E. How Will Section 313 Reporting Requirements Change as a Result of This Proposal?

TRI reporting requirements would remain substantially the same under this proposal as they are now. The difference is that, except for the first full reporting year after the effective date of the final rule, covered facilities would be reporting their primary and secondary NAICS codes on Form R and on Alternate Threshold Certification Statements rather than their primary and secondary SIC codes. Because the statute identifies covered facilities by SIC code, the industries subject to TRI requirements would continue to be identified in the regulatory text by SIC code, although the text would be amended to include NAICS codes as
