**Establish ASEAN Community in accordance with ASEAN Vision 2020**

It was 39 years ago — on 8 August, 1967 to say exactly — that the Association of Southeast Asian Nations was founded. TheAssociation, now made up of all ten nations in Southeast Asia, stands firmly among the international community and organizations. It takes the leading role in establishing regional organizations and contributes a lot to regional peace, security and stability.

In his message to the 39th anniversary of founding ASEAN (ASEAN Day), Chairman of the State Peace and Development Council Senior General Than Shwe noted that, during the period of nearly four decades, the ASEAN member nations have become more vibrant, progressive and dynamic economies. All the achievements made by the Association have been due to individual as well as collective efforts of the member nations and its policy of consensus building, positive thinking and non-interference in the others’ internal affairs.

The ASEAN nations are now in the process of intense integration towards establishing the ASEAN Community by the year 2020 and making all-out efforts to realize this by building three important pillars, ASEAN Security Community, ASEAN Economic Community and ASEAN Socio-cultural Community.

As ASEAN has to integrate into a Community, the active participation of peoples of ASEAN countries becomes essential. We must promote people-to-people contacts and we must try to better understand each other.

The continued prosperity of the ASEAN countries and coping with the challenges and threats that we are facing at present or in future rest on the ability of our young and energetic people. Therefore, we must promote awareness of ASEAN among young people and nurture our young generation to cope with existing and new threats that we are facing at present or in future.

We believe that the ASEAN nations will be able to establish the ASEAN Community in accordance with the ASEAN Vision 2020 by abiding by their own principles and making steadfast efforts.

**Forest conservation tasks to be step up in dry region**

**Yangon, 8 Aug** — Minister for Forestry Brig-Gen Thein Aung yesterday inspected the forest conservation measures at Popa Mountain in Kyaukpyu Township called for the cultivation of perennial plants along with season crops in a bid to speed up greening tasks in the dry region.

During his tour of Kyaukpyu Township, the minister also inspected the 6,080-acre forest reserve in the township.

He also went to a forest plantation, which is established with the assistance of Japanese government, and urged officials concerned to establish firewood plantation and to carry out conservation measures. On 6 August, Minister Brig-Gen Thein Aung inspected two finished wood product factories in Industrial Zone-1 in Mahaguny Township, Mandalay Division. His tour of inspection in the dry region, Forestry Minister inspected the greening projects in Myingyan and Taungtha townships in the dry region and gave instructions. — MNA

**Industry-2’s employees receive computer skills**

**Yangon, 8 Aug** — Basic Computer Skill Course No 3/2006 of the Ministry of Industry-2 was opened yesterday at the ministry here with an opening address by Minister for Industry-2 Maj-Gen Saw Lwin. A total of 20 trainees are attending the two-week course. Deputy Minister Li-Col Khin Maung Kyaw, heads of departments and industries under the ministry and course instructors also attended the opening ceremony. — MNA

**Foreign Minister sends felicitations to Singapore**

**Yangon, 8 Aug** — On the occasion of the 41st Anniversary of the National Day of the Republic of Singapore which falls on 9 August 2006, U Nyan Win, Minister for Foreign Affairs of the Union of Myanmar, has sent a message of felicitations to His Excellency Mr George Yeo, Minister for Foreign Affairs of the Republic of Singapore. — MNA

**Fund-raising film shows to be presented**

**Yangon, 8 Aug** — U Zaw Min (Mingalar Co) is going to organize two film shows at Thamada Cinema here for raising the funds of the Myanmar Writers and Journalists Association.

The movie picture titled “Fire Wall” starring Harrison Ford and Dual Bettany will be shown at 8 am on 13 August and “The Myth” starring Jackie Chang on 27 August.

Those wishing to enjoy the films may get tickets at No 529, 2nd Floor, Merchant Street, Yangon (Ph: 01-252417, 01-385273). — MNA

**National Library, up for auction**

**Yangon, 8 Aug** — The newly-built National Library equipped with new elevators on 10.692-acre plot at the junction of Eastern Race course Street and Laydauntkan Street in Tamway Township, Yangon, will be auctioned at a floor price of K 10,000 million.

Proposal forms will be available at K 1,000 each commencing 11 August and the tender forms are to be submitted from 10 am to 4 pm only on 24 August at the National Library.

**People’s Desire**

- Oppose those relying on external elements, acting as stooges, holding negative views
- Oppose those trying to jeopardize stability of the State and progress of the nation
- Oppose foreign nations interfering in internal affairs of the State
- Crush all internal and external destructive elements as the common enemy
**Russia urges joint effort to cease fire in Middle East**

MOSCOW, 7 Aug—Russian President Vladimir Putin called for the immediate termination of the hostilities in Lebanon in a telephone conversation with British Prime Minister Tony Blair on Sunday, the Kremlin Press service said.

Putin underscored the need to immediately stop the hostilities in Lebanon, which had claimed hundreds of lives and put to region on the brink of a humanitarian catastrophe, the Kremlin said.

The interlocutors stressed the importance of the comprehensive settlement in the Middle East and the resumption of the peace process. They also discussed the drafting of a resolution of the UN Security Council.

Meanwhile, Russia called on all countries, which may have a constructive influence on forces engaged in the Lebanese-Israeli conflict, to pool efforts for the sake of immediate ceasefire, Russian Foreign Ministry said on its website on Sunday. The Press release was issued following a meeting between Russian First Deputy Foreign Minister Andrei Denisov and Iranian Ambassador to Russia Gholamreza Ansari.

“The Russian side stressed the need for all states that are able to produce a constructive influence on the forces involved in the conflict to take joint efforts to secure an immediate ceasefire and to help find such a political solution to the Lebanese-Israeli conflict that would make a repeat of the latest events impossible,” the release said.—MNA/Xinhua

**General says Iran’s Air Force fully prepared to defend country**

TEHERAN, 7 Aug—Iran’s Air Force was in full preparations to defend the country against any possible attack, local Fars News Agency reported here Saturday.

Brigadier-General Ghasem Mohammad Amini, an acting deputy commander of Air Force, was quoted as saying that his troops “are at the highest level of preparedness possible”.

He pointed out that Iran’s Air Force defended the country during its eight-year war against Iraq in the 1980s and gained “valuable experiences”.

