

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Administration for Children and Families****Proposed Information Collection Activity; Comment Request**

Proposed Projects: Title:
Implementation of the Head Start National Reporting System on Child Outcomes.

OMB No.: New collection.

Description: The Administration for Children, Youth and Families (ACYF), Administration for Children and Families (ACF) of the Department of Health and Human Services (DHHS) is requesting comments on plans to implement the Head Start National Reporting System on Child Outcomes. This implementation is being conducted to collect child outcomes information

that will be used to enhance Head Start program quality and accountability.

The Head Start National Reporting System (HSNRS) has three major goals. First, the HSNRS will provide teachers and local programs with additional information regarding child progress by reporting on how children are doing at the beginning and end of the program in a limited number of areas. Second, the HSNRS will create a new national system of data on child outcomes from every local Head Start agency for use in planning targeted training and technical assistance services to strengthen program effectiveness. Third, the HSNRS child outcomes information will be used within Head Start Bureau monitoring of local Head Start agencies, to strengthen program accountability for outcomes.

This effort will ensure that every Head Start program will assess in a

consistent fashion the progress made by every child in a limited set of early literacy, language, and numeracy skills. All Head Start children who are 4 years old or older will be administered a direct child assessment twice a year, the data analyzed, and the findings reported to the Head Start Bureau, ACF Regional Offices and local Head Start agencies. The HSNRS assessment is designed to create aggregate data on the progress of groups of children at the center and program levels. It is not designed to report on the school readiness of individual Head Start children.

Respondents: Head Start children and Head Start staff.

Annual Burden Estimates: Estimated Response Burden for Respondents to the Full National Implementation of the Head Start National Reporting System on Child Outcomes.
