

Sabre's comments on our notice of proposed rulemaking may ask us to correct factual statements in the notice, and we will do so in our final rule if warranted. Sabre has conceded that that is all that our guidelines require in rulemakings. Sabre Petition at 23, n.10.

Finally, Sabre demanded that we supplement the public record with studies considered or available to us during our preparation of the notice of proposed rulemaking, including the report that was to be prepared as a result of the CRS study begun in 1994. Sabre Reply at 4–5. We have already identified the reports that we relied on in preparing the notice of proposed rulemaking, since we cited the sources for each factual statement made in the notice. Since the staff did not prepare a final or draft report on the study begun in 1994, the document sought by Sabre does not exist, except insofar as the notice of proposed rulemaking itself reflects the staff's study and analysis. 67 FR 69369; 65 FR 45551, 45555, July 24, 2000. We will base our final decision in this proceeding on the public record and the material cited in the notice of proposed rulemaking.

Amadeus has asked us to place in the docket the source materials cited by the notice of proposed rulemaking so that the public can more easily prepare comments. Amadeus Reply at 7–8. We have already placed in the docket some of that material, and we are placing additional cited sources in the docket.

Approval and Promulgation of Implementation Plans; State of Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an amendment to the Missouri State Implementation Plan (SIP). This amendment pertains to the revision of two Missouri air program rules which control particulate matter emissions from indirect heating sources located in

the Springfield-Greene County area and the out-state area.

In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment.

DATES: Comments on this proposed action must be received in writing by April 17, 2003.

ADDRESSES: Comments may be mailed to Wayne Kaiser, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.
