*Strive for cultivating reading habit of people*

Literacy is a high priority of the government. Therefore, the government has created opportunities for learning regardless of age and education standards.

In accordance with the objective, Education for All, the government has carried out literacy work including promotion of adult literacy and non-formal education in the country. As 3Rs courses have been opened in states and divisions, learning has become within the reach of every citizen regardless of age.

As self-reliant libraries have mushroomed in villages across the country, neo-literates and the mass of rural people have got opportunities to cultivate the reading habit and broadening their horizons. Sharing knowledge with other people and learning have become habitual in rural areas.

Literati and writers on their part are to work hard to improve their works of literature so as to broaden the horizons of the people and to cultivate their reading habit.

Literacy enables people to distinguish between right and wrong. If the people read a lot, they will be right in thinking and as a result they can contribute better to development of the State. Publishing books which serve the national interest and endeavours for cultivating the reading habit of the people will bring benefits to the people and the State.

Iran commander warns enemies of “hell” in Gulf

TEHRAN, 21 Aug—The Gulf would become a “hell” for Iran’s enemies if they were to attack the Islamic Republic, a commander of the country’s elite Revolutionary Guards was quoted as saying on Sunday.

It was the latest in a series of defiant statements from senior Guards figures after US officials on Wednesday said the United States may soon start a military confrontation, the Persian Gulf will become a hell for them,” Ali Razmjoop, a naval commander of the Revolutionary Guards, told the Fars news agency.

“By using modern systems, no activities and threats by the enemies in the Persian Gulf would be hidden from us,” he said.

Iran’s Foreign Minister Manouchehr Mottaki separately dismissed reports of the planned US move as a “propaganda game”, the ISNA news agency reported.

“Teheran and Washington, which cut diplomatic ties shortly after Iran’s 1979 Islamic revolution, are embroiled in a deepening standoff over Teheran’s disputed nuclear programme.

They also blame each other for bloodshed in Iraq. The Revolutionary Guards has already brushed off the threat from Washington to label it a terrorist group and has said it “will grow in strength despite US efforts to isolate it”.

Iran has previously threatened to strike back on US regional interests if attacked over its nuclear programme, rejecting Western accusations it is aimed at developing atom bombs.

Eritrea says US must change policy in Horn of Africa

ASMA, 21 Aug—Eritrea’s President Isaias Afwerki accused the United States of fuelling conflicts in the Horn of Africa and urged changes in its policies in the regional round of finger-pointing between the two nations.

The comments, published on Monday, came days after Washington said it was considering placing Eritrea on its list of state sponsors of terrorism for allegedly aiding Islamists battling the Ethiopian-backed Somali Government.

“The US attempt to put into effect its strategy of monopoly and dominance through fomenting confrontation among peoples is leading the world to a dangerous path,” the Ministry of Information website, shabait.com, quoted Isaias as saying.

Two robbers flee empty-handed

KUANTAN, 22 Aug—Robbers fled the scene empty-handed after breaking into the home of Wanta MCA chief Datuk Dr Ng Yen Yen in Mentakab yesterday morning. Ng, who is Deputy Finance Minister, was not in at the time of the incident at 7.45am.

Temerloh OCPD Asst Comm Ahmad Fadzilah Mohamed said only Ng’s husband, Dr Chin Chee Sue, 63, was in the house located in Taman Lee Chan.

He said Dr Chin was coming downstairs to leave for work when he saw two men inside the house, one holding a knife. They demanded his car keys. When Dr Chin hesitated, he was slapped.

He then told them the keys were in the car.

 Pretending to walk to his car to get the keys for them, Dr Chin opened the front door and the main gate and then made a dash to seek help from neighbours, ACP Ahmad Fadzilah said.

Female troop deaths in Iraq on pace to top record

BAGHDAD, 22 Aug—A US soldier killed in Baghdad last week marked the fourth death of an American female service member this month, a toll that hasn’t been topped since June 2005. Eighty-two service women have died since the beginning of the Iraq war in March 2003, according to the Pentagon.

In 1994 the US military began allowing women to serve in posts other than front-line infantry, special operations and artillery units.

The highest monthly death toll—one troops and a Defence Department civilian—came in June 2005. The Thursday death of Spc Kanisha J Block, 20, of Vidor, Texas, from a “non-battle-related cause” was the fifth time that four female service members have been killed in a month, the Pentagon reported. It also happened in October 2003, November 2003, September 2006 and January 2007.

India seeks Japan support for nuclear deal with US

NEW DELHI, 21 Aug—India has requested Japanese support for its nuclear deal with the United States, which has drawn widespread opposition from Prime Minister Manmohan Singh’s Left allies in New Delhi, the Hindustan Times reported on Monday.

In return, India will pledge support to Japan’s anti-global warming moves, the report said. Japanese Prime Minister Shinzo Abe will visit India this week.

An 80-member delegation-making body of India’s largest Left party supporting Singh’s coalition government is due to meet on Wednesday to endorse its call for a halt to New Delhi’s nuclear accord with Washington. The central committee of the Communist Party of India (Marxist), whose support is crucial for the survival of the federal government, comprises top party functionaries, chief ministers of Left-ruled states and leaders of trade unions.

At its two-day meeting beginning Wednesday, the CPI (M)’s central committee will discuss the party’s resolution that warned Singh’s government of serious consequences if it went ahead with talks with the International Atomic Energy Agency for talks on nuclear safeguards as part of the deal with Washington, the report said. The CPI (M)’s constitution provides that all party decisions should be ratified by its central committee.

