

in WordPerfect or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By Mail.* Send an original and three copies of your comments and any enclosures to: Water Docket, Environmental Protection Agency, Mail Code 4101T, 1200 Pennsylvania Ave., NW, Washington, DC, 20460, Attention Docket No. OW-2003-0013.

3. *By Hand Delivery or Courier.* Deliver your comments to: Water Docket, Environmental Protection Agency, EPA West, Room B102, 1301 Constitution Ave., NW., Washington DC, Attention Docket ID No. OW-2003-0013. Such deliveries are only accepted during the Docket's normal hours of operation as identified in section I.B.1

D. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.

2. Describe any assumptions that you used.

3. Provide any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at your estimate.

5. Provide specific examples to illustrate your concerns.

6. Offer alternatives.

7. Make sure to submit your comments by the comment period deadline identified.

8. To ensure proper receipt by EPA, identify the appropriate docket identification number in the subject line on the first page of your response. It would also be helpful if you provided the name, date, and **Federal Register** citation related to your comments.

*E. Title:* Title IV of the Public Health Security and Bioterrorism Preparedness and Response Act of 2002: Drinking Water Security and Safety EPA ICR Number 2103.01. This is a request for a new information collection, and a notification that EPA will seek an emergency clearance from OMB to begin collecting information.

*F. Abstract:* Title IV of the *Public Health Security and Bioterrorism Preparedness and Response Act of 2002* (Pub. L. 107-188) (Act) amends the Safe Drinking Water Act (SDWA). The Act requires each community water system (CWS) serving a population of more than 3,300 people to conduct a vulnerability assessment of its water system and to prepare or revise an emergency response plan that incorporates the results of the vulnerability assessment. EPA will use

the information collected under this ICR to determine whether CWSs have conducted vulnerability assessments and prepared or revised emergency response plans in compliance with the Act.

Primary users of the information collected under this ICR include the EPA Office of Ground Water and Drinking Water, EPA Regional Administrators, and CWSs. EPA will comply with the Bioterrorism Act, which strictly limits the use of some of this information.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

*G. Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 117.9 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* Community water systems serving populations greater than 3,300 persons.

*Estimated Number of Respondents:* 8,487 systems.

*Frequency of Response:* Varies based on statutory schedule and system size.

*Estimated Total Annual Hour Burden:* 2,652,392 hours.

*Estimated Total Annual Cost:* \$156,540,365; includes \$82,211 O&M costs and \$0 capital and startup costs.

Dated: March 6, 2003.

**Peter E. Shanaghan,**

*Acting Director, Office of Ground Water and Drinking Water.*
