

Operating License and the Technical Specifications.

Date of initial notice in Federal Register: June 25, 2002 (67 FR 42826). The August 13, September 30, October 31, November 13, and November 25, 2002, supplements contained clarifying information only and did not change the initial no significant hazards consideration determination or expand the scope of the initial application.

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated December 4, 2002.

No significant hazards consideration comments received: No.

Florida Power Corporation, et al., Docket No. 50-302, Crystal River Unit No. 3 Nuclear Generating Plant, Citrus County, Florida

Date of application for amendment: June 13, 2002.

Brief description of amendment: The amendment revises Improved Technical Specification (ITS) 3.3.8, "Emergency Diesel Generator (EDG) Loss of Power Start (LOPS)," by changing the completion time for required action D.2 from 12 to 36 hours. The amendment also corrects a typographical error in ITS 3.3.8.

Date of issuance: February 11, 2003.

Effective date: As of the date of issuance and shall be implemented within 30 days of issuance.

Amendment No.: 206.

Facility Operating License No. DPR-72: Amendment revised the Technical Specifications.

Date of initial notice in Federal Register: July 9, 2002 (67 FR 45570).

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated February 11, 2003.

No significant hazards consideration comments received: No.

Pacific Gas and Electric Company, Docket Nos. 50-275 and 50-323, Diablo Canyon Nuclear Power Plant, Units 1 and 2, San Luis Obispo County, California

Date of application for amendments: November 16, 2001, as supplemented by letter dated September 13, 2002.

Brief description of amendments: The amendments revise Technical Specification (TS) 1.1, "Definitions, Dose Equivalent I-131," and authorize revision of the Final Safety Analysis Report (FSAR) Update to reflect the revised steam generator tube rupture and main steam line break radiological consequences analyses.

Date of issuance: February 20, 2003.

Effective date: February 20, 2003, and shall be implemented in the next periodic update to the FSAR Update.

Amendment Nos.: Unit 1—156; Unit 2—156.

Facility Operating License Nos. DPR-80 and DPR-82: The amendment revised the Technical Specifications and the FSAR Update.

Date of initial notice in Federal Register: January 8, 2002 (67 FR 931). The September 13, 2002, supplemental letter provided additional clarifying information, did not expand the scope of the application as originally noticed, and did not change the NRC staff's original proposed no significant hazards consideration determination.

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated February 20, 2003.

No significant hazards consideration comments received: No.

Tennessee Valley Authority, Docket Nos. 50-327 and 50-328, Sequoyah Nuclear Plant, Units 1 and 2, Hamilton County, Tennessee

Date of application for amendments: March 4, 2002 (TS 01-03).

Brief description of amendments: The amendments revise the SQN Unit 1 and 2 Technical Specifications (TSs) by deleting one definition and modifying several subsections contained in TS Section 6.0, "Administrative Controls." These changes have been prepared based on existing NRC guidance.

Date of issuance: February 11, 2003.

Effective date: As of the date of issuance and shall be implemented within 45 days of issuance.

Amendment Nos.: 281 & 272.

Facility Operating License Nos. DPR-77 and DPR-79: Amendments revise the TSs.

Date of initial notice in Federal Register: April 16, 2002 (67 FR 18649). The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated February 11, 2003.

No significant hazards consideration comments received: No.

Notice of Issuance of Amendments to Facility Operating Licenses and Final Determination of No Significant Hazards Consideration and Opportunity for a Hearing (Exigent Public Announcement or Emergency Circumstances)

During the period since publication of the last biweekly notice, the Commission has issued the following amendments. The Commission has determined for each of these amendments that the application for the amendment complies with the

standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Because of exigent or emergency circumstances associated with the date the amendment was needed, there was not time for the Commission to publish, for public comment before issuance, its usual 30-day Notice of Consideration of Issuance of Amendment, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing.

For exigent circumstances, the Commission has either issued a **Federal Register** notice providing opportunity for public comment or has used local media to provide notice to the public in the area surrounding a licensee's facility of the licensee's application and of the Commission's proposed determination of no significant hazards consideration. The Commission has provided a reasonable opportunity for the public to comment, using its best efforts to make available to the public means of communication for the public to respond quickly, and in the case of telephone comments, the comments have been recorded or transcribed as appropriate and the licensee has been informed of the public comments.

In circumstances where failure to act in a timely way would have resulted, for example, in derating or shutdown of a nuclear power plant or in prevention of either resumption of operation or of increase in power output up to the plant's licensed power level, the Commission may not have had an opportunity to provide for public comment on its no significant hazards consideration determination. In such case, the license amendment has been issued without opportunity for comment. If there has been some time for public comment but less than 30 days, the Commission may provide an opportunity for public comment. If comments have been requested, it is so stated. In either event, the State has been consulted by telephone whenever possible.

Under its regulations, the Commission may issue and make an amendment immediately effective, notwithstanding the pendency before it of a request for a hearing from any person, in advance of the holding and completion of any required hearing, where it has determined that no significant hazards consideration is involved.
