SUPPLEMENTARY INFORMATION: The TPSSC and THLPSSC are statutorily mandated advisory committees that advise the Research and Special Programs Administration's (RSPA) Office of Pipeline Safety (OPS) on proposed safety standards for gas and hazardous liquid pipelines. These advisory committees are constituted in accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. App. 1). The committees consist of 15 members—five each representing government, industry, and the public. The TPSSC and THLPSSC are tasked with determining reasonableness, cost-effectiveness, and practicability of proposed pipeline regulations.

Federal law requires that OPS submit cost-benefit analyses and risk assessment information on proposed safety standards to the advisory committees. The TPSSC and/or THLPSSC evaluate the merit of the data and methods used within the analyses, and when appropriate, provide recommendations relating to the cost-benefit analyses.
