WASHINGTON: 1935
PREFACE

This volume is the second of a projected series of early documentary material dealing with American naval history. It covers naval operations from 1 November, 1798 to 31 March 1799, inclusive, during the Quasi-War with France (1798-1801).

Among the events included herein are the capture of the Retaliation by the Insurgente and the Volontaire; the engagement with and capture of the French Frigate Insurgente by the Frigate Constellation; the sinking of the Schooner L’Amour de La Patrie by the Frigate United States; the capture of the Privateer Marsouin by the Delaware; the capture of the Schooner Porpoise by the Revenue Cutter General Greene; the engagement between the Ship Mary and three French privateers off the southern coast of Spain; besides other engagements between armed American merchantmen and French privateers.

The volume also contains data concerning over three hundred American armed merchant vessels which participated in the war during the year 1798, taken from such sources as are available, the accuracy of which cannot be vouched for in all cases. The Government issued commissions to many of these vessels as "Private Armed Ships", authorizing them to attack French privateers.

Throughout the work it has been the endeavor to make the text of the printed document identical with the original source. Spelling, punctuation, abbreviation, etc., are reproduced as they are found in the originals or in the copies on file. It should be noted, however, that the spelling of proper names is sometimes inconsistent and that capitalization and punctuation found in the copies may not always be identical with the originals, the errors having been made at the time of copying into the records.

Sincere thanks are due to the following individuals and activities not mentioned in the preceding volume, who have very kindly cooperated in this work: Mr. Ernest L. Averill; Mr. M. V. Brewington; Mr. Truxtun Broadhead; Mr. Lewis D. Cook; Mr. R. P. Daily; Mr. F. E. Dayton; Mr. John T. Du Val; Commander Arthur Bainbridge Hoff, U. S. N. (Retired); Mr. L. W. Jenkins, Peabody Museum; Mr. John F. Marshall; Lieut. Comdr. R. H. Maury, U. S. N.; Mr. E. Armitage McCann, Ship Model Makers’ Club; the Misses Macomb, Washington, D. C.; Mr. William Muir, Ship Model Society; Rear Admiral Yates Stirling, U. S. N.; U. S. Navy Recruiting Office, Baltimore, Md.; Otis Library, Norwich, Conn.; Virginia Historical Society; U. S. Naval Institute; Long Island Historical Society; American Antiquarian Society, Worcester, Mass.; Public Record Office, London.

A large part of the preparation of this volume has had the immediate supervision of Commander Lucius C. Dunn, U. S. N., who has been assisted by Mr. H. F. Lunenburg, Miss L. I. MacCrindle, Miss C. M. MacDonnell, Mrs. C. R. Collins and Mrs. A. R. Lawrence.
The publication of these documents was made possible by the Acts of Congress approved March 15, 1934, and June 24, 1935, quoted below:

"Provided, That in addition to the appropriation herein made for the Office of Naval Records and Library, there is hereby appropriated $10,000 to begin printing historical and naval documents, including composition, clerical copying in the Navy Department, and other preparatory work, except that the 'usual number' for congressional distribution, depository libraries, and international exchanges shall not be printed, and no copies shall be available for free issue: Provided further, That the Superintendent of Documents is hereby authorized to sell copies at the prorated cost, including composition, clerical work of copying in the Navy Department and other work preparatory to printing without reference to the provisions of section 307 of the Act approved June 30, 1932 (U. S. C., Supp. VI, title 44, sec. 72a)."

"Printing Historical and Naval Documents. For continuing the printing of historical and naval documents, including composition, clerical copying in the Navy Department, and other preparatory work, in accordance with the provisions of the appropriation made for the commencement of this work as contained in the Naval Appropriation Act for the fiscal year 1935, $20,000, together with the unexpended balance for this purpose for the fiscal year 1935: Provided, That nothing in such Act shall preclude the Public Printer from furnishing one hundred and fifty copies of each volume published to the Library of Congress."

NAVAL OPERATIONS
FROM NOVEMBER 1798 TO MARCH 1799
QUASI-WAR WITH FRANCE

To Secretary of the Navy from Captain Thomas Truxtun, U. S. Navy

UNITED STATES SHIP Constellation
Hampton Roads 1st November 1798 —

Sir, Before this can reach you, my Letters or Copies of them, under Date of 9th and 27th of October, must be in Hand. Yesterday the Virginia Revenue Cutter, Captain Bright, arrived from a Cruize to the Southward, and called on me for Orders, but I had none to deliver him. Our Navy wants Organizing, and some of our Officers are wanting of Common Propriety in their Actions. Captain Bright handed me a Letter from Captain Phillips dated 23d Ultimo, a Copy of which I here enclose you. By this Letter you will see that Nicholson of the Constitution has undertaken to convoy a Fleet to the Havannah, and to take with him the Baltimore, which had been put under my Command, and sent by me on a particular Service, and to return, after performing it, to receive my further Orders in these Roads.

At the same Time, that I consider Nicholson's Conduct as highly reprehensible, I do not censure Captain Phillips in the least. In the British Navy, which we are best accustomed to, a Superior Officer not in Squadron with a particular inferior one, and meeting him at Sea on a Cruize &c may undertake to countermand his former Orders, and place him on a different Service, to which he was sent, but while he does this at his Peril, the inferior Officer must generally be considered as acting with Propriety in obeying his Orders how far you will consider Nicholson as having gone too far in all this Business, I know not, but my Opinion is taken up from old Merits, and is Conclusive.

When I was cruising off Charleston last Summer, I had every Attention shewn me by the Merchants of that Place, very many of which have been my Old Friends, and Mercantile Correspondents; they delicately hinted to me a Wish, that I would go to the Havannah, and convoy their Vessels Home, that were detained by French Privateers cruisers off that Place, and altho' I suppose by my Instructions, I had as much Latitude, as has been given to Nicholson, and with a sincere Wish to serve them in Addition, I wrote the Gentlemen, that I could not feel myself at Liberty, but soon after placed my self in
the Way of receiving Instructions, that would enable me to serve them, tho' the State of the Ship, her Seams all being in Want of Caulking & rendered the hasty Expedition very inconvenient. But, Sir, every Plan of Government may be frustrated by such Proceedings, as those of Nicholsons, and the Ships sent the Lord knows where at the mere Whim of an Officer, I shall however say but little more on the Subject, but leave you to consider Nicholson's Conduct, as you think proper. I must notwithstanding confess myself to be much displeased, as he had no Business certainly with any Vessel put in Squadron with me, without Directions from the Navy Department, or in some Case of urgent Necessity; besides the Force with which he has gone with that Convoy from Charleston is too great for any French Cruizers in the Route to Havannah, unless the three or four French Frigates from the Cape should be met with, and then it is too little; hence it follows that a Couple of small Vessels, such as I before recommended to you, will be superior to the Enemies Privates in that Quarter, and from heavy Ships of War, they may run on the Bahama Bank, when to Windward, or close in Shore into Shoal Water, when on the Coast of Cuba to Leeward, or otherwise.

I am informed since my Arrival here, that a 44 Gun Frigate from Gaudaloupe has joined three Others at the Cape destined for Havannah.

I know of no Employment for Capt. Bright at this Season of the Year, better than attending to the Revenue Business, as his Vessel is badly calculated for the Winter; unless you should send him off the Islands in the West Indies, where she may be of some Service, and I should think it well to attach her to the Constellation if she goes off Gaudaloupe, and among the Antilles. I have the Honor to be, Sir, with great Respect Your very Obedient Servant

Hon'ble BENJAMIN STODDERT
Secretary of Navy.

[HS of Pa. NDA photostat. Truxtun's LB, 1798–9.]
If a Cruize among the Antilles is the Object, an Anchor may be had in all Probability at Martinica, and other Articles that cannot be got here.

Three or four Months' full Allowance of Provisions and Water, is as much as this Ship will carry, and then she will be very much down in the Water for sailing fast.

I have put the Ship in the best State that is possible, and spare my Rigging and Sails, by postponing my Visit to New York for the present; at which Place there is a Plenty of Water, to pass the Bar you mention, and for any English 74 Gun Ship, and at Spring Tides for larger Ships; tho' we found at Neap Tides, too little Water for Count D'Estang's heavy Ships.

I enclose you herewith a List of the principal Articles wanted at present for this Ship, for a Southern Expedition, which I have supposed, you contemplate.

I have the Honor to be &c &c.

T. T.

P. [S.] As there are a Number of the public Vessels gone to cruize among the Islands, would it not be well to send a Store Ship, as is common on such Occasions. Say a Sloop or Schooner with Bread, Beef, Pork, &c. to Martinica consigned to some Merchant; John Gay, Esquire at that Place is a respectable Man. I hope you will excuse the Liberty I have taken, and impute my Advice to my Zeal for the Public Good.

To William Pennock, Navy Agent, Norfolk, Va., from Captain Thomas Truxtun, U. S. Navy

UNITED STATES SHIP, Constellation
HAMPTON ROADS November 1st 1798

Dear Sir: I have received the Pig Iron, you sent, and will take the Water as fast as possible. I examined my Ground Tier of Water, as preparatory to the Outfits, before my Arrival here, and found it would do very well. I shall send you more empty Casks, as I have a Number to fill up. I cannot receive Pork of Carolina Feeding, but if your Pork is really good, and Beef also, and upon an Avarage, it will not cost more, than at New York, have the Quantity contained in my last Letter, well coopered and sent on Board as soon as you can.

The Injury the Ship may sustain (by her Sails being so exceedingly thin) at this Season of the Year, in a Passage to New York, has induced me to postpone my Visit there, in Order to return to that Place from my next Cruize, which I expect will be to the Windward Islands, as I have written, the Secretary of the Navy, that in that Quarter, only are french Privateers at present (European Seas excepted) and that to go thither, this Frigate should have new Sails, and in fact much new Rigging owing to the terrible wrecking Weather we have had on the Coast during our last Expedition.

Send Garrettson on Board immediately, I want to serve out Slops, he can return by next Boat after. Mr. Shirley must also return, as Cowper is to go up, and ship the Men. Mean Time, Carson must
engage me sixteen good Seamen, encourage him to be expeditious. I am in great Haste. Your Obed$ humble Servant, THOMAS TRUXTUN.

W$ PENNOCK Esq$ Naval Agent Norfolk.

Sir There being no probability that the Ship building in Connecticut will be launched until the spring, the Marines which Lieut$ Caldwell has recruited, should be sent either to Newport or Providence, to go on board one of the Vessels; & he should be directed not to recruit any more in Connecticut for the present. Be pleased to give him directions to this effect.

Navy Department G. Town Nov$ 3rd 1798.

Cap$ Tho$ TRUXTON

Sir, I am honored with your Letter of the 27th Ultimo, with its enclosures. I received two days ago your Letter of the 9th from M$ Yellott.

I congratulate you on your safe return. The manner in which you have executed the service you have been engaged in, will afford satisfaction to the President and the Country.

In directing your Ship to New York or Rhode Island I had in view your own convenience and satisfaction. I supposed it would be agreeable to spend the little time your Ship would necessarily remain in Port among your Friends & your own affairs. I can say to you in Confidence, that it is contemplated to employ the greatest part or the whole of our Force in the West Indies this Winter, and our force has increased considerably since you left Baltimore.

If you should determine not to go Eastward, but to Sail at the proper time from Norfolk to the West Indies, I will make my arrangements accordingly; and this is a point I leave to yourself; Tho$ I shall be glad to see you at the Seat of Government, and to benefit by your advice, in the manner of employing our force, and other things.

Should you go to New York or Rhode Island, as I presume you wish to do, it would be well to take all the bread you can at Norfolk. Meat will be furnished of a better quality by the Eastern States. I shall leave this for Phil$ before I can receive your reply. Still please to direct for me at this place. Your Letters will follow me if I should be gone. I have only a moment to say this much to you.

I have the honor &c$

Gov$ of Georgia

Sir The Secretary of the Navy having gone to Maryland, to remove his Family thence to Philadelphia, I am charged in his absence with the duties of this department. I have therefore to acknowledge the receipt of your Letter of the 14th Ult$ to the Secretary of the Navy,
Stating your opinion of the number of Galleys & Gunboats requisite for the protection of the Coast of Georgia. As the arrangement for the Naval defence of your State has been fixed by the Navy Department with the Presidents approbation, and both the President, & the Secretary of the Navy are absent; but will be at Philadelphia, in the present month, I deem it impossible 'till then to deviate from that Arrangement. But you may expect to learn the President’s determination thro’ this department, in time to lay the same before the Legislature of Georgia in January next. —

Capture of the armed Schooner Highlander, Thomas M’Connell

ALEXANDRIA, Dec. 29, 1798.

“Came passenger with Captain Willis, Thomas M’Connell, who was captured in the schooner Highlander, of Baltimore, mounting 12 guns, and carrying 22 men. T. M’Connel informed Captain Willis that, on the 4th of November, in lat. 19, 10, long. 59,00, he fell in with a French privateer, from Guadaloupe, mounting 12 guns, 9 and 6 pounders, with 96 men and 80 muskets, whom he engaged for three glasses. In the beginning of the action M’Connell’s first mate was shot thro the right shoulder, and his second killed; and, owing to the superior number of men and musquetry, on board the enemy, was obliged to strike. M’Connell had three seamen and one officer killed, first officer and one seaman wounded — The enemy had 8 killed, and 3 wounded, and received much damage in the hull and rigging, which obliged them to put into Bassaterre to repair, where they carried M’Connell and crew whom they immediately put into jail. The
crew were loaded with irons, and obliged to subsist on 4 ounces of salt beef and bread for every 24 hours. The sixth day after imprisonment a cartel was sent in by the Solbay frigate, when they were liberated. The first lieu. and one seaman were left behind, in the hospital, sick of their wounds. Capt. M’Connell received the worst of treatment and bad language from the French during his confinement. The only name they called him and the rest of the prisoners was “John Adams’s Jack Asses.” — There were about 100 Americans in Bassaterre jail, when Capt. M’Connell left that place.

To Lieutenant Archibald McElroy, U. S. Navy, from Captain Thomas Tingey, U. S. Navy

PHILAD 5th November 1798

Sir Having appointed you to recruit a Crew for the United States Ship of War Ganges under my command. You will forthwith engage the house of Lewis Albertus, or other public house suitable for the occasion, and endeavor to procure able seamen, not exceeding at present, the number of forty, at seventeen dollars per month: and engaged agreeably to the articles to serve twelve months: having for your guidance the following instructions (namely).

1st — You must be careful to recruit none but sound and healthy persons (for which purpose the Doctor will be sent to attend You) and observe that no indirect or forcible means be used to induce them to enter into the service.

2nd — No Negroes or Mulattoes are to be admitted, and as far as You can judge; You will exclude all of a suspicious character. Be careful also to give a decided preference to all native Americans.

3rd — You are to avoid an advance of money if possible until the men are got on board; but should you find it impracticable to procure them on this condition You may pay them two months advance — In this case you will take care to obtain sufficient security to resort to in the event of desertion, before the time of the advance is worked out.

4th — Take a regular account of the name & station of each recruit: together with a description of his person — and his usual place of residence, so that he may be identified at any future period.

5th — Every man you ship, must take an oath agreeably to the form given you — You have also the shipping Articles, wherein the Name, Station, & pay of each man must be enter’d — It will be necessary to have this business done with exactness to avoid confusion — The form of the Bond to be sign’d by the sureties is already deliver’d to You, take therefore particular care that these sureties, are persons of good & responsible characters, before you accept them and do not let one person be security for too many of your people.

6th — I shall furnish you with money for this business, and you are to observe, that you will be allowed besides your pay and rations — Two Dollars for each recruit, in full of every expense of attesting, furnishing ribbon, punch &c. &c. in short of every expense, but that of their conveyance to the Ship. — In this latter You must observe
the strictest economy, as extravagant charges will not be allowed, and no one will be allowed without a proper voucher for the payment.

7th — Forty Eight hours will be allowed each person after signing to prepare necessaries &c — and every one who fails to render himself on board in that time You must have immediate recourse to his security for the return of his advance.

As I wish much to bring the Ship up immediately should 15 or 20 good men present direct, that would proceed down for the purpose of bringing her up, receive them with assurance that they shall be paid their advance, immediately on the Ship anchoring before the town, and be allow'd two days to make their arrangements

ALLEN McLANE Esq[.]

Collector of the Port of Wilmington

Having undertaken to attend to the Current Business of this Department during the absence of the Secretary, M't Stoddert, I trouble you with the enclosed copies of Letters, which were written by him to Robert Hamilton Esquire, Marshal of Delaware, to which no answer
has ever been received. And by late information from the French Prisoners, it appears that they have not been attended to; for they write that one of their number has actually died with Cold, and that others are likely to experience the same fate. —

I request that you will on receipt of this Letter apply to M' Hamilton, and inquire if M' Stoddert's Letters have been received, and whether he has complied with the Instructions they contain. If not, and from any cause whatever, he should not immediately attend to this object, you will please to repair to the prison where the French men are confined, examine into their situation, and supply each of them with a Blanket & Straw; The expense of which will be paid on your transmitting to this department, an account accompanied by Vouchers. —

Should M' Hamilton have acted in the business, you will be saved any further trouble.

I am aware that this business is out of your line of duty; but what concerns humanity is the duty of every man; And my knowledge of your zeal and attention to every thing interesting to the honor & character of your Country, leaves me no room to doubt of your ready attention to the object of this Letter. — I am the more disposed to address you on the occasion, because M' Hamilton was your deputy, and on your recommendation, succeeded to the Office of Marshal of Delaware. Should he have made the provision of Blankets & Straw for the Prisoners I shall be glad; but I wish you not to rest satisfied without the most evident proofs. If sick prisoners require medical aid, let it be furnished. If you could visit the prison with M' Hamilton, and report the Actual State of things, you would render a very Acceptable service. —

I am &C.†

To Messrs. Touin & Renne from Secretary of State

DEPARTMENT OF STATE,
Trenton Nov. 8. 1798.

To Messieurs Touin & Joseph Renne,
late captains of the French privateers
Sans-Pareil & Jalouz.

I received your letter of the 8th of October, and on the 9th wrote to Mf Létombe, late Consul General of the French Republic at Philadelphia, to inform him of your situation and your wants, that he, who with the consent of the American government still remained charged with the care of French citizens within the United States, might provide what was necessary for your comfort. On the 16th of October Mf Létombe sent me an answer, that he could not know you as prisoners, that he was not your commissary, and that he had no funds by which he could supply your wants.

Here I must inform you, that many American citizens (to say nothing of their cruel sufferings under the orders of Victor Hugues, the special agent of the French Directory) have been imprisoned in France, that they were furnished with nothing but very bad bread and a few ounces of worse meat: that many hundreds of American citizens belonging to vessels which have been captured and condemned by the French, have been thrown ashore destitute of any means of subsistence, and that not contented with their vessels, cargoes & money, the French privateersmen have even robbed them of the cloaths on their backs. Under such distressed circumstances, American Consuls have relieved them: and notwithstanding Mf Létombe's answer to me, I think he ought to have relieved you and your crews in respect to all necessary clothing. The bread, meat & vegetables supplied to you by the U. States I presume are good and sufficient.

I have further to inform you, that besides writing to Mf Létombe, I represented your situation to the Secretary of the Navy, who thereupon directed the Marshal of Delaware, who had charge of you, to provide blankets for all such as needed them. And upon receiving (on the third of November) your second letter, describing your people as suffering from the cold, I enquired at the Navy Office, and found the orders of the Secretary to the Marshall, Mf Hamilton, to provide blankets. I have now, in the absence of the Secretary, renewed that order; and moreover written to a gentleman of my acquaintance at Wilmington or Newcastle, personally to examine and report the situation of the officers and crews of the two privateers above mentioned, that if not duly supplied, adequate provision might be made.

You affect to be ignorant of the causes of your capture and detention as prisoners, seeing there has been no declaration of war between the United States and France. But you know very well that for several years past the French have carried on an unjust war against the commerce of the United States, in violation of treaties and the law of nations; by which American citizens have been plundered of more than twenty millions of dollars; and it was because you were yourselves engaged in this piratical warfare, that your privateers have been taken, and that you and your crews are detained as prisoners, in pursuance of the acts of the Congress of the United States, which
authorize such captures of French privateers, not only when found hovering on our coasts, but any where on the high seas; for in all parts of the high seas those privateers have been and are committing unjust depredations on the Commerce of the United States.

Timothy Pickering.

NAVY DEPARTMENT Geo Town 9th Nov 1798.
Mees to Nevison & Granbury Norfolk

Gentlemen, I have delayed till this moment that I am about setting off to Philadelphia to acknowledge receipt of your favour of the 27th Ultimo. Should Capt Barron be ready before he receives orders from me at Phil for his cruise, he may make a short cruise as far as the Latitude of Bermuda, and then return again to Norfolk by the 1st December, by which time other Vessels will be ready to sail in Company.

I must trust to your communicating this to Capt. Barron, as I have not time to write. Please to take his receipt for the Vessel, & Expenditures on account of the United States —

To Tench Francis, Purveyor, from Secretary of State

TRENTON Nov 9, 1798.

Tench Francis Esq

Sir, To-morrow I shall forward a commission and orders for Captain Maley, of the Schooner Lelah Eisha, to proceed on his voyage to Algiers. If the ship Hero is not gone, he will take her under his convoy. I suppose you have the invoice of the cargo of the Schooner made out. Maley should also have a complete inventory of the guns, amunition and equipments of his schooner.

If the Schooner is (as I imagine) at Chester or Marcus Hook, and she and the Hero are ready for sea, I shall be glad to have the orders which I shall send you to to morrow, forwarded by express to Captain Maley — Unless Mr Humphreys or some other agent can carry them, and thus obviate any unexpected difficulties as to her sailing.

I write to Maley by this post to advise him of the above that he may hold himself in readiness. I shall send my letter for him to Chester post office.

I am respectfully &c

Sir I have received your favor of the 8th Instant.

Your arrival in Delaware being totally unexpected, no Steps were
taken here to procure the Articles included in your several Indents,
it having been intended to provide them at New port, to which place
you know you were directed to repair at the End of your Cruise, and I
am sorry for the Accident which has prevented you from Accomplish-
ing it. What under present circumstances is to be done, is, to repair
your damage as expeditiously as possible; to which effect Col'C Picker-

Sir, I have had occasion to address an office to the first Sec'y of
State, since my last to you, respecting the embargo of our vessels at
Cadiz; and permission has been given for such of them as were ready
for Sea, to proceed on their voyages accordingly. But I have rec'd
no answer to my Note on the Subject of allowing our vessels to arm
in the Ports of Spain; and I have reason to believe that private
orders have been sent to the Commanders in the different Ports to
prevent them from arming.

The English expedition, which was reported to have gone into the
Atlantic, has proceeded up the Mediterranean. From whence nothing
of moment has been rec'd since my last.
Intelligence arrived this day from France of the total defeat of the second expedition destined from Brest against Ireland. It consisted, according to former Gazettes, of one Ship of the Line & eight Frigates. No particulars are related, except that after having been at Sea for twenty three days they encountered a superior English fleet on the Coast of Ireland, that the Combat lasted from Six in the Morning until five at Night, & that only one frigate had returned to Brest, when the account came from thence.

The day after the Gala of St Charles I returned from the Escurial, & shall go thither for that of the 12 instant. M de Saavedra was so well as to be able to preside at table; but he has not yet began to dispatch the public busines of his office.

The Prince of Peace was present at the last Gala, & extremely well received by the King & Queen.

With Sentiments of perfect respect & esteem, I have the honor to be Sir,

UNITED STATES SHIP Constellation

Hampton Roads 10th November 1798.

Sir, I have been honored with your Letter of the 3d Instant and thank you for the very friendly Sentiments, contained therein.
Having lost one of the heavy Anchors in these Roads in June last, owing to the Badness of the Ring, and the Ring of another Complaining, as I before wrote you; and no Anchors of Size, suitable for such a Ship as this, to be procured. I have not felt myself at Liberty to go out of the Ship, since I returned from Havannah, and much as I wish to be at New York, and in it’s Neighborhood, I have not been able to get my own Consent, to run into a Northern Port at this Season, where from a heavy Gale of Wind, or from Ice making unexpectedly, an important Ship, drawing a heavy Draught of Water, would probably be drove on Shore, lost, or so injured, that it might cost, (as we have no Docks) as much as would build a Sloop of War to repair her: Under these Considerations, I shall take the first favourable Opportunity, and run the Ship into St. Mary’s in the Potowmac, or in Patuxent, and place her in Safety, until I pay you a Visit at the Seat of Government, and at the same Time see my Family.

In a few Days we shall have every Thing on Board for a four Months’ Expedition, including the old Stores that remained when we last arrived.

The Ship is also fully manned, and the Crew very healthy; a few that became consumptive in Port owing to the bad Weather we have experienced, I discharged, and Pennock has provided them with Quarters, until they are able to shift for themselves. When I observed we should have every Thing on Board in a few Days, I must except the Beef and Butter, which may be sent from Baltimore; what Beef Mr. Pennock sent alongside, I was obliged to return, as it was extremely bad indeed.

As I expect to see you towards the End of the Month, I shall conclude with observing that the Water I shall direct to be kept up, and as the Ship is in perfect Order, and will only want the Beef and Butter above mentioned, to enable her to go to Sea at a Single Day’s Notice, defer other Matters, until we meet.

I have the Honor to be, Sir, (in great Haste) most respectfully,

Your very Obedient humble Servant

DEPARTMENT OF STATE

Trenton Nov 10, 1798.

TENCH FRANCIS Esq., Purveyor.

Sir, The Schooner Lelah Eisha being Armed, and Captain Maley being ordered to defend her and whatever she has under her convoy, I thought it prudent that he should be furnished with a Commission as a Naval officer in the service of the United States. I have accordingly made out one for him as a lieutenant in the Navy, and now inclose it. You will have the goodness to get the War-Office seal affixed to it, before you send it to Maley. At the same time he should be informed that the Commission is designed only for the present voyage, and not to ground any claim for permanent employment. Altho' his good conduct in his present undertaking will recommend him to the further attention of the Government. All the papers now transmitted herewith for him are noted below. I presume he will have obtained a sea letter, Mediterranean passport, clearances and other customary papers (Register excepted) from the Custom House. I wish you to ascertain this, and see it done, if not already accomplished. You will write of course to Capt. O'Brien, and send him invoices of all the articles on board, and copies of the invoice of the cargo of the ship Hero, for which I inclose a passport, leaving a blank for you to insert the master's name, which I have forgotten. If as I have suggested to Mr Humphreys, the Captain of the Hero puts guns on board her, he will consider whether he had not better take out a commission, at the Custom House, to secure him against being treated as a pirate, in case he fights and should be taken. It will cost him but some trifling fee; and I suppose he knows people enough in Philadelphia who will be his bondsmen for observing his instructions as commanding a private armed vessel.

I am respectfully &c.

PASSPORT FOR THE ARMED SCHOONER Lelah Elisha

To all who shall see these presents Greeting.

I Timothy Pickering, Secretary of State of the United States of America, do hereby certify and make known that the armed Schooner Lelah Elisha whereof lieutenant William Maley is Commander, has been built in the United States for the Dey of Algiers, pursuant to a Stipulation of Richard O'Brien Esq'r now the American Consul General at Algiers; and that the Stores on board of her are also destined for the Dey of Algiers, in pursuance of existing Stipulations with that power. The whole to confirm and secure the peace entered into between the said United States and the Dey and Regency of Algiers. Wherefore in the name of the President of the United States, I request all who may meet with the said Schooner Lelah Elisha either at sea or in port, to allow her to pass not only unmolested, but with every necessary aid, to enable her to reach her destined port, the City of Algiers, in safety.

Given under my hand and the Seal of my Office at Philadelphia, the tenth day of November 1798;

TIMOTHY PICKERING

[SDA. Dom. L., Vol. 11.]

[Enclosure No. 4]

INSTRUCTIONS TO LIEUTENANT WILLIAM MALEY, COMMANDER OF THE ARMED SCHOONER CALLED THE Lelah Elisha

You being appointed to the command of the armed Schooner above named, are to proceed forthwith to the City of Algiers, and there deliver her with her guns, tackle apparel and Stores to the Dey of Algiers, for whom she has been built, armed and equipped, according to the directions you shall receive from Richard O'Brien Esquire, the Consul General of the United States of America, at that City to whom as soon as possible you will make known your arrival.

As you have a crew competent to the defence of the Lelah Elisha against ordinary cruisers, so you are to defend her accordingly against all attacks but those of superior force. You are therefore to prepare your officers and crew for such defence, and maintain the necessary order and discipline among them, for this object as well as for the safe navigating of the Schooner to her destined port.

The Ship Hero, laden with timber and Stores on account of the United States, to be delivered at Algiers pursuant to the Stipulations between that Regency and the United States, I presume has not yet sailed, if so, you are to take her under your convoy.

Besides the warlike and other equipments properly belonging to the Lelah Elisha, there are certain Stores by way of Cargo, which are
also for the Dey of Algiers in pursuance of the stipulations above mentioned. The invoice of these articles, as well as an inventory of every thing properly belonging to the Schooner, you will take with you and deliver to Captain O'Brien our Consul at Algiers, whose orders respecting the delivery of the whole you will strictly observe; or in his absence, the orders of the person left there in charge of the officers of the United States.

The orders for using your arms, you will observe point only to the defence of the Schooner under your command, and the protection of the Ship Hero, under your convoy. You are therefore not to give chase to or attempt to take any vessel you may meet with. Nevertheless, should you meet at sea with any vessels of the United States, in the hands of French captors, you may retake them. And you will understand that it is against the French Cruisers, that the orders for defence are mainly intended. The Government of that nation having laid aside all regard to the law of nations, and the most plain and acknowledged principles of justice in the arrests and regulations it has made in regard to the capture and condemnation of neutral vessels, and especially those of the United States. But you will consider well the strength of such captured American Vessel, and attempt nothing at the risque of the Lelah Eisha or of the Ship Hero. So likewise you may take under your protection any American vessels holding the same course with you. In case of a recapture you are not materially to deviate from your proper course, nor essentially diminish the force of your crew.

It is expected that the other armed vessels and the Brig Sophia will reach Algiers nearly as soon as the Lelah Eisha, and that the crews of the whole will come home in the Sophia.

Relying on your vigilance, bravery and prudence, I have only to wish you a prosperous voyage to your destined port, and a safe return to your Country.

Given under my hand and the Seal of the Department of State at Philadelphia, the Tenth day of November, 1798;

TIMOTHY PICKERING,

Secretary of State.

[SDA: Dom. L., Vol. 11.]

[Enclosure No. 8]

PRIVATE INSTRUCTIONS TO LIEUTENANT WILLIAM MALEY,
COMMANDER OF THE ARMED SCHOONER Lelah Eisha

If visited by a European vessel of War of Superior force, and your papers are demanded, you will exhibit your sea-letter and the Special passport or certificate under my hand and seal: If by any cruiser of the Barbary powers, you will exhibit your Mediterranean passport, and the passport of the Dey of Algiers in the Turkish language and under the Dey's Seal. These ought to satisfy any vessel of war which may visit you. If however other papers shall be required, you may exhibit the inventory of the Schooner and her equipments, the invoice of goods and stores on board her, your clearance and any other customary papers. If you should have an engagement with any other armed vessel, and your right of fighting should be questioned, you will show your Commission, and your instructions to fight and defend your vessel and convoy.
If not inconvenient to touch at Gibraltar, you may do it and make known your destination to our Consul, John Gavino Esq. If any unexpected change should have taken place to render your going to Algiers improper or unsafe, he can inform you; and in this case you will secure your vessel until you can get advice from Captain Richard O'Brien our Consul at Algiers, how to proceed; contriving to let him know as soon as possible your situation. In such case also you will get Mr Gavino to write an account of it to Col Humphreys our Minister at Madrid, and to William Smith Esq our Minister at Lisbon. What they or either of them shall finally advise, you are to do. But this caution is suggested only because it is possible (for it is not probable) that there may be reasons to forbid you to proceed to Algiers.

If you should fall in on the coast of Morocco, off Tangier, you will there find James Simpson Esq American Consul, with whom you may in like manner advise and Consult.

But the chance of there being any objection to your proceeding directly to Algiers is so very small, and the danger so great of meeting with French privateers near the Straights mouth, seeing they frequent the Spanish ports of Algeriras on one hand and Ceuta on the other — if the wind should be favourable it will be best for you to push forward and go directly to Algiers.

The letters and packets addressed to Mr Simpson and Mr Gavino you will contrive to convey to one or the other of those gentlemen, either going or returning: but do not go out of your way to deliver them to either, if you bring the letters and packets home again.

Given at Philadelphia the tenth day of November 1798.

TIMOTHY PICKERING,
Secretary of State.

Extract from the log book of the Brig Jerusha, Captain Josiah Richards, from Jamaica, boarded by French privateer Coffee Mill, 12 November 1798

"Sailed from Jamaica the third day of November, with part of the Jamaica fleet, bound through the windward passage, but was obliged to bear away, and come through the gulph.

"On the 12th of the said month, was boarded by the French privateer called the Coffee Mill, which formerly belonged to Capt. Alexander, fitted out for Charleston; they overhauled my papers and let me pass, after taking one barrel of sugar and a barrel of bread."
On the 21st of the said month, was boarded by the Montezuma sloop of war, off the Havanna. Captain Phillips, in the Baltimore sloop of war, was cruising off said port, and had captured a small privateer, mounting 4 guns; he had her still with him. He informed me, that the Constitution, Capt. Nicholson, had sprung her bowsprit, which obliged her to bear away, where, he could not tell.

The Jerusha was also boarded by the Coffee Mill, on her passage out, off the east end of Jamaica.

To Captain Silas Talbot, U. S. Navy, from Secretary Timothy Pickering, acting for Secretary of the Navy

Navy Department November 14th 1798

Silas Talbot Esq
Providence, R. I.,

Sir: Yesterday as I was preparing to leave Trenton I received your Letter of the 7th, stating further disappointments on account of the bursting & deficiencies of the nine pounders cast by Mr. Brown for the Ship George Washington. You will have by this time received my Letter of about the 7th enclosing one from Mr. Brown to Govr. Bowen, or others his partners in Hope Furnace desiring them to make up the complement of nine pounders for the George Washington out of the nines cast for the ship at Newburyport or Portsmouth, I presume therefore that your embarrassments about Guns are at an end, but if not, and the full complement shall not be furnished before you hear again from this office, I presume Mr. Stoddert (who will come to Town this day) will procure the Guns at New York or Philadelphia, where a considerable supply has been imported from England. I was on the point of giving peremptory orders for your receiving the complement of Nines from the parcel cast for the Newburyport or Portsmouth Ships, but enquiring now whether cruising orders had been sent to Cap† Fletcher, and finding that they had not, and as it will be proper that these should come from Mr. Stoddert, I defer giving any further orders about the Cannon. You may expect to hear from him without delay.

Mr. Brown who is here says the Sixes have been all proved. But if Cap† Fletcher desires it, he has no objection to his proving them over again; The public finding the powder &C† This second proof I think will be expedient. If you should be finally disappointed as to Guns at Providence (I mean the nines) It may be expedient to get the Sixes and all other War like equipments on board ready for the Ships Sailing to New York to receive nine pounders, if this should be thought preferable to the transporting them to her at Newport. — The quality of the Guns at New York in the mean time will be ascertained.

I am &C†

Timothy P[ickering].

To James & Ebenezer Watson, Navy Agents, New York, from Secretary Timothy Pickering, acting for Secretary of the Navy

Navy Department,
November 14th 1798

Messrs J. & E. Watson

Gentlemen, John Brown Esquire of Providence engaged to furnish 24 nine pounders, & 8 Six pounders for the Ship George Washington purchased of him by the Secretary of the Navy. He cast the nines, as well as the Sixes, but most of the former have burst in the proving, and such as did not burst, the Captain (Fletcher) hesitates to receive on account of the general bad quality of the metal. Lest there should be a final disappointment and the ship being by this time ready for sea, I have thought it advisable to enquire what are the weights & lengths of the nine pound Cannon imported into New York, particularly those belonging to Hugh Pollock & Co, who say they are beautiful, bored from the solid & well finished. — And they have offered them to Gibbs & Channing of Newport, Rhode Island for the public service “at the same price at which they could procure Country made Iron Guns”.

I request therefore, that you will see them and inform that department of the weight and length of the nines, & of any other qualities which you think useful to communicate. If it be convenient at the same time to inspect their Sixes and the shot they have for both of them & the nines, it may be well to do it, and to Note the prices & qualities of the whole.

Mr Stoddert will probably arrive today, and to him your answer may be addressed. I believe I have in a former letter mentioned that we give Mr Foxall the founder near this City, and who is a complete Master of his business, £55. Pens$ Currency p$t Ton for his Cannon, while another Contract has been made at £50 — p$t Ton — Their Cannon are to Weigh only 200lbs Gross for every pound of the Shot's weight. —

I have the honor &C

Information given by George Clark, passenger on board the Ship Polly

The ship Polly, Stinson, from Barbadoes, for Boston, has arrived at the Vineyard. Mr. George Clark, a passenger, has arrived in town, and obligingly communicated to us the following: List of American vessels sailed under convoy of the ship Atlantic, Capt. Nuns, mounting 18 guns, and the brigantine Venice, of 16, both bound to Lancaster. We took our departure from Barbadoes the 14th Nov. and came to windward of all the Islands, viz. ship Mariah, Thomas for Newbern, N. C.; brigs North Carolina, West for do; Susan and Polly, Taylor, for Baltimore; Marcus Miles, of Darby, for New-Haven; the Marcus was captured by the French, and recaptured by the ship Cornwalis, of Liverpool and sent to Barbadoes, where 16 salvage was taken) — Swallow, Stoddard, for New-York; schs. John Stenson, for
do.; Eliza, Skimmer, for Boston; Cynthia, Goodwin, for Sea Brook. — Left at Barbadoes, brig. Hope, Shipman, of Hartford, with horses; — Capt. Brown, of Rhode Island with provisions and horses; sloop, Industry, Fitch, of Nantucket. — Parted with Capt. Skimmer, in lat. 26, 20 long. 66, 59, her sails and rigging much shattered. Nov. 30, lat. 20, 20, long. 66, 59, saw a sail upon the weather bow, standing athwart us, which proved to be a bark, steering S by E with a great number of men on board — we immediately hauled our wind and made off — she then hoisted an American Jack at the main top gallant mast head; and from several circumstances, appeared to be a vessel captured by the French. — Dec. 1, lat. 27 8, long. 68, 18, saw a sail standing S. and after approaching near, took her to be a French privateer — we immediately gave chase, in order to appear as a ship of some force — and the privateer finding they could out wind us, bore away and chased after us — we immediately mustered all hands, and by the aid and assistance of a number of old hats, caps and old clothes, such as shirts, jackets, trowsers, &c. rigged all our handspikes, and made the appearance of as many men as possible, and with ourselves, numbered fifty — we then erected stern posts out of the companion doors, and by painted kegs two guns on each side. The moment she discovered the men, hauled her wind, and by her actions, we supposed she put chief of her men and two guns, on board the barque to serve as stern chasers — she being a deep loaded vessel, and as we suppose a valuable prize. The privateer, after closely examining us on both sides, from the distance she was at, bore away and sneaked off — steering S, S E. — Dec. 7, lat. 19, 49 long. 58, 45, spoke the armed sch. Abolina, Pitican, 18 days from Baltimore, bound to Tortola — The British frigate Amphritite, had captured and sent into Barbadoes, three French privateers, and sunk one — Provisions low. — Mr. Clark left the Vineyard on Tuesday, where there was about 20 sail of vessels, among them Capt. Sherman, in a brig from La Guire, bound to Salem; and brig. Cyrus Daggett from Philadelphia, bound to Boston, who arrived at the Vineyard, on Sunday last, in only 36 hours from Delaware Capes.

The 9th inst. a coasting vessel was driven ashore on Portland head, and stove to pieces. By the severity of the weather, the sails were so frozen that the vessel was unmanageable, and consequently got upon the rocks. The captain's son, a brave youth, seized a rope, plunged himself into the sea, swam to the shore, and with the help of the rope saved the lives of the crew.

The ship Randolph, Hilton, from Martinico, for Portsmouth, put into Salem, on Wednesday last — 47 days passage, 22 of which have spent on the coast. Mrs. Baylis and family of this town are passengers.

The Caroline —, in 53 days from London, arrived at Savannah, Nov. 30. She was armed, and on her passage was met by a French privateer which fired one gun — but sheered off instantly on its being returned.

Secr of the Treasury

SIR, By the best Estimates I am able at this time to make, 2,029,225 80/100 Dollars will be required for the Pay & Subsistence, Wear & Tear, and contingencies of the present Navy Establishment, including the revenue Cutters for one year to commence the first day of January next. There appears to be the Sum of 1,220,214 87/100 Dollars of former appropriations for the Navy unexpended; but of this Sum there will be required for the Pay & Subsistence, provisions, & contingencies to the end of the present year, that is to the 31st December 1798, to finish the Vessels building by the public, and to arm and equip the Vessels building by the Citizens 848,903 Dollars, which will leave a balance of 371,311 87/100 Dollars to be applied in exten- uation of the Sum of 2,029,225 80/100 Dollars.

In this view of the Subject, an appropriation of 1,657,913 93/100 Dollars in addition to existing appropriations will be requisite for the whole expences of the Navy from this time to the end of the year 1799. This will occasion a demand on the Treasury from this time, to the end of the year 1799 for the Sum of 2,878,128 80/100 Dollars on account of the Navy. You can Judge as well as I can, whether Congress will direct an increase of the Navy. My own opinion is, that the Safety & Independence of the Southern States, no less than the Com- merce of the Middle & Eastern States require that the Navy Should be increased as quickly as practicable, to at least 12 Ships of 74 Guns, 12 Frigates, and 20 Ships from 8 to 24 Guns: But if Congress Should also be of this opinion, it is not, I think, probable, that more than 750,000 or 1,000,000 Dollars could be expended to advantage in the ensuing year. —

To Secretary of State from Acting Consul George C. Morton, Havana, Cuba

Extract of a letter, from George C. Morton, Esq. acting Consul of the United States at the Havanna, to the Secretary of State, dated Havanna, 18th November, 1798

"By the delegation of Daniel Hawley, Esq, I am at present acting as consul of the United States in this district. It imposes upon me the mortifying task, sir, of informing you of the partial capture of an American fleet, under the convoy of the Baltimore sloop of war, Isaac Phillips, Esq. commander, by a British squadron, off this harbor, accompanied with circumstances rather grating to the feelings of Americans, and by no means analogous to that good harmony, which seems to subsist between the two governments.

"The answer of Messrs. Trezevant and Timmons, to my note of the 7th instant, requesting an exact relation of the occurrence, will, I presume, be deemed as impartial a narrative as can be given, of the whole transaction, they having been passengers on board one of the captured vessels, and removed to the Baltimore."

**Lewis Trezevant and William Timmons, Esqs. to G. C. Morton, Esq.**

"Havana, Nov. 18, 1798.

"Sir — Agreeably to your request, we now commit to writing, the best account we are able to give you, of the conduct of captain Loring, commodore of the British squadron, which was lately off the Moro, towards the United States' ship the Baltimore. We must observe, however, that all we can say of it, is from the information of captain Phillips, as we were not on board of the Baltimore when she was visited by captain Loring's officers."
"In the morning of the 16th inst. we discovered this squadron, when we were in sight of the Moro, and afterwards found it was composed of captain Loring's ship, the Carnatick, of seventy-four guns; captain [space] 's ship, the Thunder, of the same force; captain Dobson's ship, the Queen, of ninety-eight guns, captain Donolly's frigate, the Maidstone, of 32 Guns, and captain Hardy's frigate, the Grey Hound, of the same force. We were passengers in the brig Norfolk captain Butler, which, together with the ship Eliza, captain Baas, and the brig Friendship, captain Fuller, were cut off from their entrance into port, and were all made prizes within gun-shot of the Moro. We obtained leave to go on board the Baltimore with our baggage, and did so. When captain Phillips discovered that they were English ships, which was before we were taken, he stood towards them, and spoke the commodore. After we got on board the Baltimore, the captain informed us, that he had been on board the Carnatick, and that the commodore had told him, that he should take out of the Baltimore all such men as had not American protections; that he had remonstrated with him against showing such an indignity to our flag; that to do so, would leave his ship in a very defenceless state, and would deprive him of nearly all his men, as not even those who were really Americans, or at least very few of them, could show protections, because it was always thought that our flag, on board of a government ship, was a sufficient protection. All this, however, was urged in vain. captain Phillips returned to his ship, and the commodore sent an officer on board the Baltimore, who carried away fifty-five of her men to the Carnatick. Captain Phillips remained in expectation that nearly all the rest would be taken from him; but whether the commodore, upon reflection, thought better of it, or whatever else might have been his motive, he sent back fifty, and kept five, among whom was the ship's boatswain.

"Captain Loring proposed to give up a number of American seamen, who, he said, were in his fleet, if captain Phillips would give him English subjects for them. Captain Phillips refused this offer, and the American seamen were not delivered to him. Before any of the men were returned, he sent a message to captain Phillips, to let him know, if he, or one of his officers, would go on board, and point out who were Americans and who were not, he would return all the Americans; but this was declined also. After we got on board of the Baltimore, he sent a letter to captain Phillips, which he showed to us, in which the commodore 'demanded' that he would give up all the British subjects on board the Baltimore. To this, captain Phillips replied, that he could not know any of his men as British subjects, nor could he, as commander of a ship in the service of the United States, voluntarily give up any of his men; but if he thought fit to send an officer on board, with orders to take any number of his men, he should not oppose it. In this answer, captain Phillips mentioned, he should lay before the Executive of the United States, a full account of the occurrences of the day. Shortly after sending this reply, the squadron set sail, and left the Baltimore. Commodore Loring was very polite to us, and was so to captain Phillips, when he went on board; but captain Phillips complained of indecent behaviour from the inferior officers."

DEAR SIR, I transmit you herewith, a Copy of a Letter and Report made to me by Cap't Phillips of the Baltimore, arrived this Day from Savannah as also Copy of my letter in answer to him, you will no Doubt receive further Information from this Officer, respecting the Conduct of Commodore Loring, commanding a Squadron from Jamaica on a Cruize, under the Orders of Sir Hyde Parker.

It is unnecessary for me to make any Observations on the Subject of this very unpleasant Business, as you will have the History of it before you, as related by Captain Phillips.

We are only waiting a fair Wind to proceed to Sea, I hope we shall be favoured to Morrow, the Richmond will proceed with me, and several Merchant Vessels, among the Number is a Schooner, called the Thecis, having on board the young Lady you mentioned, and who I sincerely hope may arrive to her Port of Destination uninjured by her Countrymen &c. I find she is in Charge of a young Gentleman of Georgetown, who I understand, is a Supercargo of the Thecis. I told her a Ship of War was a very uncomfortable Vessel for a Lady in Time of War, and at the same Time mentioned the Risk she run of falling in with Pirates of her Nation, in Case of the Schooner parting with us, and then left it with her to decide, whether she would remain where she was, or embark in the Frigate. She after a Day's Consideration chose the former. I hope however to see the Vessel with her safe into Martinica.

I shall write you by the Pilot more fully, mean Time I present the Compliments of the Season, and am Sir with great Respect,

DEPARTMENT OF STATE PHILADELPHIA Dec' 31. 1798

Sir, A few days since I mentioned to you the insult committed on the flag of the United States, by Captain Loring of his Britannic majesty's ship the Carnatic. Altho' the Government have not received a report from Captain Phillips, who commanded the United States sloop of war Baltimore, on which the outrage was committed, yet the information obtained is deemed sufficiently authentic to authorize a representation of the matter to you.

The principal facts stated are these. Captain Phillips having under his convoy several American Merchant vessels bound to the Havanna, saw, not far from that port, a fleet of three ships of the line and two frigates, which, as soon as he discovered them to be British, he approached, and spoke the Commodore, the above named Captain Loring. This officer told Captain Phillips that he should take from him all the Seamen who had not protections as citizen of the United States. Captain Phillips remonstrated against it;—observing among other things, that the public flag of the United States was their protection; and that if he carried his declaration into effect, the Baltimore would not have men enough left for her defence. His remonstrances were fruitless. Captain Loring took from the Baltimore fifty five of her crew, afterwards, finding Captain Phillips indisposed to comply with some other propositions and demands, Captain Loring thought proper to return fifty of the men retaining five, among whom was the Baltimore's boatswain.

It is impossible, Sir, for the American Government to imagine that this outrage can be the consequence of any orders from His Britannic Majesty; and equally impossible for the United States quietly to bear the repetition of insults and injuries of this kind: the President of the United States has therefore directed that all attempts to commit them be resisted. A copy of the orders issued to the naval officers of the United States on this point I have the honor to inclose. Another copy will be transmitted to the minister of the United States in London, who will make a representation of the affair to the British Gov-
ernment. In the mean time, and until the orders of His Britannic Majesty can reach his naval Commanders in the West Indies and on the American Coast it will be desirable to prevent the mischiefs which a renewal of the conduct complained of cannot fail to produce. Your endeavours for this end I am sure will not be wanting.

I have the honour to be &c.

Your Narrative of the transaction with the British Captain, near the Havanna, has been attentively considered,—and with every disposition to make great allowance, for the unprecedented Situation to which you were exposed, it is impossible to find an excuse for some parts of your Conduct,—among these, it will be sufficient to mention your tame submission to the orders of the British Lieutenant, on board of your own Ship.

If you could not have resisted the assumption of the Command of your Ship by that Officer a point not to be admitted, surely you might have contented yourselves— with passive submission—but you descended further, and actually obeyed his orders, to have all hands called, and to give him a list of their names. Under circumstances so degrading, it is improper that you should hold a commission in the Navy Service of the United States—and I am commanded by the President, to inform you, that your Services are no longer required.—

I am Sir your &c

[16 November 1798]

To Secretary of the Navy from Isaac Phillips, formerly Captain, U. S. Navy

Baltimore 11th February 1799

Benjamin Stoddert Esq.

Sir, At the suggestion of my friends, I have concluded to lay before you a vindication of my conduct in the affair which occurred between Commodore Loring & myself. In the consciousness of having done my duty I had promised myself the approbation of the Government; but how great was my surprise, when I received in lieu of approbation, a "Dismissal, in terms which behaviour the most ignominious only deserved;—Condemned unheard, my own relation misconstrued, and my character exposed in a questionable shape, I now come forward to vindicate that character, and seek from Government that justice which I feel and you I hope will acknowledge is my due.——When I entered the service of the United States it was no pecuniary motive
that induced me; no want of employ that urged my acceptance; It was at once the gratification arising from a command in the service of the public, which I thought I could discharge honorably to myself, and usefully to my Country. — On receiving Instructions to proceed to sea with all possible dispatch & without a commission, I was left exposed to circumstances which from the first moment I dreaded, and afterwards experienced.

To meet with events for which no precedent was established, was an unpleasant task for a young Officer; but rendered much more so, from the doubtful situation in which I stood; having no commission to authorize a conduct of offence or even of defense, should circumstances require it. My falling in with Commodore Loring brought all these difficulties into view, and from them have arisen those Occurrences, which Government has been pleased to attribute to the errors of my mind, rather than to their own Omission. — When Commodore Loring requested my going on board his Ship, I was struck with the impropriety of the request, Knowing it to be contrary to duty — — But reflection suggested that circumstanced as I was, by going I might obviate many questions which might arise, if our intercourse were left to the medium of his and my Lieutenants. — — The supposition of his making such inquiries, as would give him a knowledge of the command I held, was confirmed by the first conversation that took place. My commission was called for; I had none — and with surprise he heard the observation. I then shewed him the orders received under your signature; — his question was "who is Ben' Stoddert?" I replied that you were the Secretary of the Navy Department; he said the name was new to him. — and observing a doubt on his mind, I then asked him if he had Admiral Vandeput’s signals with the United States — he answered me the question by asking me if I had them; I replied in the affirmative. He then proposed examining them with his, to which I consented, as I considered them the only evidence I had. Those Signals he examined very minutely; and I believe was by them convinced that I commanded an United States ship — — I presume it is not necessary to inform you, that these private signals are known only to the Commanders; I therefore could not communicate them to Commodore Loring’s Lieutenant, nor could I to mine; hence the necessity of bearing this evidence myself, the only one that I had to prove the authority under which I acted.

My correspondence with Commodore Loring is a plain statement of facts, it contains the mere occurrences, that took place between us, but was not intended as an evidence of my feelings which as a man, much less as one of acute feeling, could not have been so tame as you have represented to me they were. —

I can suppose that it would have been more fortunate had I described my actions as well as my words: — the narrative would have worn a different appearance. — I hope Sir I do not infringe the rules of decorum when I make these observations; if I do, you must pardon the transgression in the recollection of the Injury I feel from the exercise of a conduct, which I thought proper.

It was with astonishment that I understood the letter I wrote to Commodore Loring desiring him to send my keys, as I wished to have a glass of wine "if it pleased him," has been construed into an humble request — Commodore Loring felt it differently, he felt it, as it was
intended, a tacit demand, and called it an insult; and immediately
upon which sent back the Keys and fifty of the men he had taken
from the Baltimore, the circumstances of the Keys it is true is trifling,
but it is one among many, which has laid me open to misconception
and consequent injury. The whole tenor of my conduct in the affair,
was regulated by what I thought — — my duty — The impulse of
indignation, every man could but feel at such a crisis, but feeling and
duty were in my mind at the most opposite extremes. — In the
exercise of my duty myself was made obedient to the impressions I
had of the good of my Country; those impressions arose from the
Ideas I had gathered from your and Capt Truxton’s letters — those
letters direct me to attempt no recapture if made by any of the Powers
with which we were at peace; even if made before my Eyes, and to
keep on good terms with the British by every act of conciliation:—
directions of this import were points that could not fail, if I were
disposed to support the sentiments of the Government, to command
a conduct from me congenial with their views; but more especially
when placed in a situation where a hostile conduct, might have in-
volved me in a predicament of questionable piracy.

Thus Sir, I have submitted to you a few of the leading reasons which
governed my conduct — As I did not go to Philadelphia to appear as
an offender, they were not till now committed by me to paper — —
nor perhaps should I have troubled you with the statement, but at
the suggestion of some Gentlemen of this place — — to their advice,
and in some degree to relieve my own feelings, I have undertaken the
task; — — I hope Sir you will acknowledge the receipt of this letter,
and do me the favour of saying, if your sentiments on a view of the
subject, as now related, merit the contempt I have received from
Government through your hands.

I have the honor to be

with respect your most hum serv

[SDA. Misc. L, Jan–Jun. 1799.]

[16 November 1798]

To Isaac Phillips formerly Captain, U. S. Navy, from Secretary of the Navy

[PHILADELPHIA]

Navy Department 20th February 1799.

Capt Isaac Phillips
Sir I have received your letter of the 11th which I will lay before the
President, in a few days when he will have leisure to attend to the
subject of it. —

In the mean time, I think it necessary to observe, that you never
received any Letter, or instruction from me, as you state “to keep on
good terms with the British by every Act of conciliation” — A friend
of yours, in Letters to Col Howard, has gone still further with this
mistake, and calls such letters from me, private letters. — It is
indifferent to me, for what use such things are intended. — You
were instructed, not to molest the Vessels of any Nation, with whom
we were at Peace — not even to enterpose to prevent the capture of
our own Merchant Vessels, by the Armed Ships of any Nation, except
the French. — Such were, and such still are our Laws. — We aim only against the armed Vessels of France. — Against the armed Vessels of other powers, ours have no right to Act, except to repel insult, or injury offered to themselves. — It was your duty therefore, not to attempt to defend against the British Ships of War, the Vessels under your convoy — But it was not your duty to obey the order of the British Officer, to hoist your signal to stop your convoy, and by so doing, assist to throw these Vessels into the power of the British Ships — But for this undue obedience on your part, the Vessels might have got into the Havanna — Though you had no right to protect them, except against the French, it did not follow that it would be proper to aid their Capture by the British. — The Congress have not deemed it the Interest of the United States, to prohibit the Public Ships from convoying for the purpose of protection against the French Vessels with contraband Goods — Our Flag then, is not evidence of the fairness of the Trade, of the Vessels convoyed — Nor can we lawfully protect such Vessels from the operation of the Law of Nations — I make this explanation, as well for the Gentleman with whom you communicate as yourself — As to your Men, it would have been most satisfactory, if you had not parted with them, without striking your Flag, and giving up your Vessel also — But if you had been only passive, the unprecedented situation to which you were exposed, would have been considered a sufficient excuse — but unfortunately you suffered yourself to be made instrumental in assisting the Outrage on the American Flag, by obeying the order of the British Officer to call all hands — and in furnishing a list of their names. — This it was conceived you never should have done, whatever might have been the consequences of your refusal. — I have thus stated the only two points, which I confess, I could not, in forming my opinion to lay before the President get over — As to your correspondence with Loring, that had no weight in influencing the measure of which you complain. —

On the subject of the principal point of your defence — Having no Commission — I can neither confirm nor contradict the fact. — It appears by a record in the hand writing of the Clerk whose duty it was to transmit Commissions, that yours was sent the 9th of July — this Clerk Mr. Josiah Fox, left the Office in October, and has not been in it Since: his place of residence is Norfolk. — I must confess however, that it appears not a little extraordinary that with the impressions stated in your letter, on your mind, you should have gone to sea without a Commission, and without once complaining in any Letter to me, of the want of one — and it is difficult to conceive what service with such impressions you expected to perform. — It is extraordinary too, that in your narrative of the transaction with Loring, this circumstance, which you now think so important, not only as it affected your conduct, but his also, should be so totally omitted: — especially too, as you must have supposed, that however little your own conduct stood in need of vindication, that of Loring would probably lead to serious discussion between his Country and your own — and under that supposition it seems natural to conclude, that you would have felt it a sacred duty, as it certainly was, to represent his conduct justly to your Government, and to conceal no circumstance which might tend to mitigate its enormity.
It affords me no pleasure to have it in my power to make these very obvious remarks. —

I am Sir &c

Sir On my arrival two days ago, I found your Letter of the 1st Instant. I hope it will be in your power to obtain at Norfolk all the supplies you want, several Ships of 20 & 24 Guns, will quickly be ready for Sea, and I contemplate that they shall be immediately employed under your command in the service suggested in your Letter. I say I contemplate this, but the President will be here in a very few days, and different arrangements may be made. But I wish you to consider it as, at least, highly probable that you will be employed in the Service Suggested, and quickly, and make your preparations accordingly. Should Philips come into Port, be pleased to order him to proceed no higher up the Bay, but to get his Supplies at Norfolk also — And if practicable in time, to attend you. The Brig* Commanded by Cap' Barron, if she should be prepared for Sea before the 1st of December, was ordered to cruise about the Capes, and to return into port about that time. These vessels, and the Virginia Cutter Cap' Bright (if you think she would be useful) it will be desirable to have in readiness to proceed with your Frigate, & the Vessels which may Join you from the Eastward. —

I expect to have it in my power to be more explicit in a very little time. —

Navy Department Nov 19th 1798

Capt. Nicholson

Sir, I am honored with your Letter of the 11th Instant, and tho I lament the misfortune of your Ship; yet it places her where I wished her to be, about this time.

The Pay of one half the monthly pay of such of your men as left families & powers of attorney behind, would have been made to such families, if you had sent me a List of the men giving such powers, & their monthly pay, which you omitted to do.

I hope you have, in consequence of my Letter of the 15th October (which you have I presume received through the hands of S. Higginson Esqr) caused to be made out, and delivered to that Gentleman, an exact indent of Provisions, Stores &c. necessary with what you have on hand, for a Six months cruise — And that these articles will be provided without delay.

Mr. Higginson will also furnish money for the pay of your Officers & Men, to the time you think it prudent the latter should be paid.

Cap't Barry pays his to the 31st August.

I shall write you again in a few days, & immediately after the arrival of the President here, shall send you Instructions for a cruise of several months — And hope you will have every thing prepared, & in order, to sail at the shortest notice.

I have the honor &c.

S. Higginson Esqr

Sir, Accident has placed Capt' Nicholson's Frigate, where it was designed she should be about this time.

I have a Letter from him of the 11th Instant; in which he does not acknowledge the receipt of mine to him, enclosed in my Letter to you of the 13th October. I presume he has since received it; And has in consequence made returns to you of the supplies wanted for a six months cruise; — and that he will not be delayed for want of them.

I direct a remittance of 12,000 Dollars to be made you this day — which is all the money at this moment at my command, in two days more I will direct a further remittance. — Nicholson mentions in his Letter to me, that he expected to get money from Mr. Jackson
& Mr. D. Green, to stop the mouths of the most clamorous of his crew. And those who had left families behind, to receive one half, their monthly pay. That this engagement was not complied with, they have to thank Nicholson himself, who never transmitted to me a List of the men who had executed powers of attorney for this purpose. — It will be proper to pay the whole crew up to some particular time. Barry pays his to the 31st August.

The more pay the men have due to them, the greater will be the Security that they do not desert the service.

The President is expected every day; and immediately after his arrival I shall send Nicholson orders for a Cruise, and shall hope he will be prepared to execute them.

I have the honor to be &c

SECY OF THE TREASURY

Captn Nicholson having Sprung his Bowsprit, has returned to Boston. His Crew must receive Some pay, and he must be fitted out for a cruise of 6 months. It will be necessary for me to remit to S. Higginson of Boston, (who is also Agent for the Ship at Portsmouth, at least 40,000 D$ Of this demand, it was impossible for me to give you information before this day. —

I must also remit to J. Sheaffe of Portsmouth without delay 20,000 Dollars — To J. Yellott Baltimore, 8000 D$ — And to William Pennock, Norfolk, very quickly 20,000 Dollars. —

The three Ships in this port require daily Supplies of money — and my demands on the Treasury for the present week, will not be less than 100,000 Dollars in the whole. — I have the honor therefore to request that you will be pleased to direct the Treasurer of the United States to pay into the hands of Saml Meredith Esq Treasurer of the Navy, 100,000 Dollars; for the use of the Navy department: Fifty thousand to be charged on the appropriation of 950,000 Dollars — and a like Sum on the appropriation of 600,000 Dollars. —

I hope in a few days to be able to give you a view of the wants of my department for a much longer period than a week.

I have the honor to be &c

PHILADELPHIA 20th Nov 1798

Sir, I am duly honor'd with your orders of this date; and will for your information, endeavor to detail an account of the state of the Ship Ganges under my command, so far as relates to circumstances which are operative in preventing her proceeding immediately to Sea.

The Guns are all yet to be proved and taken on board — The first of this business is confided I understand to a Captain Elliott. I visited the lodging of this Gentleman, but have not seen him — however I understand he is preparing for the operation, as soon as a fit and convenient place shall be fix'd on for the purpose — no doubt with me remains, but we shall fully accomplish this, and the Guns be all on board, in the 1st of the ensuing week — The carriages for them are not quite complete — the business with which has been extremely tardy, although I have not fail'd to visit the workmen twice or thrice daily: the state of forwardness they are now in, leaves me little doubt but they also will be ready. — The Joiners, Plumbers, and Ship Carpenters work on board appears to have been from unavoidable circumstances extremely backward — The two latter are now nearly complete — the former goes on yet excessively slow — though every urgent argument in my power has been made use of to cause dispatch. — The general equipment of the Ship in these and some other particulars, has been under the superintendance of Mr Joshua Humphreys whose attention & diligence gives the utmost satisfaction — nevertheless a line from You, on the urgency of this business for my ship, may have a desireable effect.

The previsions and stores (except the water which is compleat) of all kinds are yet to be received — of these the greatest prospect for delay, appears to be with the bread — I wrote on this subject from Marcus Hook, the beginning of this month, requesting 30,000 lb should be in a state of preparation — and the Ship has from that period been ready for its reception. — I know not particularly why any delay took place, but no positive agreement was made for a supply of this article, till last Friday evening, on Saturday we rec'd 3300 lb, the weather has retarded farther progress.

The Beef & Park I have little doubt will be ready agreeably to your contract with Mr Hunt at Trenton and the other articles of the provisions, are procurable in one day, but of these particulars I shall have the honor to confer with you verbally.

Indents for the Ammunition, and all the stores have been completed and furnish'd except for the Ship's Carpenter — how far all the former are prepar'd I shall inform myself without delay, the latter can be obtain'd at an instant.

The business of recruiting is nearly complete, a few able seamen and boys only are wanted, except some few vacancies in the petty officers off the Quarter deck — from present appearances I fear no delay on this head — and the sails and rigging are so far complete that, the Ship can proceed on the instant. Considering on the aggregate I am of opinion it may require 14 or 16 days to have every article quite complete — it cannot more if weather permits, without delinquency somewhere should that be experienc'd, I shall exert
myself to investigate where it is chargeable, and not fail to give you full information

I have the honor to be &c. &c. &c. T. T. [THOMAS TINGEY]

[20 NOVEMBER 1798]

Letter of Captain Alexander Murray, U. S. Navy, of 23 November, 1798, to Secretary of the Navy, mention being made of the capture of the Retaliation, Lieutenant William Bainbridge, U. S. Navy

ON BOARD THE UNITED STATES SHIP OF WAR Montezuma,
off Antigua, November 23, 1798.

As this is the first opportunity I have had of conveying to you any direct intelligence, since our departure from America, I am truly sorry it does not contain more pleasing information.

On the 17th day after our departure, we weathered the Virgin islands. Off St. Thomas, fell in with a sloop of war, of 22 guns, — she not answering our private signals, we prepared for action, the Norfolk and Retaliation being at a considerable distance. On hailing her, she proved to be the British sloop of war Scourge. Her lieutenant, who came on board, informed that these seas were much infested by privateers, and that the Scourge was then in pursuit of four, that had left St. Thomas’s the evening before for Guadaloupe. Made sail with the Norfolk and Retaliation for this island; off Antigua, again fell in with the Scourge, and a king’s brig of 16 guns. — After cruising several days to windward of Antigua and Guadaloupe, and every day meeting British frigates, we concluded no other vessels were in these seas, and we were uniformly assured that the French had nothing larger than schooner privateers, except one ship of 18 guns.

We kept, however, constantly upon the look-out, and once run in full view of their forts, without meeting with any vessel, but British
frigates, till yesterday at 10 o'clock at night, when we descried a brig close to us, which we gave chase to, and soon came up with. She was the brig *Fair American*, of Philadelphia, then in possession of the enemy, taken five days previous from Surinam. We took the prisoners out, seven in number, and was informed by the captain and supercargo, who were left on board her, that there were two privateers and a prize brig standing after them. We kept a sharp look-out, at 2 P. M. by the light of the moon, saw two vessels, which we gave chase to, and left the prize brig with the *Retaliation* to follow us; but being too near the land, they kept so close in, and no dependance to be placed in moonlight, we were obliged to give up the chase, and stood off shore till day light, keeping the men at their quarters the whole night; as daylight, appeared, we found we were meeting two very large frigates — one three masted lugger, the *Retaliation*, and the prize, a little ahead of them, were standing for us.

We bore up for the *Retaliation* and hailed her, and was informed by captain Bainbridge, that they were the English frigates we had seen the day before. Fortunately, we saw, at that instant, the two sail we had chased a little before, to leeward, and we put about to pursue them; the frigates standing after us, and nearly within gun shot. We crowded a press of sail after the chase, and not knowing what to make of the frigates, we hoisted their private signals, which were not noticed; we then hoisted the American flag — still saw no colours — but crowding sail after us, and, we presumed, chasing the same vessels which we were. The *Retaliation* then drop'd, unsuspicous, with her prize, (or rather could not avoid them) close under their guns, when the headmost frigate fired into her, and we saw her haul down her penant, while the prize was suffered to keep up her ensign. — This led me to suspect, that the British expected the compliment of lowering the pendant to them, as I was still persuaded they were English ships.

We pursued the chase, which we at last came up to, and took the sternmost, which proved to be a captured large schooner from Kennebeck, bound to Antigua, taken the day before, and had got up nearly in reach of one of her forts, at the north end of Guadaloupe. The *Norfolk* being rather the headmost vessel, got her boat out, after firing several shot to bring her to, and with great expedition we manned her and brought her safe off, almost from under the guns of the frigates, and made sail for this island.

After we got off, the prisoners told us they were two large French frigates, from Cayenne, bound then into Guadalupe, and to cruise on that station, which at once marred our hopes of ever being joined by consort, and much valued officer Bainbridge, who, as well as our prize brig, fell into their hands, with Mr. Griswold, one of my midshipmen, and three of our seamen. The schooner we have got safe in, which is loaded with lumber and fish.

Now, Sir, you will no doubt condole with me on this unhappy catastrophe; but I flatter myself no blame can append to me; for it is next to wonder how we saved our other vessels.

Nothing but the good appearance which we put upon our situation, by inducing them to think they should decoy us, saved us; for they were seldom out of gun shot from the first of our falling in with them, and I believe had we attempted to run at first, we must have all been taken, as there were besides the ships and lugger, three schooner privateers in sight, but they did not seem rightly to understand each other;
else how they came to suffer us to take off the prize schooner, is incomprehensible, unless they were satisfied with their first booty.

This moment the prize brig has come to anchor along side of us, and from our midshipman we learn, that the ships which took them were from Cayenne, one the Volunteer, of 50 guns, and 600 men, the other the Insurgent, of 40 guns, and 500 men. They only put a midshipman and five seamen on board, without taking any of our people out, who, at 7 o'clock at night, losing sight of the ships, retook the prize, and brought her in here.

I have met with very polite civilities from all the British officers that I have met with, particularly from Captain Mattson, of the Cayenne sloop of war, of 26 guns, lying here; by whom I have written to Admiral Harvey, whose nephew he is, requesting an exchange of signals, a copy of which I herewith enclose you, which I hope will meet your approbation.

ALEXANDER MURRAY.

[LC, Phila. "Claypoole’s American Daily Advertiser", 8 January 1799.]

[Note. Diligent search has failed to reveal Bainbridge’s report on the loss of the Retaliation, which in subsequent correspondence he refers to as having been made to the Secretary of the Navy on 25 November, 1798. This report was doubtless accessible to Mr. Charles W. Goldsborough, a clerk to the Secretary of the Navy from 1798 to April 1, 1802 when he was appointed Chief Clerk of the Navy Department, holding this title until 1813, and author of "The United States Naval Chronicle", which Mr. Goldsborough states was confined to facts based on authentic documents in this period. The following quotation from the "Naval Chronicle" published in 1824 concerning the capture of the Retaliation receives further corroboration from "The Life of William Bainbridge, Esq. of the United States Navy" by Major General H. A. S. Dearborn, U. S. Army, the manuscript of which was completed in 1816, although not published until 1831. Dearborn was a close and intimate friend of Bainbridge and doubtless had full access to the personal files of the latter. The closely similar form and language of his account of the loss of the Retaliation with that of Goldsborough, quoted below, leads to the belief that both were taken from Bainbridge’s report, perhaps from the original and a file copy duplicate.]

Extracts from The United States Naval Chronicle, pp. 127-129: "While cruising off Guadaloupe, on the 20th November, 1798, at 6, A. M. lieutenant commandant Bainbridge, commanding the schooner Retaliation, discovered three sail in the E. S. E. distant two leagues, and at the same time the ship Montezuma, captain Murray, and brig Norfolk, captain Williams, were seen in the west, standing for the Retaliation. At half-past 6, captain Murray hailed the Retaliation, and asked if the ships to windward had been spoken. He was answered in the negative, with an intimation that they were probably British. Two other ships, appearing in the west, captain Murray tacked and gave chase. At 7, lieutenant Bainbridge threw out the signal for the ships to windward, but his signal was not answered. He then made the signal for American ships, and was answered by a flag at the mizen-peak, which could not be so clearly distinguished as to enable him to decide as to the character of the ships. From a variety of manoeuvres, however, he was induced to consider them British frigates. The British ship Scourge had, the day before, been seen to join two vessels of similar appearance; and when the Montezuma and Norfolk, stood for them, they tacked, which induced the belief that the Scourge had given them information of these two American vessels. When the American cruisers tacked to the westward, they tacked also, from which it was presumed, that they had discovered the two sail to which captain Murray had given chase.

At 8 o’clock, the Insurgent fired into the Retaliation, hoisted the French flag, and ordered her to strike. Immediately after, the flag ship, the Volunteer, hailed and directed lieutenant Bainbridge to come on board. Yielding to overwheming force, he was constrained to strike his flag, and repair on board the Volunteer. These two frigates, under the command of commodore St. Lawrence, were from France, via Cayenne. The Volunteer carried forty-four, the Insurgent forty guns. The Retaliation was carried into Guadaloupe, where the frigates were bound, with general Desferruaux on board, who had been sent out to supersede the notorious Victor Hughes, as governor of that island.
"The officers of the Retaliation were held as prisoners, on board the frigates, but the crew were confined, in a loathsome prison, in Basseterre, whither the officers were ordered in the first instance; but the kind intercession of commodore St. Lawrence, changed their destination."

"It was probably owing to the address of lieutenant Bainbridge, that the Montezuma, and Norfolk were not captured. The Insurgente having, as before stated, fired upon the Retaliation, and ordered her to strike, continued her chase in pursuit of the Montezuma and Norfolk, and was fast gaining upon them, when, in the language of captain Murray, 'she gave up the chase, in a very unaccountable manner.'

"Soon after lieutenant Bainbridge went on board the Voluntier, commodore St. Lawrence, with several lieutenants were spying the chase, expecting every moment that the Insurgente, whose superior sailing had brought her nearly up to the Montezuma and Norfolk, would open upon them. Lieutenant Bainbridge asked lieutenant Pleasants, to allow him to look through his spy-glass, which was politely accorded. He saw, with the most painful feelings, that the Insurgente was gaining on them so fast, as to leave scarcely a doubt of their being captured. At that moment, commodore St. Lawrence said to him, 'Pray, sir, what is the force of those vessels?' To which he, with perfect self-possession, and all the sang froid he could assume, replied, 'The ship carries twenty-eight twelve pounders, and the brig, twenty nine pounders.' The commodore instantly directed his signal officer, lieutenant Pleasants, to make a signal of recall to the Insurgente. The order was instantly obeyed. The Insurgente gave up the chase, and the Montezuma and Norfolk escaped."

Sir: It will require to complete the building & Equipment of the Ships now building by the public, Exclusive of arms & military Stores the sum of 630,000 Dollars — And to provide Arms & military Stores for those vessels, as well as for those building by the Citizens for the public—the sum of 233,000

In the whole 863,000

There are building by the Citizens for government, and which will complete the Navy to the Establishment by Law

Two Frigates of 44 Guns
one ditto of 32
Three ships of 24
Two do of 18

and they have already furnished one of 18 —
The cost of these 9 Ships, which may be about 900,000, will be a loan to Government at 6 per cent interest. The Interest need only be provided for. The sum necessary for the maintenance of the Navy, as now established for one year, will be 2219, 516 54/100 D.

But as some of the ships will not be in service more than six months of the year 1799, 423,290 74/100 may be deducted from the expense of that year only. —

I do not think any advantage will result to the United States from increasing the number of small vessels — Indeed I rather think those we have, consume our means, without encreasing our strength. But it appears to me highly proper that the number of our Frigates should be encreased; and that we should have twelve ships of 74 Guns, as early as practicable — If then our Navy should be augmented as follows;

Two — 24 Gun Ships, but really mounting 32 —
Three Frigates
Twelve Ships of 74 Guns —

The Cost of this augmentation exclusive of Military Stores would be. 4, 210, 000 D.
Of Military Stores & arms........................................... 700, 000 D

4, 910, 000 D.

The annual expense of maintaining this Navy would be 2,850,000 Dollars —

I have the honor &c*

To Captain John Robinson of Ship Hero, from Secretary of State

[Nov. 24, 1798]

To Captain JOHN ROBINSON,
Master of the Ship Hero of New York.

Your Ship being laden with Stores on account of the United States of America, You are to proceed directly to Algiers, and there deliver
your cargo to Richard O'Brien Esqr Consul General of the United States at that place; or in his absence, and in the absence of any other agent of the United States, deliver the cargo to the proper Officer or officers of the Dey and Regency of Algiers for whom the same is intended, in fulfilment, so far, of the Stipulations of the United States with the Dey and Regency at the time when peace was concluded between them and the United States.

For the greater safety of the said cargo, you will be accompanied by the armed Schooner called the Lebah Eisha, William Maley commander. You will therefore agree on the proper signals by which you may know each other.

Captain Maley has permission to touch at Tangier or Gibraltar, if not inconvenient, to enquire whether any events at Algiers render it improper to proceed thither. The American Consul James Simpson Esqr at Tangier, and John Gavino Esqr at Gibraltar, will inform and advise him. In case of separation on your voyage you may take the same precaution. But a rupture on the part of Algiers with the U. States I consider as so remote a contingency, that if you have a fair wind and see nothing to dissuade you from passing the gut of Gibraltar without enquiry as above, you may do it.

Given under my hand and official seal at Philadelphia the 24th day of November 1798.

To James Jackson, Governor of Georgia, from Secretary of the Navy

[PHILADELPHIA]

JAMES JACKSON Esqt
Govt of Georgia.

Sir The Letter with which you honored me, of the 14th Ultimo, was received by the Secretary of State, in my absence, and acknowledged by him the 3rd Instant.

The Laws of Congress authorize the building of Ten Gallies or other Small Vessels for the defence, it was understood, of the harbours of the United States. Two Gallies were directed to be built in Georgia, and in September orders were given to have two Gallies added to the Number. And Cap't Campbell in the Revenue Cutter Eagle of 14 Guns, a well armed Vessel, has been ordered to make the Coasts of Georgia, the particular object of his protection. — This is the whole amount of Naval protection which the present Laws authorize the President to assign exclusively to the Coasts of Georgia. Indeed Georgia and the Carolinas are the only States, for which any kind of exclusive protection in the Naval Line, has been provided. — And these States, but more particularly Georgia, from its exposed situation, merit, and will assuredly meet with at least an equal share of the attention of our Stronger Vessels, every day increasing in number. and I calculate with some degree of confidence, that until our unprincipled enemy become much more powerful in the West Indies, than they are at present (and this from the present posture of their affairs, is not likely soon to be the Case) Georgia will have but little to apprehend from Piratical incursions. —

I lament that your Letter did not reach me in time, to enable me to pay proper respect to the Gentleman recommended by you, to the Command of one of the Gallies. Prior to the receipt of it, steps had been taken, which put his appointment out of my power.

I have the honor &c.

Department of State, Nov 26. 1798.

JOSHUA SANDS Esq

Sir, I have before me a letter of the 23d inst from Mr John Morrison, owner of the Ship Eliza of Charleston, which mentions that you have doubts of the propriety of granting a commission under the "act further to protect the commerce of the United States," for the said Ship.

Though the Eliza appears not to be entitled to a Register or Mediterranean passport, yet as she is American property and entitled to protection as such, and as the policy of the Act above cited is entirely different from those by which the privileges of American built vessels are defined and secured under the laws of Revenue, I am of opinion that a commission may be properly granted. The Secretary of the Treasury entirely concurs with me in this opinion.

I am, Sir, respectfully &c.

Sir, I have this day written to the Collector of New York to issue a Commission to the Ship Eliza, armed and manned as related in your letter of the 23d instant: His doubts arose on words in the law which in some other cases are too strictly construed; but liberally when the question concerns the protection of real American property from French Depredations.

