything in their Power to assist any of the ships of the Squadron under thy command which may come into this Port for the purpose of refitting and be assured, that I shall at all times be happy to render thy Officers such services or attentions as they may stand in need of to the utmost of my abilities.

As soon as I receive Gen: Acton's answer to my request for Gun Boats &c: I shall do myself the honor of acquainting thee therewith at Syracuse. Should I not, in the mean time have the pleasure of welcoming thee at Messina.

[To the Captain Pacha, Constantinople, from Captain Edward Preble, U.S. Navy]

May it Please Your Excellency,

The United States of America's Frigate Philadelphia having unfortunately struck on the rocks off Tripoly in Barbary, the 31st of October last was attacked by Armed Vessels and Boats, and from the situation of the Ship, was obliged to surrender. Among the Armed Vessels which made prize of the Frigate and prisoners of the Crew, was the Martingana called Mastico commanded by Mustapha Rais of Candia which Vessel it is said, belonged to your Excellency. She was in the port of Tripoly under Turkish Colours, when the accident happened, but immediately hauled them down, and hoisted the Tripoline flag, took on board a number of Tripolines armed with Muskets and sabres, and went out to the attack; Anchored near the Frigate, and as soon as she surrendered Mustapha Rais with his men, boarded the Frigate, made her a prize, and took the Captain & Officers &c. as Prisoners Plundered and abused them, and conducted them to the Bashaw of Tripoly. Thus by the Piratical interference of the Vessel of a friendly Nation, was the crew of one of our Frigates made prisoners of. A true representation of that transaction will be made to you, by the English and French Ambassadors residing at your Court; and I hope and expect from the friendship & respect which the Government of the United States of America have for the Grand Seignior, and the Ottoman Nation that it will please him to grant us that Justice for which he is so renowned by ordering the Bashaw to surrender up to me, the Officers and Crew of the Frigate, and by punishing in an exemplary manner those of his subjects who were concerned in this flagrant violation of the law of Nations. The U.S. are in peace and friendship with the Ottoman Porte, and wish ever to remain so. The friendly interference of the Grand Seignior,
will insure the lasting gratitude of my Country. I cannot but be astonished that the Bashaw of Tripoly could have permitted such a piratical transaction in his Port with impunity.

MAY IT PLEASE YOUR EXCELLENCY
The bearer of this Hafiz Chouix of Constantinople was in Tripoly in Barbary at the time the United States of America’s Frigate Philadelphia was captured by the Tripolines, but he was not concerned in the piratical transaction of which Mustapha Rais and his associates were guilty on that occasion, and which will be represented to you by their Excellencies, the English & French Ministers or Ambassadors at Constantinople.

Hafiz Chouix was a passenger on board the Vessel commanded by the said Mustapha Rais when captured by our ships, and has conducted in a manner honorable to himself, and his Nation. I have treated him well and have sent him home by the first good conveyance and hope you will receive him favorably, as he is a very deserving, and good Mussulman.

I beg leave to refer you to him for information respecting the conduct of Mustapha Rais and his associates.

The United States of America, respect & honor the Grand Seignior, and the Ottoman Nation, and wish to be in peace and friendship with them for ever.

May God preserve your life and health!

UNITED STATES SHIP Constitution

Sir, I have the honor to inform you, that I have this day rec’d a letter from Messrs James Mackenzie & A Glennie of London, by whom I have been advised that they had hon’d Six of my Bills dated at Gibraltar the 27th of September last amounting to Four thousand Pounds Sterling, and drawn in favor of Laurent Roberts. You will easily judge of my surprise, when I inform you, that I have never written to them, nor drawn on them for one cent. The liberal supply of Money which came out in the Squadron has precluded the necessity of such a measure. I enclose you a copy of their letter to me, and my answer thereto, I have written Mr Gavino at Gibraltar, in hopes that he may be able to fathom this villainous transaction. However I cannot believe, but it must have originated with some person in London who was acquainted that I was authorized to draw on the House of Mackenzie and Glennie previous to my arrival in the Mediterranean, as I had your letter of credit on board for some time after those Bills are said to be drawn.
I am directed by my instructions from you, to draw on the House of McKenzie & Glennie; and should I have occasion to draw, it will be on that firm, for I never (previous to the receipt of the enclosed extraordinary information) heard of the firm of James Mackenzie and A Glennie.

I have never heard the name of Laurent Roberts nor do I know the firm of a House, or a Merchant in Gib excepting Mr Gavino.

Sir, By the enclosed, you will learn, that the U. I received no communications of any kind by the Enterprize; but learn from the Commander, that the Vizen, had sailed for Algiers; and may daily expect the pleasure of seeing Yourself and M't O'Brien here.

The uncertainty that this will find you at Algiers, does not permit me to make any remarks on the late event. The Tripolitan, will be dismantled in this port; at least orders have this day been given by the Veckil to that effect —

[LC. EPP, Diary, 1803-1804.]  

To Secretary of the Navy from Captain Edward Preble, U. S. Navy

UNITED STATES SHIP CONSTITUTION
Harbour of Malta 11th of March 1804. —

SIR, I had the honor to forward you two setts of Dispatches by the way of Gibraltar, under date the 3rd and 19th Ulto by different vessels, and now forward you Triplicates of the same I experienced many inconveniences from having so many Prisoners on board, as their want of attention to cleanliness was injurious to the health of my Crew; and they occupied more room, than I could spare. Having no Prison-Ship, I applied to the Neapolitan Government, and obtained permission to Land them at Syracuse, and deposit them in their Castles which permission, I have availed myself of. I have however kept on board Eight of the Principal Officers, who are of too much consequence to be trusted out of our sight. I expect to recover Cap' B—— for the principal one.

The Vixen is gone to Tunis and Algiers, with my letters to the Consuls, and is to return immediately. The Enterprize sailed on a Cruise off Cape Bon, and was to return to Messina to get a thorough repair, which can be done cheap at that place, and in about a month. The Syren and Nautilus is off Tripoly, and I shall sail this day to join them.

I expect to obtain Gun and Mortar Boats from Naples on loan from the King; but shall not want them before the last of May, as
they cannot navigate these seas with safety before that time, previous to which, it will be necessary for me to go to Naples in this ship, to Officer, Mann, and Convoy them to the Coast of Tripoly, but shall delay no time, and my route to, and from there, will be the best cruising ground to fall in with Enemy's Cruisers, if they should have any out.

There are now in this Port, three Tunissian Frigates from 24 to 32 Guns; and one of 32 Guns, and a number of Xebecks, Polacres, and other War Vessels at Tunis, fitting in all possible haste for sea; the object is hinted to be the American Commerce I verily believe that it is the intention of Tunis to make War against us. My whole Squadron consisting only of two Brigs and three Schooners, is quite inadequate to carry on the Blockade of Tripoly, & watch the coast of Morocco & Tunis; not only so, but it will be dangerous for our small Vessels to separate for the protection of our Trade, as the Tunisians may be too strong for any force that I can detach at present. It will be politic, and for our Interest to send out a sufficient force at Once to quell these Barbarians If I had two Frigates more here, and the Brig Argus, I would engage to have Peace with Tripoly on our own terms before July and to keep the Tunissians in full check. I wish you would send me out Eight 32 pound Carronades for the Upper Deck of the Constitution; they will be much wanted in case of a War with Tunis and Algiers, which we ought to be prepared for. I also want six 12 pound caronades for our Boats, the Carriages Worms, Rammers, Spunges, &c. should be complete for all the Carronades, as they cannot be procured here unless at an enormous price. I expect to spend a large quantity of Powder in Fire Ships, and Infernals to blow up the Bashaw's Works, of course it will be well to send me 100 Barrels of Powder by the first Vessel of War that comes out.

If I had a vessel to spare, I would send to Alexandria to bring down the Bashaw of Tripoly's Brother, and put him in possession of Derne and Bengaza immediately, from thence he could march to Tripoly, and with our assistance take it; as all the Arabs of the Country are in his favour. I am in hopes the arrival of some additional force to our little Squadron will enable me to do this before the season is so far advanced as to dry up the Springs, and prevent the march of Troops from Egypt to Bengaza & Tripoly.

Our Commerce in the Mediterranean is immensely valuable, and daily increasing; and should the War continue between the European Powers, we may engross nearly the whole business by keeping up a respectable force, to protect our Vessels. I hope we never shall consent to pay Tripoly for Peace or Tribute; and should Tunis make War that we never shall have Peace with them but on the same terms. If we are now too economical with our Naval force, it will only lead to greater expenses in future. I only want the means to bring them to a proper sense of their situation, and it shall be done; but if a sufficient force is not sent out immediately the consequences may be serious, as it regards our Commerce.

One of the Tunissian Cruisers which arrived here a few days since, was met at Sea by the Syren Cap't Stewart and refused either to send a Boat on board, or to allow him to send one to them; or to exhibit any passports. The force was so nearly equal, that Captain Stewart did not think proper to attempt to enforce the right of being satisfied, as she hailed from Tunis. Had I met with her I certainly should not
have suffered her to pass without asserting the right our Treaty gives us, of examining Passports, as Tripoline Vessels often visit Tunis, and wear similar Colours to the Tunissian Vessels. You may rely with confidence that I shall do all in my power to protect our Commerce, and punish those who infringe on our rights. I hope I shall not be accused of a want of Prudence in the measures I adopt.

When I was last at Syracuse, I rec'd a letter from a Mr. Barnes, dated at Leghorn, who subscribes himself Consul of the United States for Sicily. I find from enquiry that he was appointed about two years since, but I believe has not been in Sicily a resident in the Island. We have a wretched Vice Consul in each of the ports of that Island, who cannot speak a word of English, and who have no respectability attached to them. I am told they have purchased their Offices at Naples, at from 270 to 500 Dollars each; they are of no service, and disgrace the uniform of our Navy by wearing it. Indeed they dress in the most ridiculous manner, and are the laughing stocks of their own Country Men as well as foreigners. We certainly ought to have a respectable representative at Naples, a Man of influence by which means we should at all times have every facility in procuring whatever we may want for our operations against the Barbary Powers.

Would it not be for the Interest of our Country to have a Minister Plenipotentiary or an Ambassador at the Ottoman Porte? Such a character might influence the Grand Signior to guarantee our treaties with the Barbary powers, and they would then never dare to infringe them.

The Brig [St. Crucifesso] captured off Tripoly by the Nautilus, the Gov't of this Island acknowledges to be a fair prize, and will lay no claim on her. It will not be prudent to send her home at this season of the Year, as she is a very dull sailer, and I cannot at present spare men, as soon as I conveniently can, I shall send her to the United States.

I have just rec'd letters from Captain Bainbridge, he acknowledges the receipt of six letters from me, and a quantity of clothing, stores, and one thousand doll' for the Officers, and Crew. They are closely confined since the burning of the Frigate, but I have allowed the Tripoline Prisoners I have, to write to Tripoly, and when the Bashaw is informed of the manner in which I treat them, he will undoubtedly conduct more favorably towards Capt. Bainbridge, his Officers and Crew.

The Barbary Powers are daily increasing their Naval force, and will soon become powerful, if not seasonably checked. Let me once more enforce the necessity of an addition to our Squadron of two or three frigates. If you send three be assured we shall eventually be gainers by it, as it will give us a consequence with the Barbary States which we want. If no additional force arrives before the Middle of May, I shall take Derne and Bengaza, to deprive the Tripoline Corsairs of a rendezvous there, and the Bashaw of the revenues of that Beylic; but I shall be obliged to destroy the Towns, unless the Bashaw's brother contrives to march from Alexandria in Season to receive the possession of them from us, I shall then commence my operations against Tripoly, as soon as Gun and Mortar Boats can be brought to the Station.

I have sent three men home in the Store Ship William & Mary
unfit for service, one of them was left in the Hospital here by the *Philadelphia*, and the other two, belonged to this ship. They are furnished with proper Tickets.

Dear Sir, I am hon'd with your highly esteemed favour of the 20th Ulto. for which please to accept my thanks. I hope when I appear off Tripoly the Bashaw will permit you to come on board, as I wish
personally to pay my respects, and you are well aware that you must visit us to enable me to do it, until we are on more friendly terms with the Bashaw than at present. I cannot conceive why he should deprive Capt. B— and his Officers of any privileges they enjoyed previous to the burning of the Frigate; She was set on fire by my orders. Capt. B— and his Officers ought not to suffer for an act, of which they could have had no sort of previous knowledge or foresight. It is certainly unjust in the Bashaw to treat them with more rigour on account of that affair. I however hope when he finds how well I treat his people who are my prisoners that he will relax and allow them more liberty. I enclose you a letter for Captain B—which you will please to forward to him If it is necessary the Minister should read it, I have no objection to his breaking the Seal.

[LC. EPP, LB, Dec. 1803–April 1804.]

To Captain William Bainbridge, U. S. Navy, from Captain Edward Preble, U. S. Navy

UNITED STATES FRIGATE Constitution
12th March 1804.

DEAR SIR, I have received your several favours of February & March and cannot conceive why the Bashaw should have changed his Conduct by removing you to the Castle, and depriving you of the privileges you enjoyed previous to our burning the Frigate. She was burned by my orders, and without the previous knowledge of any person in Tripoly. I had a right to burn her, but if I had not, the Bashaw would be unjust to punish you for an Act of Mine of which you could have no knowledge or foresight.

The Minister says I am wanting in the practice of humanity before he again makes the assertion, let him enquire of his Country Men Prisoners with me. I have given them full liberty to write without restraint or examination of their letters; and when I appear off Tripoly if he chooses he may send one of his Officers on board to accompany one of the Consuls and learn from the mouths of the Prisoners how they have constantly been treated. After such an enquiry he will not have reason to accuse me of a want of humanity.—

I regret that any lives were lost in destroying the Frigate, the Men who were killed in taking possession of her, had a right to expect their fate from the opposition they made, and the alarm they endeavoured to create. Our People were few in number, and had everything to apprehend from an attack by their Cruisers and armed boats. The Officer who conducted the expedition has not reported to me any act of Massacre or inhumanity — People who handle dangerous weapons in War, must expect wounds and Death, but I shall never countenance or encourage wanton acts of Cruelty —

I have not yet been hon‡ with answer which the Minister Mentioned to have been made to my letter of the 4th January.

