

Proposed Rules

Federal Register

Vol. 68, No. 48

Wednesday, March 12, 2003

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 985

[Docket No. FV-03-985-1 PR]

Marketing Order Regulating the Handling of Spearmint Oil Produced in the Far West; Salable Quantities and Allotment Percentages for the 2003-2004 Marketing Year

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This rule would establish the quantity of spearmint oil produced in the Far West, by class, that handlers may purchase from, or handle for, producers during the 2003-2004 marketing year, which begins on June 1, 2003. This rule invites comments on the establishment of salable quantities and allotment percentages for Class 1 (Scotch) spearmint oil of 857,444 pounds and 45 percent, respectively, and for Class 3 (Native) spearmint oil of 808,528 pounds and 38 percent, respectively. The Spearmint Oil Administrative Committee (Committee), the agency responsible for local administration of the marketing order for spearmint oil produced in the Far West, recommended this rule for the purpose of avoiding extreme fluctuations in supplies and prices, to help maintain stability in the spearmint oil market.

DATES: Comments must be received by April 1, 2003.

ADDRESSES: Interested persons are invited to submit written comments concerning this proposed rule. Comments must be sent to the Docket Clerk, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Washington, DC 20250-0237; Fax: (202) 720-8938; or E-mail: moab.docketclerk@usda.gov. All comments should reference the docket number and the date and page number

of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.ams.usda.gov/fv/moab.html>.

Curry, Northwest Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1220 SW Third Avenue, suite 385, Portland, Oregon 97204; telephone: (503) 326-2724; Fax: (503) 326-7440; or George Kelhart, Technical Advisor, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Washington, DC 20250-0237; telephone: (202) 720-2491; Fax: (202) 720-8938.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue SW., STOP 0237, Washington, DC 20250-0237; telephone (202) 720-2491, Fax: (202) 720-8938, or E-mail: Jay.Guerber@usda.gov.

SUPPLEMENTARY INFORMATION: This proposal is issued under Marketing Order No. 985 (7 CFR Part 985), as amended, regulating the handling of spearmint oil produced in the Far West (Washington, Idaho, Oregon, and designated parts of Nevada and Utah), hereinafter referred to as the "order." This order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Order 12866.

This proposal has been reviewed under Executive Order 12988, Civil Justice Reform. Under the provisions of the order now in effect, salable quantities and allotment percentages may be established for classes of spearmint oil produced in the Far West. This proposed rule would establish the quantity of spearmint oil produced in the Far West, by class, that may be purchased from or handled for producers by handlers during the 2003-2004 marketing year, which begins on June 1, 2003. This proposed rule would not preempt any State or local laws, regulations, or policies, unless they

present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

Pursuant to authority in §§ 985.50, 985.51, and 985.52 of the order, the Committee, with seven of its eight members present, met on October 2, 2002, and recommended salable quantities and allotment percentages for both classes of oil for the 2003-2004 marketing year. With six members in favor and one opposed, the Committee recommended the establishment of a salable quantity and allotment percentage for Scotch spearmint oil of 857,444 pounds and 45 percent, respectively. For Native spearmint oil, the Committee unanimously recommended the establishment of a salable quantity and allotment percentage of 808,528 pounds and 38 percent, respectively.

This proposed rule would limit the amount of spearmint oil that handlers may purchase from, or handle for, producers during the 2003-2004 marketing year, which begins on June 1, 2003. Salable quantities and allotment percentages have been placed into effect each season since the order's inception in 1980.

The U.S. production of spearmint oil is concentrated in the Far West, primarily Washington, Idaho, and Oregon (part of the area covered by the marketing order). Spearmint oil is also produced in the Midwest. The production area covered by the marketing order currently accounts for approximately 55 percent of the annual U.S. production of Scotch spearmint oil.