Sec'y at War,

Sir It is intended to remove 148 French prisoners from New Castle to Lancaster. The guard of 18 Marines, over them at present, is thought insufficient to conduct them to Lancaster; & no more Marines can be spared from the Vessels in Port, getting ready for Sea. Can you add such a guard to the 18 Marines, as will be sufficient. — An officer & — 20 men in addition, it is presumed, will answer the purpose. —

Lieut. Charles C. Russell &
other Officers on board the Frigate Constitution Boston.

Gentlemen, I am honoured with your Letter of the 18th Instant — requesting a Sky light to be made in the Frigate Constitution, to communicate light & air to the Ward Room.

I am extremely desirous of complying with every reasonable wish of the Officers of every Ship in the Navy — But in the present instance I am unqualified to judge, whether the Indulgence required, would not injure the Ship, or be attended with other disadvantages. — Gentlemen of the Navy, with whom I have consulted here, represent a Sky light to the Ward room, as a very unusual thing, except in small ships; and think that scuttles in each deck, would not injure the ship, and would introduce fresh air. I have however written Capt. Nicholson on the subject; to have done, whatever is proper & right; so that the ship shall not be injured, or delayed, in getting ready for another, and an immediate Cruise. —

I have the honor to be &c.

Sir, I hope your ship will be fully prepared to proceed on important service, by the time orders will reach you, which will be in two or three days after the receipt of this Letter. You should examine that your powder is good, and if defective, make instant application to Mr. Higginson, to remedy the defect. — Tho' I hope your powder is in order; and that you have a sufficient quantity of Ball; and are well provided in all other respects, for warm service. —

That there may be no cause of complaint from the families of those men who leave families behind, and desire that they may receive half their monthly pay, I now enclose the regulations made on that subject — which you will please to attend to — and send me a List of the men who leave powers of attorney, with an account of their monthly Pay, and of the time to which they have been paid.

Unless this is done by you, no payments will be made in the absence of the men.

I have the honor to be &c.

To Stephen Higginson, Navy Agent, Boston, Mass., from Secretary of the Navy

[PHILADELPHIA]

November 23rd 1798

STEPHEN HIGGINSON Esq.

Sir, I am honored with your Letter of the 19th. Having already sent you a larger remittance than your Letters heretofore desired, of which you could not have had notice. — I shall not send more 'till I hear from you, that it is Wanted. The Congress appropriated a sum of money to purchase Slops; not as a gift to the seamen; but that they might be laid in on good Terms; and to prevent imposition on the seamen, on the 9th of October, I transmitted to you a regulation on this subject, with respect to the Ship Portsmouth; but it is meant to be general. — As to the slopes heretofore purchased by Mr. Debloise, it is of little consequence, whether they are brought into the public Accounts; or settled by himself; And upon the Whole, I believe the latter will be the preferable mode in this instance. But he also received slopes from Mr. Jackson the Agent, whose accounts never having been settled, it is out of my power to tell the amount. — Mr. Debloise I hope will Ascertain it with Mr. Jackson. —

On the subject of Officers for Capt. McNeill, I wished at first they should be taken from Portsmouth: But understanding that fit Characters could not be had there, I wrote McNeill, that any Officers approved of by you & him, should be named to the President: And in this I meant they should be selected where you pleased. I pray that this business may be immediately attended to; and that such Officers as are ready on the Spot, for immediate service may be appointed. It will never do to keep the ship waiting for men, who are absent at sea. I have written McNeill to this effect; and to call such Officers as both you and he approve, into service immediately. He writes me that he hopes his Ship will be ready by Christmas — I hope she will be ready before — But unless the names of the Officers are immediately sent to me — They will not get Commissions before Christmas. Pray let it be understood that the officers are to be called in to service, and act as if regularly appointed; that there may be no delay on this acct. —

I hope the Weather will be such as will not prevent the launching & fitting the Constitution; so that she may be ready by the 10th of December, by which time I expect to forward on orders for her Cruise. —

As to musket powder, it is not likely it can be sent from Springfield for the Constitution, without risqueing delay — It will be better to buy the quantity wanted, at the Boston Prices, which are however 25 Per Cent higher than at this place.

[NDA. GLB, Vol. 1.]

To Captain Daniel McNeill, U. S. Navy, commanding the Portsmouth, from Secretary of the Navy

[PHILADELPHIA]

Navy Department November 28th 1798

Capt. Danl McNeill.

Sir, I am honoured with yours of the 9th Instant. I am sorry you will not be at sea before Christmas. I hoped you would have been ready by the 15th December at latest. As to Officers, you and Mr
Higginson have construed too rigidly, what I said on the subject. I wished the officers to be got from New Hampshire. But understanding from you that fit men cannot be had. I wrote to you, & to Mr Higginson, that any officers approved of by you both, should be named to the President — meaning that you should get them where you pleased. Pray attend instantly to this important business — fix with Higginson a proper set of officers, ready now to enter into service — and call them into service — They shall be named to the President —.

Unless you are quick in sending me these names; and in getting the Officers, they will not get their Commissions by Christmas — Nor will you get the ship out this Winter; which will be a great public disappointment — And no doubt a mortifying one to a Man of your enterprise & Zeal —

I have the honor &c

To Purser James S. Deblois, U. S. Navy, from Secretary of the Navy

[PHILADELPHIA]

Navy Departm't Nov' 28th 1798

Mr James S. Deblois

Purser of the Con-
stitution Boston

Sir I have received your Letter of the 9th Instant, with several others of prior dates. In mine of the 26th September addressed to you at Norfolk, I enclosed you the rules & regulations of the Navy &c, and informed you that 28 Cents was the price at which you must settle with the officers for the rations allowed them by Law. What you recommend as the size of the pieces of Beef & Pork to be put up for the Navy, has been some time adopted, and in future will, I expect, become the Universal practice. —

I have not yet seen Mr Jackson's Accounts which have been lately transmitted by him to the Treasury for settlement; but you can now obtain from himself the Invoice of the Slops you have so repeatedly written for. Mr Higginson will furnish you with future Supplies; and you will attend particularly to the enclosed Copy of Circular Instructions, intended for the general regulation in our Navy with regard to the Article of Slops. —

It sometimes happens that the Officers draw from the Purser, particular parts of a ration; and heretofore the latter have been at a Loss at what rate to charge the same. The enclosed table will enable you to settle this without any trouble.

Mr Higginson will supply you with money to settle with the Officers & Crew;

As to the pay due to Doct' Reed, & Mr Nicholson, the receipts of their legal representatives will be sufficient Vouchers —

Cap'n Nicholson will determine as to the time at which the Crew must be settled with. — The pay of the Officers should commence from the date of their appointments.

I certainly cannot interfere as to the time of your going on shore, or remaining on board; And I ought not to be referred to on the subject: The Captain is surely the best judge in this respect; and I presume
will not expect an unreasonable or improper attendance on your part. —

I am &c.

SIR I am honored with the receipt of your Letters of the 13th & 23rd Instant.

I have reason to believe that Mr. Hughes cannot be relied on to supply the Guns in time. His metal is good, but he is deficient in the Machinery for boring; and which, I am informed he cannot prepare under six months, which will be too great a delay. I shall therefore provide the Guns here, where engagements are made for a considerable number of different Calibers.

The approved Diameters for the shot are,

- For a four pounder.................. 3 Inches 053 thousand parts
- For a Six pounder.................. 3 In* 498 — ditto
- For a Nine pounder.................. 4 In* 000 — ditto

P. S. I will endeavour to Employ Mr. Hughes to cast the Cannon for the Frigate at Norfolk, which will not require her Guns so soon as the vessels under your direction. Be pleased to say when the Guns for these Vessels will be wanted. —

To Secretary of the Navy from Captain Alexander Murray, U. S. Navy

ON BOARD THE MONTEZUMA,
St. Thomas's, November 29, 1798.

I again address you from this place where we arrived this day.
I convoyed eight vessels from Antigua bound to America, and shall pick up several more here to join us, so as to be off to-morrow.
I mean to conduct these vessels clear of all cruisers about the islands, and then to run to windward, which I find is the best station for us.
I landed eighteen prisoners here, and got a receipt for them of the French Consul, who treated us very politely; and by a flag of truce bound up to Guadaloupe, have made another effort in favour of our unfortunate prisoners there.

There are, at this time, not less than 150 privateers out of Guadaloupe, mostly small schooners and sloops, but hard to be caught, as they run in the wind's eye, in moderate weather, and skulk among rocks and shoals, where we cannot get at them; but, keeping them in their ports is a great object, as we find they already fear to go too far off the land.

To William Johnson (junior), of South Carolina, from Secretary of State

DEPARTMENT OF STATE
Philadelphia, Novr 30th 1798

WILLIAM JOHNSON JUN' Esqr

SIR As a citizen of South Carolina and a gentleman engaged in public business, you will have heard of the claim of the Prince of Luxembourg, and after his death of the claim of his heir (the Duke his brother) against your State on account of the armed ship South Carolina loaned by the Prince during the American war. — This claim appears to have been finally adjusted by the agency of Doctor John Brown Cutting, to whom, on his giving security, the Legislature ordered the payment of one thousand pounds sterling. This sum any reasonable man, I should think would have deemed an abundant compensation: but he demands, if I mistake not above four thousand pounds, when the whole amount of the adjusted claim was short of six thousand. — The Chevalier de Freire, Minister here from Portugal, and who is instructed by his Court to pursue the claim of the Duke (who is allied to the Royal family) has expressed his willingness to abandon the £1000 already paid Mr Cutting, if he will give up any further claim: but this he refuses to do. The Doctor has lately sailed to Charleston, and one object may be to get a further payment from your state. — To prevent this is the immediate object of this hasty letter. — You are a member of the Legislature and a lawyer, in the latter capacity the Chevalier de Freire will desire to employ you while your official station in the Legislature will give you an opportunity of knowing the measures Mr Cutting may pursue to obtain a further payment. — He remains the Administrator to the Prince of Luxem-
burg; but it will be desireable to divest him of that character. — On this and the whole of the case I will write you in a few days. — I have taken the liberty thus to address you on the advice of General Pinckney, as a gentleman of the law whom he would recommend to take care of the claim of the Duke of Luxemburg, on behalf of the Portugeuse Minister. —

To Captain Patrick Fletcher, U. S. Navy, from Secretary of the Navy

[PHILADELPHIA] Navy Department December 3d 1798

Capt' PATRICK FLETCHER

Sir The George Washington under your command being well commanded, and I hope well officered, manned and fitted is too important a Ship to remain Idle in port — The Letters I have received teach me to expect that she will be ready for Sea, by the time you receive this. I have therefore enclosed your authority to Capture or destroy the French armed Vessels, wherever to be found on the high seas. It is the Presidents Orders that you proceed without delay by such course as you shall Judge most likely to fall in with French Cruisers. to Prince Ruperts Bay, in the Island of Dominica, where it is probable you will find some superior officer, under whose Command, you will then place yourself. But if you should find no superior officer on that station, when you arrive, you will then employ your Ship in short cruises, about Guadaloupe and as you shall Judge to be most likely to intercept the Armed Vessels of the Enemy, & to give most protection to our own Commercial Vessels trading in that Quarter, — looking in every two or three days at Prince Ruperts Bay, until you meet with other Armed Vessels belonging to the United States, and the Officer appointed to Command on that station, who will afterwards direct your operations. — I have it in Command from the President to express his high confidence in your skill, Bravery, & Zeal for the defence and honor of your Country; which he is well assured will never suffer in your hands — And also his particular & pointed orders that you promote strict discipline & order in your Ship — And inculcate among your Officers & men, a high sense of the honor of the American Flag, which is to be maintained at every hazard. — Still you must remember, that we are at War only with French Armed Vessels, and the persons found on board of them. The Vessels & people of all other Nations are entitled to, and must receive from you, civility & Friendship — Should you even meet with any American Vessels which have been captured by the Armed Vessels of any other Nation at War, except the French, you must not attempt a recapture — nor can you, should you see any such Vessel in the act of Capturing an American Vessel, lawfully interfere — In such cases
it must be presumed that the Courts of such Nations will render Justice — Wishing you great success &c.
I am Sir &c.

P. S. You will receive enclosed your authority to Capture French armed Vessels wherever found — And your Comm: & private signals. —

To Elias Hasket Derby, of the merchant ship Benjamin, from Lane & Fraser

LONDON 3d Decem 1798

Elias Stasket [Hasket] Derby Esq' —
Sir, This is to acquaint you that we have delivered Captain Isaac Bullock the Letter we received from our East India Company and addressed to the proper officers at Calcutta directing them to permit one hundred & thirty Tons of Salt Petre to be put on board your Ship
Benjamin, and he proceeded as far as Gravesend with the hopes of joining the Ships in the Downes intending to take the benifit of the Convoy from Portsmouth, when unfortunately the Wind coming round to the Eastward they sailed before he could reach them. The Ship is now in the Downes, and we expect will Sail with the Convoy that is to see the Trade to the Coast of Africa they are under Sailing orders & will go the first fair Wind unless she is previously joined by the American Ships Industry, Capt. Vickery bound to Virginia and the Majesty, Capt. Cox bound to Philadelphia who are both well armed & mann'd & will keep company together & give the Benjamin their Signals. We have made no Insurance on either Vessel or Cargo the latter of which will Amount to about £3000 reckoning the Guns and Powder & Ball put on board her for her defence as well as those Shipd as Cargo, this will come by Packet via New York and may perhaps give you notice of it in time to make Insurance in America. —

[PHILADELPHIA]
Navy Department, Dec 3° 1798

STEPHEN HIGGINSON Esq° Boston

Sir With respect to Watch Coats, it is right they should be allowed for the Marines. I suppose one coat for every two Marines, not too many

The whole number however should be delivered to the purser, who should take care of them, and deliver them out to the men, by order of the Commanding Officer of the Ship, when he Judges it necessary. Unless this be attended to, Watch Coats will be wanted every cruise. —

As to Masts, I have for some time felt uneasy that some for the Frigates were not provided and have been taking pains to inform
myself where it could be done, with best Economy — and where the best Masts are to be procured. Capt. Barry & Capt. Truxtun both tell me the White pine of the Eastern States is much inferior to the Pitch Pine of Virginia — That indeed the former will not answer for the large Masts: Hence I am making arrangements at Norfolk for some of the most material Sticks — Still if you think the Eastern pine will do, I shou’d be glad you would have provided this Winter, so as to be ready by Spring, those material Sticks for Nicholson’s ship only, which cannot be furnished from the stock generally on hand, at Boston. I shall notwithstanding make provision for his Ship at Norfolk also. — But it is better to have masts of this kind, in more places than one — What will do for Nicholson, will also do for Barry. — I have this day sent orders to Fletcher, & to Brown of the Merrimack, at Boston I presume by this time, to proceed seperately to Prince Rupert’s Bay in Dominica, where our principal Force will rendezvous and from whence it will be divided, so as to afford most Security to our Commerce, and the best chance of capturing the Vessels of the French. The Havannah will also be attended to, in the way you point out — Decatur will sail for that place in a Week, and other Smaller Vessels I hope to the amount of four or five will join him.

I shall, if not tomorrow, next day, send Nicholson’s orders. — In Confidence I have had hopes, he might have been kept in the Country this Winter, and the ship for the Winter been given to another commander. —

P. S. I have directed Brown’s Letter to Boston. Should he not be there, please have it sent to Newburyport. —

Navy Department Dec 4, 1798.

M’ Charles Wadsworth
Purser of the Frigate
United States:

Sir In answer to your Enquires contained in your Letters of the 16th October and 17th Ult, you will in future pay any of the discharged Men up to the time they leave the Ship provided they are in service after the expiration of the times they engaged for.

The Account you enclose of the Ward Room mess for the subsistence of three French Prisoners &c has been lodged with the Accountant of this Department who will determine respecting the same on your application. — I deliver you herewith a list containing the prices of the Component parts of a Ration, which will enable you to settle with such of the Officers as have drawn parts of Rations. — It is but reasonable where the Men do not draw their full number of Rations that they should be allowed for the same at 28 Cents, or if when the Ship arrives in port they chuse to draw the Rations in preference, they may be gratified. —

You will find enclosed Copy of a Circular which relates to Slops and will govern you in future. —

M’ Francis will furnish you with a List and prices of the Slops you apply for and which were heretofore delivered you which will enable you to settle your Accounts as to that Article, and I hope there will be no deficiencies, — you ought to have known how to get this without application to me — With regard to accountability, the Purser must certainly be held to account for every Article he receives, and make good any deficiencies, and should there be any overplus, he ought on the same principle to be entitled to it. —

The Watch Coats you will receive, are only to be delivered as the Captain shall order — they are not to be paid for by the Crew unless they should be lost, but are to be considered as for the general use of the Ship, and are to be redelivered to you when no longer wanted. —

But as to bread, Norfolk must be the principal dependence — Instead of 20,000 lbs, I have to urge that you will take instant steps to have 300,000 lbs bread provided. — I have directed the same quantity to be sent you from Alex* and the whole will be wanted before it can be ready, if there should be the least delay in procuring it —

At present, I think of the Lieutenant appointed to Nicholson’s ship, M’ Preeble, to command one of them — perhaps as Lieutenant Commandant — I know not how else he is to be employed this Winter, and he is said to be a valuable man. —

It will be desirable to get these Vessels to sea again, as early as practicable — and I beg you will, as far as you can do it, anticipate their Wants —

It may be proper that the Merchants should know, that we shall have a force Superior to any thing we have reason to expect, the Enemy will be able to oppose us with, in the West Indies, during the Winter — And also at the Havanna — Where the Commanding Officer will be instructed to afford all possible Security to the Merchants Vessels. —

I forward Nicholson his Instructions — I hope they will find him ready to proceed. He need not wait for the Merrimack — Nor the Merrimack for him.

[LC, EPP. Vol. 1, 1680-1799.]
To George Latimer, Collector of Customs, Philadelphia, from Secretary of State

[PHILADELPHIA]
Department of State, Decr 7, 1788.

GEORGE LATIMER Esq

Sir, I have before me your letter of to day, requesting to be instructed, whether you are to issue commissions to vessels owned by citizens of the United States, tho' not entitled to Registers, as private armed vessels, under the "Act of Congress further to protect the commerce of the United States." As vessels of this description are entitled to protection as American property, and as the policy of the Act above cited is entirely different from those by which the privileges of American built vessels are defined and secured under the laws of Revenue, I am of opinion that commissions may be properly granted to them.

The Secretary of the Treasury entirely concurs with me in this opinion. I send enclosed ten more blank commissions and instructions. There are no blank bonds now on hand, but to day or to morrow I shall send you a supply of them also.

I am, Sir, &c.

TIMOTHY PICKERING.

[SDA. Dom. L., Vol. 11.]

To Captain John Barry, U. S. Navy, from Secretary of the Navy

[PHILADELPHIA]
Navy Department Dec. 7th 1788

Cap't John Barry

Sir, It is conceived that by employing the principal part of our Naval force, in the West Indies, this Winter a State little short of perfect Security, may be given to our Commerce in those Seas; and that the Inhabitants of the hostile Islands, may be taught to respect, and to fear the power of the United States. —

Cap't Truxtun with two, or three Vessels, of 14 and 18 Guns, will have assigned him for his Cruising Grounds, from St' Christophers Leeward, as far as Porto Rico; — Cap't Decatur with one Brig of 16 Guns will be Stationed in the Vicinity, of the Havanna, to protect that trade; and Cap't Tingey in the Ganges, with a Brig of 14 or 16 Guns, about the windward passage between, Cuba and Hispaniola, to give security to the trade of Jamaica. —

All our other force, consisting at present of the Frigates United States, and Constitution, the George Washington Fletcher, of 32 Guns: the Merrimack, Brown of 24 Guns: and soon to be encreased, with four or five more Vessels, of nearly the same force with the latter; will by order of the President, be under your immediate Command; and to be employed as your knowledge of those Seas, and your Judgment shall suggest, in active operations, for the protection of our Commerce, and for the Capture, or destruction of French armed Vessels, from St' Christophers as far as Barbadoes and Tobago; and it is presumed your force will permit you to pay considerable attention to Cayenne, and Curricoa, and even to the passage from the United States to Laguayra on the Spanish Main; to which place our Citizens carry on a considerable trade, but above all, your Efforts
must be directed to relieve our Commerce, from the piccaroons, and pirates, continually issuing from the Island of Guadalupe. —

You will determine in what manner to divide & employ your force; so as best to gratify the hopes of the President and our Country. —

A Spirit of Enterprise and Adventure, cannot be too much encouraged, in the Officers, under your Command nor can too many opportunities, be afforded the enterprising to distinguish themselves. —

We have nothing to dread but Inactivity. —

The French can have no force in the West Indies this Winter equal to our own, which is thought to be Sufficient to rid those seas, as well of French commissioned armed Vessels, as of the pirates which infest them; and it is with you, to lay your Country under Obligations, by rendering this important service; and by exciting among the Officers and Men, a high degree of Zeal for the Honor of the American Navy. —

It is the Presidents orders, that you proceed as early as possible, to Prince Rupert's Bay, in the Island of Dominica, at which place the other Vessels under your Command are ordered to rendezvous; and from whence you will Commence your operations, which it is presumed, may be continued, until the Month of April, and perhaps May. I shall take care to have your Squadron supplied with provisions by the time it will become necessary. —

I have Stated to you so particularly, where the Vessels not under your immediate Command will be employed; that you may apprise any of the divisions of danger beyond their Strength to resist, reinforce them — or if occasion should require it, order them to join you, or to proceed to the United States; but it is hoped and expected no such occasion may occur; Should you be encumbered with prisoners; your first Effort must be to exchange them for our own Citizens in the hands of the French; you cannot take too much pains to effect this very desireable Object. It will be better to give more than man for man, than suffer our meritorious Seamen to remain in their hands, — and no bargain will be thought a bad one, which shall relieve them from Captivity. —

If however you cannot accomplish this, you must send the prisoners to any of our ports preferring those from Boston to Cape Henry, on account of the greater expence of maintaining them to the Southward; — provided you can do it, without losing the Service of our armed Vessels, when their service may be important, rather than which it will be better, to let loose the men of Color, and the greatest Vagabonds, keeping only the Seamen and those capable of doing us most injury; and by so reducing the Numbers, you will be able to send those worth keeping, in the Vessels in which they be captured. —

The President desires that it may be recollected by every Officer under your Command, that America is only at War with French armed Vessels, and the people found on board of them; that we are at peace and wish to remain at peace, with all other Nations; the Vessels & people of all other Nations, must be treated, with Civility and friendship; that it will be the highest honor to the American Seamen, to be as much distinguished by Courtly and good offices to their friends, as by industry and activity in Seeking, and Bravery in Subduing an Enemy; You are not allowed by our Laws, to recapture
an American Vessel, taken by the Vessels of any of the powers at war, except those of the French. You must be governed by the laws; And it must be presumed, that the Courts of such Nations, where such Captures are illegal, will render Justice.

You will omit no opportunity of writing to me and keeping me well informed of your proceedings, giving the proper caution to those by whom you write, to destroy your letters, when there is danger of their falling into the hands of the French.

I have it in Command from the President, to express to you & the Officers and Seamen under your Command, his high confidence that you will merit, & his best wishes that you may meet with distinguished Success & honor — in which I most Cordially join.

I have the Honor to be with respect & Esteem & c & c

Messrs NEIVISON & GRANBURY, Norfolk.

GENTLEMEN. I write by this conveyance to Captain Samuel Barron directing him to put himself under the Orders of Captain Truxton of the Frigate Constellation, and I hope he will be ready with his Brig* (which if you please I would have called the Richmond) by the time Cap'l Truxton returns to Norfolk for which place he will leave here in a few days — He writes me that he had not yet got his Marines and I have taken measures to have them sent from hence, but as his sailing with the Constellation is of some importance, I wish him not to wait for them, but either to make an arrangement to get them at Norfolk or to go without them.

I have the honor to be &c.

Brig* Richmond

Sir Captain Truxton of the Frigate Constellation will shortly repair from hence to Norfolk, & will lose no time in sailing on a Cruise for which he has received his Instructions — I hope by the time he arrives, your Brig* which must be called the Richmond will be compleatly ready for Sea, and you will put yourself under Captain Truxton's Command.

Measures are taking to send Marines from hence, but should they not arrive timely you must arrange as well as you can, for they must not be waited for.

You will receive herewith the private Signals, &c.

To Captain Thomas Truxtun, U. S. Navy, from Secretary of the Navy

Navy Department Dec 8th 1798

Cap'. Tho' Truxtun

Sir: It is the desire of the President, that our navy Should be employed in the West Indies, this Winter, in protecting our commerce and punishing the depredations on it, from the French Islands —

Your Frigate being ready for Sea you will proceed with all dispatch; and by such course as you shall judge most likely to fall in with French Cruisers; to the Island of S't Christophers, taking under your Command, the Brigantine Richmond Cap'. Barron, and the Virginia Cutter Cap'. Bright and if the Ship Baltimore Cap'. Phillips, should have returned to Norfolk, take her also, and if otherwise leave orders for Phillips to proceed after you, to join you in the West Indies, as soon as he can take in the necessary provisions at Norfolk. When the Schooner Retaliation of 14 Guns & the Brig Norfolk of 18 Guns, return from their present service, either one or both of these Vessels, will be added to your force. — You will direct your operations from S't Christophers, as far Leeward as Porto Rico, paying attention to S't Martins and that Group of Islands, called the Virgin Gorda; and wherever else between S't Christophers & Porto Rico, your judgment shall direct you. —

Cap'. Barry, with two Frigates under his command, and several Ships of considerable force, will rendezvous at Prince Ruperts bay, in the Island of Dominica, and will attend to every thing to the windward of S't Christophers; but it is not meant to confine you Strictly to the Cruising Grounds, thus pointed out for you; but that you should depart therefrom occasionally, as Circumstances in your Judgment shall require. —

The following is an extract from Cap'. Barry's Instructions, which it may be necessary you should understand; and consider what relates to prisoners, as yours also.

I have stated to you so particularly where the Vessels, not under your immediate Command, will be employed; that you may apprise any of the divisions of danger, beyond their Strength to resist — reinforce them, or if occasion should require it, order them to join you,
or to proceed to the United States, but it is hoped and expected no such occasion may occur.—

Should you be incumbered with French Prisoners, your first Effort must be to exchange them for our own Citizens, in the Hands of the French. You cannot take too much pains to effect this desirable object. It will be better to give more than Man for Man, than suffer our meritorious Seamen to remain in their hands, and no Bargain will be thought a bad one which shall relieve them from Captivity.—

If however, you cannot accomplish this, you must send the prisoners, to any of our ports, preferring those from Boston to Cape Henry, on account of the greater expence of maintaining them to the Southward, provided you can do it, without losing the services of our armed Vessels, when their services may be important; rather than which it will be better, to let loose the Men of color and the greatest Vagabonds, keeping only the Seamen & those capable of doing us most injury; and by so reducing the Number, you will be able to send those most worth keeping, in the Vessels in which they may be captured.—

You will by all opportunities keep me advised of your proceeding, giving the proper caution to the persons who bring your letters, to destroy them when in danger of falling into the hands of the French.—

From Norfolk you will inform me of the exact State of the provisions, in the Vessels under your command, that I may know what step to take, to supply you in the West Indies, either at St Christopher's or at Dominica.—

You have heretofore received your Authority founded upon the existing Laws, to capture French armed Vessels wherever found on the high Sea, and to recapture our own Vessels taken by them.—

You will however, have it understood by those under your Command, that being at peace with all the rest of the World, and wishing to remain so, the Vessels and people of all other Nations, must experience from us civility, and Friendship; Our Laws will not even permit the Recapture of our Vessels, taken by the Vessels, of any of the Nations at War, except the French, and it must be presumed, that the Courts of such Nations will render Justice, where such captures are illegal.—

The President commands me to express to you, his high Confidence in your Ability, Bravery, Enterprise, and Zeal, for your Country's Interest & honor; and his full Assurance, that the honor of the American Flag, will never be tarnished in your hands. — And he desires me to add as a particular request, that you will excite as much as possible, in the Officers under your Command, such a Spirit as ought to animate, such Men engaged in such a Cause; and a high respect for the Honor of our Flag. —

Wishing you great success and great honor,—

To Captain Stephen Decatur Sr., U. S. Navy, from Secretary of the Navy

[PHILADELPHIA]
Navy Department 10th Dec. 1798 —

Cap' Stephen Decatur

Sir As soon as your Ship is ready for Sea, it is the Presidents orders that you proceed, taking such Merchant Vessels as are ready, under your convoy to the Havanna. I need not be particular in directing your conduct towards the Merchant Vessels under your protection, or others that you may meet with — you know the importance of protecting our trade.

You will remain in the Vicinity of the Havanna, for the protection of our trade to that place, during the Winter, unless you should have reason to apprehend an Enemy's force superior to your own — in which case, you must act as circumstances shall Direct, according to your own Judgment.

Cap' Tingey with one other Vessel of Smaller force, will be stationed to guard the Windward passage — between the Island of Cuba & Hispaniola. — Cap' Barry with two Frigates & several Vessels of force will rendezvous at Prince Rupert's Bay in the Island of Dominica — and Cap' Truxtun with a few small Vessels, at the Island of St' Kitts. — As soon as possible, & I hope it will be very soon, you shall be joined with one, two, or three Vessels of 10 & 14 Guns, to be employed under your orders. They will be directed to fall in with you, between the Morea Castle & the Matanges.

With this force, you will render all the aid in your power to the trade to the Havanna — and afford all the protection you can to the American Vessels, bound to or from that place. — It is unnecessary for me to urge you to enterprize & activity in ridding those Seas of the French armed Vessels, and the pirates which infest them. — Measures will be taken to lodge provisions in the Havanna, for the supply of your own & the Vessels under your Command. — And I understand by going in, under colour of distress, armed Vessels will be suffered to take in provision. This is however an affair which you must manage with delicacy. I shall correspond with the American Consul, to whom you will make application — and if the provisions should not be under his care, he can at least inform you, to whom they are Sent.

I am commanded by the President, to express to you his high opinion of your Bravery, activity & Zeal, and his best wishes for your great success and honor.

And also his particular request that you will cause the Character of the American Navy to be as much respected for civility and good Offices, to our Friends, as Bravery in subduing our Enemies.

Our Laws do not permit you to recapture, even our own Vessels taken by any of the Nations at war, except the French, and you must obey the Laws.

On the Subject of prisoners, should you find yourself encumbered with them, you must, as the laws direct, send them to some port in the United States, provided you cannot exchange them for our own Sailors in captivity — which is by all means to be preferred. — But in sending them to the United States, it is not to be understood that you are to loose the service of any Vessels under your Command, when such service may be important, — It will be better to send
them in small numbers by any Merchant Vessels on their return, agreeing on the best terms in your power for their passage. —

You will write me by all opportunities your proceeding — and I shall take every means of corresponding with you. —

Wishing you success equal to your merit,
I have the Honor &c

Protest of John Grieste, Master of the Schooner Hannah

PROTEST

On this Eleventh day of December in the Year of our Lord one thousand Seven hundred & ninety eight John Grieste Master of the American Schooner called the Hannah mounting Six carriage guns & manned with thirteen hands in all including two Boys & bound to Alicante with a Cargo of Dry Cod fish, John Proctor Mate & Richard Thompson Second Mate personally appearing before me Michael Morphy Consul of the United States of America at this Port & made oath on the Holy Evangelists of Almighty God each speaking for himself do jointly & Severally Declare in manner and to the Effect following, that is to Say, that they the appearers sailed in & with the said Schooner from the Harbour of Marblehead on the 10th of November of this Year at 10th A.M. & made the Islands of Azores in my passage without any material novelty — That on the 9th December made Cape Spartel bearing S° E 10 Leagues distance the wind being
favourable at 10 oClock at Night was abreast of Spartel & passed through the Strights of Gibraltar that by day light I was 3 Leages to the Eastward of Gib with a fresh wind at N.W. packed all the Sail I could set proceeded for Cape de Gatt at 11 A M the 10th being about abreast of Malaga & at the Distance of 6 or 7 Leages from the Land while I was observing for a Lattitude, I saw a Sail in with the Land of us I paid no attention to her but kept my course supposing her to be a fishing boat, at Meridian I Discovered she was pursing us I took no notice of her but made the best of my Way, at one P.M. I found she neared us & hoisted her Colours & fired a Swivel. I took no manner of notice of it but in a quarter of an hour she fired her Twelve pounder the Shot was in a good direction but did not reach us — then in the Course of one quarter of an hour she fired 3 more Shot till then did not fire, but had the Quarter Deck Guns removed to the Stern Ports & determined when he fired again to let him know that we had Guns in hopes he would Over chace, accordingly as soon as he fired again I immediately Discharged the two Stern Chasses, so near together that he might discover we had more than one Gun, we loaded our Guns when ever he fired we discharged our Stern Chasses the privateer all this time advancing up with us very fast. I was determined to give him action and accordingly brought too when to my surprize the greatest part of my Crew refused to stand to their Quarters saying she was full of men (as was really the case) & but a little distance from us and his intention appeared as that he meant to board us and that we should be cut to pieces I found it was impossible altho my Mates & two or three men were willing to stand by me to pretend to hold out against the privateer accordingly he hailed me & ordered me to have out my boat to which I answered hay & went to work & got up tackles to get the boat out whilst that was doing I went below & got my papers, when I come up Deck the Boat was ready to receive me & before I had embarked I spoke to the people as near as I can recollect these words, Now my Boys if you will promise to stand by me by God I will not go onboard that Privateer altho the Boat is out, but endeavour to Defend ourselfs as Ion but still they made answer they meant to Board us and they should be cut to pieces wherefore I found I had no other remedy and the privateer closing along side of us, I accordingly went onboard with 3 of my People and found her to be the Mystico Filibustier Capt Peter Icard and as soon as I got onboard the Privateer the Cap ordered my people onboard & Sent 6 hands onb my vessel I desired the Cap to let me go onboard my own vessel but he refused it & kept me onboard the privateer till her arrival in Malaga which was in an hour afterwards when the Cap Sent me onboard my Schooner, but Kept all my papers we did not take prattick that day but the next being the 12th we got prattick & the Cap told me I must go with him to the french Consul wth I did & the Cap gave him all my papers & the Vice Consul took my Declaration & likewise my Mates & one of my People & afterwards dismissed me but remaing with possession of all my papers, —

WHEREFORE these Appearers by these presents does for themselves and all others concerned in the Said Schooner Hannah & her Cargoe Solemnly protest against the Said privateer Filibustier her Cap Peter Icard and all others concerned in her for all Damages
and losses that may accrue to their vessel, and Cargo through the Cause of this detention & also against such of their Crew as refused to do their duty in the defence of their Vessel wth was the principal cause of her falling into the hands of the privateer & they make this declaration & Protest to evidence the premises & to Serve & avail in time & place Convenient —

Sworn & declared in our Presence at Malaga the Day and Year above written Witness our hand & Seal of Office

Your Letter of the 14th September was received, and the Secretary at War has shewn me your Letter to him of a later date.

It is the intention of Government that the families of those who are in service on board the ships of War should receive the benefit of half monthly pay, but there is a certain form pointed out, by which the Commanders are to be governed, which was not attended to by Capt Truxton — However as you appear to be in distress, I have directed Mr Jeremiah Yellott of Baltimore, to pay you five months half pay, from the first of July to the first instant, amounting to forty five dollars.

Your uneasiness respecting your husband is without foundation — for Capt Truxton who is now here, informs me that he was perfectly well when he left Norfolk. —

Sir I have been, and am still so much engaged in getting off vessels from this, and the Eastward, that I have not been able to attend to your Letters. It has been the less essential, as however important
the services of the Gallies may hereafter be found, they cannot be useful this Winter. It is unfortunate that the Gen'l Pinckney was received at all — There must be more decision at Charleston, and less reference to the seat of Government. It is however too late to make alterations now — at least for this Winter. —

I send the Copy of a Letter to Mr Simons, merely because I have not time to write fully to you. I think the number of Guns ought to be reduced in the Gen'l Pinckney — Safety does not consist in the number of Guns on board, but in the proper use of those they have — The Vessel I am persuaded would be more formidable with 12 than 16 Guns — Every where it is found that our Small Vessels have been over loaded with men & Guns. — —

I shall in the course of this week, write you again, & fully. —
I have the honor &C.

[NDA. GLB, Vol. 1.]

To James Simons, directing preparation of Brig at Charleston, S. C., from Secretary of the Navy

[PHILADELPHIA]

Navy Department December 11th 1798

Jas Simons Esqr Charleston, S. C.

Sir: There has been a misunderstanding on the Subject of the number of Vessels to be built at Charleston. It was intended that but one should be provided there — that she should be on the Revenue Cutter establishment, and employed as a Cruiser. It is needless to enquire how, or where the mistake originated. — We must now take things as they stand, and make the best of them — It is agreed between the Secretary of the Treasury and myself, that the Gen'l Pinckney should be considered as a Galley or small Vessel authorized by the Act of the 4th of May 1798 and so considering her, the Commission of Captain Heyward as it stood first was a proper one. As to the insufficiency of the General Pinckney, it is too late to remedy it — If alterations are to be made at the expense of the builder. It is determined to employ all our Vessels, large and small, in the West Indies this Winter, and it is of importance that both the General Pinckney and the Revenue Cutter, which you say will be ready for sea in three weeks from the 27th of November, should be manned and provisioned without the least delay, and ready to proceed on that Service. For which purpose I will send the sailing orders of the Captains, in the course of the present week. —

The Gen'l Pinckney being now considered on the Navy Establishment, the Agency for her ought to be with Mr Crafts; But as she is already under your care, you will be so good as to attend to her still 'till she sails — your accounts for this Vessel should be rendered as soon as possible, that the Money may be charged to the proper Establishment —

Capt Payne has a Commission as Captain of a Galley, — I will name him to the President to command the Revenue Cutter South Carolina. Let him then take the command immediately and prepare for sea —
QUASI-WAR—UNITED STATES AND FRANCE

These small Vessels are generally overcrowded with men, & with guns. The Genl Pinckney I suspect, would be more formidable with 12 Guns, & a sufficient number of Men to manage them.

A Vessel fit to carry only 12 Guns, instead of being safer, is rendered good for nothing mounting 16. — I wish the Captain would consider this matter well; and take only the proper number of men & Guns. — It is impossible for me to be able to form such a Judgement with my information about the Vessel, as to be pointed in my directions on this subject — —

Sir The Ship of War, the Ganges, being now ready, you will proceed, without delay, and by such course as you shall judge best, to guard the windward passage, between the Island of Hispaniola and Cuba.

Enclosed you will receive your authority, founded on the laws of Congress. — There will be two or three Vessels of inferior force, ordered to join you without delay, and to be placed under your Command. — With this force you will direct your operations in such way as you shall think best, to protect the American Trade in those seas, and to capture or destroy the Armed Vessels fitted out under the Authority of France and the pirates equally mischievous to our Commerce, of all Nations. I say pirates, all armed cruising Vessels, acting, without commissions are pirates. —

But although you will take every means in your power to punish the Depredators on our Commerce, the President desires that you will recollect, and cause to be recollected, by the officers under your Command, that we are at war, only with the French armed Vessels, and the persons found on board of them, and pirates. — That we are at peace and wish to remain so, with all other Nations, and that therefore the Vessels & people of other Nations, must be treated by us, with civility and Friendship. — You are not allowed by our laws, to recapture, even our own Vessels, captured by the armed Vessels of any Nations at war, except the French. Our laws presume, and we must presume, that in such cases, the courts of such Nation, will render Justice. —

Should you find yourself encumbered with prisoners, you must send them to the most convenient of our ports — not south of Chesapeake, if well to be avoided. — The vessels under your command, will be such as are not capable of carrying provisions for more than two Months. — Their supplies must be got from Wm. Pennock Norfolk. On this subject you must make the best arrangements in your power. — It would be well if you could send your prisoners by the Vessels, which must return for supplies. It is presumed you may operate to advantage at least, till spring — but you may find it necessary to return to Norfolk with your whole force, during the Winter, for provisions, especially if you should take many prisoners. — In this case you will apply to Wm. Pennock Esq't of that place and take in provisions and Stores, as early as possible to return to your Sta.
tion. — You will seize all opportunities of writing to me, the event of your Cruise, cautioning the person by whom you send letters, to destroy them, if in danger of falling into the Hands of the French. —

The President desires me to request your strict attention to discipline and order, on board of the Ganges, and other Vessels under your Command, & that you will cultivate among the Officers a high sense of the honor of the American Flag. I have it also in command from him to express to you his high confidence in your ability, skil, and Bravery, — and his best wishes for your success & honor, in which I most cordially join. —

SIR It is intended that Capt Adams in the revenue Cutter Scammel, should sail on a Cruise without delay, to the West Indies. I have the honor to request that you will give Capt Adams notice of this, as early as possible, — desire him to encrease the number of his Crew to 30, or 35, if so many can be useful, and to take in as large a supply of provisions as his Vessel can well Stow — Water he can get in the Islands — and in short, to be prepared with every thing necessary, by the time his orders for sailing arrive, which will be very quickly — I do not write to him, and trust to your giving him this Information; and beg your aid in dispatching him. —

I have the honor to be &c*

P. S. Your Letters of the 4th & 15th October are received The appointments for Capt Adams's Officers will be sent with his Instructions

HENRY GEDDES

On this thirteenth Day of December in the year one thousand seven hundred and ninety-eight before me Clement Biddle, Esquire, Notary Public for the Commonwealth of Pennsylvania, duly commissioned and authorised to administer Oaths, dwelling in Philadelphia, personally came Henry Geddes Esq* Commander of the United States Brig Sophia —— and being duly Sworn according to law and says, that the above is a true Roll of the Crew of his said Ship for her present Voyage for

before me Notary
Quod attestor
Clement Biddle
N. Pub.

Be it known that Henry Geddes — Master of the Brigantine Sophia — having requested that the facts stated in the within Instrument might be examined and Certified, the same is hereby done in pursuance of said request, but as Documents of this nature are not required by Law, and have not been usually furnished to Vessels of
the United States, it is declared, that the want thereof in any case ought not to prejudice the rights and Interests of any Citizen of said States.

In witness whereof I George Latimer Collector of the Customs for the District of Pennsylvania, have hereunto set my hand and seal at Philadelphia this twelfth day of December A. D. 1798.

To Captain Heyward, of the U. S. Brig Pinckney, from Secretary of the Navy

Cap† Heyward

SIR I have it in command from the President, to order, that without delay, you take on board of the General Pinkney [Pinckney] — as much provisions as she will stow with convenience, and water sufficient to last you to the place of destination; and that you proceed as soon as you are provided with provisions, and Military Stores, to the Windward passage, between the Island of Cuba, and Hispaniola, where you will cruise, until you fall in with the Ship of War, the Ganges, Cap† Tingey, under whose orders you will then place your self, — Vessel, and Crew.

Before you sail it will be proper for you to have it well considered whether the General Pinkney [Pinckney] would not be a more formidable Vessel with fewer Guns. — I am suspicious that she is overloaded with weight of Metal, a common fault with our smaller Vessels, and which may prove fatal in an engagement; you must however determine, and without referral to me, the number of Guns, — you should have at least 40 rounds of ammunition — and men enough, to work your Guns with effect, but not to crowd your
Vessel. Mr Simmons will give you every aid to facilitate your proper equipment & Sailing. Your own reputation will depend upon your getting to sea without delay. —

The Commission you have, whether as Captain of a Revenue Cutter — or as Captain of a Galley, will suffice for the present cruise. — You may take a Surgeons Mate at 30 dollars per month to be recommended by Mr Simmons, and two Rations per day, and supplied by him with medicines, — Your other Officers I presume will be sufficient for the present cruise. —

You have heretofore received your authority to capture French armed Vessels — Armed Cruising Vessels without commissions, are pirates, and from Vessels of this Discription our commerce receives a great deal of Injury. — You will consider your authority to extend to the capture or destruction of these Vessels also. —

I have the Honor &"a

[PHILADELPHIA]

To Captain James Payne, of the U. S. Revenue Cutter South Carolina, from Secretary of the Navy

Cap't Payne,

Sr It is the order of the President that you take the Command of the Revenue Cutter So. Carolina — for which your present Com- mission will suffice, and that you provide your Crew; provisions & military Stores, as quickly as possible, you should have at least 40 rounds of Ammunition, and as soon as provided, that you proceed to the windward passage between the Islands of Cuba and Hispaniola, and cruise, until you fall in with the Ganges Ship of War, Cap't Tingey under whose command you will place yourself —

Mr Simons will assist you in selecting proper officers — and you must in addition to the usual Number allowed Revenue Cutters get Surgeons Mate, who will be allowed — 30 D* per Month and 2 Rations per day. Enclosed are your recruiting instructions. — also your authority to capture French Armed Vessels — signals to be observed between our Vessels and those of the British — and between our own Armed Vessels. — Altho you are to exert yourself to the utmost, to capture the French Armed Vessels, and to recapture our Vessels taken by them, you are not allowed by our Laws to recapture our Vessels, taken by the Vessels of any other Nation at War. — To the Vessels and people of all other Nations, you will shew civility and friendship. —

I hope, this Letter will reach you but a few days before you are at Sea. — Great activity on your part in getting out on the present service will be considered as a sure presage that your Country will derive honor and advantage from your appointment.

You should take as much provisions as your Vessel will stow, — and as much water as will carry you to your place of destination.

Navy Department 13th Decem' 1798.

Captain James Payne
of the Cutter South Carolina

Sir,
The Crew of your Cutter South Carolina may consist of 35 Men & Boys, if you find so many necessary, of this number you may recruit, not exceeding 15 Able Seamen, Landsmen and Boys — It is our soundest policy — &c see page 246-247. —

It is contemplated to send Marines from hence. — If they are sent, they will arrive at Charleston by the time you receive this; in this case, you may take what remains, after Capt' Heyward has received his full Supply, to answer as so many Landsmen. If the Men recruited for the Galley, for which you were originally destined, are any of them of the proper description, you may employ them on board of the South Carolina. It may be the Means, of hastening your Departure.

I am Sir &c.

To James Simons, directing preparation of Brig at Charleston, S. C., from Secretary of the Navy

[PHILADELPHIA]
Navy Department December 13th 1798.

James Simons Esq' Charleston

Sir, I have sent to Captain Heyward of the General Pinckney, [Pinckney] orders for a Cruise — It will last as long as his provisions; and it is desirable that he should carry as much as possible I have directed him to get a Surgeon's Mate through you — And you will please to Supply him with Medicine & Instruments. It is necessary that Capt' Heyward should be dispatched immediately — I must rely on you to suffer nothing to retard him. — Any difficulties that occur, must be removed on the Spot — & without reference to me; for there must not be delay. — If Officers are wanted appoint them, and let me know their names. — They shall be confirmed in such appointments. This Vessel and her predecessor have cost a good deal of money, and have rendered but little essential service — nor never will render much, confined to our Coasts; for which she is too small. — Now that she may be useful, don't let her be delayed, I beg. —

As to the Cutter South Carolina, I hope she is afloat, and ready to receive her men. Capt' Payne must take the command of her. — His present commission will Suffice — And if she can be possibly got ready, she may sail with the Genl Pinckney — But neither Vessel should be delayed more than two or three days for the other. —
Major Burrows is endeavouring to send Twelve or 15 Marines by a Vessel bound to Charleston — But it is doubtful whether the Vessel can proceed down the Delaware for the Ice. Should she get to Charleston in time, the men can be put on board of either or both the Vessels.

The South Carolina must be Officered as a Revenue Cutter; and you will be so good as to assist Cap¹ Payne in Selecting proper men. — She too, must have a Surgeon's Mate & Medicine. Bravery is a quality not to be dispensed with in the officers — Like Charity, it covers a great many defects.

To Secretary of the Treasury from Secretary of the Navy

[PHILADELPHIA]

Navy Department December 15th 1798

Secr of the Treasury

Sir I have the honor to enclose estimates of the expense of maintaining the Navy, and the Marine Corps, for one year, amounting to the Sum of 2,420,180 15/100 Dollars. But it must be observed that the whole number of Ships to complete the Navy Establishment by law, are not yet in service — and Several of them will not probably be in service more than Six months of the year 1799, altho they are progressing with all practicable expedition.

Estimating only for the ships actually in service, and to be in service before the 1st Janrt 1799 — and for the probable time others, which are building will be in service in the year 1799, the actual expense of maintaining the Navy for that year, will be no more than 1,862,112 43/100 Dollars — adding to this sum, the expense of the revenue Cutters for one year, the amt will be 1,979,704 37/100 Dollars — It is absolutely impossible to make anything like a correct estimate
of the sum necessary to complete the ships building by the public. From the best materials in my power, I conclude that 671,504 Dollars will be sufficient for this object — And it will require, to arm and provide Military stores for these Vessels, and for those buildings by the Citizens under the Act of June 1798 — 233,000 Dollars — upon the whole then it appears, that for maintaining the Navy, including the Revenue Cutters, and the Marine Corps, for the year 1799, will be required the sum of 1,979,704 37/100

For arming and providing with Military Stores, the Vessels building by the public, & by the Citizens to complete the Navy Establishment 233,000—
For completing the Ships building by the public 671,504

To which may be added for Contingencies & Casualties 100,000.00
There remains at this time unexpended of former appropriations for the Navy, the sum of 910,866 13/100 Dollars, from which may be deducted the sum of 86,978, 99/100 Dollars, which will be due to the officers & men of the Vessels in service to the end of the present year, — leaving a balance of 823,887 14/100 Dollars of former appropriations; which taken from 2,984,208 37/100 Dollars will shew the Sum to be provided by Congress for the Navy Service, for the year 1799. — — I have the honor &c*

The Delaware saild with her convoy for Havanna

[NA.]

Account of Mr. Sharp, 1st Mate, Ship Factor of New York re her capture by French privateer and recovery on her passage to London

The following detail of the capture and recovery of the ship Factor, on her passage from this port [New York] to London, was yesterday handed to us for publication by Mr. Sharp, the first mate, who conducted her into Liverpool.

Sunday, Dec. 16, 1798, at 1 a. m. saw two ships laying too with their heads to the southward, got all ready for action; at noon one of the ships bore up for us under French colours; at 1 p. m. she fired a shot over us; at half past 1 P. M. she fired another shot over us; several times she rounded too in order to give us a broad side; at 2 P. M. rounded too with intention to give her our broad fire, but the people would not fight her, after every encouragement was given by Mr. Constable; at about 3 P. M. we struck to her, he hailed us, told us to hoist our boat out, and to come on board with the papers, a very large sea running. I went on board with the papers, but they sent me back, to tell the Captain to come on board with his letters; he ordered me to close reef the topsails, and keep under his weather quarters; at 8 P. M. I mentioned to Mr. Henry Waddington the method and proposed embracing the opportunity of getting away from the corvette; Mr. Waddington asked me if I would go and leave the Captain behind? I answered yes—and told him I thought Captain Ferral would be glad of it: Mr. Constable did not seem to like it, thinking it was too dangerous an attempt should they overhawl us again: he said little, and turned in at midnight; the breeze freshening, and the moon about an hour high. I awoke Mr. Constable, and asked him if he had considered on it, he said he did not know what to think; I urged and told him, what a fine opportunity: I got all ready, and at 1 P. M. started and steered away E. N. E. next day in the morning I consulted with Mr. Constable how we had best proceed for the safety of our ship, and lives; I thought it most prudent to proceed to Liverpool, which I did.
Dec. 18th, '98, at 1 P. M. saw a brig standing to the southward; at 3 P. M. being nearly out of sight of us to the southward, she tacked to the northward and stood to our wake, and then after us, got all ready for action; at 6 P. M. all ready for action; she came within short gun shot of us, and fired away: we answered her quite smartly, she lay upon our larboard quarter, and by the exertions of our passengers, and the good behaviour of our people, at this time we beat her off without any loss on our side: she hauled her wind to the northward and left us. Dec. 20, at 9 A. M. made the S. W. end of Ireland. Dec. 27, got a pilot on board.

"Wednesday Dec 19th in sight of Cape Henry lighthouse, at sunrise, discovered a schooner standing athwart our fore-foot, she fired a gun and hoisted American colors. We immediately hoisted English Colors, and returned a gun to leeward; we then hailed and requested her to come under our lee, as the Capt. wished to speak her; but she stood off upon a wind; we then fired a gun a-head, and shortly after another a-stern, to bring her too; when she unexpectedly brought her whole battery to bear upon us, and gave a broad side, which we returned, and tacked and stood from her, not wishing to engage, at the same time firing another gun to leeward as a signal of friendship. The schooner tacked and stood after us, and gave us another broad-side, which we returned. Shortly after spoke her, and was told her name was the Resolution, from Barbadoes to Alexandria, but could not learn the Captains name."

[U. S. S.] Ganges near Cape Henlopen 20th Dec 1798

Sir I have the pleasure to inform you of my being in a fair prospect of getting to sea, with the United States Ship Ganges under my command — and shall lose no time in proceeding to the station allotted me by your orders.

You will perceive by the Pay-roll enclosed to Mr Winder that the Ganges is not quite full manned, and that the Pay roll deliver'd to the Office by me, and received again was faulty. — owing to several men having signed the shipping articles, and not having appear'd after-
wards — a circumstance which I could not ascertain the extent of, after the shipping Officer had left town — There were also three or four on board, whose names were not on the Articles, they being left in my possession.

This Pay-roll has no enumeration of the Marines, in consequence of their having rece^d no money from me — We have lost only four by desertion — whose names and securities are noted on the Pay Roll — The residue of the Crew on board — with very few exceptions, are in high health and a general ardor and high spirits pervades every grade of Officers & Crew — from which I augur the most flattering assurances of their services.

I enclose also to Mr Winder my account curt with the United States, balance in their favor — Eleven hundred & nine Dollars 91/100 which I hold for contingencies, and which I hope will meet your approbation.

I am highly gratified by the concluding paragraph of your orders, intimating the Presidents confidence — which will ever stimulate my actions for my countries glory — I receive with pleasure his and your good wishes, and beg to reciprocate them —

I have the honor to be &c. &c.

Sir I wrote you on the 12th Dec, on the subject of Cap^s Adams enclosing his Cruising instructions —

Your letters of 4th & 15th of Oct. & 21st Ult^s, relative to the Officering of the Scammel leave me in Doubt respecting the most eligable Men to fill the several stations vacant —

You mention Samuel Odiornd for 2nd Mate but that he is unfortunately addicted to intemperance, men of moral habits are to be preferred Drunkenness mounts to a disqualification for an office of responsibility —

You also mention a Cap^s M. Fernald for the first and John Seavy for 2nd Mate, but you say it is questionable whether they will Serve or not if appointed —

Cap^s Adams in a letter to me dated 22nd Nov. mention

Mark Fernald for 1st Mate
Samuel Odiornd 2nd
Thomas Beck 3rd

If upon enquiry you find that these men are qualified, for the appointements to which they are nominated, by Cap^s Adams I would thank you to communicate the information to me, and they shall be appointed; if not I must beg that you select suitable Characters, who must act under your appointment for the present cruise — and on their return they shall be commissioned,
Cap† Adams in addition to the usual number of Officers allowed Revenue Cutter, must take a Surgeons Mate to be allowed 30 Dollars p† month & 2 Rations p† day — you will choose a proper person for this station & supply him with the necessary Medicins & Instruments —

I must beg your assistance in hastening the Departure of Cap† Adams —

I have the Honor & C.

Pray dont let this Vessel wait longer at most than one week after the receipt of this letter, There has been too much delay respecting a choice of Officers —

Cap† JOHN ADAMS

Sir I have it in Command from the President, to order, that without delay, you take on board of the Scammel, as much provision as she will stow with convenience, and water sufficient to last you to the place of destination, and that you proceed, as soon as you are provided with provision and military Stores to Prince Ruperts' Bay, in Dominica where you will cruise, untill you fall in with Cap† Barry of the Frigate United States, under whose orders, you then place yourself, Vessel and Crew.

You should have at least 40 rounds of Ammunition — and men enough to work your Guns with effect, but not to crowd your Vessel Mr Martin will give you every aid to facilitate your Sailing,

In addition to the usual number of Officers, you will take a Surgeon's Mate, to be recommended by Mr Martin & to be allowed 30 Dollars per month & 2 Rations per day.

You have heretofore received your authority to Capture French armed Vessels, Armed cruising Vessels, without commissions are pirates, and from Vessels of this discription our Commerce receives a great deal of Injury. You will consider your Authority to extend to the Capture or destruction of these also.

I enclose you the private Signals for our Ships and our Ships & British cruising Vessels.

I have Honor to be &c

P. S. There has been great delay in regard to your officers — It will not do to be hesitating respecting proper Charrectors — if those you have on board now are suitable men, receive them as your Officers and you may give them assurances that they will be appointed, but you must not wait for them to receive there commissions — They will be commissioned on your return, I expect you will be at Sea at least a week after you receive this, your own reputation will depend on your expedition.

To Captain HENRY GEDDES Commander of the Armed brigantine Sophia, belonging to the United States.

You are hereby appointed to act as Commodore of the little fleet destined for Algiers, consisting of your own Brigantine Sophia, — the Hassan Bashaw brigantine commanded by Captain John Smith and the Schooner Skjoldebrand commanded by Captain William Penrose.

You will, if it has not already been done agree on the signals to be observed on your voyage. If you fall in with the Schooner Lelah Eisha and Store Ship Hero, now on their voyage to Algiers, they are to join the fleet; and the whole to use their endeavours to keep company, and enter the port of Algiers together.

JOHN ADAMS, President of the United States of America,

To Captain HENRY GEDDES, commander of armed brigantine Sophia.

The said brigantine and her cargo, which are the property of the United States, you are to conduct to her destined port, the City of Algiers, and there deliver her cargo to Richard O'Brien Esq. the Consul General of the United States.

Being armed and manned for the protection of the brigantine and her cargo, you are to defend the same against every attack and hostile attempt to seize and take her: you are to preserve order and discipline on board your said brigantine, and your officers and men are to be obedient to your command. For all which this is your Commission: and in case of accident to yourself, it is to serve equally for each of your officers who may succeed to the command of the said brigantine.

Given under my hand and the Seal of the United States, at Philadelphia, the twentieth day of December, in the year of our Lord 1798.

To Captain John Smith, commanding armed Brigantine *Hassan Bashaw*, from Secretary of State

**Instructions to Captain John Smith Commander of the Armed Brigantine Hassan Bashaw.**

You being appointed to the command of the Armed brigantine *Hassan Bashaw*, are forthwith to proceed to the city of Algiers, and there deliver her with her cargo Stores and equipments to Richard O'Brian Esquire the Consul of the United States at that City.

As you have a crew competent to the defence of the brigantine against ordinary cruisers, so you are to defend her accordingly against all attacks but those of Superior force. You are therefore to prepare your Officers and crew for such defence, and maintain the necessary order and discipline among them as well for this object as for the safe navigating of the Brigantine to her destined port.

The Schooner *Skjoldebrand* and the Brigantine *Sophia* also the property of the United States, and armed for defence, are to sail with you for Algiers. You are to use all your endeavours to keep company together, and for your mutual protection and defence.

These orders for using arms, you will observe point only to *defence*: You are therefore not to give chase to or attempt to take any vessel you may meet with. Nevertheless, should you at Sea fall in with any American vessels in the hands of French captors, you may retake them and you will understand that it is against the French cruisers that these orders for defence are mainly intended: the government of that nation having laid aside all regard to the law of nations and the most plain and acknowledged principles of justice, in the arrests and regulations it has made in regard to the capture and condemnation of neutral vessels, and especially those of the United States. In attempting a recapture of an American vessel, you will consider well her strength, and attempt nothing at the risque of the Brigantine under your command, or of her consorts. You may also take under your convoy any American vessel holding the same course and sailing so well as not to retard your voyage. In case of making a recapture, you are not materially to deviate from your proper course, nor essentially diminish the force of your crew.

If you chance to overtake the Schooner *Lelah Eisha* and her convoy the Ship *Hero*, you will endeavour to keep company with them, and enter the port of Algiers together.

Captain Geddes of the *Sophia* is to be considered as the Commodore of this little fleet. The Signals to be observed at sea have doubtless been concerted between you, Captain Geddes and Captain Penrose, and also with Captain Maley of the *Lelah Eisha*, and Captain Robinson of the Store Ship *Hero*, who have sailed for Algiers, but whom you may chance to overtake.

PRIVATE INSTRUCTIONS TO CAPTAIN JOHN SMITH COMMANDER OF THE ARMED BRIGANTINE Hassan Bashow.

If visited by an European vessel of war of superior force, and your papers are demanded, you will exhibit your sea letter and commission from the President of the United States. If by any Barbary cruiser, you will exhibit your Mediterranean passport, and the passport of the Dey of Algiers in the Turkish language and under the Deys Seal. These ought to satisfy any vessel of war. If however other papers shall be required, you may exhibit the inventory of the brigantine and her equipments, the invoice of goods and stores on board her, your clearance, and any other customary papers.

If practicable, you will avoid all communications with Portuguese armed vessels; because the Portuguese are at war with Algiers; and altho' not desirous to molest us, yet if their Ships should meet any of ours destined for Algiers with contraband articles (and the armed vessels now destined for Algiers are eminently contraband) disagreeable consequences may follow. There can be no objection to your speaking with any British armed vessels: because from them you may expect friendly attentions, and if necessary, assistance.

If not inconvenient to touch at Gibraltar, you may do it and make known your destination to our Consul John Gavino Esq' — — If any change should have taken place to render your going to Algiers improper or unsafe, he can inform you, and in this case you will secure your vessel until you can get advice from Captain O'Brien at Algiers, how to proceed, contriving to let him know as soon as possible, your situation. In such case also you will get Mr Gavino to write an account of it to Col' Humphreys, our Minister in Madrid, and to William Smith Esq' our Minister in Lisbon. What they or either of them shall finally advise, you are to do. But this caution is suggested only because it is possible (for it is not probable) that there may be reasons to forbid you to proceed to Algiers.

If you should fall in, on the coast of Morocco, off Tangier you will there find James Simpson Esq' American Consul, with whom you may in like manner advise and consult.

But the chance of there being any objection to your proceeding directly to Algiers is so small, and the danger so great of meeting with French privateers near the Streight's mouth, seeing they frequent the Spanish ports of Algesiras on one hand and Ceuta on the other — if the wind should be favourable, it will be best for you to push forward, and go directly to Algiers.

Mr. N. Hubbard Jr.

Sir. Yours of the 14th is before me and according to your Request I now give you the Dimensions of the Calibers and Shot of the 6 & 12lb Cannon for your Ship Viz

- 6 pounder: 3,668 Caliber, 3,498 Diamt of Shot
- 12 pounder: 4,623 Caliber, 4,403 Shot

The Difference between the Caliber and Shot was the Artillerists allow for Windage. Tis necessary that you should procure Mullers Tretist on Artillery for the use of the Officers of the Ship and from which every Direction for constructing the Carages making up Ammunition &c can be taken. We are now at Work on your Cannon and expect they will be finished in a Short time.

We have been delayed unexpectedly by being called upon to furnish 14 Nines for the Geo. Washington Capt' Fletcher, who lay all ready for Sea but was Detained for want of that number of Cannon.

To Captain Henry Geddes, commanding armed Brigantine Sophia, from Secretary of State

DEPARTMENT OF STATE PHILADELPHIA Dec' 21. 1798

Captain Henry Geddes.

Sir, The United States armed Brigantine Sophia, under your command being laden on their account and destined for Algiers, you will proceed thither and deliver your cargo to Richard O'Brien Esquire the Consul General of the United States at that place.
The armed Brigantine Hassan Bashaw and armed Schooner Skjoldebrand being to sail at the same time, you will endeavour to keep company with them; and if you meet with any armed vessel, and
she attacks, or attempts to capture either of your vessels, you are to defend yourselves to the utmost of your power. Such attacks or attempts you may expect only from the French cruisers, or cruisers equipped in Spain under the influence or countenance of the French. From British Cruisers you will apprehend no annoyance; on the contrary, from them you may expect every friendly assistance, when they shall know the character and destination of the Sophia.

The Brigantine Sophia is to be considered as the Commodore of this little armament. The signals to be observed at sea have doubtless been concerted between the Hassan Bashaw Captain Smith, Captain Penrose of the Skjoldebrand, and yourself; and also with the Lelah Eisha, Captain Maley and Captain Robinson of the Ship Hero, should you come up with them on your passage to Algiers.

In case of Separation, you will make the best of your way to Algiers. Should it be perfectly convenient, you may touch at Gibraltar, where John Gavino, the American Consul will advise you of any dangers respecting the further prosecution of your voyage, and especially if any circumstances should forbid your proceeding thither, without information from Captain O'Brien: and in the meantime Mr Gavino will have the goodness to write to our ministers at Madrid and Lisbon, and ask their advise on the State of things. — —

If you should fall in on the coast of Morocco, and it should be convenient to touch at Tangier, you may do it: You will there find James Simpson Esq' the American Consul for Morocco, who will give you any necessary advise and assistance. — — But there is so little reason to apprehend any difficulty in going to Algiers, if on your arrival at the Straights the wind proves fair, it will be best to take advantage of it, to push thro' and proceed directly to Algiers. The greatest danger to be apprehended from hostile cruisers is conceived to be near the entrance of the Mediterranean Sea, as those cruisers frequent the Spanish ports of Algesiras on one side, and Ceuta on the other.

The primary objects of sending the Sophia to Algiers are, to carry her present cargo thither, and then to bring home the crews of the Hassan Bashaw, the Skjoldebrand, and Lelah Eisha, which three vessels are to be delivered and left at that city. It may happen however, that American vessels may be returning from Algiers to the United States, in which the crews of those three armed vessels may be conveniently embarked; and that it may be important for you to proceed in the Sophia with the Consuls Eaton and Cathcart, to Tunis and Tripoli. On this point, the Consul General at Algiers, Capt. O'Brien, and the Consuls Eaton and Cathcart will consult, and determine as the best interests of the United States shall appear to require; bearing in mind that the crews of the three Armed vessels must be provided with passages to America; it has been promised to them; and it is important that the promise should be performed, as well to secure the future services of such a number of mariners, as in point of economy, because their wages will go on until their return; unless they voluntarily come into some new agreement at Algiers.

If it should be determined that the Sophia should proceed to Tunis and Tripoli, I hope it will be agreeable to you to continue in the command of her: but if it should be inconvenient and you prefer returning immediately to the United States, the Sophia may be
transferred to the Command of one of the American Captains now going to Algiers, whom Captain O’Brien shall select for that purpose. Wishing you a prosperous voyage, I remain, Sir, your most Obed' Servant.

Secretary of State’s endorsement on the passports of the Dey of Algiers, given to Captain John Smith of the armed Brigantine Hassan Bashaw, and to Captains of the Skjoldebrand and the Lelah Eisha

Indorsed on the Dey of Algiers’ Passport given by Captain Smith, Master of the armed Brigantine Hassan Bashaw

“This passport in the Turkish language, under the Seal of the Dey and Regency of Algiers I commit to Captain John Smith commander of the Armed Brigantine called the Hassan Bashaw, which with her guns tackle, apparel, furniture, Stores, boats and goods on board her, being the property of the United States of America, are destined for Algiers, there to be delivered to the Dey on account of the Stipulations and agreements entered into between the United States and the Dey and Regency of Algiers. This passport being furnished by that power to protect the said Brigantine, her equipments, goods and all persons and things on board her against all nations with whom the Dey and Regency are at peace, in like manner as the passports from the Executive and Officers of the United States are designed to protect them from molestation by any powers with whom the U. the way to you, and a further sum shall be remitted when you find it necessary.

Should Preble have gone with Nicholson, another Commander must be found to supply his place — The Rank in both cases must be Lieutenant Commandants.

In my opinion the Herald would be a better Sailer and more useful Vessel with Sixteen Guns and men in proportion, and you will please so to arrange it with whoever takes the command, if your own Judgment coincides —. The use of this Vessel appears to me to be destroyed by the weight of Guns and Number of Men.

Robert Gilmore Esq
Chairman of the Committee
Baltimore

Gentlemen Annexed you will find the exact dimensions of the nine pound Cannon intended to be provided from hence for the two Ships under your direction, which will enable you having the Carriages prepared.

I have the Honor to be &

P.S. The Dimensions of the 6 Pounders shall be sent in a few days.

The Diameter at the Breech Ring 15 Inches 2½ tenths
The diameter before the Trunnions 11 Inches 7½ tenthes
The length of the Cannon from the back part of the breech Ring to the center of the Trunnions 30 Inches 5/10
From the Breech ring to the extremity of the Breech Ball 8 Inches 8/10
The diameter of the Trunnions 4 Inches 3½ tenths

N. B. These being the exact dimensions of the Cannon allowance must be made for the Gun to be worked with ease in its Carriage.

To Captain John Smith, of the Brigantine Hassan Bashaw, from Secretary of State

[PHILADELPHIA]

Department of State Dec 22. 1798.

Captain John Smith, of the Hassan Bashaw.

Sir, I am happy to inform you that every thing is now prepared for the departure of the vessels bound to Algiers. Your Commission and instructions will be handed you by Messrs Eaton and Cathcart.

As the Sophia is to accompany the Hassan Bashaw and Skjoldebrand, and has the consuls on board; as Captain Geddes also is an old Sea-commander; there is a propriety in his acting as Commodore for the little fleet. The interest of the United States and your common ease and safety require the utmost harmony and readiness, to give assistance mutually.
Wishing you a prosperous voyage and safe return, I remain with much esteem, Sir your ob't Serv't

TIMOTHY PICKERING.

To Jonathan Dayton, Speaker of the House of Representatives, from Secretary of the Navy

[PHILADELPHIA]

JONATHAN DAYTON Esquire
Speaker of the House of Representatives.

SIR: In compliance with the Order of the House of Representatives of the 18th Instant— I have the honor to submit, in paper A a view of all the Vessels of War employed in, and preparing for, the service of the United States;— the names of the Commanders, where Commanders have been appointed; the places where they were built, or are building; their Size and number of Men and Guns; and the sum necessary for the annual support of each — as detailed in estimates No. 1. 2. 3. 4. 5. 6. 7. 8. 9. & 10—

Paper B shews the sums given for some of the Vessels— the prices per Ton, at which others have been built or are building — and what Vessels have been built or are building under the direction of public Agents, without particular contracts. —

I have also the honor to submit, Estimates No. 11. 12. & 13 of the expense of building & equipping the Vessels now building under Public Authority —

The order of the House extends to the expense of equipment of every Vessel, as well those in service, as those preparing, — but with respect to the former description, the expense having been incurred, the Estimate, or Statement should exhibit the exact cost of the equipment, which cannot at this time be ascertained, — the whole accounts of the Agents of these Vessels, not having been received, and some few of those which have been received, not being accompanied by the necessary Vouchers; — nor indeed, has the Accountant of the Navy, who only entered upon the duties of his Office in September, and then at Trenton, under disadvantages, had sufficient time to arrange his Books and Accounts, so as to be able to shew in every instance, to what Vessel, every expense incurred belongs. — It is hoped and expected that those impediments to a compliance with every part of the order of the House, will very shortly be removed. —

I have not added Estimates of the expense of equipping the Vessels building for the Public by the Citizens. — some of these Vessels will probably be entirely equipped by the Citizens, — others only partially. In the Report of the Secretary of the Treasury, to which I beg leave to refer, an Estimate is made of the expense of providing all the Vessels now building by the Public and by the Citizens, for the Public, with Military Stores. — In some cases, the Citizens will furnish the Military Stores — in others, they will require aid from the Public, even to rig the Vessels — but upon an average, it is not expected, that the Public will contribute more towards these Vessels, than a sum sufficient to procure the Military Stores. —

I have the honor to be with great Respect &c.

[Note.—Estimates Nos. 11, 12 and 13 submitted with this letter of 24 December, 1798 are printed in “American State Papers, Naval Affairs” Vol. 1, 1794-1825, pp. 61 and 64.]

It is presumed that the Naval Establishment will be chargeable with the whole expense of the Marine Corps. But only the pay and rations have been included in the foregoing estimate. On this subject the estimates laid before Congress by the Secretary of the Treasury will fully explain. It may be proper to observe that the tonnage, in some instances, may be incorrect.

1 The annual expense of each being $18,984.56.  
2 The annual expense of each being $10,413.98.

[NDA. Journal kept by Joseph Strout, 1798.]
To Secretary of the Navy, from Lieutenant William Bainbridge, U. S. Navy

Guadaloupe, Baffe Terre, January 3d, 1799.

Sir, I wrote to you on the 25th November, 1798, informing you of the loss of the United States schooner Retaliation, under my command, captured on the 20th of said month, by the French frigates La Volontaire and La Insurgente, from France, via. Cayenne.

As I have already given you the particulars of my capture, which letter has I hope come to hand, shall omit it here. On board of the Volunteer to which ship I was removed from the schooner, came General Desfornex, the particular agent of the Executive Directory of Guadaloupe, to supersede the well known brute, Victor Hughes.

When we were brought into this port, all the crew were imprisoned; myself and officers were ordered to share the same fate. To capt. St. Laurent we are indebted for our liberty on board the different ships, except Lieut. Geddes of marines, who met with the fate of a dungeon, and was cruelly and unjustly treated. After being confined on board 12 days, I obtained the liberty of coming ashore without uniform.

Having received a letter from capt. Murray, mentioning he had wrote to the agent respecting an exchange of prisoners — I waited on him to know whether he would agree on an exchange — His answer was he did not consider us as prisoners; but detained us from political motives, meant to treat us as friends and allies, as such considered us. I told him I should be glad to see such treatment realised by conduct; that I considered myself a prisoner, and every American in his island, I believed did the same. Never was more cruel treatment bestowed on prisoners, than what the greater part daily experience — His answer was these were orders given by his predecessor, and which he could not revoke while he remained here.

A day or two after I had this conversation with him, Victor Hughes was made prisoner on board the Volunteer frigate.

Every American anxiously waited for a change of treatment, which they had a right to expect from the promise of Desfornex.

Hearing of the distressed situation of our citizens in goal, who were nearly in a state of starvation; amongst which are many masters of vessels, under the sole direction of a rascally goaler, who has power to insult, beat and imprison them in a dungeon, at his caprice, will and pleasure; which power he frequently exercises to the disgrace of humanity, I waited on Desfornex, he promised he would give orders for a change. As I had not the liberty of going to the prison, I could not immediately hear from them, finally flattered myself those orders were given; but when I had the news the treatment, if possible, was worse than before.

On the 28th ult. I waited on and informed him by letter, which you have here inclosed. He then sent an officer down to the dungeon to give orders that they should be released. There myself did I see captain Bacon without a shirt only a night gown: several other captains that had been brought out of their hammocks without hat, shoe, stocking or waistcoat — A cold, muddy ground to lay on, and was informed by them all, they were allowed about 2 ounces of raw salt meat a day. Those unfortunate men are still in that wretched hole,
cannot obtain their cloaths from the goaler, who says he put them there to punish them, and will punish them.

The La Pensee frigate at Point Petre, pressed between 20 and 30 American sailors that had just been brought in there by privateers, taken out of American vessels captured by them. Conceiving it my duty to demand those seamen, I did in the presence of two American masters of vessels; — told the general that the captain of La Pensee had taken on board by force, and unlawfully detained numbers of American citizens, who I now came to demand — if they were prisoners, put them in prison, and treat them as such, — if neutrals, as he says he considers us, he certainly can have no claim to stop them. But his neutrality is laughable.

He told me he would have them released. — The La Pensee remained here two days then sailed for France, without a single one being released. On board the La Pensee Victor is gone to France.

The general tells me he will return the schooner to me with my people, as he considers us allies, and will send all the Americans home in a flag.

He wrote our government in this manner — On his passage from France one of the frigates captured me; finding me an armed vessel belonging to the United States a cruising. His time would not admit to take a view of the situation of affairs between France and America; he ordered me in port; he should have immediately let me gone, but political reasons obliged him to lay an embargo which does not now exist, and he leaves me at liberty to depart, advising me to return to my country; with me sends all the American citizens made prisoners previous to his arrival, and an invitation for the citizens of America to come and trade, they shall be respected and treated as allies.

Instead of advising me not to return, he wished to bind me to honor that I positively shall return, and not molest any French cruisers. A great part of these citizens, have been made prisoners since his arrival, and since his acting in his official capacity. If he means to treat us as friends, why were not his prison doors open, and the distressed citizens released? And if not considered as prisoners, why does he compel them to go in a cartel contrary to their wishes, who have been robbed almost naked, and cannot obtain money or credit in this place. His not condemning the Retaliation, I conceive, is no step towards reconciliation, the only motive that I believe induces him to return her is, to kindle that party spirit that is dying in our country, on which the French republic has built their romantic ideas.

He now offers to return her, at the same time has suffered American merchantmen, since my arrival here, to be condemned to ten times the value of the schooner.

I shall endeavour to act like an officer belonging to an independent nation, should I see the spirit to preserve that national independency will be the case.

Being well convinced in my own mind was I to accept of her and return to my country, my government would receive me in no other manner than as a cartel.

Mr. Desforneaux mentions, he advises me to return to my country — If he will give me the authority which I received from my government, which he has got and means to withhold from me, and returns the schooner without dictating and ordering me how to act, I will receive her. But if the commission which I received from my
government be withheld, new orders from him is given, and I bound to follow the orders he gives me, this is making me a prisoner, under a cloak for him to gain the merit in America for releasing the schooner, and treating us like allies. If I am a prisoner, which I have every right to consider myself, the vessel is a prize, commanding her would be commanding an enemy’s vessel. If not considered as a prisoner, why bind me to act as they think proper.

Thus, sir, I have stated to you the terms on which she will be offered, & the conditions on which I will receive her; I trust they are such as will meet your and my country’s approbation.

I am well assured he will not give her on these conditions, and my non-compliance to his terms I expect will exasperate him to that degree to imprison me. But let my fate be what it will I am determined to act as becoming an officer of the United States.

There is from the best information I can receive, from 230 to 250 American prisoners in this island — To-morrow or next day I shall know my fate, when I shall let him know on what conditions I will receive the schooner. Should he change his mind in sending us to our country, we trust our government will recollect that they have citizens cruelly treated, not like prisoners of war, and will release us from this French bondage.

I am with due respect,

Your obedient servant,

WILLIAM BAINBRIDGE.

[Enclosure]

[25 December 1798]

To General Desfourneaux, Commander-in-Chief of Island of Guadaloupe, from Lieutenant William Bainbridge, U. S. Navy

GUADALOUPE, Dec. 28th 1798.

The friendly disposition which you appear to have for Americans, and of which I have had the proofs, makes me certain you are a stranger to the cruel treatment that some of the American citizens experienced in this place. As I do not mean to enter into an investigation of their whole treatment, I will only give a detail in part.

On Christmas night, the 25th inst. some of the prisoners were making themselves as happy as their situation would admit, by singing, without making any riotous noise, the jailer came in, and took numbers of them out and sent them to a dungeon. Had this fate fell on them who were a singing, it would then, in my opinion have been ungenerous; but not so cruel as it actually was. He took four or five American masters of vessels (who I believe are respectable citizens) out of their hammocks marched them down, without hat, shoe, or stocking, almost without any thing to cover them, put them in a dungeon, in which place 12 persons are now confined, with only a small hole to give them light and air, nearly in a state of starvation, and cannot obtain the liberty of having their clothes sent them.
As a proof of the captains being innocent of the noise, as the goaler states it, but of which, from the information I received, he was himself too much intoxicated to be a proper judge, captain Lum was asleep, when the goaler came in and took him out of his hammock. Capt. Bacon, who was also in his hammock, knowing capt. Lum to be asleep at the time of the noise, got out of his hammock, to inform the goaler that capt. Lum was innocent; for which information, he was obliged to accompany captain Lum to this dreadful place, where they are now confined.