M'r Schambri whom the Minister styles (in his letter to you) my Ambassador, has no more authority from me than I have knowledge of him, and I assure you I never spoke to, or saw him since I was created.

When the Bashaw chooses to propose a Negotiation I will attend to it, if consistent with the honor and dignity of the United States.

I very soon expect M’t OBrien here from Algiers on business. All the clothing for your sailors are made, and on board this ship.
We will take very good care of our friends, and Enemies both at Sea and in Port. I shall be glad to see them well provided for.

PS: The night the ship was burned, I capt⁹ a Malta Vessel to the East⁴ of Tripoly loaded with Plank, Scantling, Nails, Hemp, Flax and bales of ready made clothing and Linen, with 8 Tripolines on board bound for Tripoly she is so fair a prize, that Gov⁵ Ball will not claim her —

MARCH 12th 1804

Dear Sir, The prize I captured off Tripoly the 23rd of December was the Martingana or Ketch which assisted in making prize of the Philadelphia — She was under Turkish Colours when you had the misfortune to run on the rocks, but as soon as that event took place, he hauled them down and hoisted Tripoline Colours, took on board as many Tripolines armed, as her Decks would hold, slipped her Cables, and went out to the attack, Anchored as near as they dared to, and as soon as you struck your Colours, her boats were manned, and they boarded you. Mustapha Rais who commanded her, was the most active in making Prisoners of yourself and Officers, and conducting you to the Bashaw. He was also extremely active in plundering the property of the Officers. The Turkish Officer who was passenger on board, and also with you in the [George] Washington is gone to Constantinople. I released him as he had no concern in the business: I have his deposition and that of seven others who were captured in her, which makes prize of the Vessel and Cargo, and Pirates of the Captain and four other Cretans who were concerned in the infamous transaction. I have written a full account of the whole business to the Ottoman Porte, and to the English and French Ambassadors at that Court. I presume that the Grand Seignior will demand of the Bashaw of Tripoly the release of you all, as you were captured Piratically by the assistance of a Vessel which was a few moments before bearing the Ottoman Colours and that he will also demand of the Bashaw satisfaction for permitting this Piratical transaction with impunity.

P S. All the depositions were taken before the Government at Malta

Sir, A heavy Gale of wind from the E N E has detained me here since my last, the moment it subsides, and changes I shall put to sea. Yesterday a Boat from the Tunisian Admiral came alongside with three Officers, and in a haughty imperious tone, demanded that I should turn all our Prisoners up for his inspection to enable him to judge if there were any Tunisians among them. I replied to him that I had released the only one of his nation that had fallen into my hands among the Tripolines; this was not satisfactory, and as I did not think the request or the manner in which it was made very decent or proper on their part, I refused to gratify them or degrade ourselves by a compliance, they then moved off but observed that it would not be long before they should have plenty of us. It is possible they may tell truth, but I suspect they will pay dear for their bargain. I have been told from good authority here, that it is the intention of the Bey of Tunis to declare War against us as soon as the Spring opens, if we do not give him a Frigate completely equipped. This I am confident our Government never will do. Of course we must look out for War. The Tunisians have more Naval force than I can watch with sufficient attention to prevent them from injuring our Commerce, and at the same time carry on the Siege of Tripoly. I beg you to pardon my solicitation that additional force may be sent out with all possible expedition. I feel extremely desirous of serving my Country — Give me the means and I will do it, by rendering the purchase of Peace or payment of Tribute totally unnecessary in this Eastern World. In the mean time every thing shall be done that our little Squadron is competent to, and I hope more than can be reasonably expected from it.

I have to observe that the Provisions sent out in the William & Mary Store Ship are very excellent. The Beef & Pork is branded Connecticut, and the whole has been delivered in good order.

Sir, I arrived at Tunis on the 3rd inst and found there one of the Bashaw of Tripoly's Corsairs of 12 Guns and a great many Men. I was informed by Mr Davis, she would be ready for Sea in two or three days, the wind blowing heavy from the Northw'd and Westward I remained here three days. On the fourth I rec'd a letter from Mr Davis, mentioning that the captain of the Corsair had reported it was his intention as soon as he was ready to go out, and wait for me, and on my coming out to board me. To strengthen him in his intention, I circulated a report that we were short handed, and what few we had were sickly — On the 6th I rec'd a letter from Mr Davis mentioning that he was summoned to the castle, together with the Bashaw of Tripoly's Consul, he mentioned also that he had strong suspicions that the Tripolitans had requested my detention in port. I of course got under weigh immediately, and cruised off Cape Bon until the 13th when supposing it possible he might have slipped out unobserved, I run into the roads to ascertain where I found him hauled into the Mole with all his yards upon deck I was informed he hauled in, and stript the day after my departure, since which period, the whole of his Crew had deserted him. There can be no doubt but he is bound direct for Tripoly, as he had taken on board a very Valuable Cargo. of dry Goods belonging to the Bashaw. I left him discharging his Cargo again. I touched here for the purpose of giving you this information and replenishing our Wood, which is entirely out. I reported at Tunis my intention was to remain off the Bay until relieved by another Vessel — We have had easterly winds for ten days past, and blowing very heavy. 'tis now almost calm, and I doubt much weather, I shall get in to day after procuring Wood, I shall make my appearance off Tunis again, from whence I shall repair to Messina. I enclose you a number of letters from Mr Davis.

Dear Sir Your friendly letter of the 19th of January last this moment came to hand: your commiseration for our misfortune, and kind offer of services claims my warmest thanks. — In the unavoidable loss of the Frigate Philadelphia, under my command, I feel confident, on investigation, that my conduct on that unhappy event, as well as those I had the honor of commanding, will appear satisfactory to our Governm! The friendly interposition mentioned in the latter part of your letter I sincerely hope will take place — I have not the least doubt of the advantage to be derived from it.

Since the burning of the Frigate in this harbour, which you no doubt will hear of before this reaches you, we have been kept closely confined.

As the walls of a prison afford no interesting matter for a letter, you will excuse the brevity of this, with my sincere assurance that I estimate your friendly attention, and shall at all times be happy to hear from you, and equally regret with you that circumstances prevented my cultivating your acquaintance when I was at Marseilles in the Frigate Essex, on which I had flattered myself much pleasure; and should our destiny be for your port after leaving this, it would
afford me great satisfaction to repeat my assurances under your roof.

LEGHORN 16th March 1804

Sir, It is with singular satisfaction that I can now announce to you the total destruction of the ship Philadelphia, in the Port of Tripoli. — this intelligence was yesterday received here by the Danish Consul, from the Consul of the same nation at Tripoli in date of the 29th of February. — the following is the translation of his letter. — "on the 16th ins† was discovered from the town, two vessels, but both so disguised, as to prevent our discerning of what nation they were — the smallest having the appearance of a merchant vessel, entered boldly the port at half past nine in the evening, and having taken designedly some Turks on board, they requested in the language of the country, of those in the frigate to suffer them to anchor a long side; which was immediately granted, and even assisted in bringing her to moorings. this was no sooner effected, than an hundred well armed Americans leaped on board, cutting down every one who opposed them, while the more prudent, took their flight by leaping into the sea and gaining the shore. — almost instantaneously the ship was in a blaze, and the small vessels again out of the port, before any orders could be given by the Bey, although he saw the burning of his frigate from the windows of his palace. Nothing I am told can be compared to his unavailing anger; but in order to spend his rage on some object, he has ordered an additional portion of labor to the fore-mast men of the Philadelphia, and the officers so closely guarded, that even communication by writing is interdicted them. — were it not for his hopes of a heavy ransom, they would most assuredly experience some more distressing marks of his disappointment. — the Danish Consul adds in his letter, that the Bey's charge d'affaires at Malta had very lately returned to Tripoli, and "it is said" with proposals of accommodation from Com° Preble". — if this were even true, the grounds on which they would have negotiated at that time, are since changed by the burning of the frigate, and will increase the demands of the Bey in the same proportion as he estimates her loss. — indeed, I am told that he bitterly swears that for less than a million of dollars, he will not hearken to any overtures of peace. — on the 6th ins† a Neapolitan squadron of five frigates sailed on a cruise against all the barbaresque powers.

DEAR SIR

* * * * *

The U. S. States Schooner Vixen, Capt. Smith, arrived here yesterday, from the Commodore at Syracuse, who gives me the pleasing intelligence of the frigate Philadelphia which had been captured by the Tripolines, got off[f] the shoal & equip'd in their Harbour, being burnt
there by the stratagem & enterprize of the Americans without the loss of a man. — He also adds that there are strong appearances of the Bashaw of Tripoli making peace with us upon proper terms. Should he not do this, every arrangement is made to give him warm work in the ensuing summer. —

Our Affairs here appear to stand well at present. We have no special difficulty before us; but nothing is certain in these latitudes. The Bey of Tunis is not very well satisfied with the U. States; but he has no just grounds of difference; and while we have a force in this Sea he will hardly break out upon us. —

Of the British we have heard nothing since their fleet left this Coast on the 19th of Jan except* that Mr. Falcon, their former Consul here, sailed from Gibraltar for England in Febt. —

I shall be happy to hear from you whenever you can make it convenient to write, and you may always assure yourself of my best services, if they can be made useful to you.

I have been so long in the Mediterranean that I have acquired an habitual hatred of the Bashaw our enemy, & I feel as much interested in punishing him as if he had personally insulted me. We are almost certain of Peace in a few months, but whether it will be done without cannenading him (I mean his Capital-Tripoli) I do not know: The officers all wish the latter. — The Bashaw is a shrewd fellow, but he has an equal in our commander: He has many of my friends in captivity. — By the bye I cannot help letting you know that I was appointed one of the Expedition to burn the Philadelphia but at the time they left the port I was so unwell as to be confined to my bed & have but just recovered so as to be able to return to duty.

The Argus is universally allowed to be the finest vessel floating in the Mediterranean. The envy & jealousy of the British officers is excited by our fine Ships & handsome manoeuvring: we meet on shore but to fight — & insult each other. The Politeness of the American officers will always induce them to give the preference to such as do not claim it but we wage eternal war with those who arrogate superiority. —

UNITED STATES SHIP Constitution
Syracuse Harbour 18th March 1804

Sir, I arrived here last evening from a Cruise and was hon'd with your Dispatches of the 17th January, and under the same cover a letter for the French Commissary in Tripol which I shall attend to and deliver the first opportunity. This Ship is now receiving on board Provisions and Water, and will sail again tomorrow for the Enemy's Coast. The generous and friendly interference of the first Consul [Napoleon Bonaparte] for the purpose of endeavouring to liberate our unfortunate Citizens in Tripoly and restore Peace between the United States and that Regency is truly characteristic of that great Man, and an additional proof of the close alliance of humanity, with intrepidity

By the enclosed Duplicate of a letter to yr: Excell'y under date the 19th Ulto: you will be informed of the particulars of the taking and burning of the Tripoline Frigate late the Philadelphia. I determined from the moment I heard she was in possession of the Enemy to destroy her, and it has been done. This will seriously effect the Bashaw who is poor as it has deprived him of the resources which the sale of her to Algiers or Tunis would have afforded, and at the same time; those Powers are deprived of an important addition of strength to their Navy. The Bashaw is extremely angry since the loss of the ship, and has removed our Citizens within the Walls of his Castle, and does not allow either of the Consuls or Commissaries to see or speak to them, but I have a sufficient number of Tripoline Prisoners of distinction in my possession to insure their safety. I treat my Prisoners with the utmost kindness and attention, and have allowed them to write and make what communication they please to the Bashaw without examining their letters, conscious that they cannot say anything but what must lend to our advantage. The Bashaw's first expectation for the ransom of our people and a Peace, is said to have been three Millions of Doll'r! he has however fallen considerably, as not long since he offered thro' his Agent at Malta to make a truce for five years without Money. I observed to him that my Government never would consent to a truce, it must be a solid Peace on the
same terms for that we never would purchase Peace, or pay him
Tribute and I have no doubt but we shall be able to dictate our own
terms before the last of July. I am preparing to attack his Coasts on
every part of it, and have applied to the Neapolitan Govt for the loan
or hire of a few Gun & Mortar Boats, which if I obtain, I will oblige
the Bashaw to sue for Peace as a favour in three days after I reach his
Coast —

I wish you could prevail on the French Governor to influence the
Neapolitan to loan or hire us what Gun & Mortar Boats we stand in
need of, paying for such as might be lost, and making good all
damages, and to furnish us with Ammunition. The King of Naples is
at War with all the Barbary States, of course it will be for his Interest
to comply, as it will enable us to destroy all the Bashaw's Towns on
the Sea Coast, and all his Cruisers, of course it will be a long time
before the Tripolines can again depredate on the Coast of Sicily.
Perhaps the desire of the First Consul that Peace may be established
will have the effect, but it will be well to take the precaution to have
the Gun Boats &c at command in case it should not. I have sent a
vessel to Algiers for Col: Lear, and expect him very soon, when I
shall deliver him the papers you desire me to. He has full powers to
make peace, but not to pay Money for it: he is only authorized to
give a consular present of Ten thousand dollars and that is more than
we ever ought to consent to give them. I had rather spend my life in
these seas than ever purchase Peace, or pay tribute to the Barbary
States, and I believe it is the intention of our Government never to consent
to either. I have taken two Prizes and seventy Tripoline Prisoners;
and have written to the Bashaw proposing an exchange of Prisoners.
An answer has [not] yet come to hand. I am at present in great haste
but shall in future take every opportunity to write you, and keep you
informed of my proceedings. I have had frequent opportunities of
writing to America since I have been on this station.

accompanied by the dispatches from Our Minister at Paris enclosing
letters from the French Consul's Minister of Foreign Affairs to the
French Commissary General at Tripoly which I shall attend to the
delivery of. I arrived here last night to take in provisions and water,

Some time since, I forwarded you an account of the burning of the

of note, — except that I have receiv'd letters from Captain Bainbridge,
who in consequence of our destroying the Frigate, has with his
Officers been closely confined within the Bashaw's Castle; but I
have a sufficient number of Tripoline Prisoners of distinction, to
guarantee their safety, and tolerable good treatment.