Malaysia awards medals to pirate-DVD nabbing dogs

KUALA LUMPUR, 21 Aug—Two dogs trained to sniff out DVDs received medals from Malaysia’s Government on Monday for a five-month campaign that crippled movie pirates.

Lucky and Flo, black Labradors trained to detect the chemicals used in making DVDs, were the first animals to receive the outstanding service awards for finding discs stockpiled by pirates, the Motion Picture Association said in a statement.

The canine campaign led to 26 arrests and seizures of illegal discs worth over 6 million US dollars. “The dogs have proven to be a major asset in our fight against the pirates and we intend to continue what Lucky and Flo have set in motion,” S Veerasingam, Malaysia’s Deputy Minister for Domestic Trade and Consumer Affairs, said in the statement.

Malaysia, which figures on a US blacklist on piracy, has dramatically stepped up efforts to rein in copyright pirates as it negotiates a free-trade pact with Washington. The success of Lucky and Flo has prompted the ministry to set up its own canine unit to fight the pirates, and the MPA, which arranged for their trial by Malaysian officials, plans to donate two new dogs to the unit by the end of the year.

Movie pirates even put a bounty of 100,000 ringgit (28,560 US dollars) on Lucky and Flo after they busted a fake DVD ring in southern Johor State in March, the MPA said. Since then, the dogs have been closely guarded. Lucky and Flo’s next stop on their crime-fighting tour is a visit to New York, followed by a trip to Toronto for an appearance at a film festival, said the MPA, which groups six major Hollywood film companies.

Maradona tells Chavez he hates US

CARACAS, 21 Aug—Former Argentine soccer star Diego Maradona told President Hugo Chavez on Sunday he hates the United States “with all my strength” during an appearance on Venezuelan President Hugo Chavez’s weekly television show.

The leftist soccer legend, like the fiercely anti-US Chavez, is a close ally of Cuba’s Fidel Castro. “I believe in Chavez, I am Chavista ... Everything Fidel does, everything Chavez does for me is the best (that can be done),” Maradona said, sitting with Chavez on the set of the president’s Sunday talk show.

“I hate everything that comes from the United States. I hate it with all my strength,” he added to thunderous applause and cheering from the hundreds of Chavez supporters gathered in an auditorium for the show. Chavez, a self-described socialist revolutionary, is an unrelenting critic of Washington and frequently describes the United States as a decadent empire.

US State Department officials call Chavez a threat to regional democracy and accuse him of using the OPEC nation’s oil wealth to meddle in the affairs of neighbouring nations. — MNA/Reuters

Five killed in Minnesota flooding

WASHINGTON, 21 Aug—Five people have been killed in the US midwestern state of Minnesota in flooding caused by severe storm overnight, US media reported Sunday.

All the victims were killed when their vehicles were deluged by floodwaters. Severe storm also hit other states, including Wisconsin and Oklahoma, and washed away bridges and roadways. Several towns were evacuated due to the flooding.

In Oklahoma, the storm knocked out power supply to some 20,000 customers, and in Wisconsin, a house was pushed onto a highway by a mudslide triggered by heavy rain, the reports said.

Gunmen take 30 hostages in S-E Iran

TEHERAN, 21 Aug—Gunmen took as many as 30 people hostage in southeast Iran on Sunday after burning vehicles and shooting at passengers, news agencies said, an incident blamed on Sunni Muslim rebels Teheran has previously linked to al-Qaeda.

The attackers then took the hostages across the border into Pakistan, state television said.

Some media sources gave lower figures for the number of people seized in the early morning on a road in Sistan-Baluchestan, a volatile eastern border province notorious for frequent clashes between security forces and drug smugglers.

The ISNA and Fars news agencies said 30 people were taken hostage, while the state broadcaster said 12 people were seized. — MNA/Reuters

Strong quake hits Philippines, no damage reports

MANILA, 21 Aug—A magnitude 6.5 earthquake hit the southeastern Philippines on Monday, the US Geological Survey reported.

There were no immediate reports of damage, officials in the Philippines said.

The USGS said the quake was offshore and very shallow at 6.3 miles (10 kilometres) deep and was centred 140 miles (226 kilometres) east-southeast of Davao City on the island of Mindanao.
Adoption of the amendments, additions and repeals

YANGON, 22 Aug—The following is the clarification of Chairman of the National Convention Work Committee Chief Justice U Aung Toe on matters regarding amendments, the additions and the repeals out of the fundamental principles and detailed basic principles that have been adopted by the National Convention.

Mr Chairman and National Convention delegates, wish you all health and happiness and auspiciousness.

At the plenary session of the National Convention held on 6 August 2007, the Chairman of the National Convention Convening Work Committee explained some adopted fundamental principles and detailed basic principles that need to be amended, added or repealed. The delegate groups have already presented proposal papers concerning the Work Committee Chairman’s clarifications of the matter at the plenary session held from 13 to 15 August 2007. The groups presented appropriate and coherent suggestions within the framework of the adopted fundamental principles and detailed basic principles. A separate suggestion presented by a delegate group is a suggestion that will benefit the nation and the people. Hence, the delegate groups’ opinions on the suggestion were sought through the respective Panels of Chairman.

The National Convention Convening Work Committee thoroughly studied the delegate groups’ suggestions in connection with the fundamental principles and detailed basic principles that should be amended, added and repealed as necessary. The National Convention Convening Commission after thoroughly studying the Work Committee’s report on the matter approved it. Now, I will explain the approved report regarding the fundamental principles and detailed basic principles which have been amended, added and repealed.