With confidence that you will release these unfortunate men from their present situation.

Your obedient servant,

Wm. Bainbridge.

General Desforneaux,
particular agent of the
Executive Directory of Guadaloupe.

United States Ship Constellation
Hampont Roads 27th December 1798 —

Dear Sir, I shall sail the first Wind. Garretson goes up to release the two Men, and pay them their Wages &c. I dined and spent an agreeable Day with the English Admiral the 25. Instant, and am
sorrry it iis not likely we shall agree on a Salute, the Circumstance stands thus. When a British Post Captain salutes a Flag Officer, two Guns less is always returned from the Ship carrying the Flag, and this Mode Admiral Vandeput proposed to me, when I mentioned my Disposition to salute him, on sailing from hence, but it is impossible for me to acquiesce without degrading the Flag of the United States.

The *Constellation* will be sailing out of a Port of the United States, and by giving the Salute, an equal Number of Guns ought to be returned. There is certainly a great Difference, between one of his own Ships saluting him, and that of a foreign Man of War, within one of her own Ports. This little Contention of Etiquet will however cause no Difference, or Offence on either Side, for I believe a good Disposition to harmonize subsists with both Parties. I am with great Respect

To Josiah Parker, Chairman of Committee of House of Representatives, from Secretary of the Navy

[PHILADELPHIA]
Navy Department Dec [29] 1798

Josiah Parker Esq
Chairman of the Committee of the House of Representatives.

Sir I have given to the enquiries, you have done me the honor, as Chairman of a Committee of the House of Representatives, to make of me; all the Consideration my desire to comply promptly with the wishes of the Committee, would permit — and now proceed with great diffidence, to submit the result. The protection of our Coast, the security of our extensive Country from invasion in some of its weaker parts, the safety of our important Commerce; and our future peace when the Maritime Nations of Europe, war with each other, all seem to demand, that our Naval force should be augmented; — so much augmented indeed, as to make the most powerfull nations desire our friendship, — the most unprincipled respect our nutrality.

The peacfull charrector of America will afford to the world sufficient security, that we shall not be easily provoked to carry the war into the Country of an Enemy; and it well becomes the Wisdom of America to provide a cheap defence to keep from our own.

Twelve Ships of Seventy four Guns, as many Frigates, and twenty or thirty smaller Vessels, would probably be found, our Geographical situation, & our means of annoying the Trade of the Maritime powers, considered, a force sufficient to insure our future peace with the Nations of Europe. It would not perhaps be hazarding too much to say; that had we possessed this force a few years ago, we should not have lost by depredations on our Trade, four times the sum necessary to have created, & maintained it during the whole time the War has existed in Europe. If we do not profit by experience, and put ourselves in a situation to resent insults, and punish aggressions, nothing is more likely, than that in less than half a dozen years, another occasion may be presented, for a repetition of the same mortifying observation.

In another and a still more interesting view of this subject; mutual safety was a leading motive, & must ever remain, a strong cement of our Union. Whether this security can be afforded unless we are able to Command our own Coast, — and whether the union of all the States can be long preserved without it, are questions which
merit the most serious, & attentive consideration of American Legislators. I forbear to dwell on this fruitfull, perhaps delicate topic, however, to attend to our more pressing concerns; we cannot feel entirely secure that we are not to be exposed to great calamities from the ambition, or animosity of France, until a considerable addition be made to our Naval force. If twelve ship of seventy four guns are added to our Navy; an Invasion of any part of our country would be rendered so difficult, that it would scarcely be attempted. For it is not possible to conceive, that France would promise herself any advantage by an Invasion of this country, equal to the enormous expense, & still more enormous risk, if we should be so prepared to resist her; she would be obliged to employ more than double the number of ships of equal force, to convoy her armies, provisions, and stores, and to keep the communication open between her armies, & her own country. — France can calculate, and will calculate the loss and probable gain of her enterprise. — When she finds that she cannot deceive us, that she cannot arm our citizens to carry on this work of subjugation, insolent, and unfounded expectation! that we are determined, on manly resistance, and that we take vigorous measures, to put ourselves into a proper posture of defence. — Even France with all her pride, and all her heroism, will consult her interest and avoid war with America, and like other nations, she will discover that it will not only be just, but politic to indulge us in our favorite wish of preserving peace with all the world. Thus then, in whatever views the subject is considered; whether our object be to prevent Invasion, to protect our commerce, to obtain a speedy, and a proper peace, to maintain peace hereafter, or by affording security to every part of our country, to guard against the long train of ills, which must result from disunion; the wisest, cheapest, and most peaceable means of obtaining the end we aim at, will be prompt, & vigorous measures for the Creation of a Navy sufficient for defence, but not for conquest. —

The United States are doubtless able to bear any expense necessary for their present safety, and future tranquility; no country increases so fast in population, and resources, — and no country can incur a debt, with such an absolute certainty of discharging it, without laying more burthens on the people; our revenue arising from the imports, and other sources, must increase in proportion to the increase of population; and the increase of the latter is certain, no country ever had less to fear, from the consequences of incurring any debt necessary for defence and safety. — On the subject of procuring ships of 74 guns, we probably have it in our option, to buy them or to build them; the former will be the most expeditious mode of procuring them, but the latter, if the pressure of our affairs will admit, will be the most honorable & the most advantageous for our country. — If we buy them from a foreign nation, it is not to be expected that we shall be able to obtain those of the best quality; & the sum given for them will not be kept at home, and distributed amongst our own citizens; but will operate against us like an unfavourable balance of trade; my own Idea is that we certainly ought to build the vessels, in preference to purchasing them, that immediate measures should be taken, to secure all the necessary timber; but that the President should be authorized to
obtain, as the exigency of our affairs may require, 12 Ships of 74 Guns by purchase or otherwise. If it should be found necessary to procure them sooner than they can be built; the Timber may be preserved by Docking, until those purchased decay, or for a Century, if it should not be wanted sooner.

The Estimates herewith will shew the expence of building, and equipping 12 Ships of 74 Guns, and 6 Brigs or Schooners, to mount not exceeding 18 Guns. The latter would be highly useful in scouring the West Indies, and we have not a sufficient proportion of this Size.

Three of the largest of the 24 Gun Ships, might be converted into Frigates of 32 Guns; The whole annual expence — of Maintaining the Navy; would then be $5,383,540-6/100 Dollars, the Annual expence of the existing navy is $2,434,261.10/100 Dollars. — The difference would be the annual expence of the proposed addition $2,949,278-96/100.

In time of peace a small proportion of this sum would be sufficient to keep the Ships, in a State of preservation. — Every material article for the building, and equipment of Ships of War, Copper excepted, and probably copper also, may be procured, the growth or manufacture, of our own Country. — It is true that we have heretofore used cordage, made of hemp of foreign growth, and imported Canvas, — and these articles constitute, if ware and tear be included, one third part of the expence of building, equipping, and refitting our Vessels of War. But Manufactories of Canvas have been theretofore established in the Eastern States; and with proper public encouragement, may be received, and made to supply, at least the public demand; — and it is most certain that any quantity of hemp, can be raised, on the Ohio, & Mississippia, the Susquehana, the Potomak, James River, and other parts of the United States; if the growers of it are assured of a ready Market, and at a price, less than that given for imported hemp; though if the prices of Cordage, and Canvas, the intire growth, & Manufacture of the Country, should be found at first a little dearer than the imported; the good policy of paying the difference, to our own Citizens, to render ourselves independent of Foreign Countries, for articles so essential to our defence cannot for a moment be doubted.

Timber can at present be had in almost every part of the United States; but in the greatest abundance, and of the best quality on the Chasapeak Bay, and the Waters which empty into it; — and in the Southern States. The live Oak of Georgia, is thought to be almost indispensable, in the Construction of our largest Ships, to be used in those parts most subject to decay; but the White Oak of the Chasapeak, is not greatly inferior. — It is however highly desirable, to use the live Oak of Georgia as long [as] it can be obtained; more especially in Ships built Eastward of the Chasapeak; and by a proper mixture of this timber, with that of the growth of the Country, good Vessels may be built, in every part of our Country.

The Islands on the Coast of Georgia; on which the live Oak is found, are supposed to be more healthy than the Main land; near the Coast they are also thought to be very important for the production of Cotton; hence this valuable timber is becoming scarce every where, convenient to water transportation. Two methods suggest themselves, for obtaining Supplies beyond the immediate demand. — To
buy one or two of the most Valuable Island; and cause the timber to be procured, for the future uses of the Navy; to purchase the timber, as the Islands are cleared by the Owners; and have it transported to the places fixed on for building our Ships; and docked until it be wanted. With respect to a purchase the lands are held at prices, greatly beyond what was the supposed Value of them a few years ago; and it is believed they have become less valuable for public purposes, in consequence of the Efforts which have been made, and are daily making, to clear them for Cultivation.

On the subject of other kinds of timber possibly, when it is seen by the Citizens, that it is worth preserving, it may be sufficient to trust, in a great degree, to their attention to private Interest for the preservation of a Quantity equal to the public demand. It would, however, be but prudent to expend One hundred thousand dollars, in a way to secure enough of the White Oak, and yellow pine, both of which are indispensable, in the Construction of good Vessels; to last the public, in aid of Supplies from Individuals for ages, 100,000 Dollars could be so laid out, and I believe the Expenditure would be judicious.

No extraordinary means are necessary to be used, for procuring Naval, & Military Stores, except, — the Articles of Hemp, Canvas, and Copper. Cannon can be made in many of the States, equal to any that could be obtained from Foreign Countries; also Muskets, & Bayonets, Pistols, Swords, Boarding pikes; & indeed every other article necessary for Ships of War.

Although Copper Mines are found in many parts of the Country; yet the most certain means of procuring present Supplies, will be by importation; the enterprizing Spirit of the Merchants has heretofore furnished enough for the public demands, and may be trusted for future supplies, so far as may be necessary for the Ships now contemplated to be added to our Navy; it is to be presumed, that before more Ships are wanted; and possibly before any that may now be authorized; are in a state to require the Copper, Means may be devised for obtaining it in the United States.

Docks will be highly necessary, in repairing our Ships; to avoid the tedious, expensive, & sometimes dangerous, operation of heaving down. They can undoubtedly be made in the Eastern States, where the tides rise very considerably. — probably in New Hampshire, Massachusetts, or Rhode Island, Whether they can be made with equal advantage, or to answer valuable purposes; to the Southward of Rhode Island, or New York, I cannot form any accurate judgment, from any information I possess, though it would unquestionably be a great public advantage, to have a Dock, near the entrance into the Chesapeake Bay, and another still further South if Circumstances will Admit; Docks for repairing Ships, ought to be convenient to the Sea, and yet not easily accessible to an Enemy. Yards for building the Ships, where large Quantities of Materials would be deposited (the destruction of which would be an object with an enemy,) should be, according to the opinion of Mr Humphreys, a Gentleman of considerable Science, and experience, in Naval Architecture; "in the Vicinity of a Commercial City; for the Convenience of procuring able Workmen within the reach of good White Oak timber; in fresh water where the timber may be deposited without danger from the Worm; on a River running East, and West, or nearly so, with a high
Bank; and where the harbour is secure from stormy weather, and freshes, out of the reach of an enemy, and near a good stream of Water, 18 or 20 feet higher than the surface of the River; for the Convenience of making Lock Docks, sawing timber, and for many other Valuable uses.** Perhaps the most expeditious mode, of Building Ships immediately wanted, will be to set them up in several different places, & by such means, avail ourselves of the Resources of different parts of the Country; I am by no means certain that this method will not also be the most economical, under present Circumstances; & with little seasoned timber in the Country; and it will certainly distribute more equally amongst the States, the advantage which may arise, from supplying the Materials, and the Labour. But the subject being new, I am not possessed of sufficient Information, to Judge with precision where these places ought to be. At a future time when the Pressure may be less, & our Experience greater; two or three places uniting the greatest number of Advantages; may be fixed on for Building all the large Ships of the United States. — The Mode heretofore pursued, for obtaining Naval Stores for the Ships in public Service, has been, to get such supplies on the Spot; as could be procured on moderate terms by the Agent for Building or equipping the Ship; — Sending from Philadelphia or else where such articles only, as could not be so supplied, — until it can be ascertained, what places should be selected for permanent Building Yards; no great inconvenience, will result from pursuing the mode already adopted for supplying the Naval Stores. —

Deposits of Masts, to supply quickly Vessels which may come in dismasted, will be made at Boston, and Norfolk, — measures indeed have already been taken, for this purpose; — and like deposits must be made, at New York, or Rhode Island; — other articles required by Vessels in distress; can generally be had in these places; and in our other Commercial Cities. — The business of the Naval armament being new in this Country, & complicated; it is impossible in this early Stage, to devise a perfect System; Every day experience will add to the Stock of knowledge possessed by the Country; and it may be best for the public Interest, that the Congress at their present Session, should rely a little more on Executive discretion, than may hereafter be necessary; — At the present Session it may be expedient, and sufficient, That the President be authorized to procure by purchase; or otherwise, 12 Ships of 74 Guns, and Six Brigs, or Schooners, to mount not exceeding 18 Guns; to take measures for procuring, and depositing, in docks of fresh water, & in places of Safety; such Quantities of live Oak timber, proper for Ships of 74 Guns & Frigates, not exceeding in the Whole, such parts of the Frames of 12 74 Guns Ships, & as many Frigates, as may be deemed essential to be of this Species of timber; to cause to be laid out in securing other kinds of Timber, for future uses of the Navy; a sum not exceeding, 100,000 dollars, and to cause not exceeding three Docks; to be erected for the Convenience, of repairing Ships. For so much of these objects as can be accomplished; before the next Session of Congress, an Appropriation of 1,200,000 dollars, with a promise of future Appropriations, may be sufficient. —

I have suggested no plan, for the encouragement of the Manufacture of Sail Cloths; This subject will be better understood in Congress; A
certainty of Sale, as already observed, will be encouragement enough for the Growers of hemp. —

I shall take the liberty to lay before you, in a few days; such alterations in the Rules, for the Government of the Navy; as have been suggested, by some of the most experienced Capt's with my own Observations. —

I have the Honor to be &c.

BENJAMIN GOODHUE Esquire

Chairman of a Committee of the Senate. —

Sir In compliance with the request contained in your Letter of the 21. Instant, I have the honor to enclose paper A [*] containing a view of all the Vessels of War, employed in and preparing for the service of the United States. —

All those stated to be in service, have sailed, and are ordered for the West Indies. — The Ship General Greene, and the Ship Adams, it is expected will be in service, in March — and the two Baltimore Ships, nearly as soon — the Ship Connecticut, not before May. — The Frigates building by the Public, at Portsmouth & Norfolk will there is no doubt, I believe, be at Sea, next Summer — the Frigate at New York, I fear will be delayed 'til the fall. — and I am apprehensive the Frigates building by the Citizens, may be as long delayed — The Ships building by the Citizens of Boston, and Charleston, it is hoped, will be in service by the end of the Summer — for particular estimates of the expense of equipping the Ships not in service — and for the annual Maintenance of each, I beg leave to refer to the report of the Secretary of the Treasury — and to my report to the House of Representatives [See letter to Jonathan Dayton of 24 December 1798.] in compliance with their resolution of the 18th Instant, both which reports, were ordered to be printed. —

I have also the honor to enclose the copy of my Letter, to the Chairman of the Committee of the House of Representatives, [See letter of 29 December, 1798.] appointed on that part of the Presidents speach, relative to the Navy, which contains all the observations, I am at present prepared to make on the subject of the Navy. —

I have the honor to be &c.

Articles of Agreement between Secretary of the Navy and William Lane of Philadelphia and William Salter of New Jersey

Articles of Agreement made this thirtieth day of December, One thousand seven hundred and ninety eight, Between Benjamin Stod-  
dert, Secretary of the Navy of the United States, for and on behalf of the said States, of the one part; and William Lane of the City of Philadelphia, and William Salter of the State of New Jersey of the other part. — as follows. —  
First — The said Lane and Salter engage to deliver for the use of the United States, at some convenient wharf within the City of Philadelphia, a quantity of Iron Cannon to the amount (calculating at the prices herein after mentioned) of twenty three thousand dollars, of such caliber, and agreeably to such models as may from time to time be determined on by the Secretary of the Navy. — the largest size however not to be more than to carry an Iron ball of twenty four pounds weight.  
Second — The said Cannon are to be cast in the solid, and bored truely, so as that the diameter of the bore shall correspond exactly
to each given Caliber, to be perfectly straight, and in the center of the piece from the muzzle to the breech.

Third — That from and after the twentieth day of the present month, the said Lane and Salter shall deliver upon an average, Six complete Guns weekly. —

Fourth — That the said Cannon shall be proved at the expense of the United States, agreeably to such Rules and regulations as have been customary in proving Guns for the United States: — and under the direction of such person or persons as may be appointed by the Secretary of the Navy, or his successors, who shall attend thereto whenever required, by the said Lane and Salter. But should any of the Guns burst in proving, the said Lane and Salter are to pay the expense of Powder. —

Fifth — That the said Cannon shall weigh about two Hundred pounds weight, for every pound weight of the ball which the same shall be intended to carry. —

Sixth — That the said Secretary of the Navy shall allow, and cause to be paid to the said Lane & Salter,

For every ton weight of Cannon, of a caliber to carry a Ball of eighteen or twenty four pounds weight, the sum of One hundred & thirty three Dollars and one third. —

For every Ton weight of Cannon of a Caliber to carry a Ball of either Six, nine, or twelve pounds weight, the sum of one hundred & fifty Dollars. —

Seventh — That the said Secretary of the Navy shall cause to be paid to the said Lane and Salter Fourteen thousand Dollars, upon the signing and delivery of the present Contract; and as soon as Cannon is delivered to that amount shall advance a further sum of Five thousand Dollars; and as soon as Cannon shall be delivered to the amount of the sum last mentioned, shall pay for all Cannon as the same may be delivered, until the whole number contemplated by this Contract shall be completed. —

Eighth — In case any disagreement should arise with respect to the fulfilment of any part of this Contract, two persons shall be chosen by each party, who in case of disagreement, shall chuse a fifth person, and their decision shall be final. —

In Witness whereof, the parties hereto have interchangeably set their hands and seals, the day and year above said. —

expected to pay the Marines board myself with part of it, but M'.
Johnson has since paid it, my detachment is compleated and I send
you a size roll of them made out agreeable to one your adjudant L'
Lewis gave me when at Newby Port, with an additional collom of
stations for I found there was no place to distinguish the officers
from the privates in the form he gave me. I am very sorry of being
under the disagreeable necessity of telling you that I was obliged to
send to L' Lilley at springfield for the remainder of my detachment
wich was a Drummer and ten privates one of them wich he sent was
so badly wounded in the foot that our surgeon said he was not fit to
go to sea, consequently I did not recieve him but sent him back by
the searjeant that came with them, and I have enlisted another man
in his stead, I have given each man a months pay, the searjeant that
came with them told me that the idea of their having a months pay
was held up to them when they came on board of a Ship, I have taken
two months pay to myself which I suppose is not more than customary
as all the officers on board are allowed the same, if I had paper money
on board or could go to town to get it I would enclose the remainder
to you, for I do not want it on board as the purser is to pay me and
the privates, but I cannot send it as the Ship will sail in the morning.
I enclose you a bill of expences giving you credit for what I have

for our Ships of War, to the Havanna, and cruise in the Vicinity of
the Havanna, from the Matanzes to the Morea untill you fall in
with Capt Decatur, of the Delaware, under whose orders you will then
place yourself Vessel & Crew, — you have heretofore received your
Authority to capture French armed Vessels — Armed Cruising Vess-
sels without Commissions, are pirates and from Vessels of this de-
scription, our commerce receives a great deal of Injury — you will
consider your authority to the capture or destruction of these Vessels
also, and in Addition to your former Instructions it is the positive
command of the President, that on no pretence whatever you permit
the public Vessel of War under your command to be detained, or

To William Crafts, Navy Agent, Charleston, S. C., from Secretary of the Navy

[PHILADELPHIA]

Navy Department Dec. 31st. 1798 —

WILLIAM CRAFTS Esqr.
Charleston So Carolina

SIR I have been and am so much engaged in sending off our Vessels and with Committees of Congress, that I have not been able nor can I now attend sufficiently to letters received from you.

Six dollars p:\ month, Cloathing and one Ration p:\ day is certainly as much as ought to be given to Landsmen; of which description the Crew of a Galley ought to consist; for able seamen cannot be necessary for this Service, however as during the Winter the Galleys can be of Very little use, and as I suppose when they are equipped they can be manned at a short Notice by the Citizens upon any Emergency that may occur; it will not be worth while to encrease the Wages at present.

If in the Spring it should be necessary, we must be governed by Circumstances, but farther South the lowness of pay does not seem an Obstacle to raising Men. — If more is given at Charleston, the pay must be raised every where;

The Seamen who engage in the Cruising Vessels have no Cloaths from the public.

If the men for the Galleys would find their own Cloathing, at ten dollars p:\ month, the public would be benefited.

I approve of your having provided Cloathing for the French prisoners although there has yet been no provision made by law on this subject. —

If you find other articles than those you have provided necessary, such as Shoes or Stockings you may also procure them. — Your Accounts for this Expenditure you will please to forward to the Accountant as soon as convenient.

Your draft of the 11th Instant for 4000 dollars, has appeared, and is honored.

Howitzers are not to be got. — Swords & Pistols cannot be necessary — Boarding pikes, muskets & Bayonets will be sufficient for any Service the Galleys can possibly be engaged in — Unnecessary Expense should be avoided.

As to the insufficiency of the Goal — Is there another Goal in the State, to which the prisoners can be Removed? If there be, they
should be removed & the farther from the Sea, the cheaper they can be maintained. — Congress have as yet made no regulations nor provided funds for the keeping of the prisoners. —

Something must be done this Session; but as the States more Eastward have Goals, and are fond of keeping the prisoners for the advantage of Selling their provisions, it is not likely any Goals will be erected at the expence of the United States. —

Commissions shall be sent soon for the Captn of the Gallies; in the mean time they can act under your appointment —

I have the Honor &C.

Action Between the Ship Perseverance, Captain Wheatland, and a French Privateer

COPY OF A LETTER FROM CAPT. RICHARD WHEATLAND, TO HIS OWNERS

SHIP Perseverance, OLD STRAIGHTS OF BAHAMA,

Jan. 1, 1799.

Gentlemen,

Conceiving we may possibly meet an opportunity of forwarding this immediately on our arrival at the Havanna, or perhaps before, induces me to give an account of our voyage thus far.

Until 26th Dec. met with nothing material, except heavy disagreeable weather, off the coast; and having the winds so far to the westward as to preclude the possibility of making our passage round the Bank, were compelled, contrary to our wishes, to go through the Old Streights of Bahama. On the afternoon of the 27th, were boarded by the British frigate Romilla, Capt. Rolles, our papers examined, and we treated with great politeness. They purchased (at our own prices) a number of articles from the cargo and of the people. Three days before, they had captured a French privateer sloop, of 10 guns and 60 men, and retook an American brig, her prize. After two hours detention, we were permitted to proceed, which we did, without meeting any interruption, until Monday, 31st December — for particulars of that day, we give an extract from a journal kept on board.

"Dec. 31st. Key Romain in sight, bearing south, distance 4 or 5 leagues — A schooner has been in chase of us since 8 o'clock, and has every appearance of a privateer. At 1 o'clock, P. M. finding the schooner come up with us very fast, took in steering sails, fore and aft, and stood for her; she immediately tacked and made sail from us; we fired a gun to leeward, and hoisted the American ensign to our mizen peak; she hoisted a Spanish jack at the mizen topmast head, and continued to run from us. Finding she outsailed us greatly, and wishing to get through the Old Streights, at 2 o'clock, P. M. we again about ship, and stood on our course. The schr. immediately wore, fired a gun to leeward, and kept after, under a great press of sail. At half-past 2, she again fired a gun to leeward; but perceiving ourselves in the narrows above-mentioned, we kept on, to get through them, if possible, before she came up with us, which we effected.
SHIP PERSEVERANCE, OF SALEM.
At 3 o'clock, finding ourselves thoroughly clear of Sugar Key and Key Laboos, we took in steering sails, wore ship, hauled up our courses, piped all hands to quarters, and prepared for action. The schr. immediately took in sail, struck the Spanish jack, hoisted an English union flag, and passed under our lee at considerable distance. We wore ship, she did the same, and passed each other within half musket shot. A fellow hailed us in broken English, and ordered the boat hoisted out, and the captain to come on board with his papers, which he refused: He again ordered our boat out, and enforced his orders with a menace, that in case of refusal he would sink us!! using at the same time the vilest and most infamous language it is possible to conceive of. By this time he had fallen considerably astern of us: He wore and came up on our starboard quarter, giving us a broadside as he passed our stern, but fired so excessively wild, that he did us very little injury, while our stern chasers gave him a noble dose of round shot and langrage. We haul'd the ship to the wind, and as he passed us, poured a whole broadside into him, with great success. Sailing faster than we, he ranged considerably ahead, tacked and again passed, giving us a broadside and a furious discharge of musketry, which they kept up incessantly till the latter part of the engagement: His musket balls reached us in every direction: but his large shot either fell short or went considerably over us: while our guns, loaded with round shot and square bars of iron six inches long, were plied so briskly, and directed with so good judgment, that before he got out of our reach we had cut his mainsail and foretopsail all to rags, and cleared his decks so effectually, that when he bore away from us there were scarcely 10 men to be seen. He then struck his English, and hoisted the flag of the "Terrible Republic," and made off with all the sail she could carry, much disappointed, no doubt, at not being able to give us a fraternal embrace. The wind being light, and knowing he would hail us, added to a solicitude to complete the voyage, prevented our pursuing him: Indeed we had sufficient to gratify our revenge for his temerity; for there was scarcely a single fire from our guns but what spread entirely over his hull. — The action, which lasted an hour and twenty minutes, we conceived ended well; for, exclusive of preserving the property entrusted to our care, we feel a confidence that we have rid the world of some infamous pests of society — We were within musket shot the whole time of the engagement, and were so fortunate as not to receive but very trifling injury — not a person on board met the slightest harm. Our sails were a little torn; and one of the quarter-deck guns dismounted. The privateer was a schooner of 80 or 90 tons, and fought five or six guns on a side.

We are now within 48 hours sail of Havanna, where we expect to arrive in safety: Indeed we have no fear of any privateer's preventing us, unless greatly superior in force. — The 4 quarter-deck guns will require new carriages: one of them was entirely dismounted. We remain, &c.

Richard Wheatland.

[LC, Boston, "Columbian Centinel", 6 March, 1799.]
Captain Richard Wheatland, (of the Perseverance) in a letter from the Havana, of the 18th of January, adds —

"The Gentleman we brush'd in the Old Straits, 3 days after captured a brig from Charleston, and detained the Captain 16 days on board, and then gave him the boat and set the crew adrift. The Captain has since arrived here, and informs us that the privateer was a schooner of 8 six pounders and 50 men; that a number of her people were dangerously wounded, that she had four round shot through her bottom, a bar iron through her counter, and four feet water in her hold, when she got away; that her sails were cut entirely to pieces, and the boat on her deck was shattered by our discharge of our bar iron.

The villian fought under English colors. In fact they capture under English and American flags altogether. It is impossible to descriminate; and every armed vessel that approaches us (under whatever colours) if we can manage her, shall be fired into. The Master of the privateer observed to the Captain, while he was detained on board, that his men were armed 30 of them with pistols and a short dagger each, and were prepared and determined to board the Ship, but our booms and boarding nettings deterred him. The rascals run up along side American ships, under English Colours, and jump on board, and capture the vessel before they are sensible of it. He had no idea we should dare fire into a vessel with the English union hoisted."

Extract from Captain Thomas Truxtun's Journal, U. S. Frigate Constellation, Monday, 31 December, 1798

From the 26th of October to this Day, no very extraordinary Occurrence has turned up on Board, the Crew have been employed generally in refitting the Ship, receiving on Board her Stores, and keeping her in good Order, the common Transactions of each Day, however, are noted in the Log Book.

At one PM Wind being at West, a fine Breeze, made the Signal for the United States' Brig, Richmond of 16 Guns, Captain Barron, and four Merchant Vessels under Convoy to get underway, and immediately after hove up, and proceeded down the Bay. At half past 4 PM put the Pilot on Board a small Schooner at an Anchor near Cape Henry, and stood out to Sea, South East B. East under an easy Sail. At half past 5 PM had a Light put in the Poop and top Lanthorns, the Fleet all in Sight. At half past 7 Ditto spoke the Richmond, all the Fleet in Sight, except the Brig Zephyre. At 8 Ditto the Light on Cape Henry bore West North West four Leagues Distance, shortened Sail, and run under the Main and fore top Sails, which were double reefed and lowered on the Cap, until 4 AM, and then hove the Main top Sail, to the Mast, and lay to untill Day Light, when, seeing Nothing of the Zephyre, made Sail. At 7 Ditto hoisted the Signal for to follow Motions of Commodore, and at half
past 7 hoisted the Signal to sail in close Order, both of which were answered by the Richmond, all the Vessels of the Convoy except the Zephyre, near us.

Fresh Breezes, and a head Sea launched top Gallant Masts, unbent the Cables, stowed the Anchors, and housed the Guns.

DESIGN OF THE HEAD FOR THE FRIGATE Constellation

NATURE, represented in pleasing extacy at the period of the American Revolution over which she presided: she is crested with fire, her waist is encircled with the zone or signs of the zodiac, her hair and drapery loose and flowing, her right arm and head elevated, her left arm lightly resting on a large sphere, on which the Constellation is rising, her feet on a rock, part of which is formed into a rude pyramid, allegorical of the rapid and natural Union of the States, which took place at the commencement of the revolution, and supports the sphere aforementioned.

The Flame ascending from the top of the rock, is expressive of the fire which gave energy to the Patriots; the Water descending from the rock is an allusion to that Temperance peculiarly characteristic of the American revolution; the Scale and Mirror, at the foundation of the Pyramid, emblematic of the Truth and Justice of the cause: the Figure of the Dove or bird of peace, resting in the cap of Liberty expressive of Peace & Freedom, as principal objects of the revolution;
the Herculean club encircled with laurel, is emblematic of that heroic Virtue that defended and obtained the cause; the Broad rock on which the figure stands, is emblematic of that Independence which was the Ultimate end of the Revolution.

The Seasons represented in the trail crowning the Muses, as a pledge of the Free and Uninterrupted progress in all the pleasing branches of Science that open to View in the new World.

As I have represented the Constellation in its first appearance, in the Political Hemisphere, or glorious period of the Revolution, in the head; so I have in the stern represented it in a more matured or permanent state. The centre is a large sphere with the Constellation inserted, resting on a massy pedestal of an artificial form, with the fasces inlayd in the pannel, emblematic of the Union and great basis on which our government rests; three large volumes and a Scroll representing the three branches of Government and Constitution, is reclining on the side of the Pedestal, and the Eagle and Arms of the United States on the other; next are two of the cardinal virtues, Fortitude and Justice, introduced as the supports, attributes indispensable with the happiness honor and independance of a Nation. Next to the figure of Fortitude on the Starboard side, is the Figure and emblem of Order, joined to the emblems of Industry and Agriculture, supported by Ceres the Goddess of agriculture in the starboard quarterpiece.

On the Larboard side, next to Justice, is the Figure and emblems of Science, joined to the Arts of Ship building; Navigation, &c. supported by Neptune, the God of the seas, in the larboard quarterpiece.

[Note.—No positive evidence is at present available to show that this design was actually installed on the Constellation.]

AMERICAN ARMED MERCHANTMEN, 1798

In connection with the Congressional Act of 9 July, 1798, authorizing the issue of special commissions to American privately owned vessels to attack French armed vessels in the protection of American commerce, the following list of American armed merchantmen operating during the year 1798 has been prepared from such information as is available. In view of the practice prevailing before 1798 armed with cannon it must not be assumed every ship listed had received an official commission at this time.

The data for these vessels have been obtained from various sources, including the Custom House Records of the Treasury Department; the French Spoliation papers in the U. S. Court of Claims; the Archives of the State Department; the Baker Library, Harvard University; the Essex Institute; the Massachusetts Historical Society; the Rhode Island Historical Society; and selections from the Privy Council Register (Public Record Office, London) in the Library of Congress. Contemporary newspapers of the principal American seaports have also been consulted for items bearing upon the subject, and in many instances the substance of such newspaper items has been included in the notes as indicated. Unless otherwise indicated the registry data are from custom house records in the Treasury Department.

In some cases where no specific information is available as to the registry port of a vessel, it is possible that a few of them might be of foreign registry. It is also possible that some duplication occurs in listing vessels of the same name where information is incomplete.

Sold by Seth Barton to U. S. Government on 3 May 1798, and fitted out as a vessel of the U. S. Navy, as the U. S. Baltimore.

The ship is now at New York, is a very fast sailer, well calculated for force, and will carry 28 guns. This is efficient patriotism, and may it find many imitators. [The New Hampshire Gazette, Portsmouth, June 5, 1798.]

Ship America, of Philadelphia, owners Joseph Antony & Co. — 20 guns. [Newport Mercury, Newport, April 3, 1798.]

The Belvidere, Letter of Marque, of 14 guns, the America of 16, the Spy, Brig Polly for the Havanna, and several other vessels sailed from Reedy Island on Monday evening. [Claypoole's American Daily Advertiser, Philadelphia, Pa., Friday, July 20, 1798.]

Wilkinson, September 2, 1798. On Sunday arrived the armed schooner Maria Mathias, Captain Morse, from the Havanna, who informs that on the 18th ultimo, the embargo that had existed there for 68 days was taken off, and that three French privateers put to sea the same day, one of them of 12 guns and 120 men — On the 19th sailed the American fleet of 67 sail for different ports of the United States, under the convoy of the following vessels, viz:

Ship Fanny, Walman, 16, 6's & 4's, of Salem
" Eliza, of 16 9-pounders, of Charleston
Brig George, 10 4's & 6's, of New York.

Two privateers remained at the Havanna when the fleet sailed, and upwards to 70 American vessels. A convoy from the Government of the United States had been anxiously looked for and expected at the Havanna — the armed vessels received 13000 dollars from the fleet for their protection. The Americans in the Havanna had been much menaced and insulted by the French privateers, but on the arrival of the Letters of Marque America and Belvidere, from Philadelphia, (both of whom gave and received salutes) a very visiable alteration in their conduct was observable. [Claypoole's American Daily Advertiser, Philadelphia, Pa., Wednesday, September 5, 1798.]

Letter from Newcastle, October 6, [1798]: — "The Letters of Marque America and Belvidere, with a large fleet, were to sail from Havanna in 7 days after the Spy (Sailed from Havanna 18 days ago)." [Federal Gazette & Baltimore Daily Advertiser, Baltimore, October 9, 1798.]

Arrived yesterday ship Ardent, Smith, 16 days from St. Pierre [Mart.]. Came into the Capes on Monday night, and next morning saw the frigate Constellation in Lynnhaven bay, ready for sea — Capt. Smith saluted the fort and town with 18 guns. [Federal Gazette & Baltimore Daily Advertiser, Baltimore, Md., June 29, 1798.]

Baltimore, July 17th [1798] Capt. Smith, of the ship Ardent, of this port, bound to sea, returned yesterday, in a pilot boat from the Capes, and left his ship in Patuxent. The cause of his return is, to procure a letter of marque commission, having learnt by a pilot boat, that a French privateer was cruising between the Capes. The Ardent, we understand, has 60 brave American men on board, carries 12 guns, and as Capt. Smith is a man of courage, he will no doubt give a good account of the pirate should he fall in with him. He has our prayers for his complete success. [Commercial Advertiser, New York, July 20, 1798.]

(Philadelphia, May 16, 1798.) Yesterday the Ship Belvedere arrived from London, mounts 10 guns, sailed with convoy; May 9th, Latitude 39° N., Longitude 65° W., fell in with and engaged a French Sloop privateer, of 12 guns, full of men. The privateer bore down, and fired into the ship — which immediately returned the compliment; and after exchanging a number of shot, the pirate sheered off. She had a brig with her, under English Colors. Thus is a fine ship and cargo saved by being armed, and having a spirited Commander. [The Salem Gazette, Salem, Mass., May 25, 1798.]

New York, Friday, May 18, [1798]. Among the many happy consequences of Arming Merchant Vessels, we instance with peculiar pleasure the Ship Belvidere, Capt. Reynolds, owned by Mr. Arden of this City, which has safely arrived at Philadelphia. In the Gulf Stream Capt. Reynolds fell in with a French pirate, which gave chase to him and must unquestionably, have made prize of him, had he not possessed the means and the resolution to defend himself. No sooner had the pirate come within gun-shot than Capt. Reynolds hove to and nobly repulsed the infamous pirate. — Capt. Reynolds generously took under convoy the Ship Warren, Capt. Fawn, for Virginia. Capt. Reynolds well deserves and will doubtless receive the plaudits of his country men for preserving from French rapacity a fine ship and valuable cargo. [Commercial Advertiser, New York, May 18, 1798.]

The Belvidere, Letter of Marque, of 14 guns, the America of 16, the Spy, Brig Polly, for the Havanna, and several other vessels sailed from Ready Island on Monday evening. [Claypoole’s American Daily Advertiser, Philadelphia, Pa., Friday, July 20, 1798.]

BENJAMIN, Ship (?). Commander: ———- ———-

Allowed to arm in a British port for her defence. Bound from London to Lisbon, 1798.

BERMUDA PACKET, Sloop. Tons: 108; Guns: 12. Commander: ———. For Sale, the Sloop Bermuda Packet, Burthen 108 tons, Bermuda built, mounts 12 guns, sails remarkably fast, and is well found. [Claypoole's American Daily Advertiser, Philadelphia, Pa., Thursday, November 8, 1798.]

Savannah, May 29, [1798]. The Brig Boston Packet, of this port, John Morgan, Master, on her passage to Jamaica, was attacked by two brigand boats, which she with difficulty beat off, after a severe engagement. On the 22d of April [1798] she put into Cape Nichola Mole, from whence she proceeded under convoy to her port of destination. The Boston Packet was the first vessel armed in this port after the President's communication. [Commercial Advertiser, New York, June 18, 1798.]

BROOKLINE, Ship. Tons: 640. Commander: ———. A beautiful ship of 640 tons was launched at New York the 26th Ult.; she was intended for the Indian trade; but will be fitted for a ship of war, and offered to government, this is called the Brookline. [The Oracle of the Day, Portsmouth, N. H., Aug. 11, 1798.]
BROTHERS, Ketch. Tons: 148; Guns: 8; Men: 15. Commander: John Felt. Issued a Clearance on October 25, 1798, at Salem and Beverly, for Cadiz. [TDA. Custom House Records.]

A letter has been received from Capt. Seward, of the armed Ship Camillus of this port, [Boston] belonging to Mr. Ebenezer Parsons, informing that on his outward passage he was attacked by two French privateers, which after an action he beat off — and rescued from them a Portuguese vessel, which they had taken. His men stood to their guns with perfect resolution, and exercised them in the most active manner. This is another proof of the expediency of arming. Several Benefits result from the issue of this engagement, which all honest Americans must exult in. A Valuable ship, cargo and a number of brave fellows are preserved to their Country — and Piracy disappointed of its Prey. [Massachusetts Mercury, Boston, December 28, 1798.]

Savannah, 24th November, Arrived ship Carolina, Capt. Malcolm, 53 days from London. In Latitude 44° N., Longitude 25° W. fired on by a strange ship at 9 P. M. She sheered off when fire returned. [Commercial Advertiser, New York, December 12, 1798.]

**Cato**, Ship. **Commander**: John Wardrope.

Portsmouth, September 29th, 1798. On Thursday last arrived in this port, 36 days from Tobago, the American private armed Ship Cato, commanded by John Wardrope Esq. Soon after leaving Tobago, Capt. Wardrope was chased by a French freebooter of superior force and full of men; finding that the pirate gained him fast, Capt. Wardrope wore round and prepared for Action; after which he gallantly bore down upon Monsieur Dolittle, who prudently crowded all sail to avoid fighting. By the officer like manoeuvre, an excellent Ship, Cargo and Crew were saved from a fraternal hug. [The Salem Gazette, Salem, Mass., October 9, 1798.]

Allowed to arm in a British port for her defense.  Bound from London to Charleston, S. C., 9th of January 1798.

[LC., Privy Council Register, Vol. 43, p. 32; P. R. O., London.]

For London — To sail on or before the 31st instant, the Copper bottomed Ship ELIZA, Neil McNeill, Commander.  Burthen 380 tons, mounts ten 24 and two 9 pounders, with men answerable; sails remarkably fast and will positively be ready for sea by the time mentioned.  For Freight or Passage, having elegant accommodations for Passengers, apply to Captain McNeil on board at Beale’s Wharf, or to Muir & Boyd.  [City Gazette and Daily Advertiser, Charleston, S. C., Monday, 28th May, 1798.]

Charleston, October 1, 1798.  The Ship ELIZA, McNeil, of this port for London, was taken by a French privateer, after an obstinate engagement, in which several of the crew of the ELIZA were killed and carried into Passage.  The London papers contain the following articles, which refer to the ELIZA, Captain McNeil, and to the privateer which capture her:

"Paris, July 28, 1798.

"The Ship L’Heureux Decida, of Bordeaux, Capt. Noel, has taken after an engagement of an hour and an half, a vessel of 380 tons and 18 guns, the greater part of which were 36 pounders.  It was bound from Charleston to London, under American colours, and it was not until it had been brought into port, that it was discovered to be an American.  Its Cargo consisted of 154 chests of white sugar; 212 bags ditto; 126 chests of brown sugar; 400 bags of coffee; 260 bales of cotton; 65 hogsheads tobacco; 317 bbls rice, 12 bbls of indigo, and 18,000 Slaves."

"London, August 1, 1798.

"The American vessel from Charleston, the capture of which is stated in the last French papers, supported a running fight for two hours against a very superior force, and would perhaps have finally effectted his escape, but the French in the true spirit of piracy, hoisted the bloody flag: Upon seeing which the American Commander, in tenderness to some female passengers he had on board, immediately surrendered." [The Virginia Herald, Fredericksburg, October 16, 1798.]

Capt. Doane, of the Brig MERCURY, from the Havanna, has furnished us with the following particulars: On the 18th [August, 1798] sailed from the Havanna, under convoy from the ships ELIZA, of 16 guns, Capt. Morrison, of this port (the Commodore); ship Fanny, of Salem, 16 guns; and the brig George, Greggs, of New York, of 12 guns.  Nothing remarkable happened in the fleet until the 25th instant, when a frigate, which proved to be the Prevoyante, Captain Wemiss, fell in with the fleet, and captured the ship Bernisoos, under Danish colors, bound for this port; a schooner, under Danish colors, bound for Rhode Island; and several Americans.  When she was last seen she appeared to have nine sail in possession.  She fired two shot at the MERCURY, but did not pursue her.  Capt. Doane left the fleet, and did not fall in with it until the next morning.  Nothing material happened afterwards.  Capt. Morrison left the general convoy, and saw the vessels belonging to this port safe to the Bar yesterday; he is bound to New York.  Capt. Doane speaks in the highest terms of the conduct of Capt. Morrison; he says it is impossible for any man to have been more attentive than he was to the vessels under his care.  Capt. Doane was informed by Capt. Hatch, one of the fleet, that a French privateer had been in the fleet, in the night of Monday last, and fired several shot; but he had no information of her capturing anything.  [City Gazette and Daily Advertiser, Charleston, S. C., Wednesday, 20th August, 1798.]

Captured by French Privateer Don Guichot (Capt. Opimtin) on 13 February 1798, and recaptured by English Frigates Nympha, Phaeton & Mermaid on 21 February 1798, while on route Boston to Amsterdam, in Latitude 49° 10' N., Longitude 10°30' W., and carried into Plymouth, England.

ELIZA, Ship. Commander: ——— ———.

[S.DA. Dom. L., Vol. 11.]

Arrived the snow Eliza, Capt. Perry Benson, from London, last from Falmouth, which he left the 23rd March [1798]. Every ship in the convoy was armed, except the Montezuma and Carlisle. The Eliza saluted the City this morning with 16 guns. [Commercial Advertiser, New York, May 10, 1798.]

Baltimore, October 19, 1798. On the 19th of August, [1798] Latitude 47° N., Longitude 26°14' W., a brig of 12 guns (French) boarded the Ship George Washington, Capt. Sampson, and informed Capt. Sampson that they had fallen in with, and had an engagement with the Ship Eliza of Baltimore, about the 10th or 12th of August. The privateer had suffered much, and reported that the Eliza would have sunk her, had not she fired so high. The privateer robbed the George Washington of a main-top-mast, and several other articles. Capt. Sampson was not informed, to his recollection, whether the Eliza was bound to or from Europe, but that she escaped being taken.

(It is supposed that the above was the Snow Eliza, of Baltimore, owned by S. Smith and Buchanan, she having left Liverpool, homeward bound, on the 27th of July 1798, armed with 10 six pounders and 6 twelves.) [The Salem Gazette, November 2, 1798.]

ELIZABETH, Ship. Commander: ——— ———.

Wednesday, Sept. 5th, [1798] Arrived Ship Sally, Campbell, Liverpool, 47 days. Sailed in company with armed ships Elizabeth, for Savannah; and Sally for New York, parted August 26th Latitude 44° N., Longitude 67° W. [The Massachusetts Mercury, Boston, Mass., Sept. 7, 1798.]

FANNY, Brig. Guns: 14; Men: 40. **Commander:** ——— Orman [or Ormond].

Baltimore, September 3, [1798] Schooner Sisters, Johns, 14 days from the Havannah, sailed under convoy of 6 armed vessels, with a fleet consisting of about 70 sail of Americans. The following vessels were employed by the fleet under bonds, to defend them from everything: Ship Eliza, Morrison, of 16 guns, 75 men; Ship Fanny, Wellman, of 16 guns, 60 men; *Brig George*, Gregg, of 16 guns, 30 men. The following Captains pledged their honors, to defend the fleet in case of emergency: Capt. Orman, *Brig Fanny*, 14 guns, 40 men; Capt. Cobb, *Brig Rainbow*, 10 guns, 15 men; Capt. Morse, Schooner *Maria Matilda*, 8 guns, 20 men, and several others with more or less guns.

[Commercial Advertiser, New York, September 6, 1798.]

FANNY, Brig. Guns: 10. **Commander:** ——— ———. **Registry Port:** Charleston.

New York, December 31st 1798 The *Amiable Creole* sailed in company with the *Brig Fanny*, of Charleston, of 10 guns; *Brig Mercury*, of Charleston, of 16 guns; *Bark Hope*, of Boston, of 10 guns, and a number of others not armed. The *Baltimore* convoyed the fleet to Latitude 29° N, and then every one made the best of his way. [The Salem Gazette, Salem, Mass., January 8, 1799.]

FANNY, Ship. **Commander:** Daniel H. Braine. **Registry Port:** New York.

FANNY, Ship. Guns: 16; Men: 60. **Commander:** ——— Wellman. **Registry Port:** Salem, Mass.

Arrived Schooner *Lisbon*, from Havanna, having been convoyed by American Ship *Eliza*, Capt. Morrison, of Charleston, carrying 16 Guns and 75 men; the Ship *Fanny*, Wellman, of Salem, with 18 Guns and 60 men; and the *Brig George*, Gregg, of New York, with 10 guns and 35 men. [The *Norfolk Herald*, Norfolk, Va., Sept. 6, 1798.]

Salem, September 14th [1798]. In the Salem Gazette of Tuesday last it was mentioned that the Havanna fleet was convoyed by Spanish armed ships; we find, however, that the convoy was entirely American, and consisted of the *Ship Fanny*, Wellman, of Salem, 16 guns and 60 men; the Ship *Eagle*, Morrison, of Charleston, 16 guns and 75 men; *Brig Fanny*, Orman, 14 guns and 40 men; *Brig Rainbow*, 10 guns and 20 men. There were 13 Spanish Ships of War lying at the Havanna, but none of them came as convoy. Commodore Wellman, on his arrival in port, gave a federal and truly joyful salute. Much anxiety has been entertained for the safety of the property now arrived, as the French pirate boats had been a long time waiting at the Havanna for its sailing, to take it under convoy to a French port; but they at length found that they would have too many guns to encounter, and had waited in vain. [The Oracle of the Day, Portsmouth, N. H., Sept. 22, 1798.]

MATILDA, Sloop. Commander:—— Harriett. Extract from the log book of the Sloop Matilda, Capt. Harriett, 21 days from Barbadoes: “Wednesday, December 19th, [1798] in sight of Cape Henry Light-house, at sun rise, discovered a schooner standing athwart our fore-foot, she fired a gun and hoisted American colors, we immediately hoisted English colors, and returned a gun to leeward; we then hailed and requested her to come under our lee, as the captain wished to speak her; but she stood off upon a wind; we then fired a gun a-head, and shortly after another a-stern, to bring her too; when she unexpectedly brought her whole battery to bear upon us, and gave a broad side, which we returned, and tackled and stood from her, not wishing to engage, at the same time firing another gun to leeward as a signal of friendship. The schooner tackled and stood after us, and gave us another broadside, which we returned. Shortly after spoke her, and was told her name was the Resolution, from Barbadoes to Alexandria, but could not learn the Captain's name.” The Schooner called the Resolution in the above account, is the schooner Welcome Return, Capt. Guthrie, belonging to Col. Hooe of this town. [The Massachusetts Mercury, Boston, Mass., January 8, 1799.]

PERSIGINE, Brig. Tons: 165; Guns: (pierced for 16). Commander: ———.

Owners: Jones & Clarke.

Saturday [December 8, 1798] was launched, for Messrs. Jones and Clarke, the Brig Persigine, coppered bottom, pierced for 16 guns, clear of stern chasers, 165 tons burthen, built by Messrs Crispin and Ashton, of the Northen Liberties, and drafted by the former. For beauty and symmetry of proportion, judges of Ship Building agree that this vessel is equal to any heretofore built in the vicinity of the city, although the draft of her was made by a person not more advanced in years than the age of nineteen: We trust the progressing state of Naval architecture in the Union, will continue to receive new lustre from the established abilities of those shipwrights [Claypoole's American Daily Advertiser, Philadelphia, Saturday, December 8, 1798.]

Boston, Tuesday, September 18th, 1798. Capt. Motley, late of the ship Reindeer, arrived at Portland, on Friday last from Guadaloupe. Capt. Motley’s ship made a show of 20 guns, 19 of which were of wood — she was bound to Martinique; and when nearly in sight of the island, was fallen in with by a French privateer. On drawing near, the arch pirate called out, that he knew it was an American vessel, and that, if a single gun was fired, he would murder every person on board. Capt. Motley answered that his wanting guns was the only reason for not using them. The Reindeer was conducted into Guadaloupe, and instantly condemned. Hughes said, if Le Croyable was condemned he would imprison every American in his island. A Boston Schooner bound into Guadaloupe was taken while entering. She had cleared from America June 30th [1798]. The French knew of the non-intercourse bill, and therefore said she was not bound to Guadaloupe, indicating that no American would evade the Law in such way. [The Massachusetts Mercury, Boston, Mass., Sept. 18, 1798.]

Marine Intelligence [Boston] Thursday, June 7, [1798] Arrived Ship Sarah, Hopkins, an armed vessel, from Algiers. In coming to anchor she fired a salute. The crew of the Crescent, frigate, came passengers in the above vessel. Off Madeira, was chased by a French privateer. He shortened sail; but the privateer kept up a constant fire. When she came up with Capt. Hopkins, he was ordered to hoist out his boat and come on board with his papers; which he refused; but offered them for inspection if the privateer's boat was sent along side. Upon which the pirate poured a broad side into the ship, which injured the rigging but did no other damage. Captain Hopkins returned this civility with a full discharge of his guns, which put the buccanier to flight. The Algerines were highly pleased with the frigate. The seamen which were sent out with the Crescent, have returned seasonably; and it is not doubted they have the spirit to continue in their Country's service, to support its honor, interest and independence. [**Commercial Advertiser,** New York, June 23, 1798.]

Extract — from Savannah.  "The Triton, Osborne, from Savannah, to Martinique, an American vessel, is taken by a French privateer, and the crew have been put to death under singular circumstances. The Triton, a well armed merchant vessel was met by a French privateer which, attempting to seize her, was beat off after a smart action. A second French privateer in company with the other, afterwards attacked the Triton in her retreat, and was beat off also. The first privateer again came up with the Triton, when, after another smart action, the Triton was boarded, and in a scuffle about striking the colors of the American Ship, her Captain shot at the French Commander, in consequence of which the whole crew of the Triton were put to death." Alexandria, January 1st, [1799] Arrived on Sunday the armed schooner Neptune, Capt. Willis, Tortola; also the armed schooner Welcome Return, Capt. Guthrie, Tortola. On Wednesday, December 19th, [1798] the schooner Welcome Return, at daylight, discovered a sail, which she took to be a pilot-boat, and accordingly fired a gun for a pilot. At 7:00 A.M. found the sail to be an armed sloop under English Colors which bore down upon her, and hailed her, to which she answered. She then hailed the sloop and was answered that she was the Matilda on a cruise and was ordered to back her topsail, come under their lee and send her boat on board, with her papers, or she would have a broadside immediately. The Captain replied that she was an unarmed armed vessel, bound in, and that he would do no such thing; when the sloop gave her three guns and stood after her; The Welcome Return not altering her course, standing in for land. The sloop then gave her a broadside. The Welcome Return immediately returned the compliment so hot, that after seven or eight broadsides, the British sloop hauled down her colors, and fired a gun to leeward which was returned by the schooner. With this the captain of the Welcome Return wore ship and run along side, and called the Captain of the sloop to an account for his conduct; for which he endeavoured to excuse himself. He said his name was George Mitchell, of the sloop Matilda from St. Vincents. [The Connecticut Journal, New Haven, Conn., January 17, 1799.]

Norfolk, May 15, [1798] Loss of the Brig Williamson, Captain Auldboy. The following account of the loss of the above armed Brig, we have from the Captain who arrived in town on Sunday night: That he sailed from Hampton Roads on Friday about 2 o'clock in the afternoon with some vessels under convoy for the Mole — At six P. M. the light house bearing W. distance about four leagues, wind N.E. by N. steering E.S.E., with a fresh breeze under close reefed topsails, sounded the pumps, found 18 inches of water; at half after six found the leak to increase notwithstanding both the pumps were kept constantly going, and a number of buckets bailing out the steerage; threw all the water-casks and a number of other articles overboard; at half after eight she had upwards of three feet water in her hold and the pumps choked with [word illegible], fired a gun as a signal of distress for the Schooner Hope, Captain Baldry, who immediately came up with the
Brig for the purpose of assisting us if she should sink; then we wore and in company with the Schooner stood in for the Capes, steering N.W. and N.W. half N. On sounding at 12 o'clock found we were in three fathom water, put up helm and wore, when the brig immediately struck on the north shoals of Currituck, and bilged, both masts being cut away and the water running over her; the Schooner at the same time run ashore within a quarter of a mile of the brig. At daylight Captain Auldboy and his Gunner, got to shore in the small boat, where they procured sufficient assistance to save the lives of the remainder of the crew, who were lashed for hours in the shrouds. One boy died on his reaching the shore.

The above Brig had just undergone a thorough repair, carried 8 guns and 4 swivels and 30 men. The Schooner is expected, will be got off without injury. [General Aurora Advertiser, Philadelphia, May 23, 1798.]

To Captain Samuel Barron, U. S. Navy, from Captain Thomas Truxtun, U. S. Navy

DEAR SIR, The Signals from the Navy Office are very imperfect indeed. I shall be obliged to adopt a Sett of my own, when our little Squadron gets together, mean Time we must do as well with the above as possible. I shall however for the present, make Use of Lights and Guns, instead of Guns only for Night Signals, in the following manner to Viz:

for No 1 one Light
   2 two ditto
   3 three ditto
   4 four ditto
   5 five ditto
   6 six ditto
   7 seven ditto
   8 eight ditto
   9 nine ditto
10 one Gun
11 one Gun, one Light
12 one Gun, and two Lights, & so on

and for-------------------------------------
   20 two Guns
   21 two Guns, and one Light
   20 three Guns ---
   31 three Guns, and one Light, & so on

and for-------------------------------------
   40 four Guns ---
   41 four Guns, and one Lights
   42 ditto, and ---- two ditto
   43 ditto, and ---- three ditto
   44 ditto, and ---- four ditto
   45 ditto, and ---- five ditto
   46 ditto, and ---- six ditto
   47 ditto, and ---- seven ditto

as there is no other Vessel of the Squadron together, you will not wait for the Signal to exercise Guns &c. but do it as often as possible. I exercise my Marines twice a Day, and the Cannon as often as the Weather, and other Circumstances will admit. Your's &c.

THOMAS MARTIN Esquire
Portsmouth New Hampshire —

Sir I am honored with your favor of the 22d instant — & have also received a Letter from Captain Adams, — from which it appears that the Adams [the Scammel] is to be of no use to the Public, until she undergoes alterations in her Masts and indeed the Captain strongly advises that she be converted into a Brig. —

I beg that you will be so good as to call on Col’d Hackett — and other experienced Men — have the Vessel examined — and as quickly as possible, have such changes made, as will make the Vessel fit for service. — and without delay. — If she will do as a Schooner, the expense of making her a Brig, ought to be avoided. — I hope every thing can be put in order, to have the Vessel ready to be of some service, by a Cruise to the West Indies, in three weeks from the time you receive this —

Don’t delay any thing for want of orders, but have the best done, that can be done — The Vessel had better be sunk than remain a useless expense — I will send Iron in time if possible — and will attend to your suggestion about the Gentleman named in your Letter. —

I am &c.

Navy Department January 2nd 1799

Cap' Leonard
New York

Sir The Governor Jay under your Command, being well provisioned, and watered sufficiently to last you to the place of destination, and having at least 40 rounds of ammunition; I have it in Command from the President, to order that without delay, you proceed in
Company with the Gen. Green, Cap't Price — taking under convoy the Ship America, with provision for our Vessels of War, to the Havanna — and cruise between the Matanzes, and the Morea, until you fall in with Cap't Decatur, of the Sloop of War Delaware, under whose orders you will then place yourself Vessel and Crew. —

You have heretofore received your Authority to capture French armed Vessels, — Armed Cruising Vessels, without commissions are Pirates, and from Vessels of this description our Commerce receives a great deal of Injury. — You consider your Authority to extend to the Capture or destruction of these Vessels also; and in addition to your former Instructions, it is the positive Command of the President, that on no pretence whatever, you permit the public Vessel of War under your Command, to be detained or searched; nor any of the Officers or Men belonging to her, to be taken from her, by the Ships or Vessels of any Foreign Nation, so long as you are in a capacity to repel such outrage on the honor of the American Flag. If Force should be exerted to compel your submission, you are to resist that force to the utmost of your power; & when overpowered, you are to strike your Flag, and thus yield your Vessel, as well as your Men — but never your Men without your Vessel. —

You will remember however, and it is strictly enjoined by the President, that your demeanour be respectful, & friendly to the Vessels and people of all Nations, in amity with the United States, and that you avoid as carefully the commission of, as the Submission to Insult or Injury. Herewith you will receive the private Signals to be used by our Vessels of War — and those to be used between American and British Vessels —

Wishing you great Success

Portsmouth N H—

SIR Since my Letter of yesterday, I have made such inquiry, as to be entirely satisfied that the Scammel ought not to be made into a Brig— If she is already tender she will be more so by increasing the weight at top. Please therefore suffer no other alteration than a proper reduction of the Masts and sails — These small Vessels are more expensive than useful — they decrease our means, without increasing our strength — all unnecessary expense should therefore be carefully avoided. Presuming that the necessary alterations can be quickly made, I shall quickly send Cap't Adams his Instructions for the Island — and shall also send a Commission for the Gentleman you recommend — to be used if Adams's health should not permit him to go. —

Presumably to Secretary Pickering from William Smith, U. S. Minister to Lisbon, Portugal

(Private) Lisbon, Jan 8. 1799.

Dear Sir Yesterday I rec'd a letter from Cap' Kennedy of the Ship Pacific, bound from London to Charleston, dated at Vigo informing me of his being captur'd by a french privateer. He sail'd with the Convoy but was separated. On board was Mr Tazewell, (Mr Gerry's Secretary) whom I daily expect here. The Captain of the Privateer says the Vessel will be condemned because she had guns, otherwise she would be released as neutral, but this is only a pretext; they wish to deter our Merchants from arming. The Pacific had 14 Guns & only 15 Men, & her Muster-roll is not signed by a Magistrate.
The Cap\(^t\) wrote for my advice & opinion whether he would be condemned; he might as well have asked me when the affairs of France will be finally settled. —

M\(^t\) Tazewell writes me from Vigo that the Passengers in the Pacific were very ill treated by the Officers of the French privateer & that notwithstanding his French passport, he was plundered by them.

M\(^t\) Bulkeley informs me that the Pigou was captured six days after she left the Delaware by two French Frigates the Pigou had on board 150,000 Dollrs which the frigates took on board & have brought to L'Orient, from whence the accou is arrived here; the Pigou had not arrived; Keeping this money will be an act of open hostility.

With Sincere regard, I am

D\(^t\) Sir,

Your most ob\(^t\)

Wm Smith.

The Crews of our Vessels are too extravagant in this respect, and have been indulged in the Article of West India, rum, but they have not been allowed bread of the quality called pilot bread — It has been usual to supply them with the best kind of brown Ship bread, with which they hitherto have been & ought to be satisfied. —

I thank you for the information respecting the harbor of Beaufort I have the Honor &C.

Articles of Agreement between Secretary of the Navy and Henry Foxall & Company, Proprietors of the Eagle Foundery

Articles of Agreement made this fourth day of January One thousand seven hundred & Ninety Nine, Between Benjamin Stoddert, Secretary of the Navy of the United States, for and on behalf of the
said States of the one part, and Henry Foxall & Co proprietors of the
Eagle Foundery, of the other part — as follows. —

First.—The said Henry Foxall & Co engage to deliver, for the use
of the Navy Department of the United States, at the boring Mill on
Schuykill, a quantity of Iron Cannon to the amount, (calculating at
the price herein after mentioned) of Twenty three thousand Dollars,
of such calibre, and agreeably to such models as may from time to
time be determined on by the Secretary of the Navy.

Second.—The said Cannon are to be cast in the solid and bored
truly, so as that the diameter of the bore, shall correspond exactly,
to each given Calibre, to be perfectly straight, and in the center of
the piece from the Muzzle to the Breech. —

Third.—That from and after the first day of February next the
said Henry Foxall & Co shall deliver upon an average four complete
Guns weekly. —

Fourth.—That the said Cannon shall be proved at the expense of
the United States, agreeably to such rules and regulations as have
been customary in proving Guns for the United States, and under the
directions of such persons, as may be appointed by the Secretary of
the Navy or his successors, who shall attend thereto whenever
required by the said Henry Foxall & Co, but should any of the Guns
burst in proving, the said Foxall & Co are to pay the expense of
powder. —

Fifth.—That the said Cannon shall weigh about two Hundred
pounds weight for every pounds weight of the Ball which the same
shall be intended to carry. —

Sixth.—That the Secretary of the Navy shall allow, and cause to
be paid to the said Henry Foxall & Co, for every ton weight of Cannon,
so cast and delivered, the sum of One Hundred and forty six Dollars
and two thirds. —

Seventh.—That the said Secretary of the Navy in addition to two
thousand Dollars already advanced, shall cause to be paid to the said
Henry Foxall & Co Six thousand Dollars upon the signing and delivery
of the present Contract, and as soon as Cannon are delivered to that
amount, shall advance a further sum of Eight thousand Dollars, and
when Cannon shall be delivered to the amount of the sum last men-
tioned, shall pay for all Cannon as the same may be delivered, until
the whole number contemplated by this Contract shall be com-
pleted. —

Eighth.—In case any disagreement should arise with respect to the
fulfilment of any part of this Contract, two persons shall be chosen
by each party, and should they disagree, they shall chuse a fifth per-
son, and the decision of these five shall be final. —

In Witness whereof the parties hereto have interchangeably set
their hands and seals, the day and Year above said. —

HENRY FOXALL & CO
BEN STODDERT.

[NDA. Contracts, Vol. 1.]
From Secretary Timothy Pickering to the Secretary of the Navy

PHILADELPHIA, Jan' 4. 1799.

Sir, Mr. Foxall called on me this morning about his cannon contract; when I wrote, on his paper of proposals, what occurred at the moment. Justice to him requires that I should add — That he was the first person who produced, in the U.States, cannon of an unexceptionable quality, in the casting & boring — the first that made perfect machinery for the latter important operation: that the other founders, Lane & Godfrey (or Salter) and lately Col' S. Hughes, have constructed, or are constructing similar machinery, by means of workmen previously instructed by Mr. Foxall — enticed away by means well understood among Iron-Masters: that Mr. Foxall is the only founder on whom we could depend for further improvements, and particularly for casting that very useful gun called the Carro'ade: & that it was certainly contemplated to allow him a price superior to that agreed to be given to Lane and Godfrey (now Lane & Salter).

Upon the whole, since the U.States are bound to take of Mr. Foxall guns to the amount of fifty thousand dollars, if those of sizes above twelve pounders are wanted, I think he has an equitable claim to have them substituted at the same price agreed to be allowed him for smaller guns. The U.States are really greatly indebted to him for the improvements he has introduced amongst us.

I am very respectfully yours,

(Written in pencil)  Tim' Pickering

The SECRETARY OF THE NAVY.

P. S. I suspect that Mr. Foxall would agree to cast the larger guns at £55. p. ton, without regard to the rise of iron. The £56.5. — given to Lane & Salter for small guns is £6.5. — more than (they) were entitled to.

Sir, The Crew of the Cutter Pickering, may consist of Seventy Men and Boys, if you judge so many necessary — of this number, you may recruit not exceeding Thirty five able Seamen — the residue to be ordinary Seamen, Landsmen and Boys. —

It being our best Policy to create Seamen; you may find it to your advantage to lessen this proportion of able Seamen, and to increase the proportion of ordinary Seamen & Boys. —

The Collector at Boston therefore, and not Mr Higginson must be considered the Agent for the Pickering at present. —

By your Recruiting Instructions you are not to exceed 70 Men — If Men should be wanted, and Marines will answer to fill up the number, in that case apply to Mr Higginson, who will furnish them. — They are Recruited to serve on board our Vessels, — and must be so employed, when Landsmen are wanted. —

To Lieutenant William V. Hutchings, U. S. Navy, (referred to also as Wm H. Hutchins), from Secretary of the Navy

[PHILADELPHIA]  
Navy Department 4th January 1799. —

Lieu’t Wm V. Hutchings [referred to also as Wm H. Hutchins]  
Sir, Upon receiving this, you will take charge of the Herald — and hereafter consider yourself as Lieutenant Commandant of the Same.—
The Crew of the Herald, may as heretofore, consist of 46 able Seamen, 21 ordinary Seamen and 10 Boys, — exclusive of Officers and Marines. — You may possibly have to recruit some few of each description. In this event, you will consider yourself at liberty, should you suppose it for the good of the service, to recruit within the limitation of able Seamen — and so increase the number of ordinary Seamen and Boys, — as to make the whole number of each description, to amount to as many as the limitations admit; — but you must not exceed 46 Able Seamen; and your able Seamen, ordinary seamen and Boys, collectively must not exceed Seventy seven. — Able seamen you will allow 17 dollars per month — Ordinary seamen and Boys, from 5 to 14 Dollars according to merit — all to be entered to serve one year. —

You must recruit none but sound and healthy Men — No Negroes or Mulattoes are to be admitted; — and as far as you can judge you will exclude all of a suspicious character. — You may if necessary advance your Recruits, two months Pay; but in this case you will take care to obtain sufficient Security to resort to in the event of desertion — Every Man shipped must take an oath agreeably to the form you will receive herewith. —

Enclosed is the form of a Shipping paper, wherein the name station and Pay of each person on board must be entered — To avoid Confusion, this business must be executed with the utmost accuracy. — The form of a Bond to be signed by the sureties for the Seamen &c you will also receive; and particular care must be taken, that the Persons signing as such sureties, should be of good and respectable characters before they are accepted. —

Stephen Higginson Esquire will supply the monies necessary for the purposes of Recruiting — and you must advance to the recruiting Officers, who must settle their Accounts with you — They will be allowed, besides their Pay and Rations, Two Dollars for each recruit in full for every expence of attesting, Ribbon, Punch &c — In short, every expence, but that of provisioning the Men enlisted at a distant Port — and in such case the unavoidable expense for their conveyance to the Ship. But they must observe the utmost economy; for extravagant charges for those expenditures will not be allowed, without a proper Voucher to support it. —

SIR, The Pickering being on the Revenue Cutter Establishment, must as heretofore be supplied by the Collector, — to whom I have written, — & besides supplying her for a Voyage to the West Indies, I have requested him to advance Capt. I have written Lt. Hutchings to take command of the Herald. — Lt. Preble to the Pickering — I am strongly persuaded the Herald would be a better Vessel and more formidable with 16 Guns. — & fewer Men, pray regulate this matter, according to the judgment of Capt. Sever.

There are marines at Springfield — probably those ordered from Springfield for portsmouth may be at Boston — pray cause as many of the men wanted by both vessels, as can be supplied by Marines, be so supplied — besides saving expence, many good purposes are answered by making as much use as possible of Landsmen on board of our Ships. —

As soon as I hear that those Vessels have arrived at Boston, I shall send their orders for Sailing, trusting that they will be ready,
I enclose an order for the Marines. —

To Lieutenant William Bainbridge, U. S. Navy, from General Desfoumeaux, Commander in Chief of Island of Guadeloupe

TRANSLATION,

OF A LETTER FROM DESFONMUEAUX "TO LIEUT. BAINBRIDGE, COMMANDING THE ARMED SCHOONER OF THE UNITED STATES, THE Revenge [Retaliation]."

Sir, I have given an account to the President of the United States of the observations contained in your letter of the 6th of January, 1799. I have told him that you have been forced by me to resume your command, rendering you responsible for the consequences which might result from your refusal. I have acquainted him that I have reduced your crew to forty men, and that I have required that you take your route for the United States in concert with the Roman and James, flags of truce, carrying citizens of your nation hitherto considered as prisoners.

The season does not permit me to fix positively upon a particular port of America for your destination: if that of Philadelphia be free of ice, it will undoubtedly command your preference, I am persuaded,
that your conduct in these circumstances will be that of a man of honour, and that you will not lose sight of the manner in which I have conducted myself towards you.

Receive my adieus, the prayers sincere which I offer, that your passage may be happy, and the assurance of the desire I have to see amicably terminated the differences of your nation with Guadalupe.

DESPOURNEAUX.

[6 January 1799]

To General Desfournesaux, Commander-in-Chief of Island of Guadalupe, from Lieutenant William Bainbridge, U. S. Navy

BASSETTERE, GUADALOUPE, January 6th, 1799.

SIR, After what you told me yesterday, relative to the United States schooner Retaliation, you seem disposed to return her to my command, with the commission and power I received from my government. I take the liberty of laying before you some reflections I have made since, which proceed from my duty as an officer of the United States, and from the gratitude I owe to your politeness.

In being established in the command of this vessel I cannot dispense with obeying the orders I received from my government; if you will be pleased to observe them, you will see they order me to seize all French vessels; in not doing it I expose myself to the punishment a court martial may see proper to inflict, and fail in my duty as an officer.

On the other part, can I permit myself after the treatment I have received from you, in going out of your harbour, and especially after giving you my parole of honor not to do it; it would be contrary to honor and humanity. My situation, General, you will judge yourself is very delicate.

The way to conciliate is to send her as a flag of truce, and putting on board a French officer, who will have the command of her, I will lend every assistance in navigating her, I trust you will not receive this refusal of mine against my wishes of seeing the affairs between America and France amicably settled. No man wishes more to see it than I do; but my duty as an officer will make me act conformable to that character.

I am, General,
Your most obedient servant,

Wm. Bainbridge.

Document No. 1.

Liberty

Equality

TOUSSAINT LOUVERTURE General in chief of the Army in St Domingo, Citizen JOHN HOLLINGSWORTH, of Philadelphia, Merchant; citizen

I did not wait till this day to feel the necessity there is for the Island of St Domingo to form again bonds of friendship and good understanding with the United States, such as that friendship and good understanding so happily existed between the two countries whose mutual prosperity required they should never have been destroyed. This opinion of mine I have sufficiently evinced by sending to the Federal Government persons in whom I put my confidence and whose mission was to restore that good harmony that prevailed before. Neither your Government nor your fellow citizens ought to question the sincerity of my proposals, they need only recall to their minds that ever since American Merchants have resorted to the ports of this Island whereof the produce is so valuable to them, I never ceased to grant them protection, and that I did always make it a point to have that justice done them, which they claimed from me, whenever I had it in my power so to do. I call Americans themselves to witness it, who had recourse to my authority. Should then Your Government trust my promises which I never made in vain, it will listen to those I have sent and answer the mutual expectation of the two Nations to whose welfare Governments are bound always to make all sacrifices. Then will the wishes contained in your Letter, citizen, and which evince your true patriotism, be fulfilled, so will my own wishes be: because by restoring commerce to my country, I do both contribute to its prosperity and secure the happiness of my fellow citizens; on their part, Your Government will attain the same end, an end which cannot less excite its ardent solicitude than it does mine.

With a design to make you easy about what is the object of your hopes and fears, I do again promise you, upon my word which was always a good one, and which I always held sacred, that such Americans vessels fitted for St Domingo as shall enter our Ports, shall be heartily welcome, favoured and protected, that no restraint shall be put upon their trade and finally that when they come among us they shall find that they are among a friendly and brotherly people.

I do also guarantee the execution of what may have been agreed upon, between the persons I have sent and the Government of the United States; and I do assure you that it shall never be on my part that both the respective rights of the two Nations and the agreement resulting from the negotiation I have commenced, shall be violated.

The trusty person whom you invite me to send over, in order to negotiate about those momentous concerns, is citizen Buinel who has by this time reached America. I cannot better recommend him to
you, than by requesting you to aid his mission with the whole of your credit with your countrymen, as well as with every good advice you may think requisite to accelerate the happy attainment of what we both desire for the mutual prosperity of our country, by thus doing, you will become entitled to my sincere gratitude. Be assured that I will always preserve the pleasing recollection of the step which your love for your country has induced you to take with me: it was the best title you could get to my esteem which you possess without reserve.

I greet you in the name of Universal Liberty.

Arrived in Prince Rupert.

[NA.]

[7 January 1799]

To Secretary of the Navy from Lieutenant William Bainbridge, U. S. Navy

Basse Terre, Gaudaloupe,
7th January, 1799.

I wrote to you on the 3d instant, informing you that Gen. Desfournesaux, who had superceded Victor Hugues in the command of this island, meant to return the schooner to the United States; the terms on which she was first offered, and the conditions on which I would accept of the command.

On the 5th, had a conference with him when to my great surprize he told me he meant to give me up the authority I had received to command the schooner, from my government; which was the President’s instructions and your letter.

By so doing, he delivers me a command to seize all French vessels, as an officer being bound to follow orders, I must have gone again a cruising; on the other side, considering myself a prisoner, (although he will not acknowledge me as such) how can I draw the sword until
I am exchanged? Finding myself in this delicate situation, I conceived myself bound by honor to state my objections to Mr. Desfournesaux, for refusing the command of the *Recollect*, which I did by letter, a copy of which is here inclosed[*]; after the delivery of it, I had an interview with him; he treated me very cavalierly, conceived I had no right to make those objections, and threatened imprisonment for my noncompliance; I told him he had me in his power, and could treat me as he pleased, but no fears of punishment would make me act contrary to the character of an officer.

I found he was determined to return her, told him I was sorry he compelled me to leave his port with these orders; that I should certainly obey them, and take all his vessels I could.

His answer was if I did he would put every American to the sword; finally he told me, as he was master here, he would compel me by force to leave this place as commander of that vessel. To superior power I am obliged to yield; considering myself a prisoner, I shall haste to my country to get an exchange, when I shall be ready for a second cruise, which I hope will prove more fortunate than my first. He sends two vessels with me as cartels, with the American citizens, who have met with very bad prisoners fate in this island. My government no doubt can see into his intentions for ret.

Your obedient servant,

WM. BAINBRIDGE.

BENJAMIN STODDERT, Esq.

Secretary of the Navy.

To Stephen Higginson, Navy Agent, Boston, Mass., from Secretary of the Navy

[PHILADELPHIA]

Navy Department 7th January 1799.

S. HIGGINSO Esq. Boston

Sir I am honored with your letter of the 29th mentioning the arrival of the Herald, and the Pickering — which I am very glad to hear. I have no letter from Nicholson, I suppose I shall receive them by next post, when I will take up the subjects you mention in your letter.

Cap1 Sever is to Command the Frigate at Portsmouth — Cap1 Chapman, the Ship at Boston. I hope Cap1 Sever will have all the acc1 of the Herald, settled as they should be. He seems to be a man of regularity, & will be a valuable man to our Navy. The Pickering, is not yet properly within my department. —

The principal part of our force will be employed under Barry, from the Island of Dominica. — Some of the Vessels will quickly want provisions, & it may be proper to keep them a good while, in the Island.
Be so good therefore to Charter a Vessel, or room in a Vessel for 72,000 lbs. of bread, 155 Barrels of beef, 155 Barrels of Pork, 88 Cwt. of Fish — & 120 bushels of beans or peas, to Sail under Convoy of the Herald & Pickering, or the Portsmouth M'Neill — I will inform you in time, to whom it is to be addressed. — The Beef and Pork can be Supplied from the purchase you have made.

If bread cannot be obtained please to Ship of that article, what you conveniently can — but let me know quickly what you can Ship, that I may make arrangements to send it from New York — I have the Honor &c.

Extract of a letter to Secretary of the Navy from Captain Stephen Decatur (senior), U. S. Navy

"ON BOARD THE SLOOP OF WAR, Delaware, January 7, 1799.

Sir, "I hasten to inform you that we arrived safe with the convoy under our care, which was increased on the passage by the junction of eight, making in the whole 15, all of which we saw safe into the Havannah on the 30th of December; — after which we hauled our wind in pursuit of a French privateer which we had seen the day before; and on the first day of January off Matanzes, we spied three sail running down before the wind, two of which were French privateers in pursuit of an American schooner from New York, and would have overtaken her, had we not spoke the schooner, when the privateers hauled their wind; it being so light, however, we could make no hand of them. One laid to windward at long gun-shot, having a brass 24 pounder, and fired 15 times at us; but could not reach us.

On the 5th of January, off the Havannah, Mr. Iznardi, American Consul there, came on board, and informed me that there was an Embargo at the Havannah, and it was likely it would continue for some time. There are near 100 Americans there. He likewise informed me of a French ship that mounted from 26 to 28 guns; two brass eighteen pounders are among the number."

[PHILADELPHIA]
Navy Department 8th Jan', 1799 —

Cap' HUGH G. CAMPBELL

Sir Presuming, that agreeably to my Instructions of the 11th Ultimo, you have provisioned, watered, and in all respects prepared the Brig Eagle under your Command for Sailing, I have it in command from the President to order, that without delay you proceed to the Island of Dominica in the West Indies, & cruise in the Vicinity of Prince Ruperts Bay, until you fall in with Cap' Barry of the Frigate United States, under whose orders, you will then place, yourself, Vessel, and Crew.