The interference of the First Consul will undoubtedly have con-
siderable influence with the Bashaw of Tripoly but I have no doubt,
even without that influence, that I shall be able to effect a release of
our Country Men, & a Peace, on terms honorable to the United
States, by beating the Barbarians into a proper sense of their situation, I am in great haste at present, but shall in future keep up an unreserved correspondence with you, when opportunity offers. Please forward the enclosed to Paris —

Sir, I returned to this Port last evening from Sea, and was honours with your letter of the 6th Ulto. Yours by the Syren, I had previously received but did not think proper to answer, as I was not informed of your Official situation; the Government of the United States never having notified me, that a Consul had been appointed for Sicily; neither had I ever heard your name mentioned, until I received your letter.

I shall in future keep a regular correspondence with you when in port, & shall be glad of every sort of Political information which you may deem it necessary to communicate.

All letters for me, you will please address under Cover, to George Dyson Esq Naval Agent for the United States Squadron at this place,
as he alone will know where to send them to me. I have a regular correspondence with M't John Broadbent at Messina M't A Gibbs Palermo, Messrs Fred Degen & Co at Naples, Messrs Degen Purviance & Co Leghorn and William Higgins Esq at Malta, who are Naval Agents for the Squadron, and to whom I am indebted for much information and assistance.

The dispatches from Paris forwarded to M't Appleton by M't Livingston our Minister, I have rec'd this day, and shall pay them proper attention. The interference of the First Consul, will undoubtedly have weight with the Bashaw of Tripoly in any negotiation but I suspect we must depend on our own exertions to bring him to such terms as we choose to dictate. I have no doubt of compelling the Barbarian by force to restore me the Officers and Crew of the Philadelphia, and to make Peace without any pecuniary consideration or a cent for tribute. To James Leander Cathcart, Leghorn, from Captain Edward Preble, U. S. Navy

U. S. Ship Constitution
Syracuse Harbor March 18th 1804.

Sir, I arrived here last evening for provisions & water. I have not yet receiv'd your plan of a Mortar boat, & it is not probable I shall very soon as I sail again tomorrow for the coast of Tripoli: I am informed from Naples that I shall be able to procure the necessary boats from the Neapolitan Government, of course shall not build any, but am much obliged to you for your prompt offer to undertake the business, I have receiv'd letters from Algiers which inform me that M't OBrien late our Consul at that place is coming up, fully empower'd by Col! Lear to join with me in a negotiation for peace, I expect him to join the ship off Tripoly in a few days: the Bashaw is anxious for Peace & I think will make it on our own terms; if he does not, I will beat him into a disposition for it; before the next summer is gone. As M't OBrien is sent up by Col! Lear, and understands the language of the country & disposition of the Barbarians, it will preclude the necessity of your putting yourself to the least inconvenience to join us.

I have letters from Tripoly Capt B: writes me that they are kept closer than before the burning of the Frigate but are well treated.

[18 March 1804]

To President Thomas Jefferson from Richard Farquhar, Malta

May it Please Your Excellency

I have the Honor to inform your Excellency that there is every appearance of bringing the Bashaw of Tripoli to moderate terms this Summer

but should the United States think of sending three or four Frigates and three small Brigs or Schooner with six field Pieces and Artillery men & Tripoli can be taken with the Assistance by Land of His
Excellency Side Hamet Caromanli, Brother to the Present Bashaw of Tripoli, who is now marching towards Derna to Cooperate with Commodore Preble who has Promised him Assistance &c.

As Side Hamet Caromanli, has Promised to repay all the Money &c advanced to him or on his Account and to remain at Peace forever with America, and to put them in Possession of one of the Principal Forts in Tripoli until the Expenes is repaid but this is of less consequence to America than the Effect it will have with the other Barbary States. and if Tripoli is taken in this manner, I am convinced America will be at Peace with those States for many years, for Should the Present Bashaw make Peace with his Brother or America separately, he will then be more revenged with the other, for I can Prove to your Excellency that I prevented him from making Peace with his Brother who had not knowledge to see, that he would only make Peace with him until he did so with America, & afterwards he would go to war with them seperately, but I am happy to think I was the Cause of him commencing Hostilities with his Brother until America had made Peace, and also to prevent him from Poisoning his Brother which he had in contemplation by offering his Docter (who is now in Syracusa and in the Service of America by my recomendation) a reward of ten Thousand Dollars to go to Derna to Poison his Brother! he has Murderd another Brother [Hassan] some years ago and in the Presence of their Mother — therefore it is better for America to be at the first expence to make a lasting Peace with all the Barbary States for they only go to war with those who are afraid of them, and should a patched up Peace be made with him, he says & will make war against Denmark or Sweeden and in rotation with the United States again, therefore this is the time to make a long Peace with them all. I have inclosed one of the Official Letters to me when I was in Tripoli for the attention I paid to the American Officer there, by a Letter I rec† the other day from the English Consul that the Bashaw will write to Sir A. Ball about my assisting the Americans with Plans of Tripoli and Pilots one of which was in my Employ as a Cap² of a Small Vessel who had been in Tripoli often and who Piloted in the Vessel which Burned the Philadelphia and also my having procured thirty Seamen & has been at Expence & troble with Pleasure and I will be at more which I hope will prove advantageous to America in a few weeks I could wish to hold a Situation under the American Government[en]t which would prevent the English Government from Pro[sec]uting me hear, which I am afraid they will when ever the Letter arrives from the Bashaw which I think will come with his Consul who is expected hear soon from Tripoli

Concerning return of Meshouda and Mirboha to Emperor of Morocco

An Act for the relief of the captors of the Moorish armed ships Meshouda and Mirboha

\section*{SEC. 1. Be it enacted, \\&c.,} That the sum of eight thousand five hundred and ninety-four dollars and fifty cents, being one moiety of of the value of the armed ship Meshouda, captured by the frigate John Adams, commanded by Captain John Rodgers, and restored to the emperor of Morocco, be, and the same is hereby, appropriated to defray the expense of prize money due to the captors; and that the further sum of seven hundred and thirty-eight dollars and twenty-five cents be, and the same hereby is, appropriated for defraying the expenses incurred for the said ship, whilst in possession of the captors.

\section*{SEC. 2. And be it further enacted,} That the further sum of five thousand dollars be, and the same hereby is, appropriated, for defraying the expense of prize money due to the officers and crew of the frigate Philadelphia, commanded by Captain William Bainbridge, being one moiety of the value of the armed ship Mirboha, captured by the aforesaid frigate Philadelphia, and likewise restored to the emperor of Morocco.

\section*{SEC. 3. And be it further enacted,} That the aforesaid several sums shall be divided amongst the captors, respectively, in the proportion already established by law, for the distribution of prize money, and shall be paid out of any moneys in the treasury not otherwise appropriated.

his whole Naval force with the utmost expedition, and it is whispered that the object is the American Commerce: from various circumstances I believe there is much truth in the conjecture. Three of their Frigates from 24 to 32 Guns are now fitting out at Malta, One Frigate of 32 Guns, and a number of smaller Vessels are getting ready at Tunis. I have written home by two favourable opportunities requesting an addition to my Squadron, as we have only one Brig of 16 Guns and three Schooners of 14 each besides this ship in these Seas, and one Brig at Gibraltar. This force is unequal to Blockade Tripoly, and protect our trade against the Tunisians. I have long since stated to our Government the necessity of sending out two or three more Frigates. If they arrive soon, it will most undoubtedly check the Tunisians and keep them in peace; if not, our Commerce may suffer in some degree, as it is impossible for me to guard all parts of the Mediterranean with so small a Squadron. I shall, however, do all in my power to make them repent their want of good faith; and shall visit Tunis bay immediately with as many of the Squadron as can be collected off Tripoly, to endeavour to learn what the intentions of the Bey are, and shall write you the moment I can come at the truth. The Bey is very much dissatisfied that the United States will not give him a Frigate which he has demanded of them; and this is to be his pretext for War. These people must not be humoured but beaten. I was at Malta not long since, and was then told by good authority that we might expect War with Tunis very soon.

TRIPOLI 19th March 1804.

Sir, I have the honor to acknowledge the receipt of your letter of the 16 January, and in reply, I beg leave to assure you, that nothing has been, or shall be wanting on my part, to render every assistance in my power, for the relief and comfort of the Officers and Crew of the late Philadelphia Frigate, as far as my public situation in this Kingdom can permit.

You was good enough to say, that you wished for a correspondence with me; I have to assure you, that it affords me infinite pleasure in having it in my power to comply with your request, particularly for many motives when a personal interview takes place, I shall explain.

I have not been able to make much enquiries respecting the demands the Bashaw may expect from the U: S. as time & circumstances has been so much altered of late, that since the destroying of the Frigate, and the slaughtering of all the Tripolines who were on board, any urgent solicitations on my part, might at this moment be construed (by people who I know their ideas) in a different light from what it was intended for, and perhaps render abortive my future proceedings at another period more F
d

I have therefore thought it prudent, to remain at present silent, until the Anger of the Bashaw is over; and when I see a F
d moment,
you may rest assured no exertions in my power shall be wanting to promote the interest of the United States with this Government and convey to you the result of my interviews.

UNITED STATES FRIGATE Constitution
at Anchor Harbour Syracuse
19th March 1804

Sir, Having received information that there is an expedition preparing at Tripoly for the declared purpose of burning or destroying some of our cruisers While lying at Anchor, I think it proper to apprize you of the Circumstance, that in case of an attempt you may give them that kind of reception that shall leave them nothing to boast, —

It has likewise become necessary from well grounded reasons to caution you against the TUNISIANS, be particularly on your guard — their movements and conduct appears — hostile, towards our country, But it is necessary that these suspicions should in the present state of Affairs, be confined to your own Bosom, —

N B, The Tripolitans have dressed themselves in English clothing, and it is probable you will meet them under false colours, —

President Thomas Jefferson's Message to Congress

8th Congress 1st Session.

COMMUNICATED TO CONGRESS, MARCH 20, 1804.

To the Senate and House of Representatives of the United States.

I communicate to Congress a letter received from Captain Bainbridge [dated 1 November 1803], commander of the Philadelphia
frigate, informing us of the wreck of that vessel on the coast of Tripoli, and that himself, his officers, and men, had fallen into the hands of the Tripolitans. This accident renders it expedient to increase our force, and enlarge our expenses in the Mediterranean, beyond what the last appropriation for the naval service contemplated. I recommend, therefore, to the consideration of Congress, such an addition to that appropriation, as they may think the exigency requires.

UNITED STATES SCHOONER Nautilus
At Sea: March. 20th 1804.

SIR. Agreeably to your order I submitt to you an account of the situation of the Nautilus from the time I took charge of the deck on the morning of the 20th until the time of her being run foul of by the U S Brig Syren.

At 4 A M the Syren was three quaters of a Mile a head on our weather bow we then having our starboard tacks on board with the Wind at E S E. At about 20 Minutes after 4. I discovered the Syren bearing away I supposed with the intention of wearing yet did not alter my course untill I could determine what she intended doing, by this time she was on our lee bow three cables length distant with her yards square. I then ordered the quarter master to keep his luff which he did bringing her nearly on our lee beam intending to shoot across her stern and mew after her that we might pass to eeward of her. Observing his bracing up on the larboard tack and finding we could not weather and had not room to wear, I ordered the helm to be put alee & at the same time hailed the brig and told her to put her helm a weather, but received no answer I then hailed her again and received no answer when she run her Jibb boom just fore head of our main Mast and we sustained the damage which has occassioned the subject of this letter.

[LC. EPP, Vol. 10, Feb.-April 1804.]

To Lieutenant Richard Somers, U. S. Navy, from the below-mentioned officers 20th March 1804.

SIR. After examining the damages sustained this morning from the Syren's running on board of us we are of opinion that it is not safe to continue at sea. The damages are, four of her stantions carried away, which prevents our setting up the rigging with sufficient security to the Mast in bad weather, and at the same time prevents the use of two of the guns. The Plank Hearer is split twelve or fourteen feet, and opened so much, that it is impossible to secure it at Sea against bad weather —

Sir I have the honor to inform you, that I this moment captured the Polacre Ship under the Russian flag called the Madonna di Catapoliani laden with Bullocks, Sheep and Horses. She left Tripoly last night, and is bound for Malta.

They have violated the Blockade by carrying to our Enemy. Troops, Arms, Goods &c. The Pilot of this Ship informs me that they came from Smyrna about the 6th Novr having cleared out for Gerbi, for the purpose of deceiving our Cruisers should they meet with any off Tripoly as they knew it was blockaded by our Squadron, and arrived at Tripoly the 26th December, where they delivered their Troops and Cargo.

Memorial to Captain Edward Preble, U. S. Navy, from Gaetano Andrea Schembri, Valletta

To his Excellency Edward Preble Esq' commander in Chief of the Ships of the United States of America cruizing in the Mediterranean.

