

the period February 1, 2002- January 31, 2003, which is being conducted pursuant to section 751(a)(1) of the Act.

Therefore, we intend to issue the final results of this review not later than 245

days after the last day of the anniversary month.

Antidumping Duty New Shipper Review	Period to be Reviewed
PRC: Certain Preserved Mushrooms, A-570-851:.	
Primera Harvest (Xiangfan) Co., Ltd. ....	02/01/02 - 01/31/03
Xiamen International Trade & Industrial Co., Ltd. ....	02/01/02 - 01/31/03

We will instruct the Customs Service to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the subject merchandise from the above-listed companies. Because XITIC and Xiangfan have certified that they both produce and export the subject merchandise, the sale of which was the basis for their new shipper review requests, we will apply the bonding privilege only to entries of the subject merchandise for which they are both the producer and exporter.

Interested parties that need access to proprietary information in this new shipper review should submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305 and 351.306.

This initiation and notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.214(d).

Dated: March 21, 2003.

**Susan H. Kuhbach,**

*Acting Deputy Assistant Secretary for Import Administration.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[I.D. 031403F]

#### Endangered and Threatened Species; Take of Anadromous Fish

**AGENCY:** National Marine Fisheries Service (NOAA Fisheries), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability and request for comments.

**SUMMARY:** Notice is hereby given of the availability of a draft Routine Road Maintenance Program (RMP) that Marion County, Oregon, Department of Public Works, has submitted pursuant to Endangered Species Act (ESA). NOAA Fisheries promulgated a protective rule for 14 threatened salmon

and steelhead Evolutionarily Significant Units (ESUs). The RMP would affect four ESUs of threatened salmonids identified in the **SUPPLEMENTARY INFORMATION** section. The 4(d) rule provides for limits on ESA take prohibitions for the various activities set out in the rule. The RMP addresses the limit for routine road maintenance activities of any state, city, county or port. This document serves to notify the public of the availability of the RMP for review and comment before a final approval or disapproval is made by NOAA Fisheries.

**DATES:** Written comments on the draft RMP must be received no later than 5 p.m. Pacific Standard Time on April 28, 2003.

**ADDRESSES:** Written comments should be sent to Dr. Nancy Munn, Habitat Conservation Division, National Marine Fisheries Service, 525 NE Oregon Street, Suite 500, Portland, OR 97232.

Comments may also be faxed to 503-231-6893. Copies of the entire RMP are available on the Internet at: <http://publicworks.co.marion.or.us/environment/salmon/Limit10/PDF/Oct2002/02index.htm>, or from the address posted on that site. Comments will not be accepted if submitted via email or the Internet.

**FOR FURTHER INFORMATION CONTACT:** Dr. Nancy Munn at phone number: 503-231-6269, or e-mail: [nancy.munn@noaa.gov](mailto:nancy.munn@noaa.gov).

**SUPPLEMENTARY INFORMATION:** This notice is relevant to the following four threatened salmon ESUs:

Chinook salmon (*Oncorhynchus tshawytscha*); threatened Upper Willamette River (UWR) and Lower Columbia River (LCR).

Steelhead (*Oncorhynchus mykiss*); threatened Upper Willamette River (UWR) and Lower Columbia River (LCR).

#### Background

Marion County submitted the RMP for routine road maintenance activities that might affect certain salmonid ESUs listed as threatened in Marion County. The RMP was designed so that routine road maintenance activities would be

protective of salmonids and their habitat.

As specified in the July 10, 2000, ESA 4(d) rule for salmon and steelhead (65 FR 42422) under limit 10(I), take prohibitions to threatened species of salmonids do not apply to routine road maintenance activities of a state, county, city or port that complies with a program that is substantially similar to that contained in the Oregon Department of Transportation (ODOT) Routine Road Maintenance Water Quality and Habitat Guide Best Management Practices (Guide, July 1999), and that is determined to meet or exceed the protections provided in the ODOT Guide. NOAA Fisheries may approve a routine road maintenance program of any state, city, county or port that contains management practices that are equivalent to or better than those in the ODOT Guide. Prior to final approval of a routine road maintenance program, NOAA Fisheries must publish notification in the **Federal Register** announcing the program's availability for public review and comment.

Part 1 of the RMP is a cover letter to D. Robert Lohn, Regional Administrator of NOAA Fisheries and a statement of commitment from Marion County to implement the RMP. In Part 2, the RMP describes the program and provides information on the legal authority for the program. In Part 3, the RMP provides a description of the geographic area to which the program applies, including a list of county roads or locations where maintenance activities may impact streams, the location of salmon habitat in the relevant watersheds, and an analysis of the environmental baseline of those watersheds. Part 3 also includes maps that show fish distributions and other relevant background information. In Part 4, the RMP describes the listed species distribution and status, and in Part 5, a bibliography of relevant reports are provided. In Part 6, the RMP makes an affirmative conclusion that the program is substantially similar to or better than ODOT's program, and summarizes the training, monitoring, and reporting elements of the RMP.

The RMP also includes four attachments that are fundamental to the
