☐

Remarks:

[Hand written:] Until Saturday night.

Give one copy of the following to For Carter and destroy all papers and forget
copy

Group one is east wind rain group two is north wind "X" cloudy and group three is west wind clear stop groups will be repeated twice in middle and at end of broadcast.

EXHIBIT No. 12

DEC. 4, 1941.

Mr. STERLING: Received following from Carter at 8.12 p. m.:

Remarks: First type of program received since Nov. 28th, 4-5 hours spent monitoring. Sounds like regular weather reports.

About 2200GMT 12/4/41 JVW3:

Tokyo today north wind slightly stronger may become cloudy tonight tomorrow slightly cloudy and fine weather.

Kanagawa prefecture today north wind cloudy from afternoon more clouds.

Chiba prefecture today north wind clear may become slightly cloudy ocean surface calm.

(End of program followed by music)

DE

DEC. 5, 1941.

Mr. STERLING: At 7.45 p. m. Mr. Carter called in from Portland with the following information:

JVV3 2130G

Today north wind morning cloudy afternoon clear begin cloudy evening. Tomorrow north wind and later from south.

(The above was repeated three times)

JVV3 sent a time signal at 2200G and then;

I will now give you the weather report (nothing further, carrier on but no modulation—evidently cutoff in Tokyo)

Remarks by Carter:

They are getting a more complete picture of the operations now and it is evident that at 2130G the Tokyo weather is transmitted and at 2200G the Tokyo weather and weather for other prefectures. Reception is getting better and estimate efficiency on this assignment has increased approximately twenty-five percent.

FINI

Foned Col. Bratton and gave him the message at 7.50 p. m.

Remarks by Col. Bratton:

Results still negative but am pleased to receive the negative results as it means that we have that much more time. The information desired will occur in the middle of a program and possibly will be repeated at frequent intervals. (Asked Col Bratton if I should communicate the information to Portland—concerning the fact that the desired data will be in the middle of a program.) No. I will have a conference with Lt. Col. Dusenburg in the morning and will contact Mr. Sterling in that regard.

Batavia

Dated December 4, 1941

Rec'd 9:19 a. m.

Secretary of State, Washington.

220, December 4, 10 a. m.

War Department at Bandoeng claims intercepted and decoded following from Ministry Foreign Affairs Tokyo:

"When crisis leading to worst arises following will be broadcast at end weather reports: one east wind rain war with United States, two north wind cloudy war with Russia, three west wind clear war with Britain including attack on Thailand or Malaya and Dutch Indies. If spoken twice burn codes and secret papers."

Same re following from Japanese Ambassador Bangkok to Consul General Batavia:

"When threat of crisis exists following will be used five times in texts of general reports and radio broadcasts: one Higashi east America, two Kita North Russia, three Nichi west Britain with advance into Thailand and attack on Malaya and Dutch Indies."

Thorpe and Slawson cabled the above to War Department. I attach little or no importance to it and view it with some suspicion. Such have been common since 1936.

FOOTE.

Give one copy of the following to For Carter and destroy all pages and forge eelen

Groups one is east rain group two is north wind wind cloudy and group x three is west wind clear stop groups will be repeated twice in middle and at end of broadcast.

MILITARY INTELLIGENCE

I, D, 100

BRIEF PERIODIC ESTIMATE OF THE SITUATION, DECEMBER 1, 1941—MARCH 31, 1942

Record Section

G2/1
TJB

17) U. R. 156 NOVEMBER 29, 1941.

Memorandum for the Chief of Staff:

Subject: Brief Periodic Estimate of the Situation, December 1, 1941—March 31, 1942.

1. General.

1. This estimate is addressed to the objective of Nazi defeat. Its purpose is to examine the factors of strength and weakness and of strategic positions of the Nazis and of their opponents, in order to present the military possibilities and probabilities during the period December 1, 1941 to March 31, 1942.

2. a. During that period Germany, though weakened by her losses in Russia, will remain the only power capable of launching large scale strategic offensives. Her success in Russia and the advent of winter make disposable a larger portion of German land and air power than at any time since the beginning of the Russo-German war. On the other hand, the price she has had to pay for her Russian success and the width of the wasted zone behind her Eastern Front indicate that