The humble Memorial of Gaetano Andrea Schembry of the City of Valette Merchant. —

SHEWETH

That your Memorialist is deeply interested partly as proprietor & partly as Freighter of three Ships named the Transfer [captured 17 March], the SS°° Crocifesso and the Madonna di Catapoliani lately seized [on 16 February and 22 March respectively] by the Cruizers under your Command on a charge of having violated the Blockade of Tripoli

That for many years prior to the Blockade established by your Excellencys orders, before the Port of Tripoli your Memorialist carried on a considerable commerce with that City, & was so far in the confidence & esteem of the Bashaw as to be appointed his Consul at Malta, yet notwithstanding his principal support was derived from this Branch of his trade he determined from the time he became acquainted with your intentions to conform in the strictest manner to his duty as Neutral & abstain from all intercourse with the Block-
aded Port unless so far as he might be authorised thereto by your Excellency's express permission. —

That having in the early part of February last observed your Excellency in conversation and intercourse with Mr Wilkie his Majesty's Commissary for the Fleet at Malta, & with whom your Memorialist was intimately acquainted, it occurred to your Memorialist that an offer to sound the inclination of the Bashaw towards an accommodation with the United States might not be unexceivable to your Excellency, that your Memorialist communicated his Ideas upon the subject to Mr Wilkie & having been assured by him of your Excellency's approbation embarked on board a Vessel of his own named the Transfer bearing his Britannic Majesty's Letter of Marque, & which was going under your excellency's Licence to be loaded with Bullocks for Malta. —

That your Memorialist left Malta on the 13th of Feb but being forced back by contrary winds was obliged to remain in the harbour of the Valette till the 17th when he again sailed for Tripoli & arrived there on the 21st —

That from the moment of his arrival there he gave up most part of his time and attention to discovering the sentiments of the Bashaw, and endeavouring by a faithfull representation of the power & preparations of the United States to induce him to wave those pretentions to tribute upon which he had formerly insisted & at last succeeded so far as to prevail upon him to treat with your Excellency upon the sole conditions of Ransoming such Americans as were at that time prisoners in his possession, at which time the Bashaw also furnished your Memorialist with a set of Signals to facilitate any communication which your Excellency might be inclined to open with him. —

That your Memorialist in the mean time caused one Vessel to be laden with such Cattle as he was able to procure & conceiving this a favorable opportunity of obtaining payment of a large sum then due to him from the Bashaw shipped several Butts of Oil, & Iron on board the Transfer, which had been delivered to him in discharge of the account, the Bashaw not being able agreeably to the wish & request of your Memorialist to furnish him with Bullocks

That in so withdrawing his property your Memorialist was so little apprehensive of incurring your Excellency's displeasure that the Transfer sailed from Tripoli in open day when some of your Cruizers were actually in sight, & with orders to lie off till such time as your Memorialist having finished some private affairs should be able to follow her. —

It was therefore with extreme surprize & sorrow that your Memorialist saw from the shore the seizure of his Ship, & that he has since been informed of the Capture of two other Vessels of which one laden solely with Cattle was seized for not having compleated her Voyage by the 1st of March, & the other was taken on her Voyage outward, for having on board certain Tripoline passengers, and also some few Articles of Commerce chiefly Boards & paving Stones, which were nevertheless to have been landed at Gerba, a port in the dominions of Tunis, prior to the Vessel proceeding to Tripoli for Cattle. —

Under these Circumstances your Memorialist humbly hopes from your Excellency's Justice & humanity the restitution of the ship Transfer, & such part of the Cargoes of all the three Vessels as belonged particularly to him. — In the case of the Bark bound to Gerba
your Memorialist submits that no Licence was necessary, & no offence could of course be committed, that the delay of the Vessel laden with Cattle was in part owing to causes which he could not control, & partly to his Zeal in executing your Excellency’s commission, & with respect to the Oil shipped in the Transfer, he trusts that a reasonable distinction will be made between a common Mercantile transaction, & the only means which your Memorialist had for obtaining possession of & bringing away his Property.

GAETANO ANDREA SCHEMBRY

[LC. EPP, Vol. 7, 1803.]

[16 February—22 March 1804.]

To Gaetano Andrea Schembri, from Captain Edward Preble, U. S. Navy

U. S. Ship Constitution
Malta 19th Septemt 1804.

To GAETANO ANDREA SCHEMBRI,

SIR, — Some time since I received Your Memorial setting forth the “deep Interest” you had in three Vessels Vizt The Transfer, Crucifiso & the Madona di Catapoliana, captured by the U. S. Squadron blockading the Port of Tripoly.

This Memorial Sir, I consider nothing more or less than an appeal to my humanity — However grateful to my feelings as an Individual to realize the wishes of the unfortunate, I cannot violate the important trust placed in my hands by an act of pusillanimity —

The three Vessels as above named were captured not only in the act of violating the laws of Blockade, but in a most flagrant violation of a passport given by myself to his Excellency Governor Ball for the purpose of bringing from Tripoly a number of Bullocks contracted for, previous to the blockade — These Passports particularly specified that the vessels bearing them should go to Tripoly in Ballast and return laden with nothing but Bullocks, but to my astonishment & distress learned that an instrument given in the fullest confidence and from the most honorable motives was, by you, prostituted to the most infamous purposes —

The Transfer sailed from Malta for Tripoly with a Passport as above alluded to; but was laden with military stores — The weather favorable, she eluded the vigilance of our cruizers & arrived safe, and delivered her cargo to the Bashaw, and was captured coming out laden with Oil, Bar Iron &c &c

The Smp Crucifiso sailed from Malta with my passport, but laden with Planks, Nails, building stone, Flax, Hemp, and bale Goods, and was captured to the Eastward of Tripoly standing directly in for the Town: She had eight Tripolitan Passengers on board, who acknowledge that they were bound directly into Tripoly: Independant of which, there was found secreted under under the Transom Cieling a large number of letters directed to different persons in Tripoly: and neither letter, Bill of Lading or Invoice for Gerba, where you pretend she was bound

The Madona de Catapoliana knowing of the Blockade of Tripoly, Sailed from Smyrna laden with Naval & Military Stores for account of the Bashaw of Tripoly. Favored by the weather she arrived in that Port and delivered her cargo & sailed from thence laden laden with live stock directed to the Tripoline Consul at Malta, and was
NAVAL OPERATIONS FROM 1803 TO 1804

captured by Our Squadron — In all respects these vessels have been conducted in direct violation of the Blockade and my particular Passport I have adverted very briefly as to the circumstances under which they were taken, & I have now only to make a few general remarks on the motives by which you have been governed.

You have prefaced your appeal with circumstances which only exist in Idea. You arrogate to yourself the possession of the “confidence and esteem of the Bashaw of Tripoly”: and the “particular acquaintance of Mr Wilkie His Majesty’s Commissary for the Fleet at Malta” — This you seem to suppose a sufficient reason why you should (unasked) interfere in the Affairs of the U. S. of America — Insolent Medlar! — Have you sagacity enough to calculate the pernicious consequence of your Duplicity? Do you know, that your ill timed officiousness served only to raise the sordid expectations of a Barbarian?—No — You do not exactly comprehend the extent of the mischief you have done — but this you well know, that the motives of this fraud against the U. S, were to secure the money you had then due in that regency and to make as much more as you could by the Violation of the faith reposed in you by his Excellency Govt Ball.

I only regret that an investigation must be deferred until laid before my Gov’t: this I shall make a point of doing the moment I arrive in the U. S. & I have no doubt but they will demand of the English Gov’t an enquiry into your conduct, and have still less doubt but they will award a punishment tantamount to your iniquitious proceedings —

In conclusion I have to observe that all your vessels shall be subject to trial by the Admiralty Courts of my Country — In addition to which I would advise you to be cautious in again interfering in the affairs of those who will not fail to detect your duplicity & want of common Honour & honesty.

I am not uninformed of your late attempt to supply our Enemy with powder while he was not only Blockaded, but actually besieged —

Signed EDWARD PREBLE

UNITED STATES BRIG ARGUS
Gibraltar Bay 22d March 1804

SIR, I have been honoured with your Letters of the 24th Jan & 9th Feb by the Woodrop Simms, which Vessel arrived here last evening — I have since consulted Mr Gavino on the subject of giving her Convoy, and have determined, as every thing is perfectly tranquil on this Station, and the Argus ready for Sea, to sail immediately for Syracuse, with the Ship under Convoy, and shall make every exertion, to return to my station, as soon as possible. —

To Captain Edward Preble, U. S. Navy, from John Gavino, U. S. Consul, Gibraltar

GIBRALTAR 22nd of March 1804

DEAR SIR, Although I had nothing new, I wrote you on the 3rd instant under cover to Governor Ball with sundry enclosed p's an English convoy. And the 17th by the American Ship Alfred who went for Malta. This goes by the Ship Woodrop Sims Captain
Miles Reddick who arrived yesterday from Norfolk, with a Cargo of provisions for the use of your Squadron, and have directed her to proceed to Syracuse to Mr George Dyson, to whom I now enclose Bill of Lading and Invoice. She goes convoyed by the Argus Captain Hull. As nothing new occurs here yet I think it should be proper some state Vessel was on this station as two Imperial Brigs of War are in these seas to protect their trade against the Emperor of Morocco. He will avail himself of this pretext to fit out his Cruisers, and after play a trick upon such Nation as may be unguarded.

I now come to own recpt of your favor dated Feb 1804, with the few lines of 5th inst accompanying Dispatches for the Navy dep: which shall be forwarded by first conveyance. It has given me the greatest satisfaction to find the success which attended the brave and spirited attempt of Captain Decatur in taking and destroying the late Philadelphia frigate, your account of which, I have published in the Chronicle of this place and hope such brave feats will follow from your Squadron to convince the Tripolitans of their error, and make other states look about. I have given Capt. Hull ten News papers for you, and wishing you all happiness.

I have now the great satisfaction of handing you Copy of a Letter to me from Comador Prible with the very pleasing and interesting account of the Capturing and destroying of said Vessel in Tripoly, the Gallant and brave manner in which it was accomplished by Cap. Decature does him and others Employd on that hazardous service much honour. I have got the Commodores Letter publishd in the Chronicle of this Place.

The Schooner Citizen who brought the Gun Carriages had her Mate John Morrison Impressd at Sea on her way here from Lorient by the British frigate Amphion Captain Sutton on account of his having been Born in Scotland, who also threaten to take out a Seaman, being a Native of Ireland, however the latter went on board the U. S. Brig Argus & Enterd having his Protection as a Citizen. The schooner Citizen being in distress for want of a Mate &c and being bound to New York with a Cargo, I put on board of her Frederick Lewis a Native Citizen Mariner in distress who the Comander shipd and alowed him $18 pr Month Wagers, but was not qualified to be a Mate, in consideration of which, and that he might proceed on his Voyage, I requested of Arch Karr Commander of the American Ship Baltimore then in this Port, to alow John J. Blake one of his ships Comp who offerd to go Volunteer on board the Citizen as Mate, which he granted on my making a formal request to the purpose that he might be severd of responsabilitys, which I did to relieve the Citizen, and of which hope you will approve —

To Captain Edward Preble, U. S. Navy, from Tobias Lear, U. S. Consul General, Algiers

ALGIERS March 23rd 1804.

DEAR SIR, I had the honor to receive by Lieu[1] Comm[1] Smith of the United States Schooner Vixen, your several favours of the 17th and 31st January and 3rd & 19th of February, with their enclosures. The burning of the Philadelphia, is a circumstance which does honor to the head which planned, and the bold enterprize which executed it. I think it must be productive of good effects to our affairs in this Sea.

The Vixen arrived in this Bay on the 15th instant. Upon the fullest consideration I can give the subject, I am persuaded it would not be for the interest of our Country that I should leave this Regency at present, even if I could obtain the Dey's permission, which might be somewhat doubtful, as we are indebted to him on account of our annuities; and the present critical state of our affairs here, with respect to the British, might lead them to construe my departure into an act of relinquishment, or at least of fear of the storm which may happen if the British should come here in force. I have therefore, agreeably to your request, desired Mr O'Brien my predecessor, to go up in the Vixen, to aid in any negotiation that may take place with the Bashaw of Tripoli, should he be seriously inclined to make peace on admissible terms. His knowledge of the language, Manners, and Politicks of these Regencies, must be highly useful to you. Such
is the aid you will most want, and which can be much better supplied by Mr O'Brien, than by me. As he had been making arrangements to leave this place with his family for Alicante in a short time, he takes them up with him, in order to proceed from that quarter to the U. S. whenever an opportunity may offer; or when his services can be dispensed with.

In order to give Mr O'Brien time to prepare for his departure (which would require some days) Lieu Comm' Smith with my approbation, left this on the 16th instant, to look over on the coast of Spain, and has returned here this day. He must be detained until the 25th instant, as the Mahometan feast of Biram commenced yesterday, and will not finish 'till tomorrow night during which time it is not practicable to get these people to do that kind of work which is necessary for embarking a family. This will I hope, excuse Lieu Commandant Smith from any blame on account of unnecessary delay; and I believe the services which Mr O'Brien can render, will fully compensate for the loss of a few days.

In your letter of the 31st of January, you mention that the Agent of the Bashaw of Tripoly at Malta, had proposed that we should give the Bashaw 500 Dollars for each of the Philadelphia's Officers and Crew. — A schooner in exchange for the Frigate, and make peace without Money or Tribute; and that they would exchange 60 Americans for the sixty Tripolines in your possession. If these terms could be insured, I think there should be no hesitation in accepting them; for they are much better than our Government had calculated upon (putting the loss of the Philadelphia out of the question) In order that you may see the views of the Government when we left the U S I enclose a copy of a letter on that subject from the Secretary of State to Mr Cathcart dated April 9th 1803 and which I was authorised to go to, if Peace should not be previously made.

You wish to know what sum I will authorize you to pay for the ransom of the Officers and Crew of the Philadelphia, if the Bashaw will make peace without Money — without any Annual Tribute, or Consular present, excepting a small present on the reception of the first Consul that is appointed. As I have no special authority on this subject, I can only say, that I should not hesitate to take upon myself in behalf of the United States to pay at the rate of six hundred Dollars for each (exclusive of what might be exchanged) upon the ratification of the other parts relating to peace &c. And should you consider my sanction necessary I do hereby authorize you to act in this business to any extent that I might go myself.

I have the honor to enclose copies of my letters to George Davis Esq' our Charge d'Affairs at Tunis, by which you will see the steps I have taken to supply the wants of our unfortunate fellow Citizens in Tripoli; also copies of my letters to C. Bainbridge From Dr Davis I have not had a line since the 27 December I shall write to him by this opportunity, and Mr O'Brien will be able (if the Vizen touches there) to give you full information on our affairs in Tunis. As it is probable that new instructions respecting that power will be soon received from our Government in consequence of the refusal of Mr Cathcart, and the Bey's subsequent letter to the President, I have hitherto avoided taking any steps in the business.

