Background

On May 11, 1999, the Department published in the **Federal Register** the countervailing duty orders on certain stainless steel plate in coils (stainless steel plate) from Belgium, Italy, and South Africa. See *Notice of Amended Final Determinations: Stainless Steel Plate in Coils from Belgium and South Africa*; and *Notice of Countervailing Duty Orders: Stainless Steel Plate in Coils from Belgium, Italy and South Africa*, 64 FR 25288, (May 11, 1999) (*Countervailing Duty Orders*).

Respondents appealed the affirmative material injury findings of the International Trade Commission (the Commission) with respect to hot-rolled stainless steel plate. The Court of International Trade (the Court) affirmed those findings in *Acciai Speciali Terni v. United States*, 118 F. Supp. 2d 1298 (CIT 2000).

The Commission's negative material injury determination with respect to cold-rolled stainless steel plate was the subject of a separate appeal. The Court upheld the Commission's determination in *Allegheny Ludlum Corp. v. United States*, 116 F. Supp. 2d 1276 (CIT 2000). However, on a subsequent appeal to the Court of Appeals for the Federal Circuit, the Federal Circuit vacated the Court's decision and remanded for proceedings not inconsistent with its decision.

On remand the Commission reversed its original negative injury findings with respect to cold-rolled stainless steel plate and "determined that an industry in the United States is materially

injured by reason of imports of certain stainless steel plate from Belgium, Canada, Italy, Korea, South Africa and Taiwan * * *." *Certain Stainless Steel Plate From Belgium, Canada, Italy, Korea, South Africa, and Taiwan; Notice of Final Court Decision Affirming Remand Determinations*, 68 FR 8925 (February 26, 2003). On December 12, 2002, the Court affirmed the remand redetermination as "being in accordance with the Court's remand order." *Id.* at 8926. The result of this decision is to include both hot-rolled and cold-rolled stainless steel plate in coils within the scope of these orders.

As there was no timely appeal of the Court's order to the Federal Circuit, the judicial proceedings have ended. Therefore, we are amending the scope of the countervailing duty orders to remove the original language which excluded cold-rolled stainless steel plate in coils, in accordance with the Court's final decision. See *Countervailing Duty Orders*. This amendment did not require any changes in the HTS subheadings listed below in the "Scope of the Orders" section.

Scope of the Orders

The product covered by these orders is certain stainless steel plate in coils. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. The subject plate products are flat-rolled products, 254 mm or over in width and 4.75 mm or more in thickness, in coils, and annealed or otherwise heat treated and pickled or otherwise descaled. The subject plate may also be further processed (e.g., cold-rolled, polished, etc.) provided that it maintains the specified dimensions of plate following such processing. Excluded from the scope of these orders are the following: (1) Plate not in coils, (2) plate that is not annealed or otherwise heat treated and pickled or otherwise descaled, (3) sheet and strip, and (4) flat bars.

The merchandise subject to these orders is currently classifiable in the Harmonized Tariff Schedule of the United States (HTS) at subheadings:
