 Approved March 10, 1941.

EXHIBIT No. 2—See facing folder

EXHIBIT No. 3

[From the Times-Herald, Washington, D. C., Thursday, September 28, 1941]

THE TRUTH OF PEARL HARBOR

(AN EDITORIAL)

By Basil Brewer, Publisher, The New Bedford (Mass.) Standard-Times

Pearl Harbor is the saddest chapter in the history of America.

Here, in one hour, was destroyed the Pacific battle fleet, chief weapon to restrain Japan from war—chief weapon with which to win, if war came.

Here were wiped out 4,000 officers and men of the American Army and Navy. Innocent of responsibility, they died in a classic funeral pyre, built for them by the criminal negligence of others.

Pearl Harbor, which, as the Japanese planned, made impossible relief of the Philippines, may have been responsible for that other great tragedy—Bataan and Corregidor.

Pearl Harbor marked the beginning of war with Japan.

It may well have finished any hope of an early successful ending of the Japanese war.

Certainly the victims there, those who paid the "last full measure of devotion," were not to blame for the disaster.

Who were to blame for Pearl Harbor?

Surely here, if ever, there was guilt and there were guilty.

Who were the guilty and why have they not been apprehended, tried, convicted and punished?

WHY?

The President had said Jan. 7, 1941, 11 months before Pearl Harbor:

"When the dictators are ready to make war upon us, they will not wait for an act of war on our part. They, not we, will choose the time, the method and the place of their attack."

Why, then, were we "surprised" at Pearl Harbor?

Why was the battle fleet there, each in its place, names and exact locations map marked by the Japanese flyers to receive the torpedoes, made especially for this attack?

Why was the air arm of the Army there, herded together, untrained, for the kill?

Should the Pacific battle fleet have been at Pearl Harbor on Dec. 7?

And, if it should not, why was it there, and by whose orders?

INVESTIGATIONS

Four different "investigations" of Pearl Harbor have been conducted—all secret.

Only one "report" has been made, the report of the Roberts Commission, released a few weeks after Pearl Harbor.

Of the 127 witnesses who testified in the Roberts investigation, the testimony of none has been made public.

Of the hundreds of documents studied and put in the record in the Roberts investigation, none has been made public.