To Mr O'Brien I must refer you for a full detail of our affairs here, he is able to give you this to the greatest extent. I shall therefore only
say that we appear to stand well here at present. I yesterday made out the Consular passports and other documents for the Cruisers of this Regency; a list of which, is enclosed, and also ten copies of the ConsULAR passport and Prize certificate, which will afford one for each of your Squadron to assist them in their examination if they should meet with any of these cruisers at sea. It is thought however, that they will not send out more than two or three, if any before these affairs are settled with the British.

The News papers which you was so good as to send me by the Vixen gave the latest intelligence we have had from the U.S. I am in daily expectation of hearing what measures the Government has taken in consequence of the loss of the Philadelphia. I wrote to the Secretary of State on this event, that, in my opinion, it would have such an effect on our affairs in these Regencies that the Government must determine either to follow her loss by a force sufficient to reduce Tripoli to terms at once, or become tributary to all the Regencies to any extent they might think proper to demand — or withdraw our commerce entirely from this Sea, which would be attended with as great an expense in keeping Ships of War to guard the Straits as to effect the first point.

Mrs Lear sends you by Cap² O'Brien a sword Belt, which she has had embroidered here for you, and of which she begs your accept with her best wishes for your health, happiness, and prosperity. There are no clasps or Buckles to it, as they could not be so well done here, as they may be elsewhere.

To tell you my dear Sir, what I think of your conduct since you have been in this Sea, would appear too much like flattery. I hope and trust you will find our Country ready to pay the tribute due to your talents, your patriotism, and your activity. Ardent as I know you would be to gather laurels in your profession, yet, I am equally certain that the love of your Country would never permit you to sacrifice her peace and interest, when they can be preserved with honor & propriety.

To the Officers of your Ship and Squadron, I beg leave to present my best respects & regards, in which I am joined by Mrs Lear.

P. S. March 25ⁿ. I am happy to inform you that we have this morning settled up all our Accounts with this Regency paying in Cash the balance due to this time.

SIR, In a letter which I received from my friend Mr. M'Donough (the British pro Consul at Tripoli) since you sailed from this Port, is the following passage.

"The Bashaw is preparing fast to meet the hostile preparations of the Americans "which He understands is carried on with vigour at Syracuse. — I wish much to "see the American Commodore, & I have no doubt of His arranging matters "amicably with this Government" —

Thinking this extract from the Consul's letter might be of some service, I have taken the earliest opportunity of transmitting it to you. I shall be happy if on this or any other occasion I can render you any service.

ALGIERS March 24. 1804

DEAR SIR, A few days ago I had the pleasure to receive your favor of the 14th Feb'y by L' Comd' Smith, of the United States Schooner Vixen, which was sent here by the Commodore. I assure you it would have been most grateful to my feelings, had it so happened that I had been at Malta, when your misfortune took place, and could have afforded you and my unfortunate fellow Citizens relief. — Communications have undoubtedly taken place, ere this, between Commodore Preble and the Bashaw on the Subject of ransom &c. — and I flatter myself you have found the means of relieving your present wants from various sources. — My letters to You, copies of which are enclosed, will shew that measures to that effect have been taken in several quarters, with an alacrity which does much credit to our Countrymen & honor to humanity. The friendly attentions and services of the Danish Consul shall be made known to our Government, and I have no doubt will be gratefully acknowledged. Be pleased to tender him my best respects & warmest thanks. — The Commodore writes me that he has sent supplies of Stores and money. — and I now enclose the Copy of a letter from the Hon'ble Ch' Pinkney, our Minister at Madrid, which I rec'd Yesterday by the Vixen, which has been over to Alicant — and the original from Patrick Joyces & Sons, Bankers, that if it should be necessary you can make use of it. — I also rec'd a duplicate, at the same time, from Mr. Kirkpatrick in Malaga of his letter of
the 31st Jan — enclosing one for You which is forwarded herewith.

My Predecessor, Cap't OBrien, goes with his family up in the Vizen, as it affords him a good opportunity of leaving this place, and he will be essentially useful to Commodore Preble if any negociation should take place with the Bashaw.

I can only say, my dear Sir, that there is a feeling interest taken in the situation of yourself and unfortunate companions, and that you may depend that you will not be left a moment longer in the situation you now are, than you can be releived with propriety. — More I cannot say at present. My best respects & regards attend your fellow sufferers to whom I beg to be cordially remembered. —

Mr* Lear unites with me in every wish for your speedy deliverance.

To George Davis, U. S. Chargé d'Affaires, Tunis, from Tobias Lear, U. S. Consul General, Algiers

No 8 Copy

Algiers, March 24th 1804

Sir, I cannot forbear expressing the surprize I felt in not having received a line from You since Your letter of the 27th of December, and especially when our Affairs at Tunis & Tripoli are in a situation to make me feel anxious to hear from those quarters as often as possible. — The other Consuls here have received letters lately from Tunis, and through them I learn that the Spanish Brig, which sailed from hence for Tunis on the 20th of Jan, on board of which was put two thousand dollars for You, to be applied to relieve the wants of our unfortunate Countrymen in Tripoli, had arrived. I cannot persuade myself but You must have written, and that Your letters have miscarri’d. Lest mine should have met a similar fate, I enclose copies of my three last, Viz. Nos 5. 6. & 7. —

The U. S Schooner Vizen, Lieu' Comd' Smith, arrived here on the 15th inst from the Commodore. She has since been over on the Coast of Spain, & sails again tomorrow to join the Commodore. In her goes Cap' OBrien, my predecessor, with his family. Should the Schooner touch at Tunis this will be handed you by Captain OBrien, to whom You will be so good as to make a full communication of our affairs with that Regency; and I trust that his general knowledge of the whole of our business with these Regencies, and of them, will enable you and him to ascertain the ultimate views and expectations of the Bey of Tunis with respect to the U. States.

I have rec’d from Commodore Preble a copy of your letter to him of the 26th of Jan with its enclosures. If the sum of four thousand dollars demanded on account of property vended at Malta, would be the means of preserving peace with that Regency, and doing away the discontents which appear to prevail, I should have no hesitation in paying it immediately; but if it will not have that effect, nor answer any good purpose to our Country, it would not be worth while to pay it; unless Your responsibility therefor makes it necessary. — On this subject of the four thousand dollars You and Cap' OBrien will decide.

I can only say on our affairs here that we yet appear to stand well. —

To Cap' OBrien I must refer You for particulars. —

P. S. Should the Bey of Tunis be inclined to settle all matters with the United States on admissable terms, it will be necessary
that the \textit{precise} amount of everything should be known, that he may expect from them

\textbf{Sir,} I have the honor to inform you that the Tripolitan \textit{Polacre} laying at this Port, has been dismantled by order of the Veckel. The greater part of her Officers and Men have already left this for Tripoli by land, and that their intention is to send her for the nearest port in Tripoli, under some foreign flag as a Merch\textsuperscript{t} Vessel.

A passport was yesterday demanded by the Commercial Agent for a Vessel (as he says) bound for Constantinople, but to touch at some port in Tripoli. \textit{It has been refused.} I have no doubt but it was for the Enemy's Corsair, and that she will shortly make the attempt, probably shaping her course for Jerba.

A Spanish Courier from Tangiers (last from Algiers) sails tomorrow for Tripoli. Letters from Tripoli inform that the Frigate is irreparably destroyed, and that Capt\textsuperscript{t} Bainbridge and Officers were taken the following Morning from the Consular House and confined in the Bashaw's Castle.

I have the honor to enclose you a letter from Capt Bainbridge.

United States Statutes at Large. Eighth Congress. Sess. I.

\textbf{An Act further to protect the commerce and seamen of the United States against the Barbary powers.}

\textit{Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,} That for the purpose of defraying the expenses of equipping, officering, manning, and employing such of the armed vessels of the United States, as may be deemed requisite by the President of the United States, for protecting the commerce and seamen thereof, and for carrying on warlike operations
against the regency of Tripoli, or any other of the Barbary powers, which may commit hostilities against the United States, and for the purpose also of defraying any other expenses incidental to the intercourse with the Barbary powers, or which are authorized by this act: a duty of two and an half per centum ad valorem, in addition to the duties now imposed by law, shall be laid, levied, and collected upon all goods, wares and merchandise, paying a duty ad valorem, which shall, after the thirtieth day of June next, be imported into the United States from any foreign port or place: and an addition of ten per centum shall be made to the said additional duty in respect to all goods, wares and merchandise imported in ships or vessels not of the United States: and the duties imposed by this act shall be levied and collected in the same manner, and under the same regulations and allowances as to drawbacks, mode of security and time of payment respectively, as are already prescribed by law in relation to the duties now in force on the articles on which the said additional duty is laid by this act.

Sec. 2. And be it further enacted, That a distinct account shall be kept of the duties imposed by this act, and the proceeds thereof shall constitute a fund, to be denominated "The Mediterranean Fund," and shall be applied solely to the purposes designated by this act: and the said additional duty shall cease and be discontinued at the expiration of three months after the ratification by the President of the United States, of a treaty of peace with the regency of Tripoli; unless the United States should then be at war with any other of the Barbary powers, in which case the said additional duty shall cease and be discontinued at the expiration of three months after the ratification by the President of the United States of a treaty of peace with such power: Provided however, that the said additional duty shall be collected on all such goods, wares, and merchandise, liable to pay the same, as shall have been imported previous to the day on which the said duty is to cease.

Sec. 3. And be it further enacted, That the President of the United States, if he shall deem it necessary, shall be, and he is hereby authorized to cause to be purchased or built, officered, manned and equipped, two vessels of war, to carry not more than sixteen guns each, and likewise to hire or accept on loan in the Mediterranean sea, as many gun boats as he may think proper.

Sec. 4. And be it further enacted, That a sum not exceeding one million of dollars, to be paid out of any money in the treasury not otherwise appropriated, shall be, and the same is hereby appropriated (in addition to the sum heretofore appropriated for the same objects) for the purpose of defraying any of the expenses authorized by this act, which may be incurred during the present year: Or if necessary the President of the United States is hereby authorized to borrow the said sum, or such part thereof as he may think proper, at a rate of interest not exceeding six per centum per annum, from the Bank of the United States which is hereby empowered to lend the same, or from any other body or bodies politic or corporate, or from any person or persons; and so much of the proceeds of the duties laid by this act, as may be necessary, shall be and is hereby pledged for replacing in the treasury, the said sum of one million of dollars, or so much thereof as shall have been thus expended, and for paying the principal and interest of the said sum, or so much thereof as may be borrowed,
pursuant to the authority given in this section: and an account of
the several expenditures made under this act, shall be laid before
Congress during their next session.

ALGIERS March 26th 1804.

GENTLEMEN In my instructions from the Secretary of State of
the United States, I am directed to use all my endeavours with this
Regency, to make payment of our Annuities to them in cash, instead
of Naval Stores, which by the Treaty, we must furnish, and which
are generally attended with a loss of 150. to 200. $ of Cent to the United
States, as the Stores are taken at their own prices, fixed many Years
since with other Nations — On the 5th of September last we were
indebted to this Regency, for two Years annuity, since which two
Cargoes of Timber have arrived from the United States, which will
pay but about one Year, leaving us One Year & Six Months indebted
to the 5th of this Month.

I yesterday settled the Accounts of these Two Cargoes with the
Government, and finding a favourable Opportunity, pressed to pay
the balance of one Year and an half in cash, which point was Carried
with much address, upon condition of their receiving the money
immediately As I had not all the cash in hand, and it being impossible
to negociate bills here on the United States, I have ventured, on the
Strength of your letter to me of the 22d of November 1803, to draw
upon you at Sixty Days Sight for Twenty Three Thousand Dollars,
in favour of Mr. David Coon Bacri to reimburse the Jews Bacri &
Busnah who have advanced this Sum for this purpose. The pecu-
niary advantages of this transaction to the U. States will be very
considerable, besides giving them a better Security for Peace with this
Regency than they could have, if we were to be much in arrear.

I give you this explanation in this letter which accompanies my
Draft, and shall write more fully by the Opportunity which may
offer to convey this.

To Secretary of State from George Davis, U. S. Chargé d’Affaires, Tunis

Triplicate

TUNIS March 26th 1804 —

Sir, On the 17th ultimo, anchored in the road of the Gouletta a
Corsair of Barbary, said to be an Algerine; (a Polacre mounting
twelve six & eight pounders) as she came here for Supplies, and the
Veckil of Tripoli, charged himself with obtaining them, she was soon
discovered to be a Corsair of the enemy. — Contrary winds, and the
ill health of the Crew, detained her, until the 2d inst. when she made
an attempt to get underway; but we had the satisfaction to discover
a U. S. Schooner, entering the port, at the same moment, which
induced the Tripolitan, to come to an anchor — I could not obtain
permission to go on board, until the evening of the 4th — She
proved to be the Enterprise L¹ Comm¹ Decatur, who gave us the
pleasing intelligence of the total destruction of the late U. S. Frigate
Philadelphia, in the harbour of Tripoli. On the following evening I
received an order to appear at the palace, and presuming that the chief object, was to demand the detention of the Schooner, (agreeable to treaty) as the Tripolitan, was ready for Sea — I immediately sent an express, advising the Schooner's getting underway before morn- ing — as the intelligence I should have to give to His Excellency the Bey, would be as painful to him, as it was unexpected, (the Philadelphia being destined for this place) — I pleaded indisposition, and sent the necessary communications by my Drogerman. — The burning of the Philadelphia, under the Bashaw's forts, has not only made a Serious impression on our active enemy; but will have the greatest influence, with this Prince; each wandering Bedouin, details the daring action, and augurs something dreadful to our enemy from this event: in short, it is the only occurrence, which has forced them to view the American character with proper respect. — The sudden disappearance of the Schooner, excited the curiosity of many; and for the moment, permitted the Tripolitans, to make deductions most favourable to themselves. — On the 13th the Enterprize, again entered the harbour — the sight of her gave a general panic to the crew of the Tripolitan, who took baggage and abandoned their Corsair the same evening. (The Schooner, after laying too some time, shaped her course for Sicily.) The Rais, and great part of the crew, have already left this (by land) for Tripoli; and their intention is to send the Polacce to the nearest port in Tripoli, under some neutral flag, as a Merchant Vessel — of this circumstance the Commodore, has already been apprized, and I trust, has taken such measures, as will ensure her capture, should she make the attempt.

