

(North Anna, Units 1 and 2), and Surry Power Station, Unit Nos. 1 and 2 (Surry, Units 1 and 2). Renewed Facility Operating License No. NPF-4 authorizes operation of North Anna, Unit 1, by the licensee at reactor core power levels not in excess of 2893 megawatts thermal in accordance with the provisions of the North Anna, Unit 1, renewed license and its Technical Specifications. Renewed Facility Operating License No. NPF-7 authorizes operation of North Anna, Unit 2, by the licensee at reactor core power levels not in excess of 2893 megawatts thermal in accordance with the provisions of the North Anna, Unit 2, renewed license and its Technical Specifications. Renewed Facility Operating License No. DPR-32 authorizes operation of Surry, Unit 1, by the licensee at reactor core power levels not in excess of 2546 megawatts thermal in accordance with the provisions of the Surry, Unit 1, renewed license and its Technical Specifications. Renewed Facility Operating License No. DPR-37 authorizes operation of Surry, Unit 2, by the licensee at reactor core power levels not in excess of 2546 megawatts thermal in accordance with the provisions of the Surry, Unit 2, renewed license and its Technical Specifications.

North Anna, Units 1 and 2, are pressurized water nuclear reactors located in Louisa County, 40 miles northwest of the city of Richmond, Virginia. Surry, Units 1 and 2, are pressurized water nuclear reactors located in Surry County, 14 miles northwest of the city of Newport News, Virginia.

The applications for the renewed licenses complied with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. As required by the Act and the Commission's regulations in 10 CFR Chapter I, the Commission has made appropriate findings, which are set forth in each license. Prior public notice of the action involving the proposed issuance of these renewed licenses and of an opportunity for a hearing regarding the proposed issuance of these renewed licenses was published in the **Federal Register** on July 27, 2001 (66 FR 39213).

For further details with respect to this action, see (1) the Virginia Electric and Power Company's license renewal applications for North Anna, Units 1 and 2, and Surry, Units 1 and 2, dated May 29, 2001, as supplemented by letters dated November 30, 2001, January 4 (two letters), January 16, January 17, February 1 (two letters), February 5, May 22 (two letters), June 13, July 11, July 25, August 23, October

1, October 15, November 4, December 2, and December 11, 2002; (2) the Commission's safety evaluation report, dated November 5, 2002, and December 2002 (NUREG-1766); (3) the licensee's updated final safety analysis report; and (4) the Commission's final environmental impact statements (NUREG-1437, Supplement 6, for Surry, Units 1 and 2, and NUREG-1437, Supplement 7, for North Anna, Units 1 and 2), dated November 2002. These documents are available at the NRC's Public Document Room, One White Flint North, 11555 Rockville Pike, first floor, Rockville, Maryland 20852, and can be viewed from the NRC Public Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>.

Copies of Renewed Facility Operating License Nos. NPF-4, NPF-7, DPR-32, and DPR-37 may be obtained by writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Director, Division of Regulatory Improvement Programs. Copies of the safety evaluation report (NUREG-1766), and the final environmental impact statements (NUREG-1437, Supplement 6, for Surry, Units 1 and 2, and NUREG-1437, Supplement 7, for North Anna, Units 1 and 2) may be purchased from the National Technical Information Service, Springfield, Virginia 22161-0002 (<http://www.ntis.gov>), 1-800-553-6847, or the Superintendent of Documents, U.S. Government Printing Office, PO Box 371954, Pittsburgh, PA 15250-7954 (http://www.access.gpo.gov/su_docs), 202-512-1800. All orders should clearly identify the NRC publication number and the requestor's Government Printing Office deposit account number or VISA or MasterCard number and expiration date.

Dated at Rockville, Maryland, this 20th day of March 2003.

For the Nuclear Regulatory Commission.

Pao-Tsin Kuo,

Program Director, License Renewal and Environmental Impacts, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-U

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-05357]

Environmental Assessment and Finding of No Significant Impact

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Environmental Assessment and Finding of No Significant Impact related to license amendment of Byproduct Material License No. 29-08978-02, Novartis Pharmaceuticals Corporation, East Hanover, New Jersey.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering the issuance of a license amendment to Byproduct Material License No. 29-08978-02 to authorize release of its facility in Summit, New Jersey, for unrestricted use and has prepared an Environmental Assessment in support of this action. Based upon the Environmental Assessment, the NRC has concluded that a Finding of No Significant Impact is appropriate, and, therefore, an Environmental Impact Statement is unnecessary.

FOR FURTHER INFORMATION CONTACT:

Donna Janda, Division of Nuclear Materials Safety, U.S. Nuclear Regulatory Commission, Region I, 475 Allendale Road, King of Prussia, Pennsylvania 19406; telephone (610) 337-5371 or e-mail DMJ@nrc.gov.

SUPPLEMENTARY INFORMATION: The U. S. Nuclear Regulatory Commission (NRC) is considering amending Byproduct Materials License No. 29-08978-02 and authorizing the release of the licensee's facility in Summit, New Jersey, for unrestricted use and has prepared an Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) in support of this action.

SUMMARY: The NRC reviewed the results of the decommissioning of the Novartis Pharmaceuticals Corporation (Novartis) facility in Summit, New Jersey. Novartis was formed in 1997 from the merger of Ciba-Geigy Corporation and Sandoz Corporation. From 1963 to 1997, Ciba-Geigy was authorized by NRC under Materials License No. 29-00459-03 to use radioactive materials for research and development purposes at the Summit facility. After the merger, Novartis continued to perform the same activities at the Summit facility under Materials License No. 29-00459-03 until 1998, when the license was terminated and the facility was added to Novartis' Materials License No. 29-08978-02. In January 2003, Novartis ceased operations with licensed materials at the Summit site, and in February 2003, requested that NRC release the facility for unrestricted use. Novartis has conducted surveys of the Summit facility and determined that the facility meets the license termination criteria in subpart E of 10 CFR part 20. The NRC staff has evaluated Novartis' request and results of the surveys, and
