

Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the Congressional Review Act if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary, or contrary to the public interest. This determination must be supported by a brief statement (5 U.S.C. 808(2)). As stated previously, the EPA has made such a good cause finding, including the reasons therefore, and established an effective date of April 7, 2003. The EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the correction in the **Federal Register**. This correction is not a "major rule" as defined by 5 U.S.C. 804(2).

47 CFR Part 73

[DA 03-826; MM Docket No. 01-159; RM-10164; RM-10395]

Radio Broadcasting Services; Comanche, Mullin and Mason, TX

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document denies a petition for rule making filed at the request of Charles Crawford, proposing the allotment of FM Channel 224A at Comanche, Texas as that community's second local FM transmission service (RM-10164). See 66 FR 39473, July 31, 2001. In response to a counterproposal filed by Mullin Broadcasters (RM-10395) this document allots Channel 224C3 to Mullin, Texas, as that community's first local aural transmission service. Our determination was based on the Commission's allotment priorities (*see Revisions of FM Assignment Policies and Procedures*, 90 FCC 2d 88 (1982)), and is consistent with the Commission's policy to allot the highest class channel requested to a community that complies with the technical requirements of the Rules. Additionally, Channel 259A is allotted to Mason, Texas, as a replacement for vacant Channel 224A to accommodate the Mullin, Texas allotment. Coordinates used for Channel 224C3 at Mullin, Texas, are 31-33-24 NL and 98-39-55 WL. Coordinates used for replacement Channel 259A at Mason, Texas, remain unchanged at 30-45-00 NL and 99-14-00 WL. As Mason is located within 320 kilometers of the U.S.-Mexico border, the Mexican government will be advised of the channel substitution at that community. With this action, this docketed proceeding is terminated.

DATES: Effective May 5, 2003. A filing window for Channel 224C3 at Mullin, Texas, and for Channel 259A at Mason, Texas, will not be opened at this time. Instead, the issue of opening this allotment for auction will be addressed by the Commission in a subsequent Order.