In addition to the usual number of Officers allowed Revenue Cutters you may take a Surgeons Mate, who will be allowed 30 doll. per Month and 2 Rations per day. —

You have heretofore received your authority to Capture French armed Vessels, Armed Cruising Vessels without Commissions, are pirates and from Vessels of this description, our Commerce receives a great deal of Injury — You will consider your Authority to extend to these Vessel also. —

It is the positive command of the President that on no pretence whatever, you permit the public Vessel of War under your Command to be detained or Searched, nor any of the Officers or Men belonging to her, to be taken from her by the Ships or Vessels of any Foreign Nation, so long as you are [in] a Capacity to repel such outrage on the Honor of the American Flag. —

If force should be exerted to compel your Submission, you are to resist that force to the utmost of your power; and when overpowered by superior force, you are to strike your Flag and thus yield your Vessel as well as your men, but never your Men without your Vessel. —
You will remember however, and it is strictly enjoined by the President, that your demeanour be respectful and friendly to the Vessels and people of all Nations in amity with the United States — and that you avoid as carefully the Commision of, as the Submission to insult or injury. — let me hear from you the day you Sail

Cap't James Sever

I am this day honored with your letter of 30th Ultimo, and being very much engaged, I have only leisure to say, that your whole conduct on board of the Herald has been highly satisfactory to the present — exhibiting an example of steady perseverance in a most Disagreeable Service — and strict attention to orders and to duty. —

It has been always intended that on your return to Boston, the Herald should be put under the Command of an inferior Officer — and that you should take charge of the Frigate originally destined for you, at Portsmouth — to which place after paying the necessary attention to your private affairs, you will be pleased to repair, and give so much of your attention as may be found necessary, to the building & equipping of the Frigate, for Sea. —

Cap't Chapman is to take command of the Ship building by the Citizens at Boston. —

I shall shortly address you again — in the mean time I remain with much esteem

DEPARTMENT OF STATE,
Philadelphia January 8, 1799.

H. R. SAABYE Esq.

Sir, I have this morning had the pleasure to receive your letter of October 10th with your semi-annual return of American ships which arrived in your seas between January 1 & June 30, 1798. It gave me great pleasure to find our commerce so considerable and so secure in your parts of Europe. The whole commercial world is indebted to Great Britian for the protection which her navy affords against the licensed piracies of the French Republic — America too long bore her monstrous aggressions; and immense losses have been the consequence. We are now increasing our infant navy, by which our coasts are already cleared of French cruizers and our Great West India trade enjoying considerable protection. I hope in the current year we shall be able to extend protection to our European commerce, in addition to that which private arming has procured. I am very respectfully Sir, &c.

Extract of a letter from Captain George Burns of the Letter of Marque schooner Amazon, of Charleston, dated Curacao February 6, 1799, concerning encounter with French privateer Flower of the Sea

FEB. 6.

"I am very sorry to inform you, on the 10 of Jan. being ten leagues to the eastward of Lageira, I unfortunately fell in with the French privateer, Flower of the Sea, of 8 guns and seventy men. They engaged us, and we fought them five glasses; then they hoisted the bloody flag, and the most of my people at this time were wounded, less or more; and finding it impossible to keep them off any longer, was obliged to strike. The privateer had seven men killed and nine wounded in the engagement. They brought us in here, landed the cargo, and stripped the vessel of every thing.

Extract from the log book of Captain Cassach, concerning engagement between American Sloop Henry and Spanish packet St. Rosalia, Captain Monars

"October 31, 1798, left Giboon river, on the coast of Africa. Nothing material happened until the 28th December, when I was chased by a French privateer in lat. 20. N. long. 62. 30. W. On the 9th January, at 2 P. M. being in lat. 22. 10. N. long. 71. 40. W. saw a vessel to the eastward in chase of me, coming up very fast, and at 2 P. M. was within hail, firing at me. I hailed her several times, but got no answer. She being close, I opened a brisk fire upon her, which was kept up for about 40 minutes, when she dropt astern. At
11 P.M. she returned again under my lee. After a close engagement of about three quarters of an hour, beat her off, immediately made sail to the northward, and the next morning saw nothing of her. At 10 A.M. however, I discovered her a second time in my wake, and at 1 P.M. was within gun shot. Finding myself so near, and that I could not escape by sailing, shortened sail; on coming up along side, they gave me a broadside, which was immediately returned; after which I engaged her within half pistol shot for six glasses, and was then obliged to strike, having all my standing and running rigging cut to pieces, and my vessel ungovernable. My antagonist was a Spanish packet, called the *St. Roselia*, Capt. Monors, carrying ten 11 and 12 pounders, and 75 men, from Teneriffe bound to Havanna. I had only six three pounders and two two pounders, and 14 men. After taking possession of my vessel, they run her on shore about seven leagues to leeward of Cape Maize, where all the crew and slaves perished, except 27 of the latter, who swam on shore. Myself and crew were extremely well treated by the Captain and officers of the *St. Roselia*, but after arriving at the Havannah, I was imprisoned among people of every denomination, and extremely ill fed, being only allowed three-sixteenths of a dollar per day, by the Commissary, for my subsistence.

Capt. Casach, late of the sloop *Henry*, his mate, and an apprentice, arrived here yesterday in a cartel from Havannah.

This Current has placed us fifty Leagues further to Leeward than the Course steered, and Distance sailed by Log would make our Situation, which proves the Necessity of all Vessels, but our Ships of War in particular having accurate Observations made on Board them for the Longitude as well as the Latitude, there being no Dependance to be placed in the Longitude calculated by any common Reckoning, but I have often made the same Sort of Remarks before on my Asiatic Voyages, and still hope our Government will make some Provision for instructing the Officers in our rising Navy with this invaluable Information. Cap't Daniel McNeill

Sir Presuming that the Ship Portsmouth under your Command, will be prepared in all respects for Sailing by the time you receive this, I have it in command from the President, to order that without delay, you proceed to the Island of Dominica in the West Indies and Cruise in the vicinity of Prince Rupert's Bay, until you fall in with Cap't Barry of the Frigate United States appointed to command on that Station, who will afterwards direct your operations. —

You have enclosed instructions founded on the Acts of Congress authorizing you to capture French armed Vessels wherever found on the high seas, or elsewhere, and to recapture Vessels captured by the French. — In the execution of these Instructions, you must not forget that we are at war only with French armed Vessels, and the men found on board of them, — The Vessels of other Nations are entitled to & must Receive from us, civility and Friendship. —

You are not even to recapture a Vessel of our own, taken by the Vessels of any of the Nations at war but the French, — We are at peace and wish to remain so, with all other nations, and we must presume their Courts will render Justice. —

You cannot be too attentive to the Introduction of order, and discipline among your crew; and you should be assiduous in endeavouring to inspire your Officers, and Men, with a high sense of the Honor of the American Flag, which must be maintained at every hazard. And it is the positive command of the President, that on no pretence whatever, you permit the public Vessel of war under your command, to be detained or searched, nor any of the Officers or Men belonging to her to be taken from her, by the Ships or Vessels of any Foreign Nation, so long as you are in a capacity to repel such outrage on the Honor of the American Flag. If force should be exerted to compel your Submission, you are to resist that force to the utmost.

You will remember, however and it is strictly enjoined by the President, that your Demeanour be respectful, and Friendly to the Vessels and people of all Nations, in amity with the United States, and that you avoid as carefully the commission of as the submission to insult or Injury. —

There is a description of armed Vessels from which our Commerce has hitherto received a great deal of Injury. I mean, armed cruising Vessels, acting without Commissions. Such Vessels are pirates; and you will consider your authority to extend to the Capture, or destruction of these Vessels also. —

Wishing you an honorable and successful Cruise —

OTWAY BYRD Esquire

Norfolk —

Sir, I am honored with your Letter of the 1st Instant — but it only reached me this day. —

I am Sorry for the account given by Cap't Bright of his Vessel. She was it seems, built here, and by his own direction. I have no doubt she has too many Guns and too many Men — I beg therefore, you would take steps to Ascertain with Captain Bright, the number of Guns she ought to carry, and have her reduced to that number — and also have her men reduced to the proper complement. As to her being an unfit Vessel for the West Indies, she is fitter for that service, than for our Coast, where she must be always useless — The Vessels which injure our commerce most in the West Indies, carry one and two Guns — Vessels carrying four, six or eight Guns, are the most useful kind we can employ — and if Captain Bright's Vessel be reduced to 6 or 8 Guns, and 30 or 35 Men, she will be more formidable than in her present situation. —

I have ordered Lieu't Mc'Rea from Alexandria, to repair immediately to Norfolk. — Should there be occasion, that is, if Cap't Bright should decline going to the West Indies, Mc'Rea may take the Command of the Vessel but I presume, Captain Bright will not decline — whoever commands this Vessel, she need not sail, until the Baltimore is ready — which will be soon after you receive this. —

I have the honor &

Sir, Immediately on rec'd of this, you will please repair to Norfolk — and wait upon Otway Byrd Esq'r & if the arrangements he should have made render it necessary, you will take the command of the Revenue Cutter, Virginia & proceed in Company with the Ship Baltimore, to Join Cap't Truxtun in the West Indies. — Should it not be necessary for you to take the Command of the Virginia, you will in that case, go on board the Ship Baltimore, at Hampton Road, now under the command of Lt' Speak, & proceed in her to the West Indies, where you will join Cap't Truxtun, and act on board of his Frigate. — He will I presume want a Lieu't —

William Pennock Esquire

Norfolk.

Sir, I have the honor to request that you will immediately charter in some proper Vessel, room for the provisions at foot — and send the same under convoy of the Baltimore Lieut. Speake, to the Island of St. Kitts —

There must be no time lost in this business — I shall in two or three days send the orders of Lieut. Speake, and by that time hope the Vessel will be ready with the provisions — It is to be presumed that you may readily get room in a Vessel bound to the West Indies, but if not, that you can readily hire a small one.

if you can do it readily, you may add 10,000 lb more Bread.

To Rufus King, U. S. Minister to London, England, from Secretary of State

[Philadelphia]

Department of State, 12 January 1788.

Rufus King Esq.

No 38.

Sir, The inclosed copy of a protest I received from Messrs. Valck & Co., Merchants of Baltimore, and owners of the Ship Aurora. The injury done to that vessel by the Frigate Latona, Capt. Southeren, as detailed in the protest, is so outrageous and inhuman, as to dishonor the King's service. It is difficult, seeing the vessels were so near together, to find an excuse for Capt. Southeren's conduct; neither his own safety, nor the fear of her running away, can apologize for pouring a broadside into a ship of such inferior size, and merely an armed merchant man taking the fact to be true, that his men fired without his orders, it implies such a want of order and discipline on board of his vessel, as to prove him little worthy of his office.

I have written to the owners for an authenticated estimate of the damages received, and, if I obtain it in time, shall enclose it. I cannot have a doubt that the British Government will immediately order full compensation to be made for the pecuniary injury. What further attonement is due, by way of public example, may I think in this instance be properly left to them to devise and inflict.

I have the honor to be, Sir, &c.

Timothy Pickering.

To Valck & Co., Baltimore, Owners of Ship Aurora, to Secretary of State

[PHILADELPHIA]
Department of State 11th January 1788

GENTLEMEN I have received your letter of the 7th enclosing a protest of Capt Spriggs and his officers belonging to your Ship Aurora. The latter exhibits a conduct so flagrant on the part of the British Frigate Latona, as to merit the attention of both Governments. I feel satisfied that the British Government will be disposed to render immediate, and complete satisfaction, for the injury. I must therefore request you to make out a Statement of the damages duly authenticated and proved, which I shall send to our Minister in Great Britain with such instructions, as are suitable to the nature of the affair.

I am Gentlemen
Respectfully &c.

By the Lunar Observation for the Longitude to Day I find the Current continues to set Westerly very strong. I accordingly gave the Fleet Warning, and hauled up more to the Eastward, so as not to pass the Latitude of the Isle of Barbuda in the Night. Saw a strange Sail at 8 AM a long Distance to Leeward. At 10 Ditto made the Island Nevis bearing S.W. and Barbuda E.N.E. the latter about seven Leagues Distance. At Noon Antigua bore S.E. a fine fresh Breeze, but squally at Times. Dispatched the Richmond, Capt Barron to convoy the two Schooners, Little John, and President safe to Saint Thomas's, and to return immediately, and join me at Saint Christophers. Mean Time I determined on seeing the Thetis safe to Martinica myself.

U. S. FRIGATE CONSTITUTION.
We separated from the fleet we had convoyed on the 5th Dec. and made sail to gain our windward station, but we had such variable and blustering winds, that we could only fetch the Sambero passage; we then cruized up leisurely by St. Martins, St. Bartholomews, St. Eustatia, and all that chain of Islands, up to the west side of Gaudalupe, and saw nothing but a few Danes and Swedes, which we chased and boarded. We then pleyed about there and off the north end, and in the very tract we had before seen so many privateers, without seeing any vessel whatever, but one American schooner, by which I wrote to you a few lines, which was, indeed, the first and last opportunity I have had of giving you any intelligence about us, and the Cayanne sloop of war, that was in Antigua, when we were there. We run into their bays and searched in every direction for them, but without effect. Not finding it of importance to remain there any longer, we beat up to windward of Antigua, as far as the long. of 59 degrees, and there cruised for ten days; chased and boarded several American vessels, bound to different Islands, likewise had some long chases after two privateers, which we boarded, and turned out to be British from Antigua, none of which had seen any French vessels, or their prizes; then we stood further down to the southward, to the windward of Martinique, off which Island we fell in with admiral Harvey, in the Prince of Wales of 98 guns; were recognized by our signals, which, in my former letter, I informed you I had wrote to him about. He gave me a polite invitation to go on board of him, which I did, and met with a very friendly reception. He informed me, he had fully complied with the request I made him, and that he had distributed the signals to all the men of war on the station which I found was the case, having met with several of them that had repeated and answered them, so that we are now as well known by them, and by most of their privateers, as their own ships, which saves me from a great deal of trouble and anxiety.

The admiral offered me every friendly assistance we might stand in need of, and seemed glad that America and Great-Britain stood upon such fair terms, and wondered much at our long forbearance, in the harrassment of our commerce, which I told him proceeded from the lenity of our government, ever inclined to peaceable measures; that our executive had always been firm, but kept the door of conciliation open as long as there was a shadow of hope, in avoiding the last alternative; that I believed we should have been earlier with our energetic measures, but that we had hard mates and obstinate parties, to work upon. He enquired where I had cruized generally; I told him particularly my different routes, which he said were very proper, and agreed with me that he thought few of their cruizers were out, as he had most of his ships watching the motions of the French ships in Basseterre.
Thus, Sir, you may assure the public of the high estimation we stand upon in this quarter of the globe, and whatever cruisers you may send this way may be sure of a polite reception, and that our commerce stands upon a much more favorable situation, than it has hitherto done, at least in these seas, for we have chased and boarded almost every vessel we have seen (and run from none) without meeting a foe.

I verily believe that our few cruisers have given the French here a serious fright, they know the quality of our vessels, and they know our industry. If we have not succeeded in taking them we have answered as good a purpose, that of keeping them in port, which I flatter myself we have contributed in effecting.

After leaving the admiral, we stood to the northward, and cruized off Deseada, for a week, and this day fell in with a Danish ship from Hamburgh, bound to St. Thomas, had run down upon that latitude without seeing anything but one American. Capt. Williams now informs me that he has sustained a serious injury in his masts, and thinks they cannot be secured, but by going into port. I sent my master and carpenter on board of him, to examine them, and we have determined to secure them as well as possible, so as to enable us to keep out as long as we can. Indeed we have a most blustering time of it here.

I never counted upon so much bad weather, as we have had, upon this station: We have scarcely had two following days good settled weather for near a month, but a constant, succession of hard squalls and rain, frequently blowing so hard, we could scarcely carry a rag of canvass, which has severely tried our vessels and crews; and although our people have been generally able to stand the deck, yet I find many of them much inclined to be on the Doctor's List.

5th—Off Dominico.

Capt. Williams being still fearful of his masts; his tops, trussle-trees, &c. being in a bad condition, and not able to carry the sail we are often obliged to press in a chase, and the weather still tempestuous in squalls, which, as well as from the absolute need of refreshments that our crews both stand in need of, my crew especially, having been confined on board ever since the 20th Sept. I deem it necessary to give them a few days relaxation in port, to hearten them up; nor have I been out of the ship ever, since I left Annapolis, but for a few hours at Norfolk; we therefore, after having just boarded a government brig of 14 guns, who gave us the same accounts, of meeting with no Frenchmen on the station, determined to avail ourselves of their quiet, to run down for the harbour of Roseau, on the S. W. side of Dominico, for information to direct our future movements, and to enquire for an opportunity of sending this letter.

My boat has just arrived with the agreeable intelligence of the arrival of the United States in Prince Rupert's Bay; we therefore set all sail to join her.

We arrived here on the 6th, where I met with my old Friend Commodore Barry, in the United States, and the [George] Washington, Capt. Fletcher. The next day, they sailed to cruise a few days off Gaudaloupe.
From the conversation I have had with Com. Barry, I am happy to find I have anticipated a part of your instructions to him, viz. setting the signals, laying a train for the exchange of prisoners, and in meeting your plan for a deposit of provisions, in some convenient place, and this place I conceive the most eligible of any in the windward islands. The garrison officers seem delighted with the plan, and shew us every civility, and this day I have finished all my business of wooping and watering, and in putting my ship in complete order for sea, and to-morrow I expect the whole of them to dine on board with me, having passed this day with them, principally with a view of bringing about a friendly and happy communication for those that may come after me. On the 12th I shall leave this, to endeavor to join the two frigates, and cruise a few days 'till Capt. Williams is ready, and hope by that time the provision vessels may arrive, as I shall want a small supply; I then shall take off a large convoy, now collecting here (20 sail now being in port) and shall call off Antigua, Nevis, Montserrat, and St. Christophers, and proceed with them to a safe lat. After that, I shall return to cruise among the Southern Islands, for a while, leaving the Commodore on this station, as I am informed he means to cruise here.

After I have tried that station, I presume it will be time for me to look towards America, as I find you have sent ships to where I intended to cruise.

Off Dominico, January 13.

P. S. I have strong reasons to believe, that many of our countrymen run off Gaudaloupe and Cayenne, to be taken, they being furnished with a proper countersign; when carried in, they leave their vessels behind, and then set off for America with a tale of having made their escape, and soon go back with another; I fear their art is beyond discovery.

Squally as before with some Rain. At 4 PM spoke an English Schooner from Martinica bound to Antigua, the Master informed me Captain Barry in the United States was at Martinica, when he left it, and several other of our Vessels of War at Dominica, that two french Men of War were at Gaudaloupe, and that five English were cruising in that Quarter.

At 5 PM Saint Johns Antigua bore N.W.B.N. and the S.E. Part of Mount Serrat S.S.W.½ W. and Rock Don Dó (Rodondo) West, nearest Shore four Leagues Distance. Stood on as per Column of Courses for Martinica with the Schooner Thetis in Company, which Vessel I have all along had much Trouble with, owing to the Neglect of the Master not making Sail, and attending to Orders.

At 8 AM the Saints bore N.N.E. Distance 6 Leagues, called all Hands to Quarters, two Men of War beating to Windward under the Saints, and as they anchored, I took them to be English. At Noon Port Roseau, Dominica, bore E.N.E. 3 Leagues Distance. Current running strong to the Westward.

I informed the Officer they were merely to hear the News in this Quarter, as I had just arrived on the Station from the United States of America, and to know the Name of his Ship, which he informed was the Concorde. He then told me that Victor Hughes was sent to France, a Prisoner, and that the Frigate Insurgent and La Pencee had sailed with him about the 1st Instant; that one Frigate, and a Corvette only remained, and that they were at present at Bassetere Gaudaloupe ready to sail for Cayen. Captain Barton requested of me Night Signals which I gave him and he sent me in Return his private Signal for Saint Christophers, and a Letter for his Agent there, we then hawled down our Colours, took Leave, and each stood on his Course.

To Captain John Barry, U. S. Navy, from Secretary of the Navy

[PHILADELPHIA] Navy Department, 16th January 1799.

Cap't JOHN BARRY

Sir Enclosed are Letters for Captain Nicholson[4] & Lieut Hamilton, which you will please to have delivered, — and also take order, that Lieut Hamilton be received on board the Constitution as 3d Lieutenant

I am sorry to observe that Captain Nicholson has excited great clamour against him, by his arbitrary conduct towards some Officers he left behind. — I hope however, he will not justify by his conduct under your Command, the predictions of his Enemies — but that he will conduct himself with prudence and propriety — and pay strict attention to your orders. — Should he act in a different manner, you will know what to do with him — That Ship and all others under your command, must claim your attention, as well as your own Ship. —

I have written to Mt Higginson to send under convoy of Captain M'sNiell, or the Pickering a quantity of Provisions p't list enclosed, addressed to Messrs Frazer Urquhart & Co for the Vessels under your command. — Should any circumstance make it necessary for you to leave your station, with your Fleet, it will be well for you to take the Provisions on board. —
Enclosed you will find additional Instructions to our armed Ships, of the 29th Decem7 and 16th January — which please to have distributed among your Fleet to the Commanding Officers. —

It is very much the wish of the President, that you should take some occasion, before your return to shew yourself, with the greatest part of the Fleet at Cape Francois, to Genl Toussaint, who has a great desire to see some Ships of War belonging to America — but it is not intended, that you should sacrifice any important object, to gratify this General; with whom however, if it should fall in your way, it may be well for you to cultivate a good understanding. —

Congress have as yet passed no Act respecting the Navy. — They will probably direct the building of some Ships of the line, and I expect will put the service on a respectable footing. — Write me by all opportunities — and be particular as to the merits of your Lieutenants — as promotions will take place before your return. —

I have heard of the French Frigates at Guadaloupe — You must judge whether Truxton ought to join you, and must act accordingly — If these Frigates should not render it too dangerous, it will be best that our Vessels be dispersed as much as possible, and I should imagine the British force in those Seas would confine the French Frigates in port. — It would however be glorious to the American Navy, if you would devise a plan for capturing them. —

I have the honor to be &c

It is possible that the Regulations of the British Government in their Islands may occasion a difficulty as to landing the provisions at Dominica, in which case it will be necessary to take them at once on board your Fleet, and I have written to Messrs. Frazer Urquhart & Co. that you would do so in case of need. —

I have the honor to be &c

Sir: It is the wish of the President, that you should be employed on board the Frigate Constitution, until her return. — There are two Lieut's on board of that Ship, whose Commissions are older than yours — and as the rank must be from dates of Commission, you can only act as third Lieutenant on board of the Constitution — On your Return to the Continent your situation will be made more agreeable —

Please to observe there are no second Lieut's in the Navy, but on board of any particular Ship where there are more than one Lieut they must of course act as 1st & 2d & so on on such Ship. — Your Commission is enclosed.

Cap'T Tho'TruXTUN

Sir The President thinking the conduct of Cap'T Phillips, in the transaction with the British Ships, at the Havanna, every way improper, has thought fit to dispense with his future Services. — L't Speake therefore Commands' the Baltimore, till he joins you when if you think proper, you may put L't Rogers [Rodgers] on Board, as the Commanding Officer; in which case L't Speake must deliver to him, his Instructions. —

I have not named L't Rogers to the President as Captain; because at the same time, that this is done, to prevent Jealousy; I want to bring forward one at least of Barrys Lieutenants. — There will be soon Ships for all who merit them; —

I have desired Mr Pennock to send under convoy of the Baltimore, the provisions as per list enclosed, for the use of your fleet, — to be addressed to Mess'm Dinniston & McLauchlan — I am not certain that the meat will be permitted to be landed, — If not I presume you can find room on board for it.

It will be proper to have all the provision taken on board before you leave that station. —

I wrote you some days past respecting the French Frigates at Guadaloupe; I suppose they will be kept close in port by the British. — If however there should be danger, it will be best for you to join Barry; it would be glorious if you could devise a plan for capturing these Frigates. —

The Virginia I presume will sail with the Baltimore. — Should she be commanded by Cap'T Bright in that case L't M'oRea will expect to go out in the Baltimore — and if you should send Rogers on board the Baltimore, it may be convenient for you to take M'oRea on board the Constitution. [Constellation]

General Toussant has a great desire to see some of our Ships of War at Cape Francois — and the President has a desire that he should be gratified — yet it is not wished any great object should be sacrificed to effect this. — Should you see the General, it will be well to cultivate a good understanding with him. —

The Congress as yet have done nothing on the subject of the Navy; They will authorize Ships of the line — whether 12 as I propose or a smaller number, I cannot at present judge. The enclosed additional Instructions to the commanding Officers of our Ships, you will please to have given to any you may fall in with, without them. —

I hope to hear from you by every opportunity, — with your opinion fully on every point, which may contribute to the advantage of the Navy, as well as proper employment of our Ships. —

Lieu't Speak or the Officer Commanding the Ship Baltimore

Sir The Sloop of War, the Baltimore, now under your Command, being prepared in all respects for Sailing, I have it in Command from the President to order that without delay, you proceed to the Island of St' Christophers, in the West Indies, & cruise in the Vicinity of St' Christophers, until you fall in with Cap't Truxtun of the Frigate Constellation, who will afterwards direct, your operations.

I inclose you your authority to capture or destroy French armed Vessels wherever found — and to recapture Vessels Captured by the French. — There is a discription of Vessels from which our Commerce has hitherto received much injury; I mean armed Vessels acting without Commissions. Such Vessels are Pirates — and you will consider your authority to extend to the Capture or destruction of these Vessels also.

You will, however remember, that we are at war only with French armed Vessels, and the people found on board of them, — all other Vessels, and persons, are entitled to and must receive from us civility and friendship; should you even meet with an American Vessel captured by any Foreign Vessel except the French, you cannot lawfully recapture such Vessels.

It must be presumed, that the courts of such Nations will render justice.

You will be attentive to the introduction of order & discipline among your Crew, — and on all occasions use your utmost endeavours, to inculcate a high sense of the Honor of the American Flag, which must be maintained at every hazard.

Wishing you an honorable and Successfull Cruise,

To First Lieutenant B. Clinch, U. S. Marine Corps, from Captain Thomas Truxtun, U. S. Navy

Lieutenant Clinch will be pleased to wait on the Commanding Officer at Bassetere St. Christophus, and present Commodore Truxtun's Compliments, and inform him; the Fleet now in Sight are a Collection of American Vessels from the different Islands bound Home under Convoy, and that the Fleet will anchor in the Roads, and wait the Arrival of several other Merchantmen, & a Sloop of War from Antigua. Lieutenant Clinch will also inform the Officer commanding, that Commodore Truxtun will salute the Fort with thirteen Guns, provided he will return the United States Ship Constellation an equal Number. Lieutenant Clinch will inform the Commanding Officer, that the Constellation is to cruize during this Winter, in these Seas, and that Bassetere will be the Rendezvous.

Lieutenant Clinch will perform this Service as speedily as possible and return with an Answer respecting the Return of a Salute.

[16 January 1799]

To Lieutenant Ambrose Shirley, U. S. Navy, master aboard U. S. Frigate Constellation, from Captain Thomas Truxtun, U. S. Navy

Sir, In Answer to your Note of this Morning, I am compelled to put you right, in your Attempt to vindicate yourself. Had you served on Board any Ship of War, in a Navy that had been established, you would not have any confused Idea, as to the Duty of a Master at this Day. While acting as a Master here, you act as a Warrant Officer, and of Course you act as subordinate to the Orders of a Lieutenant, which is the Case in every Ship of War, with the Officer in your Station. When the Lieutenants are at their respective Posts on the Battery &c. You then execute my Orders, and pass the Word Solus, but when those commissioned Officers are not at their Divisions, but on the Quarter Deck, it is then your Duty to receive Instructions from them, where the same is given by Orders from me without Hesitation, and as an Example to Others, it ought to be done with Cheerfulness.

As a Master you are accountable that all Sails, Rigging, Colours &c. &c. are kept in Repair, that the Stowage of the Hold, be complete, and the Trim of the Ship preserved, Log Book well kept &c. and that due Care be taken of the Provisions and Water, and this is an Abundance of Duty to perform, and will occupy the Time, and Attention of any Man to do it well.

Altho' the Signal Officers are directed to keep in Repair the Colours, it does not take from the Master his Responsibility if due care be not taken of them, and I must confess, that I felt ashamed Yester-day, at the Ensign being hoisted before a foreign national Ship, in the State it was, and of Course my Indignation was aroused.
The Use of the Trumpets have repeatedly directed, it's not being complied with is certainly a great Inattention to my Orders, as well as unprecedented on Board even a little trifling Ship of War.

I could add much more on this Subject, but it is unpleasant, and I trust you have good Sense enough to correct little Errors without making any Addition from me necessary. In Fact you are a Lieutenant in the Navy, and your Rank is preserved to you from the Date of your Commission, but you only act as a Master here at present, Attend to these Observations, and profit by them, and you will do right. I am,

Your Obedt humble Servant

Extract from Captain Thomas Truxtun's journal, U. S. Frigate Constellation,

Wednesday, 16 January 1799

At 1 PM discovered a Fleet of Vessels to Windward of Gaudaloupe, standing down before the Wind, hauled to the Northward, and soon after hove about, stood towards them, and made the private Signal for the Day, which was answered, but not distinctly to our View. We soon after however discovered the Fleet to consist of the United States Frigate, and the Montezuma and Norfolk Sloops of War with twenty five Sail of Merchantmen under Convoy (and as we found on Captain Murray's coming on Board) bound to the United States, that they had left Prince Rupert's Bay, Dominica early in the Morning.

The United States soon after we discovered the Fleet hauled her Wind to the S.E. consequently I had not an Opportunity of speaking with Captain Barry, for before we got up with the Fleet, he was out of Sight.

Captain Murray requested me to take Charge of the Fleet, which I agreed to do, and lead a head, until my Arrival at Saint Christopher's from whence I told him, he must proceed on himself with the Convoy according to his Arrangements made previous to joining me, for as I intended to cruize among the Islands &c. I could go no further with him; I informed him at the same Time, that I had Directions from
the Secretary of the Navy to detain the Norfolk and keep her with me, and that I should accordingly order Captain Williams to return and join me as fast as possible, after accompanying the Convoy as far as the Latitude of 25° North.

Made Sail and stood on for Montserrat. At 2 AM abreast of that Island at 8 ditto up with Rock Dondo (Rodondo) directed Captain Murray to proceed on with the Van, and anchor in Bassateere Roads, St Kittes, and direct the Vessels to show their Colours going in, and that I would bring up the Bear, and remain without until all was at Anchor. Dispatched Lieutenant Clinch with my Compliments to the Commanding Officer at the Fort, and to inform him I would salute the Fort with 13 Guns provided he would return an equal Number, and to inform the Governor &c. that I intended to anchor the Convoy in the Roads of Bassateere for a few Days only, until the Norfolk Sloop of War returned from Antigua with what Vessels may be there bound Home. At Noon abreast the East End of Nevis, the Weather cloudy, and having a dirty appearance. Bent the Cables, and got the Anchors all clear.

To President John Adams from General Desfourneaux, Commander-in-Chief of the Island of Guadaloupe

The following Extract of a Letter, with the annexed Address, was received yesterday by a merchant of respectability in this city.

"St. Thomas, 17th Jan.

I enclose you Gen. Desfourneaux's Address to the President, copied from one handed me by a gentleman, who arrived here yesterday from Guadaloupe, and whose vessel was condemned a week ago, on the same grounds as usual."

To John Adams,

President of the United States of America.

Sir, Arrived at the post intrusted to me by the Executive Directory. I think proper to inform you of the dispositions of the French Directory, towards the Neutrals and Allies, of which America is a part.

You will find them mentioned in the Decrees of the 13th of Thermidor, (12th Aug.) the copy of which I add to this. The privateers fitted out in the ports of Guadaloupe, shall run against "the enemies of the Republic, but shall pay every regard to Allies and Neuters, who shall not be found in contravention, with the laws respecting them.

The citizens of the United States may come and exchange their produce, for the productions of the Island of Guadaloupe — they will dispose of their property freely — the laws will protect them, and will punish with rigour, whoever will dare to oppose them, or to suspend their effect — I hope that many proofs of the loyalty which will never cease to be the character of my actions, will be sufficient to restore the confidence and connections mutually useful.

I left France the 7th Vendemair last, (28th Sept.) with a division. The 16th of the same month, being in lat. 36, 15, long. 21, 35; the commodore of the division, spoke the American vessel Aranno, Capt. Daniel Prior, belonging to Joseph and John Dorr, citizens of the United States, and Merchants in Boston. The papers, and especially the Role of Equipage, being in order, the vessel proving to be American property, the vessel was cleared. It was also offered the captain, that if he would follow till day light, the vessels of the division, they would give him a spar, to repair his fore-topmast, carried away in a storm. The vessels of the division, shortened sail to let the American keep up, but whether the vessel could not keep away, or the captain thought proper to change his course, we lost sight of him.

The 30th Brumaire (20th Nov.) being to windward and in sight of the Island of Desirade; we perceived 4 vessels of War, sailing for us, being so close that we could plainly distinguish them to hoist English colours, at that instant the order was given to chase them, but immediately they tacked about and stood from us.

The frigate L'Insurgent having overtaken the schr. Retaliation, commanded by Lieut. Bainbridge, we were convinced the vessels chased were Americans.

The necessity to arrive at our destination, and avoid the pursuit of the English forces, superior to ours, of which we had knowledge, every thing prevented me from taking a true view of our situation with the United States. In consequence, I gave orders for the schooner to follow the Division.

After having spent the first moments to make my powers known, I occupied myself with the affairs of the Resaliation, and if circumstances and political reasons had not obliged me to lay an embargo, I should have immediately let her go to the United States. These obstacles do not now exist. I leave the Lieut. Bainbridge at liberty to sail for the United States, giving him charge of the packets for you, and recommending him to make his way with the vessel in which I send back all the American citizens made prisoners before my arrival in this island.

I conclude, Sir, with repeating to you that the citizens of the United States will be considered and treated like Allies, that in every circumstance they will obtain justice, and will be well received.

Receive the assurances of my consideration.

(Signed) Desfournaux.

Sir, I am honored with yours of the 1st Inst. It is impossible to gratify your wishes, as to the date of your Commission, it would interfere essentially, with the claims of other Officers. I never understood from Mr. Higginson, that it was meant to be understood by you, that your Com. as Cap't in the Navy, should take date from the day you were appointed to Command, the Revenue Cutter, — and if I had so understood him, it would not have been in my power to comply with such engagement.

I have added at foot the names of the Cap't, and in the order of their rank, — with which I hope you will be satisfied.— There are as you will observe, but few above you, it is doubtful, whether three of these will continue in the service, — and it will not be long before you will be near the head of the list.

It would occasion me real regret — and I am Sure it would give great pain to the President, if an Officer of your merit should quit the Service. —

I return your Commission in hopes you will be satisfied to retain it, and to take the Command of the Ship building by the Merchants at Boston

Lieu't Edw'd Preble

Sir: Presuming that the Pickering under your command, is now ready for Sailing, I have it in Command from the President, to order that without delay, you proceed to the Island of Dominica in the West Indies, and cruise in the vicinity of Prince Ruperts Bay, until you fall in with Cap't Barry of the Frigate United States, under whose orders you will place yourself, Vessel, and Crew.

I enclose you your Authority to capture, or destroy, French armed Vessels, wherever found on the high Seas, or elsewhere, — also to recapture Vessels, captured by the French; There is also a description of Vessels in the West Indies, from which our Commerce has hitherto received much injury; I mean, armed cruising Vessels, acting without Commissions, you will consider your authority to extend to the capture, or destruction, of these Vessels also.

In the execution of these Instructions, you must bear in mind, that we are at war only with French armed Vessels, and persons found on board of them.

Being at peace with all other Nations, we should endeavour to cultivate, and preserve it, by practising the duties of Civility, and Friendship; — Should you meet with any American Vessel, captured by the Vessels of any of the powers at war except the French; or should you even see such Vessels in the act of capturing an American Vessel; — you cannot recapture in the one case; — nor can you lawfully interfere to prevent such capture in the other; — It must be presumed that the Courts of such Nation will render justice.

You will use your utmost endeavours, to introduce and preserve order, and discipline among your Crew; and on all occasions, inculcate the highest sense of the Honor, of the American Flag; — which must be maintained at every hazard.

I enclose you a copy of the circular instructions, given the 29th Dec 1798 and 16th January 1799. Wishing you honor & success.

STEPHEN HIGGINSION Esq' Boston

Sir I have no letter from you later than the 3rd Janus — in one of that date you say Cap' Sever will be in town this evening, when the arrangements for the Herald must be made, the Commander appointed and other Officers provided; — I wait with impatience, to know these arrangements, — and until I hear from you, I cannot move. If possible such difficulties as to Officers shall be avoided in future. —

If your next letter should not inform me of arrangements as to the Officers being made; — I will get officers appointed, who I know will serve, and who deserve to be appointed. —

It will be agreeable if the Herald is changing into a Cutter, as delay must arise for want of Officers; it will be fortunate if she is under the hands of the Carpenter. — The Pickering need not wait for the Herald, but may sail with M'Neill, whose orders go on to day. — but this is not material, each may go alone, and it will afford a better chance of falling in with French Cruisers. — I wish the provisions may go under the convoy of M'Neill; — tho if this is not practicable; I suppose either the Herald or the Pickering will be sufficient.—

The enclosed letter to Mess' Frazier Urquhart & C' Dominica to whom be pleased to ad- I have the Honor &c dress the Provisions, may go by the Chartered Vessel. —

Extracts from correspondence between Elbridge Gerry and Secretary of State transmitted to Congress by President Adams.

5th Congress.] No. 148. [2d Session. FRANCE.

COMMUNICATED TO CONGRESS, JANUARY 18, 1799.

UNITED STATES, JANUARY 18, 1799.

Gentlemen of the Senate

and Gentlemen of the House of Representatives:

The communication relative to our affairs with France, alluded to in my address to both Houses, at the opening of the session, is contained in the sheets which accompany this. A report of the Secretary of State, containing some observations on them, will be sent to Congress on Monday.

John Adams.
Letter from the Secretary of State to Mr. Gerry, dated

JUNE 25, 1798.

Sir: By the instructions dated the 23d of March, which, agreeably to the President's directions, I addressed to Generals Pinckney and Marshall and yourself, and of which six sets were transmitted, one by a despatch boat sent on purpose, and some of which doubtless reached you during the last month, you will have seen that it was expected that all of you would have left France long before those instructions could arrive, and which were transmitted rather from abundant caution than necessity, seeing no probability or hope existed that you would accomplish the object of your mission. The respect due to yourselves and to your country irresistibly required that you should turn your backs to a Government that treated both with contempt—a contempt not diminished, but aggravated, by the flattering but insidious distinction in your favor, in disparagement of men of such respectable talents, untainted honor, and pure patriotism, as Generals Pinckney and Marshall, and in whom their Government and their country reposed entire confidence; and especially when the real object of that distinction was to enable the French Government, trampling on the authority and dignity of our own, to designate an envoy with whom they would condescend to negotiate. It is, therefore, to be regretted that you did not concur with your colleagues in demanding passports to quit the territories of the French republic some time before they left Paris.

General Marshall has arrived, and delivered to the President your letter of April 16th, with its enclosures; all which were on the 21st instant laid before Congress, accompanied by a message, in which the President declares the negotiation at an end, and that "he will never send another minister to France, without assurances that he will be received, respected, and honored as the representative of a great, free, powerful, and independent nation."

It is presumed that you will consider the instructions of the 23d of March before mentioned as an effectual recall; lest, however, by any possibility, those instructions should not have reached you, and you should still be in France, I am directed by the President to transmit to you this letter, and to inform you that you are to consider it as a positive letter of recall.

I am, respectfully, sir, &c.

TIMOTHY PICKERING.

[Am. State Papers.]

Extract from Elbridge Gerry's communications to Secretary of State

NANTASKET ROAD, October 1, 1798.

* * * * * * * * * *

On the 26th of July, I left Paris; and, from the best information which I could obtain relative to the disposition of the Executive Directory, (for I never had any direct communication with them) they were very desirous of a reconciliation between the republics. Every impediment to my departure had been adopted by the French minister; and he would have prevented it, had he succeeded in his plan of an epistolary discussion. His object was, as I conceived, to
gain time for ascertaining whether the United States were then disposed to a treaty; of this he manifested doubts, being persuaded that their resentment was too great to admit of it. He seemed also to apprehend that, in consequence of the incredible exertions, of Great Britain, and the unequivocal evidence she had given of her ability to defend herself, they were inclined to avenge their injuries by an alliance with her; and that, should France come forward with overtures, or the plan of a treaty, she would fail therein, and compromit her honor. I was, nevertheless, of opinion that, should France be just and liberal in her measures, the Government of the United States would still meet her on the ground of accommodation. My judgment was the result of their instructions; for I had never received any other official intelligence since my departure from America; I have, therefore, uniformly inculcated that sentiment.

Having been thus in a situation wherein, amidst a series of events, each has been productive of fresh embarrassments, I have invariably pursued what to me appeared the honor, interest, and welfare, of my country, and been guided by the sense of the Government, as far as I could ascertain it.

If the door is still open to peace, the establishment of it must be a happy event to the United States, as it will exempt them from calamities, which, notwithstanding delusive appearances, will, with short intervals, probably continue, for half a century, to exhaust and depopulate Europe.

But, if the national pulse beats high for war, and the wise and constitutional councils of the United States shall consider it as the only safe and honorable alternative, may that Omnipotent Being, who controls events, protect them; and may they commence the war with ardor, continue it with vigor, and terminate it with glory. That this will be the issue there can be no doubt, whilst the American republic shall choose union for her motto; and profiting by the misfortunes of other nations, shall be convinced that discord will ensure dependence, and concord independence in war and peace.

I shall, probably, when at leisure, give you some other details of less consequence, and, in the interim. Remain, sir, with much esteem and respect, your very humble servant.

E. GERRY.

Secretary of State of the United States.

Navy Department January 18, 1799

ROBERT G. HARPER ESQUIRE
Chairman of the Committee of Ways & Means. —

Sir: The existing Laws allowed the Secretary of the Navy to employ Clerks, at the rate of 500 Dollars per Annum, to absorb, with the contingent expenses of the Office to the end of 1798, the sum appropriated, being Dollars 6214.72/100. —
Conceiving that it must have been the intention of Congress that the Clerks in the Navy Office should be on the same footing with those employed in the other Departments, and knowing that a House full of such Clerks, as could be employed at 500 Dollars would be found insufficient for the business of the Office, I have ventured to draw money on account, and to pay the Clerks employed by me, such Salaries as I thought their services entitled them to receive.

The whole amount of payments for Clerk hire, since the commencement of my Office to the 31st December 1798 is Dollars 2821.28.

New York.

Gentlemen I beg pardon for not attending to your letter of the 22d Ult. — in the hurry of my business it escaped me; I am this day honored with yours of the 16th. It has been deemed important, to break up if possible, the Cruisers from the West Indies, which infest our trade — and it was two or three months ago determined our whole force should be employed this Winter about the Islands; with this view; — more Vessels are getting ready, and we shall have I presume enough by the Spring, to afford such a force as you suggest for the Mediterranean, — and it is very much the desire of the Govt. that our force should be employed to afford, the greatest possible protection to
our trade. — but it may be April or May, before any arrangements can be made beyond the West Indies.

If Congress authorizes more Ships, I will attend to the Gentlemen at Hudson; pray can Ships drawing 18 or 20 feet Water be floated from thence

Sir I am honored with yours of the 9th Ins — Having a very high opinion of Capf Chapman's merit, I was extremely sorry, that I could not comply with his wishes as to the date of his commission. — It could not have been done, without interfering with the rights of others, and without producing resignations of valuable Officers. — To this effect I have written Capf Chapman, and that he was placed as high, as it was practicable to place him, — indeed he is high enough to have well grounded expectations of being the head of the Navy before long. — Several above him will leave the Service. I very sincerely hope, he will be induced to remain in the service — and in that hope, returnf his Commission — and as the loss of a good man to the Navy at this time, when its Character is yet to be established, is a great loss, I hope you Sir will use your influence to satisfy Chapman he ought to remain. —

[Basseterre Roads, St. Christopher.] After making all the necessary Arrangements for general Repairs, and for the better trimming of the Ship, I went on Shore, and waited on Governor Thomson Commander in chief of the Charibbee Islands, who received me in the most polite Manner, offering every Service, in his Power to convenience me in my Operations on this Station, and giving me the most friendly Invitation to dine, and frequently visit him.

I also returned the Visits of all those Gentlemen, who honored me, and made the necessary Arrangements with Mr Clarkson of this Island but formerly of Philadelphia to supply the Ship on the best possible Terms with such Articles, as may be necessary.

Here I find the Produce of the United States generally in Demand, and the Price such as will warrant a good Freight with all the other customary Charges.

To Secretary of the Navy from Captain Thomas Truxtun, U. S. Navy

UNited States Ship, Constellation,

Bassaterre Roads 17th Jan' 1799 —

Dear Sir, I sailed with the Constellation from the Bay of Chesapeake the 31st December in the Evening, with the Rich mond in Company, three Schooners, and a Brig. Nothing after occurred worth Notice here, until the 12th when I arrived in Sight of the Island of Antigua, and dispatched Captain Barron to see two of the above Schooners safe to Saint Thomas's, their Place of Destination, and to return as soon after as possible and join me at my Place of Rendezvous (Saint Christophers) and in the Mean Time I proceeded with the other Schooner, having the Lady on Board, that you committed to my Care, to Martinica, and left the Vessel off her Port standing in (and the Coast perfectly clear) on the 14th about 11 o'Clock in the Morning. I shall just observe, that this Vessel has given me a vast Deal of trouble, and, in Fact, if I had not watched her Night and Day, and shortened Sail, so as to make the Ship frequently uneasy, as well as uncomfortable to myself, she would have parted Company, ere we left the Coast of America, I however congratulate the Friends of the young Lady that was on Board, on her being now safe with her friends in Martinica.

As soon as I left the Thetis, I proceeded for Saint Christophers, determined to look into Bassatere, Gaudaloupe, and the next Morning, I fell in with the British Frigate, Concord, of 44 Guns, which I spoke, and after some Civilities having passed between Captain Barton, and myself, I run close by Bassatere, within Sight of the Town, and so as to point out the Government House, two of their Frigates having sailed for France, on Board of one of which was Victor Hughes, there remains only the Volunteer of 44 Guns, and a Corvette in these Seas, both of which were laying in Bassatere Road, when I passed it; but they have no Disposition to come out, and risk either an Action with the English, or American Frigates in these Seas. Shortly after passing Bassatere, I discovered a Fleet astern, and not knowing what they were, hove about, and repassed Bassatere again, and shortly after discovered the Fleet consisted of the Frigate United States, the Montazuma, Norfolk, and 25 Sail of Mer-
chantmen. Captain Barry stood to Windward, and did not come down. On my speaking Captain Murray, he requested me to take Charge of the Convoy, and proceed with him, as Captain Barry had refused, and I acquiesced with his Request so far, that I would see them into this Port, where we arrived last Evening, but as he, and the Norfolk would be sufficient to see them clear of the other Islands, and to the Latitude of 25 North, I should go no further with them, but should order Williams to join me immediately, and without Loss of Time, after reaching the 25° of North Latitude, but I fear this Man is better calculated for a Purser, than a Captain of a Ship of War, as he pays more Attention I understand to pecuniary Matters, than those of a more glorious Nature.

Shortly after proceeding with this Convoy, I dispatched Williams to Antigua to bring down any American Vessels that may be there, agreeable to the Arrangement Captain Murray had made previous to my falling in with him, and I expect Williams here to Morrow, and if so the Fleet shall sail next Day. As soon as I fill up my Water, I mean to proceed immediately on a Cruize about these Islands, untill the Baltimore, and other Vessels join me, which I hope will be soon. You may rest assured, that no Opportunity shall pass, that good Fortune may favour me with of doing my utmost for the Honor of our Nation, and the Good of our Commerce. I have found a Mr Clarkson, a Merchant from Philadelphia, of respectable connections, married and settled here. I shall consequently direct my Purser, to call on him for his Aid in procuring Supplies, — untill I have Advice of your appointing a public Agent.

The Crew of the Constellation is in good Health, and fine Spirits, all meritorously wishing to meet the Enemy on equal Ground, and in Hopes of the kind Indulgence of Heaven to our united Prayers in this of all other the most desireable Object. I have the Honor to Remain

Dear Sir,
Your very Obedient Servant

T. T.[Ruxtun]
18th January. Yesterday I was entertained by the Governor, and Commander-in-chief of this, and all the Charibbee Islands; every Tender of Service was made, and Joy seemed to be marked in every Countenance present, and the more so, as some evil minded American had industriously reported, that our Government had ordered the Ships of War to avoid going near the English Islands, lest the French should be offended, and our Object was to make Peace with them if possible at all Events. I have assured the Governor, that I was well satisfied, that the President of the United States would never come to an Accommodation with that perfidious Nation, until full and ample Satisfaction was made for the Insults we had received, and for the Property unlawfully captured from our Merchants, and other Traders, with which Account he was much pleased.

I enclose you a Letter I have just received from the Surgeon General, by which you may judge of the Orders delivered out to every Department here with Respect to us. And I am satisfied we shall find the Station a very pleasant One, Nothing shall be wanting on my Part to heighten the good Opinion of the People in this Quarter of us. A Salute has passed between the Constellation and Fort on equal Terms. I also enclose you Copy of a Letter to Captain Matson of his Britannic Majesty's Ship, Cyane, For your further Government as to the Conduct I mean to pursue, I am anxiously waiting the Arrival of the Ships destined to join me, and hope I shall soon meet them in the Neighborhood of this Island, and the Store Ship, for Provisions are scarce, and dear throughout the Islands at present.

19th I enclose you Desfourndeaux, the french Agents', at Gaudaloupe, Proclamation, which I have just received. We have various Accounts of Bainbridge, but none to be depended on, tho' I should not be surprised, if they were to give him his Vessel from what I have heard, as the present Agent is a man of deep Finess. However, our Country I'm sure, cannot now be duped, by any Conduct of this Agent, whose Character must be well known throughout America.

Yesterday American Brig arrived here which had been taken by a french Privateer just out from Gaudaloupe, and retaken by an English Vessel of that Description.

To Captain Richard Matson, Royal Navy, from Captain Thomas Truxtun, U. S. Navy

Sir, In Case of meeting at Night, Captain Barton and myself have agreed on the Night Signal at foot. I have his private Signal, and shall display a blue answering Flag, whenever it is made to me. Should I meet with you at Sea after the Signals of the Day have been exchanged, you will know the Constellation by a Dutch Jack, which you may answer by an English Jack at the same Place, in Order that I may know your Vessel.

Any Services that may be in my Power to render you, or the other Ships of his Britannick Majesty in these Seas &c. you will do me a
great Favour by an Intimation of them at any Time; and I have to request you will be pleased to communicate this Tender to Admiral Harvey, and the Commanders of all the King's Ships in the West India Station, whenever you have Opportunity. In Fact we may be of mutual Service to each Other, and I shall be pleased to unite in any Enterprize against the Common Enemy, that may promise Success or Glory.

NEWPORT Jan^t 19 1799 —

Sir We have just received a letter from Henry Hudson master of our Brig Little Sally, informing that on his passage from this port to the Havannah, he was captured and carried in to New Providence and obliged as a condition of release to deliver up 13 Casks Nails part of the Cargo laden and to us belonging in said Brig.

Having carefully examined previous to lading of the Vessel, what articles were esteemed contraband of War in the Treaty with Great Britain, we were then, and still are of opinion that Nails of the description we ship'd did not come under the articles of Contraband of War. And observing by the letter of the Captain, that Vessels with other articles, not Contraband of War, (without a very forced construction) were carried in and condemned at New Providence — We have considered it a duty to give you the earliest advice, and shall be obliged with your opinion, if we are right in the construction we put, on Nails being free — If so we shall immediately take steps to prosecute the owners & Masters of the Privateer for restitution and damages — in which we trust we shall have the countenance and support of Government — Considering it of importance that immediate measures should be taken to check the lawless sport of piracy that reappears in New Providence — We are Sir with great Respect Your ob^t Serv^t

To Robert G. Harper, Chairman of Committee of Ways & Means, from Secretary of the Navy

[PHILADELPHIA]
Navy Department 19th Jan 1799

R. G. HARPER Esq;
Chairman of the Committee of Ways & Means

Sir I beg leave to submit to the consideration of the Committee of ways and means, a letter from the Accountant of the Navy.

The Estimate of the expence of Clerk hire in the Office of the Accountant of the Navy, ascertained in the report of the Secretary of the Treasury, was made in the absence of the Accountant. I take the liberty to observe, that it will be in vain to expect the Public business to be preformed, unless the responsible Officer be allowed to engage a sufficient number of Clerks, and pay such Salaries as will be necessary to procure competent Talents. Still I hope the Number contemplated by the Accountant, will not be required longer than to get the business of the Office well arranged; and whatever may be the Sum appropriated, no more of it will be used, than absolutely Necessary.

[Enclosure]

To Secretary of the Navy from William Winder, Accountant of the Navy

[PHILADELPHIA]
Navy Department Accountants Office Jan 18 1799

BENJAMIN STODDERT Esquire
Secretary of the Navy

Sir The appropriation proposed for clerks in this office for the year 1799 as stated in the estimate refered to in the Report of the Secretary of the Treasury will not I apprehend be sufficient to procure clerks for performing the several duties of the office.

It must be recollected that the Act of the 16 of July, 1798 not only charges the accountant of this department with the settlement of all accounts relative to the expenditure of money; but also with those relative to the issuing and distributing of Stores. And to perform these several duties I apprehend two distinct systems of Accounts must be adopted with an appropriate set of books and clerks for each system.

The form prescribed by the Comptroller of the Treasury for the money accounts requires the expenditure to be arranged under several general heads, and as it has been judged advisable to keep the accounts of each vessel distinct, accounts of Expenditure for the number of vessels multiplied by the number of general heads must be opened beside several others for the Navy Stores at different ports, for the Marine Corps and for prisoners of War, subjects not contemplated by the Comptroller, so that the whole number of accounts of expenditure that must necessarily be opened will be little short of five hundred and it will be readily conceived dissections so multiplied must occupy much time and attention both of the examining and stateing clerks and of the book keeper.

With respect to the Store accounts little has yet been done. When the office was at Trenton some essays were made towards organizing a system; but since removing the office to Philadelphia the press of
accounts for settlement and a want of experienced clerks have not permitted me to bestow any attention on that business; but I apprehend it must be conducted on principles similar to those adopted by the commissary of Military Stores, and I presume will fully employ one clerk of the most respectable talents and very probably an assistant.

Viewing the business of the office in this light I am lead to suppose that it will require three clerks to examine settle and adjust the accounts for entry, one to select from them the several articles not finally expended in order to their being entered in the store accounts, one to keep the books, one to keep the Store accounts, one copying clerk, and one principal clerk to assist in the general superintendance of the business of the office. And from the rates of compensation in private service and in the other public offices, I should estimate for them as follows, to wit

<table>
<thead>
<tr>
<th>Position</th>
<th>Annual Compensation</th>
</tr>
</thead>
<tbody>
<tr>
<td>One principal clerk</td>
<td>1200</td>
</tr>
<tr>
<td>One Book keeper</td>
<td>1000</td>
</tr>
<tr>
<td>One Clerk for the Store Accounts</td>
<td>1200</td>
</tr>
<tr>
<td>Four clerks for examining Stateing &amp;c.</td>
<td>760 each</td>
</tr>
<tr>
<td>One Copying Clerk</td>
<td>500</td>
</tr>
</tbody>
</table>

6900

It is probable it may not be necessary to allow compensations to the full extent above stated, or to employ so many through the whole of the year; it may nevertheless be adviseable that a power should be some where vested, to employ as many of them as may be found necessary, and to agree to such compensations as will secure capable clerks if such should offer, keeping within the limits assigned.

I will also beg leave to call your attention to the past services of the clerks in this office. By the existing laws no clerk in this department is entitled to compensations at a higher rate than 500 dollars per annum, but from the appropriations made it is presumed Congress intended to put them on the same footing as the clerks in the other departments, and before I was apprised of this limitation I had lead two of the clerks employed in this office to expect higher compensations; I therefore declined presenting an account for settlement but obtained an advance from the treasury for 1333 68" on account, relying that Congress would make such provision as would authorize me to pay the clerks the compensation I proposed which from the first institution of the office to the 31st of Decr last amounts to 657.95, and adding thereto the compensation allowed me makes the whole to that period for compensation to me and the clerks in the office 1377.95 as will appear by the enclosed Statement.

I am &c.

Sir During your stay in Georgia you will have an opportunity and it may be useful if you will examine the Islands and Main with attention, so as to inform yourself of the Spots where live Oak timber
grows in the greatest Quantities and of the best quality, most contiguous to Navigation; and whether contracts might not be made with suitable Persons for the delivery of certain quantities, and kinds of this timber, and on what terms. —

From your Investigation you will be able to judge whether the best mode of procuring Supplies will be by contract, or whether any mode more eligible may be adopted. — In fine I beg you will make yourself fully acquainted with this Subject, as at your return it may lead to some important arrangements; your expence on this business will be paid by the Public. —

[Bassesterre Roads, St. Christopher.] Employed doing the Needful Repairs to the Ship &c. on the 19th, and 20th, landing our spare main top Mast, one spare Main Yard, one spare Mizzen top Mast, one Derrick, and a cross Jack Yard, for the Purpose of having the Ship more clear, and in better Condition for carrying Sail.

I have also hoisted out the Launch, and rigged and placed her in Charge as well as the Spars of Mr. Clarkson the temporary Agent as this is to be my Place of Rendezvous in the West Indies.

On the 21st at 8 AM, having given Captain Murray of the United States' Ship Montezuma his Orders Yesterday, the Convoy for the different Ports of the United States got Underway, and proceeded on their Voyage convoyed by the United States Brig Norfolk also.

I directed Captain Williams of the Norfolk to accompany Captain Murray with the Convoy to the Latitude of 25° North, and return to this Island immediately to receive my further Orders. Having received a Petition for Convoy from several Masters of Vessels at Antigua on the 20th and as the Richmond had this Morning returned from Saint Thomas's, I immediately dispatched her for Antigua to bring down those Vessels to Saint Christopher's, and to remain there, until I collect Others from Saint Bartholomew's, Montserrat &c. to make the Convoy more respectable.

Since the Receipt of the above Petition, I have received several Others from St. Bartholomew's, and other Islands.

DEAR SIR, You will get under way, and proceed to Saint John's
Antigua, as fast as possible, and bring down what American Vessels
may be there to these Roads; from whence I will afford them further
Convoy to the Northward. A Number of Masters have written me,
that they will be ready to Sail by the 25th but you may wait untill
the 27th Instant (next Sunday if they should not be ready). You
will in your Way up and down, examine all armed Vessels particularly;
for the french Privateers may endeavour to pass as English, having
Americans on Board. Should I not be in these Roads on your Return,
you will detain the Fleet for my Arrival, as I purpose being off S;

To Captain John Barry, U. S. Navy, from Captain Thomas Truxtun, U. S. Navy

UNITED STATES’ SHIP Constellation,
Bassateer Roads, St Christopher’s, 21st Jan’ 1799.

DEAR SIR, When I was on my Return from off Martinica to this Place, I stretched near the Roads of Bassateer, Gaudaloupe, and spoke the Concord, a British Frigate, commanded by Captain Barton, who informed me, that you was then at Prince Ruperts’ Bay, Dominica, and in the Afternoon (of the 15th Instant) I discovered, and spoke Captain Murray with the Fleet, and agreeable to his Request took the Command, and led them down to this Place, where they all anchored safe the next Day, and from whence they sailed this Morning for the United States.

I left Hampton Roads the first Instant with a Convoy having with me the Richmond, Captain Barron, on the 12th I made the Island of Antigua, when I dispatched the Richmond with some of the Vessels to Saint Thomas’s, with Orders to join me as soon as possible at this place, and I proceeded and saw safe (on the 14th) into Saint Peire’s Road, Martinica, the Schooner Thetes, having the young Lady on Board, that Mr Stoddert mentioned to us in Philadelphia.

On speaking with Captain Murray off Gaudaloupe he informed, that you had left the Fleet, and was just in Sight to Windward from the Deck; I consider it rather unfortunate, that you had not accompanied Murray, and the Convoy an Hour, or two longer, as we then should have had the Pleasure of meeting.

The Norfolk was put in Squadron with me, and I delivered Captain Williams the Secretary’s Orders Yesterday, but at the Request of Captain Murray, I have suffered the Norfolk to accompany him to a certain Latitude beyond the Tropic, and then he is to join me here. The Number allotted me by the Secretary of the Navy, is six Sail, and I purpose furnishing Convoys for the Vessels from Antigua, Montserrat, Nevis, Saint Christophers, and the Islands to Leeward as far as Saint Thomas’s, and have assured the Consignees of Vessels, and many Masters, that as you have a Squadron to Windward, I was certain, on a proper Application being made to you, that you would order them a Convoy for all Vessels bound to the United States from Barbadoes, Saint Vincent, Grenado, Martinica, and the other Islands.

It is my Wish to fulfill my Instructions from the Government in the most full, and complete Manner in every Particular, and altho’ we may not meet very soon, I shall always be happy to pass a friendly
Letter with you, when good Opportunities offer, and communicate what is proper for each others' Information.

I sail in the morning, and shall stretch close in with the Bay of Saint Martin's, a Place I intend to watch very closely, as well as Saint Bartholomews. I have sent the Richmond to Antigua, and Montserrat, to collect the Vessels, that were not ready to leave those Islands with the Norfolk, when she called for them; I expect her down with them the 23rd Instant, when I shall have collected, I expect, about 20 Sail, and as I expect Williams will be here about that Time, I mean to proceed with them myself to the Northward, as far as Murray will go with the present Convoy.

Be pleased to make my Compliments to O'Brien, and be assured, I am, Dear Sir, with Sentiments of great Regard and Esteem Your Friend, and very humble Servant

Sir You will please immediately on rec' of this, take Command of the Ship Herald, as Lt & Commandant, and make all possible dispatch in getting that Vessel ready for Sea. —
I believe she is overloaded with Guns — that she will be a better, and more formidable Vessel with 14 or 16 Guns, and a reduced Crew. You are therefore at liberty to reduce her number of Guns. —

I shall tomorrow write you again. —

STEPHEN HIGGINSON Esq.

SIR I am this day favored with your of the 14 Inst — your last letter, of the 3d January taught me to expect, that arrangements would be made for the Herald, on the arrival of Capt' Seven, in Town, that evening. — and I have done nothing on the subject of Officers, in consequence of that letter. — I now write Lt Russell, to take command of that vessel, as Lt and Commandant.

It appears clearly enough from the documents that Russell brought, that Nicholson's conduct in withholding his commission was improper. — That he afterwards wanted Russell on board — and Russell acted right in refusing to go, without rect his commission, which he knew to be in the hands of Nicholson — He is well spoken of by Gentlemen from Boston — and I hope may be quite equal to the Command of the Herald. — you have said nothing on the subject of reducing the number of Guns, as proposed in my letter. — I have written to Mr Russell on this subject.

I wish the Vessel may be under the Carpenter hands, to make her into a Cutter, as I find there would have been full time, before she will sail. — It will now be too late to begin; — and I suppose she will be ready for a Cruise as soon as Instructions to that effect, can be sent on, which shall be in two or three Days. —

I have the Honor &c

To Secretary of State from Fulwar Skipwith, U. S. Consul General, France

CONSULATE GENERAL OF THE UNITED STATES OF AMERICA

To Sec: of State

PARIS 23d January 1799.

SIR, As every circumstance expressive of the present disposition or intentions of this Government towards neutral Nations in general, and the United States in particular, must at the present juncture,
prove acceptable to our Government to know, I hasten to transmit you a copy of the message lately addressed to the Council of 500, by the Directory concerning the actual system of privateering; the object of that message is first to place in the hands of Government, the immediate control of all prize business, instead of the Commercial and civil Tribunals, and from the evident necessity of repressing the violence and rapacity of French privateers, I have reason now to think that the system suggested by the Directory will be soon approved by the Legislature; and that in consequence the rights & property of Neutral Nations will be considerably more respected than they have hitherto been. In hope, as I am also, of this change proposed by Government of the mode & principles of judging prizes, proving favorable to some, if not all the American Vessels lately captured and now under trial, I deem it expedient to follow where I am charged with the defence of such Vessels, and to recommend to all others charged with the same, the system of procrastination.

I deem it not uninteresting also to inclose to you under cover hereof an exact translation of a letter lately provoked by me from the Minister of Foreign Relations to the Minister of Justice, in consequence of some representations, which I had just before made of the absurd and iniquitous application, of the laws and arrests concerning the Role d'Equipage, which shamefully continue to be practiced by many of the Tribunals. I beg to observe that the copy of the letter above alluded to was privately procured and furnished me by Mr Victor Dupont formerly French Consul at Charleston, and whose aid and Zeal in rendering my Countrymen service, I cannot too much commend. At this Gentleman's request I likewise transmit to you an example of a letter lately published and written by him to the Commissary of the Directory near the Tribunal of Cassation on the subject above mentioned.

I inclose to you at the same time copy of a declaration made by three American Seamen before the American Consular Agent at Ostend concerning the loss of the Ship Polly, Captain Stewart, and her Cargo near that port and on their passage from New York to Hambro; and at foot you have the names of [space] American Vessels which have been captured by French privateers & brought into ports since my last respects.

Respectfully, I have the honor to be,

Sir, Your most Humble Servant

Navy Department 25th January 1799

Lt Charles C. Russell  
Boston.

Sir My letter of yesterday invested you with command of the Herald, with instructions that you should use your utmost Exertions to prepare her for sailing. — I hope by the time this reaches you, this Vessel will be ready to proceed on the intended Cruise — I have it therefore in Command from the President, to order that without delay, you proceed to the Island of Dominica, in the West Indies, & cruise in the vicinity of Prince Rupert’s Bay, until you fall in with Cap’l Barry of the Frigate United States, who will afterwards direct your operations.

I enclose your Authority to capture or destroy French Armed Vessels wherever found on the high Seas, or elsewhere; also to recapture Vessels captured by the French — There is another description of Vessels from which our Commerce has sustained much Injury. — I mean armed cruising Vessels acting without commissions, — such Vessels are pirates, and your Authority extends to the capture or destruction of all Vessels of this description.

In executing these Instructions you will bear in mind, that we are at peace with all Nations except the French; and that it is not only our Policy but our wish, to cultivate and preserve peace, by practising the duties of civility, & friendship. Therefore, should you meet with any American Vessel captured by the Vessels of any of the Nations at war except the French; or should you even see such Vessels in the very act of Capturing an American Vessel—you cannot recapture in the one case, nor can you lawfully interfere to prevent such Capture in the other. — Where such captures are made, it is to be presumed that the Courts of such Nations will render justice. —

You cannot be too assiduous, to introduce and preserve order & discipline among your Crew. — Order and discipline among your Crew, a Love of country, and respect for its Government; a high sense of the honor of the American Flag, and a Spirit of Emulation, to maintain it, are the only roads to honor and distinction; Such I hope will be most prominent features in the Character of the Officers and Crew of the Herald. —

I enclose you a copy of the circular Instructions, given the 29th Dec 1798 and 16th January 1799 — which you are strictly to attend to. —

To Richard Caton, Baltimore, Md., from Secretary of the Navy

[PHILADELPHIA] Navy Department 24th January 1799

RICHÆ Caton Esquire Baltimore

Sir ColÆ Howard was so obliging as to shew me your letter to him, respecting Cap³ Phillips. —

I am not surprized that his dismissal should have excited the Sensibility of his friends — and indeed of those who had only heard of him — for the opinion generally entertained of him, was a favourable one, and except in the transaction with Loring, he appears to have conducted himself with propriety and zeal — and I am inclined to believe, that had it been his fortune to have had a transaction with a French instead of an English Vessel, no cause would have been given to censure his conduct. — Cap³ Phillips has all the evidence respecting his treatment by the Executive, in his own hands, if he has been hardly dealt with, I am to blame, not the President, who Judged from my representation.

He has a copy of the Narrative upon which he was dismissed, & the copy which he has is in the hand writing of Cap³ Truxtun — I beg you to get a sight of this paper, read my letter to him containing his dismissal; — and all the letters and Instructions he rec'd for his cruise, and then judge between him and the Executive. —

Nothing is more true, than that, as the last letter he received, states, his subject was taken up with every disposition to make every allowance for the unprecedented situation, to which he had been exposed.

The feelings of the people of this Country, are not more averse, than the feelings of the President, to the sacrifice of an innocent man, to motives of policy. It was Phillips's own narration of his own conduct, which dismissed him.

As to his being without a commission, if such was the fact, and I have no doubt it was; he neither in his narrative, nor in his conversation here, mentioned it as a circumstance which produced the smallest effect upon his conduct with Loring or which subjected him to any difficulty, or embarrassment; nor do I believe he was ever questioned
by Capt Loring on the subject; — or why not mention it in his narrative, or conversation here, as a mitigation of conduct, which he saw was not approved? The way he introduced the subject of a commission at all was by a question, whether he was not to have one the last day I saw him — I found on the register that a commission was marked as being sent him on the 9th day of July — but from his enquiry and from other circumstances, I was satisfied he had not rec'd it — & I gave him one, it not being determined at that time, to dismiss him the service. —

You speak of a private letter of mine to Phillips in your letter to Col. Howard — he has no private letter of mine — nor ought he to make such a representation.

I trouble you with this long letter, not with any desire to censure Phillips — but to put it in your power to know the whole truth, and to advise him the course he ought to pursue. I would indeed be sorry if any tenderness for the Reputation of our Government particularly for a Department of it, under my management should influence honorable men from a vindication of an injured man —

I have the Honor &C.

P. S. You are at full liberty to make what use you please of this letter.

And Afterwards to wit on this Fourth day of february in the year of our Lord one thousand Seven hundred & Ninety Nine the said James Freeman Master of the armed American Brig called the Diana Fran1 Douglas Mate & Natha1 Harris second Mate again appearing in this Consular office Declaring Solemnly on Oath that the Consul of the french Republic at Malaga after examining their papers had passed Sentence this day adjudging their Brig & her Cargo as good & lawfull prize to the privateers the Du Gommier Cap' Bernard Maurel
& the Don Quichotte Capn Anthony Icard for the reasons he Sets forth
in his Condemnation as per copy handed me, & from wh I appeal to
the Superior Tribunal of Aix there being no Declaration of war at
either side between the Republicck of france or the United States & no
cause for this treatment —

Wherefore these appearers for themselves & all others whom it
doeth or may concern Do hereby Solemnly protest against the said
Consul & his Sentence & all concerned in the privateers for having
dispossessed them of their vessel & Cargo & turned them on shoar
when they should be provided for, as happens with all other nations

The capture of the Ship Diana, commanded by James Freeman

"MALAGA, Jan. 26, 1799.

"GENTLEMEN, I am sorry to inform you of our misfortune: How-
ever, I have done all that any man could do to save your property.

"The 22d day after I left Boston, I fell in with the ship Industry, Capt. Goodwin, and kept company with her until the 25th of Jan.
then parted off Ceuta. The next morning early, I saw two pri-

vateers coming out from Malaga, who passed by us — then tacked
ship and followed us. As soon as they got within reach, I hoisted
my colours, and gave them a shot from my weather quarter: They
immediately hoisted French colours, and both gave me a shot, and
got direct a-stern. I then cut my stern ports down to the deck,
and got my two longest guns out a-stern. In the mean time they
had fired the second shot, and had got quite near me. I then com-
mmenced firing my stern chases, and the second shot I cut away the
jib and half the foremost of the largest privateer, which caused
them to drop a little farther astern, and we all continued firing from
9 o’clock till 12, and their guns being so much larger than mine,
they kept cutting away my rigging, when I could scarce reach them.
By this time I was becalmed, and saw another privateer coming
a-head, and fired a 12-pound shot at me, and those a-stern, taking
advantage of the calm, with their oars kept in such direction, that
I could not fire a gun — neither did they until they came within
musket shot, when they gave me a charge of grape and musket
shot, which cut away main-topsail yard, jib and fore-topmast stays,
both top-gallant sheets and halyards, so that they are all hanging
overboard. I fired my muskets once, and finding resistance useless,
hauled down my colours; being then about 4 miles from land, and
8 from Malaga. I fired my stern guns about 40 times, and two
windward ones about 10, and it is the most surprising thing, that they killed none of my men, tho' we received above 300 shot into our vessel.

"The first boat that boarded me had one brass 9-pounder, and four 3's, and 40 men, of which I killed two and wounded six — the second was a small one of only one gun and 4 swivels — the third was a privateer of nine guns, one 12 and eight 8-pounders, and 60 men.

"I dare say you have heard of the capture of your schooner, Capt. Griste, long before this. As I cannot justify Capt. G. for giving up your property to such a boat, with a pretence that his men would not fight, therefore I shall say no more about him.

"I am your obedient servant,

"JAMES FREEMAN."

This Griste commanded a schooner armed with two 12, and four 3-pounders, 2 large swivels, small arms, pistols, cutlasses, boarding nettings, and every implement that was necessary to defend his vessel, with 13 hands, and was captured by a boat that is said mounted 2 guns, and which he himself took for a fishing-boat, as appears by his protest.

Fresh Breezes, and very Black, equally, dirty unsettled Weather with Rain from 6 PM to 4 AM. At half an Hour before One PM discovered two Sail, a Ship, and a Schooner before the Port, and Road of Gustavia, in the Island of Saint Bartholomew, which bore N.N.W. and as it lies in Latitude of 17°.54'N, and our Latitude, when we made the above Vessels, was 17°.31'N (it being 17°.28 at Noon) we could not have been less than 7 Leagues from the Harbour, and as the top Sails, and top Gallant Sails of the strange Ship were only above the Horizon, the Ship which stood in on our first Appearance could not have been above ½ of a League from the Harbour, when we discovered her. I however gave Chace, but as she stood immediately in, and I had no Chance of speaking her, I brought to the schooner which stood off, and found by her Papers, she was a Swede bound to Gaudaloupe, and had been out about three Hours. Sent on Board, and had her well examined, but she had Nothing in but Ballast, and I suffered her to proceed; the Master informed me the Ship was a Frenchman from Bordeaux bound to Gaudaloupe, and had some Guns.

Standing off and on before the Port of Gustavia in Hopes the French Ship will come out. The above Schooner's Name was the Venus, James Hassell Master.

THO’ JOHNSON Esq.
Frederick Town, Md.

Sir, I have received your letter of the 20th Inst. You may deliver the Kentledge to Mr. John Suter of Alexandria; I should long since have answered your former letter, but the Secretary at War has not yet made up his mind on the subject — you shall here from me as soon as I am enabled to give you the information you require, — but I fear you will make no bargain —

The Agent at the Public Arsenal at Harpers Ferry writes the Secretary at War, that there is no Iron to be had, nearer than Grubbs in Penn. fit for Musket Barrels. — Is this possible; It is a thing well worth your enquiry, and consideration. — I do not believe it can be true. —

I am Sir

Two Brigs, the one belonging to New York, and the Other to Wilmington and Phyladelphia, having come out at Sun Rise of Saint Bartholomew bound Home, and the Masters judging that their Insurance would be effected by their going to Saint Christophers to join the Convoy for the United States which I expect to dispatch next Week, I determined on seeing them clear of Saint Martins, Anguilla and the Dog Island &c: and accordingly made Sail, and led them on. At 9 AM we passed the Forts of Saint Martins, which belongs to the French within Gun Shot. At 11 passed Anguilla, and at Noon abreast of the Dog Island which bore E.N.E. two Leagues Distance.

Very equally, uncertain Weather with Rain, employed repairing the Rigging, and Sails, both of which are very bad.
Brought to three Schooners, and a Sloop these twenty four Hours, but found them all under friendly Colours; two of the Schooners were English (one a Privateer the Tickler of Antigua) the other two Vessels were Swedes. 

Latitude observed 18°.13' North.

Fresh Breezes, and squally. At One PM being a little to the Northward of the Dog Island, which forms the Southern, and Sombrero the Northern Part, of the Common Passage for Ships bound Homeward from these Islands, and no Vessels in Sight, I desired the two Brigs mentioned in Yesterday's Transactions to proceed on, as I
considered them out of all Danger of the french Cruizers, that hover about this Quarter, and made Sail by the Wind to the Southward, and Eastward. At 8 AM chased a Danish Ship into Saint Bartholomew's. At 10 Ditto a Sloop came out which I suspected to be a Frenchman, and on her being something better than three Leagues from the Harbour, gave Chace to her, and when she was about four Leagues, fired two Shot athwart her Bow, some Distance ahead of her, as a Signal for her to heave to in Order that I might speak her, but she put about, and stood in Again after the second Shot to the Harbour.

At half past 11 AM saw a Sail to Windward, gave Chace.

To Secretary of the Navy from Captain Thomas Tingey, U. S. Navy

[U. S. S.] Ganges St Thomas's 27th Jan. 1799

Sir I had the honor to address You the 26th Dec by the ship Charles of Boston, copy of which N° 1 is herewith enclos'd. — The weather continuing fine, and progressing on our course, on the morning of the 30th we gave chace to, and spoke the Brig Mermaid Capt Lownes of & from Baltimore for St. Vincent's — and on the 24 inst made the Land of Hispaniola, at or near Old Cape Francois — Steering along the coast at noon on the 34 we had pass'd Monté Christo, and in the afternoon, being only a few leagues to windward of New Cape Francois, we discover'd three Sail to whom we gave chace, till night render'd our falling in with them very uncertain — On the morn: of the 4th however we were near them, and soon discover'd them to be two British line of Battle Ships, and a Sloop of War — After receiving and answering the private signals, with that Flag. I went on board the Hannibal of 74 Guns, having been particularly and politely requested thereto by her Captain: Ed: T° Smith Esq' commander of the squadron: from whom I received the most friendly and marked attention — withal informing of it being the particular order of the Admiral Sir Hyde Parker, for a like regard to our ships Public or private, to every captain in his fleet — Capt° Smith having also intimated (though in the most pleasing
terms, and scarce to be understood, as other than spontaneous discourse) that as I had arriv’d on a station preoccupied, and so closely invested by them — it would be pleasing to him — and he assur’d also that it would be much so to the Admiral; if I would write to the latter at Jamaica — offering also to be the bearer, or at least to forward my communications; conceiving no impropriety in this, I address’d the Admiral [letter of 5 January, 1799] which I hope will not meet the disapprobation of the President or Yourself.

I also understood from Capt’l Smith and the other two Captains, who were on board the Hanibal at the time — that an almost total stagnation to the French privateering had taken place; owing to so heavy a penalty for their behaviour having been decreed, that very few were able or willing to comply with, and that not more than one in twenty of the prizes they took were French vessels; from this I could not but presage little business for the Ganges.

