Description: MSHA standards located at 30 CFR 75.215, 75.220, 75.221, 75.222, and 75.223, require that a roof control plan and revisions thereof suitable to the roof conditions and mining system of each coal mine be approved by MSHA before implementation by the mine operator. Mine operators are also required to plot on a mine map each unplanned roof or rib fall and coal or rock burst that occurs in the active workings when certain criteria are met. These information collection requirements are necessary to protect the health and safety of underground coal miners.