Mr Chairman,

At the plenary session of the National Convention held on 6 August 2007, the Work Committee Chairman explained the matter concerning the fundamental principles and detailed basic principles that should be amended, added and repealed. In connection with the para 3 of General Provisions, he said, “The plenary session of the National Convention held on 16 September 1993 adopted the 104 State fundamental principles. Based on the given adopted fundamental principles, the detailed basic principles for the remaining chapters were laid down and adopted. In other words, the fundamental principles have been adopted as the general guidance of the State to be observed and followed. The State will carry out the legislative and executive functions in accord with the fundamental principles. In doing so, the State will implement the functions in accord with the nation’s prevailing situation and time. The running of the legislative and administrative machinery may face disturbances and obstacles if a lawsuit is filed against the State while taking advantage of its failure to implement the task in accord with said principles as time and situation is not ripe yet. In our view, it is necessary to adopt a detailed basic principle that will protect the State.

“My opinion is that if a detailed basic principle regarding the matter should be adopted an addition should be made to the para (3) of the Chapter — “General Provisions”, which says “The State fundamental principles are the guidelines to be followed by the legislative Hluttawas in enacting laws and interpreting provisions of the State Constitution and of other laws.”

In our view, the expression “The application of these principles in legislation and administration shall be the care of the State but shall not be enforceable in any court or law” should be added to the said detailed basic principle.

In this regard, delegates will have to decide whether to add the given expression to the detailed basic principles as follows:

“The State fundamental principles are the guidelines to be followed by the legislative Hluttawas in enacting laws and interpreting provisions of the State Constitution and of other laws. The application of these principles in legislation and administration shall be the care of the State but shall not be enforceable in any court or law.”

Delegate Group of National Races, Delegate Group of Peasants, Delegate Group of Workers, Delegate Group of Intellectuals and Intelligentia, Delegate Group of State Service Personnel, Delegate Group of Other Invited Persons, Delegate Group of Political Parties — the National Unity Party, the Union Pa-O National Organization, the Shan State Kokang Democratic Party, the Mro or Khami National Solidarity Organization, the Luhi National Development Party, the Union Kayin League, the Kokang Democracy and Unity Party and the Wa National Development Party and other independent representatives—elect groups — the group comprising Dr Hmu Han, U Aung Thein and U Tun Kyaw and the group comprising U Tin Win, U Thein Kyi, U Hla Soe, U Mya Hlaing, U Kyi Win and U Tin San Maung — agreed to adopt the abovementioned detailed basic principle after giving reasonable suggestions.

In accord with the suggestions of the Delegate Groups of the National Convention, and the majority of the delegates of these delegate groups, the detailed basic principle “The State fundamental principles are the guidelines to be followed by the legislative Hluttawas in enacting laws and interpreting provisions of the State Constitution and of other laws. The application of these principles in legislation and administration shall be the care of the State but shall not be enforceable in any court or law” is adopted.

Mr Chairman,

At the plenary session of the National Convention held on 6 August 2007, the Work Committee Chairman said, “The plenary session of the National Convention held on 27 October 2006, adopted the detailed basic principles including the para 50 which states: “In this Chapter ‘The State’ means a body that exercises legislative and executive powers according to this Constitution” for the Chapter “Citizenship, Fundamental Rights and Duties of Citizens”. According to the statement, it is as if that the term ‘State’ is contained in the detailed basic principle concerns only with the Chapter ‘Citizenship, Fundamental Rights and Duties of Citizens’.

The term ‘State’ can be found in the Chapter 1 “State Fundamental Principles” many times. In our assumption, an addition should be made to the para 50 for the detailed basic principle to cover the interpretation and definition of the term ‘State’ of the given chapter.

The term ‘State’ can be found in the Chapter 1 “State Fundamental Principles” many times. In our assumption, an addition should be made to the para 50 for the detailed basic principle to cover the interpretation and definition of the term ‘State’ of the given chapter.

The para refers only to the term ‘body’. There may be occasions in which the legislative power and executive power are exercised by an organization or by a person. In this situation there may be a constitutional problem. They may be no reason for the occurrence of any disputes if the stipulations contained in the detailed basic principle are fully comprehensive.

Based on my above presentation, delegates will have to discuss whether or not the para 50 of the Chapter ‘Citizenship, Fundamental Rights and Duties of Citizens’ “The State means a body that exercises legislative and executive powers according to this Constitution.” should be amended as follows:

“In this Chapter and the Chapter on State Fundamental Principles, ‘The State’ means a body or a person that exercises legislative and executive powers according to this Constitution.”

Delegate Group of National Races, Delegate Group of Peasants, Delegate Group of Workers, Delegate Group of Intellectuals and Intelligentia, Delegate Group of State Service Personnel, Delegate Group of Other Invited Persons, Delegate Group of Political Parties — the National Unity Party, the Union Pa-O National Organization, the Shan State Kokang Democratic Party, the Mro or Khami National Solidarity Organization, the Luhi National Development Party, the Union Kayin League, the Kokang Democracy and Unity Party and the Wa National Development Party and the two independent representatives—elect groups — the group comprising Dr Hmu Han, U Aung Thein and U Tun Kyaw and the group comprising U Tin Win, U Thein Kyi, U Hla Soe, U Mya Hlaing, U Kyi Win and U Tin San Maung — agreed to amend the abovementioned detailed basic principle as explained by the Work Committee Chairman after presenting rational suggestions.

