

76. Former defaulters should calculate their upfront payment for all licenses by multiplying the number of bidding units they wish to purchase by 1.5. In order to calculate the number of bidding units to assign to former defaulters, the Commission will divide the upfront payment received by 1.5 and round the result up to the nearest bidding unit.

77. An applicant may, on its FCC Form 175, apply for every applicable license being offered, but its actual bidding in any round will be limited by the bidding units reflected in its upfront payment.

iv. Applicant's Wire Transfer Information for Purposes of Refunds of Upfront Payments

78. The Commission will use wire transfers for all Auction No. 50 refunds. To ensure that refunds of upfront payments are processed in an expeditious manner, the Commission is requesting that all pertinent information as listed be supplied to the FCC. Applicants can provide the information electronically during the initial short-form filing window after the form has been submitted. Wire Transfer Instructions can also be manually faxed to the FCC, Financial Operations Center, Auctions Accounting Group, ATTN: Tim Dates or Gail Glasser, at (202) 418-2843 by August 26, 2003. All refunds will be returned to the payer of record as identified on the FCC Form 159 unless the payer submits written authorization instructing otherwise. For additional information, please call Gail Glasser at (202) 418-0578 or Tim Dates at (202) 418-0496.

Name of Bank

ABA Number

Contact and Phone Number

Account Number to Credit

Name of Account Holder

FCC Registration Number (FRN)

Taxpayer Identification Number

Correspondent Bank (if applicable)

ABA Number

Account Number

(Applicants should also note that implementation of the Debt Collection Improvement Act of 1996 requires the FCC to obtain a Taxpayer Identification Number (TIN) before it can disburse refunds.) Eligibility for refunds is discussed in section V.F.

E. Auction Registration

79. Approximately ten days before the auction, the FCC will issue a public notice announcing all qualified bidders for the auction. Qualified bidders are those applicants whose FCC Form 175 applications have been accepted for filing and have timely submitted

upfront payments sufficient to make them eligible to bid on at least one of the licenses for which they applied.

80. All qualified bidders are automatically registered for the auction. Registration materials will be distributed prior to the auction by two separate overnight mailings, one containing the confidential bidder identification number (BIN) required to place bids and the other containing the SecurID cards. These mailings will be sent only to the contact person at the contact address listed in the FCC Form 175.

81. Applicants that do not receive both registration mailings will not be able to submit bids. Therefore, any qualified applicant that has not received both mailings by noon on Wednesday, September 17, 2003, should contact the Auctions Hotline at (717) 338-2888. Receipt of both registration mailings is critical to participating in the auction and each applicant is responsible for ensuring it has received all of the registration material.

82. Qualified bidders should note that lost bidder identification numbers or SecurID cards can be replaced only by appearing *in person* at the FCC Auction Headquarters located at 445 12th St., SW, Washington, DC 20554. Only an authorized representative or certifying official, as designated on an applicant's FCC Form 175, may appear in person with two forms of identification (one of which must be a photo identification) in order to receive replacement codes. Qualified bidders requiring replacements must call technical support prior to arriving at the FCC.

F. Remote Electronic Bidding

83. The Commission will conduct this auction over the Internet. Telephonic bidding will also be available. As a contingency, the FCC Wide Area Network will be available as well. Qualified bidders are permitted to bid electronically or telephonically, *i.e.*, over the Internet or the FCC's Wide Area Network. In either case, each authorized bidder must have its own Remote Security Access SecurID card, which the FCC will provide at no charge. Each applicant with one authorized bidder will be issued two SecurID cards, while applicants with two or three authorized bidders will be issued three cards. For security purposes, the SecurID cards and the FCC Automated Auction System user manual are only mailed to the contact person at the contact address listed on the FCC Form 175. Please note that each SecurID card is tailored to a specific auction, therefore, SecurID cards issued for other auctions or obtained from a source other than the

FCC will not work for Auction No. 50. The telephonic bidding phone number will be supplied in the first overnight mailing, which includes the confidential bidder identification number. Each applicant should indicate its bidding preference—electronic or telephonic—on the FCC Form 175.

84. Please note that the SecurID cards can be recycled, and the Bureau encourage bidders to return the cards to the FCC. The Bureau will provide pre-addressed envelopes that bidders may use to return the cards once the auction is over.

G. Mock Auction

85. All qualified bidders will be eligible to participate in a mock auction on Friday, September 19, 2003. The mock auction will enable applicants to become familiar with the FCC Automated Auction System prior to the auction. Participation by all bidders is strongly recommended. Details will be announced by public notice.

IV. Auction Event

86. The first round of bidding for Auction No. 50 will begin on Wednesday, September 24, 2003. The initial bidding schedule will be announced in a public notice listing the qualified bidders, which is released approximately 10 days before the start of the auction.

A. Auction Structure

i. Simultaneous Multiple Round Auction

87. In the *Auction No. 50 Comment Public Notice*, the Bureau proposed to award all licenses in Auction No. 50 in a simultaneous multiple round auction. Space Data proposes that the Commission use combinatorial bidding for Auction No. 50 or, alternatively, for the regional licenses only. Space Data believes that participants that have, or intend to deploy, nationwide systems, likely would value certain combinations of MTA licenses that would be ideal for filling in coverage areas initially established by licenses won in Auction No. 41. They also believe the regional licenses are uniquely complementary, because, in combination, they effectively constitute a nationwide license and will be more highly valued as a combined package by prospective auction participants intending to deploy nationwide service.

88. As stated previously in the *Auction No. 50 Procedures Public Notice*, the Bureau will conduct Auction No. 50 as a simultaneous multiple round auction *without* package bidding. Unless otherwise announced, bids will
