Federal Register

Vol. 68, No. 57

Tuesday, March 25, 2003

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## NUCLEAR REGULATORY COMMISSION

### 10 CFR Part 20

RIN 3150-AH07

### Radiation Exposure Reports: Labeling Personal Information

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Proposed rule.

**SUMMARY:** The Nuclear Regulatory Commission (NRC) is proposing an amendment to its filing requirements for written event reports submitted to the NRC concerning individuals occupationally overexposed to radiation and radioactive materials. Licensees will be required to clearly label any section of the event report containing personal information "Privacy Act Information: Not for Public Disclosure." This action is necessary to ensure that personal information filed with the NRC is segregated from the event report and maintained in a separate, non-public document.

**DATES:** Comments on the proposed rule must be received on or before April 24, 2003.

**ADDRESSES:** Submit comments to: Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attn: Rulemakings and Adjudications Staff.

Deliver comments to 11555 Rockville Pike, Rockville, MD, between 7:30 a.m. and 4:15 p.m. on Federal workdays.

### Procedural Background

Because the NRC considers this action to be noncontroversial, we are publishing this proposed rule concurrently as a direct final rule. The direct final rule will become effective on June 9, 2003. However, if the NRC receives significant adverse comments on this proposed rule by April 24, 2003, then the NRC will publish a document that withdraws the direct final rule. If the direct final rule is withdrawn, the NRC will address the comments received in response to the proposed revisions in a subsequent final rule. Absent significant modifications to the proposed revisions requiring republication, the NRC will not initiate a second comment period for this action in the event the direct final rule is withdrawn.

A significant adverse comment is a comment where the commenter explains why the rule would be

inappropriate, including challenges to the rule's underlying premise or approach, or would be ineffective or unacceptable without a change. A comment is adverse and significant if:

(1) The comment opposes the rule and provides a reason sufficient to require a substantive response in a notice-and-comment process. For example, a substantive response is required when:

(a) The comment causes the NRC staff to reevaluate (or reconsider) its position or conduct additional analysis;

(b) The comment raises an issue serious enough to warrant a substantive response to clarify or complete the record; or

(c) The comment raises a relevant issue that was not previously addressed or considered by the NRC staff.

(2) The comment proposes a change or an addition to the rule, and it is apparent that the rule would be ineffective or unacceptable without incorporation of the change or addition.

(3) The comment causes the staff to make a change (other than editorial) to the rule.