I continued to cruize off Cape Francois, till the morn’ of Sunday the 6th when I steer’d to the leeward to come more immediately in the station assigned me, and hoping there also to meet the vessels order’d to join me from Charleston. In the afternoon sailing down the north side of the Island Tortudas, we discover’d a Sloop beating to windward— expecting from the situation that he was an American homeward bound, and willing to transmit you intelligence of all being well — made sail and brought him too. It proved the Sloop Ceres of Warren Rhode Island, David Sanders master; he was from Baltimore loaded by Jn’s M’Fadon & C’v with 500 barrels of flour, some wine and dry goods, clear’d out for Baracou in the Island of Cuba, and consign’d to the Captain; where also he declar’d he was bound; insisted that he had overran his port, and was beating off Key Moha, which he pretended to take the Isle of Tortudas for. — I detain’d him on board during the night — and in the morning sent for his mate and log-book; but their business was too well preconcerted; the Captain, Mate, and Log-book were in unison, and all his papers clear & regular for his purpose. No doubt remain’d with me of his being bound for Cape Francois; but as I could obtain nought to substantiate proof thereof, at 9 on the morning of the 7th I dismiss’d him, causing him to steer for Baracou, where I had intended to see him put in — but soon after two sail appearing to the Southward, I quitted him and gave chase.

Approaching them I by signal discovered them to be two British Frigates. — on the 8th I fell in with another off the Platform; in succeeding days with others; and in short during my stay there, scarce an hour pass’d, but one, two, or more British cruizers were in sight. — On the 10th the trade wind began to blow with more violence than it had heretofore done — and the Ship having lightened considerably by the expenditure of water & provision, proved too tender to bear a press of sail — I had not been without apprehension & expectation of this, previous to leaving Philadelphia — and indeed it had been more than once intimated by Capt’l Dale. But my endeavors to obtain a sufficient quantity of shingle ballast, had been render’d abortive, unless I had determin’d to let other material business remain, in which case it is evident the Ship would have been detain’d in the Delaware by the Ice. —
Every day prov’d more convincing of the necessity of getting the ship down in the water — as, should we have been obligated to chase to the leeward, the weather must have been fine indeed or we could not possibly have regain’d our station. I made repeated attempts to gain the Island of Hénéga, in order to ballast there, and probably obtain some water — but the weather continuing heavy, the wind more in the NE than usual — and the Ship making bad way against the sea — I could not fetch that Island — and was therefore necessitated to return and lay with easy sail, under the west end of Hispaniola, between Cape Nicholas and the Platform. On the 15th I stood close in with the land, sent the boats on shore with a quantity of bags, and fill’d with ballast from the beach of a very small bay — but to have obtained sufficient relief by this mode I found would be too operose — and it being attended with some risque to the boats crews while on shore — as I could not without danger keep the Ship near enough to cover & defend them; I did not repeat the experiment — This day however we also fill’d some of our empty casks with salt water.

On the morn’ of the 16th the weather proved mild, we stood out to the northward of Cape Nicholas, determining to try again for Hénéga, or some of the Keys — but about noon the wind springing up from the NNW — we weather’d the Isle of Tortugas by evening — and continuing our stretch by the wind, it just veer’d sufficient for us to weather the whole Island of Hispaniola, and on the morning of the 19th we were in with the Island of Porto Rico — a few leagues to the leeward of the City & harbour of St Johns.

The wind now resum’d its usual direction from the ENE — and being doubtful of the reception I might meet at Porto Rico, as also being totally unacquainted with its coast or harbour — I determin’d to endeavor for this port — and succeeded in getting in on the evening of the 24th — early on the 25th I waited on the Governor, who politely requested I would obtain, whatever I might be in need of.

On the Coast of Porto Rico, we saw and chaz’d several vessels, but all those we were enabled to bring too, belonged to this port, and were trading under Danish colours to & from different ports of Hispaniola.

I found here several American vessels, and one French privateer schooner of 14 guns; of which however I have heard there are very few now in these seas — This schooner is commanded by an Irishman named Williams, and sail’d yesterday on a cruize.

There is one kind of business carried on here at present, which it would I conceive behove us much to endeavor to suppress. — Many American vessels are said to have arrived here, with provisions &c. in a day or two their papers are chang’d by a pretended sale, and they go off for French ports, in some instances, without shifting or discharging their cargoes — return here with French produce, resume their American papers, and clear from this for home. I shall endeavor to ascertain & identify some of the actors in this nefarious business, and give you information. — You should have been inform’d in my letter by the Pilot on leaving the Delaware — but in my hurry it totally escap’d recollection, that when the Ship was at New Castle, on getting the Long-boat in — it was found that the space left for
her to go through the upper deck, had, by a most egregious mistake been made near a foot too short — she was of course by necessity left on shore, and was put into the care of Mr James Riddle — This circumstance obliges me to hire a boat for the purpose of ballasting — I shall lose no time in effecting this business; in the interim shall fully replenish the store of water — and put to sea for the purpose of resuming my station — That situation however being once regain’d, and having met with the vessels order’d to join me (for they had not appear’d when I left it) unless there appears a greater prospect of actually effecting some of the purposes for which we came to Sea — I shall remain there very few days, but proceed agreably to your instructions for the Cheseapeake, expecting there your farther directions.

Conceiving you may deem it right to order a launch to be built for the Ganges, either at Philadelphia, or at Norfolk against her arrival (for she certainly ought to have one) it need not exceed in extreme length 25 to 26 feet.

A memorandum of the Powers of Attorney, witness’d by myself and the Purser, for the purpose of granting half pay to some of the wives or friends of the Crew — appears not to have been forwarded to You — I have enclos’d it therefore and the more especially as one person had the address to get one witnes’d — though we have no such man on board — The crew of the Ganges are in high health, nor has any one been materially sick during the voyage — I forbear troubling you with a list of them, as they are identically the same as agreably to the Pay Roll transmitted from the capes of the Delaware — and in justice to them I must say that, such an enthusiastic ardor continues to pervade all ranks of Officers & Crew — that I stand assur’d of the firmest support, in case of being fortunate enough to meet opportunity for actual service.

As we came off deficient in the number you order’d for the Ship — I shall endeavor to obtain a few here, being inform’d there are some Americans on shore out of employ.

I am now at 1st February, having compleated my store of water, and got ballast sufficient I hope for the present cruise — I was about to proceed to Sea yesterday morning when I received application from the owners or masters of eight American vessels (who would be ready to sail this day) to wait and convoy them through the passage to leeward of this Island, fea’ting lest the French privateer which sail’d hence a few days past, should be there laying wait for them — Conceiving it my duty to afford them the protection requir’d — I detain’d the Ganges ’till this day — and I was farther induc’d thereto, in hope of recovering the Armourer, Armourers mate, & two Marines viz: Christopher Welden, and Thomas Brown — who deserted the night before last — but I have not been succesful in finding them — nor have I obtain’d but two seamen at this port. I am now about to get under way with the homeward bound vessels — which I mean to attend clear of the Islands, and proceed as before intimated

I have the honor to be

At ¾ past One PM brought to after firing three Shot, and spoke a Brig thirty three Days out from Plymouth in Great Britian, bound to Saint Bartholomews under Swedish Colours.

The Master reported that he had been robbed by a french Privateer, of four Guns, and all his Stores; had no other News, except a Report in England of the Death of General Bunoparte in Egypt.

After speaking the above Brig, stood on as per Column of Courses, intending to look into Mountserrat Road for American Vessels, and to conduct them to Saint Kitts to join the Convoy for America. At 5 PM an English Privateer, that was repairing at Saint Bartholomews, came out and fired a Gun to Leeward as a Signal for a Friend.

At 6 AM saw two Men of War to Windward, gave chase to the largest Ship, and sometime after made the private Signal, which was answered, and they proved to be British.

Stood on towards Montserrat, and at Noon abreast of the Road, and within a Mile of where I found three English Vessels, and one Light American Schooner, together with one Ship, and three small Vessels, which shewed no Colours, consequently I take them to be Prizes.

Very squally, dirty, and disagreeable Weather. My Intention for stretching so near into Montserrat was to see whether there were any American Vessels there bound to the United States, in Order that I might take them under Convoy.

To Captain Samuel Barron, U. S. Navy, from Captain Thomas Truxtun, U. S. Navy

DEAR SIR: I have been several Days cruizing off Saint Bartholomews since I saw you, where there lies a French Ship ready to sail, and as I understand, for Guadaloupe. Yesterday I stretched within a short League of Bassatere and saw Nothing, except a small Droger, which I fired several Shot at, close in Shore, nor was any Thing to be seen under the Saints.

I convoyed two valuable Brigs from Saint Bartholomews on Friday, as far as the Passage between Dog Islands and Sombrero and I request you to proceed with the Vessels at present with you as far as the Latitude of twenty degrees North, and return to these Roads as fast as possible, where you will find me, I am now going to Windward, to take another Chance of meeting the french Ship, having only come down to dispatch you.
Should you meet with the Norfolk, or Baltimore, or any other Vessel belonging to my Squadron, desire them to repair to this Place with you. Wishing you Success I remain

Stretched over from Montserrat Roads towards Gaudaloupe with a fresh Breeze of Wind; and at 5 PM chased a small Sloop, which I took to be a Drogher close under the Land of Bassateere, and fired several Shot at her, but a heavy Squall coming on, I lost Sight of her. Wore round, and shaped my Course for Saint Christophers, where I expected to meet the Richmond with several Merchant Vessels from Antigua bound to the United States.

At AM passed close under Montserrat, at four Ditto passed Rodondo also, at 7 Ditto abreast of Nevis, made my private Signal, in Order to ascertain if the Richmond was in St Christophers, which she soon answered, when I made the Signal for the Fleet to get Underway, which was also answered by the Richmond, which Vessel got underway, and immediately came out, stretched to Windward where I was lying with the maintop Sail to the Mast. I directed Captain Barron to come on Board immediately, and receive his Orders, which he did, and I directed him to proceed with all the American Vessels ready for Sea to the Latitude of 20° North, and then to return to Saint Kitts for further Orders.

As soon as I dispatched Captain Barron, I made Sail, & Stretched to Windward, intending to stand near to Gaudaloupe, and afterwards proceed, as I may have Information, & as particular Circumstances may make it necessary.

SECRETARY AT WAR

SIR Two difficulties occur in the Statement of the account for the first Cruise of the Ship Ganges. — Cap' Dale contends that he should pay nothing for Cabbin Stores. — That going that Cruise to oblige the government and the Merchants, under circumstances which rendered it doubtful whether he was to continue in the service, he stipulated with you, that the cabbin Stores should be furnished him by the public. —

It seems the Crew of the Ganges, were promised higher pay than was allowed by the existing regulations — and it is said that the merchants of Philadelphia were to pay the difference. — Messrs Willing and Francis, charge in their account against that Ship the whole sum paid the Crew — 20 Dollars, for example, to a Seaman — the regulations allow but 17. —

Will you be so good as to give me your recollection of the agreement with Cap' Dale as to Cabbin Stores — and your opinion, from your recollection of the circumstances of the case, whether the charge of Willing & Francis should be admitted to the extent they make it. — or whether they should only have credit for the Pay according to the Navy Regulations, — I will just observe, that it seems hard that the Merchants should be obliged to pay any part of the expense of the Crew of a Public Ship. —

Sir, You have paid so little Attention to the Rules and Regulations of the Navy, and to the general Duty assigned you in your Station, on Board this Ship as a Midshipman, that I have almost been
induced to send you Home; but at length I have determined (considering your Youth) on giving you another Chance, and if you have Reflection, you will now attentively study your own future Happiness, by speedily improving your Conduct, and Deportment in every Particular.

You have had very many Lessons, accompanied with the most friendly Advice, which it was wished and expected would have had the desired Effect of bringing forward your Exertion, and Readiness on all Occasions to do your Duty in a way, that would have been honorable to yourself, pleasing to me, and highly gratifying to your Father, and Friends, but hitherto you have been so very inattentive to Orders, and your own Improvement, and even Careless in your Person, that I have been ashamed to see you on the Quarter Deck.

I shall here stop for the present, but if after this I have the painful Task, of giving you another Reprimand rest assured, it will be followed by your taking Leave of this Ship, and a brief Statement being sent to your Father of all your Proceedings.

Was my own Son, who is in a similar Station with yourself in the Navy, to act as you have done, contrary to Example, and the most wholesome Advice, I should not only dismiss him the Service, but I believe I should disinherit, and let him shift for himself.

Sir, I am honored with your letter of the 19th Jan'y I am much obliged for the information it contains. —

You say that a sufficient quantity of the best White Oak Timber, for a 74 Gun Ship can be had for 5 Dollars per Ton, of 40 square feet, delivered at the yard at India Point. A 74 Gun Ship, will require plank 4—1/2 to 7 Inch thick, and from 35 to 60 or 70 feet in length. — & a great proportion of crooked timber, which may be in short lengths. — will you be so good as to let me know as early as convenient, at what rates the plank could be procured delivered at the yard — and also whether the crooked timber can be had, at the yard, at 5 Dollars. —

The House of Rep's have voted 6 Ships of 74 Guns — I suppose so many will be authorized — & not 12 as I hoped — as to the Ship you offered the Public, the Geo. Washington was the last I had authority to buy — I have the Honor &

Sir, I am honored with your Letter of the 23d. — You were appointed a Surgeon, by the President, and confirmed by the Senate, the 3d of last July. — You cannot be degraded from the Rank of Surgeon, whatever may be the force of the Vessel, in which you may
be employed. — The Herald must sail in a few days after your receipt of this letter — there is not now time, to make different arrangements for her — It is not unlikely she may return to Boston, before the Ship building at Boston can be prepared for Sea. — It will give me pleasure to contribute to your wishes, on your return. —

Encounter of Brig Essequibo Packet, Captain Thomas Willson, with French Picaroon, to Windward of Martinico

New-London, Jan. 30

Capt Thomas Willson, of the brig Essequibo Packet, from Martinico, gives the following narrative: — "On my outward bound passage to windward of Martinico, saw a schooner early in the morning; which gave chase and hoisted English colours. When within half a mile, hauled down the English colours, set the tri-coloured flag and fired a shot. I was then convinced what she was, and accordingly prepared to go on board — but feeling disposed to take a few more shot before I gave up, still kept on. They then fired another shot after me — which I found was in vain to think of getting clear, as it was early in the morning. I then observed to a gentleman passenger, a British officer, that the jig was up with us; he gave for answer, they would upset in 15 minutes, as there was a heavy squall rising. I told him I saw the squall coming but that it would not come soon enough to prevent the picaroon from being along side in ten minutes — however I was willing to wait the event, perhaps Divine Providence would fight our battle. The squall arose as it were in an instant, which took her, and she finally upset, and every soul on board perished. I made use of every exertion to save the crew, but all ineffectual. I then made the best of my way into port and glad to think we had so narrowly escaped the paws of a pirate! but sorry at the loss of so many lives.

It is well to remark, that when we discovered the Chace, we were about 8 Leagues from the Place, where she anchored, and at the Time we first saw her, she was upwards of four Leagues from us, and when she came to her Distance from us was not more than three Miles, so that in about three Hours, we gained three Leagues on this Vessel, which no Doubt is deemed one of their fast sailing Privateers. Consequently if we had been fortunate Enough to have had her in a Direction to have chaced off the Land, instead of on it in one Hour more she would have been a Prize to the Constellation.

West Indies —

Sir The Congress have a bill before them which will pass, for adding 6.74 Gun Ships to the Navy. — and for augmenting the Pay of Commanders of Frigates, to 100 Dollars per Month — and an allowance of double Rations, when commanding a Squadron. — They are disposed to do more for the advantage of the Navy, but are afraid of going too fast, wishing Public opinion to go along with them.

It is very certain however, that Public opinion is getting more and more in favor of the Navy. — I pray you to give me as early as possible, your opinion of the Officers, including Midshipmen, deserving promotion. —

The Ship Baltimore being ordered to join Truxtun, having no Captain, will be commanded by Truxtun's first Lieutenant Rogers — as Lieutenant — It is meant to promote some of your Lieutenants at the same time that Rogers is promoted, — they need not therefore be uneasy. —
When I speak of Officers including Midshipmen, I mean all under your command, in the different Vessels. — I am extremely anxious to get a Letter from you, dated in the West Indies — You will receive herewith Letters from M" Barry.—

UNITED STATES SHIP, Constellation
BASSATERRE ROADS, ST CHRISTOPHERS

DEAR SIR, I have this Moment anchored in these Roads, having returned from off Gaudaloupe, where I cruized for Several Days, after leaving a Convoy to the Northward of the Dog Passage, bound Home. On Friday last, I chased a french Privateer into a little Harbour, near Englishman's Head (Saint Pierre) this Harbour is covered on each Side by a Fort, and a Battery in the Bay; as soon as I came within Gun Shot, a Fire commenced on me, altho' I had the United States' Colours flying, I however returned them double the
Number of Guns with Round and Grape, and afterwards bore down, and spoke three English armed ships bound to Liverpool from Martinica.

Yesterday I spoke Murray and saw the Constitution and Mirramack, some Distance a Head of him. By Captain Murray I understood, you was off Deseada; I am extremely sorry I did not meet you to Windward, as it was one of my great Inducements to stretch under Gaudaloupe the third Time since I have been on this Station.

I submit to your Judgement, whether it would not be better for you (on Many Accounts) to collect a Convoy to Windward, and send them under one of your Ships to join me here and then for the Ship to return to you at Dominica &c. and I will send a Vessel or two from hence to see the Convoy clear of the Passage. It appears, Sir, to me, that the Service will by this Plan, be made more agreeable to all Parties, otherwise your Ships will have a long Distance to run down, if they go to Saint Croix, and Saint Thomas’s, and beat up again; on the other Hand, the Vessels with me, will only have to proceed from here to Saint Croix and Saint Thomas’s, and back again, after going through the Passage a proper Distance, and it will then be unnecessary for them to go to Windward of this Island, to collect any Merchantmen in future, but be on this Station the 1st and 15th of every Month to receive your Convoy.

If you wish an Interview, and will appoint any Time, I will beat up, and meet you, wherever you think proper; Address your Letters to me under Cover to Mr. David M Clarkson, Merchant, Bassateere, Saint Christopers, and I shall be sure to get them. I wrote you the 21st Ultimo, by Admiral Harvey’s Tender, but lest that Letter should not be at Hand, I send you a Copy.

I have the Honor to be, Dear Sir,
Your Obedient hble Servant

Extract from a letter from an officer on board the Frigate United States, concerning capture of French Privateer L’Amour de La Patrie

At Sea, On Our Passage From Barbadoes, to Martinique, With a Convoy, Feb. 13, 1799.

"I wrote you some time past from Demarara, since which nothing material has occurred except the capture of a French privateer from Gaudaloupe on a cruize; the particulars are as follow:

"On Sunday the 3d inst. to windward of Martinique, at 8 A. M. gave chase to a schooner, and at 3 P. M. came within two gun shot of her, when, to the astonishment of all hands, she attempted by short stretches to get to windward of us directly under our battery, but in this she failed, for we soon brought her too, our third shot having gone effectually through her, and in a few minutes she filled with water, upon which they hauled down their sails, and set up the
most lamentable howl I ever heard; and though it's said they have abolished all religion, they have not forgot the old way of imploring the protection of the omnipotent, with gestures, professions and protestations.

"Our boats were immediately sent to their relief — I was in the first, but when I came near, and found the crew all stript and ready for a swim, I thought it not safe to go on board, but told them the only chance for their safety, was to run along side the ship, which they did, and in a few minutes after the schooner went down. The whole of this piratical crew were saved, amounting to 60 men.

"This famous schooner proves to be the Le Amour de la Patrie and has ran for four years with great success, in capturing numbers of our vessels — she was commanded by the infamous Williams, who was some years ago in your town. During his last cruise she captured the schooner Margaretta, belonging to Norfolk.

"Our ship outsails every vessel we meet. In six hours we run the Constitution hull under."

Passed by Saint Pines at the Commencement of this Day, and observed the Lugger, and Schooners mentioned in Yesterday's Transactions, were still remaining at an Anchor, but the Swede had left the Bay. Stood on along Shore, and passed near to Fort [space] where the Cannon were manned, and pointed at us, but they did not think proper to fire.

At 1 PM saw a Fleet to the Southward, gave Chase; at 2 made the British Signal for Saturday, which was answered by the Montezuma. Sometime after a Ship hoisted her Colours, which proves to be the United States Ship Merrimack, she was in Company with the Constitution, which Ship shewed no Colours, but made a Signal which did not answer to any Signal of ours, either American, or British. At 3 PM spoke the Montezuma, when Captain Murray informed me that the Vessels to Leeward were under Convoy of the [George] Washington bound to Saint Christophers, and that the Norfolk, one of my Squadron, he had parted with on Friday, and that she had gone to Saint Christophers. Made Sail, and passed Redando, then run under an easy Sail, and at Day Light abreast of Nevis, and at 8 AM anchored in Bassateere Road in ten Fathoms Water, the Body of the Town bearing N.N.W. one Mile Distance. Veered out a whole Cable, the Wind blowing very fresh with frequent Squalls of Rain. Found in the Road an American Brig dismasted in the late bad weather, which we have experienced on her Passage from Monserrat to join Convoy and a British Ship bound Home, which had lost her foretopmast, and otherwise much injured.

To Secretary of the Navy from Captain Thomas Truxtun, U. S. Navy

Bassateer S' Christophers 4\textsuperscript{th} Feby 1799

Dear Sir, Since my Arrival on this Station, every Exertion has been made to facilitate, and render safe the Commerce between the United States, and these Islands. Three Convoys have sailed from hence, of Vessels loaded here, and collected from the Windward Islands, to the Number of 50 Sail. On Sunday next I have given Notice, that another Convoy will be furnished to such Vessels as may be ready, and I'm told there will be about 15 Sail assembled at least.

I have given such Assurances to the Merchants, of our Intention and Determination of protecting the Trade to the United States, (Whether under the American, or British Flag,) that there seems to be a general Satisfaction defused in every Countenance, particularly as they find we perform as well as promised.

On Tuesday, Wednesday, and Thursday last, I was under Bassateer, Gaudaloupe, within Gun Shot of their Works, and in fair View of a 44 Gun Frigate (the Volunteer) and a 20 Gun Corvette, and altho' no Ships were in Sight, or any other Vessels (those under my Command being employed to Leeward) they thought proper not to come out, notwithstanding they were all ready for Sea.

On Friday I chased a French Privateer, that I fell in with near the Land into Saint Peire's, the N.W. Part of Gaudaloupe, where she got under Shelter of two Forts, and a Battery, and of the Forts situated on the Starboard, and the Other the Larboard Enterance of the Harbour, and the Battery in the Center of the Bay.

As soon as I had run the Privateer well under the Guns, they commenced a well directed Fire at my Masts, Spars &c. when I immediately returned at least double the Number of Guns (with Round and Grape) at the Fort, and on a national Lugger that was at Anchor with the Privateer I had chased in; and then bore down on three Ships that hove in Sight in the Offing which I soon brought to; they proved to be Letters of Mark mounting 24 Guns each, and from Martinica bound to Liverpool.

On Saturday I again looked into Saint Peire's, and found the Lugger and Privateer still remaining snug in their strong Hold. A Number of Vessels heaving in Sight immediately after, I gave Chace, and soon discovered one of them to be the Montazuma, and two of the Others to be the Constitution, and Mirramack. I spoke Captain Murray, and passed the former. Murray informed me, that the Vessels to Lee-ward was the [George] Washington with several Merchantmen. I then proceeded here to join the Norfolk, and Richmond, which I expected had returned from the Service they had been sent on, and on Coming to Yesterday in these Roads, I found the Norfolk at Anchor, and the Richmond beating in, so that I shall get Underway, and sail again in two Hours from this Time (10 AM) and hope to meet the Enemy in the Route I intend to take.

The frequent Convoys I have afforded, has been severe Service for our little Squadron, I therefore anxiously look for the Baltimore, and one or two Others, and hope they will soon join me.

I have been obliged to supply Provisions out of my own Ship to the Others, I therefore also hope the Store Ship will soon be with us at this
Island. I am told Nicholson fell in with a very valuable English Ship, Prize to the Insurgent loaded with dry Goods, bound to one of these Islands, and as she was not armed, suffered her to proceed, and the Vessel has since arrived at Gaudaloupe to the great Mortification of all the Merchants here. I have no Doubt, but there were Instruments of a Warlike Nature sufficient to have warranted a Recapture, as is the Case with most Vessels, but as I do not know the Particulars, I will say but little on the Subject. I think however if I had met her, she would now have been at Bassateer, Saint Christophers, instead of Bassateer, Gaudaloupe, which would have been an agreeable Thing to the People here, and I believe it is our Interest, and sound Policy, to cultivate a good Understanding with them, as they see the Policy of being on the most friendly Terms with us. In Fact the Connection is natural.

I have not a single Man in the Surgeon's List at present, which is very remarkable indeed, considering the Variety of Climates we have been in for the last six months. I have the Honor to be, Sir, with great Respect

Your very Obedient and hble Servant,

T. T.[RUXTUN]

TUESDAY THE 5TH

[Basseterre Roads, St. Christopher.] Captain Barron of the Richmond having stated to me, that the Checks of his Foremast was in a very insecure State, I ordered my Carpenter on Board to examine them, and by his Report found it necessary to give Orders for the Brigs foremast to be stript, and the Checks properly secured, which will prevent her proceeding on a Cruize with me immediately. I have however given Captain Barron Orders that as soon as his Vessel is ready for Sea to repair to Saint Bartholomew's for a short Cruize, but to be in the Roads of Bassateer, Saint Christopher's by Saturday Night next, so as to proceed with a Convoy to the Northward on Sunday. I have given similar Orders to Captain Williams of the Norfolk, and for him to return to me here, as soon after as possible (See Letter Book).

At 9 AM made the Signal to the Norfolk to get Underway when we both weighed, and Captain Williams proceeded to Leeward as ordered, and I stretched to Windward. The Wind more moderate, and the Weather much more pleasant, than it has been for several Days past.

At Noon abreast of Nevis, Wind East, and Ship close hawled on the Larboard Tack. Discharged John Alling for disorderly and mutinous Conduct; this Man acted as a Boatswain for a While, but was too infamous to be continued in that Station.

Apprehended and confined William Hackett, a Seaman (who had run from the Pinnace Yesterda) after a general Search among the Sailor Houses at Bassateer, and by seeing a Constable for the Purpsoe.

Navy Department 5th February 1799.

STEPHEN HIGGINSON Esquire Boston

Sir Of the 12000 Dollars I promised to remit you in my Letter of the 31st Ult only 5000 have gone — the residue shall follow quickly — in the meantime, I hope you will be subjected to no inconvenience — I have not had it in my power to do better. — As I have once or twice observed, you should get your advances on account of the *Pickering* returned by General Lincoln. — There is an awkwardness in the situation of the Revenue Cutters, which I hope Congress are about removing — but until it is done, no part of the appropriations for the Navy can properly be applied to their support. —

I am very sorry for the resignation of Captain Chapman. — what he asked, could not possibly be complied with — and he was so forward; and there is so great a prospect of some who are above him, quitting the service, — that I think he might have been satisfied — The Congress too are about making some addition to the Pay of the Captains — and doubtless must make other provision for the advantage of the Officers if they expect to retain good Men — indeed a strong disposition seems to prevail to do every thing proper on the subject. — and next Session there will be more leisure to attend to it. — If Captain Chapman should consent to continue, and take the Command of the *Boston*, his Commission shall be returned — but this ought to be determined soon — I have a Letter from Mr. Alline Purser of the *Herald*, — he has no warrant, indeed the Letter mentioning his appointment escaped my notice. He complains of the
reduction of the Vessel, and the degradation of his rank, in consequence — It is a strange Idea. — I send his Commission for the chance of meeting him at Boston. —

As Soon as Congress pass an Act to determine what the Navy shall be, the whole appointments must be made. — It is wrong that men should be kept in a state of suspense — with a view to this object, I should be much obliged for your opinion of Men at Boston, Salem, and Newbury Port, fit for Lieutenants. — I do imagine half a dozen Lieutenants will be wanted from Massachusetts — besides the Officers for the Boston, & the Frigate at Salem. —

Bassateer Roads Saint Christophers,

Febry 5th 1799.

Sir, As I have promised the Merchants, and Masters of American Vessels a Convoy on Sunday next. It is scarcely worth my While to take you with me to Windward at present.

You will therefore go round Sandy Point, and from thence cruise from Saint Bartholomew’s to St. Martins, taking Care to be in this Road on Sunday Morning, when you will in Company with the Richmond, take all the American and British Vessels, that are ready, under your Convoy, and proceed with them as far as the Latitude of 20° North, and then return to me here; Should you receive information of any French Cruizers, being further Northward, than the above Latitude, you are at Liberty to proceed as far as the Latitude of 23° North.
I wish all the Expedition made that is possible, and hope to see you here by the 16th or 17th Instant. Should you meet neutral Vessels of any Description, treat them with Respect and Kindness, we have no Business with them, or their Lading be it what Property it may; but should you meet the Enemies' Cruizers use every Means that is possible, with the Force you have to bring them in, as also to retake any British Vessels in Possession of the French, if they have even a Pair of Case Knives on Board, those will be Arms sufficient. You will go into no Port or Bay, until you return here, unless in Distress; and you will not inform any Merchant, or Master of a Vessel, how far you intend to convoy the Fleet, on any Account whatever. Be particular in your Signals, and have them made out ready for to deliver each Vessel, before you appear off the Road next Sunday, as I presume you will have no Occasion to anchor.

You will make all the necessary Communications to Captn Barron, and as one of you will lead the Van, so the other must bring up the Rear. This is the Port to send Prizes to. I wish you Success, & am Your Obedt hble Servt

Genl ALEX: HAMILTON
New York.

Sir: I have the honor to inclose a paper containing the circumstances connected with the relative Rank of Captains Truxton, Talbot and Dale. —

It appears to me that Talbott and Dale, cannot now be placed above Truxton, but by dismissing the latter from the service. —

Dale who has permission to make an East India Voyage, is reconciled to what he conceives unavoidable, to rank after Truxton. —

Entertaining a very high opinion of Talbott — I am anxious that he should also acquiesce — From conversation with him, I judge it is in your power alone to satisfy him. —

The error was in not selecting the three Senior Captains, for the three Frigates continued in service — The President I conceive had no power to continue more Captains than Frigates. —

If Talbott will continue, only Barry, Nicholson and Truxton, will be above him — Nicholson cannot be long in his way — Barry is old and infirm, and not satisfied that he is not made an Admiral — It is more than probable, Truxton and Talbott may not be on the same service. —

I wrote you Some days ago respecting Mr Henry Seton — I ought to have waited long enough for an answer — but his appointment was so much pressed — He was so well recommended I was so well satisfied, a story which I had heard, was without foundation, — and a Lieut. being instantly wanted — He is appointed — I wish he may turn out well. — I am anxious too that Daubenay should continue to deserve your good opinion — They are both ordered on immediate service. —

Sir Having before sent you your Instructions, Signals, &c and having requested Mr. Pennock to select a proper Character for Master; — and several for Midshipmen, I presume you will be ready to proceed to join Capt. Truxtun, as soon as Lt. Daubney & Seton join you — who will deliver this. —

I have desired Mr. Sullivan who has been some time appointed a Midshipman to join you from Balt. — It is likely however, he may not be in time. —

Mr. Wells will be the Surgeon — his rank and emoluments as such will go on from this time, but I cannot get his name through the Senate, in time to send on his Commission before he sails; this is not material, Mr. Pennock I hope will furnish a Surgeons Mate. — Mr. Douglass will receive his Warrant as Midshipman. Mr. [Charles] Morris as Purser. — So that I hope you will have no difficulties — your men particularly ought to be highly satisfied with the attention of Government to their rights. — It was because Capt. Phillips called all hands to be examined by the British Officer — and because he so tamely gave up his men, that he was dismissed, — and it was that conduct that produced the order of the 29th Dec. that the men who enter on board under the protection of our Flag, are to be protected as long as the Flag can be protected. — Congress are making arrangements for the benefit of the Service — & those who engage in it, & conduct themselves with propriety will meet not only the thanks, but the rewards of their Country. — wishing you great success & honor. —

have as yet done nothing decisive on the subject of the Navy. They have voted 6 Ships of 74 Guns, & 6 Sloops of war — the bill has not yet passed — They have the rules for the Govt of the Navy before them and a proposition which will succeed, for increasing the pay of the Com" of the Frigates to 100 Dol per month — & doubling the Rations on separate command. They are disposed to do more, but say they must go on by degrees, and take the public mind along with them. — Dale has leave of absence for an E. India Voyage which reconciles him to the Service & his Rank in it — Talbot I expect will also acquiesce

I pray you to send me as early as you can the names of any of your Midshipmen who are fit for Lt. — our navy will increase faster than our ability to officer it well, especially if Commerce is flourishing — I look with much hopes to the Midshipmen — I say nothing about the West Indies having before said all I had to say.

It is probable the intercourse may be opened with Hispaniola. —

Letter to Mr. Russell, Editor of the "Connecticut Courant", concerning capture of the Schooners Appollo and Venus by a French schooner

WISCASSET, March 5, 1799.

Mr. Russell,

Sir, Having a vessel arrived from Nevis, which has been taken and re-taken, I have thought proper to state the particulars to you, that the world through your paper may be convinced that two Americans are equal in bravery to six Frenchmen.

The schooner Appollo, of Wiscasset, William Clifford, jun. master, laden with rum and molasses, sailed from Nevis, the 1st of Feb. bound for Wiscasset. After being out five days, this with the schooner Venus, Capt. Bartholomew Lasdell or Lassell of Kennebunk, were captured by a French schooner mounting 10 guns, with 95 men, from St. Domingo, being then in lat. 24; — who took out all the Appollo's crew, excepting Capt. Clifford and Mr. Trask one of the men, (who finding themselves sick were left behind) put on board a prize master and five hands, and ordered the Appollo for Currocoa. The next day after being captured, Capt. Clifford found himself well enough to go on deck, and observing the prize master's pistols and cutlass lying in the binnacle, watched his opportunity, when the prize master was talking with the prize master of the Venus (being close on board each other) and handed the pistols down the gangway to Mr. Trask. —

He then seized the cutlass, and ordered the man at helm to put the helm hard down. The prize master seeing this, sprang for his pistols, but not finding them, he called on the schooner Venus to fire on the Appollo with some small arms they had on board. Capt. Clifford ordered Trask to blow the prize master through, if he did not countermand those orders, which he immediately did. Trask drove the 4 Frenchmen that were forward down the fore-scuttle, while Capt. Clifford secured the prize master and the man at helm, and afterwards confined in the lower hold, all but the prize master, who they
locked in the cabin. A few days after, they fell in with an American schooner bound from Philadelphia to Jamaica, on board of which Capt. Clifford put two of the Frenchmen; — the others he brought into this port, where they arrived last Thursday. Three were immediately committed to goal; — the prize master remained at the Marshal's house, a prisoner. — But the citizens throughout the country were so much enraged at the treatment of the French to our countrymen, that they threatened to burn the Marshal's house, if the Frenchman was not immediately sent to prison: Accordingly he was conducted thither last night, although his feet were very much frozen.

[SDA. Dom. L., Vol. 11, 1798–1799.]
Extract of a letter from Captain Stephen Decatur, (senior) U. S. Navy, commanding Delaware, concerning encounter with the Ship Solebay

"GULPH FLORIDA, Feb. 12, 1799.

"On the 8th inst. at 6 P. M. saw a large ship to the northward, standing after us; at the same time discovered several sail running down; we made sail to cut them off from the land, which we soon did, and in the course of half an hour beat the ship astern hull down. The fleet proved to be the two cutters Governor Jay and General Green, with the ship America, with provisions for us, and four other smaller vessels, bound to the Havanna. While we were under easy sail, waiting for them, the first mentioned ship came up and fired several shot among the fleet. I immediately hoisted my colours and went along side with all hands to quarters, when the captain hailed me to know where I was from; I answered, from a cruise, and that my ship was the United States ship Delaware, that the sloop and schooner upon my larboard bow, were vessels belonging to the United States, and that the black ship was a vessel loaded by the government with stores for the use of the ships upon the station. He then informed me that his orders were to examine all vessels for the Havanna, for contraband goods, but that he meant to give no trouble or detention. I told him if I was of equal force he should not, examine one of them. I then pointed out the ship and the cutters. She proved to be the Solebay, 44 guns, commanded by captain Rowiod. While the lieutenant was overhauling a sloop and schooner, hurt at seeing the flag over my head insulted, bore away, and the rest of the fleet followed me, and he did not think proper to detain one of them."

To Col. Josiah Parker, Chairman of Committee on Navy Business,
House of Representatives, from Secretary of the Navy

PHILADELPHIA

Navy Department February 9th 1799. —

Col⁰ Josiah Parker
Chairman of the Committee of the
House of Representatives on the Navy business

Sir, The Emoluments of Captains in the Navy, especially those commanding the large Vessels, are not I believe equal to the expences to which they are exposed. — It is a Custom in the Navy for Captains to entertain, and frequently their Officers; — and when in port, the principal people of the place — the Commanders of Squadrons, the Officers of all the Vessels under their Command. — It is not necessary for me to point out the good Effects, to be produced by this friendly and frequent intercourse, between the Commanders and inferior Officers, including Midshipmen, on the manners and spirit of the Navy. — If a Captain of a Frigate, happens to be a man of fortune, he may afford the expense to which his situation subjects him; but even in this case, it is a hardship, that a Gentleman should give up more than his time to his Country, which no doubt is well able to reimburse his actual expenses — A poor man, however great his merit, must from necessity seek more profitable employment
in private service — Several instances have already occurred in
doctrine of this opinion — and they will become more frequent, as the
cullions of Patriotism have time to subside. —

The Commanders of our Frigates have at all times as great a
charge upon their hands, and are subjected to as much expense as
Brigadier Generals; — when they command Squadrons, their situa-
tion becomes at least as important, as that of Brigadier Generals,
on separate command. — View the great difference in their emolu-
ments. — There is really no good reason, why there should be this
difference, or any difference to the disadvantage of the Naval
Officer. — The Pay of a Brigadier General is 104 Dollars per
month — and 12 Rations per day — and 16 Dollars per month for
forage — and when on separate command, the Rations are doubled. —
The Pay of a Captain of a Frigate is 75 Dollars per month and six
Rations per day. — A Brigadier General will seldom command more
than his Brigade; & seldom indeed more than his Brigade, if employed
on a separate Command. —

A Captain of a Frigate, will frequently have the Command of a
Squadron on separate command. — Under the present Laws, the
Captains of all our Ships are entitled to the same Emoluments, and in
all situations. —

If the Bill passes for 6 Ships of 74, and 6 of 18 Guns, our Navy may
be conveniently made to consist of the following description of
Vessels, and without incurring expense for alterations:

6 Ships of 74 Guns
9 Large Frigates, 36 Guns & upwards
3 Smaller ditto 32 Guns. —
12 Ships 20 to 28 Guns. —
9 Sloops of War under 20 Guns —

besides such of the Revenue Cutters as may be found proper to be
added to the Navy. — and 9 Gallies, or Vessels not exceeding
10 Guns. —

I have taken the liberty to enclose the form of a Bill, which without
burthening the public with greater than the present expense, would I
presume satisfy the Officers; — those of lower rank, having something
to hope, would be content to look to the time of advancement, for
higher reward; and those of highest rank would be better enabled
to meet the expense to which they are exposed. —

I have the honor to be &c —

[Enclosure]

Be it Enacted by the Senate and House of Representatives of the
United States of America in Congress assembled, that all the Vessels
in the Navy service of the United States, mounting 20 Guns and up-
wards, be commanded by Captains — those not exceeding 18 Guns
(except Gallies, which are to be commanded as heretofore provided
by Law) by Lieutenant Commandants, and by Lieutenants, accord-
ing to the size of the Vessel, to be regulated by the President of the
United States. —

And be it further Enacted, that the Pay of Captains commanding
Frigates of 32 Guns and upwards, be One hundred Dollars per month
and eight Rations per day — of Captains commanding Ships of 20 Guns and upwards, Seventy five Dollars per month, and six Rations per day — Of Lieutenant Commandants Sixty Dollars per month, and five Rations per day, and of Lieutenants who may command the smaller Vessels, fifty Dollars per month, and five rations per day. —

And be it further Enacted, that whenever any Officer as aforesaid shall be employed in the Command of a Squadron, or separate service, the allowance of Rations to such commanding Officer, shall be doubled during the continuance of such command, and no longer, — except in the case of the Commanding Officer of the Navy, whose allowance, while in service, shall always be at the rate of Sixteen Rations per day. —

To Midshipman Robinson, U. S. Navy, from Captain Thomas Truxtun, U. S. Navy

UNITED STATES SHIP Constellation

9th Febry 1799.

Sir, The very improper Behaviour of some Midshipmen, the Coxsain, and several of the Pinnacemen, has hitherto been unprecedented in naval Discipline. I shall forbear at present to say more on so painful a Subject; as every Neglect, every Impropriety, and every Fault alluded to, is too well known to make further Observations necessary.

It is to you, Sir, I now commit the Charge of my Boat in future (that is the Pinnace or Barge, whichever I may go in from Time to Time) and I hold you accountable for the Behaviour of the Crew in every Particular; they have been selected with Care, and I hope will be found to answer the Purpose. You have their Names at foot.

It is now a good Opportunity, while I have Occasion to address this Note to you, on the Subject of the Boatmen to state the great Necessity of prompt and minute Attention to all Orders, and to remind you, that good Discipline is considered by all who know any Thing of Service, as the vital Part of a Ship of War; and you will remember, that there are but a small Proportion of the Officers employed in any Service, that ever become conspicuous, and the Cause must be obvious, to every Eye, and every Mind, that can see, and think; this being the case, if you ever wish, or expect to become one of those Sort of Men, that are always meritoriously distinguished and esteemed by the better Orders of Men in Society (tho' perhaps not by the worthless) you must Night and Day think of your Duty, be expert on all Occasions, and in fact be laboriously industrious and active, in whatever appertains to your Duty, and respects Order, and good Discipline, and not loose the golden Moment, that Chance and perhaps good Fortune has thrown in your Way. This is the Advice of a Friend, consider it such, and act accordingly —

Yours &

Mr Robinson
Midshipman.

To John Granbury, Norfolk, Va., from Secretary of the Navy

[PHILADELPHIA]
Navy Department Feb. 9th 1799.

JOHN GRANBURY ESQ' Norfolk.

Sir I am honored with the Receipt of your letter of the 27th Ultimo; with its several enclosures, which are delivered to Mr. Winder the Accountant of this Department, who after examination will have prepared the Certificates of Six Per Cent Stock, agreeably to the list you have furnished. —

It was certainly proper that you should charge a Commission, for the very particular Attention you have paid to the Object, and which has been effected, so much to the Advantage of the United States; who by this means are furnished with a Valuable Vessel, on Terms of great convenience, and at a very moderate Cost. — With regard to that part of the Subscription which remains uncollected, if the Parties can make the payment with Convenience, it may be advisable to apply to them, in which case you will please to do so; but if on the Contrary they cannot conveniently comply with their Subscription, it appears to me that as the Object has been effected, it would be unnecessary to trouble them on the Subject. — The Gun Carriages you mention may be delivered to Mr. Pennock. —

I have the Honor &c.

[9 February 1799]

To Secretary of the Navy from Captain Thomas Truxtun, U. S. Navy

UNITED STATES SHIP Constellation in Sight of the Island of Saint Christophs' 10th February 1799

DEAR SIR, I wrote you on the 4th Instant to which I must beg leave to refer, and soon after weighed from Bassateer Road, Saint Christophers, and proceeded to Sea, having made the necessary Arrangements with the Merchants, & Masters of Vessels, for a Convoy to Sail on this Day for the United States, under charge of the Norfolk and Richmond, which Vessels I directed to cruise in the mean Time near Saint Bartholomews', and Saint Martins, so as to be at Hand to proceed with the Convoy at the Time appointed. As soon as I left the Road of Bassateer (which I did solus) I stretched under Montserrat, and towards Gaudaloupe by the Wind, and from thence under the Lee of Antigua, and Barbuda; in this Route, I only met two Merchant Vessels and a British Frigate; I therefore thought it best to change my Ground, which I did, and run down towards the Island of Nevis, and on the 9th Instant at Noon, that Island bearing W.S.W. five leagues Distance discovered a large Ship to the Southward, on which I bore down. She hoisted American Colours and I made our private Signal for the Day, as well as that of the British, but finding she answered neither, must confess that I immediately suspected her to be an Enemy, and in a short Time after found, that my Suspicions were well founded, for she hoisted the French national Colours, and fired a Gun to Windward (which is a Signal of an Enemy) I continued bearing down on her, and at 1/4 past 3 PM. she hailed me several Times, and as
THE CONSTELLATION chasing L’INSURGENTE off the island of Nevis, February 9, 1799.
soon as I got in a Position for every Shot to do Execution I answered by commencing a close, and successful Engagement, which lasted until about half after 4 PM, when she struck her Colours to the United States Ship, Constellation, and I immediately took possession of her;[\*] she proves to be the celebrated french national Frigate, Insurgente of 40 Guns, and 400 Men, lately out from France, commanded by Monsieur Barreaut, and is esteemed one of the fastest sailing Ships in the french Navy. I have been much shattered in my Rigging and Sails, and my fore top Mast rendered from Wounds useless; you may depend the Enemy is not less so; I intend to get into Bassateer Roads, Saint Christophers if possible, with my Prize, but the Wind being adverse and blowing hard, I much doubt, in the crippled State of both Ships (without a Change) whether I shall effect it, and if not I must make a Port to Leeward. The high State of our Discipline, with the gallant Conduct of all my Officers, and Men, would have enabled me to have compelled a more formidable Enemy to have yielded, had the Fortune of War thrown one in my Way; as it is, I hope the President and my Country will for the present be content, with a very fine Frigate being added to our infant Navy, and that too with the Loss of only one Man killed, and three wounded, while the Enemy had (the french Surgeon reports) Seventy killed, and wounded; several were found dead in her Tops &c., and thrown overboard, 18 Hours after we had Possession of her. I must not omit in this hasty Detail to do Justice to Monsieur Barreaut for he defended his Ship manfully, and from my raking him several Times, fore and aft, and being athwart his stem ready with every Gun to fire, when he struck his Colours, we may impute the Conflict not being more bloody on our Side, for had not these Advantages been taken, the Engagement would not have ended so soon, for the Insurgente was completely officered, and manned.

I have the Honor to be, Dear Sir, with great Esteem,

Your most Obed\* & very hble Serv\[t]

P. S. Be pleased to write M't Truxtun a Line at Perth Amboy, and tell her I am well, for I have not Time. The Insurgente left Gaudaloupe the 8th Instant having returned from a short Cruize a few Days before, in which she took 5 valuable English Ships, and got 4 of them Safe in, the Other the Captain says had not arrived when he sailed. The french Captain tells me, I have caused a War with France, if so I am glad of it, for I detest Things being done by Halves.

Hon\[t]e Benjamin Stoddert
Secretary of Navy.

[HS of Pa. NDA photostat. Truxtun's LB, 1798-9.1

[\*Note.—Although in his above official report, to the Secretary of the Navy, Captain Truxtun gives no further details of his taking possession of the Insurgente, the following information on the subject appears in The United States Naval Chronicle, published in 1824, by Mr. Charles W. Goldsborough, who served as Clerk to the Secretary of the Navy from 1798 to 1802, and as Chief Clerk of the Navy Department from 1802 to 1813: "John Rodgers (Present commodore Rodgers) first lieutenant, was sent with midshipman Porter (Present captain D. Porter) and eleven men, to take possession of the prize, and superintend the removal of her crew to the Constellation. The wind blew high, and occasioned so much delay in removing the crew, that before it could be effected, night set in, and it came on to blow so hard as to separate the ships, leaving one hundred and
seventy-three prisoners on board the *Insurgente*, to be guarded by lieutenant Rodgers, and his small party.

"The ordinary means of securing prisoners, and the gratings having been thrown overboard by the crew of the *Insurgente* soon after she struck, left lieutenant Rodgers in a most embarrassing and perilous situation. The *Insurgente* resembled a slaughter house; her decks not having been cleared of the dead or dying; her spars, sails, and rigging, cut to pieces, and lying on deck. The navigating her in this situation, in a gale of wind, by two officers and eleven men, who were at the same time charged with the duty of guarding one hundred and seventy-three prisoners, without handcuffs or shackles, and hatches all uncovered, was a service not to be envied by the boldest man living.

"Under these circumstances, lieutenant Rodgers immediately secured all the small arms; ordered the prisoners into the lower hold of the ship, and placed at each hatchway a sentinel, armed with a blunderbuss, cutlass, and brace of pistols, with orders to fire, if any one of the prisoners should attempt to come upon deck, without having previously obtained his permission. In this situation, he was placed for three nights and two days, during which time, neither he nor midshipman Porter could take the slightest repose, being compelled to be constantly on the watch, to prevent the prisoners from rising upon them, and re-taking the ship, which their numbers would have enabled them to do, with ease, but for the precautions taken, and the vigilance practiced by lieutenant Rodgers and his party. One moment's intermission thereof would have lost the ship, as the prisoners had manifested a disposition to re-take her, and were incessantly upon the watch for a favorable moment to accomplish their purposes. She was, under these circumstances, safely conducted into St. Kitts, at which place the *Constellation* had previously arrived.

"During the action with the *Insurgente*, midshipman Porter, then eighteen years of age, was stationed in the foretop of the *Constellation* - an eighteen pound ball from the *Insurgente* struck the foretop mast, just above the cap, and the mast was tottering and about going. Discovering this, midshipman Porter hailed the commodore, and gave him the information; but no person being immediately sent to his assistance, he, himself, with great presence of mind, judgment and gallantry, went up amidst a shower of ball, cut away the slings, let down the yards, and thus saved the mast."
down the American Ensign, and hoisted the French national Colours, and fired a Gun to Windward, but at the same Time standing close hauled, with a View to gain the Wind of me, a heavy Squall soon came on, in which she carried away her main top Mast, and bore before the Wind; I followed on under a Press of Canvas, and at ¾ past 3 PM, being well prepared, run close under her Larboard Quarter; they hailed me, but I returned no Answer, until we were in a Situation to make the Shot from every Gun do complete Execution, being not more than half Cable's Length from her. I then gave the Orders to fire in Rotation, the whole Broadside, which was returned from the French Frigate, this commenced an Engagement with various Manoeuvring, that lasted one Hour, and a Quarter, when the Enemy struck her Colours to the Constellation, having been raked fore, and aft several Times, much injured, and lost seventy Men killed, and wounded by the French Surgeon's Account. I immediately took possession of her, exchanged the Prisoners, and commenced the necessary Repairs in Order to gain to Windward so as to get into Bassateer Saint Christophers. Altho' the Enemy lost so many Men, and had 40 Carriage Guns, and 409 Men, and our Force being only 38 Guns and 316 Men, we had but 1 Man killed, and 2 wounded. The Prize Frigate proved to be the celebrated Insurgente [L'Insurgente], commanded by Monsieur Buriaut [Barreaut], 8 Hours from Gaudaloupe on a Cruise. At Noon Saint Eustatia bore N.N.E. five Leagues Distance.

To Secretary of the Navy from Captain Thomas Truxtun, U. S. Navy

UNITED STATES SHIP, Constellation,
Bassateer Roads, St Christophers February 14th 1799.

Sir, When I had the Honor to write you the 10th Instant, I expected every Moment to have met the Norfolk and Richmond with the Convoy I ordered to Sail on that Day, agreeable to my Letter to you of the 4th Instant; they were however detained until the 11th and when I fell in with them, it was blowing so fresh that I directed the Convoy to proceed; as we should have lost perhaps as much Ground by heaving too, and putting a Letter on Board one of the Vessels as the Ships would, in their crippled State, have gained again in half a Day's hard Beating, and as I was anxious to get them to an Anchor in Bassateer Roads, St Christophers, I desired Captain Barron to state to you, by some of the Vessels of the Convoy, that we had captured the Insurgente.

On the 13th after the greatest Exertions having been made, we gained these Roads with both Ships, and anchored them safe about Noon. It is impossible for me to state to you the Joy demonstrated by the Inhabitants on this Occasion, the Ship was filled with Gentlemen of the first Dignities in the Island, and a Salute requested, in Order that it might be returned which was complied with on my Part, particularly as it came from a Member of the King's Council (Mr Tyson) an Old Friend of mine of many Years' Standing.

I have just received a polite Letter of Congratulation from the Commander in Chief, who offers me every Service in his Power, and
I have directed all the Wounded from the *Insurgente* to be immediately landed, and sent to the Hospital. The following is an accurate Return made me this Morning by Lieutenant Rodgers, commanding the Prize taken from the examining Officers, of the killed and wounded on Board the *Insurgente* to Viz:

We had as I wrote you before only one Man killed, and two badly wounded, one of which is since dead, the Other is a Midshipman (Mr. McDonough) who lost his Foot. An Ordinary Seaman was after discovered to be slightly wounded, this is the whole Number lost and injured on Board the *Constellation*. I shall proceed to repair the Damages sustained to both Ships as speedily as possible, and until the Pleasure of the President of the U. S. is known, I intend to give Lieutenant John Rodgers an Order to command the *Insurgente*, he was one of the first Lieutenants appointed, has a Claim to being among the first Promotions, but a very strong one for behaving well, and being the first Lieutenant of the *Constellation*, at the Capture of the first Governmental Ship of any Consequence ever made by the Arms of the U. S. at Sea, since our being known as a Nation, the other Officers I shall appoint in the same Way.

I have not had Time to examine into the State of the Provisions and Stores of the *Insurgente*, but shall do it as speedily as possible, and direct the Purchase of no more than is necessary (should the Store Ship not arrive) for her cruising in Company with me, until I leave the Station for the U. S. in May or thereabouts.

My Gun Deck is divided into 3 Divisions, the first of 5 Guns & opposite superintended by the 1st Lieut. Mr. Rodgers. The 2nd of 5 Guns & oppo: by the 2nd Lieut: Mr. Cowper. The 3rd of 4 Guns and Oppo: by the 3rd Lieut: Mr. Sterett. The Zeal of these 3 Officers in performing their Duty, and complying strictly with my Orders cannot be surpassed, but I must not in Praise of them be silent as to the good Conduct of Mr. Shirley, the Master, and Mr. Archer the 4th Lieut. who acted their Part near my Person on the Quarter Deck, and who are also deserving of Notice, but for the Honor of our Nation I must declare that it is impossible for Officers and Men in any Service to have behaved better, than my People generally did on this Occasion, it must therefore not be understood because I have mentioned the Names of a few of the principal Gentlemen, that those of an inferior Grade in their Stations are less deserving. On the Contrary, to the latter I always feel myself most indebted for their Exertions in the Hour of Battle, as they have generally much less at Stake, than those in higher Stations, and consequently less Inducement to display their Valor.

As much has been said by the French Officers of what the Nation, and particularly General Desfourneaux, will do in Consequence of the Capture of the *Insurgente*, insinuating that they will now capture every Vessel without Distinction, I have thought it proper to send you these Dispatches by Express, which will be attended with Expence. Should Congress be in Session, or the President have it in his Power, and be disposed to direct the Seizure of all French Property (find it, where we may) some handsome Things might possibly be
done, but at present the Neutrals cover, and carry on all the Trade, and those we examine, & let pass, the British capture. I shall hope to hear from you fully by the Return of this Vessel, and I shall be obliged by your sending me 5 Tons of Cordage from 7 Inches down to Ratline Stuff in regular Proportion, and about 20 Bolts of Sail Cloth with a Proportion of Twine. These Articles shall be charged to the Constellation, or Insurgente, as they may be applied, & received for. If the Store Ship arrives we shall be enabled to prolong our Cruize, so as to return about the 1st of June; but should she not come out, I must return sooner, or sail the Ships at a very great Expence by provisioning of them here. But whatever I do, Sir, in any Event, will be for the Good of the Service, and I hope and trust for its Honor too. I am just dispatching a Cartel to General Desfoureneux agreeable to a Copy of the enclosed Letter to him, the Result you shall be advised of in due Time. With Sentiments of high Respect, and Esteem, I am, Sir, Your most Obedt humble Servant. Honble Benjamin Stoddert, Secretary of Navy. [HS of Pa. NDA photostat. Truxtun's LB, 1798-9.]  [9 February 1799] To Captain John Barry, U. S. Navy, from Captain Thomas Truxtun, U. S. Navy United States Ship, Constellation, Bassateer Roads, St Christopher's, 16th Febry. 1799 — My Dear Sir, I have wrote you several Times, but know not whether my Letters have reached you. I have lately wrote our Friend John Gay at Martinica, and have requested you to give him Extracts. I offer my Opinion in that Letter, which you will consider no Doubt, and adopt similar Measures, to what I have done here, or not, as you shall think proper. I am actuated by the Good of the Service, in all my Actions and Advice, and I trust you, as well as all Others, who know me, think so. I have not been idle since my Arrival in the West Indies; I have been 3 Times under Gaudaloupe, besides passing to Martinica, in the first Instance with the Schooner Thetis, having the Lady on Board from Alexandria. I have made one Cruize between Anguilla, and Barbuda, another off St Bartholomews; and through the Sambero Passage, and down towards Anegada and the Virgin Garda. I have dispatched three Convoys (went with one myself) have taken the Insurgente Frigate, with no Vessel in Company at the Time, and am now here refitting. The News Papers of Saint Christophers, under Yesterday's Date, will give you a correct Account of our Engagement, as it is an Extract from our Log Book, or the Purport thereof. I am dispatching an Express for the Secretary of the Navy, and have already sent up a Cartel to Gaudaloupe, with the Captain, and 51 Officers and &c. and have written General Desfoureneux, respecting an Exchange &c. I have taken Pains to open a free Communication with you, and you know, there is no other Man in the Service, that I as much wish to have a clear Understanding, and open Intercourse with, as yourself.
I have appointed Lieutenant Rodgers to command the Insurgente, until the Pleasure of the President is known, and have wrote the Secretary accordingly, and I hope with the Exertions that will be made, I shall be enabled soon to have her cruising with me; If you can aid me, by a Draught from each of your Vessels, of about ten Men, it will do me a great Favour, and essentially serve the Country, for it is a great Object to get speedily so fine, and swift a Frigate at Sea; besides it will add Respectability to my little Squadron.

Below you have Copy of the Paragraph of my Letter to Mr. Gay, and which I requested him to give you an Extract, to Viz: “For your Information, and Satisfaction, I now inform you, that I have long since determined to capture all French Vessels, and retake any that may be in Possession of their Cruizers, if they have only two Cases or Jack Knives on Board, and let our Judges after determine whether they come under the Laws for making Reprisals or not, and I have given all the Captains in my Squadron Orders to this Effect.” As to Neutrals, I shall treat them politely, and in a friendly Way, should I even meet them having French Cargo on Board, and documented as such. The French Captain says, he is surprized at America declaring War against France, when the Difference might have been settled without, I told him, America had not declared War against France; pardon me says he, your taking me with the Ship of the French Nation is a Declaration of War; then said I if the Capture of a national Vessel is to be considered as a Declaration of War, your taking the Retaliation which belonged to the U.S. was certainly a Declaration of War on the Part of France against America; here ended this Conversation, which was the last I had with him, before his Departure in the Cartel (a Subject that he had frequently introduced before) with this further Observation from me; that be it War, or be it Peace, I should certainly take every French Frigate I met, and other French armed Vessels, and this Determination he would be pleased to communicate to General Desordeaux.

I am, Dear Sir,

Your sincere Friend & humble Servant.

Commodore John Barry.

FROM THE ST. CHRISTOPHERS’ PAPER ABOVE ALLUDED TO.

BASSETERE, Feb. 15, 1799.

On Tuesday last the American frigate Constellation, of 38 guns, com. Truxton, brought in the French national frigate l’Insurgente, of 40 guns, captain Bureaut which she captured on the 9th inst. off the south side of this Island. The following are the particulars of the action with which we were this day favoured:

On the 9th inst. at noon, a large ship was discovered by the Constellation, standing to the westward to which she immediately gave chase; and at first the commodore supposing her to be a British ship of war, ordered the signal for that day to be hoisted, which not being answered, he then directed the signal for an American ship of war to be displayed, which also was not noticed, but the American ensign run up at the mizen peak of the chase.

As neither of the above signals were answered, the commodore observed that he suspected the chase to be an enemy; and scarcely had he expressed his opinion, when the American ensign was hauled down, the French national flag hoisted, and a gun fired to windward. A croud of canvas was then spread on the Constellation, and every
preparation made for action; at half past two P. M. the main top-mast of the chase went by the cap; the wreck was however soon cleared and the ship put before the wind — at a quarter past three, Nevis bearing W. S. W. about six leagues distant, the Constellation ranged up along side of her, when the capt. hailed several times, but commodore Truxtton thought proper to answer him only with his guns, and as soon as they were brought to bear, commenced the engagement by giving the first broadside, which was instantly returned by the Frenchman; but in the course of one hour and a quarter she struck her colours, after being raked fore and aft three times, with the loss of 70 of her men killed and wounded, and very much shattered in her hull, masts, rigging and sails. She proves to be l'Insurgente French frigate, of 40 guns, and 360 men, exclusively of officers commanded by citizen Bureaut, and is one of the ships lately arrived at Guadaloupe from France.

The Constellation had only one man killed & three wounded, though much injured in her rigging and sails, &c. aloft. — Her commander observes that his officers and men behaved extremely well, and not one single instance occurred of a want of exertion and firmness on the occasion. — She had 407 men, including officers.

A Cartel sailed yesterday evening for Guadaloupe, with about 60 of the crew of l'Insurgente.

MY DEAR SIR, I have been fortunate since I left you last Tuesday in falling in with the french Frigate Insurgente, which yielded to our Flag, after an Action of one Hour, and a Quarter. I have written your Governor, and left the Letter open for your Information, but I request you see it before it is delivered, and that you will be pleased to bring me a Reply &c. as speedily as possible. EXTRACT OF A LETTER FROM MR. ANDREW STERRET, A YOUNG GENTLEMAN OF BALTIMORE, 3D LIEUTENANT OF THE FRIGATE Constellation, TO HIS BROTHER.

"UNITED STATES FRIGATE Constellation, St. Kitts, Feb. 14, 1799.

"DEAR CHARLES, I have taken up my pen to inform you of our successful cruise: — On the 19th [9th] instant we saw a large sail standing down before the wind towards us. We took her to be one of the
English frigates; — at half past meridian she hauled her wind to the northward. We hoisted the signal for the American and English ships for that day, but they were not answered, and the chase hoisted American colours. We hauled our wind to stand athwart her — she then made more sail, which induced us to think she was a French frigate; — about half past 4 [1] P. M. she hoisted French colours, and fired a gun to windward, to bid us defiance, and at 3 P. M. she carried away her main top mast — a pleasing sight to all of us — We came along side about a quarter of an hour before 4 P. M. and gave her a broadside, which she returned, and the action became general and pretty warm — but we had the satisfaction of compelling her to strike to us. She proved to be the French national frigate Insurgente, of 40 guns, and 410 men. I have the satisfaction to inform you that we received no damage except in our rigging, and only one man killed and two wounded.

"One fellow I was obliged to run through the body with my sword, and so put an end to a coward. You must not think this strange, for we would put a man to death for even looking pale on board this ship. — The Insurgente had 29 killed and 41 wounded. The action lasted but one hour and a quarter.

I send you a list of killed and wounded on board of our ship.

A. Sterrett."

J. M'Donerigh, midshipman, wounded.
John Andrews, ordinary seaman, do.
Thomas Wilson, do. Since dead.
Neal Harvey, killed for cowardice."

From Captain Thomas Williams, U. S. Navy to the Secretary of the Navy

CAPTURE OF L'INSURGENT.

(Official.)

EXTRACT OF A LETTER FROM CAPT. THOMAS WILLIAMS, COMMANDER OF THE UNITED STATES BRIG. NORFOLK, TO THE HON. BENJAMIN STODDERT, ESQ. SECRETARY OF THE NAVY, DATED ON BOARD THE NORFOLK, OFF SANDY POINT, ST. KITTS, 11TH FEB. 1799.

Sir, Captain S. Barron and myself, received a fleet of American vessels of 14 sail under our convoy, while we were waiting at Bassaterre Roads, St. Christopher's for the fleet to come out, saw two sail in the offing. I sent Capt. Barron to reconnoitre them and speak them, if friends, and join me off St. Eustatia, which he did. The two sail were commodore Truxtun and his prize, the French frigate L'Insurgent of 42 guns and 250 men, which Commodore Truxtun captured, on the 9th inst. after a close action of 55 minutes. L'Insurgent had 50 men killed; the Constellation had only 3 men killed. I understand that L'Insurgent made a running fight for some hours before she came to close action; but could not get away from the Constellation. No other ships were engaged but those two nor any others in sight. L'Insurgente is the same ship that capt. Barny had with him so long
in Virginia. The French ship lost her mainmast in action and some of her topmasts. The Constellation seems to have lost the head of her fore and mizen topmast, and her fore yard seems to be a jury yard, but her mainmast, topmast, and top gallant mast are all well. I am now in sight of both ships, say not more than five miles distance. His flag is flying at his main top gallant mast head, and L'Insurgent, with the American ensign over the French, under the Constellation's quarter. On Captain Barron's asking Commodore Truxton if he wanted any assistance, he answered no, that his ship sailed as well as before, and he had got the prize in a good condition that he would soon be in the road of Bassatterre St. Kitts, which they are now beating up for. His officers are all well and unhurt. My crew are very healthy, but Mr. M'Rea, who is at sick quarters, on shore, and has been sick ever since he arrived here.

I am, Sir, Your obedient Servant,

THOMAS WILLIAMS.

EXTRACT OF A LETTER FROM THE FIRST LIEUTENANT OF THE Constellation.

ON BOARD THE PRIZE FRIGATE L'Insurgent,

St. Christophers, 16th Feb. 1799.

Major STODDART,

DEAR Sir, It is with pleasure I inform you of the victory we have gained over the cursed violators of our peace. At meridian on the 10th inst. Nevis bearing W. S. W. distant 5 or 6 leagues, saw a large ship to the southward, bore away and gave chase. Our brave commander, who well deserves the appellation, ordered the ship cleared, and every thing got ready for battle, according to our established rule on board the ship.

At 2 P. M. the chase carried away her main top mast, and bore away before the wind for a short time, after which, finding we continued the chase, she hauled up within 8 points of the wind on the starboard tack. At a quarter past 3 P. M. it blowing extremely hard, and our ship being rather crank, we ran close under the enemy's lee, for the sake of working our guns with more facility.

As soon as we got abreast of the enemy, she hailed several times, but no answer was given. The Commodore ordered myself with the other lieutenants commanding divisions, to fire directly into the hull, as soon as we could bring our guns to bear, and to load with two round shot principally during the action. All the orders being complied with, we raked her several times in the course of the action, which went on to our most sanguine expectations.

At a quarter past 4 P. M. the enemy struck, at the time she struck we lay directly athwart her stern, and should certainly have sent her to the infernal regions had we fired whilst in that position.
When she struck I was ordered to board and take possession and to
send the captain and first lieutenant on board the Constellation, which
was done, and an exchange of prisoners immediately took place.

Although I would not have you think me bloody minded, yet I
must confess the most gratifying sight my eyes ever beheld was
seventy French pirates (you know I have just cause to call them such)
wallowing in their gore, twenty nine of whom were killed and forty
one wounded.

This action of only one hour and a quarter has given to the arms of
the United States at sea one of the fastest sailing and finest frigates
in the French navy, and that too with much less injury to the Con-
stellation than is usual in captures of this sort, and without much
blood being spilt on our side, having only one man killed, and two
badly wounded, with two slightly wounded.

Knowing that you have the success of our infant navy at heart,
and are particularly attached to the Constellation, I have been induced
to give you this particular detail.

Though I am not in the habit of boasting yet I candidly tell you
I should feel happy with the same officers, and same men on going
along side of the best 50 gun ship the all conquering French Republic
have — at any hour.

John Rogers.

**NEWPORT February 9 1799**

A number of the principal Inhabitants of this Town, observing by a Resolution of Congress, that a Dockyard, was to be established in one of the Eastern States; and being impressed with the opinion, that this harbour, had superior advantages for such an object, and presuming it would be acceptable to you, to have those advantages detailed and pointed out, have requested some Gentlemen well acquainted with the Harbour &c to draw up a statement to forward to you. In the interim they desire us to advise you of the same, and to offer our opinion on this subject — We therefore take the liberty to observe — That at all seasons of the year, the entrance too and passage out of this harbour is easy, safe, and subject to no detention by Contrary Winds, and when the strong North Westerly Winds prevail, this is the only harbour to the eastward of the Capes of Virginia that can be entered; the Anchorage is good, and the harbour so well land locked, that with ground tackling, Vessels ride with safety in the strongest gales of Wind from any quarter — There is no ice that forms or runs here [to] obstruct or injure — The Island on which Fort Wolcott is erected, we consider very advantageously situated for Naval Arsenals — Wharves may be built at a small expence to where the water is nineteen feet at low tides and a soft muddy bottom, and there is a commodious place for building Ships, and within a short distance of the Island, is a Cove secured on all sides, sufficiently large for docking Timber. There is the best water on the Island, which is only a short distance from the present wharf, and may be conveyed by troughs, to fill the Casks in the boats — There are several Islands or places contiguous to the above that appear to us, very eligibly situated for the establishment of a Marine Hospital. Considerable quantities of the best timber, which grows in the Eastern States, may be procured from the various parts of the Country lying on the bay or river, and from some Islands at the entrance [to the] Sound. And we are of opinion Timber from Georgia could generally be brought here at a less freight, than to Philadelphia or New York — from the facility of coming to this port, and the Number of Coasting Vessels that belong to all the Ports in this bay, that are obliged to go to the Southern Ports for employ — Supplies in provisions, may be always collected here, on as good terms as at almost any Port — by
having seasonable notice — The health of the crew of a Ship, after long cruises, would derive great advantage from the salubrity of the air, and the abundance of Vegetables that may be always had here; Fresh provisions and Vegetables are cheaper here than at any of the Capitals in the United States —

Case of William Palms, U. S. Frigate Constellation

I entered into the Service of the United States at the time of the first disturbance between France and America on board of the U. S. Brig of War Eagle. Capt Camel. [Captain Hugh George Campbell] 1st Lieutenant Latmore and 2 lieutenant Decatur — after a cruise of 6 or 8 months we captured the Schr Eliza — Capt Wheland bound to St Thomas from Philadelphia. A conspiracy had been formed by Baker, Brous & Peterson with the intention of being pirates — they killed the Mate supercargo and a seaman — We delivered the prisoners on board of the ship Ganges — she was going to sail to Philad* The mutineers were put in irons, tried convicted and hanged on Wind Mill Island opposite the City soon after I left the Brig.

I then entered the Service on board of the Ship Constellation — Commodore Truxton I remained for more than a year in her — We fell in with the French frigate L'Insurgente of 40 guns & 400 men — our frigate carried 36 Guns — after a desperate battle — we were victorious. We then sent her to Norfolk — Feb' 1800 [1799] — In this combat I was wounded in the head — neck — legs & belly — and I remained in the Hospital about a year or fourteen months. Soon after I started for New Orleans, where I met Commodore Porter

Protest of William Ward, Master of the Schooner Nancy, captured by French Privateer Rencountre.

Jamaica SS —

William Ward Master William Brooks Mate and William Mills Seaman of and belonging to the Schooner Nancy of Boston who being severally sworn make Oath and say that they sailed from Boston on the twenty second of January in the present Year bound to St. Iago in Cuba, being perfectly tight staunch strong and in every respect sea Worthy and fit for the prosecution of their Voyage, and having on board a Cargo consisting of Brandy, Beef, Port, Cod fish, Butter, Lard, Cheese, Raisons, Beans, Rice, whale Oil and sundry other Merchandize. Say that they saw the East End of Cuba on the ninth of the present month of February, bearing West, and were proceeding for St. Iago aforesaid, when on the day after, about Six Leagues to the Eastward of it, they saw a Sail bearing West, and soon after they discovered it was a Schooner rowing towards them, they having then a Calm; and shortly after came up and proved to be a French Privateer mounting two four pounders one nine, one swivel and having on board Fifty five Men, she was called the Rencountre Andrew Caste Master and belonged to Cape Francois, as they were told — Say that a number of armed Men came on board and ordered the Master and Supercargo on board the Privateer with all their Papers, which they refused to return, allowing only the Supercargo to take a List of them, on the eleventh the aforesaid Privateer rowed the Nancy in a small River called Watnamo in Cumberland Bay, there they broke open the Hatches and
took out sundry articles of Merchandize, such as Beef, Pork, Raisons, Butter, Hams, Gin, and one Trunk of Goods belonging to the Super Cargo and a Barrel belonging to the Master, and put them on board the Privateer, where they were both detained, on the twelfth they discovered two Brigs and one Schooner in Cumberland Bay, when the Privateer towed the Nancy some distance further up the River, and several other Articles of Merchandize were plundered, on the day after they were again towed further up and a Boat was sent from the Privateer to convey the Super Cargo and Master some distance up and threatening to put them on Shore, that several Shot were exchanged between the Privateer and the aforementioned Schooner, which returned down the River, on which Day a Barrel of Shoes belonging to the Master was taken, say that the Master and Super Cargo were ordered to return to their Vessel, and all the French Men were taken out, that they demanded their Papers and were told by the Captain of the Privateer that they were up the River in his Trunk, on the fourteenth the two Brigs began to proceed up the River, and at eight A. M. of the same day the Frenchmen came on board the Nancy, and took out two Iron and four wooden Guns and carried them on Shore with all their Powder, and erected a small Fort, that they again demanded their Papers and received the same Answer as before, on the fifteenth one of the Brigs being nearly within Gun Shot of the Privateer, the Captain of her ordered these Deponents to haul the Nancy further off the Shore, as he was going to set fire to his Vessel, which was accordingly done, and they went on shore and again demanded their Papers, and was told that they were still up the River but should be sent them by a Spaniard — Say that they dispatched two Men for them in company with some of the French men, who were told they were burned on board the Privateer by the neglect of the Clerk not taking them out, a short time after several Boats came from the Brigs and Schooners, which proved to be the Brig Swallow commanded by Archibald McVee, the Brig Argonaut commanded by Raymond Bayonne, and Schooner L'Amitié Anthony Ferand Master, who took possession of the Nancy, and began to haul her down the River, and told them they were to be sent to Jamaica, on the eighteenth some People from the Brigs came on board and towed her into the Bay where a Prize Master and some Men were put on board, and the Super Cargo, the Mate and three of the Crew ordered on board the Argonaut, leaving the Master and two Men on board the Nancy and about two o'clock A M of the nineteenth they all sailed together from Cumberland Bay bound to Kingston in this Island, and on the twenty first of the same month arrived at Port Royal, where the Pilot run the Schooner on shore, as they were going in to Kingston, that she has since been got off and anchored at Kingston aforesaid on the twenty third, but do not know what Damage she has received — Say that the aforesaid Schooner Nancy is still in possession of the Recaptors —

To Col. Josiah Parker, Chairman of a Committee, Navy Business, House of Representatives, from Secretary of the Navy

[PHILADELPHIA]

Navy Department 11th February 1799

Col. Josiah Parker
Chairman of a Committee
of the House of Representatives

Sir, The Marine Corps as now established by Law, consists of 1 Major, 4 Captains, 16 first Lieutenants, 12 second Lieutenants, 48 Serjeants, 48 Corporals, 32 Drums and fifes and 720 Privates.

But as this Corps is not sufficient to furnish all the Marines for all the Vessels which will be in service during the present year — the estimate of the expense of the Marine Corps for one year, contained in the report of the Secretary of the Treasury, included two additional Lieutenants, and Fifty six Serjeants Corporals and privates, presuming they would be added to the establishment. —

If six Vessels not exceeding 18 Guns, should be added to the Navy, a further addition to the Marine Corps of two first, and four second Lieutenants, six Serjeants, six Corporals, six Drums and fifes, and One hundred & fourteen privates, will be requisite. — This Marine Corps, is of amphibious nature — it is sometimes to do duty on Land, sometimes on Water — at this moment part of it is employed in guarding the Magazines — To charge the whole expense to the Navy Department, would be to burthen the Navy service with more expense than belongs to it — under this impression, the estimates for the expense of the Vessels, have included only the expense of Marines on board of Ship. —

The expense while on board of Ship, of part of the necessary augmentation, being included as has already been observed in the Report of the Secretary of the Treasury — and of the other part in the estimates of the expenses of six Vessels not exceeding 18 Guns, the estimates I have now the honor to enclose, only shew that part of the expense of the augmentation, more properly belonging to the land service. —

But will it not be best in order to avoid perplexity and confusion, to appropriate separately for the whole expense of the Marine Corps? — If so, the paper marked A will shew the sum necessary to be appropriated for the whole expense of the Marine Corps on land and water — And the paper B will shew, how much may be deducted from the estimates for the Navy service for one year, if the appropriation should be separately made for the Corps of Marines. —

I have the honor to be &c.

U. S. S. Ship, Constellation, 12th February, 1799.

Bassateer Roads, S. Christophers.

Sir, I have the Pleasure to inform you, that I fell in with one of our Enemy's Frigates (the celebrated fast sailing Ship, Insurgente of 40 Guns, & 360 Men) to the Eastward of Nevis about 6 Leagues on the 9th Instant, and about 3 Hours after discovering her, commenced a close Action for one Hour, and a Quarter, when she struck her Colours to the United States Ship, Constellation, having upwards of 50 Men killed and wounded by the French Surgeon's own Account. I had only one Man killed and two wounded, tho' much injured in my Spars, Rigging, and Sails which will prevent my Proceeding to Windward to land the Prisoners at Barbadoes, or Martinica. I must therefore pray you to suffer me to confine them in your Prisons until I can dispose of them otherwise, and to be pleased to furnish with the necessary Papers for a Flag of Truce to take up the Officers on Parole to Gaudaloupe. I wish you to send the Flag merely at my Request as commanding the American Squadron in this Station, and I will forward a Letter to Desfourneaux by the Captain of the Insurgente on the Subject of an Exchange &c. I am much incumbered with these Officers, and want to get rid of them. I therefore pray you to accommodate me as speedily as possible. I have the Honor, Sir, to be with great Respect.

Sir, I rec'd a few days past, your letter in relation to the two Frenchmen, who have been so improperly treated by the American Captain,—your conduct in the business has been perfectly proper; but our laws will not Justify their detention as prisoners. You will please therefore, let them know as soon as possible, that they are at liberty to proceed where they please, giving them up without examination all their papers — & it will be but humane & consistent with the character of the American people & Government, to give them the best advice in your power, how to proceed to obtain justice from the Captain who so improperly broke faith with them, & detains their property. — I have the Honor to be &c.

*Naval Department 13 Feb. 1799.*

Wf Pennock Esqf Norfolk

Sir, I have directed a remittance to be made you of 15000 D½ & will if possible have it sent on in orders of the Collector. — The Guns & Anchors for the Frigate I will have provided in time — But if any of the proper kind of Anchors should fall in your way, that is to weigh 44 C½ of good quality, you may buy them, if the price should not exceed 13 Cents p½ Lb. — If you buy any let me know immediately, that I may stop the making of so many.

