#### SUPPLEMENTARY INFORMATION:

*Title:* Horse Protection.

*OMB Number:* 0579-0056.

*Type of Request:* Reinstatement of approval of an information collection.

*Abstract:* In 1970, Congress passed the Horse Protection Act (15 U.S.C. 1821 *et seq.*), referred to below as the Act, that prohibits the showing, sale, auction, exhibition, or transport of horses subjected to a cruel and inhumane practice referred to as "soring." This practice causes a horse to suffer pain in any of its limbs for the purpose of affecting the horse's performance in competition. All horses are covered by the Act and the regulations in title 9, part 11, of the Code of Federal Regulations, although enforcement emphasis has historically been placed on Tennessee Walking horses and other gaited breeds due to the prevalence of soring documented in that industry. The regulations are administered and enforced by the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture.

In 1979, APHIS issued regulations in response to an amendment to the Act under which horse show managers may hire private individuals to conduct inspections, in order to limit their liability under the Act if sored horses are entered in their event. These individuals are referred to as designated

qualified persons (DQPs). DQPs must be trained and licensed by USDA-certified and monitored programs that are run by horse industry organizations or associations (HIOs).

Enforcement of the Act and its regulations relies on horse inspections conducted by APHIS veterinarians and by DQPs. To ensure that enforcement by DQPs and USDA-certified DQP programs is effective, APHIS requires DQPs, HIOs, and horse show management to maintain or submit records related to these inspections, their DQP programs, and the horse events to APHIS.

No official government form is necessary for the reporting and recordkeeping required.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, *e.g.*, permitting electronic submission of responses.

*Estimate of burden:* The public reporting burden for this collection of information is estimated to average 0.8454 hours per response.

*Respondents:* Designated qualified persons, horse industry organizations, and horse show management.

*Estimated annual number of respondents:* 1,514.

*Estimated annual number of responses per respondent:* 1.84148.

*Estimated annual number of responses:* 2,788.

*Estimated total annual burden on respondents:* 2,357 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC this 5th day of March 2003.

*Acting Administrator, Animal and Plant Health Inspection Service.*
