

Applicants must refer to the specific evaluation criteria for each competitive area contained in the full Program Announcement in order to adequately prepare their applications.

Criterion 6: Budget and Budget Justification (10 points)

Applicants will be expected to provide a detailed line item budget and a narrative budget justification that describes how the categorical costs are derived. Applicants will be judged on how clearly they discuss the necessity, reasonableness, and allocability of the proposed costs and how clearly they describe the fiscal control and accounting procedures that will be used to ensure prudent use, proper disbursement and accurate accounting of funds received.

Applicants must refer to the specific evaluation criteria for each competitive area contained in the full Program Announcement in order to adequately prepare their applications.

Part II. Notification Under Executive Order 12372—State Single Point of Contact (SPOC)

This program is covered under Executive Order (E.O.) 12372, "Intergovernmental Review of Federal Programs", and 45 CFR part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities". Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs. (**Note:** State/territory participation in the intergovernmental review process does not signify applicant eligibility for financial assistance under a program. A potential applicant must meet the eligibility requirements of the program for which it is applying prior to submitting an application to its SPOC, if applicable, or to ACF.)

As of January 2003, of the most recent SPOC list, the following jurisdictions have elected not to participate in the Executive Order process. Applicants from these jurisdictions or for projects administered by Federally-recognized Indian tribes need take no action in regard to E.O. 12372: Alabama, Alaska, Colorado, Connecticut, Hawaii, Idaho, Kansas, Louisiana, Massachusetts, Minnesota, Montana, Nebraska, New Jersey, New York, Ohio, Oklahoma, Oregon, Palau, Pennsylvania, South Dakota, Tennessee, Vermont, Virginia and Washington.

Although the jurisdictions listed above no longer participate in the process, entities which have met the eligibility requirements of the program

are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. All remaining jurisdictions participate in the Executive Order process and have established SPOCs. Applicants from participating jurisdictions should contact their SPOCs as soon as possible to alert them of the prospective applications and receive instructions. Applicants must submit any required material to the SPOCs as soon as possible so that the program office can obtain and review SPOC comments as part of the award process. The applicant must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards.

SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to: Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants and Audit Resolution, 370 L'Enfant Promenade, SW., Mail Stop 6C-462, Washington, DC 20447. The official list, including addresses, of the jurisdictions elected to participate in E.O. 12372 can be found at <http://www.whitehouse.gov/omb/grants/spoc.html>.

Note: Inquiries about obtaining a Federal grant should not be sent to OMB.

Dated: April 2, 2003.

Frank Fuentes,

Deputy Commissioner, Administration on Children, Youth and Families.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Submission for OMB Review; Comment Request; 2003 California Health Interview Survey (CHIS) Cancer Control Module (CCM)

Summary: Under the provisions of Section 3507(a)(1)(D) of the Paperwork

Reduction Act of 1995, the National Cancer Institute (NCI), the National Institutes of Health (NIH) has submitted to the office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on October 3, 2002, pages 62067 and 62068 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: 2003 California Health Interview Survey (CHIS) Cancer Control module (CCM). Type of Information Collection Request: New. Need and Use of Information Collection: NCI sponsored a Cancer Control Modules to the National Health Interview Survey (NHIS) and to the California Health Interview Survey (CHIS) administered in 2000. While the NHIS data have proven extremely useful in monitoring risk factors and screening related to cancer control, the national sample does not provide adequate numbers of racial-ethnic minorities to analyze particular domains within them, such as age by gender and income or education. The CHIS telephone survey, administered for the first time in 2000-2001, is designed to provide population-based, standardized health-related data for California counties. Initiated by the California Department of Health Services (CDHS) Center for Health Statistics, the Public Health Institute (PHI), and the UCLA Center for Health Policy Research (UCLA), the survey is largely funded by California sources. The 2000 CHIS CCM is similar in content to the 2000 NHIS CCM, and met its target of one sample adult in 55,000 households. California, the most populous state in the Nation, is also the most racially and ethnically diverse. Specific populations of interest include Black or African American, Hispanic or Latino, Asian, Native Hawaiian or Other Pacific Islander, and American Indian or Alaska Native. The CHIS data was released in July 2002. NCI is using the CHIS and NHIS data from 2000/2001 to better estimate health-related behaviors and cancer risk factors for smaller racial/ethnic minority populations. Preliminary analyses suggest that the CHIS will provide improved estimates for cancer risk factors and screening
