**SUPPLEMENTARY INFORMATION:** This amendment to 14 CFR 71 modifies the Class E airspace area extending upward from 700 feet above the surface at Fairmont, NE in order to provide a safer Instrument Flight Rules (IFR) environment at Fairmont State Airfield, Fairmont, NE. The FAA has developed Area navigation (RNAV) Global Positioning System (GPS) Runway (RWY) 17, ORIGINAL SIAP; RNAV (GPS) RWY 35, ORIGINAL SIAP; Nondirectional Radio Beacon (NDB) RWY 17, Amendment 1 SIAP and NDB RWY 35, Amendment 2 SIAP to serve Fairmont State Airfield, Fairmont, NE. Additional controlled airspace extending upward from 700 feet Above Ground Level (AGL) is needed to accommodate the SIAPs. This amendment also modifies the Fairmont, NE Class E airspace by incorporating the current Fairmont State Airfield, NE airport reference point and deleting reference to Beklof NDB, NE in the legal description. These actions bring the legal description of this airspace area

into compliance with FAA Order 7400.2E, Procedures for Handling Airspace Matters. The area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9K, dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

#### The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative command and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.
