BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8027]

Sequoyah Fuels Corp.; Notice of Receipt of Amendment Request and Opportunity To Request a Hearing

I. Introduction

The U. S. Nuclear Regulatory Commission (NRC) has received, by letter dated January 28, 2003, a request from Sequoyah Fuels Corp. (SFC) for approval of a license amendment to Materials License SUB-1010, to address clean up and reclamation of the SFC site.

The SFC facility, located near Gore, Oklahoma, operated from 1970 to 1993, converting uranium oxide (yellowcake) to uranium hexafluoride, a step in the production of nuclear reactor fuel. From 1987 to 1993, the facility was also used to convert depleted uranium hexafluoride to uranium tetrafluoride. The facility is currently licensed only to possess radioactive material. Originally, the license only permitted possession of source material. However, in a Staff Requirements Memorandum to SECY-02-0095, dated July 25, 2002, the Commission concluded that some of the waste at the SFC site could properly be classified as byproduct material as defined in section 11e.(2) of the Atomic Energy Act of 1954 as amended (AEA).

In response to a request from SFC, on December 11, 2002, NRC amended the license to allow possession of 11e.(2) byproduct material, in addition to source material.

In its reclamation plan, SFC proposes to build a disposal cell on the site and put the radioactive waste in that cell. The cell is designed to meet the requirements, in 10 CFR part 40, appendix A, for disposal of 11e.(2) byproduct material. SFC also requested permission to dispose of source material wastes in the cell, under the guidance in Attachment 1 to NRC Regulatory Issue Summary 2000-23 (November 30, 2000).

The staff will review SFC's request for conformance with 10 CFR Parts 20 and 40, using NUREG-1620, "Standard Review Plan for the Review of a

Reclamation Plan for Mill Tailings Sites Under Title II of the Uranium Mill Tailings Radiation Control Act" and other applicable agency regulations and guidance. If NRC approves SFC's request, the approval will be documented in an amendment to SFC's license. However, before approving the request, NRC will need to make the findings required by the AEA and NRC regulations. These findings will be documented in a Technical Evaluation Report and an Environmental Impact Statement.

II. Opportunity To Request a Hearing

The NRC hereby provides notice that this is a proceeding on an application for an amendment of a license falling within the scope of Subpart L, "Informal Hearing Procedures for Adjudications in Materials and Operator Licensing Proceedings" of NRC's rules and practice for domestic licensing proceedings in 10 CFR part 2. Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(d). A request for a hearing must be filed within 30 days of the publication of this **Federal Register** notice.

The request for a hearing must be filed with the Office of the Secretary, either:

(1) By delivery to the Rulemaking and Adjudications Staff of the Office of the Secretary of the Commission at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, between 7:45 a.m. and 4:15 p.m., Federal workdays; or

(2) By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Rulemaking and Adjudications Staff. Because of continuing disruptions in the delivery of mail to United States Government offices, it is requested that requests for hearing also be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101, or by e-mail to hearingdocket@nrc.gov.

In accordance with 10 CFR 2.1205(f), each request for a hearing must also be served, by delivering it personally or by mail, to:

(1) The applicant, Sequoyah Fuels Corporation, P.O. Box 610, Gore, Oklahoma, Attention: Mr. John Ellis; and

(2) The NRC staff, by delivery to the Office of the General Counsel, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, between 7:45 a.m. and 4:15 p.m., Federal workdays, or by mail addressed to the