“Considering the valuable experiences we have gained during the imposed war on Iran, we have increased our military capabilities and we are now fully prepared to defend the country’s borders,” Amini vowed.

The Air Force officer held that Israel’s intensive air and ground operations in Lebanon proved that skillful manpower played a determining role on the battlefields.

“Despite Israel’s extensive military possibilities and equipment, we are now witnessing how Hizbollah troops have managed to defeat them while the Shiite combatants have the least military tools, equipment and technology,” Amini said.—MNA/Xinhua

**Israeli rocket kills two, bombs pin down aid groups**

TYR (Lebanon), 7 Aug—An Israeli jet killed two people with a missile close to a United Nations aid convoy in Lebanon on Sunday and heavy bombing pinned other aid workers trying to reach refugees in the war-ravaged south.

The strike drew a swift reaction from the UN, which said Israeli bombardments were threatening to spread a crisis affecting the estimated 900,000 people displaced by the conflict between Hizbollah guerrillas and Israel’s defence forces. “A vehicle was hit some 15 kilometres (9 miles) north of Tyre as it was travelling a few metres ahead of our convoy,” said Robin Lodge, spokesman for the UN’s World Food Programme.

“It was carrying bread. It was civilians... This has come as a shock and underlines just how dangerous it is right now.” He said the convoy stopped but did not offer first aid because local officials were quickly at the scene. A witness at the hospital saw the bodies of the two who died in the attack. The 15 trucks carrying food, medicine, mattresses and other supplies were one of the first large convoys since Israel bombed four key bridges linking Beirut to Syria on Friday, cutting what the UN called its “umbilical cord” for aid.—MNA/Reuters

Singapore PM meets Indonesian President

SINGAPORE, 7 Aug — Singapore’s Prime Minister Lee Hsien Loong met with and hosted a dinner for visiting Indonesian President Susilo Bambang Yudhoyono Sunday night, according to Channel NewsAsia report.

The two leaders discussed bilateral and international issues including the situation in the Middle East and developments in the Association of South-East Asian Nations (ASEAN).

They also exchanged views on the implementation of the Special Economic Zones in the islands of Batam, Bintan and Karimun in Indonesia, on which the two countries signed an agreement in June this year.

In addition, the two leaders addressed the importance of making progress for the Extra-dition Treaty, Defence Cooperation Agreement and Counter-Terrorism Cooperation Agreement, the report said.

Yudhoyono arrived in Singapore on Sunday for a two-day working visit to the country. He attended a luncheon and dialogue with local business leaders to exchange views on investment opportunities in Indonesia.

Bilateral trade between the two countries reached 54.2 billion Singapore dollars (about 34.3 billion US dollars) last year. MNA/Xinhua

One ISAF soldier dead in vehicle accident in S Afghanistan

KABUL, 7 Aug — One soldier of the International Security Assistance Force was dead and three others wounded following a vehicle accident in Afghan southern province of Kandahar on Saturday, said the military.

The four soldiers were travelling in an armoured jeep as part of a re-supply convoy when the accident occurred, said the NATO-led military in a news released. The circumstances surrounding this accident are unknown, but enemy action has been ruled out, it added. The nationality of the soldiers involved has not been released.—MNA/Xinhua

One in eight cellphones in world made in Shenzhen

SHENZHEN, 7 Aug — The output of cellphones in China’s southern economic hub of Shenzhen is expected to exceed 100 million this year, accounting for one in every eight cellphones in the world.

Shenzhen has nearly 100 cellphone producers and assembling companies and is home to about one third of name-brand domestic producers, according to statistics from the Shenzhen Wireless Communication Association.

The Taiwanese-run Foxconn Electronics Inc. assembles a total of 15 million Motorola and Nokia cellphones every year, while 10 million cellphones are produced annually in the city for Samsung and Philips.

A complete industry production chain was the key to Shenzhen’s popularity among producers, said an official with the association.

“All of the 200 pieces of hardware in a cellphone are produced in Shenzhen and can be ordered by telephone in half an hour, and there’re more than 100 cellphone design companies,” he said.—MNA/Xinhua

51 killed in floods in southern India

NEW DELHI, 7 Aug — The flood situation in parts of Andhra Pradesh State in southern India remained grim as the toll in rain-related incidents mounted to 51, the Indo-Asian News Service reported Sunday.

As the Godavari River continued to flow above the danger mark, more than 350,000 people in about 160 villages in Khammam District were hit by flash floods.

The rains and floods have left about half a million people homeless since Friday. While it has not been raining in several affected areas since Saturday evening, the heavy inflows in Godavari and Krishna due to incessant rains in upstream Maharashtra and Karnataka were causing concern.

Local authorities have pressed into service 13 boats and two helicopters to evacuate people from marooned villages. Two more helicopters have been sought from Indian Eastern Naval Command. Officials said food and water packets were also being dropped to the marooned people.—MNA/Xinhua

Moussa in Syria, criticizes draft UN resolution

DAMASCUS, 7 Aug — Visiting Secretary-General of the Arab League Amr Moussa criticized on Sunday a draft UN Security Council resolution on Lebanon, saying it did not call for an immediate ceasefire directly, the official SANA news agency reported.

“T he proposal calls for stopping hostile operations and not a ceasefire,” Moussa said after meeting with Syrian President Bashar al-Assad, adding that “this constitutes a defect in the Security Council which should adopt a clear position toward military actions”.

The UN Security Council discussed on Saturday the draft resolution which was agreed by France and the United States, terming the draft as “generally positive” and a vote on the draft was expected on Monday or Tuesday.

The draft resolution calls for “full cessation of hostilities” by Israel and Hizbollah in Lebanon which have been involved in a bloody conflict since 12 July. MNA/Xinhua

Bus blast kills eight, injures 19 in central China

CHANGSHA, 7 Aug—Eight people were killed and 19 injured in an explosion on a bus on Sunday evening in central China’s Hunan Province. A local government source said the blast occurred at 5:57 pm in the county of Guiyang.

More than 200 police were deployed at the site to help rescue the injured, protect the scene and direct the flow of traffic.

Rescuers said eight people died at the scene and at least seven of the 19 injured were in a critical condition. An investigation into the cause of the blast is underway.—INTERNET

China demands Israel, Lebanon to ensure safety of peacekeepers

BEIJING, 7 Aug—China on Sunday demanded Israel and Lebanon ensure the safety of UN peacekeepers as three of its UN peacekeepers in Lebanon were wounded when a mortar round landed near their headquarters in southern Lebanon. “China is seriously concerned and strongly displeased with the incident,” China’s Foreign Ministry spokesman Qin Gang said in a statement.

