

public will be given the opportunity to comment on future proposed regulations.

#### Critical Habitat

“Critical habitat” is defined in section 3 of the ESA (16 U.S.C. 1532(3)) as: (1) the specific areas within the geographical area occupied by a species, at the time it is listed in accordance with the ESA, in which are found those physical or biological features (a) essential to the conservation of the species and (b) that may require special management considerations or protection; and (2) specific areas outside the geographical area occupied by a species at the time it is listed upon a determination that such areas are essential for the conservation of the species. “Conservation” is defined as the use of all methods and procedures needed to bring the species to the point at which listing under the ESA is no longer necessary.

Section 4(a)(3)(A) of the ESA (16 U.S.C. 1533(a)(3)(A)) requires that, to the maximum extent prudent and determinable, critical habitat be designated, concurrently, with the listing of a species. Section 4(b)(6)(C)(ii) of the ESA, 16 U.S.C. 1533(b)(6)(C)(ii), provides for additional time to promulgate a critical habitat designation if such designation is not determinable at the time of final listing of a species. Designations of critical habitat must be based on the best scientific data available and must take into consideration the economic and other relevant impacts of specifying any particular area as critical habitat.

NMFS has determined that designation of critical habitat is not determinable at this time. NMFS will complete ongoing research and gather and review other ongoing studies on the habitat use and requirements of smalltooth sawfish to attempt to identify smalltooth sawfish nursery and breeding areas. Once these and other habitat areas are identified and mapped, NMFS will publish, in a separate rule, a proposed designation of critical habitat for the U.S. DPS of smalltooth sawfish, to the maximum extent prudent and determinable.

#### Classification

*Regulatory Flexibility Act and Executive Order 12866*

The Conference Report on the 1982 amendments to the ESA notes that economic considerations have no relevance to determinations regarding the status of species. Therefore, the economic analysis requirements of the Regulatory Flexibility Act are not applicable to the listing process. In addition, listing actions are not subject to review under Executive Order 12866.

*National Environmental Policy Act*

The 1982 amendments to the ESA, in section 4(b)(1)(A), restrict the information that may be considered when assessing species for listing. Based on this limitation of criteria for a listing decision and the opinion in *Pacific Legal Foundation v. Andrus*, 675 F.2d 825 (6th Cir.1981), NMFS has concluded that ESA listing actions are not subject to the environmental assessment requirements of the National Environmental Policy Act. (See also NOAA Administrative Order 216–6.)

*Executive Order 13132, Federalism*

Smalltooth sawfish records and data were collected by the status review team from appropriate state fishery managers and incorporated into the Status Review. In keeping with the intent of the Administration and Congress to provide continuing and meaningful dialogue on issues of mutual state and Federal interest, NMFS intends to engage in formal and informal contacts with states, other affected local and regional entities, and those engaged in ongoing conservation and recovery efforts for the smalltooth sawfish.

#### List of Subjects in 50 CFR Part 224

Administrative practice and procedure, Endangered and threatened species, Exports, Imports, Reporting and recordkeeping requirements, Transportation

Dated: March 25, 2003.

**Rebecca Lent,**

*Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.*

■ For reasons set out in the preamble, 50 CFR part 224 is amended as follows:

#### PART 224—ENDANGERED MARINE AND ANADROMOUS SPECIES

■ 1. The authority for part 224 continues to read as follows:

**Authority:** 16 U.S.C. 1531–1543 and 16 U.S.C. 1361 *et seq.*

■ 2. In § 224.101, paragraph (a) is revised by inserting the following text after “Shortnose sturgeon (*Acipenser brevirostrum*)” and before “Totoaba (*Cynoscion macdonaldi*)”: “Smalltooth sawfish (*Pristis pectinata*) in the United States; Atlantic salmon (*Salmo salar*) Gulf of Maine population, including naturally reproducing populations and those river-specific hatchery populations cultured from them;”.

##### Whaling Provisions: Aboriginal Subsistence Whaling Quotas

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notification of aboriginal subsistence whaling quota.

**SUMMARY:** NMFS announces the aboriginal subsistence whaling quota for bowhead whales, and other limitations deriving from regulations adopted at the 2002 Special Meeting of the International Whaling Commission (IWC). For 2003, the quota is 75 bowhead whales struck. This quota and other limitations will govern the harvest of bowhead whales by members of the Alaska Eskimo Whaling Commission (AEWC).

**DATES:** Effective April 1, 2003.

**ADDRESSES:** Office of Protected Resources, National Marine Fisheries Service, 1315 East West Highway, Silver Spring, MD 20910.

**FOR FURTHER INFORMATION CONTACT:** Chris Yates, (301) 713–2322.