In accord with the suggestions of the Delegate Groups of the National Convention, and the majority of the delegates of these delegate groups, the para 50 of the Chapter “Citizenship, Fundamental Rights and Duties of Citizens” is amended as follows:

“In this Chapter and the Chapter on State Fundamental Principles, ‘The State’ means a body or a person that exercises legislative and executive powers according to this Constitution.”

Mr Chairman,

At the plenary session of the National Convention held on 6 August 2007, the Work Committee Chairman explained the matter concerning the adoption of detailed basic principles for the formation of judiciary. In connection with the qualifications of the Chief Justice of the Union and justices of the Supreme Court of the Union, the para 3 (c) (ii) states “have been an advocate of a High Court of at least 20 years’ standings”. The statement was so indicate the least required period for the said matter.

“In connection with the qualifications of the Chief Justice of the High Court of Region or State Chief Justice and judges of the High Court of the Region or State, the para 11 (c) (ii) states “a person who has served as advocate for 15 years”. The stipulation does not state the word ‘at least’. In drafting the Constitution, it should be stated “at least 15 years” to ensure a harmonious context and to prevent against occurrence of disputes in the future.

“Hence, delegates should discuss whether or not the detailed basic principle 11 (c) (ii) “a person who has served as the advocate for 15 years” should be amended

(See page 6)
Adoption of the amendments, additions...

(continued)

as “a person who has served as the advocate for at least 15 years”.

Mr Chairman,

At the plenary session of the National Convention held on 6 August 2007, the Work Committee Chairman explained, “The plenary session of the National Convention held on 6 August 1993 adopted the following State Fundamental Principles in connection with judiciary: (a) the judicial power of the State is distributed among Pyidaungsu Taya Hluttaw (Supreme Court), Region Taya Hluttaw (Region High Court), State Taya Hluttaw (State High Court) and law courts of different levels including law courts of self-administered areas; (b) in the Pyidaungsu is constituted one Pyidaungsu Taya Hluttaw, Pyidaungsu Taya Hluttaw is the supreme court of State; (c) Pyidaungsu Taya Hluttaw has powers to issue writs. “But from paras 1 to 9 of the Formation of Judiciary and paras 1, 2 and 8 of Sharing of the Judicial Power, use the term “Supreme Court of the Union.” Hence, delegates will have to suggest whether the term “Pyidaungsu Taya Hluttaw” in the subpara (a), (b) and (c) of para 9 of the Chapter “State Fundamental Principles” should be substituted with the term “Supreme Court of the Union”. With reasonable explanations, Delegate Group of National Races, Delegate Group of Peasants, Delegate Group of Workers, Delegate Group of Intellectuals and Intelligentsia, Delegate Group of State Service Personnel, Delegate Group of Other Invited Persons, Delegate Group of Political Parties — the National Unity Party, the Union Pa-O National Organization, the Shan State Kokang Democratic Party, the Mro or Khami National Solidarity Organization, the Lahu National Development Party, the Union Kayin League, the Kokang Democracy and Unity Party and the Wa National Development Party and the two independent representatives-elect groups — the group comprising Dr Hmu Htan, U Aung Thein and U Tun Kyaw and the group comprising U Tin Win, U Thein Kyi, U Hla Soe, U Mya Hlaing, U Kyi Win and U Tun Tin Maung — agreed to adopt the abovementioned detailed basic principle as explained by the Work Committee Chairman. In accord with the suggestions of the Delegate Groups of the National Convention, and the majority of the delegates of these delegate groups, the detailed basic principle — subpara (b) of para 22 which states “The President of the State shall exercise relaxation of stipulation on age limit in the State Constitution in appointing Region or State Ministers, the chairman of the self-administered division or self-administered zone or Hluttaw representatives elected to undertake the affairs of national races” is adopted.

Mr Chairman,

At the plenary session of the National Convention held on 6 August 2007, the Work Committee Chairman explained, “The plenary session of the National Convention held on 29 March 1996, adopted detailed basic principles for the formation of executive. In the detailed basic principles, subpara (f) of para 22 states as follows: “(i) the Regional or State Chief Minister shall be responsible to the President of the State; (ii) the Region or State Minister shall be responsible to the Regional or State Chief Minister concerned and through the Chief Minister, to the President of the State.” The subpara (f) of para 28 states, “The Advocate-General of the Region or State is responsible to the President through Chief Minister of the Region or State concerned, to the Pyidaungsu Attorney-General and to the Chief Minister of the Region or State concerned.” “Here, delegates will have to discuss whether subpara (f) para 28 and subpara (e) para 31 should be amended as follows: “(i) the Regional or State Chief Minister shall be responsible to the President of the State through the Chief Minister of the Region or State concerned, to the Pyidaungsu Attorney-General and to the Chief Minister of the Region or State concerned.”
Adoption of the amendments, additions...

(from page 6)

Delegate Group of Other Invited Persons, Delegate Group of Political Parties — the National Unity Party, the Union Pa-O National Organization, the Shan State Kokang Democratic Party, the Mro or Khami National Solidarity Organization, the Lahu National Development Party, the Union Kayin League, the Lahu Democratic and Unity Organization, the Lahu National Development Party and the Wa National Development Party and the two independent representatives-elect groups — the subpara (a) states “equal numbers of 12 from each region or state inclusive of Union territories, and including one representative from each self-administered division or self-administered zone.”

