

lacked sufficient quality assurance and quality control requirements necessary for EPA compliance assurance requirements: ASTM D3154–91, “Standard Method for Average Velocity in a Duct (Pitot Tube Method),” for EPA Methods 1, 2, 2C, 3, 3B, and 4 of 40 CFR part 60, appendix A; ASTM D5835–95, “Standard Practice for Sampling Stationary Source Emissions for Automated Determination of Gas Concentration,” for EPA Method 3A of 40 part 60, appendix A; ISO 10396:1993, “Stationary Source Emissions: Sampling for the Automated Determination of Gas Concentrations,” for EPA Method 3A of 40 CFR part 60, appendix A; and ISO 9096:1992, “Determination of Concentration and Mass Flow Rate of Particulate Matter in Gas Carrying Ducts—Manual Gravimetric Method,” for EPA Method 5 of 40 CFR part 60, appendix A.

The following three of the nine voluntary consensus standards identified in this search were not available at the time the review was conducted for the purposes of the proposed rulemaking because they are under development by a voluntary consensus body: ASME/BSR MFC 13M, “Flow Measurement by Velocity Traverse,” for EPA Method 1 (and possibly 2) of 40 CFR part 60, appendix A; ISO/DIS 12039, “Stationary Source Emissions—Determination of Carbon Monoxide, Carbon Dioxide, and Oxygen—Automated Methods,” for EPA Method 3A of 40 CFR part 60, appendix A; and ASTM D6348–98, “Determination of Gaseous Compounds by Extractive Direct Interface Fourier Transform (FTIR) Spectroscopy,” for EPA Method 320 of 40 CFR part 63, appendix A. While we are not proposing to include these three voluntary consensus standards in today’s proposal, we will consider the standards when final.

For the voluntary consensus standard, ASTM D6348–98, Determination of Gaseous Compounds by Extractive Direct Interface Fourier Transform (FTIR) Spectroscopy, we have submitted comments to ASTM regarding EPA’s technical evaluation of ASTM D6348–98. Currently, the ASTM Subcommittee D22–03 is undertaking a revision of the ASTM standard in part to address EPA’s comments. Upon successful ASTM balloting and demonstration of technical equivalency with the EPA’s FTIR methods, the revised ASTM standard could be incorporated by reference into the proposed rule at a later date.

We are taking comment on the compliance demonstration requirements in the proposed rulemaking and specifically invite the public to identify

potentially-applicable voluntary consensus standards. Commenters should also explain why the proposed rule should adopt these voluntary consensus standards in lieu of or in addition to EPA’s standards. Emission test methods and performance specifications submitted for evaluation should be accompanied with a basis for the recommendation, including method validation data and the procedure used to validate the candidate method (if a method other than Method 301, 40 CFR part 63, Appendix A, was used).

Tables 3 and 5 of proposed subpart YYYYY list the EPA testing methods and performance standards included in the proposed rule. Under § 63.8 of 40 CFR part 63, subpart A, a source may apply to EPA for permission to use alternative monitoring in place of any of the EPA testing methods.

#### List of Subjects in 40 CFR Part 63

Environmental protection, Administrative practice and procedure, Air pollution control, Hazardous substances, Intergovernmental relations, Reporting and recordkeeping requirements.

Dated: November 26, 2002.

**Christine Todd Whitman,**  
*Administrator.*

For the reasons set out in the preamble, title 40, chapter I, part 63 of the Code of the Federal Regulations is proposed to be amended as follows:

#### PART 63—[AMENDED]

1. The authority citation for part 63 continues to read as follows:

**Authority:** 42 U.S.C. 7401, *et seq.*

2. Part 63 is proposed to be amended by adding subpart YYYYY to read as follows:

#### Subpart YYYYY—National Emission Standards for Hazardous Air Pollutants for Stationary Combustion Turbines

##### What This Subpart Covers

Sec.

63.6080 What is the purpose of subpart YYYYY?

63.6085 Am I subject to this subpart?

63.6090 What parts of my plant does this subpart cover?

63.6092 Are duct burners and waste heat recovery units covered by subpart YYYYY?

63.6095 When do I have to comply with this subpart?

##### Emission and Operating Limitations

63.6100 See What emission and operating limitations must I meet?

##### General Compliance Requirements

63.6105 What are my general requirements for complying with this subpart?

#### Testing and Initial Compliance Requirements

63.6110 By what date must I conduct the initial performance tests or other initial compliance demonstrations?

63.6115 When must I conduct subsequent performance tests?

63.6120 What performance tests and other procedures must I use?

63.6125 What are my monitor installation, operation, and maintenance requirements?

63.6130 How do I demonstrate initial compliance with the emission and operating limitations?

#### Continuous Compliance Requirements

63.6135 How do I monitor and collect data to demonstrate continuous compliance?

63.6140 How do I demonstrate continuous compliance with the emission and operating limitations?

#### Notifications, Reports, and Records

63.6145 What notifications must I submit and when?

63.6150 What reports must I submit and when?

63.6155 What records must I keep?

63.6160 In what form and how long must I keep my records?

#### Other Requirements and Information

63.6165 What parts of the General Provisions apply to me?

63.6170 Who implements and enforces this subpart?

63.6175 What definitions apply to this subpart?

#### Tables to Subpart YYYYY of Part 63

Table 1 to Subpart YYYYY of Part 63.—Emission Limitations

Table 2 to Subpart YYYYY of Part 63.—Operating Limitations

Table 3 to Subpart YYYYY of Part 63.—Requirements for Performance Tests and Initial Compliance Demonstrations

Table 4 to Subpart YYYYY of Part 63.—Initial Compliance with Emission Limitations

Table 5 to Subpart YYYYY of Part 63.—Continuous Compliance with Emission Limitations

Table 6 to Subpart YYYYY of Part 63.—Continuous Compliance with Operating Limitations

Table 7 to Subpart YYYYY of Part 63.—Requirements for Reports

Table 8 to Subpart YYYYY of Part 63.—Applicability of General Provisions to Subpart YYYYY

#### What This Subpart Covers

##### § 63.6080 What is the purpose of subpart YYYYY?

Subpart YYYYY establishes national emission limitations and operating limitations for hazardous air pollutants (HAP) emissions from stationary combustion turbines located at major sources of HAP emissions and requirements to demonstrate initial and continuous compliance with the emission and operating limitations.
