

National Tribal Environmental Council (NTEC), was awarded the new FOSTTA cooperative agreement. ECOS, NTEC, and EPA's Office of Pollution Prevention and Toxics (OPPT) are co-sponsoring the meetings. As part of a cooperative agreement, ECOS facilitates ongoing efforts of the State and Tribal leaders and OPPT to increase understanding and improve collaboration on toxics and pollution prevention issues and to continue a dialogue on how federal environmental programs can best be implemented among the States, Tribes, and EPA.

IV. The Meeting

In the interest of time and efficiency, the meetings are structured to provide maximum opportunity for State, Tribal, and EPA participants to discuss items on the predetermined agenda. At the discretion of the chair, an effort will be made to accommodate participation by observers attending the proceedings. The FOSTTA representatives and EPA will collaborate on environmental protection and chemical and prevention issues. The tentative agenda items identified by the States and the Tribes follow:

1. High production volume data (CIMP).
2. Environmental indicators (CIMP).
3. Impact of State budget cuts on pollution prevention programs (P2).
4. EPA's resource conservation challenge (P2).
5. OPPTS Tribal strategy (TAP).
6. Lead issues (TAP).

This watershed ecological risk assessment was developed to help protect the native mussels and fish of the Clinch and Powell Valley watershed.