With reasonable explanations, Delegate Group of Political Parties — the National Unity Party, the Union Pa-O National Organization, the Shan State Kokang Democratic Party, the Mro or Khami National Solidarity Organization, the Lahu National Development Party, the Union Kayin League, the Lahu Democratic and Unity Organization, the Lahu National Development Party and the Wa National Development Party and the two independent representatives-elect groups — the subpara (a) states “equal numbers of 12 from each region or state inclusive of Union territories, and including one representative from each self-administered division or self-administered zone.”

With reasonable explanations, Delegate Group of Political Parties — the National Unity Party, the Union Pa-O National Organization, the Shan State Kokang Democratic Party, the Mro or Khami National Solidarity Organization, the Lahu National Development Party, the Union Kayin League, the Lahu Democratic and Unity Organization, the Lahu National Development Party and the Wa National Development Party and the two independent representatives-elect groups — the subpara (a) states “equal numbers of 12 from each region or state inclusive of Union territories, and including one representative from each self-administered division or self-administered zone.”
Plenary Session of the National Convention in progress at Pyidaungsu Hall in Nyaungnapin Camp in Hmawby Township.

National Convention continues...

Information Minister Brig-Gen Kyaw Hsan acts as MC at Plenary Session of the National Convention.

Chairman of the National Convention Convening Work Committee Chief Justice U Aung Toe made clarification on matters concerning the amendments, the additions and the repeals and the meeting was adjourned at 11 am.

Myanmar draws Singapore 3-3 in debut of AFF U-17 Championship

Yangon, 22 Aug — Myanmar drew Singapore with 3-3 in the debut of the AFF U-17 Championship held in Phnom Penh of Cambodia today.

Myanmar and Singapore held a 1-1 draw in the first half. Singapore took the lead with the 18th minute opener. Kaung Htet Aung took the equalizer for Myanmar at the 42nd minute.

After the break, Thet Naing put Myanmar to extend the lead at the 2nd minute. Twelve minutes later Kyi Lin added a third for Myanmar. Singapore drew level with the 21st and 29th minute goals. The result remained unchanged until the final whistle.

Forestry Minister attends meeting of International Centre for Integrated Mountain Development (ICIMOD)

Nay Pyi Taw, 22 Aug — The International Centre for Integrated Mountain Development (ICIMOD) held the meeting on future programme at the Yein Kha Khaing Office this morning, with an address by Minister for Forestry Brig-Gen Thein Aung.

Deputy Director-General Dr Madhav B Karki of ICIMOD explained the task to be undertaken by Myanmar and other member countries.

Experts and participants took part in the discussions on alleviation of poverty, living standard of the people with the correct use of services through ecosystem, water management and flood prevention. — MNA
Greening tasks for Nay Pyi Taw Hotel Zone coordinated

NAI PYI TAW, 22 Aug — The coordination on greening tasks for Nay Pyi Taw Hotel Zone was held at the meeting hall of the Ministry of Hotels and Tourism yesterday with an address by Minister for Hotels and Tourism Maj-Gen Soe Naing.

First, the minister made a speech on the occasion, saying that constant measures are to be made for greening the hotels to be on par with international standards because there are local and foreign tourists arrival daily.

Hoteliers are to carry out the tasks in time while keeping hotels and their environs beautiful and pleasant. They are to focus on greening tasks all seasons. The ministry will take cooperative measures with the hoteliers in greening tasks for the hotels and their environs to be accomplished in time.

Next, Director-General U Hlae Aung of Directorate of Hotels and Tourism briefed the minister on progress in greening tasks and future plans and the hoteliers on accomplishment of the greening tasks.

Industry-2 Minister tours Indagaw Industrial Region

NAI PYI TAW, 22 Aug — Minister for Industry-2 Maj-Gen Saw Lwin inspected the foundry plant of Myanmar Automobile and Diesel Engine Industries in Indagaw Industrial Region in Bago Division on 20 August afternoon. The minister instructed officials to manufacture products meeting the set standards and take innovative measure for new products. The minister also viewed production of power-tillers and installation of engines at Power-tiller Engine Factory of Myanmar Agricultural Machinery Industries.

After inspecting the products, the minister urged officials to manufacture power-tillers to meet the target, reduce production cost and operate the machines at full capacity and practise thrifty.

Myanmar Unicode System-Second Generation introduced

YANGON, 22 Aug — A ceremony to introduce and demonstrate Myanmar Unicode System-Second Generation, which can be used on any computer systems and MyWindows System was held in the conference hall of Myanmar Info-Tech at Yangon University (Hlaing Campus) this afternoon.

Present on the occasion were members of the Committee on Development of Myanmar Language for Computer Systems, officials of Union of Myanmar Federation of Chambers of Commerce and Industry, Myanmar Computer Federation, Myanmar Computer Professionals Association, Myanmar Computer Entrepreneurs Association, Myanmar Engineering Society, computer technicians and guests.

YANGON, 22 Aug — Outstanding students in Kungyangon Township were honoured yesterday at No 2 Basic Education High School in the township. Minister for Energy Brig-Gen Lun Thu delivered an address at the prize presentation and presented awards to the outstanding students who passed the matriculation examination for 2007 academic year.

At the prize presentation ceremony, wellwishers also donated computers and accessories to the school. Next, the minister accepted cash donation from wellwishers and he handed over cash to the headmistress of the school. On behalf of the winners a four-distinction winner spoke words of thanks. — MNA

**Egypt discovers what may be oldest human footprint**

**CAIRO, 21 Aug—** Egyptian archaeologists have found what they said could be the oldest human footprint in history in the country's western desert, the Arab.