He said China has made representations with the parties involved in the Lebanon-Israel clash and demanded they take concrete measures to ensure the safety of UN peacekeepers.

Qin said the Chinese government has sent greetings to the wounded peacekeepers and asked relevant parties to continue to provide timely and necessary treatment.

Four UN observers including one Chinese national, Lieutenant-Colonel Du Zhaoyu, were killed on 25 July in an Israeli air raid on a UN post in southern Lebanon.

In the statement, Qin also urged Israel and Lebanon to cease fire immediately and return to the negotiation table to solve the conflict in a political way.

Earlier on Sunday, Chinese Foreign Minister Li Zhaoxing also called on parties concerned to cease fire immediately and settle the clash through dialogue. Li told UN Secretary-General Kofi Annan in a phone conversation that China is deeply concerned over the current conflict between Israel and Lebanon’s Hezbollah which has lasted four weeks.

He said China hopes the UN Security Council takes actions to prevent the conflict from further escalating. China has provided humanitarian aid to Lebanon and China’s special envoy has also departed for the Middle East.

Dutch inspectors find faults in NATO cargo planes

AMSTERDAM, 7 Aug—Inspectors from the Dutch Transport and Water Ministry (IVW) found serious faults last year in freight planes hired on behalf of NATO from Eastern European air companies, according to their annual report.

A spokeswoman for the inspectorate said on Sunday that on 18 occasions cargo planes were grounded because of problems such as cracks in the cockpit windows, worn tyres or inadequate firefighting equipment.

The problems came to light during routine checks of planes landing and taking off in the Netherlands. “The Dutch transport inspectors saw some shortcomings at air companies’ airplanes rented by NATO and used for cargo,” she said.

Australia urged to play more balanced role in world trade talk

Canberra, 7 Aug — European Union’s (EU) Trade Commissioner Peter Mandelson has accused the Australian Government of being biased towards the United States in negotiations for a global trade deal, calling for Canberra to play a more constructive role.

He has also rejected an invitation to a trade meeting in Australia’s northeastern city of Cairns next month.

The meeting was initially for the Australian-led Cairns Group of 18 farm-exporting countries to mark the 20th anniversary of the formation of the free trade group, but it was expanded to include the United States and EU as the last-ditch effort to salvage the failed Doha free trade talks.

Mandelson called for Australia to stop criticizing Europe’s position and play a balanced role.

“If we heard as much messaging to the United States on farm subsidies as we did in Europe, we would have made a decision to consider a bit more balanced,” he told Australian Broadcasting Corporation radio Monday.

But Australian Trade Minister Mark Vaile and Foreign Minister Alexander Downer rejected Mandelson’s criticism. Vaile said Australia has been constructive from the start.

“We’ve been the honest broker if you like in this process so far, we’ve not been biased toward one side or the other,” he said.

“We have suggested that both the European Union and the US need to move to make compromises to find some common ground so we can get this thing moving forward,” Downer said.

Australia urged to play more balanced role in world trade talk

Jerusalem, 7 Aug — The Israeli Army plans to attack strategic infrastructure targets and symbols of the Lebanese Government of being biased towards the United States in negotiations for a global trade deal, calling for Canberra to play a more constructive role.

He has also rejected an invitation to a trade meeting in Australia’s northeastern city of Cairns next month.

The meeting was initially for the Australian-led Cairns Group of 18 farm-exporting countries to mark the 20th anniversary of the formation of the free trade group, but it was expanded to include the United States and EU as the last-ditch effort to salvage the failed Doha free trade talks.

Mandelson called for Australia to stop criticizing Europe’s position and play a balanced role.

“If we heard as much messaging to the United States on farm subsidies as we did in Europe, we would have made a decision to consider a bit more balanced,” he told Australian Broadcasting Corporation radio Monday.

“We have suggested that both the European Union and the US need to move to make compromises to find some common ground so we can get this thing moving forward,” Downer said.

Hizbollah rockets kill 15 in northern Israel

Kfar Giladi (Israel), 7 Aug — Hizbollah rockets killed 15 people in northern Israel on Sunday, including 12 Army reservists called up for duty, Israel’s highest death toll in a single day since the start of the Lebanon war.

The Israeli Army said the reservists were preparing to join ground operations in southern Lebanon when they were killed in the attack on the Kfar Giladi communal farm.

Medicals put the death toll at 12, with dozens of people wounded, making it the guerrilla group’s deadliest single missile strike. Later, rockets rained down on the northern city of Haifa, killing three people and wounding up to 121, medics and local media said.

A police commander said a rocket slammed into two adjacent houses, causing them to partially collapse. Several people were briefly trapped in the rubble.

The Israeli Army later said it destroyed the launcher that was used to hit Haifa, which was located in the Lebanese village of Qana. Israel said it also destroyed a launcher near Tyre.

Israel to hit wider range of Lebanon targets

Jerusalem, 7 Aug — The Israeli Army plans to attack strategic infrastructure targets and symbols of the Lebanese Government after Hizbollah rockets killed 15 people in northern Israel, an Israeli newspaper reported Monday.

“We are now in a process of renewed escalation. We will continue hitting everything that moves in Hizbollah — but we will also hit strategic civilian infrastructure,” a senior General Staff officer told the Haaretz newspaper.

It did not offer any examples of what symbols of the Lebanese Government might include.

Israel’s airstrike has already caused extensive damage to Lebanon’s infrastructure, including roads and bridges that Israel says Hizbollah uses to transport rockets.

Hizbollah rockets killed 15 people in northern Israel on Sunday, including 12 Army reservists called up for duty, Israel’s highest death toll in a single day since the start of the Lebanon war.

Four injured in explosion on Bangkok bus

Bangkok, 7 Aug — Four passengers were injured when a homemade bomb exploded on a Bangkok bus Saturday night, local media reported Sunday.

The time bomb detonated by a clock exploded on Bus No 95 at 10.40 pm local time (1540 GMT), Thai newspaper The Nation said.

The bus was having about 20 passengers and had left Happy Land Market heading to Bang Khen. The explosion occurred when it moved to the front of a temple in Bangkok.

