

SLECTED SLORC/SPDC ORDERS

The following are the direct translations of some written orders sent from SLORC army units to villages. These orders include demands for forced labor on roads and at army camps, extortion money, food, building materials, and intelligence. For every order reproduced here, hundreds more are issued every week; these should be seen only as a small representative sampling. Most of the orders are addressed to Chairman and Secretaries of Village Peace and Development Council (Village PDC) and from the Township Peace and Development Council (Township PDC). These are local levels of SPDC administration. A “village tract” includes all the villages in sub-area of the township. While the Township PDC consists of SPDC officials under direct military control, the Village PDC members are appointed, often against their will, by the local military. They are responsible for providing forced labors, money, materials, intelligence, etc. as demanded by the military and the Township PDC, and they are the first to be arrested and tortured if they fail to do so. These orders show the systematic, widespread, and consistent nature of SLORC abuse throughout all rural areas of the country. Most of these orders were typed, copied and sent to villages throughout the township. Where necessary for safety, details have been blanked out with ‘xxx’ or ‘yyy’.