As to Cordage I have heard great complaints of that made at Norfolk; have contemplated to have it made at other places and sent to you, — And the public have on hand, hemp enough for this purpose. But as it will be a convenience to have it made on the spot, I consent that you engage it of Mf Plume & Mf Nicholson, or whoever else you please — on these conditions, that there be 20 yarns to a strand of 3 Inch rope — & so in proportion for all kinds wanted; and that, the rope be of a quality to be approved of by yourself, if there should be no Captain appointed to the Frigate, when the rope is delivered — but if the Captain should be appointed, the rope must be approved of by him, — As to the price you must make the best bargain in your power, not exceeding £. 4.10.0 Virg½ c½ — but the hemp must be well topped before it is made up — Should this experiment turn out ill, We shall not again depend on Norfolk, —
The public have Canvas enough on hand for the sails — shall it be sent to Norfolk to be made up into sails — or shall they be made and sent. — In the latter case, Mr Fox must send the dimensions. — If the former, let me know how many bolts, and the kinds, will be wanted. — I hope you have advanced to the crew of the Baltimore one Months pay — and that that Vessel will have got to sea before the rest of this. —

I am Sir &C.

Protest of Jacob Stone, Master of the Schooner Maria, captured by French Privateer Adolpus

No. 6

PROTEST

One hundred & Thirty Six Maravedis

Seal the Third. One hundred & Thirty Six Maravedis: Year One Thousand Seven hundred Ninety Nine.

In the City of Algeciras the Fourteenth day of February One Thousand Seven Hundred & Ninety nine. Before me His Majesties Notary Public &c. & the underwritten witnesses appeared, who with the assistance and through the medium of Mr Patrick Mallony Vice Consul of America in the Capacity of Interpreter of the English language in the said City to whom Full Faith is given — Declares that He is called Jacob Stone & was Captain of the American Schooner called the Maria and that she sailed in good condition from Newbury Port in America on the eleventh day of January of this year with a Cargo of Coffee & Sugar all in good condition bound for Leghorn, the weather was Favourable until the Seventeenth, when he experienced so violent a gale from the N. E. that he was obliged to lie too in great danger & hazard, that a Sea struck the vessel and threw her nearly on her beam ends — At 2 P. M. they shipped a Sea over the Stern quater which nearly buried her when the vessel received a large quantity of water in the Cabin — At 6 P. M. the weather was favourable and so continued without any thing remarkable until making Cape St Vincents — On the 10th of this month saw and was boarded from an English Seventy four, who Forbid our entering the Port of Cadiz upon any pretence whatever, under penalty of being made prize. — On the 12 inst entered the Straits with a moderate North Wind — On the 13th at 2 P. M. Saw three Sail upon the Coast of Spain, they gave chase & commenced Firing upon the Schooner, who returned the fire — the Combat continued until 4 P. M. when three other Sail was discovered to leave the Spanish Coast, who gave chase & commenced Firing upon the Schooner. About which time finding the vessel surrounded by Six French Privateers and they of Superior Force — the smallest carrying From thirty to Forty men — the principal one of which is called the Adolpus Cap' — they boarded the Schooner, Seized her Papers and Plundered
Money, Cloathing &c &c whatever they could lay their hands on — they manned the Schooner and conducted her into this Port — and immediately after the Captain was permitted to come on Shore he presented himself and made this manifestation, which he declares in due form is correct & true — and in proof presented as witnesses three men — who by medium of said Interpreter are named Ralph Flanders — Moses Rogers — and Samuel Call — Mate & Seamen of said Schooner — who being informed of the foregoing declaration by the said interpreter—declared & Swore under Solemn Oath according to law the Foregoing Statement to be true and correct in all its parts — that they saw & were present at the occurrence as individuals on board to which I testify — declaring their respective ages to be as follows Twenty eight, Twenty three & Twenty one, years. The said Captain through the medium of the Said Interpreter Protests (with all the Solemnity which by right is given) against the Sea and Winds for whatever average or Proportion of damage may have accrued to his vessel or Cargo — that it may not be placed to his account — and further with the same Solemnity he now Protests against the Privateers their Commanders & crew and against whomsoever it may of right belong — For the damage or detriment to the Voyage thus far and likewise for the Costs and Expences which by this detention they have already caused or may cause to the said Vessel and Cargo and to all therein concerned —

Declaring the foregoing at this time that, he may have Power to act, plead, ask for & reclaim at all times and in all places as per the appearance of this Public instrument for which he himself asks this Testimony — to the which his Vice Consul and interpreter Swares, conformable to the Law, and to whom good faith is due — having complied faithfully to his office in this interpretation In presence of Don Juan de Serra. Don Sebastian de Aquilan y Rocha and Don J Garcia & Chica Vecinos of this City — Jacob Stone — Ralph Flanders — Moses Rogers — Samuel Call — Patrick Mullony — Antonio Agredano — Notary as Witnesses

Copy of the Original which is Registered in current Protocol of publick writings in my Power and Office, to which I give full faith and to which I refer and at the request of the aforesaid detained Captain I give the present in a sheet of Paper of the Third Seal — which is Signed and Sealed in this City of Algeciras — the day, month and year above written

U. S. Ship Constellation Bassateer Roads
St Christopher's Febry 14th 1799.

Mr. Thomas Robinson,

Sir, I have nominated you to the Governor of this Island as the Flag Officer to the Cartel, now about to sail for Bassateer, Gaudaloupe, called the Eclipse, Captvr Burt. On your Arrival at that Place, you are to wait on General Desforneaux, and deliver him the enclosed Letter from me. The General will no doubt dispatch you and the Cartel immediately to me at this Place. You are to inform him that it is my Wish to have a Vessel sent down immediately to take up the French Prisoners, and to send me down all the Americans held as Prisoners at Gaudaloupe, and to authorize some Person to give me a Receipt for the Balance which he must send to this Place as soon as possible. General Desforneaux must supply the necessary Funds to pay the Expence of this Cartel, the provisioning the Prisoners, and the Expence attending the Sick, and wounded. You may inform him that the Insurgente had Seventy Men killed and wounded, some of them mortally, Others only slightly. I expect he will treat you politely, and in a hospitable Way, as I have done his Officers, and you will furnish him with a Copy of this Letter, and give Assurances that Humanity will be observed to all the Prisoners. You are not to remain forty Eight Hours or more in Gaudaloupe on any acct whatever, but demand his Passport to sail. You may inform him, that I have the command of a Squadron of several Ships of War on this Station, and that Commodore Barry is on the Dominica Station that our Commands are separate, but either will communicate with him on the Subject of Prisoners from Time to Time, as Circumstances may make it necessary on our respective Stations. Bring me the General's Answer, and assure him, that I regret the Occasion that has caused the present Misunderstanding between our two Nations, which I however hope will soon be accommodated. I am, Sir,

Your most Obedr humble Servant

To General Desforneaux, Commander in Chief of the Island of Guadeloupe from Captain Thomas Truxtun, U. S. Navy

U. S. Ship Constellation, Bassateer Roads
St Christopher's February 14th 1799

Sir, Having taken the French national Frigate Insurgente, commanded by Monsieur Barresaut on the 9th Instant, after a manly Defence being made by him, I am induced from Motives of Humanity, and to
lessen the Calamities incident to Captivity to send to Gaudaloupe by the Flag of Truce Schooner called the \textit{Eclips Cap't} Burt the Captain, and Officers per List at Foot, they having given me their Parole of Honor, that they will not take up Arms, or serve in any Way against the United States of America, or any of the Nations now at War with France, untill exchanged or the Differences between the said United States and the french Republic are terminated, and the Intercourse between the two Countries is opened by Consent of Parties which I hope may soon be the Case; in the mean Time, Sir, I will release the remaining french Prisoners in my Possession here on your sending down a Vessel for them with all the Americans, that are Prisoners, or Captives with you, and you will at the same Time be pleased to authorize a Person to give me a Receipt for the Balance that may remain in our Favor, which Balance I request may be sent me to this Island, as soon as you have it in your Power, and this humane Mode of Exchange of the unfortunate, I shall always be happy to see encouraged on both Sides.

Lest the Instructions of the President of the United States to the Commanders of our Ships of War should not be understood by you, I take the Liberty to inform, that the Law and Instructions issued, only goes to the Capture of Ships, equipt for War, and other armed Vessels, and these Instructions will be strictly adhered to by our Commanders. I have the Honor to be, Sir, with great Respect

Your most humble & Obed't Servant

His Excellency General Desfournelaux
Governor & Commander in Chief of the Island of Gaudaloupe &c. &c.

P. S. It is necessary to observe that it will be expedient for you to send down Money from Gaudaloupe, or take proper Measures with some Agent here to defray all the Expence attending the flag Vessel & Prisoners, before they can be sent from hence. I have understood, that you have lately sent Home American Prisoners to Philadelphia, if this is the Case, we have the Crews of 3 french Privateers, which will no Doubt be sent you in Return, which will still leave a Balance on that Account in our Favour.

Lay off & on to collect the vessels ready for convoy at St. Pierre.
[NA.]

To John Gay, U. S. Agent, Martinica, from Captain Thomas Truxtun, U. S. Navy

UNITED STATES SHIP, Constellation,
Bassateer Roads, St. Christophers 15th February 1799. —

My DEAR FRIEND, I wrote you Yesterday a Line in Haste by a
Man who told me, he was a Doctor, and intended to settle at Martinica.
Since which I have had the Pleasure to receive your kind
Favour of the 5th Instant, and believe me, when I tell you, Nothing
could have given me more Pleasure, than your short Epistle, because
I found by it, an old, and sincere Friend was in the Land of the
Living, and well; a Friend, who I had heard was in bad Health.

I have a beautiful Seat at Perth Amboy, a few Hours Ride from
New York (28 Miles) a Place, where Sickness is scarcely known, for
altho' the Inhabitants in the City, and Vicinity are numerous, a
Physician cannot get Bread by the Calls of Patients. Now, suppose,
my old Friend you step on Board a Vessel for New York, and go, and
spend the Summer with Mr. Truxtun, who will be glad to see you, and
where you will be amused with my little Brats, and we have an admirable Society; Judge Patterson in the Neighborhood, General Walton
White, Judge Rattoon, William Taylor Esquire, an eminent Lawyer,
retired from Practice, and a Number of other worthy Gentlemen,
and I must not forget our old Friend, John Angus, who is wealthy,
and at his Ease, having Nothing to do, but attend to his Functions
as an Alderman. Here too, you will be entertained with a Number
of charming Girls, and elegant Ladies. If you will accept this Invita-
tion, you will make me very happy. What signifies your labouring
under the Muzzle of the Sun at this Time of Life, you have no Chil-
dren, and I trust you have Enough to make you comfortable all
your Life.

I wrote you before I had captured the Insurgente, a Ship that has
done much Mischief in these Seas. A very circumstantial and cor-
rect Account, is published in this Day's Paper of the Action, which I
send you for your Perusal, and by which you will say Monsieur has trifled, and insulted the American Flag long enough, and that he had better now be easy.

The Insurgente captured 5 of your last Convoy from England, one of which I am told Nicholson fell in with, and would not retake; the late Captain of the Insurgente tells me that Vessel and Cargo sold for two Millions of Livres at Gaudalupe.

Had I been fortunate enough to have met her, she would now have been at Bassateer, Saint Christophers, instead of Bassateer, Gaudalupe.

My Command on this Station consists of 7 Vessels of War including the Constellation, but several of them are not yet arrived from the United States. I shall endeavour to refit the Insurgente here, and add her to the Squadron; she is a remarkable fine Frigate, and the Officers all say, by far the fastest sailor in the French Navy, mounts 40 Guns, and is full of Men.

For your Information, and Satisfaction, I now inform you, that I have long since determined to capture all French Vessels, and retake any that may be in Possession of their Cruizers, if they have only two Cases or Jack Knives on Board, and let our Judges after determine whether they are armed sufficient to come under the Law for making Reprisals, and I have given all the Captains in my Squadron Orders to this Effect.

I have wrote our old Friend Barry several Times, but whether my Letters have reached him, or not I cannot say. Will you inform him of my Determination, with Respect to Captures. I hope he will act, and give Orders to his Captains similar to what I have done to mine, for rest assured, it is conformable to the Wishes of the Government, that we should distress the Enemy, protect Commerce, and strain our Construction of the Law and President's Instructions, as far as possible, in Favour of Seizures, but not to touch any Neutrals whatever, be their Lading even the Property of French Subjects.

If you will inform Admiral Harvey also of my Determination, I shall be obliged, so that he may know, what Lengths, I am determined to go, and that I am clearly warranted by my Instructions. I am just now dispatching a Vessel to the Secretary of the Navy with the Account of my Success, and have appointed Lieutenant John Rodgers to command the Insurgente, untill the Pleasure of the President of the U. S. is known.

Yesterday I sent up to Gaudalupe in a Cartel 52 Officers (including the Captain) from the Prize. I have written General Desforneaux to send me down all the Americans he has, and Money to pay the Expence of his Men here, I hope I shall soon get rid of them all by Exchange, and collect a Crew for the Insurgente, which was the best officered, and manned Ship I ever saw in the Service of France, but among them I discovered a Sett of treacherous Scoundrels as ever existed.

The Captain says, he is surprized at America declaring War against France, when the Difference might have been settled without. I told him America had not declared War against France, pardon me, says he, your taking me with the Ship of the French Nation, is a Declaration of War, then said I, if the Capture of a national Vessel, is a Declaration of War, his taking the Retaliation commanded by
Lieutenant Bainbridge, which belonged to the U. S. and regularly placed in our Navy was certainly a Declaration of War on the Part of France against the U. S. here ended the Conversation, with this further Observation from me, that be it War, or be it Peace, I should certainly take every French Frigate I met, and other French armed Vessels, and this Determination he might communicate to General Desforneaux.

I have given you a full Detail now of every Thing of any Consequence respecting the Capture of the Insurgente, omitting only what the Printers have collected from my Ship, and saved me the Trouble of doing, and have touched upon such other Matters, as I considered of Importance to your Trade to be known. I am extremely happy, none of my little Squadron was with me, when I met this terrible Citizen, who says, he never would have struck to an Englishman.

Write me often, and put your Letters under Cover to David M. Clarkson, who you must have known in Saint Eustatius.

God bless you, and Adieu. —

P. S. If you will furnish Barry as soon as possible at Dominica, and the Admiral wherever he is, with a Copy of this Letter and a Newspaper, I shall be obliged. I have been told by some of the King's Officers, that the Admiral has been uneasy, not knowing how far we intended to go. —

JOHN GAY Esquire

Martinica.

To Lieutenant John Rodgers, U. S. Navy, from Captain Thomas Truxtun, U. S. Navy

LIST OF OFFICERS FOR THE PRIZE. TO VIZ:

Lieutenant Rodgers to command the Insurgente for the present; until the Pleasure of the President of the United States is known.

Lieutenant Archer, second in Command.

M't John Macrea, Lieutenant of Marines.

M't Davis, Midshipman.

M't Sinclair, Ditto.

M't Henry, Surgeon's Mate.

M't Smith, Master's Mate.

Twenty-five Seamen, and Ordinary Seamen.

Sir, The above making Thirty one in Number, are all the Officers and Men I shall spare from the Constellation, the Others must be entered from the Shore, and got from Gaudaloupe &c. &c. &c. I shall leave the Number and Grades to be allowed hereafter. It will therefore be necessary for you to exert yourself as much as possible to man, and refit the Ship, for which Purpose this is to be considered as your Order.

Artificers, and Artizans must be got from the Shore, and such Materials as are absolutely necessary. I request you to loose no Time in completing this Ship for Sea, and at the same Time to be as
frugal as possible in the Outfit, for Character is always concerned in the Expenditure of public Money; In Fact when the United States value the Ship, we shall have to pay perhaps our Proportion of her Outfit. I am Sir

Your Obed't humble Servant

Capt Tho Tingey

Sir I am honored with your letter of the 24 Feb. but have not rec'd the one referred to, of the 27th January. — It will give me great pleasure if this letter finds you at Norfolk. — When you arrive there you will please apply to Wm Pennock Esquire Naval agent at Norfolk, for such supplies as may be necessary for a Cruise of four or Six Months, if you can take so much provisions on board. — Your Services will be immediately wanted, on more important Service. — Should the Crew of the Baltimore, be in disorder, you will apply the proper remedy, of which you will be able to judge, on the Spot —

[NDA. OSW, Vol. 1.]
I have been much alarmed by a report circulated here a few days ago, that the yellow fever from the United States had been introduced at the Port of Gijon with a Cargo of Codfish. This report, which if founded would have been extremely disadvantageous to us, I have now reason to believe originated from an epidemic disease which has made its appearance in that and some other places in its vicinity. In this Country nothing new of moment occurs in the political line. There are several late arrivals of vessels in different Ports from the United States. In that of Alicante are nine armed Merchantmen, carrying in the whole one hundred & twenty Guns. The affairs of Italy seem decided. The capture of General Mack and his Staff is among the principal events you will see in the French Gazettes, wth are forwarded to you herewith as late in date as to the 5th instant.

With sentiments of great respect and esteem,
I have the honour to be,
Sir,
Your most obedient and most humble Servant

D. HUMPHREYS

The four last Nos of the French Gazettes are forwarded to you by way of Lisbon — Ehreinbreitstein has surrendered.

The SECRETARY OF STATE, &c. &c. &c.

U. S. Sloop of War Merrimack off St. Kitts,

Feb. 16, 1799

Commodore Barry

Sir I Rec'd Yours of Ye 15th Instant & mark the Contents, You would have met with me at Prince Ruperts Bay had not my Convoy got so far to Leeward in coming from Martinico, that they could not beat up, notwithstanding my particular orders to keep close in with Land, at 9 O'Clock in Ye morning I thought best to beat in myself & fill my Water, & leave Letters for your Honour, & join them again at Sun sett, but att Eleven when I had almost gain'd the Bay, two strange Ships appeared, bearing down into the Rear of my Convoy, I immediately bore away and clear'd Ship for action, not doubting the British Ship in the Road would slip to my assistance if they were Enemies & by that means to save my Convoy, but when within about two Gun shotts, I hoisted Ye Signal for the day, which was answered by the headmost Ship which was a British Ship of equal force to my Ship, the other a Transport pierced for 22 Guns on one
Deck, but mounting only 14 on her upper Deck, full of Troops for Antigua. After speaking them & collecting my Convoy found it impracticable to get into the Road, I made the best of my way according to Your Instructions. Our Countrymen want Convoy but pay no attention to keep with it, and such Tubs as some of them are under my Convoy I never saw, & they are sure to spread each Night, as far as it is possible to see them.

I have now the pleasure to be in sight of the American Flag, flying over that of the National on Board the Insurgeant Frigate, prize to the Constellation in Bassater Road, as soon as I have got my Convoy to Ancor, and given them Instructions shall proceed to old Road to fill my Water and be ready to proceed as soon as join'd by the Mountazuma.

Extract of a letter from Captain William Penrose, Master of the schooner Stjoldebrand (one of Algerine fleet) concerning his voyage

ALGIERS, February 17, '99.

"I have met with an opportunity of informing you of my arrival at this port, by a Swedish frigate, which put in here last week. I had a very good passage from the Delaware, though a very wet one, being perfectly under water all the time. We made the run in 30 days, which was ten days less than capt. Maley, five days less than capt. Smith, and six days less than capt. Geddes; and was fortunate enough to fall in with no cruisers that we were afraid of. In the Streights of Gibraltar, 6 large gun boats rowed off to us in a calm, under French and Spanish colors, but after firing a few shot they thought it prudent to retire. They then went and attacked two large ships and a schooner, about 6 miles from us — we were then laying becalmed: one of the ships and the schooner they took, but the other ship got clear, which proved to be the Five Brothers, capt. Philips, of and from Boston, bound to Leghorn, carrying 12 six pounders and 40 men. Capt. Philips informed me that the ship which had struck was from Boston also, bound to Leghorn, mounting 16 guns, but could not learn the captain's name. The schooner which was captured, was the Experiment, capt. Bender, of and from Philadelphia bound to Gibraltar. The Algerine fleet which sailed from Philadelphia, are all safe arrived, except the ship Hero, capt. Robinson."

To John Yeiser from Captain Thomas Truxtun, U. S. Navy

UNITED STATES SHIP Constellation,
Bassateer Roads, St. Christophers 18 Febry 1799 —

DEAR SIR, You will be pleased to proceed in the Schooner Caroline to the Chesapeake, and as soon as you arrive at Cape Henry, hire a Pilot Boat, and proceed up to Baltimore, and deliver the Packet I gave you, covering Dispatches for the Secretary of the Navy, to Jeremiah Yellott Esquire, to whom it is addressed. You will request Captain Yellott, to forward it by first Post. You will also be pleased to deliver the Letter I sent you, to Mr James Barry.

Captain Yellott will on your delivering him this Letter, pay your Passage in the Caroline, and the Hire of the Pilot Boat, from the Capes of Virginia up to Baltimore; and be assured, Sir, that I consider myself much obliged for your Politeness, in undertaking this Service, and shall mention it with much Pleasure.

As the Dispatches are of great national Importance, I pray that the God of the Winds &c. may favour you, with auspicious Gales, and fine Weather.

I am with high Consideration,

Your very Obedt humble Servant.

P. S. Request Capt Yellott to forward my Dispatches by first Mail without Fail —
To Mr JOHN YEISER.

[HS of Pa. NDA photostat, Truxtun's LB, 1798-9.]

To Secretary of the Navy, from Captain Thomas Tingey, U. S. Navy

SIR: Presuming that you are in possession of my correspondence from St Thomas under date of 27th ult° & 1st ins° by the Brig Nancy capt Dougherty — duplicate by Brig Mercury capt Kuhn: and probably of that with which I had the honor to address you the following day by the schooner Anna, capt Ingersol for New York, copy of
which No 3 is herewith enclos'd. — Notwithstanding however the intention intimated in the conclusion thereof; I ultimately left the West Indies, some few days earlier than I had determin'd on.

Having left the little fleet to pursue their course, except one schooner, the *Four Sisters*, capt. Young, bound to Cuba — whom I had promis'd to protect as far as our courses reciprocally should admit — I steer'd for the east end of Hispaniola — On the evening of the 4th being to leeward of Monte Christo, and not wishing to pass Cape Francois in the night — we hove too and kept by the wind — the schooner making the best of his way for his port — Next morning we look'd into Cape Francois, and saw about 8 sail at Anchor in that port, two of which appear'd to be ships — the residue small vessels but of what nation, we had no means to learn — Nought was to be discover'd under sail, but British cruisers one only of which we spoke — he had just come up through the windward passage from Jamaica; but had not seen or heard of any thing like the vessels I expected from Charleston

We kept to the windward next day and the ensuing night — and on the 6th steering to leeward, look'd into Jean Rabel and Cape Nichola Mole — to the latter of which we were very close in: but at neither of these places was there a single solitary mast to be seen — we proceeded on our way till opening the bight of Leogane, & continued there during the night. At day light on the 7th we had nought in view; except indeed one small Peragua, close in with the land, which, by the direction of the wind we could not come near — We stood some short time to the SE and having no better prospect, I determin'd on crossing the passage under easy sail, intent on going down to the coast of Cuba, and looking into Baracou — Having rather pass'd mid-passage and gain'd somewhat north of Cape Nicholas, the wind in the ENE began to blow very heavy, rendering it imprudent to go too near Cuba on the lee. — We haul'd our wind to the Northward under a press of sail to keep to the windward, expecting at evening it would lull again: but in this we were disappointed, after sun sett it rather encreas'd — we put now to the southward intent on endeavoring to fetch once more under the west end of Hispaniola — pursuing our course till midnight the wind gaining force, had back'd rather southward of east rendering it doubtful whether we should gain to windward of the east end of Cuba — prudence of course dictated to stand again to the northward which was put in effect — and continued till noon on the 8th — The wind blowing violent in squalls — the sea extreme heavy and irregular — and being oblig'd to carry a stiff sail — the Ship labour'd more than was pleasing — At ¾ past noon consulting on the time when we should stand again to the Southward, we discover'd the shoal banks call'd the Hogsties, a very little distance on our weather bow — appearances in the weather being no better, I order'd the course for the entrance of the passage by Crooked Island which having made & enter'd just at Night-fall: I now determin'd to pursue my course for the Chesapeake as, to have waited the return of easy weather, and then to spend time in regaining my station — where I saw not, nor had seen any prospect of success — I conceiv'd it only wasting the time for which the Ship was fitted to Sea —
I experience Sir: no small degree of chagrin that the *Ganges* has thus far made a maiden cruise: nor should I in conformity with the letter of my instructions, hold myself justifiable in thus early quitting the station assign'd me — but in addition to the reasons heretofore enumerated: If I did not misunderstand your verbal communications, after I had received my orders — I was at liberty to return to the Chesapeake for fresh instructions, if I found nothing effective to be done on my station.

One circumstance occur'd during the cruise of the *Ganges*, which I conceive you ought to be acquainted with, and the reasons why I omitted communication thereof in my correspondence from S' Thomas; may perhaps be thought to require explanation. — In the first place it was a subject: I did not think right to inform of, by a conveyance wherein there might be the least risque of its falling into improper hands — and secondly, I saw by American papers at S' Thomas, that an actual case in point was before Congress — I mean the right which some of the British Commanders conceive they had, to search our public ships for their seamen.

One of the Frigates I fell in with, sent an Officer on board to enquire on this subject, observing at the same time that my assurance would be sufficient to prevent an officer being sent to examine the protections of my crew — I did not hesitate to say I consider'd all my Crew Americans born or adopted — but I told the Officer farther, that I did not believe there was one single protection in the Ship — The only one we carried in our public ships being our Flag — This business subsided here, and the residue of our intercourse was friendly.

But as I had declar'd to my Officers, that I would fall at my post, rather than submit to an investigation and afterwards pledged myself to my Crew, that not a man of them should be taken from me, by any force whatever, while I was able to stand at my quarters. It is incumbent to know how far I should be justified in repelling force on such an occasion.

---

**Elizabeth River 20th Feb 1799**

The foregoing was pen'd on approaching the coast as per date preparatory for sending off by any safe conveyance that might offer up the Bay, quicker than the Post — but none such presented — About 10 in the morn' of the 19th we made the land: in the afternoon obtain'd a pilot, and at 10PM came too in Lynnhaven bay — where we were detain'd part of this morning by thick weather, which clear'd however e'er noon sufficient to proceed; and are now — at evening — mooring here — I shall hasten every preparation for the Ship putting to Sea again, as soon as your orders shall arrive only deferring to receive additional provision; for your determination, as to time or quantity — There will indeed be little to do; some trifling matters in the rigging, and main topmast to refit — some articles of Carpenters stores to be got, for we had not one spare foot of Oak Plank on board, of any sort whatever — also to receive yet a few tons more of shingle ballast, all which shall be done without delay.

I enclose you the pursers account of expenditures & stores remaining — a detail of those of the other warrant officers, shall be forwarded in my next.

*The Ganges* during the cruise has continued staunch and firm; although with very few intermissions we have experienced an almost
continued scene of heavy weather, nor has there been any sensible complaint in the hull, except when under a press of sail the day we made the Hogsties, when it was perceiv'd she leak'd a little, and which has continued till we came into smooth water — neither has her rate of sailing been such as to complain of: except when very close to the wind and against the sea: which however may be attributed in some measure to her being too light — a circumstance I shall take care of to obviate ere she proceeds again —

I can now only repeat that I shall be ready promptly to obey your orders — to resume my former station or elsewhere — 'tis true I cannot but think it a total waste of time to proceed there again, but if I may presume to advise, I think something might be effected between the Islands of Tortola, S't Croix & S't Thomas — and thence down to the North side of Porto Rico as far as the city of S't Johns — for not a day passed while we lay in S't Thomas, but one or more French vessels came in or went out, major part of which were arm'd, though only one I believe (who I before inform'd of) bore a commission for cruizing. —

I beg leave to remind you that I went to sea, one lieutenant (Mr Hamilton) short of the number you order'd — as also Mr Dan'l Hughes appointed Surgeons mate did not join the Ship

To the Secretary of State, from David Humphreys, U. S. Minister to Madrid, Spain

(Madrid February 19th 1799)

Sir, The enclosed Paper, being the copy of a letter from Mess's Grivegnée of Malaga respecting the arrival of the Ship Washington at Algeciras after an engagement with three French Privateers, will shew the protection afforded by the Spanish Gun Boats and the friendly dispositions of the General of Marine at that place. I flatter myself the French will have been discouraged from attempting to get possession of the vessel by force, as I have heard nothing from Mr Mullony of such an attempt.

From the other enclosed paper, which is copied from a letter of Mr Morphy, you will perceive that the captain and crew of the *Diana* (captured by French Privateers and condemned as a good prize by the Consul at Malaga) have been liberated, and are about returning to America in a vessel which the Captain has purchased.

A Courier extraordinary, dispatched by the Spanish Charge des Affaires at Naples, has brought a relation of the most unparalleled disorders and horrible Murders committed in that Capital between the time of the flight of the King and the arrival of the French. In the Gazettes forwarded herewith you will see the Message of the Directory, announcing the entrance of the French troops into the city of Naples, and the conversion of that kingdom into a republic.

Our commerce in Cod fish is likely to suffer a considerable diminution in the sale of that article not only in Italy, but likewise in this country — since by a late Bull of the Pope the permission for eating meat in lent has been greatly extended.

With sentiments of high consideration and esteem,
I have the honour to be,
Sir,
Your most obedt and most hble. Servant
The Secretary of State, &c. &c. &c.

D. Humphreys
MALAGA 6th February 1799.

Sir, We are informed by Mr Mullony, the American agent at Algeciras that the Ship Washington commanded by Francis Roberts, after making a vigorous defence against three French privateers near that place, joined several Spanish gun boats that were coming out of its harbour wh® she entered safe under their protection, that the French, tho' before they had not been able to overpower her at sea, had since attempted to take possession of her in the very port, which the General of Marine there had resisted, expressing he would never permit unless he received positive orders from court to that effect; as the vessel was just arrived and in quarantine when Mullony wrote us he could give no further information, so that in answer we could only instruct him to represent immediately to the said General that in consequence of the treaty subsisting this country was obliged to the protection granted, and the vessel must be set at liberty, in case it had not been done before the receipt of our letter, and if he refused to comply with this demand, to transmit you a copy of the petition with a statement of all that has passed, in order that with a full cognizance of this affair you might dispose the application you held convenient, either to the Minister of State or Marine, to obtain an order for the release of the Washington. She belongs to our friends Messrs Higginson and Parsons of Boston, and having a perishable cargo of fish on board we entreat you to make use of the most speedy and warmest efforts to bring it to an immediate conclusion, and whatever may be the issue we hope you will have the goodness to acquaint us thereof, to write our friends accordingly.

We are sir, &c.

Salem

I have received your letter of the 7th Inst. In consequence of information from Boston that after Capt. Sever resigned the Command of the Herald, the other Officers declined continuing in their Stations, and that new appointments must take place, I immediately made arrangements for that purpose, as the good of the Service required a prompt decision. — It appears from your letter that on this occasion injustice has been done to you, which certainly was not intended, and which I regret. — It will not however be necessary for you to resign. Your rank shall be preserved, and you will hold yourself in readiness for Service on, board some other Ship, respecting which I will advise you hereafter —

To Regis Leblanc, Envoy of General Desfourneaux and Special Agent of Executive Directory at Guadeloupe, from Secretary of State

DEPARTMENT OF STATE

Philad. Feb. 20th 1799

M. Regis Leblanc.

Sir, I have received your letter of this date in which you are pleased to style yourself the Envoy of General Desfourneaux, special agent of the Executive Directory at Guadeloupe.

The Bearer of Letters from the Governor of a little Colony, you have assumed the title of a Minister of a Sovereign State, and claimed an audience of the President of the United States. A moment's reflection will convince you of the impropriety of such pretensions — an impropriety which is aggravated by your manner of enforcing such groundless claims.

M. Bunel who delivered me a letter from General Touissaint to the President of the United States, requesting that a commercial intercourse between them and St. Domingo might be opened, desired the favour of seeing the President, and he saw him. If another French gentleman, the bearer of a letter from General Desfourneaux to the President desiring an exchange of prisoners also wishes to see the President, — — I do not know that he will be refused. If he should be refused, it must be ascribed to General Desfourneaux's own conduct, in charging him with bundles of printed letters to be distributed in the United States for the like insidious purpose for which thousands have been sent from France — — —

To Secretary Benjamin Stoddert from Captain Alexander Murray, U. S. Navy

ON BOARD THE Montezuma, AT SEA,
lat. 22, 30, long. 68, February 20, 1799.

DEAR SIR, I have so frequently trespassed upon you, with my long details, I am loath to trouble you any further at present, but as I deemed it necessary to proceed a little way with the convoy under the Merrimack, from St. Christopher's, where I arrived in 24 hours from Prince Rupert's Bay, and as Captain Truxton expressed his desire that I should give the schooner Caroline a good run off, from the Islands, I have taken in tow, she being charged with his dispatches, which are of great moment, and I make no doubt will give you great joy.

I have likewise turned over to the Insurgente, 14 of my men, which I think will promote the naval service, should he succeed in manning so fine a ship.

I parted with Commodore Barry off the Road of Basseterre, Guadaloupe, where he sent his boat with a flag to endeavor to negotiate an exchange of prisoners he took up from the privateer he had sunk off Martinico, which he will inform you of, but the fort fired on them and would not let them land. I only saw the circumstance, as I had no opportunity of speaking to him afterwards, not deeming it prudent to leave my fleet.

It seems to be Captain Truxton's particular desire, that I should return to him, after I have dismissed my present charge, and shall comply with his wish, if he thinks my services can be better applied, in any objects he may have in view, than those I have planned — I have no object, as I entered into the service with a pure zeal of doing the best in my power to serve my country.

I cannot conclude without expressing my astonishment at the flourishing situation of the trade of America. When I see our numerous fleets constantly passing these islands, it looks as if our vessels sprung out of the forests, ready equipped, and to use a simile, like Cadmus's soldiers, the men seem to spring up out of the ocean instead of the earth.

There are now upwards of 40 sail under this convoy, which is the sixth since I have been on this station; a good proof, that America is quite adequate to the support of a navy, equal to most of the powers in Europe.

Sir,
Your most obedient
Humble servant,

A. Murray

Dear Sir, I had the Honor to enclose you in my last Dispatch, by the Caroline, the Copy of a Letter I had written on the 14th Instant, to General Desforneaux, Commander in Chief of the Island of Gaudaloupe, and its Dependencies, his Answer you will find herein, and my Reply to him in Consequence thereof Dated the 19th. I also take the Opportunity of furnishing you with a Copy of a Letter from Monsieur Barreau, the late Captain of La'Insurgente, in Reply to my Offer to exchange prisoners, should Monsieur Desforneaux be disposed. This Letter is an Acknowledgement from that [1 line obliterated] very different to what our worthy Tars have experienced from Victor Hughes, other Governors in the French West Indies, and the Captains of their Cruizers; tho' General Desforneaux has written to me in a Style, that would lead many to suppose, my Conduct had been Cruel, but I shall not alter it, (on Account of his Insolence) to those, who the Fortune of War have made Prisoners to me. —

Whenever I receive a Reply from the Government of Gaudaloupe to my last Letter of the 19th above mentioned I shall communicate the same to you, with whatever may be the Issue of my Correspondence on the Subject of an Exchange of Prisoners.

I have the Constellation completely refitted, and ready for Sea again, and hope in a Short Time to sail on a Cruize taking with me the Insurgente, that Ship being also far forward in her Repairs.

Be assured, that I am, Dear Sir, with high Respect & Esteem Your very Obedt humble Servant.

Honbl Benjamin Stoddert
Secretary of the Navy.

P. S. I should not have given myself the Trouble to have explained any Part of my Instructions to the Particular Agent of the French Directory at Gaudaloupe, but I understand there are now thirteen Vessels in the Ports of that Island belonging to the Citizens of the U. S. & by letting him know, that we are not instructed to molest unarmed french Vessels &c: it is possible he may suffer the Masters now with him, to depart with the Effects they have in Charge, for there is no calculating on the Policy, and Finess of this insidious Man.

To Captain Thomas Truxtun, U. S. Navy, from General Desfouerneaux, Commander in Chief, Guadeloupe

Translation (made by an Interpreter of Languages, at Saint Christophers) of General Desfouerneau's Letter to me, in Answer to my first Letter to him Dated 14th of February 1799. Thomas Truxtun —

DEPARTMENT OF GAUDALOUPE.

LIBERTY, LAW, EQUALITY.

PORT OF LIBERTY THE 29th PLUVIOSE, SEVENTH YEAR OF THE FRENCH REPUBLIC.

Constitution Article 156, the particular Agents will exercise the same Functions as the Directory, and shall be subordinate to them.

Etienne Desfouerneaux, General of the Division of the Armies of the french Republic, and particular Agent of the Executive Directory for the Windward Islands. —

To Monsieur TRUXTUN, commanding the American Frigate Constellation at Saint Christophers.

SIR, After the Loyalty, with which the Americans have been treated in this Colony, since the Time in which I began to govern it, I have not seen without Astonishment, and Indignation, an American Vessel take a french Frigate.

You demand Prisoners of me, and offer me in Exchange Frenchmen, are you unacquainted, that the Title of Prisoners cannot be applied to Allies and that since my Arrival, the Citizens of your Nation, have been at Liberty to go, when they were willing; that to assist them in the Means of returning to their Country, I have furnished them with two armed Government Vessels, at the Expence of the french Republic.

These two Vessels sailed together in concert with the Schooner of the United States, Retaliation armed with 22 Guns, and commanded by Lieutenant William Bainbridge, who fell in with a Division, which chased, and which perceiving herself inferior in Force, run away; she has been delivered up from the Moment she was known to be an American.

The Officers have been treated with Distinction, and the Crew have received generous Attention, and Assistance.

In Contra-distinction to this Generosity, you fell in with a french Frigate, which was absolutely ordered to respect your Flag, you ought to have taken Notice of it, at the Time that Captain Barreau informed you, that France, and the U. S. were not at War, but you answered him with a Broadside.

You were the Aggressor, and Citizen Barreau in his Defence, acted according to the strict Order he received from me, to cause the Flag of the french Republic to be respected.

It is in Vain you refer to your Instructions as an Excuse, they cannot give you the Right of Assassinating Allies; they do not authorize you to take the Frigates of the french Republic; and how is it,
that you interpret them one Way, and Mr. Barry in another? the latter fell in with an English Prize, made by the Frigate, L'Insurgente, and let proceed on her Voyage after having examined her.

I request you in the Name of the Republic to deliver up immediately the Frigate, L'Insurgente, as the Property of a Nation in Amity with Yours, taking notwithstanding, the necessary Precautions, that she arrives without running any Risk on the Side of the Enemy.

If you refuse me this Satisfaction, I make you responsible for the Measures, that I shall take in Respect to the Citizens of your Nation, and their Property, which is here very considerable.

If you do not act according to this Demand, I will confiscate all American Property, which is in this Colony, and consider the Americans, as Prisoners.

My Letter will be delivered to you by an Officer, which I send for that Purpose.

DESFORNEAUX.

76 Copy of My Reply to the foregoing Letter of Gen1 Desfournexes to Viz1

U. S. S. Constellation, Bassateer Roads, St Christopher's, 19th February 1799. —

Sir, By Monsieur Beauvarlet, one of the Administrators of the Colony of Guadeloupe, I received your Letter of the 29th Pluviose, answering to the 17th Instant.

It is totally unnecessary for me to reply to your very extraordinary Demand, and all the Observations contained in your Letter, it being sufficient for me to say, that as my Instructions have hitherto governed my Conduct, so they shall continue to do, as Long as I am acting on the Theatre of public Life.

Whenever I have it in my Power, I shall most unquestionably take every armed Vessel commissioned by the French Republic, or the Agents of the French Republic that I meet at Sea, untill ordered to the Contrary by the President of the United States. But as my Instructions do not at present warrant my seizing unarmed French Vessels, or Neutrals having French Property on Board, such Ships will consequently pass unmolested by me.

I, like my Government, and Countrymen in general, wish Peace with France, and all the World on fair, and honorable Terms, but on any Other we disdain it, Yes Sir, we spurn at the Idea.
I shall be happy to make an Exchange of Prisoners, as offered before in my Letter of the 14th Instant, and to lessen the Calamities incident to Captivity, and have made the Overture; It is therefore for you now to say, what shall be done, as my Ultimatum is given, and it will be inconvenient for me to remain idle in these Roads, more than a few Days for your final Answer. I have the Honor to be, Sir, with great Respect.

Your very Obedient & humble Servant,

You will go to Bassateer, or Point Petre, as Monsr. Beauvarlet may advise for to expedite the Business of your Mission. You have no Questions to ask, or answer to make, as General Desoroneaux will reply to me by Letter.

UNITED STATES SHIP Constellation
BASSATEER ROADS, S't CHRISTOPHERS

21st Feb 1799.

Sir, I wrote you by the Diligence the 16th instant, and dispatched her Master, in one hour after I received your letter, desiring I would send you one of the Brigs destined for my command on this Station.

The Richmond and Norfolk having just arrived from convoying a Number of American Vessels, I as speedily dispatch the former, as I did the Diligence, and have ordered Captain Barron, to look for you agreeable to your desire to Windward of Marigant, where I hope he will soon find you.

I now enclose you Copy of my Instructions, [*] and that part of Your Instructions, which have been incorporated into Mine, as was intended by the Sec'y of the Navy, to become a part of my orders. By these Instructions, You will see, the independent powers vested in me on this Station, and which Mr Stoddert repeated to me over and over again, was to be strictly adhered to, and not to be deviated from, except in case of such a force coming out from France, as to make the Uniting My forces with yours indispensably necessary: but You have Rank above me, and be the Consequence what it may, from my being weakened on this Station, I have obeyed Your Commands, for I am determined to be governed by discretion and prudence in all my publick acts, and endeavour to meet the real intentions and wishes of the Government, in every particular, and when I do this, I shall put my enemies at defiance, and receive the reward due from My friends.

I have taken great pains to Communicate with you, since I have been on the Station, and to Nourish and Cherish a good understanding with You, Not only as an Officer, but as a private Gentleman, for no difference has ever existed between Us, in an acquaintance of upwards of twenty years.

I have not only wrote you several letters, which has been sent up by Admiral Harveys tender, but lest they should miscarry, I have desired our Mutual friend, John Gay, to forward to you extracts from my letters to him, and this has been done I repeat from the best intention, in order that you should be apprised, of the line of Conduct, I intend to pursue, and in order that I should know exactly from your answer Whether your measures were similar.

I have been pestered about convoys and I have acted an Open part, which I do on all occasions, and have at all times, when it has been asked what you would do to Windward assured the Merchants, that as I was well acquainted, with Your kind & obliging disposition, I had no doubt, on an application being made to you for convoys, that you would Grant them, but since I came out here, I have only received a Single letter from you, and that meerly demanding one of my vessels from this Station. — Captain Murray of the Montazuma, has Agreed to remain under my command here, untill you return me the Richmond, or another vessel of at le[a]st her force, and then he will go off Curraoas, where there are several pirates. Murray I must say very politely agreed to my request, for tho' I was his superior officer, I would not have desired him to have remained with me, against his consent, except in some case, where his uniting his force
to mine, was indispensably necessary, because he was not put in Squadron with me, but on the contrary, received independent Instructions, from the first Source, the Sec'y of the Navy.

The Good of the Service, the protection of Commerce in addition to our former good understanding, induces me to write you freely: and I expect you will do the same, Whenever you do write; I always was particular in my business, and shall always endeavour to be regular, consequently I forward copies of all my letters on publick business to the Sec'y of the Navy, and of all those I receive. —

The Number of vessels at Surinam, makes a convoy from that Coast necessary, I should have supposed the Merrimack and Diligence would have answered; the Diligence to have run in and given notice and the Merrimack, to have remained on the Coast particularly as I wanted to have sent the Richmond in Search of some little pirates I have information of. —

I have a correspondence with General Desfourneaux, on the subject of my capture of the Insurgente, which Frigate, he has demanded, and sent down one of the Administrators — which I have sent back with the letter as on the other side: [†] and I am determined not to yield an inch to him; When I have settled the business of Exchange of prisoners, which is not yet agreed on, I will take the first Opportunity of informing You: in the mean time, I have fixt with the Adminis-

trator Mon's Beauvorlet, to the following effect — that whenever I shall want to communicate with General Desfourneaux on the subject of Exchange of Prisoners, or to let him know (should I hear) of the arrival of his flags at Phil' &c.

I will stand in to Bassateer road Gaudaloupe with my Ensign at the Mizzen Peek, a Broad blue Pendant at the Main top Gallant Mast head, and a French Jack, at the fore top Gallant Mast head, and send my boat as a flag of truce on shore, if they do not send a flag off: and it is promised that due respect shall be paid, and no attempt made to fire on me: and I have told Mon's Beauvorlet, that I would make this communication to you, and he has agreed, that if you have occasion to communicate with the Government, and stretch in towards the roads, in a Similar manner, with Similar Colours, hoisted, in the Same way, every respect shall be paid to you & your flag, if they should not send off one. — I have determined however, not to stretch too near the road, lest they should break their faith. —

I have in great haste put you in possession of every information or matter of any moment that respects our affairs here. You will observe by my letter to General Desferneaux, that I mention, we are not at liberty to seize unarmed vessels, or molest neutrals, but you will I am sure think with me, that we have a right to put our own construction on what constitute armed vessels. I have however made the above statement to General Desferneaux, in hopes he will not seize the American vessels now in Gaudaloupe. In very great haste, for I have not suffered the Richmond to anchor, Remain with due respect

Your obt st

THOMAS TRUXTUN

P. S. I shall send off another Set of dispatches to the Sec'y of the Navy in two or three days. I have mentioned already Your sinking the Privateer. —

Extract of a letter from an officer of the U. S. S. Ganges, dated Norfolk, February 21, 1799

“An officer of the Surprise, an English frigate of 44 guns, boarded us off Cape Nichola Mole, and demanded all the Englishmen on board, also to examine the protections of the American seamen. Captain Tingey’s answer was manly and noble.— ‘A PUBLIC SHIP CARRIES NO PROTECTION BUT HER FLAG, I DO NOT EXPECT TO SUCCEED IN A CONTEST WITH YOU; BUT I WILL DIE AT MY QUarters BEFORE A MAN SHALL BE TAKEN FROM THE SHIP’— The crew gave him three cheers, ran to quarters, and called for Yankee Doodle. The Surprise upon hearing our determination, chose rather to leave us than to fight for dead men!”

Hon'ble Timothy Pickering Esq

Secretary of State —

My Dear Sir The enclosed of the 15 ins I intended to have sent by the Sweed Frigate which M't Skjoldebrand arived here in, but I could not get it on board — I now send it under cover to M't Smith at Lisbon by the way of Spain with M't Ingrahams acc' cur from Feb't 97 to Aug't 1798 as also a copy of his letter to M't O'Brien dated Oct' 26th 1798 by which you will be able to determine whether my suspicion of his integrety is well or ill grounded —

Enclosed is a copy of a Statement relative to Tripoli I have made objections to it and proposed amendments which are not yet adopted but I believe will they are to the advantage of the U S — I have not time to send you a copy of my observations on the subject as the[y] are long & the courier sails at 12 oClock for Spain it was 10 before I heard that she was to sail to day —
In mine of the 15th inst I inform'd you that the arrival of the arm'd vessels here had fully establish'd our credit, it is a fact — but for that reason we must not conclude that the Jews likes to lay long out of their money, they will credit the United States on emergency's but they expect to be reimburs'd as soon as the nature of the business will permit — I wish we could do without them —

The Cruisers were deliver'd up to this Regency on the 18th inst I believe on the following terms said sum to be placed to the credit of the United States in lieu of maritime & military stores Mr OBrien will inform you of the particulars —

I am much afraid the ship Hero is lost as we have not heard a syllable about her yet —

[SDA. Tripoli. Vol. 1, 1796-1799.]

To Secretary of State, from William Eaton, U. S. Consul, Tunis, & Richard OBrien, U. S. Consul, Algiers

Algiers 22d Feb. 1799 —

Sir, On the tenth instant I had the honor to communicate information of the arrival, in this port, of the Brigantine Hassan Bashaw — the Schooners Skjoldebrand and Lala Eisha, and the United States brig Sophia; also Cap. Maley's report of his having parted with the Ship Heroe on the American coast. Of this Ship we have yet no account — She must be either captured, gotten into some port in distress, or lost at Sea —

On the 18th the Officers, appointed by the Dey for the purpose, took formal possession of the vessels; and this morning Consul Gen. OBrien informed me that he had just now concluded a Settlement of all accounts between the Dey and the United States, which he desired me to sketch in the following cypher [Translation of coded message]

The whole of our stipulation for naval and military stores I have entirely done away and paid our stipulated annual tribute with this regency up to two years and one half from the date of the treaty

He has been assiduously employed in the business since the arrival of the vessel: particulars will be reserved for a more certain conveyance —
I can state nothing with certainty on the affairs of Tunis — Mr Famin has formed flattering expectations of the consulate, and has artfully secured the friendship of the Bashaw and principal officers of the government by having procured, at the expense of 19 or 20 thousand dollars, and distributed among them the customary presents. The Bashaw has declared that he will receive no other consul from the United States — and did, in fact, discriminate him from the general mancipation which involved his countrymen on the declaration of War — Whether this respect was paid to the Citizen Famin, or to the American Agent is problematical — But the same argument, which established him, will undoubtedly induce his friends to transfer their attachment — The Sapatapa must be gained by this inducement —

The Sophia, being reinforced with the crew of the Skjoldebrand, will proceed to Tunis in a few days with Mr Cathcart and myself — It has been thought most proper to wait here until after an adjustment of our affairs with this Regency, in order to avail ourselves of the friendly interposition of the Dey and his ministers — or, in the language of Cap't OBrien "To get out an anchor to windward."

The crews of the Hassan Bashaw and the Lala Eisha will return to America in a polacre, purchased by the Agent of the United States, in this place.

Mr Ingraham has exhibited an account current against the United States commencing Feb. 1, 1797 up to Aug. 1, 1798, exclusive of Salary, amounting to the enormous sum of twelve thousand one hundred & fifteen 53/100 dollars — and he has conducted the business in such a manner that it will be difficult, if not impossible, for the United States to evade payment.

The french are said to have taken possession of Naples — Buonaparte has established himself in Grand Cairo, planted his generals in the government of the principal provinces of Egypt, and reinforced his army with Arabs and Christians. Is it not possible that he will turn his eye towards the treasures of Algiers*, and the empire of Morocco — project the conquest of the Barbary States — imagine himself fixed in a strong position on Ape's hill, near Ceuta, and disputing the streights of the Mediterranean with Gibraltar —? May not the declaration of war, by these states, countenance the measure and facilitate the event? If the Moors & Arabs could dispense with their religious stupidity, or could place full faith in the accommodating religion of the french Renegade, they would attach themselves to his banners — They sigh for liberty with an ardor which they do not affect to disguise — They say they consider themselves only as free slaves — The Arabs of the mountains do not hesitate to murder the Turks whenever they can find opportunity and retreat — The Dey is considered, by all classes of his subjects, but the successor in form to Hassan Bashaw, the late Dey —

The principal ministers of State have not a perfect understanding among themselves — The Jews, who hold the purse strings of this Country, are clandestinely, though manifestly, in the interest of the french — All these circumstances invite and could probably encourage the enterprise, if the obstacles, which nature has opposed by land, and the British navy by sea, could be surmounted — All the resources of the country can present nothing formidable to a Buona-
It is Christian policy and not Mehametan strength which has so long supported the existence of these piratical States.

I have the honor to remain,

with great respect, Sir, your

Most Obe's Servant,

WILLIAM EATON

NORFOLK February 22nd 1799

Sir: On the 20th Instant we arrived from our cruise I haste to give you a state of the men under my Command.

On our cruise the Capt finding the Ship was to light went to St Thomas's; on the second day of our arrival Capt Tingey proposed to me that two or three of the Marines, could go ashore to the watering place, and wash the rest of the mens dirty cloths, I immediately ordered the Corporal to get three of the men most fit for the business, and go along with them, the first day they did not finish, on the following day I sent the Serg¹ as I thought the Corpl did not make them do their duty, the Serg¹ got drunk and as I am told quarrel'd with the men [word illegible] Brown and Weldon they might go about [words illegible] the men immediately went off every exertion was made to find them but to no purpose the Governor promised Capt Tingey he would have them secured after the Ship sailed as we heard that they were lurking about the suburbs of the Town till the Ship went to sea. With your permission I will recruit two men in their place at Norfolk. Some of them has not got their full allowance of clothing for the year, I wish Sir you would adopt some method by which they may get them, likewise for the men which may be recruited here if you give permission I will likewise try to list a Drummer & Fifer as they are very much wanted, One of the men (McMullen) is very unfit for service he being old and very unfirm and think it would be better to discharge him and get another man in his place. The men has not got any money since they come on board, some are owed fifty dollars, they were not paid a Dollar since I paid them at Marcus Hook M¹ Lewis says he has got no orders to pay the Marines, Capt Tingey says he will have them paid if the Secretary of the Navy orders him. I think the Serg¹ is very unfit for the place he holds and expect the Cap¹ will have him tried I would wish to have your opinion on the subject.

</tbody>
</table>
But it is hoped that our Consul General will be able, if those armed vessels arrive safely, to cancel the demands for the large masts and other cumbersome and very expensive articles and reduce the claims of Algiers more than the amount of the cost of the vessels.

I should observe that the number of large masts remaining to be furnished is set at 39 only. This is certainly an error in the Purveyors statement; for I have heard of but three or four yet sent; but others of a smaller size have been forwarded, and these have been deducted from the original stipulation as if of the stipulated size.

I should further observe, that money only has yet been paid to Tunis: the furnishing of the stipulated stores (which will cost upwards of a hundred thousand dollars) has been suspended, until an essential alteration in one article of the treaty shall be effected, and on which our consuls are instructed to negotiate with that power. If they succeed, they are to endeavour to substitute something less burdensome than masts and timber & other maritime stores.

In the original estimate presented during the present session, my object in proposing an appropriation of 100,000 dollars — was not to provide for all that must eventually be furnished: but to discharge some balances of debts incurred, and to enable the Purveyor to forward some additional supplies. By the foregoing statement it appears that my estimate was too low; and that it will be expedient to make it up to about 140,000 dollars or 150,000 dollars, the latter in preference, seeing that in the course of the present year the value of 10,000 dollars, may probably be necessary for Tripoli. Expecting too, a favourable conclusion of the further negotiation with Tunis, it would seem expedient to provide at least for a partial fulfilment of the original stipulations, — say to the amount of 50,000 dollars, which would build one or two armed vessels (according to their size) and cancel the demand of upwards of 100,000 dollars. But if instead of armed vessels the new stipulation should be for money, this can hardly be expected to fall below the original stipulation for masts, timber, and maritime and military stores. And considering that nine months will elapse before the next meeting of Congress, it would be safest to provide for such a conclusion of the negotiation — say 100,000 dollars. —

A statement of former appropriations and payments and estimate of the sum wanting to discharge claims relative to the St. Croix boundary accompanies the documents relative to the Barbary affairs herewith presented.

I am very respectfully
Sir Your obedient Servant

Timothy Pickering

[SDA. Dom. L., Vol. 11.]

To Secretary of the Navy from Captain Thomas Tingey, U. S. Navy

NORFOLK 23rd February 1799

Sir Since my last of 20th inst I have visited Norfolk, and advis’d with Mr Pennock relative to the supplies necessary for the Ganges: and have determined with him to replenish all her stores of provisions and water, to about 4 months expenditure, which I expect weather permitting will be accomplish’d e’re the termination of the ensuing week.
As before intimated her wants in every other line are trifling as to value—let it suffice that every necessary shall be effected with all possible expedition.

In my letters from St Thomas I touch'd on a subject of trade, running in my opinion counter to the laws of our country—my attempts to investigate particulars were obviated, by the delicacy of those who could have satisfied me; excusing themselves from becoming (as they thought) obnoxious to the odium of being accounted informers.

Previous to my entering St Thomas’ harbour; I sent an Officer on shore, to the Commandant, requesting liberty of the port—and proposing to salute their Flag on proviso only of a return of Gun for Gun. He wish'd to have made a small difference, but on information that I was decided, it was agreed to: and I saluted their Fort with 15 Guns, which number was duly and promptly returned. On going on shore the Commandant expres'd to me much satisfaction on this point—wishing, as he said, by those marks of attention to cement a lasting friendship between the two Governments.

I have seen with much pleasure (in the public papers) your circular to the commanders in the Navy—relative to any attempt to take men from on board our Ships—which, had I known prior to my last letters, would have precluded the necessity of a few lines therein.

The health of the Crew of the Ganges continues as heretofore perfect, with some trifling exceptions: the most material of which is the pursers Steward who has been displac'd from that Station—and as it appears to me certain, he never will be of the least use in any other on board—I mean to grant him his discharge, which I hope you will approve.

I have the honor to be

T. T. [THOMAS TINGEY]

Honble BENJAMIN STODDERT
Secy of the Navy.

[Philadelphia, Tingey Lib., 1798-1800.]

To Joseph Waters, Agent for Ship building at Salem, Mass., from Secretary of the Navy

Navy Department February 23rd 1799.

Mr. JOSEPH WATERS

Salem

SIR: It being necessary that a person of Character and Judgement should be appointed to Act as the Agent of the Public in superintending the equipment & of the Ship building at Salem by the patriotic subscriptions of your Citizens, and as you have been particularly mentioned to me for that purpose by the Committee, you will be pleased in future to Act in that Capacity, and I shall address you from time to time on the subject of that Vessel, and shall expect to hear from you as to her progress—

I shall send you Lists of Military Stores, Provisions &c which will be wanted; The Water Casks may be preparing and it will tend much to advantageous stowing as well as prove a great convenience on board to have them made generally of a large size.
A supply of Water for 220 Men for six months ought to be calculated on, but our Vessels generally in their construction, do not admit of as much room for Provisions and stores as is necessary, which perhaps may be the case with this Ship — You may therefore calculate on a supply of 4 Months at one Gallon per day for each Man — this will require 26400 Gallons, and Casks of the following sizes ought to be procured if practicable.—

20 of 300 Gallons 6000
60 of 200 " 12000
40 " 150 6000
20 " 100 2000

Total 26000

These should be made of Staves proportionably thick, and bound with Iron Hoops — If Staves sufficiently large cannot be had, you must be governed by circumstances, and have the casks made as large as the Staves will admit of — They should be well soaked and rinsed, and when filled should have a small quantity of lime put in them — It is of importance to attend to this, as inconveniences have arisen from the water turning sour, and smelling in New Casks.—

I have the Honor &C.

P. S. If you will commence this business immediately a remittance shall be made you for the purpose. —

To Acting Lieutenant Samuel B. Brooks, U. S. Navy, from Captain Thomas Truxtun, U. S. Navy

Sir, From the first Day of March next ensuing, you are to consider yourself as a Lieutenant in the Navy of the United States, and act on Board this Ship as such, for which you are to consider this as your Order, until a Commission is procured for you.

You must prepare yourself with the Naval Dress as a Lieutenant; Join the Gun Room Mess, conduct yourself in all Respects as becoming a Gentleman, and Officer, and at the Hazard of your Life, aid your Superiors at all Times in executing the Orders of the Ship, and supporting the Honor & Dignity of the Flag of the United States. [About 24 February 1799]

To Lieutenant William Bainbridge, U. S. Navy, from Regis Le Blanc, Envoy of General Desfourneaux, etc., concerning his treatment while prisoner at Guadeloupe

FROM THE AURORA.

Sir, I request you, to insert in your next Gazette a copy of a letter which I handed to you two days ago, containing considerations on certain letters, the wrong impression of which ought not to be suffered to remain.

R. L.
To William Bainbridge, Commander of the Schooner Retaliation.

Sir, I have read in Mr. Brown's paper of the 15th inst. an extract of a letter said to be written by you, when in Guadaloupe, to a friend of yours at St. Bartholomew's. The apprehensions manifested in it that you expected to receive from general Desfouneaux in answer to the letter you had written to him, an order for being put in close confinement.— The terms in which this article is expressed do not coincide with the terms of that very letter which you directed to him, and very little I dare say, with the treatment you have particularly received from him.

You will permit me to make use of the same mode to remove, if possible, the impression which your extract has probably made on the minds of many of your fellow-citizens, already and unhappily too much prejudiced against the French nation. You will not deem it improper that I should here compare the letter written by you, to your friend, at St. Bartholomew's, with the letter written by you to general Desfouneaux, to communicate to him some reflections, relating to a request made him to take again the command of the schooner Retaliation, to return her to the government of the United States, as a simple and friendly restitution.

"After what you told me yesterday, general, (this is your letter) "it appears, that your intention is to reestablish me in the command of "the schooner Retaliation. I take the liberty to lay before you some "reflections I have made on that subject, which proceed from my "duty as an officer, and from my gratitude for your politeness. "Being established in my command, (added you) I cannot avoid "obeying the orders and instructions which I received from my "government. These instructions prescribe to me to seize all French "vessels. In not doing it I expose myself to be dismissed the service "of the United States, or to receive any other punishment which "may be inflicted by a court martial. "On the other hand (such are still, or very near your own expres- "sions) can I permit myself after the treatment I receive from you, "in going out of your harbour, and especially after having given you "my parole of honor not to do it, can I permit myself to seize your "vessel; on the contrary honor and humanity will not permit."

You concluded by telling him the way of conciliating every thing, that is to say, what your duty required from you and gratitude for his politeness, which was to send back the Retaliation as a Cartel.

This is very near, I dare to affirm it, the contents of your letter, which I am ready to acknowledge, does honor to you in acting according to the dictates of your duty. Your frankness produced on general Desfouneaux, a very different effect from what you apprehended, an effect which it ought to produce on a man, who in knowing his own duty as an officer, could not but perceive what was the duty of another officer. You were perfectly free when you wrote that letter, I will do you the justice to think and say, that nothing forced it from you; it ought, therefore, to be considered as the free expression of what you felt then, as the expression of truth.
It has been publicly reported that you had been in close confinement during forty or fifty days, that you had been treated in common with the sailors. Is there one word of truth in these reports? I appeal to your own testimony, did you stay more than ten or twelve days on board the frigate la Volontaire? Were you not treated as an officer by captain St. Laurent and his officers? Did you not obtain from general Desfourneaux after the application made to him by captain St. Laurent and myself, the perfect liberty of going on shore and there to take lodgings? did not general Desfourneaux invite you several times to dine? did we not dine twice with him together? did he not offer you a seat at his table wherever you thought proper? did he not offer to supply you with what money you might be in want of? did he not in fact lend you some? did he not repeat frequently to you, that he did not consider you as an officer of a nation with whom we are in war, but as a friend and ally? did not his conduct throughout uniformly prove his sincerity, when you acquainted him that lieutenant Geddes had been confounded with white and black sailors, and he did not testify to you his astonishment and his regrets? did he not deliver you at the instant an order, prescribing to the director of the hospital to treat him as officer, and to put him consequently in a private room? has not Mr. Geddes been treated from that instant according to the order? He has frequently repeated to me since that time that he had no cause to complain; he is here, let him be questioned, he is a young man of honor, and I believe incapable of speaking otherwise than the truth, let him speak.

Among the American captains detained in Guadaloupe, had there been a single one put in prison, since the departure of Victor Hugo? Captain Bingham, and Mr. Miler, supercargoes, both of this city, who came passengers with you, have they been in confinement a single day? How many vessels were condemned since the departure of Victor Hugo? Did you not learn from general Desfourneaux, a few days before we left the island, being myself the interpreter for you and him, that knowing of an American vessel being taken, and sent to Point a Petre, by the frigate l’Insurgente, to have her trial, he had given immediate orders to set her free, and only invited the captain to exchange his cargo, which consisted of salted provisions, for sugar and coffee. These, Sir, are not suppositions; these are facts, these are convincing proofs of the change which has taken place in the government of Guadaloupe according to the orders of the French Directory, which shews their friendly disposition.

The American citizens, it is said have been detained several days, after the departure of Victor Hugo; this is true. But political reasons rendered that measure necessary: It was thought very essential to conceal from the British division cruising before our harbour, the departure of the frigate la Volontaire. The general feared with reason, that if some of them were once free, they might steal a boat, and take refuge on board the British vessels, and give them information of what was passing in our port. The flight of three American sailors, who stole out at noonday the boat belonging to the vessel
in which they were employed, and took refuge on board the British sloop of war cruizing there, fully justified the measure employed by general Desfourneaux; it being impossible in an island which has no settlement but on the sea, to send the detained people in to the back country, as is commonly practised on the continent; you have, Sir, a full knowledge of the above mentioned facts.

Again, is it not true, that several days before our departure, 27 of your captains, of whom a list has been sent to your government, went to St. Thomas’s and St. Bartholomew’s, with passports, of which General Desfourneaux granted them, at their first request, I made and presented for six of them at eleven o’clock in the morning, a petition for that purpose, and at four in the afternoon they got them; these are facts — they are this day on the continent, and may attest the truth of them.

Is it not also true, Sir, that when complaints were made by you to Gen. Desfourneaux, interpreted by myself, of the ill treatment your men suffered under the goaler, that he sent for that goaler, and menaced him in your presence, to dismiss him if his future conduct should be the same — what he did then, I ask you could he have done sooner? was all this made known to him before? So much employed as he was, and you can have no doubt of it, in appressing movements of insurrection which were manifested in the different parts of the island. So much employed in endeavoring to prevent dreadful events with which the colony was threatened; sick in bed during ten or twelve days, will they look upon it as a crime, not to have entered upon the direct details of his administration, such as that of goals, or a criminal tribunal; we must begin by extinguishing the fire which burns our house before we think of setting order in it; is it possible to organize a colony in one day? it requires a space of time to prepare that work, it requires another one for to settle at his post every public functionary.

These reflections will diminish, in the impartial and unprejudiced minds, the supposed wrongs with which Gen. Desfourneaux is charged in your late papers.

I am convinced, sir, after the principles of honor I think you possess, that the people who sent to be printed the pieces which have appeared, and especially the extract of a letter of St. Bartholomews, did not receive their instructions from you. I render to you the justice to believe that you would have said to them, when I wrote that letter to Gen. Desfourneaux I apprehended the reception it would meet with, my fears were ill grounded, my letter proved successful, my proposition was accepted.

This is, sir, a very long letter, but the essential details it contains, and on which I could not be silent did not permit me to abridge it. I owe them to the loyalty of Gen. Desfourneaux, I owe them still more to truth, if there is in the contents of it a single fact contrary to it, I solicit you to deny it in the face of the public.

I am, Sir,
Your most obedient,

REGIS LEBLANC.

An Act for the augmentation of the Navy

SECTION 1. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That under the orders of the President of the United States, and in addition to the naval armament already authorized by law, there shall be built within the United States, six ships of war, of a size to carry, and which shall be armed with not less than seventy-four guns each; and there shall be built or purchased within the United States, six sloops of war, of a size to carry, and which shall be armed with eighteen guns each, or not exceeding that force; all which ships and vessels shall be procured, manned and employed as soon as may be, for the service of the United States: And in part of the necessary expendi-
tures to be incurred herein, a sum not exceeding one million of dollars, shall be, and is hereby appropriated, and shall be paid out of any monies which shall be in the treasury of the United States, not otherwise appropriated.

SEC. 2. And be it further enacted, That the President of the United States shall be, and he is hereby authorized to augment, at his discretion, the force of any ship or vessel, now in the service, or building for the service of the United States, by allowing an additional number of guns and men therein, beyond the established rate, and according to the respective size and capacity of such ship or vessel: And a sum
not exceeding thirty-five thousand dollars, shall be, and is hereby appropriated to defray the expense of such augmentation, and shall be paid out of any monies which shall be in the treasury of the United States, not otherwise appropriated.

Sec. 3. *And be it further enacted*, That the President of the United States shall be, and is hereby authorized to place on the naval establishment, and employ accordingly, all or any of the vessels which, as revenue cutters, have been increased in force, and employed in the defence of the sea-coast, pursuant to the act, intituled "An act providing a naval armament"; and thereupon, the officers and crews of such vessels, may be allowed, at the discretion of the President of the United States, the pay, subsistence, advantages and compensations, proportionably to the rates of such vessels, and shall be governed by the rules and discipline, which are, or which shall be established for the navy of the United States.

BRISTOL Feb 25th 1799

DEAR SIR. Since my last of the 1st Ult, I have been honored with yours of the 23d Inst. covering two Letters for Philadelphia, which I
have delivered to Captn Martin of the American Snow Ranger bound to Baltimore. She is a very complete Vessel, Copper-bottomed, mounts 14 Carriage Guns and Sails remarkably fast — this Vessel & the Planter (of which I before advised you) intend sailing in CompT and to run it — they are both now in King-Road but should you wish to write farther by them I think your Letter in [illegible] of Post would be in good time. — I am sorry you were not before advised of the Ranger — my being absent from Home for the last fortnight †was the cause. I therefore hope your goodness will excuse it, especially as you may depend I shall take care to guard against the like in future. — The Vessels noted below are the Only Americans now here besides those I have already mentioned, but these will all Sail together under the first Convoy for the U States. I remain with great respect & regard

Dear Sir, 
Yours very Sincerely

Protest of Captain John Johnson, Master of the Schooner Betsey, captured by the French Privateer La Republique

[Translation]

Before the undersigned Notaries public in the Island Guadaloupe residing at Basseterre, appeared John Johnson master of the American Schooner Betsey of New York who being assisted by the Citizen Bernier sworn interpreter in the English Language (called for that purpose) and through whose means after having made oath before said Notaries Declared that having been detained in the Prison of this City of Basseterre from the moment of his arrival here until the fourteenth of this month, Corresponding with the 4th of March 1799 Ancient style, he hath not been able till this day to make his protest against whomsoever it may belong or in any wise concern for the Causes hereafter explained as follows —

That the appearer made sail in said Schooner Betsey under his command from said port of New York bound for the port of Laguira on the Spanish main with an assorted Cargo — That on the fourth of February last he left Sandy hook, the wind being from the westward — the Seventh of said month he had a heavy gale of wind which obliged him to keep under reefed sails but seeing that the sea had become very high and breaking on Deck, and had stove in the stem of his boat he had layed to under reefed mainsail, the sea continually striking on deck, and by such quantities as to carry away part of the railing of the Larboard side pumping every hour, the winds from the westward — That on the eight of said month of February the wind moderated and he made sail and continued his voyage, nothing extraordinary having occurred until the 24th of said month, when being in Longitude 59 Degrees 58 minutes & in Latitude 17 Degrees 27 Minutes he discovered a sail which he thought to be a Cruiser.
That the Deponent tacked ship and stood to the northward and Eastward, at four oClock in the afternoon it began to rain, at six oClock he lost sight of said sail, tacked about and stood to the South East. On the next day about seven oClock in the Morning he saw a sail to the Eastward, standing to the westward, at eight oClock he crowded sail on her and steered course to the South west, but having discovered that she was a Cruiser, the Deponent ordered that every one should keep his quarters — at ten she distinguished her colours which were English, that he then hoisted his on the mizen peak and the pendant on the head of the mainmast, at Eleven oClock the vessel being within Cannon shot; fired at the schooner Betsey, to which she answered by firing two shots, that afterwards attacking him, she took down her English Colours and hoisted French colours, and all at once gave the Betsey a broadside, which he answered by his, and after that a General battle followed — But the Deponent perceiving that she was of superior force to his schooner and had above eighty men on board, struck to the privateer the Republican Captain Bandin [or Baudin] of Basseterre Guadaloupe; it being then past twelve, this privateer had in fact 10 Guns six pounders, and ninety five men in Crew, with a Compleat set of small arms which did much Damage to the sails and rigging of the Betsey the Deponent himself having been wounded in the right leg — the twenty sixth of said month of February the Deponent came to anchor in the road of Basseterre, from whence he and his crew were brought on shore, and all confined in the prison kept for Criminals, on the next day they were carried and transferred to that of prisoners of war, the fourth of the above said month of March, the Deponent and his Super Cargo were taken out — that the people of the privateer had taken from the Deponent his watch a quadrant books and other effects together with all the Ships papers & have likewise taken from the Super Cargo a gold watch and other articles — On their arrival here the Deponent, his officers and Crew were brought before the Minicipality — The Deponent observed above all that after he had struck the privateer fired on his vessel upwards of fifty musket shots, For reason of all which circumstances and Dependencies the Deponent declared to us to protest, as in fact by these presents doth firmly protest, for all which he may protest lawfully in such cases, reserving in consequence to provide himself thereof, when he may choose proper and in time and place against whom it may belong, Act of which to him granted by said Notaries at his request to serve as need may require it — Done and passed it the Study [?], the Sixteenth day of the month of Ventose, seventh year of the French Republic one and indivisible, before noon, and the Deponent signed with said Notaries, and the said Citizen Bernier sworn Interpreter, on these presents, the minutes of which remain in possession of Vanchelet, one of them, after perusal of the same by them, first made and this interpretation by said interpreter, to said Deponent who declared to comprehend and understand the whole, thus signed to the minutes, John Johnson Bernier Interpreter with Serane Notary & Vanchelet notary undersigned

Extract of a letter from Captain William Malcolm, late master of the Ship Carolina, dated Paimpole, 10 May 1799, regarding her capture by the French privateer, lugger, Courageux

"Before you receive this you must be acquainted of my capture on the 25th February, five weeks out, the Start Point distant four leagues, I was attacked by the French lugger privateer the Courageux of six guns and fifty men, when after an action of two hours he boarded and carried me with thirty men; having but a slender force to oppose with, which was weakened by two of my men being severely wounded in the early part of the engagement. I defended the property as long as there was a possibility of resisting, and now acquaint you I am detained here as a prisoner of war, and can form no idea when I shall be released; my people have been marched about 200 miles into the country. On writing to the Consul General at Paris he promises to demand my release, and if refused, to solicit my absence on parole."

To Secretary of the Navy, from Captain Thomas Truxtun, U. S. Navy

U. S. Ship Constellation, Bassateer Road
St Christopher's 26 February 1799

DEAR SIR, After referring to the several Papers here enclosed, which principally relate to the Business of the Frigate Inmrgente, and my Correspondence with General Desforneaux, together with the final Arrangement made with Monsieur Beauverlet, the Officer he authorized, and sent to effect an Exchange of Prisoners with me, I hope to find that all I have done will meet the Approbation of the President of the United States.

We are in Want of various Stores, but trust I shall soon hear of a Transport being arrived, and that I shall also find my Force augmented; for be assured, Sir, the immense Commerce from the United States to these Islands, makes frequent Convoys indispensably necessary. During the short Period, I have been in these Seas, near two hundred Sail of Vessels have sailed under the Protection of our Flag from this Island, bound to different Parts of the Continent, and I have now a Petition before me, from a Number of Masters of our Vessels at Antigua for a Convoy which I shall give, as soon as any of the Vessels of my Division (now out on Service) arrive, or I am enabled to leave this Road myself, whichever may first happen.

Admiral Harvey's good Disposition and that of the Commanders of all the British Ships of War on this Station towards our Men of War, and armed Vessels, is fully manifested by their polite, and friendly Conduct on all Occasions, and it has been no less my constant Study to cultivate a lasting, and social Intercourse with them, than it appears to be the Wish of all Descriptions of People here to see harmony and I shall continue to observe an Uniformity of Deportment towards every English Officer, and Subject I meet, as long as their Conduct shall be correct towards us.

I have dispatched the Richmond to Saint Thomas's, and have given Orders to Captain Barron, to procure immediately for the Insurgente all the Men Possible at that Place; at the same Time Lieutenant Rodgers her Commander, will use all the Exertions in his Power to enter American Seamen here. In Hopes soon to hear from you in Reply to this, and my other Dispatches (forwarded by the Caroline) I have the Honor to remain with great Respect, and Esteem,

Your most Obedt humble Servant

Honble Ben Stoddert
Secretary of Navy.

To Captain Richard Derby, U. S. Navy, from C. W. Goldsborough, for Secretary of the Navy

[PHILADELPHIA]

N Department 26th Feb. 1799

Cap' Richard Derby Salem

Sir The President of the United States, by and with the advice and Consent, of the Senate, hav appointed you a Cap' in the Navy: I am instructed by the Secretary of the Navy, to make the communication to you; —
You will be pleased to communicate your acceptance or non acceptance of this Appointment. In the event of your acceptance, you will take the enclosed Oath and forward it to this office. — It is intended that you shall superintend the Construction of the Frigate building at Salem — you will therefore be pleased to give every necessary attention to this object.

I have the honor &c

C. W. G[oldsborough] for B. S[toddert]

To William Nicholls, Marshall of Pennsylvania, from Secretary of the Navy

William Nicholls Esquire

SIR Please to direct ten of the Prisoners at Lancaster, to be sent to this place — They are wanted to put the Retaliation in order for her return — and should be sailors — The Captains of the Privateers will write to an Officer among the Prisoners, to select the men — If they are furnished with Rations for four days, it may be sufficient to bring them to Philadelphia — A guard I presume will not be necessary. —

I am &c

ON BOARD THE BRIG South Carolina

26th Fby 1799

Maj't William W. Burrows

SIR I have neglected writing for some time past on account of my not being able (before now) to give you any information in what manner the detachments were to be stationed, not knowing that L't James was to return to the Northward I concluded (and so did Mr Simons) that he wou'd take Command of the first detachment, but he sais it was not your orders for him to do so, that they extended no further than to deliver the detachment you sent forward to me & for him to recruit in Charleston. I wrote him a Letter on the subject & now inclose you Copy of his answer, & hope I have not done wrong in so doing. I have taken Command of the first Detachment myself on Board of the South Carolina. Capt. Pain, who sails tomorrow on a Cruise to the Southward & do not expect to return under Two Months. I took the liberty of drawing a sett of Bills on you in favour of Mr Simons, the men being so much in want of a few little necessaries as well as myself before we went out that I cou'd not avoid doing it. I now inclose you a receipt Roll, the pay Roll being already forwarded by Mr S: — you will then be able to judge how much we were in want of the detachment you sent forward, it is almost an impossibility for to Recruit men in this Country. Capt'n Huger of the Artillerist
& Engineers is in the same situation with ourselves though he gives a large Bounty.

Lieut. Maine will take the Command of the 2nd Detachment on board of the General Pinckney, which vessel will be obliged to go to the Northward for the purpose of getting men, as it is impossible for her to get them here. Our Frigate will be Launched the 1st of May & shou'd be extremely obliged to you if convenient to let me have a Command on board of her as I am particularly acquainted with Capt. Cross & am convinced he will be able to give me a number of instructions that will be of infinite service to me — I remain

D' Sir

Yours sincerely

JOHN HALL

Capture of the schooner Amity of Columbia, Maine, by French privateer, La Zaboa.

FRENCH GENEROSITY

Arrived at Gloucester on Thursday last, ship Industry, Sweat, 32 days from the bay of Hondras. Passenger, Capt. Nathan Clark, master of the sch. Amity, of Columbia, (Maine,) who relates the following: — That the said sch. was from the bay of Hondoras, bound to Charleston, and that on the 26th of Feb. Cape Antonio, bearing N. E. 6 leagues distant, was captured by the French privateer La Zaboa, of Cape-Francois, but last from the Havannah, and that Capt. C. supposes the vessel was sent to Campeche, a Spanish port; that the Frenchmen robbed the whole crew of every thing except what they had on; that the crew were obliged to leave their vessel, and come on board the privateer; that on the 6th March, the picaroan was captured by the English frigate Maidstone, and ordered for Kingston, and on our arrival there, the American Captains on hearing of our misfortune, politely gave us every assistance we stood in need of. On the 31st March, Capt. C. took passage in the sloop Brilliant, Kellog, of Nantucket, for Savannah, who in two days after leaving port, was again captured by the French privateer sch. Prudent, of 10 guns, who plundered and then sunk the Brilliant, and also burnt the sch. Betsy, Capt. Barney, of Rhode-Island, who was then in co. The privateer had taken the ship Betsy, Drysden, of Wilmington, and after destroying the two vessels, gave up the Betsy, and put all the Americans on board of her which was about 40, without any more provisions than what was then on board. On the 13th of April, the Betsy fell in with the ship Industry, Capt. Swett, of Newburyport, bound here, in co. which vessel Capts. Clark and Kellog got on board and arrived safe at Gloucester. Capt. C. returns his most grateful thanks to his fellow countrymen, for their assistance, while in distress, and assures them, their humanity will ever be dear to him.