Three passengers were slightly injured and were discharged from the Lady Praw Hospital after treatments.

The other passenger suffered cuts on the left leg and suffered back injury from the blast impact. He was discharged after treatment.

The bus driver, Jinakorn Prasonghat, 32, told police that the bomb might be planted by four teenagers who got off the bus just a stop before the bomb exploded.

In the state of Andhra Pradesh, the death toll from days of monsoon storms rose to 50, with 10 people feared dead after being buried by a landslide in the village of Kodipunjavalasa, 590 kilometres (370 miles) northeast of the state capital, Hyderabad.

Three people died in Hyderabad as their houses collapsed early on Saturday. Over 700 villages were reported to be under water, and three provincial airports had been closed.

Helicopters were searching for 60 fishermen who went to sea on Wednesday despite being warned of expected strong winds.

Debabrata Kanta, the state’s disaster management commissioner, said that more than 100,000 had been made home-less.

In neighbouring Orissa State, on the eastern seaboard, heavy rains continued for a fifth day, during which 36 people have been killed by flash floods and lightning strikes, officials said.

China revises law in move to reduce energy costs

BEIJING, 8 Aug — China is revising a law to make it possible to impose harsher punishment on energy lavishing, the government said Sunday, at a time when fast economic growth is unabatedly costing excessive energy resources.

The Financial and Economic Committee of the National People’s Congress, or China’s top legislature, and the National Development and Reform Commission (NDRC) are jointly making a proposed revision for the Law on Saving Energy Resources, which is expected to be completed later this year, an NDRC source told Xinhua.

The law was put into effect eight years ago, but has since banned many projects failing to meet energy-saving requirements. The government is warning that it is difficult to reach this year’s target of reducing energy costs for per unit gross domestic product.

The revised law will feature strengthened enforcement and supervision and include both incentives for saving energies and punitive measures against energy-wasting behaviour, the NDRC said, without giving details.

It will typically target the construction sector, which now accounts for one-third of all energy costs in China. Construction projects that do not meet energy-use demands will be off-limits, the source said.

Vietnam invested 10 projects abroad in first 7 months

HANOI, 8 Aug — Vietnam licensed 10 overseas investment projects with total registered capital of over 53.4 million US dollars in the first seven months of this year, according to a local agency on Monday.

Of the 10 projects, one involves in exploring and exploiting oil and gas in Singapore with investment of 21.9 million dollars, and another growing cash crops in Laos with registered capital of more than 12.5 million dollars, said the Foreign Investment Agency under the Ministry of Planning and Investment.

Vietnam, which had total investment of over 367 million dollars abroad in 2005 mainly in Laos, Russia, Cambodia and Indonesia, is expected to annually invest 200 million dollars abroad between 2006 and 2010, the department noted.

To date, Vietnam has licensed 160 overseas investment projects with combined registered capital of over 680.4 million dollars in nearly 40 countries and regions. Laos has attracted most of the Vietnamese investments abroad.

Wine imports to S Korea rise 22% in first half

SEOUL, 8 Aug — South Korea’s wine imports increased 22 percent from January to June this year than the same period of last year following the expansion of South Korean consumers, the Korea International Trade Association said in a report on Monday.

The wine imports in the first half of this year was valued at 38.88 million US dollars, which kept a continuing double-digit growth for a third consecutive year, said the report.

Experts predicted higher growth rate of wine imports in the second half as there will be major fesitval such as Chuseok.

“As wine sales usually increase in the second half, the domestic market is expected to jump about 23 percent to 25 percent for the full year even if the current slowdown of the domestic economy is taken into consideration,” said Lee Jong-hun, president of Shindong Wine Co.

Nearly 50 forest fires hit N Spain

MADRID, 8 Aug— Northern Spanish region Galicia is being plagued by 48 forest fires and nearly half of them are burning out of control, the regional government said on Sunday. The government said many of the fires broke out in the early hours of morning.

Pontevedra, the most affected region in Galicia, has 24 fires reported, 11 of which remained out of control, said the rural affairs department of the regional government, adding that all together 4,000 hectares of forest had been destroyed there.

Two women were burnt to death in a car as they tried to flee the flames on Friday in Pontevedra, it said.

Coruna, another seriously affected area in Galicia, has reported 17 fires, only four of which were brought under control.

The government has declared a maximum alert in three places in Galicia.

Transportation along Mekong River to be improved

PHNOM PENH, 8 Aug — A master plan for a navigating system along Mekong River is reached between Cambodia and Belgium, local weekly newspaper Business Press reported on Monday.

The purpose of the plan is to form a legal naviga- tion framework acceptable to the countries along the Mekong River and especially to increase activities of Can Tho Port in southern Vietnam and Phnom Penh Port.

“In Cambodia, it is estimated that only 16 percent of benefits of traveling and transportation potential have been taken from the Mekong River,” said Sun Chan Thol, Minister of Public Works and Transport. He forecasts that by giving more priority to waterways than to land routes, the cost of transportation, and road repair, traffic accidents and especially oil consumption would also decrease. Furthermore, tourism will be the first sector benefiting from the arrangement for the system.

“It’s not only lucrative for economy. By improving international business among the countries along the Mekong River, waterway transportation is a vital connection which enables people in remote villages along the river to deliver their products to districts and have access to social services including, schools and hospitals,” stated the project’s co-director Lievin Greirick, who pointed out that the framework of ‘Clean River’ would be strongly focused on in order not to affect the ecosystem of the Mekong River.

Annual APR Programme for Senior Mily Officers opens in S’pore

SINGAPORE, 8 Aug— The annual Asia-Pacific Programme for Senior Military Officers organized by Singapore’s Institute of Defence and Strategic Studies opened here on Monday.

The eighth in the series, this year’s programme gathered participants from 27 Armed Forces representing almost all Asia-Pacific Region (APR) nations and many European countries.

They are expected to exchange views with each other on key security challenges confronting the region at present and to enhance mutual understanding and develop friendships and cooperative relationships among themselves during the one-week event, which comprises lectures, informal discussions and social recreational activities.

Speaking at the opening ceremony, Singapore’s Minister for Defence Teo Chee Hean said that countries need to work together to deal effectively with security threats which are transnational in nature as a result of globalization.

