SUPPLEMENTARY INFORMATION:

I. Background

Operators of retail food store, food service, and cosmetics establishments are encouraged to review their current security procedures and controls in light of the potential for tampering or other

malicious, criminal or terrorist actions and make appropriate improvements.

FDA announced the availability of two guidance documents related to food security in the **Federal Register** of January 6, 2002 (67 FR 1224). They were entitled "Food Producers, Processors, Transporters, and Retailers: Food Security Preventive Measures Guidance" and "Importers and Filers: Food Security Preventive Measures Guidance." The agency solicited public comment, but indicated that the two guidance documents would be implemented immediately in accordance with § 10.115(g)(2) (21 CFR 10.115(g)(2)). The two guidance documents were prompted by the tragedies of September 11, 2001, and the resulting scrutiny of, and interest in, food safety and security that followed.

The agency reviewed and evaluated the comments it received (11 written and 5 electronic). A number of the comments urged the agency to issue guidance that was specifically tailored for the retail food store and food service sector. Accordingly, FDA is issuing this draft guidance document entitled "Retail Food Store and Food Service Establishments: Food Security Preventive Measures Guidance."

The draft guidance document entitled "Retail Food Store and Food Service Establishments: Food Security Preventive Measures Guidance" identifies the kinds of preventive measures that operators of retail food store and food service establishments (i.e., bakeries, bars, bed-and-breakfast operations, cafeterias, camps, child and adult day care providers, church kitchens, commissaries, community fund raisers, convenience stores, fairs, food banks, grocery stores, interstate conveyances, meal services for homebound persons, mobile food carts, restaurants, and vending machine operators) can take to minimize the risk that food under their control will be subject to tampering or other malicious, criminal or terrorist actions.

FDA is also requesting comment on whether the agency's package of food security guidance documents should be expanded to include coverage of cosmetics, in addition to foods. To facilitate such comments, FDA also is announcing the availability of a draft guidance document entitled "Cosmetics Processors and Transporters: Cosmetics Security Preventive Measures Guidance." The draft guidance document entitled "Cosmetics Processors and Transporters: Cosmetics Security Preventive Measures Guidance" identifies the kinds of preventive measures that operators of cosmetics establishments can take to
