Columns 1, 2, 3, 4 and 7, for 305 days from April 1, 1908, to January 31, 1909—13,355 persons.
 These columns compiled by the fleet paymaster in obedience to Bureau of Supplies and Accounts letter No. 105669 of January 19, 1909, from individual reports submitted by the commissary officers of the various vessels.
 Other columns compiled in Bureau from reports from individual ships.

NOTES.

1. Connecticut report covers period July 1, 1908, to January 31, 1909.
2. Georgia report covers period December 1, 1908, to January 31, 1909, only.
3. New Jersey and Kearsarge reports furnish totals for many classes rather than quantities of articles comprised in such classes. These amounts are entered in the recapitulation opposite the class heads (column 1).
4. Kearsarge report was originally rendered without explanation; returned for correction, it was corrected in part, and returned with the statement that the figures were approximate.
5. Missouri report was not rendered on prescribed form and is apparently inaccurate to a certain extent.
6. Some reports show fresh eggs by dozens; others by numbers. The attempts to reduce all to numbers has probably resulted in inaccuracies.
7. Fresh cranberries are listed as fruit; dehydrated cranberries as vegetables.
8. Third column of totals shows the totals by classes taken from the reports as rendered.
9. Figures for the Connecticut and Georgia in fourth column of totals are found by getting the average for one month and multiplying that by ten in each case.
10. Seventh column of totals is found by dividing the totals in column four by 305—the total number of days covered by fourth column.
11. The average number of persons on board were as follows: Connecticut (officers, crew, and marines), 846; Vermont, 833; Kansas, 808; Minnesota, 873; Georgia, 820; Nebraska, 762; New Jersey, 745; Rhode Island, 805; Louisiana, 813; Virginia, 813; Missouri, 734; Ohio, 732; Wisconsin, 620; Illinois, 679; Kearsarge, 679; Kentucky, 679.
12. Report of number of persons on board not having been received from the commanding officer of the Kearsarge, the figures for that vessel are, in Note 11, simply copied from the Kentucky report.
13. Total provisions in pounds net, for 305 days, April 1, 1908, to January 31, 1909 (column 4), 19,090,781 pounds; cost at prevailing invoice prices, \$1,889,987.32.
14. Total provisions in pounds net, for 106 days, December 15, 1907, to March 31, 1908 (column 5), 6,719,899 pounds; cost at prevailing invoice prices, \$665,270.
15. From Note 13: Estimated weight net provisions consumed in total voyage of 436 days, 30,413,616 pounds; cost, \$3,005,666.28.