The nature of the threats that confront us and the larger geopolitical trends require countries to come together to forge concrete cooperative measures, both to tackle the common threats as well as to strengthen mutual understanding and develop strong habits of cooperation and collaboration,” Teo said.

Noting that the Armed Forces of the Asia-Pacific Region have built up a solid web of cooperation over many years, Teo suggested that they conduct more dialogues and joint exercises to “build capacity and enhance inter-operability among the participating Armed Forces”. — MNA/Xinhua

Shan State (South) holds monsoon tree planting ceremony

NAY PYI TAW, 8 Aug — Shan State (South) held its monsoon tree planting ceremony in the surrounding areas of Hthein Village in Taunggyi Township yesterday.

Member of the State Peace and Development Council Lt-Gen Kyaw Win of the Ministry of Defence, Chairman of Shan State Peace and Development Council Commander of Eastern Command Brig-Gen Thaug Aye and wife, senior military officers, local authorities, departmental personnel, social organizations and local people were present.

Lt-Gen Kyaw Win, the commander and officials distributed seeds to those present at the ceremony. Lt-Gen Kyaw Win and party planted saplings and seeded the nearby slopes.

After inspecting Hthein Lake, Lt-Gen Kyaw Win and party met with departmental personnel at the village briefing hall.

Director U Thaung Tin of Forest Department explained the planting of trees in the environs of the village.

Lt-Gen Kyaw Win urged personnel of Forest Department to provide care for the thriving forest plantations and to systematically protect and conserve the plantations. He also made arrangements for the convenience of the department staff in conducting forest management.

Minister receives Charge d’Affaires of US Embassy and Representative of UNODC office

NAY PYI TAW, 8 Aug — Minister for Home Affairs Maj-Gen Maung Oo received Charge d’Affaires of US Embassy to Myanmar Ms Shari Villarosa and Resident Representative of UNODC office Mr Shariq Bin Raza at the Minister’s office in Nay Pyi Taw separately yesterday.

Also present at the calls were directors-general of Myanmar Police Force, General Administration Department, Bureau of Special Investigation, Prisons Department and officials. — MNA

Thai Supreme Commander arrives Yangon

YANGON, 8 Aug — Supreme Commander of Royal Thai Armed Forces General Ruengroj Mahasaranond and wife and delegation arrived at Yangon International Airport from Nay Pyi Taw by air this morning.

General Ruengroj Mahasaranond and wife delegation were welcomed at the airport by Chairman of Yangon Division Peace and Development Council Commander of Yangon Command Brig-Gen Hla Htay Win and wife Daw Mar Wai, Commander of Ayeyawady Naval Region Command Capt Aye Pe, Commander of Mingaladon Air Base Brig-Gen Zin Zaw and senior military officers and their wives.

No longer wish to remain as party members due to loss of interest in NLD

YANGON, 8 Aug — Fifty-three members of Bogalay Township National League for Democracy (NLD) resigned from the party of their own accord on 22 July.

They sent their resignation letters to the NLD Headquarters and Bogalay Township Multi-party Democracy General Election Sub-commission.

In their letters, they expressed the reason why they resigned from the party saying that they no longer wished to remain as members of NLD due to loss of interest in the party.

Among the members who resigned were U Tun Shein and U Thaung Myint of Thitphyu Chaung Village-tract, U Mya Ngwe and U Myint Aye of Pymagon Village-tract and U Tin Thaung, U Tin Tin, U Khin Myint, U Hla Moe and U Tin Hla of Kuinpin Village-tract. — MNA

Objectives of the 14th Myanmar Traditional Cultural Performing Arts Competitions

— To vitalize patriotism and nationalism
— To preserve and safeguard Myanmar cultural heritage
— To perpetuate genuine Myanmar music, dance and traditional fine arts
— To preserve Myanmar national character
— To nurture spiritual development of the youths
— To prevent influence of alien culture, and
— To strengthen national unity and Union Spirit.
Myawady border trade zone to be established in order to export quality products

Ministers inspect border trade in Myawady

NAY PYI TAW, 7 Aug—Minister for National Planning and Economic Development U Soe Tha, Minister for Commerce Brig-Gen Tin Naing Thein, Minister for Finance and Revenue Maj-Gen Hla Tun, Minister for Transport Maj-Gen Thein Swe, Minister for Communications, Posts and Telegraphs Brig-Gen Thein Zaw and Minister for Livestock Breeding and Fisheries Brig-Gen Maung Maung Thein inspected the checkpoint of border trade zone in Myawady on 5 August. The ministers met departmental officials and traders and discussed matters to ensure smooth border trade.

The ministers inspected the site for construction of the checkpoint and met the director-general of Border Trade Department and officials and members of the one stop service team.

Director-General of Border Trade Department U San Pyi reported on the choice of the site for construction of the checkpoint, buildings and present functions of border trade.

The ministers explained about tasks of the related ministries under the one stop service system and fulfilled the requirements.

The members of the one stop service team reported on kinds of export items, yearly volume of export and in order to export the quality products of the country.

The Muse 105th Mile border trade zone is the largest one and Myawady border trade zone is the second largest. Introduction of normal trade will benefit for both countries and traders in the long run.

They said the government would provide necessary assistance to the entrepreneurs in accord with the law. They stressed the importance of undertaking their enterprises with sincerity and avoiding the use of improper ways.

With the harmonious cooperation of the officials concerned and the entrepreneurs, foreign trade would improve.

The ministers went to the friendship bridge in Myawady and inspected maintenance of the bridge. They met departmental officials, townsolders, members of social organizations and local traders at Thaungyin Hall.

The ministers stressed the need for systematically and speedily carrying out border trade and for enforcement of trade rules and regulations. Later, the ministers inspected the warehouse where illegal goods are kept and the site for extending the camp.

The Muse 105th Mile border trade zone is the largest one and Myawady border trade zone is the second largest. Introduction of normal trade will be beneficial for both countries and traders in the long run.

The Muse 105th Mile border trade zone took place at the office of Kayin State PDC at 11 am. It was attended by the Mon State PDC Chairman South East Command Commander Brig-Gen Thet Naing Win, the ministers, the chairman of Kayin State PDC and entrepreneurs.

The ministers explained measures to be taken by respective ministries for building the border trade zone. Next, departmental officials and the entrepreneurs reported on their work programmes.

