

proposed rule incorporates necessary security provisions and changes the size of the zone. This Notice of Proposed Rulemaking (NPRM) proposes to establish a combined safety zone and security zone for the LNG terminal at Cove Point.

Based on the September 11, 2001 terrorist attacks on the World Trade Center buildings in New York, NY and the Pentagon building in Arlington, VA, there is an increased risk that subversive activity could be launched by vessels or persons in close proximity to the Cove Point LNG Terminal. As part of the Diplomatic Security and Antiterrorism Act of 1986 (Pub. L. 99-399), Congress amended section 7 of the Ports and Waterways Safety Act (PWSA), 33 U.S.C. 1226, to allow the Coast Guard to take actions, including the establishment of security and safety zones, to prevent or respond to acts of terrorism against individuals, vessels, or public or commercial structures. The Coast Guard also has authority to establish security zones pursuant to the Espionage Act of June 15, 1917, as amended by the Magnuson Act of August 9, 1950 (50 U.S.C. 191 *et seq.*) ("Magnuson Act"), section 104 of the Maritime Transportation Security Act of November 25, 2002, and by implementing regulations promulgated by the President in subparts 6.01 and 6.04 of part 6 of Title 33 of the Code of Federal Regulations.

#### Discussion of Proposed Rule

Under 33 CFR 165.502, there are three safety zones around the Cove Point LNG Terminal: (1) A  $\frac{1}{2}$  mile zone while LNG vessels are maneuvering, (2) 50 yards shoreward and 200 yards offshore from the terminal while an LNG vessel is moored, and (3) 50 yards in all directions around the terminal at all other times. The Coast Guard proposes to consolidate these zones into one and increase the size of the permanent zone to reduce the potential threat that may be posed by vessels or persons that approach the offshore terminal. The proposed safety and security zone is 500 yards in all directions from the terminal. This will create a rectangular area approximately 2500 yards long by 1200 yards wide around the terminal.

The proposed safety and security zone will be in effect continuously. The effect will be to prohibit vessels or persons from entering the safety and security zone, unless specifically authorized by the Captain of the Port, Baltimore, Maryland. Federal, State, local, and private agencies may assist the Coast Guard in the enforcement of this rule.

#### Regulatory Evaluation

This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security.

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary. This regulation is of limited size, and vessels may transit around the zone.

There may be some adverse effects on the local maritime community that has been using the area as a fishing ground. Since the terminal has not been in operation, the Coast Guard has not enforced the current zone under 33 CFR 165.502. Commercial vessel operators have been using the area on a regular basis for commercial fishing, passenger tours, and fishing parties. Enforcement of the proposed zone or the current zone would prohibit these commercial vessel operators from using this area.

#### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule changes the size of the zone but does not create a new safety and security zone. The proposed rule would affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor in a portion of the Chesapeake Bay near the Cove Point LNG Terminal.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see ADDRESSES) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

#### Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the proposed rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Lieutenant Dulani Woods, at Coast Guard Activities Baltimore, Port Safety, Security and Waterways Management Branch, at telephone number (410) 576-2513.

#### Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

#### Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

#### Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

#### Taking of Private Property

This proposed rule would not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

#### Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.
