mining unit and evaluated as a portion of a new potential mine (*i.e.*, a tract which does not in itself form a logical mining unit);

5. Restrictions to mining that may affect coal recovery;

6. The price that the mined coal would bring when sold;

7. Costs, including mining and reclamation, of producing the coal and the time of production.

### Bureau of Land Management

[WO-220-1020-24 1A]

RIN 1004-AD42

### Grazing Administration—Exclusive of Alaska

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of intent to prepare an Environmental Impact Statement for the proposed amendments of the Bureau of Land Management's grazing administration regulations and announcement of public meetings.

**SUMMARY:** Under section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), the BLM will prepare a national, programmatic EIS and conduct public scoping meetings on amending the regulations governing BLM livestock grazing administration on public lands. The current rule, issued in 1995, requires amendment to comply with court decisions, provide greater flexibility to managers and permittees, improve existing administrative procedures and business practices, and promote conservation of public lands. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs as well concerns regarding possible changes to the Grazing Administration Program. The public scoping process will identify issues and develop criteria in the context of the needs and interests of the public. We encourage the public to participate in planned public meetings and to provide comments and suggestions to help us clearly define possible changes to the Grazing Administration Program.

**DATES:** You must submit your comments by May 2, 2003. BLM may not necessarily consider or include in the Administrative Record for the proposed rule comments that BLM receives after the close of the comment period or comments delivered to an address other than those listed below (*see ADDRESSES*). In addition, BLM will hold public scoping meetings to focus on relevant issues and environmental concerns, identify possible alternatives, and help determine the scope of the EIS. The public scoping meetings will be held
