IV. What Information Collection Activity or ICR Does This Action Apply to?

EPA is seeking comments on the following ICR:

Title: Compliance Requirement for Child-Resistant Packaging.

ICR numbers: EPA ICR No. 0616.08, OMB Control No. 2070-0052.

ICR status: This ICR is a renewal of an existing ICR that is currently approved by OMB and is due to expire January 31, 2004.

Abstract: This information collection program is designed to provide EPA with assurances that the packaging of pesticide products sold and distributed to the general public in the United States meets standards set forth by the Agency pursuant to FIFRA. Registrants must certify to the Agency that the packaging or device meets these standards. Responses to this collection are required in order to obtain pesticide registration. The authority for this information collection is pursuant to section 25 (c)(3) of FIFRA. Compliance regulations are contained in title 40 of the Code of Federal Regulations (CFR) part 157. CBI submitted to EPA in response to this information collection is protected from disclosure under FIFRA section 10.

V. What Are EPA's Burden and Cost Estimates for This ICR?

Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden for this ICR is estimated to be 853.4 hours. The following is a summary of the estimates taken from the ICR:

Respondents/affected entities: Pesticide registrants who sell and distribute pesticide products to the general public in the United States.

Estimated total number of potential respondents: 502.

Frequency of response: Per event.

Estimated total/average number of responses for each respondent: 1.

Estimated total annual burden hours: 853.4.

Estimated total annual burden costs: \$58,232.00.

VI. Are There Changes in the Estimates From the Last Approval?

Total respondent costs associated with this program rose from \$55,019.20 to \$58,232.00. Total Agency costs rose from \$213,751.60 to \$245,176.80. Changes to total costs associated with this program are due to the increase in labor rates, reflecting the most current estimates.

VII. What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
