#### The Proposal

The FAA is considering an amendment to Part 71 of the Federal Aviation regulations (14 CFR Part 71) to establish Class E2 airspace and amend Class E5 airspace at Waycross, GA. Class E airspace designations for airspace areas designated as surface areas and airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraphs 6002 and 6005 respectively, of FAA Order 7400.9K, dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
