

SELF-REFLECTION 3

If possible, please type all responses. If not, print legibly in black ink.

1. Describe the accomplishments you have made so far with your product.

2. Which part of working with your mentor and developing your product was the most challenging/rewarding to you?

3. If given the chance, what would you change about your product?

4. What advice about the product would you pass on to next year's students?