On the 23rd instant, a Spanish Felucca, arrived from Tangiers, (last from Algiers) bound for Tripoli — I have every reason to suspect she is destined as a Corsair for the Bashaw — the Commodore will receive the intelligence in time to give her an overhaul, as she shapes her course for Jerba.

I am kept in constant agitation, by the Sapatapa, and Commercial Agent — the former on the part of his Master, for a reply to the letter, addressed to Commodore Morris; and the Latter on the part of the Merchants of Jerba, for the property captured on board an Imperial, fifteen months past. As Consul Lear, informed me in his first, (the 12th Dec. 1803) that he would probably visit Tunis, in the Spring, when all difficulties should be arranged, I have made this my last apology for a further delay.

To Captain Edward Preble, U. S. Navy, from Captain William Bainbridge, U. S. Navy

Tripoli Barbary 26th March 1804

Sir, On the 9th inst. I wrote you a lengthy letter in cipher, but am doubtful of your receiving it: I gave a hint for our cruisers to be always on their guard when laying in the port of Syracuse, and that it was necessary to examine strictly all description of Vessels and trust to no appearance of colours or dress, for they intend here to cloath their Seamen in the Christian mode, and some times send to sea boats without carriage guns with armed men.

Mr Shombrie who was here from Malta said by your authority to negotiate for our ransom, I am induced to believe has done some
injury and not the least service; it is reported that he offered any sum which they would demand; and if he was charged by you with a commission to negotiate he did not steer in the proper channel, for he should have treated with Sidi Muhammed Dghies, Minister, and not directly with the Bashaw — the Minister is the proper person to address in such affairs — he has much the confidence of the Bashaw, and his powerful interest may naturally be expected to be at variance with any negotiation that is not carried on in its proper channel through him. When any person comes to treat they should study well the disposition of the Minister, and like an able physician feel his pulse before they prescribe; but this should be done in a most secret and liberal manner: you may be assured that such conduct will tend much to the interest of the United States in negotiating — I frequently mentioned to you Consul O'Brien as a very proper person to be sent here; let who will come he should be a man of address to act with discretion, for only such an one will take advantage with the minister, who is a man of the world has great discernment and much politeness. I sincerely hope soon to hear of your being off here on the business of treating; by your having a proper character to remain on shore to communicate with you as circumstances may require, I flatter myself a peace would readily take place on as advantageous terms as could be got, — except our country would act with spirit and destroy the place, which could be effected by sending 3 or 4 thousand troops, and if it was possible to observe profound secrecy of the expedition, I have no doubt but a much less force would accomplish it: I am clearly of Opinion that if you could arm about 18 or 20 ships boats you can destroy all the Gun Boats, which would be attended with the most favorable consequences towards a peace; the Gun Boats carry about 25 or 30 men, — they are a dastardly set of wretches. Could you effect the exchange of a Lieu1 or two by giving all the Tripolitans in your possession, it would be attended with great advantages, as they could give you that information which it is impossible for me to do by letter, and could act as pilots, and would be found Very servicable officers in any attempt made on this Place, being acquainted with its situation and are men of information and courage; — I sincerely hope that you will be able to effect the release of one if not two of them. A few bomb shells thrown into this Town would do damage and cause great alarm. Their Batteries are all in bad order, and they are very bad Gunners.

We are still confined in the Palace, surrounded with guards, and I write this letter without seeing the possibility of getting it out of our prison, however, Magical aid may assist me.

Believe me to be with sincere wishes for success to attend your plans, and Honor & Glory be the reward you meet with from your Country

We BAINBRIDGE

P. S. The Minister has informed me that M' Cathcart would not be received as Consul, but they will receive him as Negotiator. This information is sufficient to convince me that it would be highly impolitic for him to have any hand in the Negotiation, not alluding to any fault of M' C's, but his standing with this Government.

TRIPOLY the 26th of March 1804

SIR, I have received the letter which you have done me the honor
to write; in answer to which, I will tell you that I did not answer that
you wrote me from Malta, was the cause of having seen how you
treated our Prisoners against all laws. And if truly there is a Prisoner
on board of your Frigate in good health as your Officer has assured
me, send him on shore, and then we will treat with you in some
Negotiation

EDWARD PREBLE Esq* Commander in Chief of the United States
Squadron stationed in the Mediterranean Sea, to SIDI MOHAMED
D’GHIES Prime Minister to His Excellency the Bashaw of Tripoly
in Barbary.

HEALTH

I have not been honored with an answer to a letter which I wrote
you bearing date the 4th day of January last relative to an exchange
of Prisoners, although I understand you have rec’d it, I now afford
you an opportunity to convey an answer if you think proper.
I have also to request of His Excellency the Bashaw permission to
send on Shore Clothing for the American Seamen and Marines who
are his prisoners; and should it be his pleasure to grant it, I will thank
you to inform me in what manner, and to whom I am to send them.
I wish to be permitted to have the Clothing delivered to the Purser
Mr Keith Spence, to be distributed by him to the Men in order that
he may be able to account for it.
Any officer either Civil or Military that you may think proper to
send off charged with your Answer, or to converse with the Prisoners
I have on board shall be well treated, and allowed to return whenever
he may think proper
With the highest consideration and respect for your Character I
have signed this on board the United States Ship Constitution this 26th day of March 1804

UNITED STATES SHIP Constitution
Off Tripoly March 26th 1804 —

DEAR SIR I have written to His Excellency the Bashaw’s Minister
of Exterior Relations, requesting an answer to my letter of the 4th
January, and at the same time permission to send some Clothing on shore for your crew, and that it may be delivered to your Purser to be distributed to them. I hope for their comfort he will grant my request. I forward you letters from some of your friends in America, and two exclusive of this from myself — Anything, and everything I have that can contribute to your Comfort you may command. I expect to have farther communication with the shore and shall write you again. Adieu! for the present, and believe me P.C. EPP, LB, Dec. 1803-April 1804.

Extracts from Journal of Surgeon Jonathan Cowdry, U. S. Navy, from 31 October 1853 to 26 March 1864

AFTER the flag of the Philadelphia was struck, (says the Doctor,) and the officers and crew were waiting the pleasure of their new masters, the Tripolitan chiefs collected their fowlers, and, with drawn sabres, fell to cutting and slashing their own men, who were stripping the Americans and plundering the ship. They cut off the hands of some, and it is believed several were killed. After this battle amongst themselves was a little over, we were ordered in the boats to be carried on shore. One of their officers, whom I had taken by the hand, and who promised me his friendship, came to me, took me by the arm, and told me I must go. I asked him to let my boy go with me, which he refused. I then took hold of my small trunk, which contained my best clothes; he gave me to understand that I could not take it, but should have every thing taken care of and restored to me. He took hold of my hand and hurried me over the side of ship, while his other hand was employed in rifling my pockets, from which he took about ten dollars. I had concealed some gold in my clothes, which he did not find. I then went down into one of their boats, from whence I was to pass into the next, which was almost full of our officers and men. I made all haste to get into it, for I observed that the Turks in the boat where I then was, were stripping my messmate, Dr. Harwood, and the carpenter, Mr. Godby; but I was soon stopped by three of the ruffians, who stood over me with drawn sabres and cocked pistols, and wrested my surtout from under my arm. Whilst they were picking its pockets, and quarrelling with each other for the booty, I sprung for the next boat, which was waiting for me. In my way, I met a little fellow, who seized me, and attempted to take off my coat; but I hurled him into the bottom of the boat, and jumped into the one which was waiting, amongst my fellow officers, where I thought the Turks more civil. They then set off for the town, compelling our men to row the boat, and standing with drawn sabres over our heads. When we had got near the shore, they ordered our men to stop rowing. Two of them came to me and gave me a severe blow on the side of the head. They then searched me, and took a case of surgeon's instruments from my pocket. They took my pocket book, but finding it contained nothing but papers, they returned it. One took my silver pencil, and another the handkerchief from my neck. They then began upon Mr. Knight, sailing master, Mr. Osborne, lieutenant of marines, and all the officers in the boat, plundered their pockets and took the handkerchiefs from their necks. They then landed us at the foot of the Bashaw's palace, where we were received by a guard, who conducted us into the palace before the Bashaw. He viewed us with the utmost satisfaction, and had us conducted into an apartment where we found the captain and several officers, who arrived in another boat just before us. Here was a table set in the European style. The servants appeared to be Maltese and Neapolitan slaves. Here we supped, after which it was announced that another boat had arrived with our officers and men, who were before the Bashaw. Capt. Bainbridge requested me to go and look for Dr. Harwood, whom it was feared was killed. I found him with the carpenter before the Bashaw, stripped of every thing but their shirts and trousers. They afterwards informed us, that they were stripped in the boat where I lost my surtout; and when they got within a few rods of the shore, they were thrown into the sea, and left either to drown or swim ashore. The Bashaw's servant gave them dry clothes, and we were all again conducted before the Bashaw, and formed into a half circle. He was seated on his little throne, which was decorated in the Turkish order, and made a handsome appearance. He is a good looking man, aged about 35. He counted us, viewed us with a smile, and appeared highly pleased with us.—We were then conducted by the minister of exterior relations and a guard, to the house formerly occupied by the American consul—a very good house, with a large court, and roomy enough for our convenience. We were seated here about nine o'clock in the evening. Capt. Bainbridge got permission from the Bashaw to send for the Danish consul, who paid us a visit and offered every assistance in his power. We slept upon mats and blankets spread upon the floor, which was composed of tiles.

November 1.—This morning the Danish consul, Mr. Nissen, paid us another visit. Capt. Bainbridge engaged him to furnish us with provisions and such other
necessaries as we might want. Our dwelling was furnished in a plain style, and we were supplied with fresh provisions that were tolerably good. We were allowed to go to the front door, and to walk on the terrace or top of the house, which commanded a handsome prospect of the harbour, the sea, the town, the palace, and the adjoining country. Here we could see our ship on the rocks, full of Turks, and surrounded by their boats, and a constant stream of boats going to, and bringing off, the plunder of the ship. We could see these robbers running about town, with our uniform coats and other clothing on. The minister of exterior relations promised to be friendly, and collect as much of our clothing and effects as he could, and return them to us.

Nov. 3.—The Bashaw sent for the carpenter to go on board the ship; he went and found six feet water in the hold. The carpenter's crew and fifty men were ordered and carried on board to work at night. A gale of wind and heavy sea hove the ship off the rocks, and the carpenter returned.

Nov. 4.—In the morning lieutenants Hunt and Osborne, and myself, were at the Danish consul's observatory, on the top of his house, upon a plain with and adjoining ours, which together made a large and handsome walk. We were looking at the ship with Mr. Nissen's glass, when our drogerman came and informed us that the Bashaw had ordered us not to walk upon the terrace any more. We immediately returned to our house.

Nov. 5.—Our new masters came and closed up the passage which led to the top of the house; and a guard was set at the front door to prevent our going into the street. The minister sent his chief secretary with a parole of honour, written in French, which we all signed.

Nov. 6.—We found that we were not allowed to go out, notwithstanding our signing the parole of honour. The minister of exterior relations sent us word that he had got eight of our trunks, which we might have for twelve hundred dollars. We did not take them, nor thank him for his hospitality. We purchased new blankets, sent to us by the Danish consul. The English consul, Mr. M'Donald, paid us a visit and offered us every assistance in his power.

Nov. 8.—The Jews purchased some of our clothing and offered it to us at an enormous price; but we purchased but little of it. The Bashaw sent for captain Bainbridge and told him that John Wilson had informed that captain Bainbridge, before hauling down the colours, threw over nineteen boxes of dollars and a large bag of gold. Captain Bainbridge assured him it was false, and gave his word and honour, that there was no money thrown over to his knowledge; but that the money in question was left at Malta. In the evening, the Bashaw not being satisfied, sent for the captain's servant, and ordered him to be flogged if he did not tell the truth concerning the money. The boy denied having any knowledge of it. After repeating the threat several times, and the boy insisting that he knew nothing about the money, he was acquitted. Wilson had turned traitor, and given the enemy all the assistance in his power. He now acts as overseer over our men.

Nov. 9.—Our captain established a credit with the Danish consul, who supplied us with necessary provision, and with cloth for mattresses. A guard was posted at our door, to prevent our going into the street, or purchasing any books or clothing.

Nov. 10.—Several Turks came and informed captain Bainbridge that the Bashaw had been told that captain Rogers who commanded the U. S. frigate John Adams, treated the Tripolitan prisoners taken last summer, very bad; and that they feared we should suffer for it.

We have plenty of pomegranates, dates and oranges. The Danish consul visits us every day.

Nov. 13.—The minister of exterior relations sent his drogerman to captain Bainbridge and informed him, that if he would send an immediate order to commodore Preble, to deliver up the Tripolitan prisoners captured by captain Rogers last summer, amounting to about eighty in number, we might remain where we were, but if he did not comply, we should fare worse. Captain Bainbridge replied that he could not command commodore Preble, and therefore could not comply with his request. At 9, in the evening, a Tripolitan officer came armed with two pistols and a sabre, and said, To night nothing; to-morrow the castle. We accordingly prepared for the castle.

Nov. 14.—Breakfasted early, to be ready for our new habitation. At 9, A.M. a guard came and ordered us to the castle. We formed agreeable to rank, and marched to the castle. We were huddled into the most gloomy cell, among our men, where there was hardly room for us to stand. Here we spent the day without food, and were scoffed at by our foes until night, when, to our happy surprise, we were conducted back to our old place of abode. The minister of exterior relations

NAVAL OPERATIONS FROM 1803 TO 1804
sent for captain Bainbridge, and affected great surprise at our going to the castle, saying that he knew nothing of the measure, which we all knew to be false. He told captain Bainbridge that we should remain where we were until he heard from his people, the prisoners, in the hands of the Americans.

Nov. 17.—Visited our sick, who were quartered in a small house without a floor, near the palace, and about half a mile from our lodgings. The Danish consul supplied the sick with fresh provisions, by the request of captain Bainbridge.