Arrived, at Newport, sch. Sally, Parsons, of Boston, 13 days from New-Providence. — Left there, Two Brothers, Eastabrooks, of Boston, sch. Lydia, Lumber, of Truro; and several southern vessels.

Letter regarding capture of the British Ship Cicero by French Privateer Democrat and recapture by the U. S. Frigate United States

[From our Philadelphia Correspondent.]

For the following INTERESTING Letter from a Young Gentlemen of this city, belonging to the Frigate United States, Commodore Barry, we are indebted to the politeness of an obliging Correspondent:

ST. PIERRE, MARTINIQUE—SHIP CICERO,

March 9, 1799.

"I HAVE been here in this ship about 10 days, as prize-master—she belongs to Liverpool, was captured by the French privateer schooner Democrat, and re-captured by the frigate United States and sent in here. Her cargo consists principally of live stock, such as oxen, jack-asses, horses, &c. and is valued at about 30,000 dollars, of which I suppose one eighth will fall to us—She is a fine ship of 430 tons, mounts 20 nine-pounders, and carries 50 men, or rather 35 men and 15 boys. The privateer mounts 12 nine-pounders, and had 100 men. They fought two hours and an half, and after the French had boarded her, fought on the deck three quarters. Out of 50 hands on board, the captain and three men were killed, and 26 wounded. Could I but give you a description of the scene this ship presented when we first took possession of her, it would make your heart shudder. Never were men more inhumanly mangled, and much of it done too after they had given up. A little boy, who was a favourite of the captain, was ordered by the Frenchman to go aloft and haul down the colours—he cried, and said, he could not, which was the fact—The Frenchman immediately up with his cutlass and cut his arm almost off, and otherwise wounded him in several places. The Englishmen, there can be no doubt, fought like men; everything on board proves it. The French had been in possession of her about 36 hours before we re-captured her, during which time not one of the poor fellows who had been wounded, had been dressed, nor a single bucket of water thrown on the deck. They were in a perfect gore of blood, insomuch, that when the ship would roll with the heave of the sea, the blood in the cabin run from side to side in a perfect current.

The capture of this ship ought to be a serious lesson to our merchants, how they fit out the vessels. They put on board 10 or a dozen guns with twice the number of men, at the utmost, and then think she is able to cope with any thing she may possibly meet with. This is a great mistake. It is incredible how these Frenchmen fight, when driven to desparation. Having nothing to lose, and every thing to gain, wherever they see any thing that looks like plunder, nothing will deter them from attempting the most daring enterprize. The Democrat has taken two or three other ships of equal force, and carried them into Gaudaloupe. We found 30 Frenchmen on board this ship, who were put on board the frigate.

To His Excellency, General Desfouineaux, Commander in Chief of the Island of
Guadeloupe, etc., from Captain Thomas Truxtun, U. S. Navy

U. S. SHIP Constellation IN THE ROAD OF BASSATEER,
Saint Christophers 27th Febry 1799 —

SIR, I had the Honor to receive your Letter of the 22d Instant (5th Ventose) and having finally made an Arrangement with Monsieur Beauvarlet for an Exchange of Prisoners, as per his Receipt of this Date, I gave immediate Orders, that all the french Seamen, (except a few, that it is necessary for me to send to America,) should be put on Board your Cartels, which will be respected by all the Ships of War of my Nation. You have demanded formally, that I liberate those Officers, who I permitted on Parole, and are now in your Island; this Demand, Sir, I cannot comply with, but Messrs Petit Peire, and Devers, as well as the Surgeon, and Monsieur Burand, [?] (or Benand?) who was wounded, and cannot proceed by the present Opportunity, I release intirely, and leave them at full Liberty; I shall expect in Return, that you will not be backward (should an Occasion occur) in showing the like Generosity. The Americans now with you, and those that the Fortune of War may hereafter put in your Power, I shall expect here according to the Agreement made with Monsieur Beauvarlet, and on a full Reliance of an Observance of good Faith on your Part.

I leave for the present our two Governments to settle all Matters of Expence respecting Prisoners, in Consequence of Monsieur Beauvarlet’s Assurances, that the Cartels sent to the United States from Guadeloupe were dispatched at the Expence of the french Republic, and that no Reimbursement is immediately demanded, or expected in America.

As long as the Misunderstanding exists between our two Governments &c; it will afford me Satisfaction to find moderate, and humane Measures adopted by both Parties; and on this Account I have waived noticing several Expressions in your Correspondence, that ought not to have dropt from an Officer of your high Station, especially one, who professes a conciliatory Disposition towards the U. S.

No high toned Expressions, or Threats will ever make an American swerve from his Duty; he takes his Post, when his Country calls upon him, and will there execute the sacred Trust reposed in him of defend-
ing the Honor of his Nation's Flag, and preserving her Interest. I am, Sir, with Respect, and great Consideration, Your very Obed't humble Servant

To His Excellency Gen'l Desforneaux

Com'd in Chief of the Island of Gaudaloupe & it's Dependencies &c. &c. &c.

[HS of Pa. NDA Photostat, Truxtun's LB, 1798-99.]

[27 February 1799]

Substance of a Conversation and Negotiation between Monsieur Beauvarlet (one of the Administrators of the Government of Guadeloupe, sent by General Desforneaux) and Captain Thomas Truxtun, U. S. Navy, respecting an Exchange of Prisoners

On Monsieu Beauvarlet's Arrival here from the Seat of the Government at Gaudaloupe, and delivering me General Desforneaux's second Letter, he declared, that there were only about 25 Americans now on that Island, and that they were at Liberty to join me here, or go to Neutral Islands, as they pleased, but on this Offer being made to them, they thought proper to remain with their Vessels, in Preference to leaving Gaudaloupe, and gave as a reason, that they would wait the Decision of the Government, respecting the Acquittal, or Condemnation of their Ships. Monsieu Beauvarlet added, that the particular Agent did not consider the Americana, as Prisoners and consequently could not admit of the Term being used, nor could he force them away. — I told him, that it was strange such a Doctrine should come from them at this Day, when for upwards of two Years past, Hundreds of our unfortunate Seamen had been confined in the Prisons of Gaudaloupe, and Prison Ships of their Ports, and that many of them had been treated in the most barbarous Manner, and further that General Desforneaux in his Letter to the President of the United States had absolutely used the Term, which I showed him in one of their own printed Copies: But notwithstanding all this I considered it immaterial, what he called them; that he was at Liberty to use the Term, Prisoner, Captive, or American as he thought proper, so that the Men were delivered to me here. He replied, that it was impossible under existing Circumstances to do it, but that I ought to release the Insurgente's Crew at all Events, in Consequence of their liberal Conduct towards our Men lately sent to America. I answered, that as I had made up my Mind, and saw no Reason, why I should alter my first Determination, I would write him a few Lines, which should put an End to all Argument, as he then would only have to comply immediately with my Proposal or not as he thought proper. ("For Copy refer to the 5th Page back.") [See letter to Gen. Desforneaux dated 27 Feb. 1799.]

After the Receipt of the foregoing Letter, Monsieur Beauvarlet agreed to my Terms (with this Exception only) that as they had been at the Expence of sending two Cartels with our Seamen to America, and had neither demanded, or expected any Reimbursement from the United States at present, and had also brought down to this Place two Cartels for their People, he insisted upon my bearing the Expence
(but to be settled in Account between the two Governments hereafter) of the Flags I had sent up to Gaudaloupe, and that of the Crew of the Insurgente, while detained here, which, finding no better could be done, I finally agreed to, and he gave me a Receipt (copy of which I annex) for all their Men released including the Officers, and Others now on Parole.

List of the Crew of the Frigate Insurgente, delivered to Monsieur Beauvarlet, amounting to Two Hundred, and ninety-seven Officers and Men, exclusive of the Captain, and fifty-one Officers, and Others sent to Gaudaloupe on Parole, which fifty two Persons are to adhere strictly to the Conditions of this Parole, to Viz:

To the Officer having the care of the French prisoners at Lancaster from Secretary of the Navy

[PHILADELPHIA]

The Officer having the Care of the French Prisoners at Lan — N. Department 27"th Feb. 1799 — — caster

Sir: An order will shortly be given for removing the Prisoners now in your Charge to this place to be sent to Gaudaloupe, but the Vessels in which they are to embark are not yet ready, one of them is now preparing, under the direction of a French Captain who requires the Assistance of ten Seamen to get her equipped.
I consent therefore to your liberating that number, and one of the Officers who is written to by the French Captain above mentioned will select them. —

Major Nichols the Marshal whose duty it is to attend to the business is now absent, and will not return for some time; I must therefore request that you will supply them with four days provision which will be sufficient to last them till they arrive here, and let them set off as soon as possible. —

I am Sir &

P. S. Please to take a list of their names and enclose it to me —

[27 February 1799]

Letter to the Printers of the “Norfolk Herald” from Captain Thomas Tingey, U. S. Navy, concerning the transaction between H.B.M.S. Surprise and the United States’ ship Ganges.

NORFOLK, February 28.

GENTLEMEN, EVER an enemy to misrepresentation, I must beg you to correct the statement, of the transaction between his Britannic Majesty’s ship Surprise of 32 guns, and the United States’ ship Ganges under my command.

It is true, that captain Hamilton of the above ship did send an officer on board, requesting information, whether any Englishmen were in my crew; observing that my assurance would be sufficient to prevent an officer being sent to examine their protections, I did not hesitate to say I considered all my crew Americans by birth or adoption — But I also observed to the officer, that there were no protections on board to my knowledge — the only one we carried in our public ships being our flag. This business terminated here. It is not true that the officer demanded a sight of my commission; but during his stay behaved with much politeness, and was in return, treated with all the civility I was capable of. Nor did I, as I have heard it represented, say any thing about my guns being a protection, if my flag was deemed insufficient.

As soon as the boat put off a second time to come on board the Ganges, being on the quarter deck with my officers, I declared to them my determination to fall there, sooner than suffer an investigation, or permit any man’s name to be called over.

When the boat came along side again, it was with the surgeon; and with a polite message from captain Hamilton, requesting to assist him with some medicine he was in need of. But no apology was made for the message sent by the Lieutenant; nor was the subject thereof even mentioned by the doctor or myself.

Apprehensive that a similar circumstance might occur on a future day I thought it incumbent on me, to let my people know what they had to trust to. At evening, therefore, I caused all hands to be called, and when assembled, did pledge myself to them, that not a man should be taken from me, by any force whatever, while I was able to stand at my quarters — which declaration they received with three cheers, and high spirits.

THOMAS TINGEY.

NORFOLK, Feb. 27, 1799.

Engagement with French Privateer, by the Brig Chatham and the Brig Lucretia

EXTRACT FROM THE LOG BOOK OF THE BRIG CHATHAM, ARRIVED YESTERDAY FROM JAMAICA.

On the 27th Feb. at the S. W. end of Cuba, a brig hove in sight, which proved to be the Lucretia, of Boston, from Kingston, bound to Norfolk; — she hove too for us; immediately after we saw two schooners, whom we supposed to be both privateers, from their manoeuvres. We consulted the captain of the brig, and he agreed to give us all the assistance he possibly could, as he was unarmed; we therefore hoisted out our boat, and got four men from the brig. At half-past 9, A. M. we were all ready for action. We saw the smallest of the two soon after, which appeared to us to be an American built vessel, captured by the enemy. At 10, A. M. the other hoisted French colors, and laid by for us, which as soon as we perceived, we hoisted our American ensign, upon which she gave us a heavy shot, when the action commenced, and lasted until 12 o'clock; we found our six-pound shot did not reach her till we got close in with her; when our shot reached her, she bore away for the shore, within the bar: we then lay too for her, till she came within shot of us, with her bloody flag at her fore-top-mast, and renewed the action, which continued about two glasses, when she bore away from us again. — At half-past 2 P. M. she again put after us with a man hoisted at the fore-yard-arm, and renewed action, with her bow-chases, which were very heavy guns, and we returned the compliment with our stern-chases. We supposed our shot did considerable execution, as there appeared to be great confusion on board the enemy. We were determined to defend ourselves to the last man, and bravely die at our quarters, sooner than be taken by this Hellish crew. We kept up a smart fire with our stern-chases till half-past 4 P. M. when she hauled her wind, and ceased firing, and we stood on our way to New-York, not thinking it prudent to chase her, our ammunition running short.

We had six 6’s, and the enemy four 6’s and 24, and a swivel, and 75 men, which the captain of the brig Polly, of Providence, from Kingston, bound to Providence, informed us next day, whom she had detained five days, and treated the captain extremely ill, beat the men unmercifully, and let her go, after plundering her of almost all her provisions, and every article they could lay their hands upon. The captain, second-mate, a man from the Lucretia, and cabin-boy, were slightly wounded.

To Captain Thomas Tingey, U. S. Navy, from Secretary of the Navy

[PHILADELPHIA]
N Department 1st March 1799

Capt Tho Tingey Norfolk

Sir I am very glad to hear of your arrival at Norfolk — I hope every thing is well on board.

I wrote a line a few days since, to meet you, and to request, that you would get provision & every thing you want from Mr Pennock, for another cruise. I have nothing to add on that subject, except that it will be of importance that you get ready as early as possible. — I cannot at this moment tell precisely the service you will go upon. — but shall write you in three or four Days.

The Congress have added 6 — 74 Gun Ships — & 6 of 18 to the Navy — have raised the pay & emoluments of the Captains — a little & doubled the rations of those on separate Command. I will try to send you the Laws. —

I am Sir esteem &

William Winder, Esq

Sir The Ganges having been manned with great expedition, at a time when our Coast was infested by the French Privateers — the Zeal of the Merchants of Philadelphia prompted them to promise something higher pay to the Seamen, than the Allowance regulated by the President — It seems there would be difficulty at this time, to get a general contribution from the Merchants to pay this difference, & that it must fall upon a few. — under such circumstances, I think it more honorable & more equitable, that the public should
pay this difference, than that it should fall on one or two Individuals—and that the same should be allowed, in the Settlement with Messrs. Willings & Francis—

I have the Honor &c &c

Sir Being this moment inform'd of an express boat, being about to depart for Baltimore. I hasten to inform You, that in compliance with your order of 15th ult we have proceeded to replenish the Ganges's stores. I have put on board what I think will now be a sufficient quantity of ballast for her, for the time it's probable she may run without material repairs—The water and wet provisions is also completed—and other stores would have been more forward, but for a continuance of wet weather.—The spars here being so much superior to our white Pine, I have determin'd to get a new main topmast; in lieu of the new one made at Marcus hook, which never was good, and with which, we have had some trouble at Sea.
This spar will be ready on Monday, and the *Ganges* without doubt complete and fit to proceed as soon as your orders shall arrive. I have the honor &c

Thomas Truxtun, U. S. Navy

Lieutenant Calvert,

Sir, As the Brig Norfolk is now to depart for the United States
without Delay, after leaving the Convoy per Directions given by me
to Captain Williams, I do request and require, that you obey every
Order of the said Williams, with Strictness that may tend to the
Preservation of the Vessel from Enemies, or other Dangers, and that
you hold yourself in Readiness to make a candid Statement of all
such Circumstances as the Secretary of the Navy may require of you
to relate on Oath, or otherwise, respecting recent affairs.

It has given me much Pain to hear of our Flag being so contempt-
uously spoken of, as it certainly has at Saint Christophers’, in Con-
sequence of the Norfolk not having captured that little insignificant
Privateer chased by her last Week; But as I wish to do Justice to all
Mankind, I suspend my Opinion for the present, untill a fair, and
candid Investigation take Place before the Secretary of the Navy
at Philadelphia.

An easy regular Deportment, with great Uniformity of Behaviour,
firmness in relating with Truth and Justice every Matter, and Thing
required from an Officer, will always recommend him to the Notice
of his Superiors, and I have no Sort of Doubt, but you will observe
this Sort of Conduct, and gain the Esteem of your very Obed’ hble

Extract of a letter from Lieutenant Byrne, of the Revenue Cutter General Greene,
dated off the Island of Cuba, March 9, 1799, relative to capture of Schooner
Marsouin

“On the 5th inst. at 1 A. M. we fell in with and captured the
schooner, Porpoise, [Marsouin], pierced for 12 guns, had 1 brass nine
pounder and 26 men, loaded with provisions from the Havanna, and
bound to Cape Francois — She sails very fast. Capt. Decatur took
all the men out of her, and we have manned her between us. The
Governor Jay was not in sight when we captured her. We are convoy-
ing another fleet of 20 sail bound to different ports in the United States, but none to Philadelphia. We send the prisoners home by the fleet. There are two cruisers ready to come out of the Havanna. We hope we may fall in with them.

Extract of a letter written on board the Cutter General Greene, regarding the capture of French privateer, Schooner Marsouin

ON BOARD THE General Greene,
March 6, 1799.

DEAR SIR, "Since I last wrote you by the Lavina, capt. Carson, via Philadelphia, informing you of our safe arrival on our station, we have been at the Havannah to water, and since that, have been conveying Americans to and from that port. We had not the good luck of falling in with an enemy till the 5th inst. when we came across a French privateer [Marsouin] who struck to us after the fourth shot. On boarding her, she proved to be a schooner pierced for 12 guns, and small arms, &c. and manned with 26 men. She had left the Havannah the day before we took her, and the captain had said, that in less than in 24 hours after he was out, he would have three or four Americans as prizes. His Commission having expired, he was bound to the Cape to have it renewed; but having about seventy barrels of beef and pork on board, he pretended when we took her, to consider himself as a merchantmen, and thought we would not make a prize of him; he was soon made sensible of his mistake. They are all safe on board the Commodore, [U. S. S. Delaware] and in irons. She and her cargo will amount to about 4000 dollars. Our Commodore means, when we return to port, to have her manned and armed out of the fleet, and being a fast sailer, she will certainly be an acquisition to our little squadron.

"There are at present in the Havanna, a cutter mounting 16 nines, and a schooner of 14 sixes; likewise another in a port to windward, with the sales of several American prizes on board, to the amount of nearly 40,000 dollars. We are continually on the look out for these gentlemen, and have not the least doubt before the cruise is over, we shall have the whole or part of them, and so clear this coast of these plundering pickaroons so ruinous to our commerce."

Sir, You will proceed immediately with the Convoy as far as the Latitude of 21\textdegree{} North, and then make the best of your Way to Philadelphia, and deliver without Delay my Dispatches (which I now hand you) to the Secretary of the Navy; and inform him; that it is of Importance to the Service, that the Norfolk be manned, and sails to join me again as soon as possible, as I wish to keep the small Vessels employed conveying Merchantmen, while I am looking out for Ships of War about Gaudaloupe, and in other Tracts where they cruize. After you leave the Convoy you are to make all the Dispatch possible, and speak no Vessel out of your Course, as it is of Importance for my Letters to be as nearly as possible with the Secretary of the Navy.

Much has been said of your not taking the little Privateer you chased some Days ago to the Northward of St Christopher\textsuperscript{s} but as you will be with the Secretary of the Navy very soon, you will have an Opportunity of meeting your Officers all Face to Face before him. But I can assure you, those indifferent Persons, who saw the situation of your Vessel, and the Privateer, when she hove too, report unfavourably of you on Shore, however I wish every Man to have a fair Chance, and I leave you to make your Defence at Head Quarters, I am, Sir,

Sir I have received your letter dated the 2\textsuperscript{nd} Feb\textsuperscript{y} I presume however it is a mistake, and that it was written the 2\textsuperscript{nd} Inst. Some
Circumstances respecting the *Norfolk* Captain Williams, has induced me to send her home, that vessel ought to have taken the French Privateer, She chased near to St Eustatius, a few days ago, and why she did not, remains for Captain Williams to explain to our Government, on his arrival at Philadelphia. —

The Necessity I have felt in sending this vessel home, weakens me a little on the Station, but I hope soon to have the *Insurgente* well Maned, and in addition to some other vessels, I expect out, to scour the Coasts of these Islands of all French Privateers. If it is possible for me to call at St Bartholomew's for the four American vessels bound home, I will do it with pleasure, but a great deal will depend on the wind, as I have a number of very slow Sailing vessels in the fleet that I fear will fall to Leeward. —

Should I not call immediately for the vessels now at St Bartholomew's, I will relieve you and our Countrymen at that place, as soon as it is in my power, and I request you will be obliging enough to make this known to them. —

I write you in great haste, but remain with great respect Your obt humb ser

To Secretary of the Navy from Captain Thomas Truxtun, U. S. Navy

UNITED STATES' Ship, Constellation
Bassateer Roads Saint Christophers
7th March 1799. —

DEAR SIR, I have dispatched the Norfolk, with a Packet to you, containing original, and Duplicate Letters, and other Papers, deemed by me proper to be early at Hand. Altho' this Vessel is much wanted, and several Others on the Station, it appears that her Services cannot be calculated on, while under the Command of Captain Williams. You will no Doubt investigate his Conduct, and do Justice by dismissing or acquitting him, according to the Proofs, that may be exhibited for and against the Charges of his Officers.

Should you dismiss Williams, and not have a proper Captain in View, I take the Liberty to mention Lieutenant Barron, now on Board the United States; this Officer is much esteemed by Captain Barry, and the Appointment would be highly gratifying to the old Gentleman. Another advantage would be, that the two Brothers acting together (Samuel Barron of the Richmond) would be a pleasant Thing, as I understand there is a great Cordiality, and Affection between them. An active Lieutenant might bring her out to me, if you think proper. I hope eligible Men will be found for our public Vessels, as we have many improper Persons now employed; some Deficient in one Respect, and some in another, but the only Way is to purge well at first.

As I consider the Insurgente one of the best calculated Frigates, now under our Flag, for the present War, I hope her Detention at Norfolk will not be great, when we return from this Station, as the Times of our People will be nearly out on our Arrival in America, I propose sending her to that Place, on Acc of getting her easily manned, and fitted out while I go for the same Reason, further to the Northward;
and by being thus separated, our respective Business will be the more readily facilitated. I therefore for the Sake of Dispatch, recommend to you the appointing Commissioners to value this Frigate to the United States with every thing belonging to her, as it is not customary to libel national Ships of War when taken; the Commission of the Commander, and other Papers being sufficient, for the Judge of the Admiralty, to enter up her Condemnation immediately, but of this I only take the Liberty of mentioning a foreign Custom.

Monsieur Beauvarlet declared to me, on his leaving these Roads with the french Prisoners, and with Tears in his Eyes, that the Capture of La 'Insurgente, was the greatest Stroke they had met in these Seas, as they calculated on her for furnishing them with Supplies by Capture.

The frigate Insurgente, I understand, was launched about the Time the western Insurrection first broke out, and in Honor to those Scoundrels, it is said she was called La 'Insurgente, and afterwards put under the Command of Commodore Barney. *If this be the Case, it is singular she should be the first taken.*

I have taken out of the Norfolk a Part of her Crew, leaving between fifty and sixty on Board to defend her in Case of Need, and I trust you will approve of what I have done, as the Service will be benifited thereby. *I am, Dr Sir, in great Haste with Sentiments of Esteem Your very Obedt and very humble Servant*  

Hon\(^{b1}\) BENJAMIN STODDERT  
Secretary of the Navy.

P. S. Having supplied the Montazuma & Norfolk with a quantity of Bread, we are now very short & I fear will soon be obliged to purchase at a high Price here, the Quantity now on Board the Constellation does not exceed five Weeks Victualing, & that on Board the Insurgente is not great; in fact she was very indifferently provisioned, owing to the Scarcity at Guadaloupe.

[HS of Pa. NDA Photostat. Truxtun's LB, 1798-9.]
being off his Guard, and no ill Consequence can ever attend his being prepared. Report to me of Officers &c: on my Return as you find them.

I shall expect a complete Inventory of every Article in every Department when I return. We have got Hold of the most desireable Prize, and Nothing must be risked to prevent showing her in the U States. I am in great haste

To Surgeon John Rush, U. S. Navy, from Charles W. Goldsborough for Secretary of the Navy

[Philadelphia]

N Department 7 March 1799 —

Doc¹ John Rush

Sir The Secretary of the Navy has instructed me to enclose you a Commission as a Lieutenant in the Navy of the United States —

The object of transmitting you a Commission now, is to give you precedence in rank — It is not expected you will act under this commission until the expiration of the present cruise, when it will be optional with you to do it, or not; Your services as Surgeon for the present cruise, will be indispensably requisite; and you cannot act as Surgeon, and Lieutenant at the Same time —

C. Goldsborough

To Isaac Clason & Co., owners of the Ship Hope from Secretary of State,

Department of State

Philadelphia March 7th 1799

Messrs Isaac Clason & Company

Gentlemen The President has received your letter of the 4th instant, relating to the capture & condemnation of your ship Hope and Cargo at the Cape of Good Hope, from which sentence an appeal is entered in England.

That extensive injuries have been done to the commercial citizens of the United States, thro' the undue desire of gain in British cruisers and the corruption of some of their vice-admiralty judges, I entertain
no doubt: but when I have in other instances sought for proofs of corruption they were not to be attained. To "represent the iniquitous proceedings of the Vice-Admiralty courts" will avail nothing without evidence to substantiate the charge. If you can furnish evidence in your case, I beg you to do it. The President will cause our minister to make the proper use of it in London. The purity of the courts of justice in England, is a pledge of the desire of the British Government to render the Courts in its remote possessions alike pure: but it is impossible for that Government to ascertain before hand, in every instance, the real character of inferior judges, in places to which judicial characters of known eminence and reputation are not tempted to resort. The more it behoves the sufferers by their injustice to come forward with proofs which will justify their removal.

With regard to the prosecution of the appeal in the case of the ship Hope, I presume the Counsel employed by Captain Ferrier have examined the papers, and noted what further evidence (if any) will be necessary or useful in demonstrating your property in the ship and cargo; and such evidence you will of course procure and forward to London. If that precaution has been omitted, then you will doubtless think it expedient to review the copies of the ships papers, and if Counsel advise any additional proofs, to procure and forward them. Mt. King, our Minister in London, will be desired (if your further communications should suggest its utility) to aid your endeavours to obtain redress in a case apparently so oppressive.

I am Gentlemen,

Your obedient Servant

TIMOTHY PICKERING

To Secretary of State from Secretary of the Navy

[PHILADELPHIA]
8 March, 1799.

Dr Sir M’ Sir M’ Harrison who mixes a good deal with the Merchants, called at my office this morning, to tell me there was great clamour at the Coffee House & generally all over the City — on acct of the Vessel to carry Doct Stevens being permitted to take provisions — That the Idea is, that she is to take 2000 bbls flour & other articles & it is viewed as a thing to favor Individuals — It is said that the Pres’t has no power to do this that he cannot permit a Vessel to take Prov’t to Hisp’t until he declares that place open for our Trade — & that it is questioned whether a Vessel with Prov’t can be cleared out.

I mention this, that you may know what is known — or said in the City — & may Judge whether the Vessel owner is exceeding his power.

[PHILADELPHIA]  
N Department March 8th 1799 —

TENCH FRANCIS Esq'

Sir. You will please to get made as soon as possible; a compleat suit of Sails for the Frigate Constellation, the dimensions of whose masts are particularly given in the enclosed list by Cap't Truxtun, and to which the Sail Maker must particularly attend — Cap't Truxtun recommends that Mr John Downs be employed to make them. The most approved European Canvas (says Holland or best english patent) must be used, and it is essential they be compleated by the 1st of May.

The Constellation also requires —

4 Shroud Hawsers, cable laid, 10½ Inches in circumference & 120 fathoms each in length —

1 Cable — 19 inches in circumference & 120 fathoms in length

Great Care must be taken that these Cables are faithfully made, that the hemp be well cleaned, and all the tow taken out, otherwise they will not be durable — They must also be ready by the first of May —

I am, Sir &c

To Captain Samuel C. Jerry (junior), from Captain Thomas Truxtun, U. S. Navy

GENTLEMEN, I have rec'd your Letter of the 5th Instant, and am much disposed to accommodate all my fellow Citizens, as far as in my Power lies. Since my Arrival on this Station I have dispatched various Convoys from this Island, of Vessels collected from all the Islands, amounting to at least two hundred Sail, belonging to the United States. Yesterday the Norfolk sailed with upwards of Twenty, and I wish you could have joined; however I expect the Richmond, the Baltimore, and the Eagle in every Moment, and I have left Directions for one of these to go over and convoy you as soon as it is possible, after my Order is at Hand. I leave this immediately on a Cruize to Leeward, where I understand, there are some french Privateers lurking. It was my Intention to give Convoys twice a Month, when I arrived here, but such is our immense Trade, that I have avaraged a Convoy once a Week, since I have been out. I repeat that you may rest assured, that every Accommodation and Dispatch shall be given to your Request, by Gentlemen

Action between American Schooner Charming Betsey and French Privateer Revenge

Account of an action fought off the harbour of Curraoco, on the 8th of March, 1799, between the private armed schooner Charming Betsey, of Baltimore, John Conway, master, mounting 8 four pounders and 20 men, and the French privateer Revenge, captain Colache, mounting 9 six pounders, and eighty men.

At 3 P. M. discovered a French privateer bearing down on us; she hauled her wind in our weather quarter and hoisted a red flag, hailed us where from and where bound? we answered from Curraoco to Laguira. She then ordered us to haul down our colours, which captain Conway refused. She then fired a volley of musquetry into the Charming Betsey, which was immediately returned. A close and warm action now commenced, which continued about three quarters of an hour during which time the privateer made two attempts to board us. The Charming Betsey received considerable damage in her rigging, spars, and sails, and both topmasts shot away, and the captain and 3 men wounded, bore away for the harbour of Curraoco, where she arrived and the privateer immediately after her. The privateer received considerable damage and had ten men killed and wounded, five of whom were thrown overboard previous to her arrival in port.

The Charming Betsey would certainly have taken the privateer had her matches not given out, which prevented her from raking her twice, as her guns could not be got off.

[LC, Conn. "Connecticut Courant", 15 April, 1799.]
Extract of a letter from Captain Silas Swain, of the Ship Molly of Philadelphia, regarding encounter with French brig

"Liverpool, 23d March, 1799"

"On the 8th inst. at 8 A.M. I saw a cutter standing athwart us to the northward, we then steering an east course for Cape Clear, being only about 16 or 17 leagues from it, and had a fine breeze at N.W.—at half past 8 she tacked and stood for us; at 9 she was within gun shot, and on hoisting my ensign, she immediately ran up a French national flag at her topmast head, and fired a shot between our main and fore-mast, she then tacked and reconnoitred us, giving us her stern chases in going about. We retained our fire, and continued our course under our topsails, and I observed, in lat. 51, 20, N. she was coming up with us again, and at a quarter past meridian she recommenced firing, and running under our starboard quarter, attempted to board us, which was happily prevented, and we immediately exchanged broadsides; she then approached us on the larboard quarter within pistol shot, and gave us her other broadside, which we instantly returned; she then hauled off a little, removed her ensign to her main peak, and running up a pendant to the mast-head, immediately attempted again to board us on our starboard quarter, which was as before prevented—we then, exchanged broadsides twice, when she sheared off, hauled down her colors, and lay too.

"She was a fine new brig of 16 sixes, and full of men, was coppered, and sailed very fast.

"We have received considerable damage in our sails, rigging and hull, but thank God, have not lost one of our men. We found our quarters proof against grape shot, none having penetrated, tho' many struck us on each side."

[Ship Mary]
Malaga March 8th [1799]

My Dear Betsey I arrived safe here yesterday — * * * I have written to Messrs. Head & Amory by another rout * * * I have given them Gentlemen a long account of a bloodless battle which we fought the day before yesterday, with three French privateers, but I will not tell you about it — least you laugh because our heads are not shot off — but if you could see the Mary's sails and rigging, and the shot that yet stick about the hull you might think that our heads had been in some danger — Thank heaven, and a protecting god we are all arriv'd in safety, good health and spirits — * * *

[8 March 1799]

To the Secretary of State from David Humphreys, U. S. Minister to Madrid, Spain

(No. 188.)

Madrid March 19th 1799.

Sirs, I have learned from various quarters that the gallant defence made by our armed merchant vessels against French Privateers in several instances has greatly tended to inspire a respect in the crews of the latter for our flag. Captain Gamaliel Bradford, commanding the Ship Mary of Boston, carrying 25 men and 10 four pounders, has acquired much reputation by repulsing two French Privateers of Superior force and entering safe at Malaga a few days ago with a valuable cargo of fish and sugar. He had not a single man killed or wounded. The French Privateer soon followed him into the same port, having had two men killed and thirteen wounded — some of them mortally. Letters from Algeciras advise that the French Privateers which have so long infested the Straights of Gibraltar are now very cautious in not approaching near American vessels until it be ascertained, whether they are well armed or not. I have expected this resolute conduct on our part would have excited great irritation among the French and occasioned complaints from the Ambassador to this court against our armed vessels in the ports of Spain. He has hitherto been silent; and I know not on what principle to explain a late change in his public conduct towards me — he has invited me (with the Diplomatic Corps) to dine with him tomorrow, it being, I understand a national feast. I have excused myself from attending. — Indeed I had made a previous arrangement to go to Aranjuez in order to confer with Mr. de Urguijo on several points of business, and especially to remonstrate against the conduct of the Governor of Malaga, who has manifested in a late instance unfriendly dispositions in regard to some citizens of the United States. — A conduct I am persuaded, which is contrary to the intentions of his Government. — Within a short time past I have experienced more prompt attention than heretofore to the applications which I have had occasion to make to the Department
SHIP MARY, OF BOSTON, ENGAGING THREE FRENCH PRIVATEERS OFF MALAGA, MARCH 8, 1799.
of foreign affairs. The King has lately ordered his Ambassador at Paris to reclaim of the French Government the American Schooner, Alert, Jacob Oliver master, captured near S. Sebastian in violation of the Spanish Territory and carried into Bayonne. His Majesty has likewise, in consequence of a pointed representation from me, ordered the embargo to be immediately taken off from a cargo of Cod fish at Alicante (belonging to Messrs. Thomas C. Amory and Isaac Winslow jun) which the Governor had caused to be seized upon information of their being the produce of the English fishery. This prompt decision saves the almost ruinous delay and expense which must otherwise have resulted from a trial before the Supreme Council of War. For however well that Tribunal might be disposed to hasten their proceedings, it is impossible they should for years finish what is now before them. — At this critical conjuncture when it is well known that the French Ambassador Guillemardet and M. de Urgujo are far from being on friendly terms, I entertain hopes of being able to draw some informations from the latter which may be useful to us.

I have lately received an office from M. de Urgujo announcing that the port of Gibraltar is considered as blocked, and that the intercourse of Neutrals between that port and those of Spain will be regulated accordingly.

Captain Ingraham, who arrived from Tripoli at Carthagen a few days ago and is now in quarantine, has written to me that he has Dispatches for me which it is necessary for him to deliver with his own hand. I have replied that I conclude he did not know of the arrival of the Consuls for Tunis and Tripoli when he wrote, but that being now apprized of that fact as well as of the contents of the Dispatches of which he is the bearer, he would be able to judge of the expediency of his coming to Madrid — and I added that since my residence at this Court I had not been invested with the management of Barbary affairs, as a farther circumstance to enable him to make his arrangements.

I transmit herewith the copy of two communications from the Swedish Chargé des Affaires to me on the subject of my application (mentioned to you in a former letter) that Swedish armed vessels would take under their convoy merchant vessels of the United States which might be sailing in the same direction with the Convoy. In a posterior conference with that Chargé des Affaires, I have answered his question respecting the authority by which Danish vessels of war were in the habit of convoying American Merchantmen, that I only knew the fact without being able to ascertain the source from whence that protection originated, but at least that it must be by the approbation of their Government. * * *

Calepio, the Cisalpine Minister at this Court is recalled, to be Minister of foreign Affairs at Milan. No successor is named.

I send to you by way of curiosity the Pope's Bull allowing the subjects of His Catholic Majesty in Spain and the Canary Islands to eat Meat in Lent during the present war with England.

With sentiments of great respect and esteem
I have the honour to be,

Sir,

Your most obedt and most humble Servt

Sir, I have recd your Letter of the 22d Ultimo. The British Courts of Vice Admiralty, cannot take Cognizance of Prizes made by the Ships of War or Privateers of the United States of America, which you will see by our Treaty. Owners of Privateers should be very particular in their Orders, to Commanders employed by them, and the Neutral flags are not to be interrupted, or insulted, but in all Cases to be respected and treated with Kindness; at least such are my Instructions, from which I shall not deviate, and I advise others to be very cautious how they attempt to pursue a contrary Conduct, as the Honor, and Interest of the United States may be deeply effected thereby.

I have the Pleasure to subscribe myself,

S'r PEIRE 11th March 1799

DEAR Sir M't Adams delivered to me your esteemed letter of the 6th on the evening of Friday and immediately gave notice of his arrival by your orders to take to Prince Ruperts such Vessels as could be got ready by the 12 this Day and will proceed with them this afternoon I have given him twenty five pounds four shillings which I carry to your debit. I am sorry I cannot yet spare M't Caldwell the return goods, Bricks & Coals are yet on Board — it was only Saturday we had this Ship Valued upon oath and under Warrant of Admiralty She has been removed and is only now Mooring, which when done the heavy Articles will be got out and the Business closed — M't C. has been very attentive and I wish him to carry with him a Statement of the finish —

Sale of Stock is........................................................................ £4453.13.—
Value of Ship........................................................................ 6000.—

This is all the progress I can yet Report — A Cattle Man promised two Trusses of Hay but not being able to sell the Cattle goes down with the Convoy to Your Bay where you will get it. That on Board the Cicer was entirely Rotton — The night she anchored four of her Cattle perished and seven asses died in the Yard when they were exposed to sale. We have nothing New No Packet nor Vessel of Short passage from Europe A Report prevails that War has been formally declared in Guadaloupe St Eustatius & St Martin by the French against the United States This shews how Des Fourneaux meant to blind you As he must have brought him Authority to declare War at such time as he saw fit — provided always that this Report is forwarded, we may suppose fairly the other.

UNITED STATES SHIP Constellation UNDER SAIL
before the road of Bassateer S't Christ
11th March 1799.

DEAR Sir The best understanding having subsisted between the American and British Ships of War; Since the first Appearance of the former in these Seas — I was extremely Sorry to hear a complaint from Captain Barron yesterday stating that his boat had been stopt, and an Officer taken on board the Lapwing frigate, Captain Harvey, who is a Son of the Admiral, Commanding the British Squadron on the Leeward Island Station, but as soon as I was apprised of this Circumstance I wrote to Capt' Harvey a letter on the Subject, of which the following is a Copy, and received an answer which is also annexed [*] I am of Opinion from particular inquiry, that the Officer on board of the Richmond's boat, in this instance, was rather imprudent, in passing first a head and then astern of the Lapwing, after Gun fire, for it often happens, that the boats of Merchantmen and from the Shore, drop near to Ships of War after dark,
in order to receive men disposed to run away, & that No disposition has been shown, by his Britannick Majesty’s Officers of the Lapwing, to offer any indignity or insult to our flag. We must be Cautious in making inquiries and examining every important Subject, that has a tendency to National altercation or disquisition before the reports of young and inexperienced Midshipmen, are implicitly relied on, for these Young men may some times err, without intending it, from being Unacquainted, or taking up a Subject in an improper point of view; for my own part, I am determined never to brook an insult from any foreign Ship, but if necessary Support our Just rights at the Mouth of the Cannon; and I do assure you at the same time, that I am also determined, never to offer one to such as are in Amity with us, but on the Contrary, shall pay due respect, even to the publick armed boats of every friendly Nation —

I have the honor to be

Sir Your very Ob[1] humble Servant

Extract from Captain Thomas Truxtun’s journal, U. S. Frigate Constellation, Monday, 11 March 1799

Since the 14th Ultimo, we have been employed in repairing the Hull, Rigging, and Sails, painting the ship, getting off Water, procuring more Men, and getting La’ Insurgente in a State fit to cruise in Company with us, tho’ we have only been enabled to put 124 Men on Board of her as yet, including Lieutenant Rodgers, and various Officers as per List. I have, during my Stay in these Roads, kept the Norfolk and Richmond in constant Employment, convoying, cruising &c: &c: but am sorry to add in this Place, that I have finally been obliged to send the former Vessel Home, in Consequence of Captain Williams not having taken a troublesome, and mischievous French Privateer, that by all Accounts was certainly in his Power to capture. Since my last Arrival here, I have forwarded to the Secretary of the Navy various Dispatches to Viz[4]—

Originals by Mr. Yeiser, Via of Baltimore
Duplicates by Via of New York, forwarded by Captain Murray from St. Thomas’ on Board the Caroline.—
Triplicates delivered to Captain Barron to forward, on his leaving the Convoy (in Latitude 21°) he is to take from Saint Bartholomews this Day or to Morrow.

At 8 AM. got underway, and stood by the Wind to the Southward, as did La’ Insurgente. At Noon the Road, and Town of Nevis bore S. E. B. E. Distance off that Shore three Leagues. Squally Weather, and Wind at East; stowed the Anchors and quartered the new Hands.

My sole Object in taking La’ Insurgente out with me at present, is to take the Chance of falling in with Commodore Barry, and getting
from him some more Men for her, as she has too few to carry her Home without Convoy, and I cannot well spare any more from the Constellation, without rendering, that Ship almost defenceless against a Vessel of equal Force.

Circular Instructions from Secretary of the Navy

Circular Instructions to the Captains & Commanders of Vessels in the Service of the United States. —

[PHILADELPHIA]
N Department 12th March 1799 —

Sir, Herewith you will receive an Act of Congress "Further to suspend the Commercial intercourse, between the United States and France, and the dependencies thereof" the whole of which requires your attention — But it is the Command of the President, that you consider particularly the fifth Section, as part of your Instructions, and govern yourself accordingly. — A proper discharge of the important duties enjoined on you, arising out of this Act, will require the exercise of a Sound and an impartial judgment. — You are not only to do all that in you lies, to prevent all intercourse whether direct or circuitous, between the Ports of the United States and those of France, or her dependencies, in cases where the Vessels are apparently as well as really, American, and protected by American papers only, but you are to be vigilant, that Vessels or Cargoes, really American, but covered by Danish, or other Foreign Papers, and bound to or from French Ports, do not escape you. — Whenever on just suspicion you send a Vessel into port to be dealt with according to the afore-mentioned Law — besides send all her Papers — you should send all the evidence you can obtain, to support your suspicions & effect condemnation. — At the same time, that you are thus attentive to fulfill the object of the Law, you are to be extremely careful, not to harass, or injure the Trade of Foreign Nation with whom we are at peace. — A Misconstruction of his authority by Cap’ Nicholson in relation to a Vessel of friendly Nations, captured by the French renders it necessary that I should make some explanatory observations on the Subject — Our Laws direct the capture of all Armed Vessels, sailing under authority or pretence of authority from the French Republic. —

A Vessel captured by the Cruisers of France must be considered as sailing under the authority of France & It is scarcely to be supposed that in times like the present, when few Vessels sail without arms a captured Vessel, in possession of the Captors, will be so circumstance as not to come under the description of an Armed Vessel, within the meaning of our Laws. To justify a recapture nothing is necessary but that the Vessel be provided with such means of annoyance as will render her dangerous to an unarmed American Vessel, in pursuit of Lawful commerce.

If however the Vessel cannot be considered an armed Vessel within the meaning of our Laws, you are not to recapture her unless you should have probable cause to suspect that the Citizens of the United States, or persons resident therein, have some Interest in the Vessel or Cargo. — It is always your duty to recapture American property, and property of Persons resident within the United States, whenever found in possession of the French on the high Seas. —

Sir You will receive this letter by Lieut Henry Kenyon, who has served with Cap't Bainbridge in the Schooner Retaliation, was taken on board her by the French, and has just been exchanged with a number of her crew — They were here without employment, and as you are in want of a Lieut and some Seamen, I thought it advisable to order them to join you — M' Kenyon is a young [man] who has been regularly bred a Seaman, has conducted himself to the satisfaction of Cap't Bainbridge, and will I hope prove usefull to you — I cannot yet ascertain the exact number of men he will take with him — he has engaged for their passage at Eight dollars each, which M' Pennock will enable him to settle for. — It is probable that the Vessels which are to join you from Charleston may be in want of men, in which case, this addition will enable you to supply them; should they join you as was intended. —

If you do not receive your Instructions by L' Kenyon, you will certainly receive them in a few days, and possibly they may direct you to call at Charleston.

Cap't Thomas TRUXTUN
W. Indies. —

Per C* TINGEY

Dear Sir I received this day, with heartfelt pleasure, your dispatches of the 17th Ult° containing besides other papers, letters of the 4. 10. 14 & 17th February — and your correspondence with Barry.

The letters were immediately laid before the President, who desires me to communicate to you, his high approbation of the whole of your able and judicious conduct in the West Indies — and to present to you, and through you to the Officers and Crew of the Constellation, his thanks for the good conduct, exact discipline, and bravery, displayed in the Action with, and Capture of the French Frigate, Insurgente, on the 9th of February. — I must however add, that he observes, and all the Officers of Government, indeed all others I have heard speak on the subject, join in the observation, that this is nothing but what we expected from Truxtun. —

I wish the attempt to refit the Insurgente in the West Indies, and to Man her, may not be beyond your powers. — I fear it will not be in your power to replace her masts — Men I suppose can be spared from the other Vessels — & the Baltimore, tho' long delayed at Norfolk, will I hope join you with a provision Vessel, before you feel the want of Provisions. —

Rogers certainly deserves to command her, — but as his continuing in the command of so large a Ship, might hurt the feelings of some of our valuable Captains, the Commander must some time hence be changed. —

If Murray should be in the West Indies, when you receive this, it might be gratifying to him, to take the command of this Frigate. — Tho' I have written to Murray, I have not mentioned this subject — but leave it entirely to you, to be managed as you please. — the Baltimore was sent out for Rogers — or he might take command of the Montezuma — Speake is not equal to the command of the Baltimore, nor is he intituled from his standing to promotion — to avoid offence to Barry, one of his Lieutenants must have one of the Ships — He prefers Barron, but unfortunately Barron is only his third Lieutenant —

Cap't Tingey who is the bearer of this, has also dispatches for Barry. — The season is approaching, when we shall want Vessels on our Coasts, I have therefore directed the return of the Montezuma — the George Washington and the Frigate Constitution. — You will perceive by the Instructions of this date, that your ideas in relation to the recapture of the Vessels of friendly Nations very nearly correspond with those entertained here — I very sincerely hope, that the Commanders of the British Ships, will pursue the wishes of their Nation, in offering no insult to our Flag — and that the Commanders of our Ships will cultivate by all proper means a good understanding with them. — It is the Interest of both Nations, to preserve peace and friendship with each other, and it would be a circumstance greatly to be lamented, if imprudence on either side, should interrupt
the harmony that ought to prevail. — Referring you to other letters which you will receive herewith, I remain with best wishes for your future success & glory. —

Dear Sir &c &c

[Philadelphia]

Navy Department 13th March 1799. —

Capt. Alexander Murray
Per C° TingeY

Sir I have received all your Letters to the 13th of February, which have been regularly communicated to the President, who has repeatedly expressed his entire satisfaction with your conduct, and the high opinion you had inspired him with, of your solid judgement, and solid worth. —

It is well known to him, and to your country in general, that your services have been highly important, and if they have not been attended with Brilliance, the fault has not been in your want of enterprise or bravery. —

Your letter of the — of February gave me real pain — nothing was ever farther from my thoughts, or the thoughts of the President, than to do any act, which might imply distrust of you, — or which could wound your feelings. —

It is true, that in Capt. Truxtun’s instructions I mentioned the Norfolk as one of the Vessels which was to join him — but to join him after the end of the cruise with you, which I believed would happen very quickly after his sailing from the Chesapeake. It never was expected that you would meet him in the West Indies. I calculated the length of the cruise from the quantity of Provisions — that you would have to supply the Retaliation, who could carry only for six weeks — and that your cruise could last but little more than three months. Hence has arisen the circumstance, which has given you pain. —

Enclosed you will find a list and a short Sketch of the substance of the Laws passed in the late Session of Congress, respecting the Navy. — I am gratified that you stand high enough on the list of Captains to take command of one of the Frigates — I think of the one at Norfolk for you, but cannot at present make permanent arrangements. —

If this should find you in the West Indies, you will please return by what route you think best, to Philadelphia. —

We must have some ships on our Coasts in the Spring and Summer. — Other Vessels will also be ordered to return — with which you may cooperate or otherwise, as you shall judge most for the interest of the service. —

I have the honor &c

Citizen Minister, A Brig which in description corresponds with the Mary of Boston, the property of Citizens of the United States, I am to night informed, has been taken by a French armed vessel very near to a Battery of this Republic, under which she lay at Anchor and under supposed security as being under the protection of a friendly nation. I understand Citizen Minister, that this violation took place yesterday, and that the papers of which the Mary was plundered were sent to the French Agent at Helvoet.

Barely to state such a transaction will I am sure awaken the activity of the Batavian Government whose loyalty will immediately command the restoration of the brig and her papers to the Captain.

Accept Citizen Minister the assurances of my perfect respect & Sincere esteem.

The Hague 15 March 1799 —

Citizen Minister! Being informed yesterday that an American brigg had been taken by a French privateer within the limits of the Batavian Dominion, I commanded immediately her restoration to the Captain, and should have given you notice of it. but receiving this morning information that the Brig (being the Mary of Boston) Cap' Hall mounting eight Guns and provided with American letters of Marque) has attacked the French privateer near the coast of this Republick. I am obliged to stop both the Brigg and the privateer till it will be known whether this has happened upon Batavian territory or on high Sea.

THE HAGUE 18 March 1799 —

Sir, by an express which I received this evening from Rotterdam, bringing the sworn testimony of the pilots of the armed vessel the Mary of Boston, I find that there is no ground to treat the case as if it related to a question of prize or not to a French privateer. The Mary was not (according to the above mentioned evidence) taken by a French privateer, but arrested by the Commander of the Battery of Odorp [Adorp] in Goree, who ordered the Pilot Peter Kwijn to carry her to Helvoet roads. The Battery of Odorp cannot make a prize of an American vessel for a French Privateer. It may come in the aid of the law of this Republic to cause its limits to be respected; but because an American armed ship exerts her right of self-defence and uses these rights with even delicacy towards a disturber of the trade of America and Batavia, this battery and its Commander cannot lend an influence to serve a French Corsair.

It will not Sir, be deny'd that the Mary had a right to fire upon a French Privateer at sea, even in Limits, if that Privateer evinced clearly an intention from her approaches and other appearances of boarding or attacking her. The true attack is in these indications. Defence, though the first shot, is still defence. To admit a contrary principle is to consign our trade to this Republic, to the Warehouse of Flushing or the Tribunals of Douay.

The perfect respect of Capt Hall of the Mary for this Republic, agreeably I am certain to his Commission & Instructions, was manifested when with the French Privateer astern, he went on shore with his papers, to wait on the Commanding officer. He thus threw himself on the good faith of a friendly power. It is impossible after this that there can be any hesitation in this Government in declaring that there is no question respecting any pretended Capture by the French Privateer & that the Mary is not in any respects a prize.

If any doubt can remain with respect to a presumed violation of the Batavian Limits, that, Sir, is a fair question of discussion; but for the present I reclaim the Mary as an armed letter of Marque of the United States, from the good faith of the Batavian Government into whose hands she in fact put herself at Goree, when had she expected embarrassment here. She could and would have fought her way against the French Privateer, whose prize she was not, and cannot be if the Battery of Goree is Batavian, of which there is no doubt.

Accept Sir, the assurances of my perfect respect & esteem &

W. V. Murray.

Sir, It is with great pleasure that I discover the error into which my Rotterdam intelligence led me. The impression under which I had last the honour of addressing you, was, that it was a question, whether the Mary of Boston was or was not, in the event of a decision, to be considered as a prize to the French Privateer. I trust it will be found that the privateer did intend to take the Mary; that she manifested that intention so evidently that the Government of this Republic will not mistake the first firing in defense for a violation of the respect due to its Sovereignty and Limits.

Your amicable declarations towards the Government of the United States, Sir, will be extremely pleasing to it, because from its respect for this Republic it can and will reciprocate those feelings with a cordial Sincerity, & I beg you Sir to accept the assurances of my personal esteem & very high respect.

THE HAGUE 21st March 1799. —

Sir, As there is no question whether the Mary be a prize to the Luggar, but as the sole point of discussion is on the charge of having violated the Batavian Limits, I request that the Captain of the Mary be allowed to conduct his ship up to Rotterdam or elsewhere on giving security for any penalty which the laws of the Republic impose in such case, of violating Limits, to be recovered if the charge be made out.

I also pray Sir, that the Ships papers and Commission be restored to the Captain of the Mary and that an immediate order be given to Suffer the letters of every sort brought by the Mary to be disposed of by Captain Hall, as their detention cannot throw any light upon the sole point in view, viz: Infraction, and may be of great consequence in a mercantile light.

I further request, Sir, that inquiry be made on one point infinitely more important than any which has yet been before us, I mean the order imputed to the Commander of the Fort at Goree, in consequence of which, part of the Mary's crew was taken from her & transferred to the Privateer and part of the crew of the Privateer was put on board of the Mary! The good faith of this Government, Sir, I am certain will pursue this inquiry and punish the author of so
insulting a condescension towards the French Privateer against the flag of the United States. An appeal to the sensibility of this Government is unnecessary. To state the imputed order of the Batavian Commander of the Fort of Odorp, is enough.

Praying you, Sir, to consider the value of a speedy order for the liberation of the Mary in the State in which she was found when the French got in possession of her by order of the Batavian Officer at Goree on the Security above named, for the restoration of the Captains Commission & Ships papers and the letters on board.

I beg you, Sir, to accept the assurances of my high respect & — —

Articles of Agreement entered into this thirteenth day of March 1799 between Benjamin Stoddert, Secretary of the Navy of the United States, for and in behalf of the said States of the one part, and Samuel Hughes of Havre de Grace in the State of Maryland of the other part. — as follows —

First. — The said Samuel Hughes doth hereby engage to deliver, at his own proper cost and Expence, for the use of the Navy Department of the United States, at a Wharf on the Bank of some River Creek, or water of the Chesapeake, where a decked Vessel of Sixty tons burthen can load and unload; in the course of the ensuing year Fifty Six Iron Cannon of a Calibre to carry a ball of 32 pounds, Fifty Six to carry a ball of eighteen pounds, and Thirty Six to carry a ball of nine pounds, agreeably to such models and of such weights as may be determined on by the Secretary of the Navy. —

Second. — The said Cannon are to be cast in the solid, and bored truly; so as that the diameter of the bore shall correspond exactly to each given Calibre, to be perfectly straight and in the center of the piece from the muzzle, to the Breech. —

Third. — The said cannon shall be proved in the same manner as is fixed on, in a Contract entered into by the Said Hughes with the Secretary at War, under the direction of such person or persons as may be appointed by the Secretary of the Navy or his Successors. —

Fourth. — The Secretary of the Navy shall allow, and cause to be paid to the said Samuel Hughes, for every Ton weight of Cannon so cast, the sum of one hundred and thirty Dollars immediately upon the delivery of the Same. —

In case any disagreement should arise with respect to the fulfilment of any part of this Contract two persons shall be chosen by each party, and should they disagree they shall chuse a fifth, and the decision of these five shall be final. — In Witness whereof the parties to these presents have set their hands & Seals the day & year above mentioned —

Sealed & delivered in presents of

G. Cottringer

I acknowledge to have received on Account of the foregoing Contract Ten thousand Dollars. —

Extract from log book of the Brig Two Sisters, concerning voyage commencing 13 March 1799, convoyed by U. S. Brig Richmond

Brig Two Sisters, Folger, of New York, sailed from St. Bartholomews the 13th of March, under convoy of the brig Richmond, Samuel Barron, and in company with the ship Juno and schooner Argus, of N. York, and schooner Harriot, capt. Bush, of Boston. Left at
St. Bartholomews, the brig Fanny, of Baltimore, Wm. P. Barns, and the brig Penelope of New York, J. Brown; they were taken and brought in on the 12th by a French privateer from Guadaloupe.

Two schooners from North Carolina, captain Smith and capt. Fullar, were taken and carried into St. Martins; one schooner into St. Eustatia, and two into Guadaloupe, all within a few days. March 21, on our passage home, spoke the schooner Lucy, of N. Haven, capt. Engle, from Savannah, ten days out, bound to St. Bartholomews, in long. 69 lat. 29 40. March 27, in a heavy gale of wind and rain, lost one of my men off the bowsprit, by the name of Elisha Gardner; it being in the night and very dark, we could not render him any assistance. The 28th passed a brig full of water and dismasted, with some of her spars alongside; had her bowsprit standing, her image a woman's head, painted white, but no person to be seen, in long. 72 10, lat. 36 14, in the Gulph Stream.

To Secretary of the Navy from Captain Thomas Truxtun, U. S. Navy

UNITED STATES SHIP Constellation
Bassateer Road St Christopher's 16th March 1799 —

DEAR SIR, Since I had the Honor to write you on the 7th Instant by the Norfolk; I have captured off the Road of Bassateer Guadaloupe, a Letter of Marque Schooner called the Union, mounting 6 Carriage Guns, and navigated with Thirty two Men (Lading Provisions, and Dry Goods) and have brought her into this Road, but have not determined as yet what to do with Vessel and Cargo (Men are precious, and the Risk of sending her Home great, in Fact I cannot well spare an Officer, on Account of equipping the Insurgente) my Time having been occupied altogether since I arrived, dispatching a Cartel to Genl Desforneaux with the Prisoners, and replying to his Letter of the 7th Instant, handed me on my anchoring in this Road.

I think the Union would make a valuable Tender, and to cruize against small Piccaroons of which there are several doing much Mischief in the Neighbourhood of St martins, and Saint Bartholomews; If I can fit her out as a Cruizer, and conclude to do it; I shall appoint two, or three of the most respectable Gentlemen at Bassateer acquainted with shipping to put a fair, and reasonable Valuation on her to the United States and inform you accordingly as soon as it is done. So many Circumstances occur at a Distance from the Seat of Government, on which it becomes necessary for an Officer to act from his own Judgement, or let the Service suffer, that I often feel myself embarrassed not a little for Want of particular Instructions; but I hope in any Event, my Zeal in the Cause will entitle me to expect, if not altogether the Approbation, the Protection of the President of the United States. I have the Honor to be, Sir, with great Respect & much Esteem

United States' Ship, Constellation off Bassateer Gaudaloupe March 14th 1799 —

Dear Sir, I have heard Nothing from you, since Captain Barron of the Richmond brought me your Dispatches. The Norfolk I have sent to Philadelphia, in order that Captain William may answer the Secretary of the Navy such Questions as he shall put to him, in Consequence of various Charges exhibited by his Officers for shortening Sail, and quitting Chase of a French Privateer (Williams) after the said Privateer had received great Injury from his Chase Guns, and had absolutely hove to &c: &c: &c:

A Number of indifferent People no Way interested, saw the whole of the above Business from Saint Kitts, and blame Williams much, but as it is right that the Man should have fair Play, I will suspend my Opinion of him for the present.

Since I left Saint Christoplers' I have been cruizing about in various Directions, and having stretched under Bassateer, Gaudaloupe, in Expectation of seeing you; this Morning I cut off from that Road (when close in) a Schooner called the Union, commissioned as a Letter of Marque, mounting 6 Carriage Guns, and having 32 Men on Board from Saint Thomas bound in, with a Cargo of dry Goods, and Provisions of very considerable Value. I am now proceeding with the Prize to our Rendezvous, St Christophers, where I hope to arrive to Morrow. I have heard of your sending a valuable Prize into St Pierre's, Martinica, on which I congratulate you. I am, Dear Sir, sincerely

Action between the Ship Cygnet and the British Schooner John and Edward

From the Log Book of the Ship Cygnet, Capt. Gore, in 30 Days from Jamaica.

"Thursday, March 14, at 2, P. M. saw a sail standing towards us from under the Cuba shore: at half past 3, finding she came fast up with us, and seeing she was a very low schooner, cleared ship for action. At 4, tacked ship and stood down for her. At quarter before 5 she being very near us, fired at her; she still standing for us, gave her another gun, at which she hoisted English colours and gave us a shot. Not chusing to trust to their colours, we hoisted an American ensign, and kept up a constant fire about 40 minutes; when she got on our larboard quarter, and hailed us, when finding them to be English we hove to, and then they boarded us, and used us very ill, by beating us off the deck.

"In the action our cook was killed by a musket shot. They immediately put us all on board the schooner, except captain Gore, and confined us in irons.

"The schooner is named the John and Edward, of New-Providence, J. Miller, master. Nine men and a prize master took charge of the ship.

March 17. "At 2, P. M., saw several sail; and at half past four three schooners, a sloop, and a ship, under American colors. The sloop fired a shot and we brought to. The boat came from the sloop and ordered us under the ship's lee. At 5, several boats passed to and from the commodore Decature, on a cruise. At eight the commodore got us liberated from the schooner, put their men on board and made sail.

"We learn that four men were killed on board the schooner."

To Mr. Labatut, Merchant at New Orleans, from Simon Thevenot, commander of captured schooner

NASSAU NEW PROVIDENCE 13th March 1799 — SIR & FRIEND — I now inform you that I have been brought in to Providence; after having been at sea seven days, and after having escaped the British Squadron under cover of the night; at the distance of 4 or 5 leagues from the Havana I was met by the American Frigate Delaware, one armed Schooner and Boat, in company with two other Schooners, all Americans: they took possession of me and made sail for the Havana. To the eastward of the aforesaid port they fell in with an English Brig called the Hero, being still in possession of me & during the time I was on board of the American Frigate, the Captain of the said Frigate took his speaking trumpet and informed the English Brig that it was a Spanish Schooner and that he might dispose of me — The Privateer boarded me, that is to say sent some of his people on board before I returned myself. Thus you see that I was taken by the Americans, they have run several vessels on shore as they gave chase to all they saw.
I beg you will be pleased to represent this to the Commerce of New Orleans — The Schooner Wilcof (suppose Wikoff) has been brought in here and declared a good prize; altho' she informed the Privateer that there were five Spanish vessels astern of her — I am going to endeavor to purchase the vessel. My Compliments at home & to all our friends Adieu Yours without reserve — Signed, Simon Thevenot

P. S. The Capt' General has signified to the Americans not to cruise off the Spanish coasts —

To Mr. Labatut Merch't at New Orleans recommended to the care of the Cap't by Simon.

19th March 1799. I am just informed that the Captain of Mr. Wilcof's Schooner died this day, please to communicate this to Mr. Wilcof. — Respecting the armed American Ship I beg you will enquire of a passenger called M' Caillot who was a prisoner on board of the Privateer who took me, and have his deposition taken before a notary and send a copy to Gimbals — Signed. Thevenot.

**Deposition of D' Modesto Bizard.**

In the City of New Orleans this 9th of May 1799, D' John Baptist Labatut in confirmation of what he alleges presents as a witness D' Modesto Bizard Apostical Roman Catholic, residing in this City, who through the medium of D' Pedro Derbigny public Interpreter took the oath required by Law, Before God and the Cross, to declare the whole truth; and after examining the preceding document says that fifteen days after the deponents capture by an English Privateer called the Hero, being then on board of her they spied four Sails bearing down on the said Privateer, and the privateer likewise bore down on them: that when they drew near the deponent was informed by a person of the aforesaid Privateer who spoke French, that one of them was an American Ship of War, with her tender, and that the other two vessels were a French Privateer captured by the aforesaid Ship, and the vessel commanded by D' Simon Thevenot. That afterwards, the deponent heard the Frigate speak the Privateer Hero, and the said privateer answered in English which the said deponent does not understand: that afterwards the Captain of the Hero alone got into a Boat with several seamen & proceeded on board of the aforesaid Frigate, and his Lieutenant with another officer of the said Privateer went on board of the Schooner commanded by D' Simon Thevenot, but the deponent does not recollect if it was before or after the return of the aforesaid Captain: that when the Frigate retired she hoisted a blue flag, which the Deponent having observed he enquired the meaning thereof and was informed that it was the signal of relinquishment which the aforesaid Frigate made of the said Schooner; that after the Frigate and other vessels had departed the aforesaid Schooner drew near the Privateer, and the deponent with Don Gabriel Caillot, likewise a prisoner on board of the privateer were transferred to the schooner and two passengers on board of the latter were put on board of the privateer, leaving the aforesaid Thevenot on board of the said schooner: that after these exchanges had taken place the Schooner...
proceeded to Providence, and that respecting the circumstances of this case the aforemention'd Dº Gabriel Caillet can likewise inform: And the Deponent says that what he has here declared under oath is true, and this deposition having been read to him he confirms and ratifies it; he says he is about 45 years old — and has signed this deposition together with the Interpreter and Dº Wº E. Hulings Vice Consul of the United States who was present at the taking of this deposition, all which I (the notary) certify to be true. — M Bizard — Wº E. Hulings — Pedro Derbigny — Before me

DEPOSITION OF DON GABRIEL CAIILLET

Immediately afterwards presented himself Don Gabriel Caillet residing in this City & an inhabitant of New York, who through the medium of the said interpreter, in the presence of the aforesaid Vice Consul and before me the present Royal Notary, took the oath required by Law, before God and the Holy Cross promising to declare the whole truth, and after examining the tenor of the foregoing document and the citation made of him by Dº Modesto Bizard, says that the aforesaid deposition is true in all its parts which he confirms and ratifies and declares to be strictly conformable to what happen'd; he adds that this event of the Capture of Dº Simon Thevenot happened the 14 or 15th of March of this present year, and in sight of the land near the Havana, distant about 3, or 4 leagues, as the heights of Managua could be easily observed: that as the deponent understands the English language he does thereby explain what was respectively said by the Captains of the Privateer Hero, and of the Frigate, as likewise what was said by the people of Thevenot's Schooner, which was as follows: The Captain of the Frigate asked the Privateer who he was & was answerd English, the Privateer asked the same question of the Frigate, and as soon as he knew it was a vessel of war, the Capº of the Privateer went on board of her; whilst he was there Thevenot's Schooner passed near the Privateer and the second in command of the said privateer asked what she was & from whence she came; to which the Schooner answered in English that she was Spanish, that she came from New Orleans and was bound to the Havana: that as soon as the Captain returned on board the Second in Command informed him what the Schooner had said, and that then, the Capº of the aforesaid Privateer asked the Capº of the Frigate what he intended doing with the Schooner he replied that he could do nothing as he had no right to her, & that he might dispose of the said schooner as he pleased: and the deponent declares under oath this to be the truth and having heard read this his deposition he confirms and ratifies it, and says he is about 42 years old, and he signed this with the said Interpreter & Vice Consul, which I (the notary) declare to be true. — Wº E. To Captain John Barry, U. S. Navy, from Secretary of the Navy

[PHILADELPHIA]
Navy Department 15. March 1799.

Capt. John Barry  
West Indies. —

Sir, I have no letters from you, later than the 1st February — I am sorry that your health was not quite restored: which however, I attribute more to your vexation for not being able to fall in with the Monsieurs, than to the effects of the climate. —

I hope you have since that time been more fortunate, and that you have mastered your indisposition, as well as I have no doubt you have all the Frenchmen you have seen. — I have information of your having been joined by the Constitution — the George Washington and the Merrimack. I make no doubt you have since been joined by the Portsmouth, the Herald, the Pickering, and the Diligence, the Scaamel, and the Eagle — and I possess the most entire confidence, that you will have so employed this force, as to afford the greatest possible protection to our Commerce; and the greatest chance of punishing the Depradators upon it. —

The season is now approaching when more than the force we have at present, will be necessary on our Coasts. — You will therefore, be pleased to order, to Boston without delay, the Constitution — and to New Port, the George Washington. — If these Vessels should have more provisions than will be necessary for their return, it will be proper for you, to direct what can be spared, to be distributed to the other Vessels under your Command, which will enable them to continue longer in the West Indies, without more Supplies from the Continent — the Pursers of the Vessels delivering will take care to obtain the proper Receipts for the Provisions delivered. —

I am sorry Capt. Nicholson could not discover that the British Ship recaptured by him, was sufficiently an armed Vessel to come within the meaning of our Laws. — The Instructions of the 12th instant contain explanatory observations on that subject. — As I do not find enough of these Instructions to distribute to all the Vessels under your command, you must supply the defect by your orders. —

I have written to Fletcher to call at St. Thomas' — and wait a day for any specie, that Mr. Hiller, or other persons wish to send to the owners of it in the United States. — You will judge of the propriety of ordering Nicholson to touch there also — this will be in their course. — Capt. Tingey will place himself under your command — Should your health, or other circumstances make it necessary for you to return to the Continent, you will in that case communicate in time your intentions to Captain Truxton, on whom the command will then devolve. — I mention this as a possible case, from the indisposition you complained of, — I hope it is not a probable one. —

It is expected that in six or seven weeks the Island of St. Domingo, may be opened to our Trade; in which case it will be proper to employ a part of the force under your command — perhaps a considerable part — to protect our Commerce to that Island; — should this event take place, before you hear from me again on the subject, you must act as you shall judge best for the Interest of our Country in the protection of its Commerce. —
It may be proper in the event alluded to, that you should move with nearly the whole of your force, — to that station, sending to Cap† Truxtun two or three of your Vessels — say a Ship of 20 Guns, and a Cutter, to enable him the better to occupy the ground you both occupy at present. — In the meantime, I pray you let none of our Officers & Crews grow sick by being in harbour — The British die, & what is as bad get languid by the climate in the Wext Indies — we shall experience the same misfortune, if our Vessels remain too long in the West Indies, and if they are not continually employed while in those Seas. Nothing is so destructive as harbours — I long to hear that you have sent Cruisers to Curacoa — and also towards Laguayra — Three degrees to the Eastward of the longitude of Porto Rico — & two degrees to the Eastward of Longitude of Barbadoes, I understand to be cruising grounds for Indiamen — You will no doubt pay the proper attention to this subject. Any Vessels besides those I have mentioned which you may at any time suffer to return — You will order to Norfolk, New York, Philadelphia or Rhode Island — these are places where they can get supplies of provisions readily, — the Cutters from the southward, must return to one of these places. — Philadelphia is best for the Cutters only. — Cap† McNiell will be the oldest officer under your Command, after Nicholson leaves you — Cap† Tingey next — I hope you will give these Gentlemen — indeed all the Commanders, opportunities of distinguishing themselves — & inspire by all the means in your power, a Spirit of Enterprise and bravery among officers and men. —

You will receive a Letter from M* Barry who I understand, is very well.

Wishing you great success and honor, I remain &†

P. S. Your Letters written after the arrival of the Pickering & the Herald with Provisions, will determine as to sending any more. —

I have the honor to be &†

To General Desfoureaux, Commander-in-Chief of Guadeloupe, from Captain Thomas Truxtn, U. S. Navy

UNITED STATES' SHIP Constellation
BASSATEER ROAD SAINT CHRISTOPHERS
15th March 1799.

Sir, Your Letter of the 20th Ventose (7th Instant) I received this Day, having just returned from a Cruize, on which I captured the Letter of Marque Schooner Union, Pierre Miaille Master from Saint Thomas's bound to Gaudaloupe, and now send you by the Cartel Schooner called the Thomson, John Perkins, Master all the Crew, and Passengers of said Vessel except four, which is necessary for me to detain; and I request you will cause to be delivered to M† Herbert, the flag Officer on Board the Cartel, a Receipt for them, and to send me in Return all the Americans confined at Point Petre, which I have an account of.

It is very extraordinary, that after so many ineffectual Attempts as have been made to blind the American Character by Men acting under the Power, and Government of France, that the same Conduct
should be continued by you at this late Day, when every American's Eyes are open, and all looking with Abhorrence, and Indignation on such Proceedings, as France, and her Agents have, and are still observing towards them.

I have assured you, that no unarmed french Vessel, or Neutral bound to your Island, or otherwise would be molested by us; You on the other Hand gave me the strongest Assurances, that you would not alter the friendly Conduct you had determined to pursue on your first Arrival in the West Indies, and would consequently protect American Property, altho' you had on first hearing of the Capture of La 'Insurgente, determined on a contrary Conduct, but on Reflection immediately revoked the Orders you had given. But, Sir, so different to these Promises do I find your Acts, that I have this Day received an Account of three American Vessels being taken far to the Northward in Latitude 26° North by a Privateer that sailed under your Orders from Guadaloupe previous to the Capture of La 'Insurgente, and six Others that have lately been taken, and sent in to St Martin's, and Saint Bartholomew's, two of which have been already sold without any Admiralty Process whatever, and at a Time when General Desforneaux is writing me, that he has Advices from France in Thirty one Days, which leaves no Doubt of a Certainty of the subsisting Differences being speedily settled.

It was no more than reasonable for me to suppose that my Reply to the first Letter you wrote me on the Subject of La 'Insurgente would have been sufficient, but notwithstanding that Reply which was conclusive on my Part, you have had the Effrontery to dictate to me a second Time, and proceed as before with your Threats, which I again inform you, will forever be disregarded by me. La 'Insurgente has, by the Arms of the United States at Sea, become an American Frigate, and as such I trust she will always continue, while her Timber, and Iron remain united.

You talk of being sensible of Insult to your Flag in the Case of the Capture of that Ship; Methinks I see the Blushes that were painted in your Cheeks, when you committed to Paper such Expression; have your Nation not been in the Habit of insulting the Flag of America, robbing her Citizens of their Property, when pursuing a lawful and harmless Commerce, and barbarously treating our defenceless People made Captives by your Vessels of Force for upwards of two Years? What, Sir, has been our Conduct in Retp; have we not even stooped beneath what one Independent Nation ought ever to do to another under any Circumstances, for to endeavour by pacific Means to bring you to a Sense of Reason, and to hear the honest Sentiments of our injured and insulted Government and People, but to every Effort of this Sort you have been deaf, and Depredation and all Sort of Injury and Disgrace has continued with you to be the Order of the Day; and at the same Time that you have been adding new Insults to new Injuries, you have effected to lead us to believe; that the System of Iniquity that has all along been practiced in Guadaloupe has been changed since your Administration, tho' I have evident Proofs to the Contrary every Day.

You tell me that as you see how I treat french Prisoners in my Hands, so you will treat all Americans at Guadaloupe, who can every Day prove evident Protection. Let me, Sir, for the Sake of Humanity request that you will be kind enough to relax from that
rigorous Conduct, that I am well informed has been lately observed towards the Americans with you, and treat them in Reality, as I have always behaved to Prisoners of War, and then — Sir, I shall consider myself obliged.

Mr Urquhart a Supercargo of a Vessel lately from New York, and carried into your Island, a Gentleman of Respectability, and several Others, contradict all your assertions as to your mild Conduct towards Prisoners. Mr Urquhart, whose Situation ought to have intitled him to Respect, and more particularly his Gentlemanlike Deportment which has been no Security against every Indignity, that could be offered; he was thrown into a common Jail among Criminals, and then fed on poor and scanty Allowance, besides being robbed of every Thing he had with him; On the Contrary, what has been my Conduct towards Prisoners — Not the smallest Trifle, has ever been taken from either Officer or Man; they have been fed on the best of Provisions, and even the Master of the Union now sent to you will testify, that he has not only been suffered to take with him his private Baggage, but whole Pieces of Merchandize which he claimed as being purchased for his immediate Use.

You say I attacked La 'Insurgente by Surprize. I deny the Fact to you, and to the whole World. You, and Captain Barreaut (all that may be said to the Contrary notwithstanding) was well acquainted with the Acts of Congress, authorising the President of the U. States to direct the Commanders of our Ships of Force to subdue all Ships of War, sailing under the Authority of the French Republic, or the Agents of the French Republic, and the Copy of the President's Instructions to our Commanders aforesaid, you procured when you captured the Retaliation as I have been well informed; but, Sir, in Addition to this, I met the Insurgente in open Day, and in a time of open War with the British, by whom she had been continually watched, when in Port, and hunted when out of Port, consequently was, as is all Ships of War, as fully prepared for meeting an Enemy, as she could have been, if an Express had been sent to the Commander, that I should make an Attack on him, whenever we met.

Again on La 'Insurgente's first discovering of the Constellation, as a Deception she hoisted American Colours, on seeing mine; but when I made Signals that she could not answer, Capt Barreaut threw off the Mask, hoisted the tricoloured French Flag, and fired a Gun to Windward, and this was a Signal to me of his being an Enemy, and a Challenge to fight him, which I accepted, and continued bearing down on him; and when I was near enough to commence the Action, I did it, as I would do again, for I have no Idea of holding a Parley with a Ship of War, when it is evident, that not Arguments of Words, but those of the Cannon only will make her yield; Another Matter is, if you know any Thing of the Principles of naval Tactics, or Sea Fighting, you must be convinced of the Advantage Monsieur Barreaut would have had over me from the Position of our Vessels on that Day, if I had suffered him to have put me off my Guard for a single Minute by holding a Conversation, that could have been of no Avail, especially as I perceived, as the Event proved; that he was well prepared to meet my Intentions, for our Matches were scarcely put to the Guns, before he answered in the same Sort of Language, as I addressed him in. You may
be as much mortified with the Loss of La 'Insurgente, as I am pleased with having taken her, but no undue, or unmanly Conduct can better the Matter; She is my Prize, and my Nation's Ship; and it is too late in the Day for me to ever suffer an Advantage to be taken of me in the Line of my Profession, in Consequence of your Arguments, or that of any other Enemy.

As to a Declaration of War, I have only to observe, that your Nation commenced the War, and carried it on for a Length of Time, without any Formality of that Sort, and we have from sad Necessity been obliged to make Reprisals in Return of a certain Description of Vessels, and I fear if you do not cease with your Depredations on our Commerce, we shall be drove to go further; for at the very Moment I was going to close this Letter, I was called from my writing Desk to hear the Complaint of Captain Mountly, Master of the Ship Commerce of Portland, Massachusetts Bay, who has been boarded, plundered and otherwise ill treated by a Corvette from Cayene, (as she hailed) as also by a Brig from Gaudaloupe, which two Cruizers had taken four American Vessels pursuing their lawful Commerce, without having either Arms, or contraband Goods of any sort on Board, and the Commerce would have been captured, but she was of too little Value.

It is needless for any further Correspondence to take Place between you and me on the Subject of La 'Insurgente, and I request you will not mention her to me again.

I was not disposed to get out of Humour, when our Correspondence commenced, but you have carried Matters beyond what my Nature, and Philosophy can well bare. I have the Honor to be, Sir,

With great Consideration —

His Excellency

GENERAL DESFORNEAUX

Sir In answer to your letter rece'd this morning I have the honor to say, that I have no dispatches to send to Gen'D Desfourncaux, — yet I would wish the General to believe, that acts of Kindness, and humanity shown to the American who may fall into his hands, will certainly be reciprocated towards those of his Countrymen, who may be in the power of the Government of the United States. — And that it will be in the power of the Officers of the French Nation, to dictate the treatment which captives on both sides shall receive. — I have the Honor &C.