Afterwards, the ministers visited Mayangunga commodity inspection camp in Kyaihto Township. Director of Border Trade Department U Soe Moe Aung and officials reported on measures being taken for prevention against illegal trading of goods through the route of border regions. The ministers stressed the need for systematically and speedily carrying out border trade and for enforcement of trade rules and regulations. Later, the ministers inspected the warehouse where illegal goods are kept and the site for extending the camp.

UN says new shrimp nets help save troubled fish stocks

OSLO, 8 Aug — Fishing nets with "exit holes" being introduced under a project to salvage depleted world fisheries are helping shrimp trawlers reduce unwanted extra catches by up to 70 per cent, a UN study showed on Sunday.

Catching shrimp, the world’s most traded marine commodity worth almost 12 billion US dollars a year, is hugely wasteful because the fine-mesh nets also scoop up everything from tiny fish to sharks and turtles, which usually end up discarded dead.

The project in 12 tropical nations, including Mexico and the Philippines, “has dramatically cut the unwanted catch of young fish, turtles and other ‘by-catch’ by as much as 30 to 70 per cent”, the UN Environment Programme said in a statement.

“We are seeing some promising preliminary results,” said Monique Barbut, the head of the UN’s Global Environment Facility which is funding a four-year-old project costing more than nine million US dollars.

"Over 60 per cent of what is currently caught in the global shrimp fishery is discarded, making it among the most environmentally damaging in the world," she said.

Worldwide losses — mostly because young fish are caught before they reach maturity — are estimated at billions of dollars, adding to problems of overfishing.

New trawler nets include metal grilles that let shrimp through into the main bulb-shape net but stop bigger fish or turtles and force them out through an "exit hole" in the side. Other types of nets have large holes on the sides near the front — fish are smart enough to swim out against the pull of the trawler while staying in the intelligence to spot the exit.

The United States is among countries banning wild shrimp imports from nations that do not use such environmentally friendly nets. The UN-funded measures also include training, high tech sensors and underwater monitors that help efficiency.

CIA contractor goes on trial over Afghan abuses

RALEIGH (North Carolina), 8 Aug — A CIA contractor accused of beating an Afghan prisoner so badly that he died two days later went on trial for assault on Monday in a case that raises questions about the treatment of detainees by interrogators.

David Passaro, a former Special Forces medic who worked under contract with the CIA, is the first civilian to be charged with abusing a detainee in US wars in Iraq and Afghanistan.

Passaro is charged with four counts of assault and accused of using his hands, feet and a large flashlight to beat Abdul Wali, an Afghan detainee, who died two days after the interrogation in June 2003.

The indictment says he did “knowingly and intentionally assault Abdul Wali with a dangerous weapon and such assault resulted in serious bodily injury to Abdul Wali”.

Passaro worked at a US military base in Afghanistan that was frequently subject to rocket attacks and Wali, a suspect in the attacks, turned himself in voluntarily at the gates of the base and was then interrogated.

Passaro maintains his innocence and his lawyers on Monday argued that the interrogation itself was necessary because the base was under attack.

Report says cats infected with bird flu in Iraq

WASHINGTON, 8 Aug — Cats that died during an outbreak of bird flu in Iraq last February were infected with the H5N1 virus, US naval medical researchers reported.

Any cat that becomes ill or dies when suspected bird flu is circulating should be tested for the virus, the Navy team reported in the August issue of the journal Emerging Infectious Diseases.

The team at the Naval Medical Research Unit No 3 or NAMRU-3, based in Cairo, have been studying bird flu viruses taken from animals and people in the region.

Samuel Yingst, Magdi Saad and Stephen Felt of NAMRU-3 had been hearing stories from veterinarians in Turkey and Iraq who said cats had died where bird flu outbreaks were being reported.

People had reported to the WHO team about cats that had died in a house near the Iraqi city of Erbil where 51 chickens died. The researchers got the bodies of two of the cats and a sick goose from next door.

The animals had flu virus throughout their bodies, Yingst and colleagues reported. The virus found in the cats and goose strongly resembled the virus from a person who died in Iraq, suggesting it had not become adapted to cats.

India says US sanctions on its firms unjustified

NEW DELHI, 8 Aug — India said on Monday that US sanctions against two of its firms for selling what Washington says are restricted items to Iran were unjustified as they had not violated any domestic laws or New Delhi’s global obligations.

The two firms were among seven foreign companies Washington announced sanctions on on Friday saying it had credible information they had transferred materials to Iran that could contribute to the development of weapons of mass destruction or missiles.

Balaji Amines Ltd in the last couple of years sold precursor chemicals used in rocket fuel, while Prachi Poly Products four years ago sold precursor chemicals that could be used in chemical weapons, a US official said.

Under the sanctions, no US Government agency may enter into a deal with the companies on the list.

“Our preliminary assessment is that the transfer of such chemicals was not in violation of our regulations or our international obligations,” the Indian Foreign Ministry said in a statement.

India’s commitment to prevent proliferation was “second to none” and a tough export control system was in place, it said.

“In this context the imposition of sanctions by the US on our firms, which in our view have not acted in violation of our laws or regulations, is not justified,” it said.

Both Indian cases involved dual-use chemicals regulated by an informal body of nations called the Australia Group, of which the United States is a part, a US official said last week.

5 tons of cocaine seized in high seas returned to Peru

LIMA, 8 Aug — The US Coast Guards brought five tons of nearly pure cocaine into the Peruvian port of Callao on Sunday, around a week after seizing the drug and arresting the six crew of a Peruvian tuna-fishing boat, the Ceci, that was carrying it, local media reported.

The smugglers were taken to the headquarters of the Peruvian National Police Anti-Drug Administration, also known as the "cero", by as much as 30 to 70 per cent, the UN Environment Programme said in a statement.

“We are seeing some promising preliminary results,” said Monique Barbut, the head of the UN’s Global Environment Facility which is funding a four-year-old project costing more than nine million US dollars.

“Over 60 per cent of what is currently caught in the global shrimp fishery is discarded, making it among the most environmentally damaging in the world,” she said.

EU says job discrimination against smokers OK

BRUSSELS, 7 Aug—European employers are free to say “Smokers need not apply!” when they advertise for jobs, a European Commission spokeswoman said on Saturday. “It is not a violation within the anti-discrimination rules on a European level for an employer to put into an ad ‘Smokers need not apply,’” said Katharina Von Schurmeier, a Commission spokeswoman.

