

directly to the Customs Service within 15 days of publication of these final results of review.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) the cash deposit rate for NHCI will be zero; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less than fair value investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 21.00 percent, the "All Others" rate made effective by the less-than-fair-value investigation. These requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as the only reminder to parties subject to the administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO material or conversion to judicial protective order is hereby requested. Failure to comply with the regulation and the terms of an APO is a sanctionable violation.

This administrative review and notice are published in accordance with sections 751(a)(1) and 771(i) of the Act.

Dated: January 7, 2003.

Faryar Shirzad,
Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 010603C]

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability and request for comment.

SUMMARY: Notice is hereby given that the U.S. Fish and Wildlife Service (USFWS) has submitted 10 Hatchery and Genetic Management Plans (HGMP) pursuant to the protective regulations promulgated for salmon and steelhead in the Columbia River basin listed under the Endangered Species Act of 1973, as amended (ESA). The HGMPs specify the future management of hatchery programs potentially affecting the Lower Columbia River (LCR) chum salmon, LCR chinook salmon, LCR steelhead, Upper Willamette River (UWR) chinook salmon, and Middle Columbia River (MCR) steelhead in the States of Oregon and Washington. This document serves to notify the public of the availability of the HGMPs for review and comment before a final approval or disapproval is made by NMFS.

DATES: Written comments on the draft HGMPs must be received at the

appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific standard time on February 13, 2003.

ADDRESSES: Written comments and requests for copies of the draft HGMPs should be addressed to Richard Turner, Sustainable Fisheries Division, Hatchery and Inland Fisheries Branch, 525 N.E. Oregon Street, Suite 510, Portland, OR 97232 or faxed to (503) 872-2737. The documents are also available on the Internet at <http://www.nwr.noaa.gov/>. Comments will not be accepted if submitted via e-mail or the Internet.

FOR FURTHER INFORMATION CONTACT: Richard Turner, Portland, OR at phone number (503) 736-4737 or e-mail: rich.turner@noaa.gov.

SUPPLEMENTARY INFORMATION: This notice is relevant to the LCR chum salmon (*Oncorhynchus keta*), LCR chinook salmon (*O. tshawytscha*), LCR steelhead (*O. mykiss*), UWR chinook salmon (*O. tshawytscha*), and MCR steelhead (*O. mykiss*) Evolutionarily Significant Units (ESU).

Background

The USFWS has submitted to NMFS 10 HGMPs for artificial propagation programs potentially affecting listed adults and juveniles of the LCR chum salmon, LCR chinook salmon, LCR steelhead, UWR chinook salmon, and MCR steelhead ESUs (Table 1). The Little White Salmon/Willard National Fish Hatchery (NFH) Complex rears and releases spring chinook salmon, upriver bright fall chinook salmon, and coho salmon. These programs use hatchery adults that return annually to the Little White Salmon NFH at the mouth of the Little White Salmon River in the state of Washington for broodstock. The spring chinook salmon and coho salmon artificial propagation programs are funded by NMFS through the Mitchell Act, and the upriver bright fall chinook salmon program is funded by the U.S. Army Corps of Engineers as part of the John Day Dam mitigation program.
