

subsistence halibut registration system given in the preamble to the proposed rule and as contemplated in the response to comments 13 and 30 above.

9. Section 300.65(g)(1) describes the type of gear to be used for subsistence halibut fishing. The proposed rule contained a typographical error using the word "jigging" to describe jig gear. Because this section lists gear types and not activities, the word "jigging" in the proposed rule is changed to "jig" in the final rule. This correction does not substantively change the requirements of this paragraph, only corrects a grammatical error.

10. Section 300.65(h)(2) describes the registration process for subsistence halibut fishing. The proposed rule stated that a person may submit an application to a cooperative Alaska Native tribal government or other entity designated by NMFS or directly to NMFS. Only NMFS has the authority to register participants in the subsistence fishery. Application may be submitted to a cooperative Alaska Native tribal government or other entity designated by NMFS which may forward the applications to NMFS for registration. The text in § 300.65(h)(2) is corrected in the final rule to indicate that the cooperative Alaska Native tribal government or other entity designated by NMFS will forward the applications to NMFS. This correction will ensure that participants understand that the application must ultimately arrive at NMFS to complete the registration process. This correction does not substantively change the requirements of this section, only clarifies the area of responsibility in the registration process.

11. Section 300.66 is changed from the proposed rule in the final rule by adding paragraph (j) that prohibits the filleting, mutilating, or disfiguring of subsistence halibut. This prohibition is consistent with prohibitions already in place for commercially and sport caught halibut and is necessary to allow the counting of subsistence halibut to determine compliance with the bag limits at 50 CFR 300.65(g)(2). The fish can not be counted if they are filleted, mutilated, or disfigured. Therefore, compliance with the bag limits are enforceable only with this prohibition.

12. Section 300.65(g)(3)(iii) is changed from the proposed rule by substituting the word "excludes" for the word "includes." This change makes this paragraph of the regulatory text consistent with Figure 4. This paragraph describes the Anchorage/Matsu/Kenai non-subsistence area in Cook Inlet which is depicted in Figure 4. The description of this non-subsistence area

is based on the existing definition in the Alaska Administrative Code at 5 AAC 01.555(b), May 14, 1993. In the State regulation, the Tyonek Subdistrict is excluded from the Anchorage/Matsu/Kenai non-subsistence area as it is correctly depicted in Figure 4. The text of the proposed rule at section 300.65(g)(3)(iii), however, indicated that the Tyonek Subdistrict would be included in the Anchorage/Matsu/Kenai non-subsistence area, although this text was not explicitly labeled as the Tyonek Subdistrict. Changing "included" in the proposed rule to "excluded" in this final rule corrects the inconsistency between the regulatory text and Figure 4. The regulatory text that specifies the Tyonek Subdistrict is further labeled as such by adding "Tyonek Subdistrict" in parentheses to further clarify the regulatory text with Figure 4.

This change from the proposed rule will have no practical effect because halibut are not typically found within the Tyonek Subdistrict due to the high silt content of the water in that part of Cook Inlet. Hence, Tyonek is not a community with customary and traditional uses of halibut and is not listed in section 300.65(f)(1).

13. The proposed rule at 300.65(f)(2) identified persons eligible to harvest subsistence halibut if he or she is a member of an Alaska Native tribe as identified in the table. The proposed rule contained a typographical error in Halibut Regulatory Area 4E, identifying "Nuna Iqua" under the Sheldon Point Tribal Headquarters to describe "Nunam Iqua". Similarly, the Organized Tribal Entity for that Headquarters was identified as "Native Village of Sheldon's Point", instead of "Native Village of Sheldon Point". These errors are corrected in this final rule. This correction does not substantively change the requirements of this paragraph, only corrects a typographical error.

14. Section 600.725 describes the authorized gear types to be used for the Pacific halibut fishery. The proposed rule contained a typographical error using the word "jigging" to describe jig gear under paragraph C. Because this section lists authorized gear types, and not activities, the word "jigging" in the proposed rule is changed to "jig" in the final rule. This correction does not substantively change the requirements of this paragraph, only corrects a grammatical error.

Classification

This rule contains collection-of-information requirements subject to the Paperwork Reduction Act (PRA) and which have been approved by OMB

under control number 0648-0460. These requirements and their associated burden estimates per response are: 10 minutes for Subsistence halibut registration; 30 minutes for Subsistence halibut harvest report/survey; and 15 minutes for Subsistence halibut gear marking. These response times include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate, or any other aspect of this data collection, including suggestions for reducing the burden, to NMFS and OMB (see ADDRESSES).

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB Control Number.

This rule has been determined to be not significant for purposes of E.O. 12866.

In developing this rule, NMFS consulted with Alaska Native tribes, as defined in this rule, pursuant to E.O. 13175. This consultation was conducted through direct mailings to the affected tribes, meetings with the Alaska Native Subsistence Halibut Working Group organized by the Rural Alaska Community Action Program to represent all Native subsistence halibut users, and public meetings of the Council and its advisory bodies including the Halibut Subsistence Committee.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration that the proposed rule for this action would not have a significant economic impact on a substantial number of small entities. The factual basis for the certification was published in the proposed rule. No regulatory flexibility analysis (RFA) was prepared. No comments or new information were received during the comment period that caused us to reevaluate the basis for the original determination, or to prepare a RFA.