Schurmeier’s comments followed a story in the Financial Times reporting the views of Social Affairs Commissioner Vladimir Spidla of the Czech Republic.

Spida, asked for his views by a member of the European Parliament, said Europe-wide law prohibited discrimination in employment or other areas on the basis of racial or ethnic origin, disability, age, sexual orientation and religion and belief. MNA/Reuters

Turkmen Chief offers cars-for-cotton reward scheme

ASHGABAT, 7 Aug—Turkmenistan’s President-for-life Saparmurat Niyazov on Saturday promised each of his ministers a gift of a Mercedes-Benz car to mark the 15th anniversary of his country’s independence.

Regional chiefs only qualify for a jeep, but they will be upgraded to a Mercedes if they bring in their cotton harvest early, Niyazov said on national television. “I have already ordered a Mercedes for each minister. We will give them out for the 15th anniversary,” he said.

Niyazov’s official title is Turkmenbashi, or Head of the Turkmen. He brooks no dissent and is at the centre of a personality cult in his isolated ex-Soviet state. A town, months of alcohol and information agency, and official photographer, from 1993 onwards was named after him. He has his own Mercedes saloon car collection that includes a non-staff Mercedes for a gift of a Mercedes-Benz car to mark the 15th anniversary of his country’s independence. Regional chiefs only qualify for a jeep, but they will be upgraded to a Mercedes if they bring in their cotton harvest early, Niyazov said on national television. “I have already ordered a Mercedes for each minister. Earthquakes, the main disaster killer on Chinese Mainland

SHIJIAZHUANG, 7 Aug—Earthquakes have killed more people on the Chinese Mainland than any other form of natural disaster, according to a Chinese seismological official.

Quake fatalities had accounted for 54 per cent of natural disaster deaths since 1949, said Huang Jianfa, director of the earthquake emergency relief division of the China Seismological Bureau, on Saturday.

Floods and droughts came the next, accounting for another 40 per cent of deaths, Huang told the Asian-Pacific Regional Earthquake Exercise workshop in Shijiazhuang, provincial capital of Hebei.

China has been affected by natural disasters, which affected 200 million people and damaged 40 million hectares of crops each year. Natural disasters cost the country an average 100 billion yuan (12.5 billion US dollars) each year.

China also suffered serious losses from typhoons, landslides and rock-and-mud flows, said Huang.

"Extreme weather will become more frequent across China because of various factors, including global warming," said Huang, who insisted China must participate in more international disaster relief operations.

Claims $20m Van Gogh is a fake

BRITISH, 7 Aug—The National Gallery of Victoria (NGV) will investigate claims one of its prized works by Dutch master Vincent Van Gogh is a forgery.

The $20 million-piece - 'Head of a Man' - was purchased by the Melbourne-based gallery in 1940 and is currently on loan to the Dean Gallery in Edinburgh.

Critics have dubbed it a fake. Their doubt stems from the fact that the 1880s portrait is horizontal and is painted on canvas mounted on a panel - an unusual medium for Van Gogh.

But the NGV director Gerard Vaughan says the gallery will not be changing the painting's attribution. "So far as we're concerned we are not going to turn around and change the attribution," he said.

"Every great Van Gogh scholar of the 20th century has accepted the authenticity of the picture and has published it as an authentic Van Gogh."

"However, at the same time, we are very, very open to debate and dialogue and it is not unusual in the world of art to question an accepted attribution and we will be very, very happy to have that debate," said Mr Vaughan.

Mr Vaughan admits there have been many fake Van Gogh's bought and sold in the art world.

"In fact, entire books have been written on the phenomenon of forging Van Gogh's."

British critics say 'Head of a Man' was not painted by Van Gogh.—INTERNET

Freed South Korean trawler arrives to cheers in Kenya

MOMBASA (Kenya), 7 Aug — A South Korean trawler held captive by Somali militiamen for more than three months docked in Kenya on Saturday, a week after gunmen freed its 25-member crew.

Wearing tattered and dirty clothes, the trawler's crew waved as they disembarked at Kenya's Mombasa Port, where they were greeted by cheers and applause from dozens of diplomats, maritime officials and journalists.

The trawler was seized by eight armed men in two speedboats who accused it of fishing illegally and may have been pirates. "We were not tortured but there was a lot of tension as the rescue mission continued," Vietnamese sailor Nguyen Xuan Qua told Reuters.

"We did not know when we were going home. All our lives hung in the balance."—INTERNET

Rice says UN resolution will not end all fighting

CRAWFORD (Texas), 7 Aug — US Secretary of State Condoleezza Rice cautioned on Sunday that a UN resolution will not stop all the fighting in southern Lebanon but is a first step toward a lasting cessation of violence.

Rice, in Crawford to consult with President George W. Bush about the Middle East crisis, told reporters it is important to get a vote on the UN resolution in the next day or two.

UN Security Council envoys are attempting to put the finishing touches on a draft resolution from France and the United States calling for a halt to fighting between Israel and Hezbollah guerrillas and setting terms for a settlement to the conflict.—MNA/Reuters

Reggina charged in Italy match-fixing scandal

ROME, 8 Aug— Italy’s football prosecutor on Monday ordered another Italian Serie A team, Reggina, to stand trial in a match-fixing scandal that has already penalized four of the country’s elite clubs.

An Italian Football Federation (FIGC) spokesman said its prosecutor, Stefano Palazzi, had charged Regina with sporting fraud. He did not offer details.

ANSA news agency reported that six Reggina matches were under scrutiny following telephone wiretaps involving the team’s president, Lillo Foti. Neither the club nor Foti could be immediately reached for comment.

The trial against Reggina follows a decision by the tribunal last month to oust Juventus from Italy’s top-flight soccer league and punish Lazio, Fiorentina and AC Milan by deducting points. — MNA/Reuters

UEFA says no European games in Israel until further notice

LONDON, 8 Aug— European soccer’s governing body UEFA announced on Monday that due to security situation in Israel no European matches can be staged in the country until further notice.

UEFA had already decided last week to move the home first-leg matches of the UEFA Cup second qualifying round involving Israeli teams to venues outside of Israel — a decision upheld by the Court for Arbitration in Sport. Monday’s announcement affects Maccabi Haifa’s Champions League third qualifying round home leg with Liverpool set for August 22 or 23 and Beitar Jerusalem’s UEFA Cup second qualifying round clash with Dinamo Bucharest on August 24.

