

SUMMARY: EPA proposes to approve an amendment to the Missouri State Implementation Plan (SIP) submitted by the state of Missouri. This revision pertains to the rescission of two outdated opacity rules for the Kansas City and St. Louis areas and the revision of the state-wide opacity rule. In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment.

DATES: Comments on this proposed action must be received in writing by April 17, 2003.

ADDRESSES: Comments may be mailed to Wayne Kaiser, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

FOR FURTHER INFORMATION CONTACT: Wayne Kaiser at (913) 551-7603.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule which is located in the rules section of the **Federal Register**.

Dated: March 3, 2003.

James B. Gulliford,

Regional Administrator, Region 7.

Approval and Promulgation of Implementation Plans; State of Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an amendment to the Missouri State Implementation Plan (SIP) submitted by the state of Missouri. This revision pertains to updating the state's Air Quality Index (AQI) rule to make it consistent with the Federal rule. The AQI is used by states for daily air quality reporting to the general public. Approval of this revision will ensure consistency between the state and Federally-approved rules, and ensure Federal enforceability of the revised state rule. In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment.

DATES: Comments on this proposed action must be received in writing by April 17, 2003.

Waste Characterization Program Documents Applicable to Transuranic Radioactive Waste From the Savannah River Site Proposed for Disposal at the Waste Isolation Pilot Plant

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability; opening of public comment period.

SUMMARY: The Environmental Protection Agency (EPA, or "we") is announcing the availability of, and soliciting public comments for 30 days on, Department of Energy (DOE) documents on waste characterization programs applicable to certain transuranic (TRU) radioactive waste at the Savannah River Site (SRS) proposed for disposal at the Waste Isolation Pilot Plant (WIPP). The documents are procedures and other materials related to the Central Characterization Project (CCP), established by DOE to augment the ability of TRU waste sites to characterize and certify the waste in accordance with EPA's WIPP Compliance Criteria. The documents are available for review in the public dockets listed in **ADDRESSES**. We will use these documents to evaluate the CCP activities at SRS to characterize SRS-generated contact-handled (CH) retrievably-stored TRU debris waste during an inspection conducted the week of March 24, 2003. The purpose of the inspection is to verify that the CCP can properly characterize SRS-generated contact-handled (CH) TRU debris waste, consistent with the WIPP Compliance Criteria and Condition 3 of EPA's final certification decision for the WIPP.

DATES: The EPA is requesting public comment on these documents. Comments must be received by EPA's official Air Docket on or before April 17, 2003.

ADDRESSES: Comments should be submitted to: Air and Radiation Docket, Attn: Docket A-98-49, EPA Docket Center (EPA/DC), EPA West, Mail Code
