#### The National Toxicology Program (NTP) Center for the Evaluation of Risks to Human Reproduction (CERHR) Announces the Availability of the NTP–CERHR Monograph on Di-*n*-Butyl Phthalate

##### Summary

The CERHR announces the availability of the *NTP–CERHR Monograph on the Potential Human Reproductive and Developmental Effects of Di-*n*-Butyl Phthalate (DBP)*. The monograph is posted electronically on the CERHR Web site: <http://cerhr/niehs.nih.gov> and a limited number of copies in printed text are available from the CERHR by contacting Dr. Michael Shelby, Director CERHR [NIEHS, 79 T.W. Alexander Drive, Building 4401, Room 103, P.O. Box 12233, MD EC–32, Research Triangle Park, NC 27709, telephone: (919) 541–3455; facsimile: (919) 316–4511; [shelby@niehs.nih.gov](mailto:shelby@niehs.nih.gov)].

##### NTP–CERHR Monographs

The monograph on DBP is the first in the NTP–CERHR monograph series. This monograph includes three parts: (1) The NTP brief, which presents the NTP's interpretation of the available data and its conclusions on the potential for DBP to cause adverse developmental and reproductive effects in humans, (2) the expert panel report, and (3) all public comments on the expert panel report. The NTP utilized information provided in the expert panel report, the public comments, as well as information from studies published since the expert panel meeting in reaching its conclusions on DBP.

The CERHR follows a formal process for the evaluation of selected chemicals that includes opportunities for public input. The NTP–CERHR monographs are the final products of those evaluations. Monographs on six additional phthalates [butyl benzyl phthalate (BBP), di(2-ethylhexyl) phthalate (DEHP), di-isodecyl phthalate (DIDP), di-isononyl phthalate (DINP),