“This could go back about two million years,” said Zahi Hawass, the secretary general of the Egyptian Supreme Council of Antiquities. “It could be the most important discovery in Egypt,” he told Reuters.

Archaeologists found the footprint, imprinted on mud and then hardened into rock, while exploring a prehistoric site in Siwah, a desert oasis.

Scientists are using carbon tests on plants found in the rock to determine its exact age. Hawass said.

Khaled Saad, the director of prehistory at the council, said that based on the age of the rock where the footprint was found, it could date back even further than the renowned 3-million year-old fossil, Lucy, the partial skeleton of an apeman, found in Ethiopia in 1974.

Most archaeological interest in Egypt is focused on the time of the pharaohs.

**China brings blue-ear pig disease under “preliminary control”**

**BEIJING, 21 Aug—** Blue-ear pig disease has been brought under “preliminary control” through vaccinations and mass culls of infected pigs, Jia Youling, China’s chief veterinary officer, said on Monday. According to the Ministry of Agriculture (MOA), as of 19 August, the disease had infected 257,000 pigs in 26 Chinese provinces, of which 68,000 died and 175,000 were destroyed.

The highly pathogenic disease, also known as Porcine Reproductive and Respiratory Syndrome, can be fatal for pigs, but the vaccinated pigs will no longer be infected by the disease, according to Jia.

He said 12 enterprises had been assigned to produce an effective vaccine against the disease with a daily production capacity of seven to ten million millilitres.

“China has so far administered 2.96 million millilitres of vaccines to protect more than 100 million pigs from the disease and no blue-ear diseases have been found in pigs that have completed the vaccination process,” said Jia.

“People are no longer scared of the disease because they know what the disease is and how to deal with it,” Jia claimed. In response to criticisms that China had downplayed the outbreak of the disease, Jia said the Chinese Government had been “open and transparent” about the disease and has provided regular updates to the United Nations Food and Agriculture Organization (FAO) and the World Organization for Animal Health (OIE).

**Bus crashes off Pakistani mountain road; 25 dead**

**MUZAFFARABAD (Pakistan), 21 Aug—** A bus veered off a mountain road in northern Pakistan and crashed into a river gorge on Monday killing 25 people and injuring eight, a military official said.

The accident happened in the Neelum Valley in Pakistan’s Kashmir region, which was badly hit by an earthquake in October 2005 that killed about 75,000 people.

“It was apparently due to overspeeding. That’s why the reason witnesses are giving,” said a military official in the area, who declined to be identified.

Large parts of the road up the Neelum Valley were swept away in landslides triggered by the 2005 earthquake and the Army spent weeks carving and blasting new stretches of road out of mountain sides.

About 40 people were believed to have been on the bus when the accident happened, about 45 km (30 miles) northeast of the town of Muzaffarabad, the official said.

Vitamin D helpful in fighting cancer

Los Angeles, 21 Aug — Adequate intake of vitamin D may help prevent cancer, according to new study.

A number of 600,000 cases a year of breast and colorectal cancer could be prevented each year if vitamin D3 levels met the target proposed by researchers, said the study by researchers at the Moores Cancer Centre at the University of California, San Diego (UCSD).

The effect of Vitamin D3 is more evident in countries north of the equator. Vitamin D3 is available through diet, supplements and exposure of the skin to sunlight. “For the first time, we are saying that 600,000 cases of breast and colorectal cancer could be prevented each year worldwide, including nearly 150,000 in the United States alone,” said Cedric F. Garland, a cancer prevention specialist at UCSD.

The paper, which looks at the dose-response relationship between vitamin D3 levels, will be published in the August edition of the journal Nutrition Reviews.

The study combined data from surveys of serum vitamin D levels during winter from 15 countries. It is the first such study to look at satellite measurements of sunshine and cloud cover in countries where actual blood serum levels of vitamin D3 had also been determined.

The data were then applied to 177 countries to estimate the average serum level of a vitamin D3 metabolite of people living there. — Internet

British archaeology student finds Neolithic chewing gum

Helsinki, 22 Aug— British archaeology student Sarah Pickin has found a 5,000-year-old piece of chewing gum in western Finland, local media reported on Monday.

Last month, Sarah Pickin, 23, one of five British students taking part in a volunteer programme in a Stone Age village at the Kierikki Stone Age Centre in western Finland, found a lump of birch resin showing clear tooth imprints. The piece of Neolithic gum was found among artifacts, like dishes and jewellery. “It’s somewhere between 5,500 and 6,000 years old,” said Sami Viljamaa, a Finnish archaeologist who led the dig.

“Most likely the lump was used as an antique kind of chewing gum,” said Sami Viljamaa. MNA/Xinhua

Virgin olive oil may help keep blood clot-free

New York, 21 Aug — Eating foods prepared with olive oils that are rich in phenols, substances though to have beneficial effects on the heart, may help ward off harmful blood clots in people with high cholesterol, Spanish researchers report.

“Our findings provide new evidence of the healthy effects of virgin olive oil,” Dr. Francisco Perez-Jimenez of Reina Sofia University Hospital in Cordoba and colleagues conclude.

In the early stages of atherosclerosis, the balance between clot-promoting and clot-dissolving factors in the blood vessels shifts in favour of clot formation and having high levels of fat in the blood can worsen this imbalance, Perez-Jimenez and his team explain the August issue of the American Journal of Clinical Nutrition.

