2003-06-08 Dornier-Werke G.m.b.H.:
Amendment 39-13096; Docket No. 2002-CE-55-AD.

This AD affects Model Do 27 Q-6 airplanes, all serial numbers, that are certificated in any category.

(b) *Who must comply with this AD?*
Anyone who wishes to operate any of the airplanes identified in paragraph (a) of this AD must comply with this AD.

(c) *What problem does this AD address?*
The actions specified by this AD are intended to detect and correct damaged fuel lines and prevent the potential for further damage occurring to the fuel lines in the fuselage. Damage to the fuel lines could result in fuel leaking into the fuselage, which could cause a fire or explosion.

(d) *What actions must I accomplish to address this problem?* To address this problem, you must accomplish the following:

Actions	Compliance	Procedures
(1) Inspect the following: (i) The aileron and flap control cable for proper clearance from the fuel lines in the fuselage; and (ii) The fuel lines between the firewall and instrument panel for damage and correct routing	Within the next 55 hours time-in-service (TIS) after May 16, 2003 (the effective date of this AD).	In accordance with Fairchild Dornier Do 27 Service Bulletin No. SB-1141-0000, dated June 12, 2002.
(2) Make adjustments and/or replacements if: (i) Improper clearance is detected between the aileron and control cable and the fuel lines; (ii) Any fuel line is found damaged; or (iii) Any fuel line is incorrectly routed. - (1) Your alternative method of compliance provides an equivalent level of safety; and
- (2) The Manager, Standards Office, Small Airplane Directorate, approves your alternative. Submit your request through an FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Standards Office.

Note 1: This AD applies to each airplane identified in paragraph (a) of this AD, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (e) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if you have not

eliminated the unsafe condition, specific actions you propose to address it.

(f) *Where can I get information about any already-approved alternative methods of compliance?* Contact Karl Schletzbaum, Aerospace Engineer, FAA, Small Airplane Directorate, 901 Locust, Room 301, Kansas City, Missouri 64106; telephone: (816) 329-4144; facsimile: (816) 329-4090.
