Final Results of Review

We determine that the following weighted-average margin exists for the collapsed parties, CEMEX and GCCC, for the period August 1, 2000, through July 31, 2001:

Exporter/manufacturer	Weighted-average percentage margin
CEMEX/GCCC	73.74

Assessment Rates

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. We will issue appropriate assessment instructions directly to the Customs Service within 15 days of publication of these final results of review. In accordance with 19 CFR 351.212(b), we have calculated an exporter/importer-specific assessment value. For the sales in the United States through the respondent's affiliated U.S. parties, we divided the total dumping margin for the reviewed sales by the total entered value of those reviewed sales. We will direct the Customs Service to assess the resulting percentage margin against the entered customs values for the subject merchandise on each of the entries during the review period (see 19 CFR 351.212(a)).

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Cash-Deposit Requirements

The following deposit requirements shall be effective upon publication of this notice of final results of administrative review for all shipments of gray portland cement and clinker from Mexico, entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) the cash-deposit rate for CEMEX/GCCC will be 73.74 percent; (2) for previously investigated or reviewed companies not listed above, the cash-deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in

this or any previous reviews or the original less-than-fair-value (LTFV) investigation but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash-deposit rate for all other manufacturers or exporters will continue to be 61.85 percent, which was the "all others" rate in the LTFV investigation. See *Final Determination of Sales at Less Than Fair Value: Gray Portland Cement and Clinker from Mexico*, 55 FR 29244 (July 18, 1990). The deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.210(c).

Dated: January 8, 2003.

Faryar Shirzad,

Assistant Secretary for Import Administration.

ACTION: Notice of Final Results of 2000/2001 Administrative Review and Determination Not to Revoke Order in Part.

SUMMARY: On September 9, 2002, the Department of Commerce published the preliminary results of the administrative review of the antidumping duty order on pure magnesium from Canada. The period of review is August 1, 2000, through July 31, 2001. This review covers imports of pure magnesium from one producer/exporter. We gave interested parties an opportunity to comment on the preliminary results.

Furthermore, we are not revoking the antidumping duty order with respect to pure magnesium from Canada produced by Norsk Hydro Canada, Inc.