Olive oil contains phenols, which have been shown to fight clotting in lab tests, but few studies of their effects have been performed in humans, the researchers note.

To investigate, the researchers had 21 people with high cholesterol eat two different breakfasts. For one week, they consumed either white bread with virgin olive oil containing 400 parts per million phenols, or white bread with olive oil from which much of the phenols had been extracted, leaving it with 80 parts per million. Study participants were then switched to the opposite meal. MNA/Reuters

Indian “IT” giant inaugurates new development centre

New Delhi, 21 Aug — Global IT service Wipro Technologies announced Monday the inauguration of a new offshore development centre for World famous financial giant Zurich Financial Services Group (ZFSG) at Chennai, a southeastern city in India.

During the inauguration ceremony, Michael Paravicini, Chief Information Technology officer of the ZFSG, said, “Wipro is a valuable ASP (Application Service Provider) Sourcing provider, with a strong offshore delivery record that will help Zurich to achieve its business objectives.”

Soumitro Ghosh, Wipro’s Senior Vice-President Banking and Insurance Practice, said, “We are pleased to work for a leading global player like Zurich. Wipro has considerable experience and expertise in the Financial Services industry and our strong track record makes us a reliable partner for the leaders in the industry.”

The two companies signed a framework agreement earlier this year, for Wipro Technologies to provide application development and maintenance services in seven countries.

Zurich Financial Services Group is an insurance-based financial services provider with a global network of subsidiaries and offices in North America and Europe as well as in Asia Pacific, Latin America and other markets. Founded in 1872, the Group is headquartered in Zurich, Switzerland. MNA/Xinhua
New coach Camacho vows to make Benfica ‘great’

LISBON, 22 Aug — José Antonio Camacho has returned for a second stint as coach of Portugal’s Benfica, with the Spaniard promising on Tuesday to turn the country’s most popular club into a “great side”.

Camacho replaces Fernando Santos, who was sacked following Benfica’s 1-1 draw with newly promoted Leixões in their opening match of the season on Saturday. After helping the team to a second-place finish in 2004 during his previous spell in charge, Camacho has signed a two-year contract on his return.

“Benfica has great foundations, now we have to turn it into a great side,” Camacho told a news conference as he was presented as the club’s new coach by club president Luis Filipe Vieira.— MNA/Reuters

Spanish League threaten legal action over Granada

MADRID, 22 Aug — The Spanish Football League (LFP) and Granada 74 have threatened to take legal action against UEFA and FIFA for recommending that the club should be excluded from the second division.

“We will take out a suit against FIFA and UEFA because they haven’t the authority to go against Spanish law,” vice-president of the LFP Javier Tebas was quoted as saying in sports daily Marca on Tuesday.

UEFA and FIFA said on Monday that the Spanish Football Federation (RFEF) should not allow the new team to take part in the league because they had purchased their place in the second division.

The two governing bodies believe the move violates the principle that clubs should be promoted for sporting results on the field of play and not through financial or commercial operations.

Granada 74 earned promotion from the Andalucian league to the regionally based Tercera (fourth) division last season.

But they were catapulted into the second division when club president Carlos Marsa took advantage of new LFP regulations to buy up second-division Ciudad de Murcia for an estimated 20 million euros and move the club’s headquarters to Motril on the coast, some 70 kilometres south of Granada.— MNA/Reuters

Blind female amateur achieves career high with ace

LOS ANGELES, 21 Aug — American Sheila Drummond, with her heart pounding, recorded what is believed to be the first hole-in-one by a totally blind female golfer at Mahoning Valley Country Club in Lehighton, Pennsylvania on Sunday.

Playing with her husband Keith and another couple in damp conditions on a course she knows very well, the 53-year-old amateur aced the par-three 20th hole on Tuesday at the Gibson Guitar Champions Cup to move into the Champions League this season.

Jol, who took over at Tottenham in November 2004, has guided Spurs to two successive fifth-placed finishes and secured UEFA Cup participation for the second successive season. Spurs had not finished as high in the table since a third place finish in the old First Division in 1995.

Despite two defeats in the opening two matches, Spurs crushed Derby County 4-0 on Saturday and are currently 12th in the embryonic Premier League standings and Jol says he has no intention of quitting.— MNA/Reuters

Heine fails in attempt to force Liverpool move

LONDON, 22 Aug — Argentine defender Gabriel Heinez has failed in his attempt to force Manchester United to sell him to rivals Liverpool, the Premier League said on Tuesday.

A three-man Premier League arbitration panel met to resolve the dispute on Tuesday at the request of Heinez after United refused to allow the 29-year-old to join Liverpool. Heinez claimed that he had a letter from United giving him permission to move to another club for 6.8 million pounds (13.45 million US dollars) — a fee Liverpool agreed to pay.

The Premier League panel ruled that

Tennis Hall of Famer Jim Courier, left, and Kyla Debrito, 10, of Providence, on 21 Aug, 2007. Courier was on hand to promote the sport and the Gibson Guitar Champions Cup to be played on 22-26 Aug, in Newport, RI. The PASA programme is designed to improve after school opportunities for middle schoolchildren.— INTERNET

Heinez fails in attempt to force Liverpool move

LONDON, 22 Aug — Argentine defender Gabriel Heinez has failed in his attempt to force Manchester United to sell him to rivals Liverpool, the Premier League said on Tuesday.

