Mechanical Transfer Presses from Japan: Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on mechanical transfer presses (MTPs) from Japan in response to a request by Hitachi Zosen Corp. (HZC), and its subsidiary, Hitachi Zosen Fukui Corporation, doing business as H&F Corporation (H&F). This review covers shipments of this merchandise to the United States during the period of February 1, 2001, through January 31, 2002. We have preliminarily determined that U.S. sales have not been made below normal value (NV). If these preliminary results are adopted in our final results, we will instruct the U.S. Customs Service to liquidate entries without regard to antidumping duties. Interested parties are invited to comment on these preliminary results. See Preliminary Results of Review section of this notice.

EFFECTIVE DATE: March 7, 2003.

Background

The Department published an antidumping duty order on MTPs from Japan on February 16, 1990 (55 FR 5642). On February 19, 2002, the Department received a timely request for an administrative review of the antidumping duty order on MTPs from HZC and its subsidiary, H&F. On February 28, 2002, the Department

received a timely request from the petitioner, IHI-Verson Press Technology, LLC, for an administrative review of HZC, H&F, Komatsu Corporation, Ltd. (Komatsu) and Komatsu American Industries, LLC. On March 27, 2002, we published a notice initiating an administrative review of MTPs (67 FR 14696) for HZC, and HZC's subsidiary, H&F, and Komatsu. On May 22, 2002, we published *Mechanical Transfer Presses from Japan: Final Results of Antidumping Duty Administrative Review and Revocation, in-Part*, in which we revoked the antidumping order with respect to Komatsu. The revocation was effective for subject merchandise entered, or withdrawn from warehouse, for consumption on or after February 1, 2001. See 67 FR 35958.

Due to complicated issues in this case, on October 25, 2002, the Department extended the deadline for the preliminary results of this antidumping duty administrative review until no later than February 28, 2003. See *Mechanical Transfer Presses From Japan: Extension of Time Limit for Preliminary Results and Preliminary Rescission, in Part, of Antidumping Administrative Review* 67 FR 14696 (November 1, 2002).

Scope of the Antidumping Duty Order

Imports covered by this order include mechanical transfer presses (MTPs) currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) item numbers 8462.99.8035, 8462.21.8085, and 8466.94.5040. The HTSUS subheadings are provided for convenience and Customs purposes only. The written description of the scope of this order is dispositive. The term "mechanical transfer presses" refers to automatic metal-forming machine tools with multiple die stations in which the work piece is moved from station to station by a transfer mechanism designed as an integral part of the press and synchronized with the press action, whether imported as machines or parts suitable for use solely or principally with these machines. These presses may be imported assembled or unassembled.

The Department published in the **Federal Register** several notices of scope rulings with respect to MTPs from Japan, determining that (1) spare and replacement parts are outside the scope of the order (see *Notice of Scope Rulings*, 57 FR 19602 (May 7, 1992)); (2) a destack sheet feeder designed to be used with a mechanical transfer press is an accessory and, therefore, is not within the scope of the order (see *Notice of Scope Rulings*, 57 FR 32973 (July 24, 1992)); (3) the FMX cold forging press is
