D. Description of Projected Reporting, Recordkeeping, and Other Compliance Requirements for Small Entities

16. As noted, we have sought comment on the need for additional minimum requirements for third party verification calls in order to maximize their accuracy and efficiency for consumers, carriers, and the Commission. These additional possible requirements address issues we have seen repeatedly in our enforcement of the slamming liability rules. We do not believe that adoption of any or all of the proposals would create the need for any additional professional skills beyond those already employed to comply with the current third party verification rules.
