Title: Brownfields Program—Revitalization Grantee Reporting Information Collection Request; (OMB Control Number 2050-NEW; EPA ICR Number 2104.01).

Abstract: The Small Business Liability Relief and Brownfields Revitalization Act (Public Law 107-118) ("the Brownfields Amendments") was signed into law on January 11, 2002. The Act amends the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, and authorizes EPA to award grants to states, tribes, local governments, and other eligible entities to assess and clean up brownfields sites. Under the Brownfields Amendments, a brownfields site means real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. For grant funding purposes, EPA uses the term "brownfields property(ies)" synonymously with the term "brownfields sites." The Brownfields Amendments authorize EPA to award several types of grants to eligible entities on a competitive basis. Under subtitle A of the Small Business Liability Relief and Brownfields Revitalization Act, States, tribes, local governments, and

other eligible entities can receive assessment grants to inventory, characterize, assess, and conduct planning and community involvement related to brownfields properties; cleanup grants to carry out cleanup activities at brownfields properties; grants to capitalize revolving loan funds and provide subgrants for cleanup activities; and job training grants to support the creation and implementation of environmental job training and placement programs.

Grant recipients have general reporting and record keeping requirements as a condition of their grant that result in burden. A portion of this reporting and record keeping burden is authorized under 40 CFR parts 30 and 31 and identified in the EPA's general grants ICR (OMB Control Number 2030-0020). EPA requires Brownfields program grant recipients to maintain and report additional information to EPA on the uses and accomplishments associated with the funded brownfields activities. EPA has prepared several forms to assist grantees in reporting the information and to ensure consistency of the information collected. EPA will use this information to meet Federal stewardship responsibilities to manage and track how program funds are being spent, to evaluate the performance of the Brownfields Cleanup and Redevelopment Program, to meet the Agency's reporting requirements under the Government Performance Results Act, and to report to Congress and other program stakeholders on the status and accomplishments of the grants program. This ICR addresses the burden imposed on grant recipients that are associated with those reporting and recordkeeping requirements that are specific to grants awarded under Subtitle A of the Small Business Liability Relief and Brownfields Revitalization Act. This ICR does not address the burden imposed on grant recipients who are awarded grants under Subtitle C of the Small Business Liability Relief and Brownfields Revitalization Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