Nov. 24.—The Bashaw refused to furnish necessary clothing for the sick, or any thing for them to eat, but sour filthy bread.—Captain Bainbridge contracted with the Danish consul to supply the sick with beef and vegetables for soup every day.

Nov. 27.—Our men complained of their hard usage, in being compelled to lie on the cold damp ground, to eat bad bread, to work hard, and to be bastinadoed by their drivers.

Nov. 30.—One of our men in a fit of despair attempted to kill himself; but was prevented by the Turks, when in the act of cutting his throat. The wound did not prove mortal. I was permitted by the minister to call on the Spanish physician for medicine for Dr. Ridgley, who was then sick.

December 5.—The Bashaw sent for me to prescribe for himself and two officers of his body guard, and ordered me to get such medicine as was necessary of the minister, who had a medicine chest.

Dec. 6.—Visited the sick at the palace, and found them all better. I was received and treated very politely. The minister sent for me to cure him of a blindness in the left eye. I prescribed for him with very little success.

Dec. 7.—Visited the ambassador of Constantinople, who was affected with the intermitting fever. Found my patients at the palace almost well.

Dec. 12.—Was called on by the general of Marine to visit his principal secretary. Before I was permitted to give any medicine the Turks, six in number, with Hamet, our drogerman, summoned the sick man, and offered a prayer to Mahomet. The sick man then told me that if I would cure him he would be very thankful, and would speak to the Bashaw in our favour.

Dec. 15.—The Bashaw had a schooner launched, which was built by the Spanish carpenters. She was tolerably handsome, and calculated to carry six guns. When she was launched, three guns were fired from the batteries, and the consuls hoisted all their colours. At sun set, a firing from the batteries announced the commencement of the Mahometan Ramadam, continuing a lunar month, in which they neither eat, drink, nor smoke, while the sun is above the horizon, but feast at night. In walking through the town, to visit my patients, I found the mosque and principal houses illuminated, and the people rejoicing. Passing the coffee house with our drogerman, Lysle, a renegado Scotchman, who was now the Tripolitan admiral, called me in to drink coffee with him and was very polite, et.

Dec. 16.—Visited the Marine secretary, and found him in a state of great debility. Could not prevail on him to take any medicine, or the least kind of nourishment. He said he would rather die than offend Mahomet by breaking the Ramadam; but would take whatever I should advise at night.

Dec. 20.—The market was so poor that we could get nothing for dinner, but a shoulder of poor dromedary.

[1804]

January 1.—Was called to visit the Bashaw's child, about eleven months old. The Bashaw seemed much affected on my pronouncing the child dangerous; and wished me to pay every attention to it, saying, that any thing he could afford should be at my service.

Jan. 2.—Found the Bashaw's child better, at which he expressed great satisfaction, and offered me a horse and servant to go to his gardens, about two miles from town.

Jan. 14.—The minister of foreign affairs, Sidi Mahomet Docise, visited our prison. The month's fasting (Ramadam) ended this day at the change of the moon. The Tripolitans fired a salute from our ship which lay moored in the harbour within sight of our window.

Jan. 16.—Capt. Bainbridge and lieutenant Porter were invited and accordingly visited the Bashaw, with all the consuls.

Jan. 19.—The Bashaw's agent sent us a present of tea, coffee and sugar, and a lamb, probably to induce us to buy a quantity of old clothes taken from us, for which they asked 800 dollars.

Diet at this time, two eggs and a piece of bread, with rain water for breakfast and supper; poor beef or camel's flesh, bread, and sometimes boiled cabbage, with rain water for dinner.
February 3.—Was conducted to the castle to visit the Bashaw, whom I found after passing several sentinels, about fifty fierce yelping dogs, and three heavy doors loaded with irons and bolts, which were opened for us by armed mamelukes. Prescribed for the Bashaw's disorder.

Feb. 6.—The Bashaw sent for me to come to his room in the castle. He shook hands with me, received me with much politeness, and requested me to pay every attention to his family as a physician.

Feb. 10.—The Bashaw gave the officers permission to walk out into the town and country, but not to visit the consuls nor the batteries. Our drogerman, Hamet, was ordered to walk with us and direct us where to go. We went out six at a time.

Feb. 16.—Prescribed for the Bashaw's eldest daughter. Her husband offered me many civilities. At 5 o'clock, P. M. were informed that two English merchantmen were standing in for the harbour. They proved, however, to be two vessels under the command of capt. Decatur. About 11, at night, we were alarmed by a most hideous yelling and screaming from one end of the town to the other, and a firing of cannon from the castle. On getting up and opening the window which faced the harbour, we saw the frigate Philadelphia in flames.

Feb. 17.—The Turks appeared much disheartened at the loss of their frigate. A strong guard was put at our door, and we were forbid going out. I was forbid visiting our sick. It was reported that an American schooner and three boats set fire to the ship. Two Turks escaped who told this news. They said that eight Turks had charge of the ship, and they supposed the other six were carried off by the Americans. Our drogerman informed us that we were to be removed from our present habitation into the castle.

Feb. 18.—A guard of about twenty Turks was at our door. I asked permission to visit our sick, and was refused. A gloomy aspect continued on the faces of the inhabitants for the loss of the frigate.

Feb. 19.—Again asked permission to visit our sick, and was refused.

Feb. 20.—Permitted to visit the sick.—Found the town full of country militia and our guard doubled.

Feb. 21.—Our prison was kept full of Turks to guard us. The Bashaw, having got a little over his fright, consented to let us remain where we were.

Feb. 24.—We were forbid sending letters to our friends, without first showing them to the Bashaw or his ministers. The last letters we received, were broken open by the latter, before they were delivered to us.

March 1.—We were conducted to the castle.

March 2.—Found our habitation very dark and smoky, having no light but what came through a grated sky-light.

March 3.—Not allowed to visit the sick, and our drogerman was forbid carrying letters to us.

March 4.—Captain Bainbridge received a letter from the ministers, reprimanding him on account of three men who floated ashore a few days after the burning of the frigate. The Turks pretended that they were murdered after they were made prisoners by the Americans.

March 6.—In close confinement. Hamet, our drogerman, was taken from us. The Bashaw suspected him of being too friendly to us.

March 7.—The Tripolitans got the guns from the remains of our frigate, and mounted them on their batteries. In trying them, several of the gun carriages broke down, and one of the guns burst and killed one Turk and wounded four.

March 14.—The Turks seemed much alarmed, and placed a strong guard at our door, for what reason we knew not.

March 16.—The Bashaw sent word that I should have any thing I wanted, free of expense.

March 17.—Ordered not to send our clothes out to wash.

March 24.—I was taken out of prison to visit a mameluke's wife and child. The minister of foreign affairs paid us a visit, and said many clever things.

March 26.—A truce was held between commodore Preble and the Bashaw.

SIDI MOHAMED D’GHIES, Prime Minister
To His Excellency the Bashaw of Tripoly

SIR, I am honored with your letter of yesterday’s date, but must confess myself at a loss to know how I have merited the imputation of having treated Prisoners contrary to the dictates of humanity. You certainly are not well informed with respect to my conduct towards your People —
I have (as my Officer observed to you) among others, a prisoner that was taken out of the Philadelphia at the time she was set on fire;
he was wounded, but from the kindness and attention he has received is now well in health. I cannot however consent to send him on shore, until a Cartel for the exchange of Prisoners is settled. But you may, as I have before observed, send an Officer to converse with him — I have sent my Boat on Shore with this letter, and to bring off Monsieur Beaussier Charge des Affaires of the French Republic.

TRIPOLY March 27th 1804.

DEAR SIR, The Minister Sidi Mohamed Dghies, sends you many compliments. As he must write in French, says it will take some time, and your letter not of great import requests that you will take this as his answer, and says that you are permitted to send the clothing by any Neutral Vessel but not in your Boats.

To Captain William Bainbridge, U. S. Navy, from Captain Edward Preble, U. S. Navy

U S. SHIP Constitution off Tripoly March 27th 1804

DEAR SIR I wrote you that the clothing for your Crew was all made, and on board this Ship. I was however wrong. Mr Higgins was directed to provide and send it on board, but could not procure Duck sufficient in Season. I have directed my Purser to send on shore 280 Hats, part of which, will be straw as Wool cannot be procured. 280 Pair of Shoes, 280 Checked Shirts all the Duck Frock he has on hand amounting to 52 and Duck Jackets to complete 280 Frock and Jackets. All the Duck Trowsers we have in the Ship amounting to 189 pair, and as many of Blue to complete the number 280. I shall direct Mr Higgins to send over a Duck Frock and Trowsers for each, by a Boat which he shall hire for the purpose, and at the same time send you any Stores you or your Officers may want.

I have directed my Surgeon to put up a quantity of Medicine which I suppose must be wanted by the Officers & Crew and I also send you a couple of Bundles, and a case of Surgeon's Pocket Instruments purchased by Mr Higgins for you. If you will make known to me any thing wanted by yourself and Officers it shall be immediately supplied. All the letters sent to Malta of last and this months date from Tripoly, I forwarded to Gibraltar by an English Man of War. One of my Officers went in charge of them, and will forward them to your friends.

The First Consul of France the much celebrated Bonaparte has interested himself deeply in your situation. More of this hereafter.

If any letters arrive from America for you, they shall be immediately forwarded in some way or other. I enclose you an account of Mr Pulis which he is anxious to have paid. If you wish me to pay him, please to regulate the Bill, and I will do it. I took up two of your Bills from him, and paid him the Money One was in favour of the Prime Minister for 300 Dollars, and the other in favour of R4 Farquhar for the same sum, and have placed this amount to your Account.

I send you a cut from a News Paper with the President's Message relative to the conclusion of the Morocco business, and which will
insure you the valuation of your prize sent the Secretary, and which
he rec'd previous to the message I shall endeavour to prevail on the
French Consul to send out a Neutral Vessel if there is one at Tripoly
to receive the clothing, and shall at the same time send you a present
of Claret, Porter, Cider, Cheese, Coffee, Sugar &c* from my own
stores, which you will do me a favour to accept of.

Mr Izard tells me you are grown thin, I fear my friend you let your
Misfortunes bear too heavy on your mind by which you may destroy
your health. Recollect that Destiny and not want of Courage has
deprived you of liberty, but not of honor. You will I hope e're long
revisit your Native Country, and meet the approbation of your fellow
Citizens and confidence of our Government.

TRIPOLI IN BARBARY 27th [March] 1804

DEAR SIR, Excuse the brevity of my letter of yesterday, and impute
it to the hurry that Mr Izard was in, and the mistake that was made.
I have the honor of enclosing you a copy of my note sent to the
Minister this day, accompanied by a copy of your letter of the 12th
inst. to me; what effect it will have I cannot say — hope favorable —
if it is not, we must content ourselves with our unfortunate lot,
and rely on our Country and its Valuable Officers to relieve us; my
mind was never adapted for a prison, but shd bear my fate wi
d with fortitude: I hope a speedy peace will take place, but cannot expect
it incompatible to the Dignity of our Country; Vigorous exertions
may crown our Wishes.

Your friendly offers and kind assurances of your friendship I do
truly estimate, and regret most sincerely of being deprived of the
honor of serving under your command: I yet hope one day to have
that pleasure.

We will thank you for American & English News-papers (after
you have read them) as often as opportunity offers. As the weather
begins now to be fine, I hope to have the pleasure of frequently hearing
from you; and will thank you to mention in your next whether Congress
has confirmed the valuation of the Mirboha.

Wishing you health & glory as the reward you meet with from your
Country.

5; inst. You will also observe in his letter that he entirely disavows
of giving Mr Schombrie, from Malta, the least authority for any ne-

the assertions unfounded.

NAPLES 27th March 1804

Sir, I represented to the King my Master, the demand made by you in the name of the Commander in Chief of the American Squadron, for four Gun, and four Mortar Boats; and His Majesty deigned to manifest no great distance from granting to the said Commander the above mentioned Boats; but as the object which might form some difficulty, would be the granting the corresponding Artillery. In speaking to the Sovereign on the subject, I informed him of this addition to the above mentioned demand. I therefore have to inform you, that if the Commodore could take a trip to Naples, he would be accommodated with every thing to his satisfaction

I therefore wait to hear from you again on the subject, and in the mean time, subscribe myself with distinct and immutable esteem.

CONSULATE OF THE UNITED STATES OF AMERICA
St PETERSBURG 28 January —
7th February 1804 —

Sir. I hasten to transmit the inclosed Copy of a Letter I have received from the Grand Chancellor of this Empire, in answer to an official note I addressed him on the Subject of the fatal disaster which befell a Frigate of our Government in the Mediterranean.

The interest which his Imperial Majesty has deigned on this occasion so honorably to testify, cannot fail to be a Subject of the highest felicitations to every American, and the more, as so important and gracious an intercession, is calculated to lead to presages equally auspicious.

You will embrace Sir, the earliest means to transmit the inclosed Letter to the Commander of the Squadron, and unless you are able to forward it immediately, its importance justifies you to dispatch a Special Messenger to that effect, except on its receipt, you are apprised, that effectual measures have been otherwise taken to liberate the Ship & Crew.

(Translation from the Original in French —)

Sir: I made Known to the Emperor the note you addressed to me under date of the 20th of this Month, by which you Solicit our intercession near the Ottoman Port in behalf of the Crew of one of the Ships of War of the United States of America that have been made Prisoners by the Pirates of Tripoly.

It is with great pleasure I announce to you that his Imperial Majesty, guided by the most favorable dispositions for your Government, has given me orders to direct his Minister at Constantinople to make the Strongest representation to the Turkish Court in order that a Firman be dispatched to the Bey of Tripoly, to liberate not only the Crew, but the Vessel itself.

These orders Sir; will be expedited to Constantinople by the first Courier, and I have not a doubt that the representation which will in consequence be made by our Minister Mr De Italinsky will have their full effect.

It is extremely agreeable to me to add to this information, the most positive assurance that the Emperor peculiarly gratified in according this mark of his Interest for the United States, will not be less so on all occasions wherein He may be able to give them new proofs of it, and of which it is his Majesty's desire that you expressly acquaint your Government.

