Indications that enemy offensive in Korea will continue:

that the current Communist offensive in Korea
is actually designed to extend over a prolonged
period and to penetrate deep into South Korea;

(a) recent prisoner of war statements to the effect that the current
operation is planned to extend over two months and to consist of three
major attacks, (b) the-unlikelihood that the enemy would concentrate
27 newly-arrived Chinese Communist divisions in the west-central
sector if it had only the limited objective of driving UN forces from
the Seoul-Inchon complex, (c) a noticeable increase in tank sightings
and continued heavy vehicular movement into forward areas, (d) an esti-
mated 400 percent increase in enemy anti-aircraft protection along major
lines of communications and ports of entry, and (e) continued attempts
to maintain North Korean airfields in a state of operational readiness.
