

Regulated Entities. Categories and entities potentially regulated by this action include:

Category	NAICS code	SIC code	Examples of regulated entities
Industry	325211 326122 325991 326191 327991 327993 332998 33312 33651 335311 335313 335312 33422 336211 336112 336211 33651 33653 336399 33612 336213 336413 336214	2821 3084 3087 3088 3089 3281 3296 3431 3531 3531 3612 3613 3621 3663 3711 3711 3713 3714 3714 3716 3728 3743 3792 3999	Reinforced plastic composites production facilities that manufacture intermediate and/or final products using styrene containing thermoset resins and gel coats.
Federal Government	Federally owned facilities that manufacture intermediate and/or final products using styrene containing thermoset resins and gel coats.

This table is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be regulated by this action. To determine whether your facility is regulated by this action, you should examine the applicability criteria in §§ 63.5785 and 63.5787 of the final NESHAP. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed in the preceding **FOR FURTHER INFORMATION CONTACT** section.

Judicial Review. The NESHAP for Reinforced Plastic Composites Manufacturing were proposed on August 2, 2001 (66 FR 40324). This action announces EPA's final decisions on the NESHAP. Under section 307(b)(1) of the CAA, judicial review of the final NESHAP is available only by filing a petition for review in the U.S. Court of Appeals for the District of Columbia Circuit by June 20, 2003. Under section 307(d)(7)(B) of the CAA, only an objection to a rule or procedure raised with reasonable specificity during the period for public comment can be raised during judicial review. Moreover, under section 307(b)(2) of the CAA, the requirements established by the final rule may not be challenged separately in any civil or criminal proceeding brought to enforce these requirements.

Outline. The information presented in this preamble is organized as follows:

I. Introduction

- What is the purpose of NESHAP?
- What is the source of authority for development of NESHAP?
- What processes and operations are included in the Reinforced Plastic Composites Production source category?

II. Summary of the Final NESHAP

- A. What source categories and subcategories are affected by the final NESHAP?
- B. What are the primary sources of HAP emissions and what are the emissions?
- C. What is the affected source?
- D. What are the HAP emissions limits, operating limits, and other standards?
- E. What are the HAP emissions factor equations in Table 1 to subpart WWW of part 63, and how are they used in the final NESHAP?
- F. When would I need to comply with the final NESHAP?
- G. What are the options for demonstrating compliance?
- H. What are the testing and initial compliance requirements?
- I. What are the continuous compliance requirements?
- J. What are the notification, reporting, and recordkeeping requirements?

III. Summary of Environmental, Energy, and Economic Impacts

- A. What facilities are affected by the final NESHAP?
- B. What are the air quality impacts?
- C. What are the water quality impacts?
- D. What are the solid and hazardous waste impacts?

- E. What are the energy impacts?
- F. What are the cost impacts?
- G. What are the economic impacts?
- V. Summary of Changes Since Proposal
 - A. Above-the-Floor Capture and Control Requirements for Existing Sources
 - B. Replacing the Point Value Equations with HAP Emissions Factor Equations Based on the Unified Emissions Factors, and Changes to Centrifugal Casting HAP Emissions Factors
 - C. MACT Floors for Existing Sources
 - D. Cleaning
 - E. Compression/Injection Molding
 - F. Averaging Provisions
 - G. Pultrusion Compliance Options
 - H. Applicability
 - I. Potential Overlap with the Boat Manufacturing NESHAP (40 CFR Part 63, Subpart VVVV)
 - J. Determination of Resin and Gel Coat HAP Content
 - K. New Source MACT Floors
- 7. Summary of Responses to Major Comments
- 7I. Relationship of the Final NESHAP to Other NESHAP and the CAA Operating Permits Program
 - A. National Emissions Standards for Closed Vent Systems, Control Devices, Recovery Devices, and Routing to a Fuel Gas System of a Process (40 CFR Part 63, Subpart SS)
 - B. NESHAP for Boat Manufacturing (40 CFR Part 63, Subpart VVVV)
 - C. NESHAP for Plastic Parts and Products (Surface Coating)
 - D. Operating Permit Program
- 7II. Statutory and Executive Order Reviews
