

pencils meeting the specifications described above constitutes changed circumstances sufficient to warrant partial revocation of this order. Also, no party commented on the *Initiation and Preliminary Results*. Therefore, the Department is partially revoking the order on pencils from the PRC with regard to the pencils meeting the specifications described above, in accordance with sections 751(b), 751(d)(1), and 782(h)(2) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.222(g)(1)(2002).

In accordance with 19 CFR 351.222(g)(4), the Department will order the suspension of liquidation ended for pencils meeting the specifications described above, effective on the date of publication of this notice. The Department will further instruct Customs to refund with interest any estimated antidumping duties collected with respect to unliquidated entries of pencils meeting the specifications described above entered, or withdrawn from warehouse, for consumption after November 30, 2000, (*i.e.*, any entries after the last day of the period covering the last completed administrative review), in accordance with section 778 of the Act. In addition, the Department will instruct Customs to liquidate, without regard to antidumping duties, all unliquidated entries of pencils meeting the specifications described above.

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This changed circumstances administrative review, partial revocation of the antidumping duty order and notice are in accordance with sections 751(b), 751(d)(1), and 782(h)(2) of the Act and sections 351.216(e) and 351.222(g) of the Department's regulations.

Dated: March 20, 2003.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Notice of Amended Final Results of Antidumping Duty Administrative Reviews: Heavy Forged Hand Tools From the People's Republic of China (Hammers/Sledges)

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of amended final results of antidumping duty administrative reviews.

EFFECTIVE DATE: March 27, 2003.

FOR FURTHER INFORMATION CONTACT:

Thomas Martin or Mark Manning at (202) 482-3936 or (202) 482-5253, respectively, AD/CVD Enforcement Office IV, Group II, Import Administration, Room 1870, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUMMARY: On February 13, 2003, the Department of Commerce (the Department) published the amended final results of administrative reviews of the antidumping duty orders on heavy forged hand tools from the People's Republic of China. The period of review is February 1, 2000, through January 31, 2001 (POR). The respondent Shandong Machinery Import & Export Corporation (SMC) submitted comments alleging a ministerial error. After reviewing the allegation, we have determined that the amended final did include a ministerial error, and have amended our calculations accordingly. The final weighted-average margin for SMC is *de minimis*.

SUPPLEMENTARY INFORMATION:

Background

On September 12, 2002, the Department published the final results of review for the tenth review of the orders on heavy forged hand tools (HFHTs) from the People's Republic of China (PRC). *See Heavy Forged Hand Tools From the People's Republic of China: Final Results and Partial Rescission of Antidumping Duty Administrative Review and Determination Not To Revoke in Part*, 67 FR 57789 (September 12, 2002) (*Final Results*). On September 16, 2002, the petitioner Ames True Temper, and the respondents, SMC, Tianjin Machinery Import & Export Corporation (TMC), Liaoning Machinery Import & Export Corporation (LMC), and Shandong

Huarong General Group Corporation (Huarong), timely filed allegations that the Department made several ministerial errors in its final results. On September 23, 2002, the petitioner and respondents filed rebuttal comments. On September 30, 2002, the respondents (*i.e.*, TMC, LMC, Huarong, and SMC) filed a summons and complaint with the U.S. Court of International Trade, which covered "heavy forged hand tools." On October 8, 2002, the respondents amended their complaint to underscore that they had filed ministerial error allegations pertaining to all four classes or kinds of merchandise. The respondents filed a second amended complaint on November 8, 2002, whereby SMC and LMC were removed as party-plaintiffs. The second amended complaint also removed TMC's claims with respect to bars/wedges. On February 13, 2003, we published the *Notice of Amended Final Antidumping Duty Administrative Reviews: Heavy Forged Hand Tools From the People's Republic of China*, 68 FR 7347 (February 13, 2003) (*Amended Final*), addressing the clerical error allegations pertaining to TMC's and LMC's sales of bars and wedges, and SMC's sales of hammers and sledges. On February 27, 2003, SMC filed a clerical error allegation pertaining to the *Amended Final* for its sales of hammers and sledges.

Scope of Review

Imports covered by these reviews are shipments of HFHTs from the PRC comprising the following classes or kinds of merchandise: (1) Hammers and sledges with heads over 1.5 kg (3.33 pounds) (hammers/sledges); (2) bars over 18 inches in length, track tools and wedges (bars/wedges); (3) picks/mattocks; and (4) axes/adzes.

HFHTs include heads for drilling, hammers, sledges, axes, mauls, picks, and mattocks, which may or may not be painted, which may or may not be finished, or which may or may not be imported with handles; assorted bar products and track tools including wrecking bars, digging bars and tampers; and steel wood splitting wedges. HFHTs are manufactured through a hot forge operation in which steel is sheared to required length, heated to forging temperature, and formed to final shape on forging equipment using dies specific to the desired product shape and size. Depending on the product, finishing operations may include shot-blasting, grinding, polishing and painting, and the insertion of handles for handled products. HFHTs are currently classifiable under the following
