CANADA TO REVIEW BURMA POLICY

Barbara MacDougall, Secretary of State for External Affairs, met in Ottawa with Prime Minister Dr Sein Win of the National Coalition Government of the Union of Burma (NCGUB) on 9 Jun. She promised to review Canada’s policy towards the State Law and Order Restoration Council (SLORC), the military dictatorship in Rangoon. She also promised to renew efforts to lobby at the United Nations and with ASEAN for action against SLORC, and to consider providing humanitarian assistance to the NCGUB. In a separate meeting, Minister for International Trade Michael Wilson informed Dr Sein Win that Petro-Canada is reviewing its investment with SLORC in Burma. Petro-Canada is 80% owned by the Canadian Government. It is possible that Petro-Canada may pull out from Burma because of SLORC’s serious human rights violations. Dr Sein Win and NCGUB Minister for Construction, Mining and Energy Resources U Bo Hla Tint were in Canada from 4-14 June on a goodwill tour sponsored by the International Centre for Human Rights and Democratic Development (ICHRDD) headed by Ed Broadbent. The ICHRDD was established by an act of Canadian Parliament. It was the first international organization to officially recognize the NCGUB as the legally elected government of Burma. In 1991, the ICHRDD gave the NCGUB a grant of C$100,000. The delegation met with the ICHRDD Board of Directors to thank them for their support and to ask for continued assistance in 1992, which was readily given. In Ottawa, Dr Sein Win and U Bo Hla Tint were recognized in Parliament by Speaker John Fraser and they testified before the Parliamentary Subcommittee on Human Rights and International Development chaired by Walter McLean. The delegation also met with the leader of the opposition, Jean Chretien of the Liberal Party, Audrey McLaughlin, leader of the National Democratic Party, Senator Joan Neimen, President of the Human Rights Committee of the Geneva-based Inter-Parliamentary Union, and with numerous Senators and Members of Parliament. Dr Sein Win and U Bo Hla Tint were again officially recognized by the Alberta Legislative Assembly and they met with various provincial cabinet ministers in the provinces of Quebec, Ontario, Alberta and British Columbia, to discuss bilateral relations, educational opportunities and possible trade ties. The delegation met with members of Burmese communities and non-government organizations across Canada including the Canadian International Development Agency. Dr Sein Win also gave a talk at McGill University’s Centre for Developing Area Studies and was given good coverage by the media across Canada [BA920630].

1,200 STUDENTS MEET THAI REGISTRATION DEADLINE

The Interior Ministry in Bangkok said that 1,200 Burmese students living in Thailand had met the 15 May deadline to register with the Ministry. They will be sent to a special camp. Those who did not register will be regarded as illegal immigrants and, if caught, will be repatriated. About 2,000 Burmese students in Thailand have been recognized by the United Nations High Commissioner for Refugee as ‘persons of concern’ to the UNHCR. This status means that the person would normally qualify for a ‘refugee’ designation. However, Thailand does not recognize refugees from Burma and the UNHCR cannot designate them as such. Most of the Burmese students do not trust the Thai government and have refused to register for fear of being forcibly repatriated as happened in 1989 [N920516].

An Open Letter to the International Community:

To: The Secretary-General of the United Nations, Heads of State of ASEAN and EC countries, Australia, Bangladesh, Canada, India, Japan, New Zealand, Norway, Russia, Sweden and the U.S.A.

We, the undersigned, represent Burma's pro-democracy movement. Our peoples have been victimized for over 40 years by successive military regimes; the most recent being the State Law and Order Restoration Council (SLORC).

Despite the overwhelming pro-democracy victory in the 1990 elections, the Burmese people are still awaiting the transfer of power to elected officials. Instead, SLORC has persecuted, arrested, imprisoned and even killed them. SLORC has denied the most fundamental human rights and freedoms to the people and has mounted the largest military offensive ever against all of its opponents. These offensives are characterized by atrocities against innocent civilians on an unprecedented scale.

At this time, thousands of Burmese Muslims have been forced to take refuge in Bangladesh as a direct result of Burmese military aggression. This has caused an acute refugee crisis which needs urgent international attention.

This is but the most recent and most publicized example of the Burmese Army's consistent and ruthless suppression of its peoples. For years, there have been increasing numbers of Naga, Kachin, Burman, Karen, Karenni, and Mon refugees spilling over into other neighbouring countries.

The continuing civil war within Burma and the struggle for human rights and democracy can no longer be seen as a purely domestic issue. Burma is already causing instability within South East Asia. There have been clashes between Thai and Burmese troops along the border resulting in fatalities. There has also been increasing tension between the Bangladeshi government and SLORC over the Burmese Muslim refugees and SLORC's cross-border aggression. The Indian government is finding it necessary to strengthen its border with Burma. These are but the early warnings of future international conflict and friction.

These recent events cannot be allowed to go unaddressed by the larger world community, nor can they be resolved without addressing the root problems inside Burma. It is essential that the refugees be allowed to return home with a viable guarantee for their safety. However, it is very doubtful that SLORC will have the capability or the will to provide such a guarantee. Only a democratic government of Burma with the cooperation of the United Nations and neighbouring countries could solve this refugee problem peacefully and offer a long lasting solution.

We, therefore, appeal to you to call for a meeting of the United Nations Security Council to request SLORC to comply with the following:

1) Cease its attacks in territories controlled by democratic and ethnic forces immediately,
2) Release Daw Aung San Suu Kyi and all other political prisoners of conscience unconditionally,
3) Allow the peoples of Burma to solve all political problems by discussion and political means.

Unless SLORC immediately complies with these points, strong and decisive action should be taken by the international community to re-establish human rights in Burma and prevent further instability within the region.

signed: Sein Win) Prime Minister, National Coalition Government of the Union of Burma
Saw Bo Mya) Chairman, Democratic Alliance of Burma & Karen National Union
Nai Shwe Kyin) Chairman, National Democratic Front & New Mon State Party
Brang Seng) Vice Chairman, DAB & Chairman, Kachin Independence Organization
