MEMORANDUM

1. The Government of Japan, prompted by a genuine desire to come to an amicable understanding with the Government of the United States in order that the two countries by their joint efforts may secure the peace of the Pacific area and thereby contribute toward the realization of world peace, has continued negotiations with the utmost sincerity since April last with the Government of the United States regarding the adjustment and advancement of Japanese-American relations and the stabilization of the Pacific area.

The Japanese Government has the honor to state frankly its views concerning the claims the American Government has persistently maintained as well as the measures the United States and Great Britain have taken toward Japan during these eight months.

2. It is the invariable policy of the Japanese Government to insure the stability of East Asia and to promote world peace, and thereby to enable all nations to find each its proper place in the world.

Ever since the China Affair broke out owing to the failure on the part of China to comprehend Japan's true intentions, the Japanese Government has striven for the restoration of peace and it has consistently exerted its best efforts to prevent the extension of war-like disturbances. It was also to that end that in September last year Japan concluded the Tripartite Pact with Germany and Italy.