To Secretary of State from Joseph Barnes, U. S. Consul, Sicily

LEGHORN Mar. 23rd 1804

Sir,

I have receiv'd a Letter from my Agent Mr. Gibbs at Palermo, dated Feb. 23rd, enclosing me a copy of a Letter from Commodore Preble, requesting Gun Boats & Mortars: & also a Letter from the Party who Acts for the U. S. Squadron at Syracuse, giving an Account of the fortunate event of the destruction of the Frigate Philadelphia, in the Harbor of Tripoli: As you will have, no doubt, receiv'd the particulars by Various means 'tis unnecessary to take up your time farther on this Subject.

In regard to the request of Commodore Preble for Gun Boats, & Mortars — tho' my interfering was not very pleasant on two Accounts, yet I did not delay one Moment to reply, & offer him my personal Services with the Neapolitan Govt and any Sum of money he might want that I could command —: The Success & prosperity of our Country's cause being in my opinion paramount to all other considerations, I need not, I am Sensible Sir, take up much of your time in Stating the Aukward and unpleasant predicament in which I am placed.—1stly An application to General Acton to induce him to Assist the Americans with Gun Boats, Mortars & when no reply had been made to his Overtures for More than twelve months certainly came forward with a bad grace. 2ndly I am not even known as Agent for the Squadron, tho' Consul for Sicily, as Englishmen and Italians are appointed by some person or other, but by whom I do not know; nor, should I have been applied to on this affair but from supposing I might have some weight with General Acton, And knowing that I could command a considerable sum of money of my own; as well as obtain any further Sum that may be wanting. —

Commodore Preble is to be in Naples on the first of April; I have written General Acton, and made the best apology I could for not having answered his former propositions: I have also written Commodore Preble, that should he think it requisite I will join him on the Shortest notice — Had I, Sir, been Possessed of the Same powers which the Consuls of all other Nations are; Commodore Preble would have had the Gun Boats, & Mortars, & all other Matters he wanted, more than a Month past — After various fruitless applications in Sicily he is Obliged to go to Naples, which is consequently a considerable sacrifice of time & Public Money; exclusive of the risk of Some of the Barbarians getting out. I flatter myself however he will Succeed in obtaining the Gun-Boats & Mortars, Notwithstanding the difficulties which have Occurred: I shall use every exertion in my power.

TRIPOLI IN BARBARY 28th March 1804

Sir, On the 26th inst you sent me a letter from the Minister of foreign affairs, and wrote me that you desired to see me on board, before presenting myself on the 27th. I obtained an Audience of the Bashaw, when I informed him of the lively interest the first Consul
WARS WITH BARBARY POWERS

took in the destiny of the American Prisoners, and of his desire soon to hear of their deliverance, and of a solid and advantageous peace between the two parties — The Prince answered me, that he was delighted with the intervention of the First Consul in the affair, and in Consideration of which, he would not avail himself of all the advantages which the chances of War had given him — He advised me to persuade you, to send on shore, the Prisoner taken on board the Philadelphia, in order to interrogate him freely, as it respects the treatment he has received — also that of his Comrades, and destroy the general Credited opinion among the inhabitants that they have been Massacred — The Bashaw was very much astonished to see me return without bringing this Man — and more so was Sidi Mohammet Dghies, his prime Minister, who had suggested & advised this, favor, but to facilitate your interest — by the good effects the liberal release of this prisoner would have in the Negotiation without any kind of prejudice to you — I assure you from my own knowledge how much this condescension on your part, would facilitate obstacles, and not pass without Compensation — I once more invite you Sir, to accede to this necessary measure, and you will afterwards receive permission to land, the Medicine Clothing, and the Provissions for the Officers —

You ask’d me when I was on board what I thought would be the price of the Regency for the Ransom of the Prisoners? I here repeat to you I think adviseable for both parties to treat of Peace and Ransom at the same time, in so much as the Bashaw intends it should be so, and will never agree to give up the Prisoners before having received the sum agreed upon, whatever shall be the guarantee they may offer him, that the exorbitant sum demanded, and obtained at Algiers of the Portuguese, the Negotiation of Mr Schembri, supported by the testimony of the English pro-Consul, the Convention made with the Batavians in perfect peace, & in presence of a strong Squadron, the Agreement made with Sweeden for a Small number of prisoners taken in the service of Commerce, the Nulity of a Carteel of Exchange (as the Regency’s of Barbary are accustomed to recover from such Colours, from which the Enemy, take Tripoline Subjects & merchandize), all the preparations made against every attack whatever, all these Considerations make me fear, that the Bashaws pretentions will be at least 500,000 Dollars —

On my return from the Frigate I did not fail to inform the prince what were your approaching and formidable resources, of the attack you intend to take, in case there is no hope of a reasonable accommodation — that you intend to send a Ship to Alexandria, to bring down his Brother Sidi Acmet and firmly establish him at Bengaza — that the U. States do not solict for Peace, they desire only to treat for the deliverance of Prisoners by means of a Ransom that should not be too exorbitant, that they would sooner sacrifice these Prisoners than subscribe, or submit, to Conditions incompatible with the honor and dignity of the Nation, that they do not intend to pay anything for Peace, nor to imitate those powers who pay them annual Tributes — that in the present instance, they only intend to treat for the Ransom of prisoners, and that the present Consul shall not be refused in case of Peace —

It did not appear to me that these resolutions had any impression on the spirit of the Bashaw — I suggested that too much tenacity on
his part in these exorbitant pretentions, might displease the first Consul; to which he answered whatever deference that pays to the desires of his Friend Buonaparte, he cannot believe that he will divest him of the advantages acquired by the Chances of War of three years without intermission — and as to the rest he was ready to defend himself, being in no fear of the threats of placing his Brother on the Throne, & to occasion a Civil War — Since he only sent him from his Government at Derne, because he had began to Vex & discontent the people, but not from dread of any injury he might be able to do — he added his Brother was without means, inclined to drunkenness and incapable of acquiring partizans, all these assertions are truths — Perceiving that these Conferences fatigued the Prince, I took my leave, and retired, to be renewed when I receive your answer —

I thought Sir, It would not be my duty to conceal from you, all that has been said, on each side in the two Conferences which I have had with the Bashaw — that you may regulate your conduct thereby — after mature reflection & deliberation I ought to inform you, that whatever be the Success of your efforts to chastise the regency, your Government will have a great addition too the expence, without the advantage of recovering the prisoners, who are shut up in the Castle, from whence it will be impossible to facilitate or effect their escape — and the more damage you cause to be done to the Country, the higher will be their pretentions, be it from Avarice or from obstinacy, this at least, I have reason to apprehend — The Blockade without doubt ought to cease, to Merchant Vessels during the Negotiation — Have you full power to act, and to Negotiate according to Circumstances? or, will it be necessary to wait the Sanction of Government, which could not foresee the Circumstance of 300 prisoners falling into the power of the Regency — Being authorized yourself to determine irrevocably, will it require much time to arrive thus far? What is the Maximum of the Sum that you can offer to conclude a Treaty of Peace and to obtain a deliverance of the Prisoners

I cannot end this letter without begging you to accept the thanks for the distinguished honor and politeness you shew'd me on board your Frigate —

Light breezes from the N N W, and pleasant Weather. At 2 P. M. our Boat returned from the Shore, and brought off the French Charge des Affaires Saluted him with 5 Guns on his entering and leaving the Ship — He dined on board, and returned to the Shore in the Barge at 5 P. M. — He informed me, while on board, that he had communicated to the Bashaw his Orders from the first Consul to act as mediator, and endeavor to bring about a peace: but that he was confident it could not be done but by first ransoming the Officers and Crew of the Philadelphia, and that the Bashaw will expect a very large sum of money, say at least $250,000. for ransom & peace: He wished me to fix on a sum that I supposed our Government would consent to pay; this, I did not think proper to do; He observed that the
Bashaw would not consent to a Cartel for exchange of prisoners and did not intend to acknowledge any as prisoners in our possession, but such as were taken under his Own flag. — He likewise observed that we could not be permitted to land the Cloathing and Stores for Our Officers & Men in any other way, than by sending them in a Neutral Vessel. I am confident that the French, English and Swedish Consuls are all in the Bashaw's Interest, That the Danish Consul is the only respectable character among them, and he is not permitted to visit us. We must therefore depend wholly on our own exertions for effecting a peace, which can only be done by an increase of our force, and a Number of Gun & Mortar boats to batter down his Castle and town. — At 9 P. M. weighed & made sail. Hoisted lights, let off rockets, & fired guns for the Boat; At 12 Midnight she returned.

Mr Izard reported that he was not permitted to land, and that a strong guard was placed over the boat while she was detained at the Wharf —

The Weather having a stormy appearance, we stood to the Northward all night — At 9 A. M. tacked to the S W; — Wind N W — Syren in Comp.

TRIPOLI BARBARY 29th March 1804

DEAR SIR, Last evening the Minister of foreign Affairs for this Regency handed me your much esteemed favor of the 27th inst., with some others for my Officers. My letter of yesterday, accompanying this, pleads the brevity of mine to you by Mr Izard. The cloathing you mentioned of having sent has not yet reached us, I presume for the want of a conveyance — I hope they will soon
arrive, as the Crew is much in want of them; but I am truly sensible of every exertion of yours to relieve theirs and my own wants — in fact your attention to us in our unfortunate situation insures to you the grateful remembrance of many brave unfortunate men.

Enclosed you will receive Mr Pulos's Acc certified by the Purser and Myself, and will thank you to have it settled. Doct Ridgely received the case of Instruments

I sincerely thank you for the attention to our letters sent for America, and your goodness in promising the forwarding of those which may arrive from there. Mr Izard's report is true — I am quite thin; your sympathy I justly estimate, and hope it is unnecessary for me to say that I truly believe your friendship sincere; and anxiously wish for an investigation of my conduct before the Tribunal of our Country, but in spite of every effort of my own, and your good advice, I cannot prevent sad reflections; my character! My loss of services to my country! And my Family, are painful subjects to contemplate on in a close Prison in Tripoli.

P. S. enclosed you will receive triplicate of my letter of the 16th ult respecting three persons that joined the Philad in Gibraltar — which I will thank you to reply to

To Secretary of the Navy from Secretary of State

Department of State

March 30th 1804

Sir, The Minister of His Majesty, the Emperor of Germany, at Madrid, having represented to Mr Pinkney, that irregularities have taken place, with respect to the Imperial Polacre Paula [Paulina], Capt Radich, captured last year by the Naval Squadron of the U. States and carried to Malta, I request you to be pleased to furnish me with the report of the officers concerned in the capture and management of the prize, that proper instructions may be forwarded to Mr Pinkney concerning the complaint of the Imperial Minister. In particular it is desired to know, whether at any time after the capture an offer was made to Capt Radich of the release of his Vessel and the payment of freight, and whether she has ever been released, and[d] on what terms, or if yet detained, under what suggestion or right.

To Captain Edward Preble, U. S. Navy, from Captain Stephen Decatur, Jr., U. S. Navy, commanding U. S. Schooner Enterprise

Messina March 30th 1804.

Sir, I had the honor of writing you from Palermo informing you of my intention to appear off Tunis, after getting a supply of Wood and Water. On my arrival at Tunis I found the Tripolitan in the
same state I had left him that is, laying in the Mole stripped & entirely deserted by her men. On my arrival here, I applied to Mr Broadbent to effect the repairs of the Schooner. I am sorry to inform you on opening the Seiling, I found her in a much worse state, than I had any idea of. To give her a sufficient repair would be a lengthy and expensive Job, which I know is not your intention consequently I shall only do what she cannot do without to make her safe in any season.

According to your directions I have examined the Gun Boats here, there are Six equipt and in good order. about 20 Gun and Mortar Boats hauled up which wants considerable repairs.

The Carpenter informs me he will complete me in 12 days. I shall urge him to effect it in less. Permit me to assure you Sir, I shall join you as early as possible.

To Lieutenant Isaac Chauncey, U. S. Navy, Washington, D. C., from Secretary of the Navy

NAVY DEPN
March 31, 1804 —

You will proceed to New York and contract with Mr Cheeseman for twenty four pound Gun Carriages for the frigate United States, on the best terms in your power. You and Capt Barron will determine as to the number wanted. Likewise as to the dimensions & and you will contract accordingly. In case you should not be able to procure all the Gun Carriages wanted in New York, procure as many as you can there and on your return to the City of Phil, see the Agent & Contract for the residue.—

You will prior to leaving this for New York, consult with Capt Cassin and ascertain from him how many Sailing Masters, Boatswains, Gunners, Carpenters & Sail-Makers are here and qualified for their respective Stations. We want Officers of these descriptions for the 5 Vessels now fitting out. After ascertaining how many are here that are good, you will know how many are wanted, and procure them in New York, and send them to this place immediately with assurance that on their arrival here they shall receive from the government their appointments.—

You will also procure as many good Ship Carpenters to come to this place to work upon the Ships now fitting out as may be in your
power. Get them on the best terms practicable, but don’t suffer terms to prevent your getting them. We must have them. —

You will also while you are in New York give your assistance and advice to the recruiting officer stationed there. —

The Agent at New York — & the Agent in Phil* will each render you every necessary assistance. —

To Midshipman John M. Gardner, U. S. Navy, Philadelphia, Pa., from Secretary of the Navy

NAVY DEPMT
March 31, 1804 —

I have rec’d your letter of the 28th inst —

Lieut Cox is ordered to this place — so that the execution of the recruiting orders devolves upon You.

Quarter Masters and Quarter Gunners may be entered, but as it will not be possible for you to ascertain in all cases whether they are fit for the Station or not, you had better enter them subject to the condition, that they shall be confirmed if found competent to the duties. Cases however occurring where the Individuals are personally known to you, to be qualified for the Stations, you may engage them without being subject to this condition. —

Cases occurring where persons wishing to enter as Ordinary Seamen, are known to you to have been six or eight years at Sea, you may allow $10 p’ month if they will not enter for less — but first try at $8 — If they will not take that sum, offer $9 — and finally if they will not take $9, give $10 if you are obliged to give 12 to Able Seamen. —

Let me hear from you frequently. —