The two matches will now have to be played at neutral venues. — MNA/Reuters

Woods holds off Furyk to notch 50th career title

GRAND BLANC (Michigan), 8 Aug— Tiger Woods withstood a late challenge from Jim Furyk to claim his 50th career title at the Buick Open on Sunday.

Fresh from his British Open victory, Woods made it back-to-back wins after carding his fourth consecutive round of 66 to finish three shots clear of Furyk with a total of 24-under 264.

The world number one’s fourth win of the season and second Buick title made him the youngest player to notch career PGA Tour victories.

He eclipsed Jack Nicklaus, who did not celebrate his 50th success until he was 33. “It’s pretty cool to get to 50,” the 30-year-old Woods told reporters after achieving the mark in his 196th event. “I’ve been blessed and had a lot of things go my way.”

Having captured 36-of-39 events when leading after three rounds, Woods’s milestone win was not without drama at the Warwick Hills Golf and Country Club.

Furyk mounted a back-nine challenge with birdies on five of six holes from the 10th on the way to a bogey-free eight-under 64.

Woods began the day with two-shot cushion and maintained his advantage with a flawless front nine that included four birdies to open up a three-shot lead.

But three holes later the world number one’s advantage had evaporated under Furyk’s charge and his only bogey of the day at the par-four 12th left both players on 21 under.

Woods, however, quickly recovered with a birdie at the 13th after a pinpoint approach left him a one-foot tap in.

The 11-times major champion followed up with another birdie on 15th to restore his two-shot lead and survived a scare on the par-three 17th when a spectator rolled an apple across the green as he attempted a long birdie putt.

With fans chanting “throw him out, throw him out”, Woods would not be distracted, stepping up to the ball and draining a nervy four-footer for par. — MNA/Reuters

Crespo proud to be back at Inter

ROME, 8 Aug— Argentine striker Hernan Crespo said on Monday he was proud to be back at Inter Milan, hours after the Italian club announced it had signed a loan deal with Chelsea to bring him back to the San Siro.

Crespo, who spent the 2002-03 season at Inter before joining Chelsea for 16.8 million pounds (32 million US dollars), has signed a two-year contract, the Serie A club said on its website.

“For me it is a matter of pride to be back at Inter,” Crespo said as he was officially presented at the club’s HQ in Milan.

“I had left here crying and now I am back smiling. I thank Chelsea, the chairman and the coach, because they understood my needs and they were accommodating,” he said.

No money changed hands in the deal but the English champions have retained an option to take Crespo back after one season. — MNA/Reuters

Mellberg to quit as Sweden captain

GOTHENBORG (Sweden), 8 Aug— Aston Villa defender Olof Mellberg is to quit as Sweden skipper although he will carry on playing for his national team, the Swedish daily Expressen reported on Monday.

“I have been thinking about this since after the World Cup and felt that with everything that is going on at Aston Villa it was time to let someone else take over,” he told the paper.

“We have a new manager and we do not know exactly what will happen with the club or who will take over as the owner...I feel it could be a good change for the national team and for myself.”

Former Celtic coach Martin O’Neill was appointed as Villa’s new manager last week, replacing David O Leary.

Solskjaer returns to Norway squad for Brazil friendly

OSLO, 8 Aug— Norway coach Age Hareide has recalled Manchester United striker Ole Gunnar Solskjaer to his squad for the prestige August 16 friendly against Brazil.

Hareide included Solskjaer on Monday despite grumbling from United’s manager Alex Ferguson that his player, who has spent most of the past three seasons sidelined with injuries, should forget about playing in internationals.

Solskjaer, 33, last played for Norway against Wales in 2004. He returns for a fixture that has a special appeal for his country as they hold a unique unbeaten record against the world’s top-ranked team. — MNA/Reuters

Medina joins race for Barcelona presidency

MADRID, 8 Aug— Lawyer Jordi Medina became the latest Barcelona member to declare his intention to stand against Joan Laporta in next month’s presidential election when he unveiled his candidature on Monday.

Medina, who made an unsuccessful bid to stand in the last election in 2003, said he was aiming to put forward a constructive programme that would provide a viable alternative to Laporta’s leadership.

His programme includes a project to modernise Barca’s 98,000-capacity Nou Camp stadium and a plan to boost the fortunes of the club’s youth sides in an attempt to prevent players leaving to join other leading teams. Medina is the third rival to Laporta to throw his hat in the ring following former Barcelona handball player Francesc Linan Serra and university professor Jaume Guixa. — MNA/Reuters

3,000 quarantined at N-E China School after TB outbreak

SHENYANG, 8 Aug — Almost 3,000 faculties and students have been quarantined in a northeast China senior high school after 29 people contracted tuberculosis, a local health official said on Sunday.

Only one student fell ill at the No 1 Senior High School in June in Chaoyang City, Liaoning Province, the city health bureau head Li Ziming recalled.

When more students and some teachers caught the disease at the end of July, the local government immediately set up a leading group and deployed medical staff to prevent the spread of the disease. To date, 2,670 of the 2,859 students, teachers and staff members have received TB bacteria tests which are being examined.

Fourteen of the 29 patients are receiving free treatment at isolation wards in the city’s TB prevention and treatment hospital and 15 others are reported to be in stable condition and are confined to the school or at home.

All other students, teachers and staffs of the school have been confined to the campus while health tests and treatment are carried out.

The school, established in 1904, is predominately a boarding school catering to students from rural areas. As it is a key experimental school in Liaoning, the school usually starts summer vacation in early August, said an official.

However, the school did not start summer vacation on Saturday as planned due to the TB outbreak.

Hiroshima Day observed in Bangladesh

DHAKA, 8 Aug — Hiroshima Day was observed on Sunday in Bangladesh to mark the dropping of atomic bombs in Hiroshima and Nagasaki on Sunday in 1945 by the United States during the WWII that killed millions of people and still causing health hazards.

A discussion was arranged here to mark the day, which was participated by government leaders, language movement hero, diplomats of Japan, Australia and Russia and retired Bangladesh Army officers.

Speakers said every man in the world has to work together in line with the spirit of Hiroshima Day for establishing global peace.
