

**§ 25.57 What ingredient and process information must I include on a formula?**

(a) For each formula you must list—

(1) Each separate ingredient and the specific quantity used, or a reasonable range of quantities used.

(2) For fermented products containing flavorings, you must include: The name of the flavor; the product number, if any; the name and location (city, State and TTB company code) of the flavor manufacturer; the TTB or ATF formula number and approval date, and the alcohol content of the flavor.

(3) For formulas that include the use of taxpaid wine or other ingredients containing alcohol, you must explicitly indicate:

(i) The volume and alcoholic content of the beer base;

(ii) The maximum volumes of the flavoring materials or other ingredients to be used;

(iii) The alcoholic strength of the flavoring materials or other ingredients;

(iv) The overall alcohol contribution to the finished product provided by the addition of flavoring materials or other ingredients containing alcohol; and

(v) The final volume and alcoholic content of the finished product.

(b) You must describe in detail each process used to produce a fermented beverage.

(c) You must state the alcohol content of the fermented product at each step in production after fermentation, and the alcohol content of the finished product.

(d) At any time, an appropriate TTB officer may require you to file additional information concerning a fermented product, ingredients, or processes, in order to determine whether a formula should be approved, disapproved, or if the approval of a formula should be continued. (26 U.S.C. 5415, 5555, 7805(a))

**§ 25.58 When must I file a new or superseding formula?**

(a) You must file a new or superseding formula if you—

(1) Create an entirely new fermented product that requires a formula;

(2) Add new ingredients to an existing formulation;

(3) Delete ingredients from an existing formulation;

(4) Change the quantity of an ingredient used from the quantity or range of usage in an approved formula;

(5) Change an approved processing, filtration, or other special method of manufacture that requires the filing of a formula; or

(6) Change the contribution of alcohol from flavor or ingredients that contain alcohol.

(b) When you file a new or superseding formula with TTB, follow

the procedures described above in §§ 25.56 through 25.57.

(c) When you file a new formula, you must give it a new formula number.

(d) A superseding formula is one that replaces an existing formula. You must inform TTB when you file a superseding formula. When TTB approves a superseding formula, we will cancel your previous formula. You may use the same formula number for a superseding formula as the formula it replaces, but you must annotate the formula number to indicate it is a superseding formula (For example, Formula 2, superseding). (26 U.S.C. 5401)