The Premier League panel ruled that

The hearing concluded that nature and intention of the disputed 13 June 2007 letter, especially when taken in context of verbal discussions and Manchester United FC’s transfer policy, was unambiguous in that it envisages only an international transfer,” a statement said.

Furthermore the hearing finds the letter constitutes an ‘agreement to agree’, and did not create an obligation or binding agreement for the club to transfer the player to any particular club.

MNA/Reuters

Martin Jol facing battle for managerial post

LONDON, 22 Aug — Martin Jol’s three-year reign as manager of Tottenham Hotspur appeared to be coming to an end on Tuesday despite him steering the club to their highest league position since 1990 and back into Europe.

Widespread media reports said the affordable Dutchman, hugely popular with the long-suffering Spurs fans, had lost the support of the club’s directors and could make way for Sevilla boss Juande Ramos, who has taken the Spanish club to five trophies in the space of just 15 months.

Ramos, however, has denied that he plans to leave the club after guiding them into the Champions League this season.

“Further conversations are planned with Martin to discuss his future,” a club statement said.

Jol, who took over at Tottenham in November 2004, has guided Spurs to two successive fifth-placed finishes and secured UEFA Cup participation for the second successive season. Spurs had not finished as high in the table since a third place finish in the old First Division in 1995.

Despite two defeats in the opening two matches, Spurs crushed Derby County 4-0 on Saturday and are currently 12th in the embryonic Premier League standings and Jol says he has no intention of quitting.— MNA/Reuters

Real sell Emerson to Milan

MADRID, 22 Aug — Brazilian midfielder Emerson will return to Italy to play for AC Milan after just one season with Real Madrid.

The Primera Liga side said on their website (www.realmadrid.com) they had reached an agreement to sell the 31-year-old international to the European champions but did not reveal the fee.

Milan confirmed the Brazilian international had joined the club on their website (www.acmilan.com).

Emerson joined Real Madrid from Juventus for an estimated fee of 16 million euros (21.56 million US dollars) last year after the Italian side were punished with relegation following a match-fixing scandal.

Emerson’s signing was made at the request of new coach Fabio Capello who had made the holding midfielder a key part of his plans at both AS Roma and Juve.— MNA/Reuters

Hosts S Africa to play in 2010 World Cup qualifiers

JOHANNESBURG, 22 Aug — South Africa will become the first World Cup hosts in more than 70 years to participate in its own qualifying competition, although they will play in the finals regardless of their performance, officials confirmed on Tuesday.

The African qualifiers for the 2010 World Cup are to be combined with the preliminaries for the African Nations Cup finals earlier the same year, necessitating the participation of South Africa, the Confederation of African Football (CAF) said.

While all the other African nations involved in the qualifiers will be vying for spots in both tournaments, World Cup hosts South Africa will only be chasing a berth in the 2010 African Nations Cup being held in Angola.

Similarly, Angola will be only trying to qualify for a World Cup berth. For the first time, Africa has a full quota of 53 entries for the 2010 preliminaries, which will be divided into three stages.

The bottom 10 African teams in the FIFA rankings have been drawn into five preliminary round ties, which are to be played over two legs in October and November.

FIFA says the draw has been conducted and is expected to be announced in the next days.— MNA/Reuters
Bolivian police shoot down drug smugglers’ plane
LA PAZ, 22 Aug — Bolivian anti-drug police shot down a plane in which traffickers were trying to smuggle at least 270 pounds (124 kilos) of cocaine, killing the pilot and injuring a passenger, authorities said on Monday.

The Cessna crashed on a secondary road and flat areas as landing strips, Colonel Franz Lea Plaza of the anti-narcotics squad said.

He said the smugglers shot at police after they were surprised loading the aircraft with cocaine. Several people died in two vehicles while the plane exploded after being shot at it took off.

The smugglers left 268 pounds (122 kilos) of cocaine behind, and police later recovered 4 pounds (2 kilos) of the drug from the wreckage, he said.

“Probably there was much more cocaine that burned with the plane,” Lea Plaza said.

The pilot was burned to death and the other person aboard was hospitalized with serious burns. The survivor is a Brazilian citizen, the colonel said.

Bolivia is the world’s third-largest producer of cocaine, after Colombia and Peru. — MNA/Reuters

China nabs crocodile smuggler
BEIJING, 22 Aug — Chinese police have caught a smuggler trying to bring 70 crocodiles into the country, state media reported on Monday.

The haul of crocs, each about 70 centimetres (28 inches) and weighing 1.5 kilos (3.31 pounds), along with baby turtles were made in Guangdong Province in the country’s far south, a part of the world where locals have famously adventurous eating habits.

But the report by Xinhua news agency said the crocodiles were “ornamental” and were caught with 3,000 baby turtles in the port city of Zhuhai. It did not say where they came from or what happened to the smuggler.

Southern China has long been the favourite stamping ground of smugglers who, before a crackdown several years ago, easily slipped cars, televisions, luxury goods, and even dismantled bowling alleys into the country.

The captured animals have been handed over to quarantine officials who will test them for disease and “assess their environmental impact”, the report said.

The smugglers left 268 pounds (122 kilos) of cocaine behind, and police later recovered 4 pounds (2 kilos) of the drug from the wreckage, he said.

“Probably there was much more cocaine that burned with the plane,” Lea Plaza said.

The pilot was burned to death and the other person aboard was hospitalized with serious burns. The survivor is a Brazilian citizen, the colonel said.