STEPHEN HIGGINSON Exq' Boston,

Df Sir I have your letter of the 5th and a prior one relative to your ship Pattern, captured & carried into St' Domingo; and have conversed with the Secretary of the Treasury, who considers all the ports in that Island under French government, and consequently prohibited. But I think it probable that the intercourse will be opened in six or seven weeks: for in that time I expect our Consul General, Doctor Edward Stevens, now ready to sail for Cape Francois, will have certified to the President of the United States that Toussaint has suppressed privateering and all further depredations on our commerce. In the mean time I will recommend the ship Pattern to the attention of Df Stevens; and if furnished with more particular information, will transmit it to him, should any conveyance present before the intercourse shall be renewed.

I am very respectfully &c

Frigate United States

Prince Ruperts' Bay March 16th 1799.

Sir I have the honor to inform you, that I have received your favors of the 16th December and 29th January last, to which I shall pay the most pointed attention — I hoped when I last wrote you, I should have been able, by this time, to have given you a good account of the French Cruisers and their Prizees, but it appears to me, they are
all gone to some other part of the world; for ever since I came into
these Seas, I have been constantly cruising and every Vessel under
my command, except such as were employed convoysing Americans,
and every French Cruiser we have seen two miles from the land, has
been taken except one Schooner of 12 Guns, and She had a Ship with
her belonging to Liverpool of 20 — 9 Pounders, which we recaptured;
and were within half a mile of taking the Schooner, but night
coming on, favored her escape and, she got under cover of the Fort. —

In my last I informed you, that I wrote to Captain Truxtun to
send me one of his Brigs to convoy a number of American Merchant-
men blocked up in Surinam by 2 or 3 French Privateers, but before
his Brig arrived, the Ship Portsmouth, Captain M‘Neill, and the
Revenue Schooner Scammel, Cap‘ Adams come into this Bay, and
as soon as they could be got ready, I ordered them on that service,
with orders to M‘Neill to keep as far to windward as possible, not
only when he left the Fleet, that he would be able to fetch this place,
but to keep clear of English Cruisers by being very far to windward;
a few hours after the Portsmouth and Scammel sailed the latter sprung
her Bowsprit, Captain M‘Neill without any plausible reason took all
the men from Captain Adams, except what were barely able to get
her into port, at the same time acknowledging he had his full comple-
ment of men — such unwarrantable conduct merits notice and I
think ought not to pass with impunity; for what purpose is it to send a
Vessel here, if she is to have her men taken from her at the caprice
of any Officer — if I had it in my power he should never treat another
public Vessel in the same manner. —

About the middle of April, I will leave this, and take Nicholson
with me, and cruise on our Coast to protect the European Ships;
I will leave a few Vessels hereabouts with orders to call here every 15
or 20 days, when they may run short of Provisions, or to receive your
instructions — at present I dont know whom I shall leave here to com-
mand, nor do I think it very material as I shall point out to each
Vessel her cruising ground — I should not leave this until I had
your further instructions, but the time of so many of my people
expiring about the middle of May, will compel me to be in the Dela-
ware about that time. —

You express a wish that I should recommend my Lieut‘ and Mid-
shipmen, — of those whose merit best entitles them to promotion,
I will be particular, of the others I will speak in general terms — Mr
Ross my first and Mr Mullowney my Second Lieutenants I think
will make as good Captains as any I see here, but my third Lieu-
tenant James Barron, is as good an Officer and as fit to command as
any in the service, and I hope when you do promote him, you will give
him a Ship that will enable him to do credit to himself and honor
to his Country. —

Mess‘ Banning, Sommers, and Decatur, Midshipmen, will make
good Lieutenants for small ships or Brigs — My sailing master would
make a good Lieutenant, and perhaps we might get a man as well
calculated for a sailing master as he — but if it did not interfere with
the public business, I should be glad, if the appointments would not
take place until I see you. — I yesterday fell in with the Brig
Pickering, and Ship Herald with the store Ship from Boston, she
came very opportunely for I had but three days Beef and Pork on
board, I wish she had been left entirely under my direction, I could
have got store room at the Garrison here for what we could not take out of her, and she might have been dispatched in 4 or 5 days, however I am not certain whether I shall not take that step yet, the Captain is gone to Rosseau, and when he returns I will conclude on it.

I have landed 91 Frenchmen in Guadaloupe for whom I got a Receipt from Monsieur Beauverlet, Marine Agent, who informed me there were but 20 Americans at Basseterre, and 20 at Point Petre, I desired he would send them to me, as I wanted to send them to Truxtun, but he said they were doing business and would not leave the Island at that time — I asked him what business, he replied selling their Cargoes and taking in others, and from what I can learn there are several Americans trade there with fish &c and I can't find that there have been more than one or two Vessels taken into Guadaloupe this winter, indeed I do not know how they could get them, the English and our Vessels have watched it so close — they pretend to say, that they don't take Americans unless they have naval stores on board, — but it is well known, they have spoke some Vessels laden with lumber, and after cutting their spars so as to render them useless let them go, — I am of opinion it is a piece of Finesse in them, as the present Governor of Guadaloupe, is taking more arbitrary steps than even Victor Hughes, for as soon as any French Prisoners are sent on shore, they are immediately put on board a prison Ship for the benefit of the Republic, from whence they are drafted to man their cruisers when they are ready for Sea. —

A report prevails here, that the Islands of Guadaloupe, St. Eustatia and St. Martins have formally declared War against America, but I can't find that there is any foundation for the report, if it were so, I should have known more of it, for it is not more than 10 days since I landed the last of the Prisoners, and at that time they seemed to be of quite a different way of thinking — for they had a report that the Marquis de la Fayette was coming out to America with full power to negotiate a peace. —

Be assured, sir, I shall write you every opportunity, and give you full information respecting our affairs here. —

I have the honor to be sir

Yours very hum'r Serv't

(Signed) JOHN BARRY. —

P. S. I don't know what I shall do with the remainder of the provisions which is very trifling — enclosed you have the Manifests of the Cargoes of the Fleet under convoy of the Ship [George] Washington & Brig Pickering.

Cap't Thomas Truxtun

West Indies. —

Per C's Tingey

DEAR SIR I enclose you a copy of my Letter to Barry, such parts of which as are applicable you will consider as addressed also to you — and the whole, in the event therein contemplated. —
I send you by Captain Tingey the articles you wrote to be sent you, invoice of which you will receive. — You will receive herein the substance of the Acts which have passed respecting the Navy — They are not printed or I would send the Acts — The Rules for the government of the Navy passed nearly as you saw them, — except that the Bounty for Guns and Men is greatly increased. — I am anxious for the arrival of the Montezuma — I have written Murray to that effect — If my Letter should escape him, pray tell him so if you see him. —

If Barry got one of the Brigs I hope he sent you another Vessel — the interference I hope will prove to have been justified by the object — I have not time to say all I wish to say — indeed, having such confidence in your good sense, it is not necessary for me to say much.

As I do not send a sufficient number of copies of the Instructions of the 12th instant for all the Vessels under your command, you will supply the deficiency by your orders — Your Sails are making, and I hope will be ready for you on your return, which I wish to be about the time you mention — and yet am anxious that you should have the West Indies for a time to yourself. —

I have the honor &c

[NDA. OSW, Vol. 1.]

To Secretary of the Navy, from Captain Alexander Murray, U. S. Navy

OFF PORTO RICO March 16th — 1799

Benj’ Stoddert Esq’

Dear Sir, The above [see enclosure] is a Copy of what I had the honor of writing to you, previous to my Officers going on shore, You will now find some corroborative enducements, to send vessels to this Station, and to cruise from Bonaire to Laguira, calling off Currocoa, occasionally, for any supplies, they may want, such as water or any kind of refreshments, which can be procured upon better terms, than almost any Island in the West Indies; I find our commerce in that direction, is very extensive, and quite unprotected, for this purpose, if you could spare one Frigate, and a Small Vessel, to go in and out the Harbour for information, or to bring out supplies when wanted, I think you would find them well employed, and would probably soon destroy this nest of Pirates. —

Mr. Phillips, our Consul, who came off to see me, with the governerns Secretary, has promised to represent this business fully, to our Government — The Governerns Secretary, brought me a very polite invitation from him, to bring my Ship into Port, with every offer of friendly civility, which I chose to decline, thanking him for his Courtesy — He was desired to inform me, that it was his wish, to give our trade, all the encouragement in his Power, but the fact is he is a mere Cypher; the Frenchmen can do as they please in defiance of him, who I believe would wish it otherwise, and would soon check their Piracies, in the Harbour, and they are kept actively employed, and had I been two days sooner on the station, I might have saved $100,000 to America — But I was unfortunately delayed longer than I expected, with a small Convoy from St Thomas’s; In that time two very valuable American Prizes were carried in, belong-
ing to New York, and one of our Baltimore Schooners, had a very severe action, close off the Harbour, but effected her escape, the Frenchman lost several men, & three were wounded on board the American. — Did I not see the necessity of taking off the present Convoy, consisting of five Vessels, of which I enclose you a list, I should tarry some time on that Station, tho we are by no means a proper Vessel for the purpose, we do not sail fast enough to catch any of the privateers, and we have been so long on our Cruise (Rigging Sails worn out, and such a general consumption of provisions, and stores, of every kind) that I see the necessity of getting to America, as soon as possible, and when I leave the Convoy I shall see what further services I can do to Leeward, and then proceed on, for I am pretty well worn out myself, as well as our Ship, having been only about twelve, or fifteen days in Port, altogether, since we left the Chesapeake — I am only sorry that I have not been able to render more service to my country, but it has not been for want of exertions on our part, some allowance must be made for the Vessel I command, and when you see her I hope to convince you, that she is not the Vessel for doing credit to the Commander, be he who he may — Since I have cruised off Curacao, I have kept the Privateers in Port, and several American Vessels have arrived in the interim — The Prisoners I have landed, and enclose you a receipt for them, from the Governor, as there is no licenced French Consul here. — I find by our treaty with Holland, that there are favorable stipulations for our Commerce, and upon my further enquiries with the Governor, he informed me, that all recaptures, sent into Curacao, will be considered as American property & protected as such —

My Purser has signed an account for Sundries furnish'd by Mr Phillips, by my orders, for 339.7 pieces of eight, 254 of which is for the ship, the remainder for my Officers, as P. Acct which will be exhibited. —

I am most respectfully
Yourss

Signed A. Murray.

ON BOARD THE [U. S. S.] Montezuma
Off Curacao March 9th — 1799

Benj' Stoddert Esq'

Dear Sir I am this moment sending Mr Bunbury (our 2d Lieut) on shore in the Brig. Volunteer, of New York, that I fell in with off St Croix bound here, she was then in the hands of the British privateer, Scourge, of Antigua, mounting 16 Guns, who was making very free with what suited their purposes, as I could not tell whether she was French or English, I was obliged to fire several Shot at her, before she bore down — I ordered both Capt's on Board, and upon knowing their different accounts of the business, I could do no less, than make the privateer restore the plunder, and dismissed her — The Brig followed me, and the next day we fell in with the French Brig, Les Amis, Capt Mallott pierced for 16 Guns, but had only 6 on board, and 16 men, which I captured, and from the condition of her sails, and rigging and little provision on board, I was obliged to order her for Lucea, on the north side of Jamaica, where I intend to call in my route to America — She was from Porto Rico, bound to St Thomas's
laden with lumber, and a few bales of Cotton, which would answer there, but would be of no service in America. I have wrote to a friend of mine there, to try to dispose of both Vessel, & Cargo, if the thing is practicable, conditioning to have a regular condemnation sent on from America, which the Governor of Antigua tell me might be done, if so, I will take care to have a survey on the Condition of the Vessel, to shew cause why she was disposed of there, she is well coprered, & a fine looking Brig, has been a Guineaman, the whole properly we value at $9000.

Mr. Bunbury has orders from me, to negotiate an exchange of prisoners here, or to get a receipt for what I have on board (say 12 in number) from the French Consul. He is likewise to inform himself particularly, as to the condition of our Commerce, whether there are any distressed American Seamen there, wanting a passage home or Vessels wanting convoy, and what Privateers may be on the Station. If I find that our presence is not wanted here, I shall then proceed homeward & collect information as I go. But I have had so many delays, that I doubt whether I shall be able to see you till the latter end of April.

[U. S. Ship Ganges]

SIR: The Ship Kingston, now on her way to Cape Francois, will touch at Hampton, or at least shew herself to you, with a white Flag on the fore top Gallant Mast — an American Flag on the main Top Gallant Mast, and will fire two Guns to leeward. —

This Vessel will carry Doct Stevens the American Consul General, to the Town of Cape Francois, in St Domingo, to which place you will take her under convoy. — I presume you may leave her in sight of the harbour — it is not meant that you should risk going in; but if you should hear of no superior French force in that quarter you may hover about for a day or two, to give Doct Stevens an opportunity to influence Toussant to invite you in — in which case it may be useful. But you will be cautious and guarded, and Conduct yourself with your usual prudence and good sense; — and if you should have an interview with Toussant, with your usual address. — It is our policy to conciliate the good opinion of that General, and his people. —
You will not however in any event remain but a few days about Cape Francois — it being important that Barry & Truxtun should get the dispatches intended for them — some Sail Cloath &c which Truxtun wrote for, I have sent by the Pilot Boat, and hope the Ganges will have room enough to take it in. —

Some of the Vessels under Barry’s Command are to return — you will for the present, place yourself under his command — he has Vessels enough to make two or three divisions, for enterprizes, & I have directed him to afford you opportunities to distinguish yourself; Nicholson will return — & there will be but McNeill your Senior Officer. —

Enclosed you will find Instructions of the 29th December 16th Jan — & 12th March, none of which I believe, you had before received. —

I also send you the substance of the Laws respecting the Navy which have passed this Session. Wishing you great Success & great honor.

I remain D’ Sir &c &c

PHILA 16 Mar 1799

SAM’ SMITH Esq.

Baltimore

Sir, The Treaty between Tousant and the British amounts to no more than a Truce for the War — Stevens is not to treat with a British Agent — & is to do no more than to make a Bargain for our Trade during the War with Toussant. He can go no farther than the Law.

I really have been so taken up with Navy Affairs, as to know no more about the Ship that is to carry Stevens, than that her Name is the Kingston and that she is to be convoyed by Tingey, who was bound to the West Indies.

I send by Tingey, orders to the Geo Washington of 32 guns — about returning to New Port, to call at St Thomas’ & take Specie from Mr Hiller & others — & to lodge it in the Bank at Providence.

I am d’ Sir: &C.

To General Etienne Desfoumineaux, Commander-in-Chief of, and Particular Agent of the Executive Directory at Guadeloupe, from Secretary of State

General ETIENNE DESFOURNEAUX,

Particular Agent of the Executive Directory at Guadeloupe and its dependencies.

DEPARTMENT OF STATE, Philadelpia March 16. 1799

Sir, Your letters to the President of the United States should have been addressed to the Department of State: They have however been submitted to his consideration. The Retaliation being on the point of departure with french prisoners, in exchange for the Americans you liberated, I must reply in a few words.
I can only observe, that the depredations committed on the commerce of the United States by French armed vessels, in violation of the law of nations, obliged the United States to take such measures as they judged best adapted to protect their commerce and to cause their rights to be respected. One measure has been to restrain and prohibit all commercial intercourse between the United States and every part of the French dominions. These restraints and prohibitions cannot be withdrawn, unless their cause be first removed. The depredation of French armed vessels must wholly cease. Their conforming to the laws of the French Republic will not satisfy. The depredations of which we have so long complained, have originated in those laws. But when the French Republic, or any island belonging to it shall cease to violate our rights by such depredations, so that the President of the United States may deem it safe, expedient, and for their interest to remit and discontinue the restraints and prohibitions above mentioned — our commercial intercourse may be renewed. For your further information, I take the liberty of inclosing the law of the United States for suspending the commerce between the two nations.

I am with due consideration Sir, &c.

TIMOTHY PICKERING.

To Secretary of the Navy, from Captain Alexander Murray, U. S. Navy

[U. S. S.] Montezuma 18th March 1799 —

Off Mona Island.—

Benjamin Stoddert Esquire

Before I part with the present fleet having been detained with them two days longer than expected, it may not be amiss to give you the occurrences of those days — previous to my getting up with the Mona passage fell in with a Danish Ship and a Sweedish Brigg, which we boarded, bound to Hamburgh who beged much for my protection from the British Privateers, as they were from St Domingo,
I told them I could give them none, but they were welcome to keep with the fleet if they chose, which the Ship availed herself of, but the Brig could not keep up — the next day we fell in with a very large Brig, and a Schooner bearing down for us, not knowing what to make of them we perceiving them to be strangely armed prepared to receive them, and shortned sail for them to come up, I then hoisted my signal for British Vessels, but they not being noticed, I flattered myself we were about to try the temper of our mettle, as our Crew was in the highest spirits, but as usual upon hailing, she proved to be the British sloop of War, Deligence, of 18. 32 Pounders of a new construction, & 4 18 Ditto and 130 Men, Commanded by Robert Man Esquire, a Vessel of a large burthen, and built for deception, I asked the reason why my signals were not answered, and the Lieutenant who came on board assured me they had them not, — I then gave them to him, when he made sail after the poor Dane and took him for tryal — & this day we fell in with his Majesty’s Frigate the Trent, of 38 Guns in the passage, — who answered my signals, and assured me that there were no Cruisers here, but themselves, so shall part with the fleet with an assurance of their going home unmolested —

I am Your most ob't hum Serv

A. Murray.

P. S. It may not be amiss to inform you that both these men of War were very polite and civil, offering their services if required — they asked me if the fleet I had with me were all Americans and under my protection, I told them they were and all trading upon legal grounds, upon which no further questions were asked. —

SIR It appears to me, that the Marines not employed on board ship, must be considered as doing duty on shore. — That while they are employed on shore, they should be allowed just the same extra emoluments, as are allowed to the Infantry under similar circumstances, I mean, if they are employed to do duty in Towns or Garrisons, that they should have the same extra allowances which are made to the Infantry in Towns and Garrisons. — When they are employed on board of Ship, they can be allowed nothing but their pay and Rations.

SIR I arriv'd off Cadiz after a passage of 27 days where i was boarded by the fleet stationed of that port and forbid going in Admiral Keith ordered me to Continue with the fleete if I saw fit and that he would give me a convoy to Gibraltar as soon as any of his Cruising Ships came into the fleet i Continued with them five days with the wind blowing heavy from the westward and found that my sails and Riging would not stand it much longer so i concluded to make the best of my way for this port under convoy of a private Armed Cutter of 16 Guns and 60 Men I was obliged to give the Captain Fifty pounds Sterling to see me safe to an Anchor in this port as from the best information the french Crusers are so Numerous
that it's most impossible to come through the narrows without being
attacked by them. I have given Capt. I. Smith an order on you for
three Hundred and Eighty dollars. I expect to sail from here to-mor-
row or Next day in company with Capt. Pribble for Malaga in an
armed ship of 10 Guns. I am fearfull my Not getting into Cadiz will
be a great damage to the Voyage — but it cannot be helped if I can
get into Malaga I hope to obtain a good price for my cargo people in
general think the Risque great in going to Malaga as it's said there
is Several French Cruisers off that port I shall endeavour to Reach
that port so as to go in in the Night — If I get in safe I shall Arrange
your business at Cadiz so as to have the bills you gave your son leave
to draw meete with due honour if they should come to hand you
may depend the Risques in these Seas are much greater than we
expected. I shall if possible get some more arms and Ammunition
and some thing to make boarding Nettings as the privateers depend
wholly on boarding and it will be impossible for the number of men
I have to do any great without being well prepard I shall do All in
my power to protect your property I have purchest Arms and

[PHILADELPHIA]

Navy Department 20th March 1799. —

Capt. CHRISTOPHER R. PERRY

New Port
R. Island. —

Sir You will make such arrangements to commence recruiting a Crew for the General Greene now under your Command, as to have her complement completed by the time she is ready for a Cruize. —

You are allowed, (besides Officers of Marines and 30 privates, which will be supplied by the Major of Marines, and your Commissioned & Petty Officers, the latter of which you appoint), not exceeding one hundred and fifty two Men & Boys. — Of this number you will
recruit not exceeding sixty able Seamen, the residue to consist of Ordinary Seamen & Boys. — It is our best policy to create Seamen — therefore you will take as large a proportion of Boys as can be found useful on board — If you encrease the number of Boys, and ordinary Seamen, you will consequently lesson the Number of able Seamen, and I think it will be found for the good of the service, if you do so. — You will allow able Seamen 17 Dollars per month, ordinary Seamen & boys from 5 to 14 dollars, according to merit; you will be careful not to enlist any but sound and healthy Persons, and that no indirect, or forcible means be used, to induce them to enter into the Service. — No Negroes, or Mulattoes are to be admitted, and as far as you can judge, you will exclude all of a suspicious Character. — Avoid any advance of money if possible, until the men are got on board. — But should you find it impracticable to procure them on these terms you may gratify them. In this case, you will take care to obtain sufficient security, to resort to in the event of Desertion; and you will allow two months advance only. —

You will have a regular account kept of the names and station of each Recruit together with a discription of his person, and his usual place of Residence, so that he may be identified at any future period. — Every man Shipped must take an oath, agreeably to the form you will receive herewith. —

Enclosed is the form of a Shipping Paper, wherein the names, Station, and pay of each Person on board must be entered. It will be necessary, to avoid confusion, that this business be executed with the utmost exactness. The form of a bond to be signed by the Sureties for the Seamen &c, you will also receive, & particular care must be taken, that the Sureties are persons of good, and responsible Characters, before they are accepted. —

Four thousand dollars will be remitted you from the Treasury, for the purpose of recruiting; and you must advance your recruiting Officers, who must settle their acct with you. They will be allowed besides their pay & Rations two dollars for each recruit, in full for every expence of attesting, Ribbon, Punch &c in short, every expence but that of provisioning the men, enlisted at a distant Port; and in such cases the unavoidable expence for their conveyance to the Ship. But they must observe the utmost economy; for extravagant charges for those Expenditures will not be allowed, and no charge will be allowed without a proper Voucher to support it. — Prior to Sailing, you will transmit your account & vouchers to Wm Winder Esquire accountant of the Navy, for Settlement, and be sure to give me timely Notice, of your wanting more money should not the sum now to be sent be sufficient. —

I have the Honor &c

20th March 1799.

Sir, A Part of the Cargo of the Schooner Union being salt Fish and of a perishable Nature; I have directed it to be landed, and sold
immediately, otherwise it would have been totally ruined; the other Parts of the Cargo, I think it will be best to dispose of also, but I have not determined to do so as yet. As the Goods are all adopted for the West Indies, they will bring perhaps double the Amount, such Articles would sell for in America, but I shall not give the Order for a Sale, until I see how the French proceed with the American Cargoes carried into Saint Martin's, and Saint Bartholomews. If they should continue to act as they have hitherto done; without waiting the Issue of the Admiralty Proceedings, I think we may follow their Example, especially with a Business all so completely clear, as that of the Union, and her Cargo. I have however determined on sending the Union to Norfolk by first Convoy, as I find Copper, and other Materials wanted too costly here, and shall order Clarkson to get her a Freight of Rum, which will aid the Cause, and on her Arrival the Vessel must be libelled, with the Cargo captured on Board her, agreeable to all the Documents that she will carry Home, and regular Condemnation can be cast on both Vessel and Cargo aforesaid. This has been the French Practice, and consequently they cannot complain of it. You will however be pleased to direct Pennock how to act, against the Arrival of the Vessel, and a Statement should be made to the Judge also of the French Custom in similar Cases. I have Intelligence of several Privateers, that I leave this in Pursuit of this Day at 4 PM. I have the Honor to be, Sir, with great Respect,

[Enclosure]

To Captain John Barry, U.S. Navy, from Captain Thomas Truxtun, U.S. Navy

U: S: Ship Constellation in the Road of
Bassateer St Christophers 20th March 1799 —

Dear Sir, I have left Orders for Captain Barron of the Richmond to proceed to Windward, and deliver you this Letter as soon as he arrives. I leave the Road of Bassateer at 4 PM this Day, in Pursuit of three Privateers, I have an Acc\ of. The Convoy under Fletcher, and Prebble will sail at the same Time. I shall keep with them as far as Eustatia, and there reconnoitre ahead as far as the Passage. I have told Captain Fletcher he had better not leave them, until they have passed the 28° of North Latitude, as several American Vessels have been lately captured in the 26° of Latitude, and the 67° of Longitude.

I wrote you some Days ago, that I had taken off Bassateer Gaudaloupe, a valuable French Letter of Marque, and brought her into this Road, her loading Dry Goods, Provisions, and Spermacita Candles: I have wished much an Interview with you, and went up under Gaudaloupe principally for that Purpose. I had managed with the Secretary of the Navy previous to my leaving Phila: for Rodgers to command the Baltimore, and Phillips one of the small Ships building at Baltimore, but the latter, I am told, is dismissed the Service. As the Baltimore has come out for Rodgers, who has a better Ship,
I have it in my power to make a promotion, but it might cause a jealousy with other lieutenants in the navy, to see too many made out of my ship. I have therefore thought proper to propose to you taking lieutenant [James] Barron from the U. S. [United States], and placing him in command of the Richmond, as I purpose putting Samuel Barron on board the Baltimore; I mention particularly Lieut: Barron, because I suppose it will be agreeable to you, as I understand you are much pleased with him, and the two brothers will do well together, and Barron will have an opportunity of being with his family frequently, as the vessels will return to the chesapeake to refit &c.

Capt. Williams of the Norfolk I have been under the necessity of sending home; his conduct has been shameful to himself as a man, and disgraceful to our country as an officer; he fell in with a privateer, and after carrying away his foretopsail yard by a shot, and doing her much damage otherwise, so that she was obliged to heave to, his officers state, that he went in chase of a swede that hove in sight, by which means, a troublesome french pirate escaped into eustatia, I am sure you will think with me, that it was best to send him home, as the services of that vessel, or at least what she is capable of rendering, could not be calculated on, while under such a man's orders. In whatever way I can co-operate with you, and render service to our country, I shall always be happy. Our trade is great, and we want more cruizers on the west indies station particularly to leeward. A report has prevailed here of some dutch frigates having arrived at surrinam. I believe it is true, tho' little dependence can be placed in reports in this country. I have the honor to be Dr. sir, with great respect,

Your very obedient humble servant

[Philadelpia]

N. Department 20th March 1799.

Major General Charles C. Pin[c]kney

Sir Besides the two gallies at charleston, there are two at Wilmington in N° Carolina, and two at savannah in Georgia — the former under the agency of Ameziah Jocelin, and the latter under that of Ebenezer Jackson — the last four are officered and manned, & I presume those at charleston, will shortly be. I have arranged with the agents at different places, on the subject of supplies pay &c. — but cannot, at so great a distance, and with little knowledge of the country, direct their operations. — May I be permitted to request, that you Sir will take this trouble upon yourself — — in the hope that you will do so; I have instructed the captains to take their orders from you.

The greatest part of our vessels will shortly leave the west indies, and will be principally employed during the summer, on our southern coasts — at least, so many will be so employed, as to leave little to
apprehend from the Enemy, — without an increase of their strength in the Islands. —
I have the Honor to be &c

WILLIAM CRAFTS Esquire
Charleston Sth Carolina

SIR On the subject of the Gallies, I beg leave to refer to my Letter of the 11th September last. — I now enclose a commission for Capt George Nicholls, and his Instructions — I know of no Commander appointed for the other Galley — it is necessary that one should be appointed — be pleased to select a proper Character, and let him act — as soon as you give me his name, a Commission shall be sent to him. —

The Captains, if you will not undertake to do it, must select proper Characters for Lieutenants — and must appoint their Boatswains — the names of the Lieutenants must be sent to me, that they may be commissioned — Men I understand from your Letters cannot be got for 6 Dollars p' Month and the Cloathing allowed — Judge them at what rate they can be got, and Act accordingly — but I hope the Pay need not exceed 12 Dollars p' month, the Men Cloathing themselves. In all other particulars, you will please to conform to my Letter of 11th Septem' —

When the Gallies are Officered and manned I hope General Pin[c]kney will undertake to give them their orders. — It falls properly within his Department — They had better be kept employed in any thing useful to the City of Charleston, or Country than to be idle. — Perhaps some employment can be found for them, which will not interfere with the object for which they were built, should an Enemy ever appear within their reach. —

One of your Letters mentioned that the Branch Bank at Charleston, would not receive the paper of the Bank of the United States. — Remittances from here will be difficult. — If you can draw on me for the Navy Disbursements, it will be best for you to do so. —

If you should be of opinion, on consultation with General Pinkney, that it will be best to keep the Gallies at Charleston, with a few men only, ready to receive Volunteers on any emergency, which may require their services, I shall be perfectly satisfied —

I have the honor &c.

Extract of a letter from Jedediah Kelley, supercargo of the armed ship General Lincoln, to his owners at Norwich, dated Havana, March 20, 1799

HAVANNA March 20. '99.

"We arrived here yesterday from Antigua, which place we left in company with the ship Sterling, which mounted more guns than the General Lincoln. We saw several privateers which we supposed were French; the ship Sterling universally gave chase to them, but they were soon out of sight, sailing much faster than the Sterling — after which the Lincoln was boarded and examined by two English cruisers, one a sloop from Jamaica, the other a brig of 16 guns, from New Providence — the latter after permitting the Lincoln to pass, gave chase to the Sterling — she has not yet arrived.

"There is some expectation of an attack on this place by the English — Reports say — (and not without belief,) that there is an expedition fitting out in England of 15 ships of the line, and 3000 troops, destined for this place — the certainty now is, three ships of the line and seven frigates cruising of the harbour, supposed to prevent obtaining any supplies, or reinforcement of troops.

"Several American vessels have been taken to windward of this place. A Danish sloop that arrived here yesterday had been captured by a French privateer detained eight days and liberated — the captain of which says, the privateer had on board a number of thousand dollars taken from Americans bound to and from this place. Report says, That a French corvette has captured an American sloop of war — it is not believed, as there has been no such vessel heard of cruising in the West-Indies of late. Previous to our leaving Antigua there was one captured by a British ship to windward of that Island and brought in there."

After the conclusion of the letter, he observes — "Since writing the within, the news is confirmed, respecting the American ship being captured, of 22 guns. She was boarded ten leagues from this port by two French privateers, and 65 men killed out of 70!"

(Char. Town)

Sir I had the honor of addressing you yesterday soliciting the favor of you to take upon yourself the direction of the operation of the Gallies, at Charleston and the two Southern States. I confess I have but little expectation that it is possible to employ these vessels usefully in the present situation of our affairs. If the French were superior to us on our own Coast, then the Gallies, cooperating with a land force, might be of importance. — But the Laws have directed the equipment and employment of the Gallies — the people most exposed will be better satisfied; and to satisfy any part of the people that the Govt is not inattentive to their Safety, is an object worth more than the expence. I am however very much afraid that these Vessels finding little to do — perhaps in the course of a year, not seeing an Enemy, will become Idle; & spend the greatest part of their time in harbours; which will make the Officers & men, inactive & good for nothing, this will more probably be the case, if they are to receive their orders from me, than if they were accountable to a Gentleman better able to judge of their conduct — it is on this account; as well as that they may be employed to the Public advan-
tage, if it be possible, so to employ them, that I have taken the liberty to solicit that you will take the direction of them. —

I have the Honor to be &c.

Ebenezer Jackson Esq'
Savannah

Sir I have been honored with the receipt of your letters of the 17th December and 10th Ultimo. — Cap't Randolph informs me that he has obtained a Crew for his Gally, at the rate of 14 Dollars p'm Month, without Stipulating to furnish Clothing, and I hope that in future, men may be obtained at 12 Dollars p'm month or under, but I would prefer enlisting them at 6 dollars p'm with an allowance for Clothing, agreeable to my former instructions if practicable; If not you must give 12 dollars without the allowance.

Mr. John Howell having been Strongly recommended, has been appointed to command the S't Marys Gally, Mr. Thomas Fowler is appointed a Lt. — as well as a Mr. Hendrick Fisher. — The latter can supply the place of Lt. Shane, whom Cap't Braddock informs me he has been under the necessity of suspending for drunkenness as well as his Boatswain — I send by this conveyance the Commissions for Cap't Howell, Lt Fowler, and Fisher — I hope that General Pin[c]kney to whom I have written on the Subject will undertake to give orders respecting the employment of the Gallies.
They had better be employed in any thing useful than to be idle, perhaps some employment can be found for them which will not interfere with the object for which they were built, should an Enemy appear within their reach. — but until General Pinckney does interfere I must request that you will keep them to their duty.

As I presume they will almost constantly be employed near Shore, where Assistance can at any time be procured, it is unnecessary to appoint a Surgeon. — when medical Aid is required, you will please to procure it on as moderate terms as possible. — With respect to Vouchers, Duplicate receipts are necessary one of which [is] to be forwarded with your statements to the Accountant of this Department and in cases where you have hitherto taken only one Receipt, such receipt ought at all Events to be forwarded, even if you should be at the trouble of keeping notarial Copies for your own Security, but on the subject of Vouchers and Accounts, permit me to refer you to the Accountant Mr Winder.

Extract of a letter from Gibraltar, dated March 22, 1799, regarding Ship Mohawk beating off French privateer

"We have arrived here in the ship Mohawk, capt. Steel, after a disagreeable winter passage of 42 days. We had a safe passage, but were obliged to make use of our guns. or we should have been taken, as we were several times fired at by a French privateer, but we shewed the Frenchmen what they did not like, by letting fly our stern chases, and our balls went pretty close to them. The privateer left us, but returned again in the dark of the evening — we fired again, and she sheered off to the Spanish shore. We could see eight gun boats, besides this privateer.

"The Spaniards join the French in taking our vessels. I have been here but eleven days, and there have been six vessels taken and carried into Algesiras, some of them English, but mostly Americans;"
indeed scarcely an unarmed vessel comes into the streights that is not taken, except it has a convoy, and even then they must be very careful if one or two of them be not taken. Two English vessels were cut off from the last convoy from England. From this place we can see the town of Algesiras, and all the vessels that go in. A constant communication is kept up betwixt the two places, for conveying letters, provisions, &c.

"An American brig had lately a dust off Malaga with a Frenchman. The French vessel came under the stern of the American, and desired him to strike. The American did strike with a vengeance — she gave him her stern chases, and a whole volley of small arms. She then rounded off, and fired a broadside, which made the poor devils cry out for quarter, and about twenty of them paid for their temerity with their lives."

Fresh Breezes and squally Weather all these Twenty four Hours. Spoke the Padrie a British Frigate which I fell in with, when chasing by the Wind a British Schooner, which she spoke. Captain Foy informed me that he had not the private Signals between his Majesty’s Ships, and ours.

At half past 5 AM saw a Ship, and Schooner, gave Chase to the former, which I soon after discovered to be the Padrie, then chased the latter [Active] by the Wind and at half past 8 AM a violent Squall came on, as we were carrying a Press of Sail in Pursuit of the Chase. Let fly all our Sheets, as the Ship lay’d over much, and a considerable Quantity of Water came in at the Ports; she however soon righted again when we made Sail, and at half past 9 ditto brought too the Chase, after firing two Shot. She proved by her Papers to be a Swede from Gaudaloupe bound to Saint Bartholomews which sailed Yesterday. After examining her Papers, at half past ten ditto I dismissed her, but the Padrie coming up (on Board of which Ship I sent Captain Foy the Signals as aforesaid) took Possession of, and carried her off, for legal Adjudication, hoisted in our Boat, and stood to Leeward.

It is well to remark here, that as soon as I had examined the Papers of the above Vessel, which was called the [Active] and commanded by [ ] and was satisfied she was not an armed Frenchman
that I gave the Master all his Papers, and sent him on Board his Vessel, with Permission to proceed on his Voyage. Joseph Antonio however lately captured on Board La'Insur gente declared, that he knew the above Schooner to be french Property, and that she was owned in Gaudaloupe, but notwithstanding this Declaration, I would not detain her.

To Secretary of the Navy from Captain Thomas Tingey, U. S. Navy

[U. S. S.] Ganges ELIZABETH RIVER 23rd March 1799

Sir On the 17th I was honor'd by rece't of your correspondence of 7th inst and the 19th brought me those of 9th & 12th with Lieut' Kenyon, Mess'rs J Dubose & S Elbert midshipmen, and eight men & boys formerly of the Retaliation. — I have recruited here seven to the Crew, and one Marine. — Received one who was left sick from the Richmond (now recovered) and two who were confind as mutineers of the Baltimore, but appear to have been deluded by the artful villainy of others.

I have discharged Wm M. Mills, ship'd as pursers Steward, render'd incapable of duty from sickness, brought on or heighten'd by his own indiscretion. John Lane boatswains mate, John Thatcher, seaman; and Jonathan Zane landsman, all three unfit for the service (as per report and certificate of the Doctor) from the effect of diseases of long standing, though latent at the time when ship'd in Philadelphia.

The accounts of these men severally are forwarded to the Accomp-tants department; as also the particulars of money advanc'd some of the Officers, who needed a little accommodation. In order that the charges (if necessary) may be noted against them, and the amount carried to my credit.

The Boatswains, Gunners and Carpenters expenditures are sent you in detail; perhaps more particularly than necessary: but as no doubt an uniform mode for the service, will be establish'd for these accounts, I have caus'd them drawn in this manner, as, should it appear to You more eligible than others — Books and paper may be replenish'd stores in the different departments of the Ship, as far as I conceive necessary for the cruize; but with all the occonomy I thought prudent. Those in the gunners and carpenters charge — were, for the former in part left behind at Philadelphia, after being in a state of preparation — While those for the latter were never prepar'd, owing to the negligence of the former Carpenter, who deceiv'd me in declining to proceed on the voyage, at so late a day, as to render him in my mind highly culpable, and undeserving Public employ in future.

The Ganges Sir, is now in excellent order, and my Officers and crew in high health and spirits. I have a pilot on board, intent on proceeding to Hampton Road this evening, in order to be ready to proceed for sea without delay (wind & weather permitting) as soon as the ship shall arrive with your instructions—which I shall endeavor to put in effect with all the dispatch in my power.

During my detention here, I have frequently visited the Frigate building by Mr Fox — I admire her much, as well as his persevering assiduity, by which her progress (though through a series of bad
weather) towards completing, exceeds the most sanguine expectations of all who view her.

I congratulate you Sir, on Your success in effecting so handsom an augmentation to the Navy, and felicitate our country on the happy prospects that must necessarily result therefrom

I have the honor to be

To William Winder, Accountant of the Navy, from Captain Thomas Tingey, U. S. Navy

[U. S. S.] Ganges  ELIZABETH RIVER 23rd March 1799

SIR I transmit you herewith my account of advances and expenditures for the Ship Ganges — subsequent to leaving the Capes of Delaware; my account current in which the amount is charged to the United States. The accounts of four men discharg’d from the Ship — and memorandums stating the alterations in the crew — so far as it differs from the Pay roll heretofore transmitted you.

In my letters from St Thomas, a memorandum of the Powers of Attorney left by part of the Crew to their wives &c.wasforwarded, and it was observed therein, that a Robt C. Harris, had obtain’d mine and the Purser’s signature to one, although we had no such person on board; this business is now cleared up: Robert Carnes Harris, is one of the Quarter-gunners — but by some error, his name on the articles is inserted Robert Carnes only, and he having always answer’d to the latter, the mistake would have continued — had not a letter come from his wife in Philadelphia, on the subject of being refused the half pay — She may now however if you please be accommodated therewith. — I have also to request that the half pay of William Slater, a quarter Gunner, to Lewis Albertus, may be discontinued — Slater having inform’d me, that the power was surreptitiously obtain’d from him

I have the honor to be

Sir I have received your letters of the 4th & 14th ult. and 5th Inst — Your Accounts are now under the examination of the Accountant, I will attend to them, and every proper charge will be allowed — I am sure you will make no unreasonable ones. — Four hundred & fifty pounds of Powder was the quantity contained in the original Estimate for the Galleys, and it will be enough for the first outfit — If more should be necessary please to procure it; — with respect to the number of Cartridges, you may consult Cap' M'Kerall & Cap' Dorsey — The muskets have been ordered some time, and will be sent by the first conveyance; — The rule adopted has been, that the pay of the Officers of the Navy should commence from the date of their acceptance of their Appointments, except in cases where they have been engaged in Service before they have been actually appointed, and on these occasions it has been thought proper to allow them Pay from such period. —  
I have ordered a Remittance of 1000 Dollars to be made to you, and shall send a further sum if necessary. — I send by this conveyance the commissions of Cap' M'Kerall & Cap' Dorsey.  

In my last I informed you that I approved of your intention of sending the marines which had arrived at your port, either to New York, or this place, and I hope they will soon arrive. — You enquire of me respecting Staunchions, nettings and Awnings for the Galleys. —
Awnings may be provided, but all superfluous Expense should be carefully avoided.

Circular

Mr Samuel Williams

London

Sir, I consider it necessary to the good of the Publick Service, to acquaint you for the information of the Commanders of any American Vessels destined to pass the Straits, that the French Privateers stationed hereabouts have of late increased not only in number, but that several of them have had heavier Guns and more Men put on board of them than they formerly carried.

It is not uncommon to see ten or twelve of those Cruizers at a time off the Straits — They are of all Sizes from open Boats with Musketry & Swivels, to Misticos & other latteen sail Vessels of twelve Guns, some of them carrying 60 Men.

I have also observed among them an English built lugger & a Schooner.

It does not yet appear that the Emperour of Morocco means to take part in the War declared against France by some other Mahometan Powers.

I am

Sir,

Your mo. Obd. Ser't

To the Governor of St. Bartholomews from Captain Thomas Truxtun, U. S. Navy

UNITED STATES' SHIP, Constellation,

Off St. Bartholomews' March 23d 1799 —

Sir, It is of importance to the Government of the U: S: of America, and the Merchants, and Citizens thereof to know from your Excellency whether you intend to suffer the French to bring American Vessels captured by them into the Ports of your Island. Having been informed, that two Vessels made Prizes by the french Cruizers, and belonging to Citizens of the United States, are now in your Port, I am induced to make this Request. — My Government, Sir, being on the most friendly Terms with Sweden, and disposed to continue so, I wish to believe, you will order out of your Port without Loss of Time, the two Vessels above mentioned and that in future no Other under such Circumstances will be suffered to enter, and harbour therein.

I have paid the greatest Respect to your Flag since I have been on this Station, and am disposed to render every friendly Assistance in my Power to the Swedes I meet.
Yesterday I chased and brought to, a small Schooner under Swedish Colours from Guadaloupe (that I suspected at first to be a French Privateer) which I dismissed after examining her Papers; a British Frigate (the Padrie) however came up immediately after, and captured her; where the Vessel is sent to, I do not know, perhaps to Antigua. —

I have the Honor to be, Sir, with great Respect Your Excellency's most Obedt hble Servant.

His Excellency the Governor of St Bartholomews'

A fresh Trade Wind, and squally; at 4 PM. stretched close in with the Roadsted of Port Gustavus in the Island of Saint Bartholomew's; the Harbour Master came off, and made a Tender of his Services to pilot me in, but as I had no Business, that made it necessary to run the Ship in that Harbour, I thanked him for his Services, and stood out to Sea by the Wind.

At a little after 5 AM saw a Sail, gave Chase, and at 8 ditto brought her to; She was a Swede from Montserrat bound to St Bartholomew's, I requested the Master to be kind enough to give Lieutenant Andrew Sterett a Cast on Shore, as I wished to send him to the Governor with a Letter, which Request he readily complied with, and I dismissed him immediately, and gave Chase to three other Vessels under the Lee Bow, all of which I brought to, and spoke; two of them were Schooners from St Bartholomew's bound to Guadaloupe in Ballast, the Other a Sloop from St Croix bound to Dominica in Ballast; dismissed them, and stood in Shore. At Noon close in Shore off the Fort of Port Gustavus, laying with the main top Sail to the Mast waiting for Lieutenant Sterett.

Extract of a letter from Captain A. Gordon, to his owners, in Norfolk, concerning recapture of Schooner Lydia, from New York

EXTRACT OF A LETTER FROM CAPTAIN A. GORDON, TO HIS OWNERS IN THIS TOWN, DATED

TORTOLA, April 3, 1799.

"On the 24th March, in lat. 23, 20, long. 61, 10, I was so unfortunate as to be captured by a French privateer out of Guadaloupe, and myself and four of my crew taken out of my vessel, and she ordered for that island. Same day they took the schooner Lydia, capt. Waring, from New York, on board of which they put my boy and me, with 7 men belonging to the privateer — 3 days afterwards being in sight of St. Martins, I retook the Lydia, and next day arrived here safe with her.

"You will wonder how I effected the recapture of the Lydia, when their numbers were so much superior; — they had but one sword, and supposing they had nothing to fear, took no care of it, but at the point of it I drove such down below as I thought proper, and locked the hatches on them; the others I made work the vessel,"
"The *Lydia* was loaded with staves and heading, which will fetch a good price here."

To Secretary of the Navy from Captain Thomas Tingey, U. S. Navy

Sir The arrival of the Flying-Fish, pilot boat, last evening, honor'd me with your instructions of the 16th inst with the accompaniments of the 26th December — 16th January and 12th March: all which shall be strictly, and duly attended to.

The Ship Kingston, with Doctor Stevens had just anchor'd near the Ganges, when the Pilot boat arriv'd.

Wind & weather permitting I expect sailing early on the morrow — with the Kingston, and shall make all expedition for Cape Francois; there endeavor to facilitate Your views, conformably with the letter of your instructions; and having effected that business, proceed to the windward, in order to deliver the Cordage &c to Captain Truxtun, which I have this day received.

I am however apprehensive that, the great distance of St Christopher's to the windward of the Cape, at the approaching season of the year, when the trade wind varies inconsiderably, from its usual easterly direction; will require more time to effect the passage, than may probably have been calculated on: suffice it to say, every advantage shall be taken of such variations as may occur. Having deliver'd the supplies to Capt Truxtun, or lodged them in safety at his place of Rendezvous. — I shall as expeditiously as possible join Commodore Barry, and, as it is Your order, place the Ganges under his direction for future operations —

I have the honor to be

Sir, I rec'd your letter dated 15th Instant — With respect to my pay Sir you are very accurate. I dont expect to be allowed wood while at sea, but for the time I done duty on shore I expect to be allowed for. I expect to proceed to sea to morrow; as the Ship we are to convoy to the West Indies arrived yesterday. I have rec'd from Lt Cammack two Marines without accoutrements but I believe I can supply them from the accoutrements belonging to the deserters. The men has not got any pay, which I think very hard treatment, and they are continually complaining to me, but I can do no more than I have done, which was to shew Capt Tingeys your letter where it said Mr Lewis was to advance them some pay which he has not done, there are some of them in a very bad way for clothing, which they would purchase if they would be paid the money due them they intended to join and purchase blue cloth as I told them I would let Brit make them up for them, you will please Sir to take it into your consideration, and adopt some plan by which the men may be paid regular.

I hope Sir when the additional officers is appointed to the Marine Corps, that I will be promoted 1st Lieut, you Sir I expect will do all in your power to obtain that commission for me.

It is found by experience, that the small Vessels in our Service, are in general but dull Sailers compared to those employed by the French. — a few very fast Sailers might render essential Service. — As there is no person on the Continent better able to direct the construction of these kind of Vessels, I beg the favor of you, to have one built & fitted as early as possible. — It is left with yourself to determine whether she shall be a Brig, or a Schooner — she must not exceed 18 Guns, but she need not mount so many, if you should judge that a Schooner of 12 or 14 Guns, would better answer the purpose. —

Money shall be furnished as wanted — and it is desireable to have the Vessel ready as quickly as it can be done. —

JOHN ADAMS Esq.

President of U. S.

SIR I have the honor to enclose copies of a Correspondence Just rec'd between Cap't Truxtun, & General Desfoureneaux. Truxtun expected to get the Insurgent at Sea, about the 2d or 3d March; having a prospect of picking up men enough from the Islands, to man her; —

The Newspapers give an acct of Barrys having captured a french privateer, & recaptured an English armed Vessel — and of the Cutters under the command of Decatur at the Havanna, having taken a privateer of twelve Guns — but I have rec'd no official information of these captures. —

My latest letters from the West Indies, is from Murray, dated 3d March. — He speaks generally of the great protection afforded to our commerce, by the armed Ships; but assigns good reasons for believing, that Guadaloupe is supplied, & in spite of our Laws, will continue to be supplied, with provisions, by American Citizens, & American Vessels. —

Altho it is not within my Department, I take the liberty to mention, because I am sure it will afford you pleasure, that there seems to be a very probability that the Insurrection in Penn* will be subdued without Bloodshed. — A number of the prisoners who were rescued by the armed force have delivered themselves up in Philadelphia; and I believe those who appeared in Arms will not resist the Marshal, supported as he is to be, by about 200 horse, who are to proceed with him to that County in two or three days. —

DEAR SIR, I enclose you two Letters from the Officers of the Baltimore previous to the Receipt of which I had determined to put Capt° Barron in Command of that Ship, and to place Lieutenant Speake in the Command of the Richmond, which I hope will meet your Approbation, having assured Lieut: Rodgers from your Letters to me rec'd by the Baltimore that he was certainly appointed a Capt° e're this, I hope he will soon receive his Commission as such. Lieut: Barron now on Board Barry, I am in Hopes you will make it convenient to appoint to the Norfolk, as I am told he is a very deserving, enterprising Man, and such we want.

I observe that Dale has Leave of Absence for to make another India Voyage; I have a very good Opinion of Dale, but surely this is no Time for a Captain of a Man of War to expect an Indulgence of that Sort; as to Talbot, if he is considered an Acquisition to the Service, there can be no Want of Captains for our Navy, the Army, and every City, or Town in the U: S: will furnish a Plenty. A Sailor
will make a Soldier, said old General M'Dougal (on hearing of the Capture of the Oliver Cromwell of 28 Guns in 1777 by a Sloop of War of 14 Guns) but* a Soldier can never make a Sailor. I have no Enmity to this Gentleman — but on the Contrary I believe him to be a worthy Man from what I have heard, but I cannot bring myself to believe, that in the Line of a Sea Officer, particularly in an infant Navy, where every Officer looks up for Instructions, and Information, that he is a proper Person; but if the Government think otherwise I have no more to say on the Subject, nor should I have made this Observation, but you have requested my Opinion on all Matters respecting the Navy, and what strikes me I give freely. If the Ships of the Line are to be built large 84* on an improved Plan, will be equal to a first Rate, and preferable to three Decked Ships. I wish I could see you, and Humphreys, before the Draughts are drawn, these Ships must have great Room, and not be oversharp as our Frigates certainly are.

I have the Honor to be Sir with great Respect

To Secretary of the Navy from Captain Thomas Truxtun, U. S. Navy

U: S: Ship, Constellation, Road of Bassateer
St Christophers' March 26th 1799 —

Dear Sir, Since I had the Honor to address you last under Date
of the 20th of March. I have made a short Cruize about St Barthol-
mews' and St Martin's, but have only met with Danes, and Swedes,
of which there are Numbers in these Seas, carrying on most of the
Trade, and covering French Property, and as I mentioned to you
some Time ago in a Letter, those we examine, and let pass, for Want
of Powers to detain them, the British capture, and condemn here.
I have returned in Expectation of meeting the Baltimore, and Vir-
ginia Cutter, and to arrange Matters for their Destination, and I am
happy to add, that on my Approach to this Road, I found, that they
had both arrived, as also the Transport with Provisions. I shall
dispatch the Richmond, and Virginia to cruise as per the enclosed
Copy of my Order to Lieutenant Speake; & The Baltimore shall be
employed in Convoys, while the Constellation, and La'Insurgente
cruize in Concert. Two Americans having been sent into St Bar-
tholomews' by a French Cruizer, I made it my Business to address
the Governor of that Island on the Subject agreeable to a Copy
transmitted herewith and Numbered 1, and his Answer you will find
under Number 2. I shall sail again myself 28th at which Time my
little Squadron will all be at Sea.

I am &c.

To Stephen Higginson, Navy Agent, Boston, Mass., from Secretary of the Navy

[PHILADELPHIA]
Navy Department 26th March 1799

STEPHEN HIGGINSON Esquire
Sir: I am honored with yours of the 18th and 19. instant. — I beg you will please to pay those persons having powers from the Merrimack and [George] Washington, as well as from the other Ships — As to Mr. Nicholson, I presume her power is only for half Pay — and that it cannot be proper to pay more — but if it is for whole pay, then I presume she may have it, reserving enough in hand to pay what Nicholson owes. — As to his Stores, I know not on what principle they can be allowed by the Public. —

I wish this poor Man was richer, — or in a service more profitable, and where he would be more useful. — From his general character — and from such parts of his conduct as I have had the opportunity of knowing, I can have no confidence in him. — I am afraid to trust him with a separate command — and to keep such a Frigate as his under the command of Barry, in the present state of our affairs, when we have no force equal to either, to apprehend, is to make her of no more use or importance than a Ship of 20 Guns. —

I have long determined therefore, to prevent his going out in her again if possible — and it is indeed that she might have a better Commander, and be better employed that I have lately ordered her in. — I expect she will be at Boston in six weeks — I hope she need not remain there longer than a fortnight, and that she may yet render some service before the end of the year, for which the Crew engaged — or that if this be impracticable, the men will agree to extend the time two or three months. — Had there been confidence in Nicholson, another division of our Vessels might have been advantageously made in the West Indies — Barry has too many crowded together — and has not mind enough for their employment. — My present Idea is, to keep fewer Vessels stationary in the West Indies; to let none remain longer than two or three months — (least like the British they get enervated) and to have Squadrons sailing constantly to and from the Islands relieving each other — Such an arrangement will require that the Frigates at least, be well commanded. — I should be glad of your opinion on this, or any other arrangement you think more judicious. —

But to return to Nicholson — I am at a loss to know what means to fall on to get clear of him. — He might be arrested for his conduct.
in relation to the Ship Niger — but that ought to have been done sooner, — besides I wish not to injure his family. — If he could be brought to ask leave of absence for a month or two — another Captain would be appointed to the Ship — His pay would go on until called in to or discharged the service; — and if not soon called on, his pay &c would be but a trifle to the Public, & of consequence to himself — I have no acquaintance with any particular friend of his, through whose means this might be brought about.

Can you do me favor to manage it for me. — I think of Talbott to take the command of the Constitution — but I want the thing so settled, that I may have him ready to take command quickly after the Ship arrives. — On the subject of Masts, those you have engaged will not be in time for the Ship, I wish therefore you would have those most wanted by Nicholson, prepared by any means in your power — If persons can be found to make the Masts, as the large Masts of the British Ships are made, it will be very desireable, and tho' most expensive, we shall be soon driven to that mode from necessity — I have directed a remittance to be made you of 20,000 Dollars. —

I have the honor &c

P. S. I enclose a list of the Persons on board the Merrimack who have left Powers. — I have not a similar list from the Geo: Washington. —

Capture of the Brig Prudence of Newburyport, by French privateer sloop, and recapture of Prudence by Americans on board.

Extract from the Log-book.

Sailed from Surrinam, with 56 other American vessels, under convoy of the Portsmouth sloop of war, Daniel M’Neil, who convoyed us as far to the northward, as 23d long. 61, and then informed us he was going back to Jamaica. After that, we kept company several days with Capts. Hopkins, Davis, Bailey, Caswel, Tilden, Harding, &c. all for Boston. Randell and Patten for Salem. On the the 3d of May, fell in with the brig Prudence of Newburyport, from Surrinam, bound to Newbury, who had been taken by a French privateer sloop of 16 guns, one 18 pounder, four 12’s and eleven 9’s from the Havannah, bound to France; they took out the Capt. supercargo, mate, and four people, and put seven Frenchmen on board, and ordered her for France. After a few days the three Americans that were left on board, rose and retook the vessel, but had no navigator on board, except the prize-master; Capt. Henderson thought proper to take him and one man out, and put Mr. Copeland, and two men on board, with orders to make the best of his way to Newburyport, to the owner, Mr. Leonard Smith.

There has been an embargo on American vessels at Surrinam, from the 3d of Feb. till the 25th of March, in which time, there arrived three Spanish frigates, with troops, three Dutch frigates sailed for Europe, and four French schooners for Cayenne, with provisions
for that colony; we were informed that the troops of Cayenne, were in a state of revolution, on account of there being no provision in the colony, owing as they say to the ill treatment, that the Americans have met with.

To the Secretary of State from David Humphreys, U. S. Minister, Madrid, Spain

MADRID March 29th 1799

Sr In the Gazettes which are forwarded to you herewith will be found on the one side the message of the Directory containing their motives for declaring war against — the Emperor of Germany & the grand Duke of Tuscany, and on the other the orders of the Arch Duke Charles issued the day on which his army passed the Lech, together with other interesting pieces. No news of a general action have yet reached us, and it is hoped that the Russian auxiliary corps may have joined the Austrian Army previous to such an event.

The French Ambassador has received a Courier from Paris, who brings Intelligence some days later than the ordinary Mail. Nothing has transpired, nor has any printed paper come to hand by him.

I enclose herewith a letter addressed to yourself & sent to me by Capt? Ingraham. as also the Copies of one from him to me, another from a M' Donagh & a third from Mf Famin.

In my next I shall transmit the translation of a letter (written in Arabic) from the Bashaw of Tripoli to me respecting the Presents stipulated to be furnished on the part of the U. S. and particularly a Brig which it is asserted was promised by Capt? OBrien at the time when he concluded the negociation at Tripoli.

I have the Satisfaction to put under this cover a letter from Capt? Gamalial Bradford, of the Ship Mary of Boston to our Consul at Malaga, giving an acct of the gallant manner in which he repulsed several French Privateers & arrived safe at Malaga. Such conduct, at the same time it does much credit to our Citizens, is well calculated to impress those piratical Frenchmen with a due respect for our flag.

By a late letter from Paris, I am advised that the Pegon [or Pegou] Indiaman, belonging to Messrs Wains of Philadelphia with about 145000 Dolls on board, captured & carried into L'Orient by a French National Frigate has been liberated by the judgment of the Tribunal of Commerce, excepting 37,500 Dolls, for which there was no Bill of Lading found on board. Altho' the sentence had not been carried into execution at the date of the letter, it was not doubted it would be. As this Ship was not provided with a Role d'Equipage the writer of the letter imagines this judgment would not have been given without the particular interposition of the Government. From this fact and the reversal of several condemations by the Tribunal of Cassation, he conceives favorable expectations for the Neutral Powers. But unfortunately the repeated Capture & Condemnation
as good prizes of Neutral vessels in the Ports of Spain seem to counteract those flattering expectations.

With Sentiments of great respect & esteem

I have the honor to be

[U. S. S.] Ganges Hampton Road 29th March 1799

Sir. The morn' of the 26th was calm and fault'ring and in my expectation indicative of heavy weather.

I was not deceiv'd, at evening it commenc'd blowing hard, height'en'd in the night to a severe gale, and continued 'till last evening. The Ganges sustain'd no damage — nor did the Kingston, except the loss of one Anchor — which as the wind is now fair to proceed to Sea, he cannot replace here.

On examining the Pursers rece't of stores at Norfolk; it was found that a mistake had occur'd by which only 16,500 lb's of bread had been receiv'd, being much short of what I had order'd indented for.

Having lain here much longer than I expected and calculating that the quantity left of our former stores is now nearly about expended — I dispatch'd M'r Lewis to Norfolk last evening for 50 barrels more being all we have room to stow; making the aggregate quantity now on board, nearly as per Schedule of Provisions herewith enclosed.

I expect the Pilot boat of M'r Garrets will see us out of the Capes, of which on his arrival he will give you verbal information — unless I should find it expedient to write You again

As you have been so long absent in the West-Indies, your request for permission to attend to your private affairs for two months, is thought reasonable. Extract from log book of Schooner Triton, Capt. Parsons, concerning Captain Packwood, of the Ship Washington, encountering French pirate

"On the 21st March sailed from La Guira, in company with several vessels bound to the United States, under convoy of the armed ship Washington of N York — capt. Packwood, commander of said ship, having politely offered them a convoy through the Mona passage. Several of the vessels sailing very fast left the convoy; others sailing dull and falling to leeward of the passage, lost the advantage of the convoy, though capt. Packwood made the signals agreed on, and hove too for upwards of 24 hours in hopes of seeing all the vessels; but being disappointed in this his warmest wish, considerations of regard for the interest of his owners and for the state of his ship with respect to water and provisions (having 60 men on board) determined him to prosecute his homeward voyage without further loss of time. — On the 28th of March, after getting through the Mona, being then in company with the Washington, we discovered a sail making for us from the southward, which we supposed was a French pirate from Porto Rico. In this we were not mistaken, for towards evening of the same day, he came almost up with us; but not thinking it prudent to engage till we saw what we were, he kept way with us till the morning of the 29th, when Capt. Packwood, to get him along side, affected to crowd all sail and run from him. The Frenchman sailing very fast, soon came within gun shot of and fired several scattering shot and at length a broad side at the Washington; upon which capt. Packwood gave him his two stern chases, which soon made the pirate (altho' full of men) sheer off. Capt. P. then gave chace, but the Washington, altho' a very fast sailing ship, being very deeply laden, could not come up with him; and finding he left him very fast, gave over the chase, after pursuing him upward of 6 hours.

"The said pirate had a large brig with her, which she must have taken on the night of the 28th, as the brig was not with him during the whole of that day. Capt. Packwood finding he could not come up with the Frenchman, gave chase to the prize; but she obeying the signals of the privateer, sheered off from the Washington, and being
only in ballast outsailed her and got off in company with the privateer. Too much praise cannot be bestowed upon Capt. Packwood, for the attention paid by him to the vessels under his convoy in general before their dispersion, and for his willingness to answer signals and to protect the Triton while with him, the owners and underwriters must join with me in expressions of gratitude and respect to capt. Packwood for saving their property from the rapacious fangs of those plunderers of the world."

**To Joseph Howland, Navy Agent, Norwich, Conn., from Secretary of the Navy**

**[PHILADELPHIA]**

**N Department 30. March. 1799**

**Joseph Howland Esq**

**Norwich Connecticut**

Sir, Being informed that you have a quantity of seasoned timber on hand, sufficient to build a Vessel of more than 300 Tons burthen; which you are willing to apply to such a purpose — and not doubting, from your Character, that the public business may with great advantage be pleased in your hands, — I have the honor to request that you will be pleased to cause a Ship, or Brig to be built for the Public with seasoned timber, to mount 18 nine pound Cannon & no more. I say no more, because there is generally a disposition in the persons appointed, to command our Vessels, to add more Guns than are permitted — and our Laws will not allow this Vessel, to mount more than 18 Guns. — nor must she be calculated to carry more hereafter, but she may with propriety be so constructed as to carry these to the greatest advantage — and to make her as formidable as any Vessel in the World, of not greater number of Guns. —

If you think, and if it should also be the opinion of Capt. Jewitt, who I expect will be appointed to command this Vessel, [Trumbull] that she can be made to carry 18 twelve pound Cannon without increasing her size, to more than 360 Ton, and without making the metal too heavy for the Ship, or impeding her Sailing — in short without impairing in any respect the good qualities of the Ship, she may be calculated accordingly. But this matter should be well considered before you begin. I wish the Vessel to please the captain; but I wish her to be entirely approved by yourself. I say nothing about her dimensions, as I do not think all knowledge of Ship building is confined to Philadelphia; and I want to avail the public of the knowledge of different parts of the country. — It will be necessary that I should be furnished, with a draft of the Vessel — that if she proves to be of superior good qualities, it may be adopted for the 18 Gun Vessels. It is highly desirable that she should be as swift a Sailor, as it will be possible to make her — & yet that she should have room enough in her hold to carry water & provisions, for 6 months, for her Crew amounting to 100, to 120 Men. — I must leave it with yourself to charge the public, a reasonable price for the timber you have on hand, which will be used in the construction of this Vessel — for all other expenditures you must be content with a Commission of 2 P: C: — which is the usual commission paid by the Public for
such service. It is certainly low, but part of the compensation must be, the satisfaction of serving the public at such a time as this. I leave it with yourself to have the work done by contract, or as you please. — The Vessel must be copper butted & bolted, & sheathed. If you cannot procure the bolts & Spikes, let me know early and I will endeavour to provide them — tho' it will be most agreeable, if every thing necessary for this Vessel, except Guns, powder & ball, & copper sheathing, which articles the Public have on hand, should be procured by you. — I trust from your Character for Patriotism & energy, that you will not decline this agency — I will furnish at all times, & with dispatch, the money you may call for — and I hope you will make such arrangements as to have the Vessel equipped for sea in the shortest time practicable. —
I have the Honor to be &

To Nathan Levy, Agent of the Navy Department, Cape Francois, from Secretary of the Navy

NATHAN LEVY Esquire

SIR From an expectation that the Intercourse will shortly be opened between the United States, and the Island of St Domingo, and that the service of an Agent for this Department, at the principal port thereof will be necessary, for the purpose of supplying the Ships of War of the United States, with provisions, and other articles which they may occasionally stand in need of. — and entertaining the highest opinion of your Honor and Integrity, I do hereby appoint you the Agent of the Navy Department, for the purpose above mentioned, and to execute from time to time such orders as I shall transmit to you relative to this object. — You will take drafts on me as Secretary of the Navy, from the Commanders of the Public Ships you may supply, including the customary, commission, which however, is not in any event to exceed 5 P' Cent; — It will be desirable that you should arrive at Cape Francois, as soon after the inter-course may be opened, as possible. —
I am Sir &

To James Simons, Collector of Customs, Charleston, S. C., from Secretary of State

JAMES SIMONS Esq†

(Collector of the Port of Charleston)

SIR I have received your letter of the 1st instant. Your construction of the act for granting commissions to private armed vessels of the U. States, appears to me perfectly to correspond with the intention of the law. The Secretary of the Treasury concurs in this opinion — that "Sea-letter vessels" should be commissioned. A letter from the Collector of Savannah, which I have answered this day, induces me
to anticipate another question — Whether a commission can be issued where the owners are not present to give bond previously? Mr. Habersham issued the commissions, on receiving bonds from the agents or friends of the owners, and an additional bond providing that the bond of the owners should be transmitted to him. The latter precaution was not amiss; and I observed that the practice might be continued, — for the greater safety. — But I am disposed to think the bonds of the agents or correspondents of the owners sufficient, where the latter are absent; care being taken that those agents and their surties are competent in point of property to pay the penalty of the bond. Such agents will give their bonds only on the ground of the confidence subsisting between them and the owners, or that they have received or will receive a promise or counter — obligation for their indemnity. In either case the owners will be eventually chargeable & pay the penalty.

I am respectfully, Sir,
Your obedient Servant

TIMOTHY PICKERING

To John Habersham, Collector of Customs, Savannah, Ga., from Secretary of State

[PHILADELPHIA]
Department of State March 30th 1799

JOHN HABERSHAM Esq!
(Collector of the Port of Savannah)

Sir: I have received your letter of the 8th. I think you have done perfectly right in issuing the Commissions to private armed vessels where the owners were not present to give the bonds required by law; seeing the friends or correspondents of the owners have given bonds on their behalf. Your taking security that the owners should transmit their bonds was a good precaution and may be continued in future cases. Yet I sent blank commissions to our minister in England to deliver to such American vessels as wished to arm there for their safety in returning home, immediately after the Act authorizing private armaments had passed, and when we had not cannon for our merchant vessels that came home unarmed. This was approved by the President; altho' the bondsmen were of course not within our jurisdiction. Much more then your proceeding will be approved. Mr. Simons, the Collector of Charleston, has enquired whither American vessels not registered but allowed to receive Sea-Letters, may be commissioned. I have no hesitation in giving an answer in the affirmative. The Secretary of the Treasury concurs in this opinion; altho' in certain cases respecting revenue and Mediterranean passes, the expression "vessels of the U States" has received a strict construction, and is confined to registered vessels.

I am respectfully Sir,
Your obedient Servant,

TIMOTHY PICKERING

P. S. Four Commissions &c are now enclosed and six more will be forwarded next week

Protest of Captain Charles Hardy, Master of the Brig Nymph captured by French Priveteer Girons

To all People to whom these presents shall come I James Tippet of Falmouth in the County of Cornwall Notary Public by royal authority lawfully admitted and sworn and one of the Masters Extraordinary in his Majestys high Court of Chancery send Greeting Know ye that on the twelfth day of August Instant before me the said Notary at Falmouth aforesaid came and personally appeared Charles Hardy late Master of the American Brigantine or vessel called the Nymph of the burthen of about one hundred and Seventy seven Tons belonging to Philadelphia in America and the Property of Louis Crouzillat Mer-
chant of the same place a Native Citizen of the United States of America and then and there entered or noted with me the said Notary his the said Charles Hardy's protest against the Captors and Re-captors of his said vessel and cargo and for other the purposes here-after mentioned And on this present fourteenth day of August one thousand seven hundred and ninety nine before me the said Notary at Falmouth aforesaid came again and personally appeared the said Charles Hardy and who being sworn on the holy Evangelists then and there voluntarily and freely solemnly declared and said That on the eighth day of December last past he sat sail and departed in and with his said Brigantine (which was at that time tight and staunch and well and sufficiently Masted sailed Rigged Victualled Manned Tackled Apparelled and Furnished with all kinds of Materials and Stores and in all respects fit for the Seas and the voyage she was then about to undertake) from Philadelphia aforesaid laden with a Cargo consisting of Dry Goods Flour Wine Cognac Brandy, Aniseed, Almonds Sweet Oil and Citron and bound therewith for Laguira after touching at Saint Thomas's in the West Indies And that previous to the said Brigantine's sailing she was Armed for her Protection and that he proceeded on his aforesaid intended voyage without any thing very materially occurring and on the twenty ninth day of the said Month of December arrived at Saint Thomas's and sailed from thence on the eighth day of January following with the aforesaid Cargo on board for Laguira where she soon after arrived and there sold the said Brigantine's outwardbound Cargo after which he took in another Cargo consisting of Cocoa and Indigo at Laguira and sailed on the twenty sixth day of February last past in and with the said Brigantine and Cargo for Corunna in Spain and proceeded on his Voyage and on the thirteenth day of March being in Latitude forty two Degrees North and Longitude thirty four Degrees eleven Minutes West at half past ten A M he saw a Sail bearing North North West distant about three Miles which gave chase. That at eleven A M the said Sail fired a Gun to Leeward and hoisted an American Ensign at the Maintop-gallantmasthead at which time this Affirmant fired a Gun to Leeward and hoisted his Colours and that soon afterwards she came under the Nymph's Lee and hailed her by asking this Affirmant where he was from to which he replied Laguira and where he was bound to which he answered for Corunna in Spain — That he was then ordered to heave his Maintopsail to the Mast but he first asked where they were from and desired them to shew their Colours as this Affirmant perceived that the said Sail had a Colour hoisted in her Foretopmast-crosstrees which was not spread upon which they immediately fired a Salute of Musketry into the Nymph (at least thirty) which killed one of her Men — That the Gironde still kept the American Colours hoisted and did not haul them down during the Action but as the Frenchmen kept up a constant and incessant Fire on the Nymph this Deponent as well as his Officers and Crew thought it proper to defend themselves, and which they did till near twelve A M when they struck to the said privateer which proved to be the Gironde of Bourdeaux mounting sixteen Guns and carrying one hundred and Sixty four Men. — That during the Action the Nymph had four Men killed and six wounded one of whom died eight days after they were Captured on board the said Privateer And this Affirmant further saith that he had no wish or Intention to engage the said privateer, but
on the Contrary he was on a Mercantile Voyage and not on a warlike one and had positive orders from his Owners not to engage any vessel whatever but only if he was attacked to defend himself and protect his own and Owners property — That having been taken by the said Privateer in an unlawful manner he was carried, with thirty of his People in the said Privateer into the River of Garonne on the tenth day of the said Month of April and on the Eleventh was sent to Bourdeaux in a Boat with five or six of his Crew where he arrived on the twelfth and was immediately put into Prison without having the Liberty of speaking to any person whatever — That on the Sixteenth or seventeenth the Merchant or Owner as also the Captain of the said Privateer with an Interpreter and several other persons came into the prison and called this Affirmant aside and shut him in a Room — That he then asked them what they wanted but could get no Answer upon which he turned in order to go out but was stopped and they then began to question him and to make use of unlawful means with a view as this affiant believes to draw from him something respecting his Ship and Cargo which might tend to their advantage as he was told to sign an Examination before he had heard it read which he refused to do but that after it was read he found several things that were not rightly translated upon which he refused to sign it — That this Affirmant and thirty of his Men were then kept as Prisoners of War in the Fortress called du Hoe without any prospect of being sat at liberty notwithstanding the Claim of the American Consul for that purpose to which the Commissary of Marine returned for Answer that they could not obtain their release as their said Brigantine was armed and the orders of the French Government were precise in that Case to use them as real prisoners of War And this Affirmant further saith that he was released from Prison on or about the fifteenth of June last and embarked at Bourdeaux with a Boy formerly belonging to his vessel on board a Hamburgh Ship in order to get to England — hearing that his vessel had been recaptured by some English Frigates and on the seventeenth day of July following he sailed in the said Ship from Bourdeaux and on the sixth day of this Instant August being off Portland this Affirmant bought a Boat of the Captain of the said ship and himself and Boy quitted the vessel and soon after arrived at Portland from whence he proceeded to Plymouth where he found his said Brigantine which had been recaptured and carried into that port by three English Frigates as he was informed by the Mate of his vessel And the said Affirmant further declared and said that he did every thing in his power to prevent his said Brigantine and Cargo from being Captured but without effect WHEREFORE I the Notary Public aforesaid at the special Instance and Request of the said Charles Hardy Have Protested and by these Presents Do now Protest against all and every the Captors and Recaptors of his said vessel and Cargo for all Loss Damage Demurrage fall of market Detention and prejudice whatsoever which their said Brigantine or the Cargo on board her or any part thereof or the said Captain Hardy or his Crew or the Owners Shippers Freighters Consignees or Underwriters of the said Brigantine and her Cargo or any or either of them, or any part thereof have or hath already sustained suffered or received or shall or may hereafter sustain suffer or receive from or by reason or means of the capture and Recapture of the said Brigantine Nymph and her Cargo as aforesaid — In Testimony of the truth whereof I have hereunto subscribed my
name and set my public and usual Notarial Seal at Falmouth aforesaid — Dated the fourteenth day of August one thousand seven hundred and Ninety nine —

Charles Hardy

On the day and year last above mentioned at Falmouth aforesaid the said Charles Hardy was duly sworn on the holy Evangelists to the truth of this his Protest — Before me

[30 March 1799]

Extract of a letter from Captain A. Andaulle, of the Schooner Minerva, to the Owner concerning her capture and that of the Brig Nymph by French brig Gironde

Dated Falmouth, April 21st, 1799.

Dear Sir, I avail myself, of this opportunity by the Packet for New York, to inform you of our misfortunes — I and the brig Nymph, were taken the 30th March, in lat. 41, 50, long. 35, meridian of London. — At half past 11 o'clock in the morning, blowing very hard and thick weather, we perceived a brig to windward of us, distant about a league, that bore down upon us, the Nymph immediately got all clear for action, at half past 11 the engagement commenced with a very brisk fire on both sides, during which time I made all sail to get off. At meridian the fire ceased on both sides, I being then about one and a half leagues distant, and seeing the French brig stand off from the Nymph, I supposed the Nymph had greatly damaged her, and lay too waiting for the Nymph to come up to me; at 1 P. M. I saw a brig standing towards me, and soon discovered it was the French brig, I then made all sail in order to escape, but she sailed faster than I, although I was going at the rate of 10 and a half knots, at six in the evening being close aboard, he fired a shot at me, and at half past 6 I struck. I went on board and never was more surprised than to find captain Hardy there, who informed me that he had 6 men killed and 7 wounded, among the latter was his mate, and that the firing ceased on board the Nymph on account of the rest of his crew having abandoned him on seeing so many killed and wounded laying on deck, which obliged him to strike. — At the time he struck he had but two men left on deck. We and both crews were very well treated by the captain of the privateer, they touched nothing on board, we were treated with respect, and received on board with the greatest friendship possible. — I cannot say too much in their praise. — The privateer was called La Girondo, of Bordeaux, capt. Verdielle, mounting sixteen pieces of cannon and manned with 150 men. The privateer had 4 men slightly wounded. I remained on board the privateer
'till next day, when having requested the captain, he permitted me to go on board the schr. but took out all my people, except the boy. At half past eleven he ordered the prize master to make the best of his way for Bordeaux, or the nearest port in Spain. The 9th of April in sight of Corunna, distant 7 leagues from land, at half past 9 in the morning, we saw a vessel a-head of us, which proved to be an English frigate, she gave chase and took us at half past 1 o'clock and sent us to Falmouth, where we arrived the 17th of this month.

Continued the Chase, and at 6 AM brought her to. She proved to be the Sloop Eagle from Gaudaloupe bound to S¹ Croix, with a valuable Cargo of Coffee; no Doubt all french Property, as I spoke the same Vessel on the 23rd Instant in Ballast, bound up to Dominica, and Gaudaloupe without any Funds on Board.

The Master, William Cruise informs, that the Swedish Schooner I brought to, which was afterwards captured by the British Frigate Padre, belonged to S¹ Bartholomews, and was Swedish Property, but that the Cargo on Board was French Property owned in Gaudaloupe. On my asking him, how he became acquainted so minutely with the Circumstances of the above Vessel, and Cargo, he answered, that Mr Marrel [or Manel] a frenchman from S¹ Bartholomews had arrived at Gaudaloupe previous to his Departure Yesterday Evening, and mentioned it without Reserve, adding that the Constellation had brought to the said Schooner Active, and that I delivered her over to the Padre (which was a Lye) he also informed me that my Cartel had sailed the Evening before him from Gaudaloupe for S¹ Kitt's, and that three American Vessels had been taken to Windward of Desiada, and carried in to Gaudaloupe by the Noted Williams. At Noon the Body of the Island of Saba bore N. E. three Leagues Distance. The Middle, and latter heavy Clouds rising to the E.S.E. which produced no Wind of any Consequence.

Light Breezes all these Twenty four Hours, and pleasant Weather; at about 4 PM bore down, and spoke a small Schooner from the turtleing Keys, bound to Saint Bartholomews

The long Bank of Aves, it is said, and generally believed has from ten to twenty Fathoms Water on it; but this Morning at Ten AM the Island of Saba bearing due North between three and four Leagues Distance, seeing the Bottom under the Ship, I ordered the Master to sound; the first Cast we found the Depth, ten Fathoms; shortly after seven, then about a Quarter five, next Cast a Quarter less six, and then seven Fathoms, which Depth we had for about a League; and then we found ten Fathoms again, and shortly after no Ground with twenty Fathoms of Line up and down, the Town of St Eustatius at Noon bore East North East about five Leagues Distance, and the West Part of Saba North West, four Leagues Distance.

Altho few Mariners suppose or believe, that there is so shoal Water on the above Bank, it is no Doubt well known to the St Eustatia Fishermen, and I have heard many of the most respectable Gentlemen at St' Christophers say, that they have seen in break feather white in Hurricanes, and that in the last, several Ships put to Sea from the Island, and not being able to weather the Bank, was lost thereon. —
